April 13, 1955

The following persons representing the Board of County Commissioners of Lane County were present and discussed with the Commission, matters concerning the proposed "Q" Street project between Eugene and Springfield: Ralph Peterson, Chairman; Kenneth Nielsen and Robert Straub, Commissioners, ad Oscar Norburg, County Engineer. Mr. Nielsen, who acted as spokesman, recalled a previous arrangement between the County Court and the Highway Commission whereby the Highway Commission agreed to acquire right of way on the "Q" Street Route between the Ferry Street Bridge in Eugene and 19th Street in Springfield, and Lane County agreed to obtain right of way from 19th Street easterly to a junction with the McKenzie Highway. He explained that owners of some of the property between 19th Street and the McKenzie Highway wish to subdivide their land and that several manufacturing concerns plan to establish business sites in this area. He pointed out that there are two possible routes, the right of way for one of which is estimated to cost $130,000 and for the other $93,000. He also said that the County can acquire the right of way on the shorter route estimated at $93,000, but not the other. He suggested as an alternative that the County contribute $100,000 and let the State handle the matter from that point on, including selection of the route. The County money, he said, will be available by July 1, 1955. He explained that an early decision is necessary because property owners have plans for immediate development of the area just west of 19th Street; in fact, they must know the Commission's decision by Friday, April 15 at 10:00a.m. The Engineer stated that no definite route has been decided east of 19th Street, but it appears that the longer route may be the most satisfactory as the ultimate location; however, he would have to study the situation before rendering a report. He inquired if the County is willing to contribute $130,000 toward the cost of right of way along the longer route. County Judge Ralph Peterson gave as his feeling that the County would be willing to contribute such sum. County Commissioners Robert Straub and Kenneth Nielsen stated that they too approve a $130,000 contribution, making the action unanimous.

Chairman Chandler mentioned receipt of a petition from residents of Springfield objecting to the route favored by the Board of County Commissioners. Mr. W. A. Swanson, who was present representing the petitioners, stated that he owns a business establishment at 36th and Commercial Street in Springfield and as one of the signers of the petition he has no objection to the proposed "Q" Street Route from the Ferry Street Bridge to 19th Street, but he does object to the proposed routing of the highway east of 19th Street in the immediate future. He proposed adoption of a route along Commercial Street,which he said, permits easy access via 42nd Street for traffic from the Lowell, Fall Creek and Jasper districts. He stated that it would cost approximately $100,000 to fix up the Commercial Street Route. Chairman Chandler stated that an agreement has been reached whereby the State is to acquire right of way from the Ferry Street Bridge to 19th Street. Mr. Swanson again stated that it is only beyond 19th Street that they object to the routing recommended by the County Commissioners. He urged the Commission to defer action for further study.

Chairman Chandler advised that the Commission is committed to

construction of the "Q" Street route up to 19th Street, but not beyond that point. He gave as his feeling that right of way should be acquired at once up to 19th Street and that further study should be given to adoption of a route east of that street. Mr. Nielsen concluded the County's presentation by stating that the County will contribute $130,000 toward the cost of right of way east of 19th Street along any route that the Highway Commission may select; also, that the County will be happy with the routing along Commercial Street as suggested by Mr. Swanson, if that is the route the Commission selects. The Commission advised that the matter cannot be decided until additional information is available.

Footnote: (Discussion of the project was resumed on the following day. At that time, the Engineer exhibited a map of the "Q" Street Route and recommended adoption of the survey from the Ferry Street Bridge intersection to 19th Street, and that right of way be acquired as soon as possible provided the County will contribute the sum of $130,000 toward the cost of right of way beyond 19th Street, and will take over the Fox Hollow Secondary Highway. Mr. Nielsen, who was present, stated that such proposal is agreeable with the Lane County Commissioners and that in his opinion it would be better to turn the money over to the State and let the State acquire right of way from 19th Street to the McKenzie Highway on a route of their own choosing. The money, he added, will be available by July 1, 1955. The Engineer suggested if the Commission adopts the survey from Ferry Street to 19th Street, that a survey then be made from 19th Street to a connection with the McKenzie Highway and when that survey is completed and adopted that the Commission authorize acquisition of necessary right of way with no commitment whatsoever as to when construction takes place. In reply to an inquiry from Chairman Chandler whether or not the County will take over the Fox Hollow Secondary Highway tomorrow if the Commission today adopts the survey up to 19th Street, Mr. Nielsen replied in the affirmative. Commissioner Reynolds then moved adoption of the "Q" Street Route as presented by the Engineer, from its intersection at the Ferry Street Bridge Approach to 19th Street in Springfield, that the Commission accept the sum of $130,000 from Lane County to apply on right of way costs east of 19th Street and proceed with the survey of such section with no commitment as to construction, upon condition that the County takes over the Fox Hollow Road for future maintenance, effective April 15, 1955, and that a survey be made of the "Q" Street Route from 19th Street to a junction with the McKenzie Highway when the conditions have been satisfied. Commissioner McIver seconded the motion and it was declared unanimous by Chairman Chandler. The Commission thereupon approved the "Q" Street survey up to 19th Street by adoption of the attached resolution relative thereto marked EXHIBIT "H-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.) (See additional entry ahead.)

Hon. C. W. Craddock, County Judge of Harney County, came before the Commission and asked for the modernization of the French Glen State Secondary Highway to eliminate curves on the Wrights Point Section. The County, he stated, will build the south unit, using F. A. S. funds but wants the State to construct the north unit. He alleged that the improvement is

the most important one in the County. Chairman Chandler stated that the Commission would discuss the matter with the Engineer and would try to give him an answer before adjournment on the following day. (In the afternoon of the following day the matter was again discussed. The Engineer explained that in order to use Federal-aid County Road Funds on this project, it is necessary for the County to agree to the expenditure of these funds for improvement of a State Secondary Highway because the County cannot use the funds and perform the work with its own forces. This matter, he stated, has been discussed with the County Court which has agreed to use approximately $26,000 of Federal-aid County Road Funds to improve the south unit and will submit a letter confirming the understanding. Judge Craddock, who was present, confirmed the Engineer's statement. The Engineer also stated that the Bureau of Public Roads has indicated its approval of the arrangement provided the work is done by contract. He estimated the cost to construct the north section at $30,000 and the south section at $26,000. He recommended that the entire job be let in one contract. The Commission approved the project as outlined by the Engineer.) (See additional entry ahead)

The Parks Superintendent reported on the following matters pertaining to State parks:

1. Request of Matt Erickson, Grand Ronde, for a permit to use an existing road across Van Duzer Forest Corridor adjoining the Salmon River Highway: The Parks Superintendent advised that Mr. Erickson, who owns property to the south of the Van Duzer Corridor in the NW$\frac{1}{4}$ of the SE$\frac{1}{4}$ of Sec. 15, T.6S.; R.9W., W.M. wants to use an old logging road across the Corridor which joins the Salmon River at Highway Engineer's Station 592+75. Mr. Erickson, he stated, has agreed to maintain the bridge structure at his own expense. He recommended that the permit be granted. The Commission approved the recommendation.

2. Acceptance of a permit from the U. S. Forest Service for development and use of Lakeshore Forest Camp on Detroit Lake on the North Santiam Secondary Highway: The Parks Superintendent presented a form of agreement covering use of this area which is located near the east end of the lake, and includes the Mongold boat ramp and access point about one mile west of the Lakeshore Forest Camp. He said that the agreement contains the usual provisions required by federal law, such as requiring use for recreational purposes only, and runs for a period of 30 years. Upon his favorable recommendation, the Commission approved the agreement.

3. Acceptance of a deed covering the new park area at Fort Stevens in Clatsop County: The Parks Superintendent stated that a deed has been received from Clatsop County conveying to the State, 761 acres of land commonly known as the Coffenbury Lake Area immediately south of old Fort Stevens. The deed, he pointed out, contains some restrictions concerning oil and mineral leases and is so worded that if the oil and mineral rights are exercised, Clatsop County will

pay the value of such portions of the surface and damage to improvements which may result because of mining or drilling operations. It was his opinion that the investment of the State in the area would be protected under the deed, and it was his recommendation that the deed be accepted. The Commission accepted the deed as recommended.

4. Acceptance of a gift from Coos County consisting of 8.77 acres of tide land adjoining Bandon State Park: The Parks Superintendent pointed out that the deed of conveyance provides that the County shall retain oil and mineral rights. He recommended acceptance of the gift notwithstanding this proviso inasmuch as no expenditure was made in acquiring the property and no development is contemplated. The Commission adopted the recommendation.

5. The Commission accepted the Parks Superintendent's report covering park activities during the year 1954.

6. Request of Mrs. Albert Powers, State Regent, D.A.R., that the State purchase from her for the sum of $1,750 a five-acre tract containing a fine stand of myrtle timber along the Powers Secondary Highway in Coos County: The Parks Superintendent advised that this is a beautiful area located in Sec. 16, T. 3 S., R. 12 W., between the highway and the Coquille River. He requested authority to have the property appraised. The Commission granted the request and instructed the Parks Superintendent to report the results thereof together with a map showing the location of the property, and his recommendation whether or not the property fits into the park program and should be acquired.

7. Request of E. W. Homstad, Blaine, Oregon, for permission to use a portion of the Cape Lookout Park Road in connection with the harvesting of timber on adjoining property: The Parks Superintendent explained that Mr. Homstad's operations require the use of a one-half mile section of the park road in removing his timber because it is not practical to construct or utilize any other road. Mr. Homstad, he said, has signed an agreement containing the usual requirements relating to use of the road and has posted a $2,500 bond to cover any damage that may result to the road. He recommended approval of the request subject to the terms of the agreement. The Commission accepted the recommendation.

8. Acceptance of a deed from Douglas County conveying to the State the Susan Creek Park area on the North Umpqua River east of Roseburg: The Parks Superintendent reported receipt of the deed from the County. He pointed out that the deed contains reservations for two summer homes now located on the property which expire on June 9, 1958, when the buildings are to be removed. He gave as his feeling that the homes do not constitute a serious problem and that they will not interfere in the normal development of the park area. Upon his favorable recommendation, the Commission accepted the deed.

The Parks Superintendent also mentioned that the remainder of the

park area will be acquired by permit or other instrument from the U.S. Bureau of Land Management and should be forthcoming in the near future.

9. Proposed state park at the mouth of the Deschutes River: Commissioner Reynolds reported that the Wasco County Planning Commission and The Dalles Chamber of Commerce are investigating the feasibility of establishing a park at the mouth of the Deschutes River, and are of the feeling that a park should be established there and that it should be developed as a State Park. The Parks Superintendent was instructed to look into the possibilities of the area for state park purposes and to submit a report concerning feasibility of the project when the County groups have finished their study.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m., with the same persons present and participating.

Mr. William C. Murphy, Portland, appeared before the Commission regarding the plans of the Highway Commission to improve the Wallowa Lake Highway in the City of Minam, particularly as it affects a sawmill that he contemplates purchasing. He said that the sawmill operation requires a great deal of space for drying and log storage and that the land he has at present is not adequate, so if some of it is taken for highway purposes, they will have to curtail their operation or secure an entirely new site. He estimated that their present operation will continue for about ten years. The Engineer stated that the plans provide for rerouting the highway across the mill property. Commissioner Reynolds inquired if the State acquired the right of way across the property, would Mr. Murphy be satisfied to operate on a lease for a specified number of years. Mr. Murphy replied in the affirmative and added that they may not need the property more than ten years. The Commission then advised that the matter would be discussed further and that a decision would be reached on the following day. (Discussion was resumed on the following day with Mr. Murphy being present. At that time Mr. Murphy was told that the Commission will not interfere with the present operation of the sawmill, but if it develops that the highway improvement must go forward before the mill is shut down, then the Commission will consider an alternate location.) (See additional entry ahead.)

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for State Highway improvements and for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein except as noted below, by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Note: Relative to the properties required for the S. E. Flavel Street-Southern Pacific Railroad Overcrossing project on the Cascade Secondary Highway, the Commission granted the Right of Way Engineer's request that he be authorized to review all of those acquisitions and, if in

his opinion, it would be to the State's advantage to acquire the properties by condemnation, that this be done after clearing with the members of the Commission by telephone.

The Right of Way Engineer reported a settlement of the Sturtevant property on the Beaverton-Hillsdale Highway (S. D. Hickocks, et al., File No. 22319). He recalled that at the previous meeting Mr. Sturtevant appeared with his attorney and demanded permission to move a quonset hut type building over state highways, which request was denied. The original settlement for this property, he stated, was based on the premise that the quonset hut would be moved to the back of Mr. Sturtevant's property and that the State would fill in the area. However, Mr. Sturtevant elected to sell the old building with the thought that it could be moved over highways and city streets to a location in East Portland, and accordingly constructed a new building for his purposes. He further stated that Mr. Sturtevant alleged misrepresentation by the State's agents so a review of the facts was ordered by the Commission. As a result of further negotiations, he said, Mr. Sturtevant has agreed to accept the sum of $1,000 as complete settlement of his claim, which is the approximate cost of making the fill. Upon the Right of Way Engineer's favorable recommendation, the Commission approved the settlement for $1,000.

The Commission approved the Right of Way Engineer's request for authority to negotiate purchase of the following properties for which no authority previously has been granted:

COUNTY AND SECTION	FILE NO. AND NAME	PURPOSE	HIGHWAY
Curry			
Bandon-Port Orford	22968-Burt	Quarry Site	Oregon Coast
	22967-Clark	Quarry Site	Oregon Coast

Mr. F. E. Andrews, Division Engineer of the Bureau of Public Roads, appeared before the Commission concerning a change in the 1956 fiscal year Forest Highway Program as it pertains to the Cascade Lakes Forest Highway in Deschutes County. He stated that a light bituminous treatment previously applied in 1950 on an 8.3 mile section is now showing evidence of weakness, and he recommended that the previously proposed work be extended to include a single bituminous surface treatment over this 8.3 mile section without any increase in funds. The Commission approved the program change as recommended and signed a letter to that effect.

The Commission considered and upon the Right of Way Engineer's favorable recommendation, confirmed the sale of miscellaneous items by the Property Manager since the last Commission meeting. (For details of the items sold, see Miscellaneous Sales Report dated April 13-14, 1955, in the Commission's files in Salem.)

The Right of Way Engineer reported that in acquiring right of way for the Beaverton-Reedsville Section of the Tualatin Valley Highway, it will be necessary to readjust two Bonneville transmission towers. The Bonneville Power Administration has estimated the cost of the work at $4,700 and has asked the State to deposit that amount with them. After the work has been completed, the State will be charged for the actual cost which may be more or less than the deposit. The Right of Way Engineer stated that past experience indicates that their estimates are usually a little low, and he recommended that the deposit be made with the understanding that the State will be reimbursed if the deposit is more than the actual cost of the work or will pay an additional sum if the deposit is too small. The Commission approved the recommendation.

The Commission discussed a report submitted by the Right of Way Engineer showing amounts of highway funds that are invested in right of way for projects that are not yet contracted, the total being $4,868,433.03. The Right of Way Engineer stated that the sum of $17,761 should be added for right of way purchased for the Murray Road Section of the Sunset Highway. The Commission accepted the report.

Consideration was given to a request from Mr. Ivan Nye for a temporary logging access at Highway Engineer's Station 199+50 on the northerly side of the Toledo-Newport Section of the Corvallis-Newport Highway. The Right of Way Engineer recommended that a permit be granted to expire May 31, 1955, on condition that Mr. Nye shall pay all costs involved. The Commission approved the recommendation.

A "Modification of Agreement" with McLeod Construction Company pertaining to crossing their property between Myrtle Point and Coquille adjacent to the Coos Bay-Roseburg Highway, was considered. The Right of Way Engineer explained that the State is advertising for sale timber on the State quarry site in the NW$\frac{1}{4}$ of the NE$\frac{1}{4}$ of Sec. 30, T.28S., R. 12 W., Coos County, and that this agreement authorizes moving the timber across the McLeod property. The Commission approved the agreement as modified.

The Right of Way Engineer requested authority to offer the following properties for public sale, none of which are required for highway purposes:

A: 9.14 acres on the Gervais Road-Hayesville Section of the Portland-Salem Expressway, Marion County, File Nos. 20936-20937, for a minimum price of $4,650, with complete restriction of access to the expressway.

B: 20 acres on the Goshen-Coast Fork Section of the Pacific Highway, Lane County, File No. 20526, for a minimum price of $4,000 with complete restriction of access to the highway.

C: 19 acres on the Gervais-Hayesville Section of the Portland-Salem Expressway, in Marion County, File No. 20907, for a minimum price of $6,650 with complete restriction of access to the Expressway.

The Commission authorized the sale of all three properties by adopting the attached resolutions relative thereto marked EXHIBITS "B-1", "B-2", and "B-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer reported the results of recent negotiations with the Corvallis Lumber Company for acquisition of its property in Corvallis needed in connection with the proposed rerouting of the Pacific Highway West along First Street in that City. He said that two outside appraisals were secured, one for $73,500 and the other for $90,000; also, that the Lumber Company is asking $125,000 for its property, which amount he cannot reccommend. He gave as his opinion that the property is worth no more than $90,000. As a result of discussion, the Commission ordered that the Lumber Company be informed that the Commission is not interested in acquiring the property unless it can be purchased for $90,000.

The Commission discussed the matter of leasing to the Big Y Super Market, Inc., Eugene, 13,650 square feet of State highway property located on 7th Avenue West in Eugene, at an annual rental rate of $273. The Right of Way Engineer explained that the rate per sq. ft. is the same as this Company is now paying the State for adjoining property; also, that the lease contains the usual six months cancellation clause and provides that the Company shall install curbs, sewers and pave the area at its own cost and expense. In the discussion that followed, the question arose as to the need of the property for highway purposes, and if it would be advisable to sell it. The Commission instructed the Engineer to make a study of the property as to need for future highway use and to submit a report as to whether it should be retained, sold, or leased.

Consideration was given to a proposed settlement with Anna and Roland C. Clark for trespass on their property near Oakridge by the Bureau of Public Roads in securing materials for construction of the Deception Creek-Oakridge Section of the Willamette Highway, which matter was first discussed at the previous meeting. The Right of Way Engineer advised that he has reached an agreement with the Clarks whereby they will accept the sum of $1,000 as complete settlement of their claim. The Commission approved such settlement.

Attention was given to the modification of a lease with Mr. and Mrs. Brelage on the Hauser-North Bend Section of the Oregon Coast Highway in Coos County. The Right of Way Engineer explained that the Commission approved the original lease on December 6, 1954, but it is now necessary to enlarge the area approximately 200 square feet to accommodate the lessees' sewage disposal system in accordance with requirements of the State Health Department. He recommended approval of the modification. The Commission adopted the recommendation.

The Right of Way Engineer requested confirmation of the sale of 0.82 acre of land to Raymond H. and Opal M. Taylor on the Talent-Ashland Section of the Pacific Highway. He explained that the property was put up for sale by auction on March 15, 1955 at the minimum price of $400, and

that Mr. Taylor's offer in such amount was the only one received. The Commission approved the sale to Mr. and Mrs. Taylor.

To correct an error in the description contained in a previous conveyance of property, the Right of Way Engineer requested authority to convey 0.10 acre to Virgil Franklin and Maebelle O. White on the Cottage Grove-Divide Unit of the Pacific Highway in Lane County. The Whites, he said, will deed to the State a larger area in exchange for this property. The Commission approved the transaction.

Attention was given to granting to Lewis A. and Margaret E. Berney right of access to the Grant Smith County Road No. 88, opposite Engineer's Station 2817+50 on the westerly side of the Shady-Booth Ranch Unit of the Pacific Highway in Douglas County. The Right of Way Engineer advised that the Berney's property is land-locked and that the only means of access to and from a county road is via an approach roadway that must be constructed for a short distance on the highway right of way, and will be used for such access only; also, that no right of access to the revised location of the Pacific Highway will be allowed. Upon his favorable recommendation, the Commission approved the permit of access.

The Right of Way Engineer requested approval of an "Indenture of Access" granting to Hayward C. Stacey and Katherine, his wife, a change in access from their property to the Reedsport-Coos County Line Section of the Oregon Coast Highway in Douglas County. He explained that this is necessary due to a typographical error in the description of the access point previously allowed, the change being from Highway Engineer's Station 194+25 to Highway Engineer's Station 194+45 on the westerly side of the highway. The Commission approved the change.

Conveyance of a grant of easement to Frank D. Overholser for the operation of a pump and pipe line on the easterly bank of the channel change on the easterly right of way line of the Goshen-Coast Fork Willamette River Unit of the Pacific Highway in Lane County was recommended by the Right of Way Engineer. This installation, he explained, is for irrigation purposes and does not harm the State's right of way. The Commission approved the easement.

A request was considered from the Richfield Oil Corporation that the Commission consent to a change in zone classification from No. 2 Residential to No. 3 Commercial of certain property situate at the intersection of N. E 82nd Avenue and Wasco Street in Portland, particularly Lots 4, 5, and 6, Block 22, Katharine Addition. The Right of Way Engineer explained that the Richfield Corporation plans to erect a service station at this intersection but cannot do so unless at least 50 per cent of the property owners within 100 feet of the area consent to the change. The State Highway Department, he said, owns property within this area, but it will not be affected by the change. He recommended approval of the request. The Commission accepted the recommendation and authorized the Secretary to inform the City of Portland Planning Commission that the Commission does not object to the change in zone classification.

At the request of Chairman Chandler, the Right of Way Engineer explained briefly the progress that is being made in negotiations for right of way that is needed for certain improvements to the Oregon Coast Highway in Curry County. He advised that several settlements have been made, but indications are that those remaining will have to be tried in court.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties which are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

S. E. Flavel St.-S.P. Co. Overcrossing of the Cascade Highway

R 22676- Walter Kanne
Right of Way (Clackamas)
0.61 acre

R 22677- George W. Boyer
Right of Way (Clackamas)
8,000 square feet

R 22682- Nick Baroni (Barone)
Right of Way (Clackamas)
Parcel No. 1: 0.5 acre
Parcel No. 2: 500 square feet

R 22683- Esther L. McBride

Railroad Right of Way (Clackamas)
0.22 acre

Spray-Kimberly Section of the John Day Highway

R 23024- C. A. McCarty
Road-building materials (Wheeler)
17.24 acres

The Commission approved the request by adopting the attached resolutions relative thereto, marked EXHIBITS "J-1" through "J-8", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and approved the Chief Counsel's written report of cases which have been tried in court by his staff since the

December meeting of the Commission, as follows:

1. United States of America vs. Andrew J. Gray, et al., and State of Oregon, by and through its State Highway Commission, L-2149: This action was instituted by the United States Government to recover judgment against the defendants for certain unpaid taxes and to foreclose upon certain property located within Curry County. The State was named a defendant since the Highway Commission acquired the property to be foreclosed and is utilizing the same as right of way for the Bay Park-Delmar Section of the Oregon Coast Highway. On February 2, 1955, a judgment in favor of the plaintiffs was entered, and it was directed that the federal liens and mortgage be foreclosed. There is no cost to the State and it is not anticipated that the case will be appealed.

2. State vs. Thomas Vella, et al., L-2118 (R-20981), for 0.34 acre on the Blackwell Hill-Medford Section of the Pacific Highway in Jackson County: An offer in the sum of $9,714 was made and was rejected by the defendants who demanded the sum of $21,411.40. The jury returned a verdict in the amount of $20,411.40. The Chief Counsel recommended that the case be appealed as it appears that certain errors were committed during the trial.

3. State vs. Verlin E. McCarthy, et al., L-2293 (R-20928), for a temporary construction easement for use as a detour in connection with construction of a grade separation structure at the intersection of the T. H. Banfield Expressway and N. E. 82nd Avenue in the City of Portland: The defendants were offered the sum of $200 which they rejected and demanded the sum of $4,281. On the basis of later appraisals, the State's offer was raised to $2,100. The jury returned a verdict in the amount of $1,795.

4. DePhillips vs. State of Oregon, L-1825, for the purpose of obtaining damages resulting from a change of grade of the Oregon Coast Highway in Brookings, Oregon: The plaintiffs demanded $51,000 plus $2,500 attorneys' fees. The plaintiffs appealed from an adverse ruling by a lower court to the Supreme Court of the State of Oregon. The decision of the Supreme Court sustained the lower court, holding that a right of action for the change of grade of a highway does not exist except within the limits of an incorporated city.

5. State vs. John P. Fay, L-2288 (R-21614), to compel specific performance of an option, under the terms of which the defendant agreed to convey to the State approximately 1.5 acres on the Sage Hen Hill-Hines Section of the Central Oregon Highway in Harney County for the sum of $450, and also to convey all rights of access, with the exception of three accesses on the westerly side: The defendant claimed that he had not understood that he would not be permitted to utilize the access for commercial purposes. On April 4, 1955, the court rendered a decision in favor of the defendant and denied the request of specific performance. Negotiations are being conducted to acquire the property by purchase or condemnation.

April 13, 1955

24635

6. State vs. James L. Chapman, et al., L-2047 (R-19822), for 3.77 acres on the Washburn-North Plains Section of the Wilson River Highway: The State offered to pay $5,741, which offer the defendants rejected, demanding the sum of $16,000. Neither the owner nor the attorney appeared at the trial. The jury returned a verdict in the amount of $4,750.

7. State vs. R. A. Forkner, et ux., L-2300 (R-13915 & R-21349), for 0.57 acre on the Lana Avenue-Hayesville School Section of the Pacific Highway East: An offer in the sum of $6,335 was made and was rejected by the defendants who demanded the sum of $12,000. During the trial the defendants agreed to accept the sum of $7,000. The case was settled by stipulation.

8. State vs. Superbilt Manufacturing Co., Inc., et al., L-1799 (R-14703) for 0.52 acre and improvements on the T. H. Banfield Expressway in Portland: As the result of the trial conducted in May and June, 1954, a verdict was rendered in the amount of $385,000 plus attorneys' fees in the sum of $30,000. The case was appealed to the Supreme Court because of numerous errors in the trial. The case was argued in the Supreme Court on March 2, 1955 and a decision handed down on April 6, the effect of the decision being to sustain most of the contentions of the State and to reverse the judgment of the lower court and award a new trial.

9. State vs. C. A. Van Winkle, et al., L-1781 (R-17621), for 0.1 acre on the Jones Creek-Mitchell Section of the Ochoco Highway in Wheeler County: An offer in the amount of $50 was made for this property. Subsequent to filing of the complaint negotiations resulted in a settlement by which the State would pay no money but would do certain riprap work on the creek bank on Mr. Van Winkle's land and some backfilling and convey to Mr. Van Winkle a small parcel of State-owned land. The riprap work was done but the defendants refused to execute a deed and later sold the property. Both the defendants and their successors in interest disappeared and a motion was filed for a default judgment. It is understood that the default judgment will be allowed by the court for the sum of $50.

10. Peninsula Drainage District No. 2 vs. City of Portland and State of Oregon, L-1851: This case was instituted for the purpose of foreclosing drainage district easements on property located near the intersection of Union Avenue and Denver Avenue in the City of Portland. A decree in favor of the defendants was handed down by the court on January 19, 1955. On March 15, 1955, notice of appeal was made. It will be necessary to litigate the case in the Supreme Court.

(For details see copy of the Chief Counsel's written report to the Commission, dated April 8, 1955 in the general files).

April 13, 1955

The Commission also considered and accepted a written report submitted by the Chief Counsel on cases which have been settled out of court since the last Commission meeting, as follows:

1. State vs. F. K. Hill, et al., L-2163, (R-19687), for 0.917 acre on the Tigard-Newberg Section of the Pacific Highway West in Washington County: The defendants refused an offer of $10,450 for this property and demanded the sum of $18,000. A settlement was effected for the sum of $11,000, with the defendants to retain title to the house which is to be removed from State property at their expense within 30 days after approval by the Commission.

2. State vs. Lester D. Wilsey, et al., L-2353 (R-22372), for 8.83 acres on the Weston-Weston Mountain Section of the Weston-Elgin Highway in Umatilla County: An offer in the sum of $6,000 was refused by the defendants who demanded the sum of $9,000. Following the filing of the complaint, further appraisals were secured, indicating a maximum value of $8,819.10. Settlement was reached for the sum of $8,500.

3. State vs. Gwendolyn E. Jaqua, et al., L-2221 (R-21215), for 37.57 acres on the Goshen-Divide Section of the Pacific Highway: An offer in the sum of $10,500 was refused by the defendants who demanded the sum of $20,000 plus $2,500 attorneys' fees. A settlement was effected in the sum of $11,500.

4. State vs. City of Reedsport, et al., L-2352 (R-22447), for 0.11 acre on the Reedsport-Dean Creek Section of the Umpqua Highway: State offered to pay $100 for this property but a settlement could not be effected because of a dispute as to ownership. Ownership has now been established and a settlement has been reached for the sum of $150.

5. State vs. Harris Kennedy, et al., L-2305 (R-21999), for 0.11 acre on the Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County: The defendants were offered $1,740 for this property, which offer was rejected, the defendants demanding that the State move their home. A settlement was arranged in the sum of $2,000.

6. State vs. Gladys Sussman, L-2340 (R-21914), for 0.16 acre plus 25 square feet on the Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway: The defendants rejected an offer in the sum of $3,039 and demanded $7,500, later reduced to $4,000. Subsequent negotiations resulted in a settlement for the sum of $3,390.

7. State vs. Walter R. Scott, et ux., L-2321 (R-21897), for 4.5 acres on the Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County: An offer in the amount of $1,750 was made and rejected by the defendants who demanded the sum of $5,000. A settlement was effected for the sum of $2,000.

8. John Brazil vs. State of Oregon, L-2345 (R-20022), for damages to the property of Mr. Brazil on the Mt. Vernon-John Day Section of the John Day Highway in Grant County. Mr. Brazil demanded the sum of $3,000 for damages caused to his property by a change in grade of the highway. A compromise settlement was arranged in the sum of $1,000 in complete and final payment for all damages resulting from the right-of-way acquisition and the construction of the highway.

9. State vs. Harry O. Payne, L-2362, for the collection of damages from the defendant for timber removed by him from the Carpenterville-Brookings Forest Wayside Park in Curry County. Treble damages were sought amounting to $150. A settlement was arranged for $50, the single value of the timber.

10. State vs. H. L. Perkins, et ux., L-2233 (R-21786), for 1387.5 square feet of land on the Zigzag-Rhododendron Section of the Mt. Hood Highway: An offer in the amount of $150 was finally accepted by Mr. Perkins, following settlement of another controversy Mr. Perkins had with the State concerning right-of-way.

(For further details concerning these settlements, see copy of the Chief Counsel's written report to the Commission, dated April 8, 1955, in the general files).

The Commission also considered and approved the following offers that were tendered by the Chief Counsel prior to the institutuion of condemnation proceedings in compliance with the resolution adopted by the Commission on December 20, 1951:

Hess Creek (Newberg) Section of the Pacific Highway West:

R-22478-Owner: Annette Godwin, et vir. 3,270 square feet for right of way. Offer of $680 approved by Chairman Chandler on April 12, 1955.

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-19362-Owner: Mike DeCicco, et al. 65,712 square feet for right of way. Offer of $90,000 approved by Chairman Chandler on April 12, 1955.

A report was also submitted by the Chief Counsel and accepted by the Commission concerning actions taken by the Public Utilities Commissioner on highway matters, as follows:

1. PUX 56. Undercrossing of N. E. 122nd Avenue in Multnomah County. This order was issued upon application of Multnomah County and was desired in order to conform to the structure on the T. H.

Banfield Expressway built over N. E. 122nd Avenue. The State has no direct interest.

2. PUX-100. Overcrossing over the tracks of the Southern Pacific Company on a revised location of the Clackamas Secondary Highway near the town of Clackamas, Order No. 3657, issued March 15, 1955. This order authorizes construction of the proposed crossing and the closing of two existing grade crossings. It also provides that Southern Pacific Company shall bear 10 per cent of the total cost of the project, exclusive of costs of right of way.

3. PUX-116. Temporary impaired clearance during construction of an overcrossing over the Yaquina Branch of the Southern Pacific Company at Blodgett in Benton County. Order No. 33676 issued March 21, 1955.

4. PUX-125. Dole Overcrossing on revised location of Pacific Highway about 3-½ miles north of Myrtle Creek in Douglas County. Order No. 33662, issued March 16, 1955. No Railroad Company participation was requested.

5. PUX-126. Extension of the Ashland Undercrossing on the Pacific Highway north of the City of Ashland in Jackson County. Order No. 33688, issued March 24, 1955. The order provides for two additional traffic lanes. No ccoperation from the Railroad Company was requested.

6. PUX-127. Myrtle Creek Overcrossing on the revised location of the Pacific Highway in Douglas County. Order No. 33672, issued March 17, 1955. No cooperation from the Railroad Company was requested.

The Commission considered and approved a request from the Chief Counsel for authority to file a suit in intervention in the case of Verlin E. McCarthy, et al., vs. Gibbons & Reed, Inc., et al, pertaining to the operations of the State's contractor, Gibbons & Reed, Inc., on a contract on the T. H. Banfield Expressway, Unit 4.

At the request of the Chief Counsel the Commission authorized abandonment of a damage claim against Homer Richardson in the sum of $35.52. The Chief Counsel explained that this case involves from an accident that occurred between a State car and a vehicle operated by Mr. Richardson in which in his opinion the driver of the State car may have been at fault.

The Chief Counsel recommended that payment of $26.55 be made to Mr. Charles W. Parker to satisfy his claim for damage to his combine that occurred when it dropped into a rut caused by a Highway Department grader. He explained that earlier in the year the grader which was being used in snow removal operations, slid off the road and in order to get it back on the highway it had to be taken across Mr. Parker's pea field,

causing a rut into which the combine dropped. He further stated that the total claim was for $53.10, but Mr. Parker has agreed to settle for one-half that amount, or $26.55. He recommended settlement on such basis. The Commission adopted the recommendation.

The Commission had under discussion the adoption of a policy with respect to the administration and disposition of real property that is owned by the State Highway Department but is not needed or is not valuable for public purposes. It was pointed out that the Commission for many years has followed the policy of returning to private ownership, parcels of land that no longer are needed or which appear to be of no value for public purposes in the foreseeable future, thus making it possible for the land to be placed on the tax assessment roll and be developed to advance the economic growth of the State. However, the Commission has never taken any formal action establishing such policy. It was the feeling of the Commission that the records should show that the Commission has formally established such a policy. Accordingly, the Commission unanimously adopted the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

At the request of the Chief Counsel the Commission authorized institution of legal proceedings in the following cases:

1. Rupley Chevrolet Company, for damages to a State vehicle in the amount of $201.36 plus $10 for towing services.

2. R. C. Coney, for damages to a traffic arm on the north end of the Interstate Bridge across the Columbia River in the sum of $40.

3. Glen H. Stout, for damages in the sum of $139.07 caused the John Day River Bridge on the John Day Highway at Mile Post 119.62 in Grant County, when Mr. Stout drove his truck into it.

The Commission accepted a brief report by the Chief Counsel concerning the case of Mildred Emma Monroe vs. State Highway Commission and James Jennings. The plaintiff in this case seeks to recover from the State Highway Commission and James Jennings, the sum of $20,550 by reason of the death of Floyd H. Monroe, who was a passenger in a vehicle that was wrecked on the North Santiam Secondary Highway, approximately 2-½ miles east of the town of Idanha, when the driver attempted to pass a State Highway truck which it is alleged crowded the car off the road. A statement submitted by Mr. Jennings, driver of the State truck, indicates that he had signaled for a left turn and was approximately one-half way across the center line when the other vehicle attempted to pass. The case has been referred to the State's insurance carrier, and the Attorney General has approved the Chief Counsel's entering an appearance in behalf of the State Highway Commission for the purpose of filing a motion to quash service.

Robert L. May, Jr., Assistant Counsel, reported briefly on the status of a number of bills in the legislature which concern highway matters.

In reply to an inquiry from Chairman Chandler as to when the condemnation proceedings concerning the oyster beds along the Hauser-North Bend Section of the Oregon Coast Highway will come to a trial, the Chief Counsel stated that present indications are that they will be set for trial sometime during this coming summer. He also reported briefly the status of condemnation cases to acquire right of way in Curry County, concerning which he advised that, in his opinion, it would be well to finish the present cases before more highway construction is contracted.

Commissioner McIver then inquired as to what action is to be taken now concerning the Superbilt condemnation case to acquire property for the T. H. Banfield Expressway in Portland. The Chief Counsel stated that in view of the Supreme Court's decision he expected that the case will be docketed for retrial and that the defendants probably will file a new answer. It was his hope that the matter could be disposed of within a few months' time. Commissioner McIver commented that the Chief Counsel and his staff, particularly Mr. Charles Peterson, have done an excellent job in this case.

Commissioner McIver also inquired concerning the status of the suit against the Commission by Mrs. Catherine Moore for the installation of a woven wire fence between her property and the roadway on the Pacific Highway near Wolf Creek, in Josephine County. The Chief Counsel replied that the Commission has a legal right to install the fence and although the fence installed is not standard right of way fence, it is the same type of fence that has been installed along the highway near Goshen and near Roseburg. The Engineer commented that the fence as installed is more sightly than the ordinary right of way fence and does not contain a barbed wire topping. He expressed his feeling that the case will not be brought to court.

The Engineer reported that as previously authorized by the Commission he has awarded contracts as follows, which were referred to him by the Commission to award when certain conditions had been satisfied:

1. Grading and paving East Unit, Carlton Junction-Newberg Section of Yamhill-Newberg Highway, Yamhill County. Bids received January 19, 1954. Conditions of award satisfied March 2, 1955. C. C. Meisel, McMinnville, contractor.

2. Grading and paving Rock Creek-Damascus Section of Clackamas-Boring County Road, Clackamas County. Bids received March 2, 1955. Conditions of award satisfied March 8, 1955. K. F. Jacobsen & Co., Inc., Portland, contractor.

3. Grading and rock surfacing and construction of reinforced concrete bridge on Beaver Creek School-Twin Bridges Section of Beaver Creek-Greenberry Road, Benton County. Bids received March 3, 1955. Conditions of award satisfied March 8, 1955. D. F. McKenzie Co., Salem, contractor.

4. Grading and paving Mill Creek-Red Prairie Road Section of Willamina-Salem Highway, Polk County. Bids received March 2, 1955. Conditions of award satisfied March 9, 1955. Stevenson Construction Company, Salem, contractor.

5. Construction of Hurricane Creek Bridge on a county road two miles west of Joseph, Wallowa County. Bids received March 2, 1955. Conditions of award satisfied March 9, 1955. Frank Watt Construction Company and S & D Construction Company, Portland, contractor.

6. Construction of North Scappoose Creek Bridge on Pittsburg-Scappoose Road, Columbia County. Bids received March 2, 1955. Conditions of award satisfied March 11, 1955. Frank Watt Construction Company and S & D Construction Company, Portland, contractor.

7. Construction of two concrete bridges over the Little Applegate River and Star Gulch on Upper Applegate County Road, Jackson County. Bids received March 2, 1955. Conditions of award satisfied March 11, 1955. Frank Watt Construction Company and S & D Construction Company, Portland, contractor.

8. St. Helens (Columbia Boulevard and Willamette Street) Paving Project, Columbia County. Bids received March 3, 1955. Conditions of award satisfied March 14, 1955. Parker-Schram Company, Portland, contractor.

9. Grading and oiling, and construction of a bridge on Arock-Highway Junction Section of Arock County Road, Malheur County. Bids received March 2, 1955. Conditions of award satisfied March 14, 1955. C. E. Leseberg, Nyssa, contractor.

10. Construction of Halsey Street Connection Undercrossing, Multnomah County. Bids received March 3, 1955. Conditions of award satisfied March 29, 1955. Cherveny Construction Company, Portland, contractor.

The Commission confirmed the awards as reported.

The Engineer recalled that the Commission at the previous meeting approved the sale of used equipment including a Chevrolet Sedan for which Mr. W. R. Hutcheson of Gates, Oregon, was the high bidder at $185. Mr. Hutcheson, he said, later alleged that he inadvertently entered his bid in the wrong space and subsequently stopped payment on the check which he had submitted as a deposit. He further stated that the second high bidder, Mr. Ivan B. Morris, who offered to pay $140, for the sedan, has stated a willingness to take it at that price. He recommended that it be sold to Mr. Morris for his offer. The Commission approved the recommendation.

A report was submitted by the Engineer on the request of a delegation from Creswell for improvement of the Springfield-Creswell Secondary

Highway between the Willamette Highway and Creswell. He said that the present surfacing consists of pit-run gravel and that the traffic volume varies from 220 vehicles at the Willamette Highway Junction to 700 vehicles at Creswell; also, that to improve the road to modern standards will cost approximately $520,000. He pointed out that no such sum is available now and he recommended that improvement be given consideration when funds can be spared. The recommendation was accepted by the Commission.

The Commission gave attention to a report submitted by the Engineer concerning a request from the City of North Bend for widening, paving, and curbing of the Virginia and Broadway Avenue Sections of the Cape Arago Secondary Highway in North Bend. The Engineer advised that as instructed by the Commission, a study was made of the project and it was found that it would cost about $176,000. He recalled that the City has stated its willingness to contribute approximately $25,000 toward the cost and, in addition, to construct sidewalks which are estimated to cost $26,000. The improvement, he stated, is a desirable one as the Virginia Avenue Section carries approximately 9,000 vehicles per day and the Broadway Avenue Section about 5,000 per day. However, there are no funds available to finance the work. He recommended that the request be denied for immediate undertaking, but that the project be kept in mind for consideration when additional funds are available. The Commission adopted the recommendation.

The Engineer brought up for discussion the proposed Emigrant Street Underpass Project in the City of Pendleton. He recalled that the Commission previously allocated the sum of $450,000 to finance a two-lane underpass which later was changed to a four-lane facility. To construct such four-lane underpass facility, he said, was found to be unduly costly, so it was considered advisable to again change the plans to provide for a four-lane overpass. He estimated the overall cost of the project, including a pedestrian underpass under the railroad tracks, at $750,000, but it does not include an item of $90,000 which is the estimated extra cost to improve a one-way street couplet that is involved. He explained that the pedestrian underpass is required because a school is located immediately west of the railroad and direct pedestrian access could not be provided from the overpass due to its elevation adjacent to the school grounds; also, that the purpose of the one-way street couplet is to provide a plan for four moving lanes of traffic throughout the entire length of Emigrant Street which will fit in with the proposed four-lane overcrossing. He further explained that the one-way couplet extends for a distance of seven blocks, from S. E. 3rd Street to S. W. 4th Street, and that westbound traffic would be routed on Emigrant Street and eastbound traffic along Frazer Street. The plan as proposed, he said, has been presented to the Pendleton City Council which approved it at a meeting on March 10, 1955. He recommended approval of the project as described in order to expedite completion of the overpass plans and the advertising of the project for bids as soon as final arrangements can be worked out with the railroad company and necessary right of way obtained. As to financing, he pointed out that additional funds in the amount of $300,000 over the amount originally allocated will be needed. He suggested that such amount be transferred from the $367,000 of 1956 Federal-aid funds that tentatively have

been reserved to finance an overcrossing at Durkee. The matter was discussed at some length, and as a result thereof, the Commission unanimously approved the plan as presented by the Engineer and the method of financing the same.

The Engineer reported that under authority previously granted him by the Commission, he has imposed a reduced load limit on the Weston-Elgin Secondary Highway from M.P. 8.0 to M.P. 37.9 at the road to Summerville, effective Monday a.m., April 4. The Commission approved such posting.

The Commission gave attention to an audit report submitted by C. H. Maison, Auditor, concerning a claim submitted by the California Oregon Power Company for reimbursement for the cost to relocate its power transmission lines at three points on the Pacific Highway in Lane, Douglas and Jackson Counties. According to the report, the costs submitted by the Power Company in the amount of $39,734.70 were found to be in agreement with work orders and other supporting documents, but no allowance was made for depreciation of replaced facilities. He gave as his opinion that an item of depreciation should be allowed which would reduce the cost to the State by approximately 30 per cent, and he advised that this has been called to the attention of the Company which has been asked to submit a revised billing. The Commission accepted the report and ordered that no further action be taken until a reply has been received from the Power Company.

The Engineer reported the results of an investigation of traffic conditions at the Stanfield Junction of US30 as heretofore ordered by the Commission. He said that the investigation indicated the divider as now installed is needed for proper control of traffic, but it should be illuminated. He recommended the installation of two luminaire units at an estimated cost of $700. Action on the matter was deferred pending a personal investigation of conditions by Commissioner Reynolds and Division Engineer Parson.

Attention was given to a report submitted by the Engineer on a request presented by a delegation from Sherman County on March 3 for an adjustment in center-line striping, directional signs, and stop signs at the junction of US97 and US197 in Wasco County. The Engineer recalled that on April 27, 1943, the Commission adopted a resolution establishing The Dalles-California Highway as a "through-stop" highway, and in conformity therewith a sign was installed on the Sherman Highway requiring traffic to stop before entering The Dalles-California Highway. The investigation just concluded, he said, disclosed that the average daily traffic on The Dalles-California Highway (US197) north of its junction with the Sherman Highway is 190 vehicles, whereas the average daily traffic on the Sherman Highway (US97) is 600 vehicles. He recommended in view thereof that the Commission take appropriate action to reverse the "stop" arrangement so as to make the Sherman Highway (US97) the preference road and requiring southbound traffic on The Dalles-California Highway (US197) to stop before entering the intersection. The Commission accepted the recommendation by

adopting the attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission also discussed a request from the Sherman County delegation that the names of several State of Washington cities be included on the signs along the Sherman Highway. The request was denied as a matter of policy.

The Engineer advised that his report on the proposed line change of the Salmon River Highway by-passing Sheridan and Willamina will be presented to the Commission at its next meeting, and that he would also submit at that time a report on the proposed highway between Rickreall and Dolph Corner. He pointed out that it is a Federal requirement that public hearings be held when cities and towns are by-passed by a highway improvement, and he suggested that such a hearing be held in the case of the Sheridan-Willamina project before he renders his report.

As a result of discussion, the Commission decided to hold its next regular meeting in Portland on Wednesday and Thursday, May 25 and 26. The Secretary was instructed to make the usual arrangements to hold this meeting in the Green Room of the Imperial Hotel. A decision with respect to the date for the next following meeting was deferred until later.

The Commission then discussed a date for the public hearing with respect to the relocation of the Salmon River Highway that will by-pass the Cities of Sheridan and Willamina, and decided to hold such hearing in the City of Sheridan at 10:00 a.m., on May 24, 1955. The Secretary was instructed to formally notify both cities of the hearing, and to arrange for the use of the City Council's Chambers in that town.

Also discussed was a hearing with respect to construction of the proposed highway northwesterly from the town of Rickreall to a junction with the Salem-Willamina Highway at a place known as Dolph Corner. It was the feeling of the Commission that the people of the district through which this proposed highway passes should be given an opportunity to express themselves regarding the improvement. Accordingly, the Secretary was instructed to invite Mr. Joseph H. Harland, leader of the opposition group, to be present at the regular meeting of the Commission on May 26, when the Engineer's report on the project will be discussed.

The Engineer reported receipt of several requests for permission to operate 60' equipment over the Beaverton-Hillsdale Highway and that in response thereto test runs of such length vehicles were observed which disclosed that 60' vehicles can be operated over the entire length of this highway with safety. He further stated that acting on authority heretofore given him by the Commission, he approved reclassification of this highway from a Group II status to a Group I status. The Commission confirmed the Engineer's action.

The Engineer requested clarification of the Commission's instructions as contained in the resolution adopted on December 7, 1954, naming a section of the Old Oregon Trail near La Grande, Oro Dell Boulevard, particularly the instructions relative to design of tablets, ornaments, etc. He gave as his understanding that the Commission had in mind the erection of "finger board" signs only, bearing the name "Oro Dell Boulevard", which is quite different than the sign described in the resolution. Commissioner Reynolds commented that it was not intended to put up tablets or ornaments along the route, but simply a name plate or a finger board such as is used to show the name of any city street. The Commission approved such type of marker.

The Engineer reported that on February 25, 1955, amended certificates were received from the U. S. Coast Guard for two of the ferries on the Astoria-Megler run, requiring the addition of one first-class pilot on each vessel, Tourist No. 2 and Tourist No. 3. The Coast Guard at the same time allowed the ferry contractor to reduce the crew on each ferry by one deck hand for each shift. The ferry contractor, he said, complied with the requirements of the Coast Guard by employing two additional first-class pilots and laying off one deck hand per shift. Subsequently, the contractor was notified by the Inlandboatmen's Union of the Pacific that the laying off of the deck hands was in violation of the contract agreement with the Union, and demand was made for back pay for the discharged men. It appears that the controversy cannot be settled by arbitration and shortly will be presented to the Courts, wherefore the Astoria Navigation Company has inquired if the State Highway Department will reimburse the Company for its added expense, if the Court rules against the Company. He recommended that payment to the contractor for the deck hands laid off be denied. The Commission adopted the recommendation and instructed the Engineer to so inform the Company.

The Commission discussed a letter from Fred O. Meyer, Chairman of the Columbia Basin River Operators concerning the revision of the existing bridge across the Columbia River between Portland and Vancouver, and urging the Commission to proceed with such revision using State funds to finance the work if Federal funds to defray costs involved cannot be obtained under the terms of the Truman-Hobbs Act. Also discussed was the Engineer's suggested reply to such communication, in which Mr. Meyer is informed, among other things, that the State Highway Commission is willing to join with the Columbia Basin River operators in seeking a revision of the existing permit from the Army Engineers to include remodeling of the existing bridge, subject to the condition that it be accomplished under the provisions of the Truman-Hobbs Act. The Commission approved and signed the letter. (See copy of letter, dated April 13, 1955, in General Files for details.)

The Commission discussed with the Engineer bids received at the morning session, and at 4:00 p.m., Commissioner McIver announced the Commission's decision with respect to each project as follows:

"Marine insurance for Astoria-Megler Ferry vessels: Identical low bids were submitted by Durham & Bates, Portland, and by Jewett, Barton, Leavy & Kern, Portland, in the sum of $7,152.42. Lots were cast to decide the winner and the name of Jewett, Barton, Leavy & Kern was drawn. The Commission has referred the low bids to the Department of Finance and Administration with a recommendation that the business be given to Jewett, Barton, Leavy & Kern.

"Liability Insurance for Steel Bridge in Portland: The Commission referred the low bid of W. C. Dyer & Sons Insurance Agency, Salem, in the sum of $1,129.40 to the Department of Finance and Administration with a recommendation that it be accepted.

"Grading and paving Flavel Street-Clackamas Overcrossing Section of the Cascade Highway on S. E. 82nd Avenue in Portland in Clackamas and Multnomah Counties: The Commission elects to accept the bid of Logan-Taylor Co., Portland, in the sum of $379,934 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Vine Maple Bridge Timber Replacement in Clatsop County: All bids for this project were rejected as being too high.

"Redmond-Bend Shoulder Oiling Project on The Dalles-California Highway in Deschutes County: The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at their bid price of $41,494.

"Anlauf-Rice Hill Unit, Divide-Rice Hill Section Slide Correction Project on the Pacific Highway, east of Yoncalla, in Douglas County: The Commission awarded the contract to the low bidder, Kuckenberg Construction Co., Portland, at their bid price of $33,780.

"Prairie City-Baker County Line Rock Production Project on the John Day Highway, in Grant and Baker Counties: The Commission awarded the contract to the low bidder, E. H. Itschner Co., Molalla, at their bid price of $20,900.

"Burns Rock Production Project on the Central Oregon, John Day-Burns and Burns-Crane Highways in Harney County: The Commission awarded the contract to the low bidder, E. H. Itschner Co., Molalla, at their bid price of $36,960.

"Grading and oiling Beals Corner-Parkdale Junction Section of the Dougherty Corner-Parkdale Road in Hood River County: The Commission elects to accept the bid of Oregon Asphaltic Paving Co., Portland, in the sum of $20,794 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Hood River County is received and the sum of $4,650 is deposited by the County.

"Paving Main Street in Talent, Jackson County: The Commission awarded the contract to the low bidder, M. C. Lininger & Sons, Medford, at their bid price of $11,837.50.

April 13, 1955

"Paving First Street in Phoenix, Jackson County: The Commission awarded the contract to the low bidder, M. C. Lininger & Sons, Medford, at their bid price of $11,245.

"Paving "E" and 10th Streets in Madras, Jefferson County: The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at their bid price of $10,977.50.

"Construction of Applegate Bridge over the Applegate River on new alignment of the Redwood Highway between Grants Pass and Wilderville in Josephine County: The Commission elects to accept the bid of Tom Lillebo, Reedsport, in the sum of $159,950 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Cottage Grove (North River Road) Paving project in Lane County: The Commission awarded the contract to the low bidder, The Central Heating Co., Ore. [illegible]d., Eugene, at their bid price of $10,615.

"Overflow Bridge Replacement on Willamette Highway in Lane County: The Commission awarded the contract to the low bidder Hamilton & Thoms, Eugene, at their bid price of $44,050.

"Grading and paving Deer Creek Section of the Oregon Coast Highway north of Otis in Lincoln County: The Commission awarded the contract to the low bidder, Diamond Rock Co., Salem, at their bid price of $24,312.50.

"Construction of Calapooya Overflow Bridge Replacement on the Pacific Highway East, south of Tangent in Linn County: The Commission awarded the contract to the low bidder, Hamilton & Thoms, Eugene, at their bid price of $46,920.

"Linn County Roads Oiling Project on 4 County Roads, near Albany, Lebanon and Tangent: The Commission elects to accept the bid of Oregon Asphaltic Paving Co., Portland, in the sum of $80,448 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Linn County is received and the sum of $18,100 is deposited by the County.

"Sardine Creek-Linn County Line Rock Production Project on the North Santiam Highway, east and west of Detroit in Marion County: The Commission awarded the contract to the only bidder, P. B. Doherty & Son, Portland, at their bid price of $29,811.20.

"Paving 10th Street in Stayton, Marion County: The Commission elects to accept the bid of Warren Northwest, Inc., Portland, in the sum of $17,625 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Stayton is received and the sum of $5,900 is deposited by the City.

"Peters-Messner Junction Stone Base and Oiling Project on 3 County Roads,

near Boardman in Morrow County: The Commission elects to accept the bid of Babler Bros., Inc., Portland, in the sum of $52,320 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Morrow County is received and the sum of $11,750 is deposited by the County.

"Grading and surfacing S. E. Stark Street-Powell Valley Road Section of the East Burnside Road, near Gresham in Multnomah County: The Commission elects to accept the bid of Allum Bros., Eugene, in the sum of $139,796.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Multnomah County is received and the sum of $31,500 is deposited by the County.

"Construction of Cold Springs Creek Bridge, grading and surfacing on the Pendleton-Cold Springs Highway in Umatilla County: The Commission awarded the contract to the low bidder, Jackson & Ray, Hermiston, at their bid price of $20,998.

"Service Creek-Goose Rock Bridge Rock Production Project on the John Day Highway in Wheeler and Grant Counties: The Commission elects to accept the bid of E. H. Itschner Co., Molalla, in the sum of $25,200 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

The Commission discussed items of unfinished business appearing on the Secretary's summary, dated March 3, 1955, as follows:

1. Proposed construction of Clay Street Interchange in the City of Portland: The Engineer stated that the report on this matter is not yet complete but he anticipated that it would be ready to present at the May meeting of the Commission.

2. Proposed construction of a concession building and rest room facilities at Depoe Bay: The Chief Counsel reported that, as previously instructed, two independent appraisals were secured on the Moore property, one of which was for $10,000 and the other $5,000, depending on type of access that is allowed. The owners, he stated, do not wish to sell their property and have indicated that they will not accept less than $20,000 for it. He recalled that in the condemnation case that was tried in 1949 to acquire this property the jury awarded a verdict of $14,500, which was refused by the State. The present owners of the property, he said, are preparing plans to construct their own buildings. Commissioner Reynolds expressed his feeling that the matter should be decided one way or another. Commissioner McIver inquired if consideration has ever been given to selling the State Park property at Depoe Bay. The Engineer gave as his thought that it should be continued in State ownership because if buildings were constructed on it, the view of the ocean would be spoiled. Chairman Chandler stated that he is not averse to construction of rest room facilities as previously agreed if a

reliable group can be found to operate them correctly. He suggested that further action on the matter be deferred until the Commission inspects the premises on one of its inspection trips this summer. The suggestion was approved by Commissioner Reynolds and McIver. It is to be considered as new business at that time.

3. Investment in highway right of way on uncontracted highway sections: This item was ordered deleted from the list of unfinished business because the Right of Way Engineer reported on it earlier in the session.

4. Consideration of requests from individuals for traffic signal installations, etc: The Engineer stated that it has always been his policy to investigate requests as it is deemed good public relations to do so, and to refer those requests to the Commission which require action and expenditure of money. Chairman Chandler stated that all requests should be investigated and those involving improvements or expenditure of funds should be referred to the Commission for instructions. The item was ordered deleted from the list of unfinished business.

5. Adoption of location surveys for Ontario-Snake River Section of the Old Oregon Trail and for the Merlin Hill Section of the Pacific Highway near Grants Pass: The Engineer exhibited maps of both projects and explained details. He recommended approval of both surveys as the future location for the respective highway sections when reconstruction is undertaken. The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "H-1" , which resolution by this reference is made a part hereof with like effect as though extended in full herein. The Right of Way Department was authorized to proceed with negotiations for right of way needed for both projects, and the Engineer was authorized to advertise for bids for construction of a two-mile section of US99 over Merlin Hill when right of way has been obtained. The Commission ordered the item deleted from the list of unfinished business.

6. Claim submitted by the California-Oregon Power Company for reimbursement for the cost of revising its facilities on the Goshen-Coast Fork Section, the Booth Ranch Section, and in Central Point on the Pacific Highway: This item is to be deleted from the list of unfinished business as a report on the subject was rendered earlier in the session.

7. Request of County Judge Henry Miller, Sherman County, for changing the "stop" requirements, rewording of directional signs and restriping of highways at the junction of US97 and US197: The Commission ordered this item deleted from the list of unfinished business as a report had been rendered earlier in the session.

8. Request of Ukiah delegation that the Ukiah-Hilgard Highway be relocated closer to the town of Ukiah than originally proposed: The Engineer stated that he has not yet had time to make a personal inspection

of the revised location but will do so as soon as possible. The item was ordered deleted from the list of unfinished business. It is to be regarded as new business when it again comes up.

9. Request of Donald M. Sharpe that the State remove snow from the road to Cloud Cap Inn ski area on Mt. Hood: Action on this matter was deferred until next summer when the Commission will make a personal inspection of the project. The item was ordered deleted from the list of unfinished business. It is to be considered new business when it again arises.

10. Inquiry concerning lighting and widening of roadway in connection with the concrete divider strip at Stanfield Junction: This item was discussed earlier in the day and was ordered removed from the list of unfinished business.

11. Request of Creswell delegation for improvements to the Springfield-Creswell Secondary Highway: This item also was ordered removed from the list of unfinished business, it having been disposed of earlier in the session.

12. Request of Henry Sturtevant, Portland, for permission to transport a large building over state highways from the Bertha-Beaverton District to Southeast Portland via St. Johns: This item was reported on by the Right of Way Engineer during the morning session and was ordered removed from the list of unfinished business.

A letter was presented from Lauri O. Pernu, Astoria, requesting elimination of road hazards on U.S. Highway 101 between Miles Crossing and Youngs Bay Bridge, a short distance south of Astoria. The Engineer advised that this is a four-way intersection with US101 travel routed over the north and west legs. He pointed out that the speed of traffic through the section is limited to 45 miles per hour and that 22 accidents were reported at the intersection during the five-year period from January 1, 1950 - December 31, 1954, all of which involved property damage only. The pattern of accident occurrence, he said, indicates that the main reason that accidents occur here is confusion on the part of the drivers of the vehicles involved. He recommended as a solution to the problem, construction of a channelizing island and installation of luminaire units, which he estimated will cost about $2,000, augmented by advance warning signs. The Commission adopted the recommendation.

Also discussed by the Commission was a letter from Mr. W. G. Kruger, Bridge Superintendent, Roseburg, pointing out that a hazardous condition exists on the east approach to the Isthmus Slough Drawbridge on the Coos River Secondary Highway in Coos County, where several accidents have occurred. The Engineer advised that the conditions at this point have been investigated by the Traffic Engineering Division which

found that a hazardous condition does exist at this point and which recommends as a solution the installation of a signal light on each approach to this bridge, which will flash red when the drawbridge is open, the same to be placed at sufficient distance in advance of the drawbridge to give traffic plenty of warning to stop. He expressed his concurrence in the recommendation, and requested approval of the installation which is estimated to cost $1,500. The Commission approved the project as recommended.

The Engineer reported an overrun of approximately $63,000 in connection with Contract No. 3915 for construction of pavement on the 92nd Avenue-Fairview Section of the T. H. Banfield Expressway. He explained that the overrun resulted primarily from an increase in the pavement thickness from $3\frac{1}{2}$ inches to 4 inches, and the addition of 4-foot paved shoulders, which was adopted as standard after the contract was awarded; also, $17,000 of the total expense was incurred in correcting subgrade deficiencies and in providing additional drainage. He asked the Commission to authorize an increase of $63,000 in the project authorization for this job. The Commission approved the request.

Presented for the Commission's consideration was a request from the City of Portland for certain alterations at the intersection of Sandy Boulevard (US30) with Northeast 82nd Avenue (ORE213) in order to eliminate a hazardous condition that exists at this point. The Engineer explained that the plan devised by the City requires construction of a left-turn refuge and prohibition of certain left-turn movements which now create a hazard. The City, he said, has agreed to cooperate in the improvement, the cost of which is very nominal, and has asked the State to provide three overhead illuminated "no left-turn" signs which are estimated to cost $180. He added that the City will install the signals and will provide the necessary wiring, installation, etc. He also said that to make the plan effective, it will be necessary for the Commission to take action prohibiting the parking of vehicles on both sides of Northeast Sandy Boulevard (US30) for a distance of 400 feet easterly from the east property line of 82nd Avenue. He recommended approval of the proposed plan and adoption of a resolution prohibiting the parking of vehicles as stated. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "G-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein. The Commission also authorized purchase of the overhead illuminated signs.

The Engineer reported completion of location surveys for the following State highway sections:

1. Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway in Multnomah County.

2. Lake Road-Oregon City Section of the Cascade Highway in Clackamas County.

He exhibited maps showing the proposed locations and explained details. He recommended approval of the surveys by the Commission. As a result of careful consideration, the Commission unanimously approved the surveys as reported, by adoption of the attached resolution relative thereto marked EXHIBIT "H-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a resolution from the Drain Chamber of Commerce requesting improvements to the Pacific Highway (old route) both north and south of the City of Drain. In the discussion of this matter, it was pointed out that no funds are available to finance such improvements in the near future; also, that there is need for improvement of the highway north from the City of Drain, which the Commission previously told the citizens of this town would be accomplished when the new highway by-passing Drain was completed. The Commission decided unanimously to consider such project when the new highway is constructed and opened to traffic. The Secretary was instructed to so inform the Chamber of Commerce.

There was presented for the Commission's consideration a request from the County Court of Deschutes County for a modification of the heretofore approved project for Federal-aid Secondary Highway (County Road) funds allocated to that County. The Engineer explained that the program now provides for improvement of the northerly one mile section of the Terrebonne Junction-Franks Road Section of FAS 658, but the County has asked that the program be revised by eliminating such project and by substituting for it, improvement of the westerly one mile section of FAS 664, the reason for the substitution being that FAS 658 is not used as a school bus route, nor are there any abutting residences; whereas the proposed project meets those requirements. He recommended approval of the County Court's request. The Commission adopted the recommendation.

The Engineer requested authority for expenditure of $31,000 to finance the planting of shrubbery and the placement of traffic delineators on new sections of US99 between Eugene and Central Point, and on US101 near a place known as Millington. He explained that in the construction of new Expressways, many times frontage roads and interchanges are required, and that traffic is subjected to vehicular headlight glare which can be avoided by the planting of shrubbery. He recommended approval of the project and the necessary expenditure of funds as a traffic safety measure. He mentioned that it later will be necessary to perform similar work between Salem and Portland and along Banfield Expressway. The Commission approved the expenditure unanimously.

The Commission considered and ordered filed a "1955 Roads Program of Work", endorsed jointly by the Klamath County Court and the Klamath County Chamber of Commerce, on March 25 and March 28, 1955, respectively.

The Commission discussed a request received from the Overland Greyhound Lines, Omaha, Nebraska, for permission to operate "scenic-cruisers" over the Old Oregon Trail from Ontario to Portland. The

Engineer advised that the "scenicruisers" are 40 feet long, and whereas the Corporation was granted permits to operate such equipment over US99 and over US97, their request for a permit to operate over US30 was denied because the busses cannot negotiate the curves on the highway at the approaches to four structures between Kamela and La Grande. The refusal of the permit for this operation, he said, has resulted in requests from a number of Chambers of Commerce in Eastern Oregon, and others, for widening the highway sufficiently to accommodate this class of equipment. Responding to these requests, he said, a survey was made for widening the west approach to the Glover Overcrossing, the east approach to the Hilgard Overcrossing, the east and west approaches to the Perry Overcrossing, and the east approach to the Oro Dell Overcrossing, and the results indicate that it will cost about $30,000 to do the work involved. He recommended approval of the improvement as a state construction project because it will allow the operation of these 40-foot units, either singly or in combination, over the entire length of US30 between Ontario and Rainier. In the discussion, of this matter, the Engineer advised receipt of a communication from the Overland Greyhound Lines to the effect that if granted this permission, the Corporation will immediately institute a schedule for its "scenicruiser" equipment and will put into operation one round trip daily between Salt Lake City, Utah, and Portland, Oregon, just as soon as Oregon license plates can be obtained. Moreover, by the latter part of June, 1955, the Corporation will have sufficient "scenicruiser" equipment available to institute three additional round trip movements daily, making eleven in all that would be put in service between Salt Lake City and Portland, operating four round trips daily. The Engineer also stated that if the Commission approves the widening project as recommended, the Corporation wants permission immediately to operate its equipment over the highway. He recommended against granting of the advance permit, and that no permit be issued until the highway improvement has been completed. The matter was given careful consideration by the Commission and as a result thereof, the Commission unanimously authorized the widening work as recommended by the Engineer. A permit for operation of the 40-foot scenicruiser equipment is to be issued to the Overland Greyhound Lines after the highway improvement has been completed, but not before.

The Engineer brought up for discussion the proposed widening of 82nd Avenue, Portland, (Cascade State Secondary Highway) to accommodate four lanes of traffic southerly from the Portland city limits at Flavel Street, to the Clackamas Overcrossing, a distance of four miles. He explained that the northerly one and one-half mile section of this project lies within an existing 60-foot right of way with heavy culture adjacent thereto, and it was planned to do the improvement without acquiring any additional right of way. However, objections were offered by the U. S. Bureau of Public Roads because of Federal requirements. The cost to acquire right of way in order to meet the Federal requirements, he said, is estimated at $300,000, and the extra widening will cost an additional $66,000 for construction, or a total project increase cost of $366,000. He pointed out that the total estimated cost of the section as originally planned is $205,000, and he gave as his opinion that the extra expense on the one and one-half mile section is not justified owing to the fact that all of the Cascade Second-

ary Highway through the City of Portland is 56 feet wide between curbs. He recommended, in view of the circumstances, that the one and one-half mile section referred to,be deleted from the Federal-aid project, and that it be constructed as a State project, using State funds only, thus greatly reducing the State's share of the cost of the entire job. He mentioned that the section from King Road south meets Federal-aid requirements and will be constructed as a Federal-aid project as originally planned. The Commission unanimously approved the Engineer's recommendation.

The Commission discussed and approved a Cooperative Project Agreement with the U. S. Forest Service, providing for construction of a stock fence along the right of way of the Starkey-Ukiah State Secondary Highway through the National Forest. In the discussion of the matter, the Engineer explained that the U. S. Forest Service has agreed to construct the fence along both sides of this seven and one-half mile section of highway for the sum of $11,100, which is at the rate of $2.30 per rod, as compared with $3 per rod, which is the present contract price for range type of fence.

The Commission discussed a letter from the Curry County Pomona Grange in which the Commission is urged to complete construction of the Oregon Coast Highway between Gold Beach and Brookings as soon as possible. Action on the matter was deferred pending appearance of a delegation on the following day. (The delegation appeared and was informed by the Commission that it presently is not in a position to make a commitment or promise with respect to this improvement, and will not be in a position to make a definite statement regarding it until surveys that are now under way are completed.)(See additional paragraph ahead.)

The Commission discussed a letter from the Traffic Engineer of the City of Portland, requesting State cooperation in the replacement of obsolete traffic controll devices on McLoughlin Boulevard, North Lombard Street, East Burnside Street, Sandy Boulevard, and Union Avenue, all of which are State highway routes within the City. The estimated total cost involved is $25,105.40, and the State is asked to pay 50 per cent of the amount, or approximately $12,552.70. The Engineer recommended approval of the project, and that the matter be covered by appropriate agreement between the City and the State. The Commission adopted the recommendation unanimously.

The Commission considered and upon recommendation of the Engineer, approved the following requests for extensions of time within which to complete highway contracts:

1. Lloyd G. Sperling, Contract No. 4281, for construction of a maintenance building at Long Creek on the Pendleton-John Day Highway in Grant County, requested an extension of time of 90 days, from January 31, 1955 to April 30, 1955. Extension approved as requested, without penalty.

2. Steeck Electric Company, Contract No. 4044, for traffic signal installation in Tigard on the Pacific Highway West in Washington County, requested an additional extension of time of 240 days, from July 30, 1954 to March 31, 1955. Extension approved as requested, without penalty.

3. George L. Rochat & Son, Contract No. 4237, for illumination installation on the Barbur Boulevard-White School Section of the Portland-Salem Expressway in Clackamas, Marion, Multnomah & Washington Counties, requested an additional extension of time of 90 days, from February 28, 1955 to May 28, 1955. Extension approved as requested, without penalty.

4. Hampton C. Platt, Contract No. 4282, for construction of a maintenance building at Lakeview on the Klamath Falls-Lakeview Highway in Lake County, requested an extension of time of 60 days, from April 30, 1955 to June 30, 1955. Extension approved as requested, without penalty.

5. Johnson and Amens, Contract No. 4236, for construction of Baker Creek and Panther Creek Bridges on the Carlton-McMinnville and Baker Creek Roads in Yamhill County, requested an extension of time of 45 days, from April 30, 1955 to June 14, 1955. Extension approved as requested, without penalty.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. (For further details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.)

The Engineer reported that Contracts Nos. 3818, 4044, 4102, 4146, 4170, 4206, 4214, 4263, 4289, 4349, and 4364 for construction of State highway projects have been completed according to the requirements of the contracts or modifications thereof, and that said projects are now ready for acceptance. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the following cities and towns have satisfied the legal requirements with respect to expenditure of State Tax Street Funds that accrued to them during the last half of the year 1953 and during the entire year 1954, as shown:

From Revenues Accruing during Second Six-month Period of 1953:

Jordan Valley	$ 829.79
Richland	773.54
Stanfield	2,971.08

From Revenues Accruing during the First Six-month Period of 1954:

Condon	$2,756.36
Elkton	572.34
Fossil	1,836.63
Lexington	674.85
Richland	626.45
Riddle	1,805.30
Scotts Mill	617.90
Sherwood	1,637.30
Stanfield	2,406.12
Umatilla	2,541.33

From Revenues Accruing during the Second Six-month period of 1954:

Bay City	$2,676.49
Bonanza	910.92
Detroit	963.68
Eagle Point	2,134.86
Glendale	3,063.37
Lonerock	133.65
Lostine	865.20
Mitchell	1,459.58
Riddle	2,229.82
St. Paul	942.57
Umatilla	3,105.57
Vale	5,338.91
Waterloo	633.07

The plans for the projects proposed by each, he said, have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission unanimously approved the plans as recommended, by adoption of the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Considered by the Commission was a plan submitted by the Engineer for construction of an on-ramp to the Ross Island Bridge in Portland from McLoughlin Boulevard (US99E) to serve southbound highway traffic from the north destined to points on the west side of Willamette River. The Engineer recalled that the Commission last year approved construction of a ramp for the convenience of southbound traffic from the bridge to McLoughlin Boulevard, same to be financed 50 per cent with State funds

and 50 per cent with Multnomah County funds. Such project, he said, satisfies the requirements of traffic leaving the bridge and going south, but the problem arises of getting southbound traffic from McLoughlin Boulevard onto the bridge. This matter, he said, has been studied for some time and a plan has been evolved which will materially alleviate existing conditions, and which can be constructed at an estimated cost of $28,000. He further stated that Multnomah County was asked to participate in the cost, but could not do so because the plan involves improvement of existing city streets so the matter was then presented to the City of Portland which has agreed to pay for the improvement of Taggart Street which is a part of the proposed plan and which is estimated to cost $6,400. On such basis, the cost would be divided $21,600, State money, and $6,400, City money. The Engineer recommended approval of the project on such basis. The Commission approved the project on the basis recommended by the Engineer.

The Engineer requested authority to execute in behalf of the Commission an agreement with the U. S. Forest Service in order to obtain rock maintenance material from a quarry located in Willamette National Forest. He explained that a special use permit has been obtained from the Supervisor of this National Forest, but it requires the State to pay $.04225 per cu. yd. for the material removed so as to partially reimburse the Forest Service for construction and maintenance of a Forest Road over which the quarry materials will be transported. He estimated the total quantity of material required at 10,000 cu. yds. which will result in a payment of $422.50 to the Forest Service at the specified cu. yd. rate. The Commission granted the request and authorized the Engineer to execute the permit in behalf of the Commission.

The Commission discussed an agreement with the County Court of Washington County, providing for construction of the North Plains-Hillsboro Section of the Hillsboro-Shadybrook Road (FAS 629). The Engineer advised that there is available for expenditure in Washington County approximately $314,000 of Federal-aid Secondary Highway funds for the fiscal years 1956 and 1957, including State and County match monies, and that the Commission on August 9, 1954 approved an allocation of $157,000 of 1956 funds for this project along with others, but the records are not clear with respect to the total allocation to each County. He recommended approval of the agreement as prepared. The Commission adopted the recommendation unanimously. In this connection, the Commission also approved an agreement with the County Court of Washington County covering maintenance of the section when construction is completed.

In order to clarify the records with respect to the allocation of Federal-aid Secondary Funds to the Counties, the Commission ordered such allocation recorded in the minutes of this meeting as follows:

COUNTY FAS ALLOCATION

FISCAL YEARS 1956 & 1957

County	1956 Federal Funds	1956 Total Funds (Includes State & Co. Match Money)	Total Funds, Two-Year Period (1957 Funds Estimated to be same as 1956)
Baker	$ 34,213	$ 57,000	$ 114,000
Benton	36,387	61,000	122,000
Clackamas	119,323	199,000	398,000
Clatsop	38,436	64,000	128,000
Columbia	46,603	78,000	156,000
Coos	56,288	94,000	188,000
Crook	30,520	51,000	102,000

Summary, Entire State, Fiscal Year 1956 Funds

Total Federal Funds	$3,772,987
Less Planning Survey (1-1/2 %)	56,595
Total for Construction	$3,716,392

April 13, 1955

COUNTY FAS ALLOCATION (cont)

County Share (50% of Total for Construction)	$1,858,196
Plus Estimated Required Match Money	
State Funds	620,902
County Funds	620,902
Total County FAS Fund for Fiscal Year 1956	$3,100,000

Fiscal Year 1957 Funds are estimated to be same as 1956.

NOTE: Above Federal Funds were allocated to individual counties on basis of the formula proposed by the Association of Oregon Counties and approved by the Highway Commission. Federal Funds are estimated to represent approximately 60% of the Total County FAS Fund and State and County Funds approximately 20% each.

A request from the County Court of Linn County for an additional Federal-aid Secondary Highway project (County Road) had the attention of the Commission. The Engineer explained that the County's request is for improvement of the road which extends from the Corvallis-Eastside State Secondary Highway at Orleans, to a connection with the Pacific Highway about one mile north of the town of Tangent (FAS 216), a distance of 4.5 miles. This road, he said, carried approximately 160 vehicles per day before it was improved to an oil standard, but immediately thereafter the traffic volume increased to approximately 850 vehicles daily, which necessitates reinforcement of the existing light oil surface. He further stated that it is proposed to construct an asphaltic concrete pavement 3½ inches thick, which will render the highway satisfactory, and will decrease maintenance costs materially. He estimated the cost to construct such pavement at $100,000, and he advised that if the Commission approves the project, it will be financed with 1956 FAS funds allotted for County Road construction. The Commission approved the project as recommended.

The Engineer brought up for discussion Oregon's participation in financing a test road project in the State of Illinois which is to be conducted by the American Association of State Highway Officials. He advised that the total cost of this test road is estimated to be about $11,000,000, of which the States are asked to contribute about $4,000,000, Oregon's share on the proportionate basis being $60,227, which was determined in the same ratio as are Federal-aid funds. Adding to this, Oregon's share of the cost of the Maryland test road and the test road constructed under the direction of the Western Association of State Highway Officials, makes a total of approximately $69,000. Oregon, he said, has already contributed $41,000 toward the WASHO test road, which sum applied as a credit, leaves as Oregon's share of the present project, $28,073, of which 50 per cent will be paid with Federal Planning Survey Funds, and the balance with State money. He recommended approval of the arrangement and that he be given authority to sign the agreement covering this Cooperative Research Project with the Highway Research Board which will handle the work, when it is presented for execution. The Commission unanimously approved participation in the

Illinois Test Road Project as recommended by the Engineer who was authorized to sign the agreement with the Highway Research Board in behalf of the Commission.

The meeting adjourned at 5:00 p.m. to reconvene at 9:00 a.m. on the following morning in the same room.

Portland, Oregon
April 14, 1955

The meeting of the State Highway Commission resumed at 9:00 a.m. in the Green Room of the Imperial Hotel, with the following persons present and participating.

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary who then announced that the Commission would award contracts at 3:30 p.m. in the same room.

BAKER AND MALHEUR COUNTIES
LIME-PORTER FERRY ROCK PRODUCTION PROJECT ON THE OLD OREGON TRAIL HIGHWAY

Porter W. Yett, Portland	172,529.00

The Commission resumed discussion of the "Q" Street Route between Eugene and Springfield. The Engineer exhibited a map showing the route and recommended adoption of the survey from the Ferry Street Bridge intersection in Eugene to 19th Street (Mowhawk County Road) in Springfield and that right of way be acquired as soon as possible between such points provided Lane County will contribute the sum of $130,000 toward the cost of right of way east of 19th Street and will assume future maintenance of the Fox Hollow Secondary Highway. County Commissioner Nielsen, who was present, expressed his approval of such proposal and advised that the County will take over the Fox Hollow Secondary Highway on April 15, 1955 if the Highway Commission today adopts the survey west of 19th Street. Motion was thereupon made by Commissioner Reynolds that the survey of the "Q" Street Route as presented by the Engineer, extending from the Ferry Street Bridge Approach in Eugene to 19th Street in Springfield be adopted and that negotiations for right of way along such section be authorized; also that the Commission accept the sum of $130,000 from Lane County to apply on right of way costs east of 19th Street; also that the Engineer be authorized to proceed with the survey of the section east of 19th Street, with no commitment as to when construction will take place, upon assurance from the County that it will take over the Fox Hollow Road for future maintenance, effective April 15, 1955. The motion was seconded by Commissioner McIver and was declared by Chairman Chandler to have received the unanimous vote of the Commission. The Commission thereupon approved the "Q" Street survey between Eugene and 19th Street in Springfield by adoption of the attached resolution relative thereto, marked EXHIBIT "H-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein. (For additional details see footnote on the previous day's discussion of this matter.)

A delegation representing the Benton County Chamber of Commerce, composed of Messrs. Wayne R. Giesy, State Representative, and T. J. Starker, timber tree farmer, came before the Commission concerning improvements to the Alsea Highway. Mr. Giesy pointed out that two lumbering mills in Corvallis have ceased operations because it is too costly to truck-haul the logs to the milles. He urged the Commission to construct a better grade over the Alsea Mountain which,he said, will save the lumbering industry about 50 cents per thousand in hauling costs. He also called attention to the fact that there is no railroad into the Alsea area and that all produce from the area must be hauled out by truck.

Mr. Starker recalled that he has appeared before the Commission several times in the past fifteen years to request this improvement. He suggested that a tunnel through the summit would prove better than an open cut, and he asked the Commission to authorize a survey in search of a better route. The Alsea area, he stated, is estimated to produce 130 million feet of logs annually and at the present time approximately 100 million feet are being hauled out. It was his feeling that the saving on this log hauling alone would amortize an improvement costing about $2,000,000.

Chairman Chandler advised that the Commission will consider their request for a survey. Following departure of Messrs. Giesy and Starker the Commission discussed the matter further with the Engineer who advised that to date only a reconnaissance survey of the route has been made. He gave as his opinion that the project is a worthy one and should be investigated further. He estimated the cost of a survey for the six-mile section involved at approximately $25,000. The Commission instructed him to make a close check of the cost and desirability of conducting a survey, and to present a report as soon as possible.

Mr. Ralph Thompson and Mr. Russell Miller, Morrow County Commissioners, came before the Commission to request construction of a paved surface on a county road that Morrow County is building directly south from US730, near Patterson Ferry, to a connection with US30, a distance of about five miles. Mr. Thompson explained that the County is now constructing the road and is also acquiring Patterson Ferry. He pointed out that the traffic over the ferry in 1954 exceeded 140,000 vehicles and that it is expected to increase in 1955. It was his thought that when the road is completed it will carry a large amount of traffic to and from the ferry, and that the new road should be a part of the State Highway system.

Commissioner Reynolds stated that the Commission is familiar with the project having considered it about a year ago when the Commission decided definitely that it was not interested in it. He also said that conditions have not changed since then, and he can see no good reason for the State to assume this added obligation. Chairman Chandler pointed out that the Commission has a policy not to add more roads to the State Highway system, especially to the secondary system, until improvement of the roads in the present system is farther advanced.

Mr. Thompson inquired if County cooperation in maintaining the road would be considered, to which Chairman Chandler replied that if the County so desired, the road could be added to the Federal-aid Secondary (County Road) system. He explained that from the Commission's point of view, the taking over of this road would be largely a subsidy to the ferry, and that the Commission cannot now see its way clear to do that or to assume any obligation with respect to the county road.

A delegation representing the Washington County Lifesavers Committee appeared before the Commission to request a grade separation structure on the Wilson River Highway at its intersection with the Forest Grove-Banks Highway near Banks. The following people formed the group: Mr. James A. Sullivan, Co-chairman of Washington County Lifesavers Committee; Mr. John E. Meeke and Mr. R. W. Chapman, Committee Members; Mr. R. H. Bush, County Sheriff of Washington County, all of Hillsboro; Mr. J. J. Moore, Sunset Chamber of Commerce, Banks; Mr. Guy I. Thomas, President, and Mr. E. S. Drips, representing the Vernonia Chamber of Commerce, and Mr. Art Ostrander, Highway 99E Alternate Road Association, all of Vernonia; Mr. Glenn Ireland, Washington County Farm Bureau and President of the Banks High School Mothers and Dads Club; Mr. John Richardson, Editor, "News Time", both of Forest Grove; Mrs. Amy P. Johnston, housewife, Cornelius; and Mr. Walter W. R. May, Portland. Mr. Meeke, who acted as spokesman, advised that there had been a large number of accidents on the Sunset Highway at the North Plains intersection, and he declared that the grade crossing on the Wilson River Highway near Banks will be worse when the highway is completed. He urged the construction of a grade separation structure at the earliest possible date. In support of his oral request, he presented letters from the following, endorsing the project: Lifesavers Committee, Forest Grove Chamber of Commerce, Forest Grove Citizens Safety Committee, Banks Frozen Foods Company, Sunset Auxiliary of the Sunset Chamber of Commerce of Banks, Sunset Chamber of Commerce of the City of Banks, Vernonia Chamber of Commerce, Washington County Engineer, Banks Parent-Teachers Association, Parent's Club of St. Francis Parochial School, and from several individuals. He pointed out that the sight distance at Banks is not as good as it is at North Plains, and that it is anticipated that traffic will be heavier at Banks than at North Plains. Mr. May stated that he represents the President and the Secretary of the State Lifesavers Committee who urgently request that the Commission reconsider its plans for a grade crossing at this location. In reply to an inquiry from Chairman Chandler as to what type of structure they want, Mr. Meeke stated that they are concerned only in safety for the traveling public and would favor any type of structure which would allow traffic to flow safely through this intersection.

Chairman Chandler pointed out that both types of separation are very costlty, but the Commission will have the matter investigated carefully and will decide the matter when the facts have been studied. The Engineer was thereupon instructed to make a complete report on the subject as soon as possible.

April 14, 1955

Contractor Archie R. Averill and his Attorney, Mr. Hayward Andrews, Portland, appeared before the Commission regarding forfeiture of the bid bond furnished by Mr. Averill in connection with his proposal to construct a bridge over North Scappoose Creek on the Pittsburgh-Scappoose County Road in Columbia County. Mr. Andrews stated that he appears as a friend for Mr. Averill, rather than as a representative of the Aetna Casualty and Surety Company which furnished the Proposal Bond for this contract. He reviewed the bids for this project, pointing out that Mr. Averill stated in his bid that he would accept only one job at this letting; whereas, he was low bidder on two additional jobs which were awarded to other contractors. He further stated that Mr. Averill erred by omitting a labor item from his bid, with the result that his bid of $15,750 was about 25 per cent below the next low bid. He called attention to a Supreme Court decision in the "Rushlight" case in which the Court held for the contractor because in the Court's opinion, the contractor made an honest mistake in his bid.

Chairman Chandler stated that the Commission does not wish to hurt any contractor, but it is concerned with protecting the State's interests. He expressed his personal opinion that Mr. Averill should confine his operations to the supervision of jobs rather than continue in the contracting business. He favored relieving Mr. Averill of the penalty in this instance, but cautioned him about bidding on future work. Commissioner McIver expressed himself similarly as did also Commissioner Reynolds. Motion was then offered by Commissioner Reynolds that payment of the amount of the bid bond in this instance be waived. Commissioner McIver seconded the motion. Chairman Chandler declared the motion carried unanimously.

The Engineer reported that the 25-mile per hour speed zone that was established by the Commission at its meeting on May 18, 1953 on the Oregon Coast Highway near China Camp Marsh Bridge (between M.P. 269.24 and M.P. 270.36) no longer is required in view of the fact that the realignment and the widening of the highway at this point has been completed. He recommended appropriate action by the Commission rescinding the previous action. The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "F-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported a need for the rearrangement of the 40-mile per hour speed zone that was established by the Commission on January 6, 1953 for that section of the Pacific Highway West that extends from a point 0.12 mile north of Rickreall Grade School (M.P. 58.62) to a point 0.07 mile south of the Willamina-Salem Highway Junction (M.P. 59.04). He explained that there is a reverse curve in the highway south of the zoned section where the comfortable driving speed is 25-miles per hour, also that when the original speed zone was established, the policy of zoning school crossings for 25-miles per hour was not in effect. He accordingly recommended that the action taken by the Commission on January 6, 1953 be rescinded and that a new 40-mile per hour speed zone be established on this highway between a point 0.29 mile north of Rickreall Grade School

(M.P. 58.45) and a point 0.28 mile south of Willamina-Salem Highway Junction (M.P. 59.55), except that between M.P. 58.55 and M.P. 58.86, the indicated speed shall be 20 miles per hour during the hours of school crossings as provided in subsection 1.a. of O.R.S. 483.104. The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "F-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported requests from residents along the Williams Secondary Highway, Josephine County, for establishment of a reduced speed zone along this highway between Grants Pass and New Hope, and a request from Mr. Arthur M. Young, Tigard, for establishment of a reduced speed zone on the Beaverton-Aurora Highway just south of Tigard, and for construction of a pedestrian footpath along such section. He advised that both requests had been investigated by the Traffic Engineering Division whose findings reveal that establishment of a reduced speed zone is warranted in both instances but that the pedestrian footpath requested by Mr. Young and which is estimated to cost between $12,000 and $15,000, is not warranted. Accordingly he recommended as follows: (1) establishment of a 35-mile per hour speed zone on the Williams Secondary Highway No. 261 from its junction with the Redwood Highway (M.P. 0.00) to a point 0.30 mile southerly therefrom (M.P. 0.30), and establishment of a 45-mile per hour speed zone on the Redwood Highway from a point 0.30 mile south of the Redwood Highway Junction (M.P. 0.30) to a point 0.18 mile south of New Hope Road (M.P. 1.68); (2) establishment of a 35-mile per hour speed zone on the Beaverton-Aurora Secondary Highway No. 141 between its junction with the Pacific Highway West (M.P. 4.92) and a point 450 feet south of Burnham Street (M.P. 5.57); and (3) that the request of Mr. Young for a pedestrian footpath on the Beaverton-Aurora Secondary Highway No. 141 be denied. The Commission accepted the Engineer's recommendations. The attached resolutions establishing speed zones on the Williams Secondary Highway No. 261 and on the Beaverton-Aurora Secondary Highway No. 141, marked EXHIBITS "F-3" and "F-4" respectively, which resolutions by this reference are made a part hereof with like effect as though extended in full herein, were thereupon adopted by the Commission by unanimous vote.

The Engineer reported a request from the Department of State Police for an investigation of traffic hazards on the Territorial Highway near the high school in the town of Elmira. It appears that a hazard results from the parking of cars on the shoulders of the highway during athletic events and other school functions. Due to the fact that the pavement at this location is only 20 feet wide and that the shoulders are of gravelled construction eight feet wide, the Engineer recommended that the parking of vehicles on the shoulders of the highway be prohibited between M.P. 18.49 and M.P. 18.56. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a request from the Cedar Hills Company, Portland, for permission to erect and maintain a large electrical

sign reading "Cedar Hills Shopping Center", on the rotary area within the traffic circle contained in the Company's subdivision adjacent to the Sunset Highway, west of Portland. The Engineer recalled that the Commission in March 1947, entered into an agreement with the Company for construction of a traffic interchange at the entrance to this development, and that the agreement stipulated that "the Company shall prevent the erection or location of any building or structure within the rotary". The lower portion of the sign that the Company wishes to erect, he said, will be about ten feet off the ground so will not interfere with sight distance which was the prime motive for prohibiting building development within the rotary. He said further that he can see no particular objection to the sign, and he recommended that the agreement of March 1947, be modified to permit the erection of the sign as requested, particularly in view of the fact that the property on which the sign is to be placed belongs to the Company. The Commission adopted the recommendation.

A letter was presented from Allen's Press Clipping Bureau, Portland, in which the Commission was requested to renew its subscription to the service it renders. The Commission decided not to renew the subscription.

The Commission discussed and ordered filed a letter from the Oregon Motor Court Association, Seaside Chapter, recommending adoption of "Route No. 1", overland across the Lewis and Clark River, for the proposed new highway between Seaside and Astoria.

Also discussed by the Commission was a letter from the Board of County Commissioners of Pacific County, Washington, requesting renewal of the official yearly passes that have been issued to the County in years past for use of the State owned ferries that operate across the Columbia River between Megler, Washington, and Astoria, Oregon. In the discussion, it was pointed out that when this ferry service was inaugurated by the State, Pacific County cooperated to the extent of contributing $15,000 toward the cost of a landing on the Washington side of the river, and it was understood at the time that the County would be reimbursed out of profits, if any accrued, from the operation of the ferries. The ferry operation, he said, has shown no profit whatsoever during the time that it has been operated by the State; on the contrary, the records show continued losses, which accounts for the fact that the County was not reimbursed for a long time. It was also pointed out that at the insistence of the County, repayment of the $15,000 was made during 1954. The Engineer gave as his feeling that since Pacific County has been reimbursed for its total capital investment, and considering that no passes are issued to any official personnel in Oregon, including people of Clatsop County, the obligation to furnish passes to Pacific County has been fulfilled. The Commission expressed concurrence in the viewpoint of the Engineer, and thereupon ordered that the request of the Board of County Commissioners be refused.

A claim presented by Mr. Jack Converse, District Engineer, Longview Fiber Company, for damage suffered his automobile on the Canyon Road, Portland, on the afternoon of January 13, 1955, had the attention of the Commission, said claim being in the amount of $86.21. The Engineer

explained that a small highway maintenance crew was cutting brush and trimming some trees on the highway right of way and that one of the limbs fell on Mr. Converse' car, damaging it slightly. The claim, he said, was paid by Mr. Converse' Insurance Company, Pacific Indemnity Company, which now is seeking reimbursement for the amount which represents labor and parts in replacing a windshield. He also said that investigation reveals that the accident occurred as a direct result of the highway crew's operations, and he recommended that the claim be paid. The Commission approved the recommendation.

A letter was presented from U. S. Army Engineers requesting the Commission's consent to the granting of a permit to H. A. White, or Harold White, his son, for access to the relocated highway No. 30 to permit them to service certain irrigation pumping facilities on the north side of the highway and the Union Pacific Railroad tracks, said access to be at Highway Engineer's Station 1976+27.52. The Engineer explained that in the original negotiations for right of way for the new highway around The Dalles Dam, the Army Engineers found it necessary to provide irrigation pumping facilities for Mr. White, and that the plan was to install the pumping facilities on the river side of the highway and the railroad with the pumping to be done through a pipe provided in the construction of the highway by the Army Engineers. It has now been determined necessary, in order to service the facilities, that access be granted for passage of a jeep or similar vehicles through locked gates which will be installed on either side of the railroad right of way immediately adjacent to the highway right of way. He recommended approval of the request, and that private access be allowed Mr. White at the aforementioned Engineer's Station for the sole purpose of servicing the irrigation pumping facilities, subject to the condition that the crossing shall be gated and locked, and that it is not to be made available to any one other than Mr. White or his employees. The Commission adopted the recommendation, and so ordered.

The Engineer reported that the U. S. Army Engineers are preparing to dedicate Lookout Point Dam on the Willamette Highway early in June, and that prior to the dedication, they wish to erect certain signs pertaining to the Dam and Reservoir, and to construct a visitors' viewpoint shelter. The plan, he said, provides for the erection of two signs, five feet by ten feet in dimension on either side of the Lookout Point Reservoir, the signs to bear the wording, "Lookout Point Reservoir-- constructed and operated by the Corps of Engineers, U. S. Army." At the Dexter Regulating Dam site, they propose to erect a sign facing traffic from either direction containing the wording, "Dexter Dam--constructed and operated by the Corps of Engineers, U. S. Army." All of the signs, he said, will be erected on State-owned property outside of the guard fence which is in place along the edge of the highway. He recommended that permission be granted for the erection of the signs and the viewpoint shelter,as requested. The Commission approved the recommendation.

The Engineer brought up for discussion the matter of reimbursing Coos-Curry Electric Corporation for the cost of reestablishing its pole line along the Greggs Creek-Wedderburn Section on the Oregon Coast High-

way. He explained that the pole line was originally constructed on private right of way and that it was necessary to move it to accommodate the highway improvement, which is being performed under a U. S. Bureau of Public Roads contract. He estimated the cost of reestablishing the facilities at $4,000. He recommended that the Corporation be reimbursed in such sum, upon submission of a proper billing. The Commission approved the recommendation.

The Commission considered and unanimously approved out-of-state travel expense for the following:

1. R. H. Baldock, State Highway Engineer, to go to Washington, D. C. to appear before the House Committee on Roads, in Congress, during May 9-13. Estimated cost $390.

2. W. C. Williams, Deputy State Highway Engineer, to attend a meeting of Officials of the WASHO Test Road Conference in San Francisco, California, the exact date for which has not as yet been set. Estimated cost $95.

3. Carl Jordan, Director of Travel Division, to attend a conference of the Pacific Northwest Trade Association in Vancouver, B.C., during May 9 and 10, 1955. Estimated cost $60.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

Mrs. Beatrice Crawford Drury, Salem, came before the Commission to request that the Commission purchase her property adjacent to the Oregon Coast Highway south of Yaquina Bay, for park purposes. She explained that she owns about 100 acres with one-fourth mile ocean frontage which Mr. S. H. Boardman, former Parks Superintendent, thought would make a fine park. The property has been offered to the State for $25,000, she stated, but the State's appraiser indicated that the property was worth only about $10,000. She exhibited an old map of the area and pointed out the advantages of her property from the standpoint of park usage. She asked the Commission to secure independent appraisals to determine its value.

Chairman Chandler stated that the Commission is familiar with the property but there is a question whether or not it is worth the price that she is asking for it. He also said that the Commission will have the State Parks Superintendent make further investigation of the area and have the property appraised by two independent appraisers.

A delegation from Curry County composed of citizens from Port Orford, Gold Beach, Brookings, Newport, and Sixes, appeared before the Commission to urge further improvement of the Oregon Coast Highway south of Gold Beach. The following people made up the group: Vern Ayers, Manager of Oregon Coast Association, Newport; M. E. Kelly, representing Chamber of Commerce, and W. S. Henson, representing City Council, both of Port Orford; C. E. Dempsey, representing Chamber of Commerce, and V. L. Brim, Mayor, both of Brookings; D. O. Breedlove, County Commissioner, Sixes; Guy H. Forsyth, County Judge, and F. R. Chamberlain, representing the Chamber of Commerce and City

Council, both of Gold Beach. Mr. Ayers, who acted as spokesman, introduced the members of the delegation. He also read aloud a letter from the Oregon Coast Association in which the Commission was urged to retain its original plan for early construction of the section from Gold Beach to Pistol River. Mr. Chamberlain stated that the Chamber of Commerce and the City Council of Gold Beach would cooperate with the Commission in every way possible, except contribute funds, to advance the improvement and will urge property owners to sell their land for right of way at fair prices. Mr. Dempsey read aloud a letter signed by Mayor Brim of Brookings, Brookings-Harbor Chamber of Commerce and the Chairman of their Highway Committee, urging early construction of the section between Gold Beach and Brookings, to facilitate shipping and to accommodate tourist traffic. He pointed out that all commodities must come into Brookings by truck as there is no rail service. It was his thought that high prices demanded by some for land required for highway right of way is detrimental not only to the community but to the entire State. Judge Forsyth stated that the Curry County Court is strongly in favor of the early construction of the section south of Gold Beach. Mr. Kelly read aloud a letter from the Port Orford Chamber of Commerce protesting any transfer of funds heretofore allocated for construction of the highway south of Gold Beach. He pointed out that this project is the No. 1 project in Curry County and should be completed in the near future. Mr. Henson emphasized the need of a better highway so Curry County can compete with Counties of California.

Chairman Chandler pointed out that the revised location of the highway is along the coast north of Brookings to Pistol River, through the area set aside as Boardman Park, but construction is very expensive and it will be several years before funds can be found to finance the work. He also said that the Commission is not abandoning further work in Curry County, but some difficulties have been encountered in obtaining right of way in the northern part of the County because of the high prices that have been demanded, with the result being that construction now under way is costing considerably more than was anticipated. The survey from Gold Beach to Pistol River, he stated, is not yet completed so the Commission is not in position now to make a definite statement, and no guarantee can be made today that construction will proceed south of Gold Beach at an early date. He stated, however, that the Commission should not be accused of abandoning construction south of Gold Beach as a retaliatory measure. On the other hand, the Commission realizes the importance of a modern highway through Curry County and that benefits will accrue not only to Curry County, but to the State as a whole. No commitment, however, can be made until the survey south of Gold Beach is completed.

A member of the delegation inquired if it would be feasible to eliminate some of the curves in the existing highway between Pistol River to Brookings. Chairman Chandler replied that the Commission has considered such a project, but could not approve it because of the expense involved which could not be justified in view of the probabilities that this highway will be abandoned when the new one is built. He concluded the discussion by restating that the Commission can make no definite statement or commit-

ment regarding additional construction between Gold Beach and Pistol River until the survey is completed, and that in the meantime the project will have to remain in "status quo". The Engineer thereupon was authorized to continue the survey of this section.

A delegation representing the Harney County Chamber of Commerce came before the Commission concerning highway problems in and near the City of Burns. The following people composed the group: J. L. McCulloch, Chairman of the Highway Committee; C. W. Craddock, County Judge; Lee Reid, Mayor of Burns; Howard Maple, Manager, Burns Chamber of Commerce, and Mr. Ellis Bennett, businessman; and Irvin Kincaid, Mayor of Hines. Mr. McCulloch acted as spokesman. He asked the Commission to investigate the feasibility of installing traffic signals at the intersection of East Monroe Street and Date Avenue on the route of the Burns-Crane Highway in the City of Burns; and to improve the Central Oregon Highway from the east end of the section now under construction east of Hines to and through the City of Burns. He said that they have no preference as to the routing of the highway so long as it passes through both Cities, and he gave as the sentiment of the group that the by-passing of both Cities is not justified. Mayor Kincaid thanked the Commission for construction now under way east of Hines and stated that the City of Hines will cooperate in every way possible to facilitate early construction through the City. Judge Craddock stated that the County Court is in favor of this improvement, and although the Court has no preference as to the route to be followed, it does ask for early construction.

Chairman Chandler stated that the sum of $260,000 has been programmed for improvement between Hines and Burns, but the money will not be available before July, 1956 so the work cannot be contracted before that time. Commissioner Reynolds recalled that previously there had been some objections from residents of Burns concerning the proposed route through the City. He inquired if this objection would be repeated if plans for construction were to proceed. Mr. McCulloch replied that the objections previously made were unauthorized and in his estimation would not be repeated because the person responsible for them no longer resides in the City. Commissioner Reynolds then stated that the Commission does not establish routes because that is an engineering problem, but the Commission will take action when a report has been rendered by the Engineer and will select a route that it considers will provide the most benefits for the most people. As to the traffic signal installation at the intersection of Monroe and Date Streets, he said that an engineering investigation will be made and the Commission will act on the findings when reported. The Engineer was thereupon instructed to make such investigation. Mr. McCulloch then inquired concerning further improvements to US395 north of Burns on what is known as the Poison Creek Section. He was informed by Chairman Chandler that this is a Forest Highway Section and that funds to finance it are still tied up in Washington, D. C.

The matter of improving the Wright's Point Section of the French Glen Secondary Highway was again discussed with Judge Craddock. As a result thereof, it was agreed that the south unit will be constructed as a

Federal-aid Secondary (County Road) project at an estimated cost of $26,000, and that the north unit will be constructed as a State Federal-aid Secondary project at an estimated cost of $30,000, and that both units will be constructed under one contract. The Engineer stated that such arrangement has the approval of C. G. Polk, District Engineer of the Bureau of Public Roads, subject to the condition that the work is done by contract rather than by County forces. Judge Craddock advised that he would write the Commission within the next few days confirming the arrangement.

Mr. Carl Welch, President of the Clatskanie City Council, came before the Commission to urge widening and paving of the Columbia River Highway through the City of Clatskanie. He presented a petition from several property owners in which the Commission was requested to widen the fill to the right of way lines, to install curbs, to pave curb to curb from Conyers Street easterly to the proposed new bridge across the Clatskanie River, and to grant permission to property owners to install sidewalks on each side of the highway. He also presented a resolution passed by the Clatskanie City Council on April 4, 1955, requesting the same improvements and stating that if the work is performed, the City of Clatskanie will install storm sewers as are required by the State, at an estimated cost of $1,800. Easements from several property owners were also presented to cover encroachment of fill materials on their properties. Mr. Welch read aloud both petition and resolution. The Engineer stated that the highway right of way is 120 feet wide along this section and that it is planned to construct a 24-foot pavement with shoulders. The widening as requested, he said, will benefit mostly the adjacent property owners, and will be of very little benefit, if any, to the traveling public. He stated that he could not recommend that the State assume the entire obligation. He estimated the total cost of the project at $39,600 and suggested approval of the same on the basis that the City pay the cost to fill in the area back of the curb lines, estimated at $10,000, to construct sidewalks, estimated at $6,000, and to install storm sewers, estimated at $1,800 -- a total of $17,800, the State to pay the balance, estimated at $21,800. The Commission deferred action on the matter pending information that the City definitely will assume the obligation to contribute $17,800 toward the cost of the improvement. The Engineer was authorized to conduct a detailed survey of the project if the City agrees to cooperate on the basis outlined by him.

Mrs. Blanche Tipton, Roseburg, came before the Commission to request additional access to the approach road that leads to the Pacific Highway (new route) from her property located on the Deady-Shady Section, south of Roseburg. She alleged that the option she gave the State for right of way across her property was secured under pressure, following the death of her husband, and that she was not fully aware of its terms until later, and now finds that her property is landlocked. She asked for access to the approach road about 1,600 feet from the Pacific Highway. She complained that the detour road which was supposed to have been made available for her use has been filled in so that it cannot be used; also, that her remaining property is quite valuable, she having been offered $1,000 per lot for the same, but she cannot conclude the sale under the present access arrange-

ment. She also stated that a fill constructed by the County had considerably aggravated her problem and that the access point allowed is in a far corner of her land where it is of no practical use to her. This matter was discussed at considerable length but a decision was deferred until the Commission has an opportunity to view the premises on one of its inspection trips this coming summer.

The Commission discussed with the Engineer the bids received at the morning session for highway construction, and at 3:30 p.m., Commissioner McIver publicly announced the Commission's decision with respect to each project, as follows:

"Lime-Porter Ferry Rock Production Project on the Old Oregon Trail Highway, near Huntington in Baker and Malheur Counties: The Commission awarded the contract to the low bidder, C. E. Leseberg, Nyssa, at his bid price of $23,560.

"Grading and paving; also construction of a concrete deck girder viaduct on the Clackamas Railroad Overcrossing Section of the Clackamas Highway in Clackamas County: The Commission elects to accept the bid of Inland Construction Co., Milwaukie, in the sum of $125,964 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading and paving Hart Avenue & 7th Street in Molalla in Clackamas County: The Commission awarded the contract to the low bidder, Salem Blacktop Paving Co., Salem, at their bid price of $9,217.40.

"Molalla Junction-Marquam Guardrail Project on the Cascade Highway about 10 miles north of Silverton in Clackamas County: The Commission awarded the contract to the low bidder, Trussfab, Inc., Portland, at their bid price of $7,280.

"Grading and oiling the Houston Lake-Powell Butte Section of the Houston Lake Road east of Redmond in Crook County: The Commission elects to accept the bid of P. C. Knox, Gladstone, in the sum of $39,823.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Crook County is received and the sum of $8,960 is deposited by the County.

"Millican Section Fencing Project on the Central Oregon Highway east of Bend in Deschutes County: The Commission awarded the contract to the low bidder, Van Tassel Bros., Terrebonne, at their bid price of $19,116.30.

"Umatilla County Line-Long Creek Rock Production Project on the Pendleton-John Day Highway, north of Long Creek in Grant and Umatilla Counties: The one bid submitted was rejected by the Commission as being too high.

"Construction of steel girder span to extend the existing Pacific Highway Undercrossing of the Southern Pacific Railroad at Ashland; also, 0.72 mile roadbed and paving in Jackson County: The Commission elects to accept the bid of Miller & Strong, Eugene, in the sum of $252,950 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of Quartz Creek Culvert and a bridge over McNeil Creek on the Butte Falls Road in Jackson County: The Commission elects to accept the bid of E-W Construction Co., Eugene, in the sum of $13,470 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Jackson County is received and the sum of $3,000 is deposited by the County.

"Construction of bridges over Drews Creek and Lost River at Merrill, Bonanza, and Olene in Klamath and Lake Counties: The Commission elects to accept the bid of Hamilton & Thoms, Eugene, in the sum of $120,310 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Klamath & Lake Counties is received and the sum of $22,400 and $4,600 is deposited by the respective counties.

"Vale-Cairo Shoulder Oiling Project on the Central Oregon Highway, and rock production on the John Day Highway in Malheur County: The Commission awarded the contract to the low bidder, N. A. Toole Construction Co., Ontario, at their bid price of$40,030.

"Paving Third Street and Locust Avenue in Nyssa in Malheur County: The Commission awarded the contract to the low bidder, Russell Olson Construction Co., Inc., Pendleton, at their bid price of $12,930.

"Division No. 2 Oiling Project on four highways and one frontage road in the vicinities of Newport, Silverton, Grand Ronde, Detroit and Salem in Marion, Lincoln, Tillamook and Polk Counties: The Commission awarded the contract to the low bidder, P. A. Shoat Co., Portland, at their bid price of $54,849.59.

"Falls City (North Main and Dayton Streets) Grading and Paving Project in Polk County: The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at their bid price of $11,247.50.

"Elgin (North 10th Avenue) Grading and Paving Project in Union County: The Commission elects to accept the bid of Russell Olson Construction Co., Inc., Pendleton, in the sum of $16,940 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Elgin is received and the sum of $4,375 is deposited by the City.

"Alicel-Minam Rock Production Project on the Wallowa Lake Highway in Union and Wallowa Counties: The Commission awarded the contract to the low bidder, Vernie Jarl, Gresham, at his bid price of $25,270.

"Seufert Frontage Road Grading Project along the Columbia River Highway, east of The Dalles in Wasco County: The Commission awarded the contract to the low bidder, Morrison & Lamping, Milton-Freewater, at their bid price of $17,332.

"Paving "E" and 4th Streets in Shaniko in Wasco County: The Commission awarded the contract to the only bidder, Warren Northwest, Inc., Portland, at their bid price of $8,342.50.

"Grading, stone base, and paving the North Plains-Hillsboro Section of the Shadybrook-Hillsboro County Road in Washington County: The Commission elects to accept the bid of Rogers Construction Co., Portland, in the sum of $139,875.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Washington County is received and the sum of $31,400 is deposited by the County.

The Commission discussed a proposed lease agreement with the Bonneville Power Administration covering installation, operation, maintenance and removal of a very-high-frequency radio repeater station on the Administration's Coburg Radio Station Site, about five miles north of the town of Springfield, in Lane County. The Engineer explained details advising that the Bonneville Power Administration operates a microwave radio communications station on this site, but is willing to allow the State to operate its repeater station on the property, upon payment of the sum of $600, which represents the Administration's share of the original cost of constructing an access road to the site; further, that in the event the lease is terminated by either party for any cause whatsoever within ten years of the date of the agreement, the Bonneville Power Administration agrees to refund to the State that proportion of the $600 initial payment that the time the State actually occupies the property bears to said ten year period. In addition to the payment of $600, the State also is to pay the Administration $10 annually toward the cost to maintain the access road. He recommended the approval of the arrangement. The Commission adopted the recommendation.

The Commission discussed and approved an agreement with the City of Oswego whereby the City is authorized to install a school crossing traffic signal over the Oswego Highway at its intersection with Church Street within the corporate limits of the City, on condition that the installation is made in conformity with plans and specifications approved by the State Highway Department, and that the cost of the installation shall be paid entirely with City funds.

The Engineer brought up for discussion a request from the Standard Oil Company of California to lease portions of State highway right of way on the Paulina Secondary Highway and on the Central Oregon Highway, and on State highways in Clatsop County in conjunction with properties adjacent to the highway which the Company has leased for drilling, mining and other operations for the purpose of locating and extracting oil, gas, and other

like hydrocarbon deposits and sulphur. He explained that no drilling, mining or other operations to extract such deposits will be conducted upon the surface of the State highway property, and the Company specifically requests that the Highway Commission do not grant such drilling rights to others during the term of its lease. The Engineer further explained that the agreement covers full width of the right of way on each highway; that the Company is limited to a distance of ten miles on the Paulina Highway, approximately five miles each side of the town of Post, and to a nine mile section of the Central Oregon Highway from a point eight miles west of Hampton to a point one mile easterly thereof; also, that the Company agrees to pay annually in advance a rental of 25 cents per acre for the total acreage involved, during the term of the agreement, but such rental is to be deducted from royalties paid to the State for oil, gas, or sulphur. He recommended approval of the Company's request, subject to the condition that the Company be not given the exclusive rights, and that the period of the lease shall be four years, which is the legal limitation, with privilege of renewal at the end of that period, and subject further to a determination as to the authority and jurisdiction of the Highway Commission to enter into such a lease. The Commission approved the recommendation.

The Commission approved the Secretary's report on papers signed by him in behalf of the Commission during the period February 24, 1955 to April 8, 1955.

The Commission discussed, and upon recommendation of the Engineer approved the termination of a lease with the Southern Pacific Company covering use of railroad right of way and Western Union Company poles in connection with State-owned remote-controlled radio station at Geer, six miles east of Salem.

Chairman Chandler brought up for discussion the rental of certain river frontage property that the State Highway Department owns in Oregon City. It appears that the property extends for considerable distance along the bank of the Willamette River and that it has been leased for a number of years to a party who uses it as a moorage for log rafts and who pays a monthly charge of $40 for the same. It also appears that another party in Oregon City owns similar property nearby for which he receives $100 per month rental, but he is having trouble with his lessee because of the difference in the rental rates. In the discussion, the question arose should the rental charge of the State's property be raised, or the property be disposed of entirely. The Chief Counsel advised that the State's property was leased in 1951 and that the lease expires this year; also, that the Property Controller, Mr. C. W. Parker, is familiar with the conditions and is now making an investigation. In view of this information, the Commission deferred action pending receipt of Mr. Parker's report.

Commissioner Reynolds brought up for discussion a request from Mr. S. C. Russell, Boardman, for construction of a frontage road on highway right of way at this place where he owns property. The Engineer advised that the request was investigated by Division Engineer A. F. Parson, whose report on the subject has just been received, but has not yet been

studied. He stated briefly that Mr. Parson recommends that direct access to the highway be denied, but that the property owner be given access to the highway by a County road, which would necessitate construction of a frontage road along the highway on his own property, to which there would be no objection if it were dead-ended at the east and connected with the highway only via the County road on the west. However, such construction might require widening of the County road entrance to the highway. The matter was referred to the Engineer for study.

The illness of County Judge Garnet Barratt, Morrow County, was discussed by the Commission. The Secretary was instructed to send him an appropriate letter expressing the Commission's regrets that he is not well, and extending to him sincere wishes for his early recovery.

The Commission discussed a recent inquiry from Senator Francis W. Ziegler, Member of the Joint Ways and Means Committee of the 1955 Oregon Legislature, which Committee was examining the budget presented by the Columbia River Gorge Commission. Senator Ziegler asked to be informed as to the plans of the Highway Commission with respect to the acquiring of additional acreage in the Columbia River Gorge for state park purposes, because the Columbia River Gorge Commission had included $50,000 in its budget for this purpose, and Senator Ziegler asked if the Highway Commission would consider taking over this obligation. A motion was made by Commissioner Reynolds that the following reply sent to Senator Ziegler be approved by the State Highway Commission:

"Pursuant to your request about the plans of the State Highway Commission with reference to the purchase of acreage for parks in the Columbia Gorge, please be advised that it is the desire of the Highway Commission to cooperate with the Columbia River Gorge Commission in the acquisition of certain properties necessary for that Commission's program and which will fit in with park development by the Highway Commission. The cost of this acquisition during the next biennium is now estimated to be approximately $50,000."

The motion was duly seconded by Commissioner McIver, and received the unanimous vote of the Commission.

The Commission also had under discussion a suggestion offered by Hon. Paul L. Patterson, Governor of Oregon, with respect to expanding the duties of the Advisory Committee on Travel Matters to include the State Parks Department. The Commission approved and signed the following letter directed to Governor Patterson relative thereto:

April 14, 1955

Honorable Paul L. Patterson
Governor of Oregon
State Capitol
Salem, Oregon

Dear Governor Patterson:

We have considered your suggestion that the duties of the members of the Advisory Committee of the Travel Information Division of the State Highway Department be expanded to include the State Parks Department, and have decided to ask these gentlemen to counsel and advise us in matters pertaining to the acquisition, operation and maintenance of State parks.

Very truly yours,

OREGON STATE HIGHWAY COMMISSION

/s/ Ben R. Chandler
Chairman

/s/ Chas. H. Reynolds
Member

/s/ M. K. McIver
Member

William C. Murphy reappeared before the Commission at this time concerning the permanent location of the Wallowa Lake Highway through the City of Minam, which was the subject of discussion on the previous day. He asked the Commission whether or not it has reached a decision with respect to the location of the highway because it affects their plans for reconstruction of their sawmill. Commissioner Reynolds stated that the Commission has given the matter considerable thought, but wants to know how long the Company proposes to use the area through which it is planned to relocate the highway. Mr. Murphy replied that it is impossible for him to state for how long they will need the property. Mr. Reynolds then advised that the State Highway Department will not interfere with the Company's present operations, and if it is found later that the highway improvement must go forward, then the Commission will consider an alternate location for it. Mr. Murphy expressed his satisfaction with this arrangement.

The Commission considered and signed agreements, etc., as follows:

"Modification Agreement" with McLeod Construction Compan to permit State to cross Company's premises, located on Coos Bay-Roseburg Highway, to remove timber from the State's quarry.

"Amended Lease for Land" with Mr. and Mrs. John Brelage, enlarging the leased area approximately 200 sq. ft. to accommodate their sewage disposal system located on Hauser-North Bend Section of Oregon Coast Highway.

"Bargain and Sale Deed" to Mr. and Mrs. Raymond H. Taylor of 0.82 acre of excess property near Jackson Springs resort on Medford-Ashland Section of Pacific Highway.

"Bargain and Sale Deed" to Franklin and Maebelle White of .10 acre of land situate on Cottage Grove-Divide Unit of Pacific Highway for use to correct an error in description in previous conveyances.

"Agreement" with U. S. Forest Service covering fencing of a 7½-mile section of forest range land on the Starkey-Ukiah Secondary Highway.

"Acceptance" re approval of a license from the Bonneville Power Administration granting to the State permission to install, operate, maintain and remove a very-high-frequency radio repeater station on its Coburg Radio Station Site, north of Springfield.

"Agreement" with City of Oswego covering installation of a school crossing signal at intersection of State and Church Streets in Oswego.

"Agreement" with E. W. Homstad for permission to utilize a portion of the Cape Lookout Park Road in the harvesting of adjoining timber for a two-year period.

"Abandonment Agreement" with Yamhill County covering the East Unit, Carlton Junction-Newberg Section of the Yamhill-Newberg Secondary Highway No. 151.

"Abandonment Agreement" with Lane County covering the Crow-Gillespie Corners Section of the Territorial Secondary Highway No. 200, in Lane County.

"Permit of Access" with Lewis A. Berney, et ux., covering access to and from Grant Smith County Road No. 88 on Shady-Booth Ranch Unit of Pacific Highway, Douglas County.

"Indenture of Access" on Stacey property on Reedsport-Coos County Line Section of Oregon Coast Highway, Douglas County.

"Agreement" with Washington County providing for construction of the North Plains-Hillsboro Section of the Hillsboro-Shadybrook Road, FAS 629.

April 14, 1955

"Grant of Easement" with Frank D. Overholser, et ux., covering an easement on Goshen-Coast Fork Willamette River Unit of relocated Pacific Highway, Lane County.

"Special City Allotment Agreement" with City of Falls City covering project on Dayton and North Main Streets in City of Falls City. (Authorized 12-7-54)

"Finance and Maintenance Agreements" with Multnomah County covering the S. E. Stark Street-Powell Valley Road Section of FAS 582. (Authorized 2-24-54)

"Finance and Maintenance Agreements" with Crook County covering the Houston Lake-Powell Butte Section of FAS 651. (Authorized 10-28-54)

"Finance and Maintenance Agreements" with Lake County covering the Drews Creek Bridge on FAS 407. (Authorized 10-28-54)

EXHIBIT "A"

Minutes of April 13 and 14, 1955

R E S O L U T I O N

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

EXHIBIT "B-1"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land in Marion County, Oregon, lying along and adjacent to the Portland-Salem Expressway described as follows:

A parcel of land lying in the southeast quarter of Section 25, Township 6S, Range 3 West, W.M., Marion County, Oregon the said parcel being that portion of said Southeast quarter lying southerly of the centerline of the Labish drainage ditch and lying Easterly of a line which is parallel to and 100 feet Easterly of the centerline of the Portland-Salem Expressway which centerline is described as follows:

Beginning at Engineer's centerline Station L4E 1740+00, said Station being 1404.84 feet North and 157.95 feet West of the Southeast corner of said Section 25; thence South 22° 40' West 2000 feet to Station 1760+00.

The parcel of land to which this description applies contains 9.14 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $4650.00 and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et.Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 135 be entered in the minutes and records of the Commission as of the 13th day of April, 1955.

EXHIBIT "B-2"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land on the Goshen-Coast Fork Section of the Pacific Highway in Lane County, Oregon lying along and adjacent to the Pacific Highway described as follows:

> A parcel of land lying in the Laban Buoy DLC # 50, also lying Section 23, Township 19 South, Range 3 West, W.M., Lane County, Oregon, and being a portion of that property conveyed by that certain Final Judgment dated December 22, 1954, and filed in the Circuit Court of the State of Oregon for the County of Lane, wherein the State of Oregon by and through its State Highway Commission was plaintiff and John Bradford Fox et ux were defendants and bearing Case # 44630 (13); the said parcel being that portion of said property lying Easterly of a line which is parallel to and 500 feet easterly of the center line of the Pacific Highway as said highway has been relocated, which center line is described in said Final Judgment.
>
> The parcel of land to which this description applies contains 20 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisors and the reasonable market value thereof found and estimated to be the sum of $4000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 136 be entered in the minutes and records of the Commission as of the 13th day of April, 1955.

24724

EXHIBIT "B-3"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land on the Gervais-Haysville unit of the Portland-Salem Expressway in Marion County, Oregon, lying along and adjacent to the Portland-Salem Expressway described as follows:

> A parcel of land lying in Section 19, Township 6 South, Range 2 West, W. M., Marion County, Oregon, and being a portion of that property described in that deed to State of Oregon by and through its State Highway Commission, recorded in Book 458, Page 195, of Marion County Records of Deeds; the said parcel being that portion of said property lying northerly of a line which is parallel to and 65 feet northerly of the northerly right of way line of County Road #615 and lying easterly of a line which is parallel to and 100 feet easterly of the center line of the Portland-Salem Expressway as said center line is described in said State of Oregon deed.
>
> The parcel of land to which this description applies contains 19.0 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $6650.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Sq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 137 be entered in the minutes and records of the Commission as of the 13th day of April, 1955.

EXHIBIT "C"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, now owns and from time to time acquires real property for public highways, and other public purposes, and

WHEREAS, establishment of new highways, relocation and realignment of existing highways, changes in construction plans, and changes in the requirements for real property for other public highway purposes result in particular parcels of land being no longer needed or valuable for public purposes in the then foreseeable future, and

WHEREAS, it is desirable to place such parcels of land in private ownership as rapidly as possible so that the land may be utilized and placed on the tax assessment rolls to ease the tax burden of all real property owners and to facilitate the development of the land to advance the economic growth of this state, and

WHEREAS, the State Highway Commission has long followed the policy of returning to private ownership parcels of land, that are no longer needed or valuable for public purposes in the foreseeable future, as rapidly as possible, consistent with the best interests of the State, so that the land may be placed on the tax assessment rolls and be developed to advance the economic growth of this state, and

WHEREAS, it is appropriate and desirable that the long-standing policies of the Highway Commission with respect to the administration and disposition of such parcels of real property be set forth in the official records of the Commission.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. That the long-standing policy of the State Highway Commission of returning to private ownership parcels of land, that are no longer needed or valuable for public purposes in the foreseeable future, is hereby affirmed.

2. That the Highway Engineer is directed to make a study of all real property acquired for or affected by construction of all current and future construction projects to determine whether any parcels of land are no longer needed or valuable for public purposes in the foreseeable future.

3. That the Highway Engineer is directed to continually study, within the scope and routine of his many duties and activities, all properties held by the State of Oregon, by and through its State Highway Commission, other than properties held for state park purposes, to determine what parcels of land are

EXHIBIT "C" (cont.)

no longer needed or valuable for public purposes in the foreseeable future.

4. That the Highway Engineer is directed, when his studies disclose the existence of such parcels of land, to furnish the legal description thereof to the Chief Counsel of the State Highway Commission.

5. The Chief Counsel is directed to expeditiously sell, exchange, or otherwise dispose of said parcels of land to the best interests of the State of Oregon in the usual method of disposing of surplus property as heretofore or hereafter prescribed by the Highway Commission. If the property cannot be sold for its fair cash market value, the Chief Counsel may lease or rent said parcels of land until such time as the fair cash market value can be obtained therefor.

6. That this resolution and order shall be entered in the minutes and records of the Commission as of the 14th day of April, 1955.

4127

EXHBIT "D"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3818 with Roy L. Houck & Son for grading and paving on the Willamette River-Marion County Line Unit, Barbur Boulevard-White School Section of the West Portland-Hubbard (Wilsonville-Hubbard) Highway in Clackamas County, completed September 30, 1954

"Contract No. 4044 with Steeck Electric Company for installation of traffic signals in the City of Tigard on Pacific Highway West in Washington County, completed March 9, 1955.

"Contract No. 4102 with Birkemeier & Saremal for construction of the 60th Avenue Overcrossing on the T. H. Banfield Expressway in Multnomah County, completed March 15, 1955.

"Contract No. 4146 with R. H. Jones for construction of Mission Junction Grade Separation Structure on the Old Oregon Trail Highway in Umatilla County, completed April 1, 1955.

"Contract No 4170 with C. E.. Leseberg for furnishing crushed materials in stockpile on the Buchanan-Vale Section of the Central Oregon and Vale West Highways in Malheur and Harney Counties, completed March 15 1955

"Contract No. 4206 with The Colorado Fuel & Iron Corporation, Pacific Coast Division, for fencing on the Oakland Junction-Boomer Hill Road Section of the Pacific Highway in Douglas County, completed March 24, 1955.

"Contract No. 4214 with N. A. Toole Construction Company for furnishing crushed materials in stockpile on the Suntex Section of the Central Oregon and Lakeview-Burns Highways in Harney County, completed December 31 1954.

"Contract No. 4263 with Mann Construction Company for construction of a maintenance building at Keno in Klamath County, completed February 28, 1955.

"Contract No 4289 with Starr Builders for construction of a car storage shed at Albany on the Pacific Highway in Linn County, completed March 1. 1955.

"Contract No. 4349 with Knight Pearcy for roadside improvement on the

EXHBIT "D" (cont.)

Tigard Overcrossing Section of the Pacific Highway West in Washington County, completed March 18, 1955.

"Contract No. 4364 with T. W. Thomas for construction of guardrail on the Sand Station Section of the Columbia River Highway in Umatilla County, completed March 24, 1955.

THEREFORE BE IT RESOLVED that the work covered by State Highway contracts for the construction of State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 41 shall be entered in the minutes and records of the Commission as of the 13th day of April, 1955.

EXHIBIT "E"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, pursuant to the provisions of ORS 366.810, there have been by the Oregon State Highway Commission apportioned to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

From Revenues Accruing during Second Six-month Period of 1953:

Jordan Valley	$ 829.79
Richland	773.54
Stanfield	2,971.08

From Revenues Accruing during the First Six-month Period of 1954:

Condon	$2,756.36
Elkton	572.34
Fossil	1,836.63
Lexington	674.85
Richland	626.45
Riddle	1,805.30
Scotts Mill	617.90
Sherwood	1,637.30
Stanfield	2,406.12
Umatilla	2,541.33

From Revenues Accruing during the Second Six-month Period of 1954:

Bay City	$2,676.49
Bonanza	910.92
Detroit	963.68
Eagle Point	2,134.86
Glendale	3,063.37
Lonerock	133.65
Lostine	865.20
Mitchell	1,459.58
Riddle	2,229.82
St. Paul	942.57
Umatilla	3,105.57
Vale	5,338.91
Waterloo	633.07

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits

EXHIBIT "E" (cont.)

thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4 This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 13th day of April, 1955.

EXHIBIT "F-1"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, under the provisions of Oregon Laws the Highway Commission is given authority to reduce speed limits and to impose other restrictions when such action is necessary for the safety of the traveling public, and

WHEREAS, on the 18th day of May, 1953, the Highway Commission adopted a resolution (Speed Limit Resolution No 109) imposing a reduced speed limit on the China Camp Marsh Section of the Oregon Coast Highway, said resolution to be effective until construction work on said section of said highway was completed; and

WHEREAS, subsequent to the adoption of said resolution, all of the conditions which justified the placement of said reduced speed limit have been diminated, and said construction has now been completed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by the State Highway Commission, all members being present and voting affirmatively, as follows:

1. Having duly considered the facts and statistics compiled by the State Highway Engineer, the State Highway Commission hereby finds that it no longer is necessary or desirable to maintain the reduced speed limit as set out in said resolution of May 18, 1953.

2. That the action of the State Highway Commission reducing the permissible speed limit on the Oregon Coast Highway, Highway No 9, between M. P. 269.24 and M. P. 270.36, in the vicinity of the China Camp Marsh Bridge, be and the same hereby is rescinded and cancelled, and that the maximum speed limit permissible hereafter on the said section of said highway shall be the maximumspeed limit provided by law; and

3. That certified copies of this resolution be filed with the Secretary of State and the Superintendent of State Police for their information.

4. That this resolution shall be entered in the minutes and records of this Commission as of the 14th day of April. 1955, and filed in the records of the Secretary of the Highway Commission under Speed Limit Resolution No. 184.

April 14, 1955

EXHIBIT "F-2"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation, the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: PACIFIC HIGHWAY WEST

Highway number 1 W Route number US 99W

Location of Termini		Established Speed
M. P. 58.45 (0.29 mile north of the Rickreall Grade School)	to M.P. 59.55 (0.28 mile south of the Willamina-Salem Highway Junction)	40 MPH

EXCEPT THAT BETWEEN

M. P. 58.55 and M. P. 58.86 the indicated speed shall be 20 MILES PER HOUR during the hours of school crossings as provided in Subsection 1.a. of ORS 483.104.

EXHIBIT "F-2" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein, particularly Speed Limit Resolution No. 98, adopted by the State Highway Commission on January 6, 1953, which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 185 be entered in the minutes and records of the Commission as of the 14th day of April, 1955.

24734

EXHIBIT "F-3"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the onditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

EXHIBIT "G-1"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, the Territorial Secondary Highway No. 200 is a state secondary highway under the jurisdiction and control of the Oregon State Highway Commission; and

WHEREAS, it appears that the parking of vehicles on the shoulders of said highway in the vicinity of the high school in the hamlet of Elmira, in the opinion of the Highway Commission, tends to create a hazard not only to the traveling public, but also to the owners and drivers of said parked vehicles and to pedestrians; and

WHEREAS, an area has been provided for off-highway parking at said location; and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff, that the parking of vehicles on the shoulders of the Territorial Secondary Highway No. 200, between M. P. 18.49 (Engineer's Station 53+55) and M. P. 18.56 (Engineer's Station 50+10), creates a hazard not only to through traffic but also to pedestrians and to persons owning and using said parked vehicles.

2. That this Commission does hereby find and declare that the parking of vehicles between said termini should be prohibited.

3. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared, the signs to bear in plain, legible letters, the words, "NO PARKING ON HIGHWAY SHOULDERS".

4. That a certified copy of this resolution be mailed to the Superintendent of the Department of State Police for his information and guidance.

5. That this "No Parking Resolution No. 126" be entered in the minutes and records of the State Highway Commission as of the 13th day of April, 1955.

April 13, 1955

EXHIBIT "G-2"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, the Columbia River Highway is a state primary highway and is likewise a federal highway which throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that near the intersection of Sandy Boulevard (Columbia River Highway) with N. E. 82nd Avenue at the easterly limits of the City of Portland, vehicles are parked on both shoulders of the highway for extended periods of time; and

WHEREAS, the parking of vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to the traveling public but to the owners and drivers of said parked vehicles; and

WHEREAS, in the opinion of the Commission public travel and public safety require that the use of the shoulders on either side of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff, that the parking of vehicles along either side of the Columbia River Highway (N. E. Sandy Boulevard) easterly from the east property line of N. E. 82nd Avenue (Highway Engineer's Station 0+66) to a point 400 feet easterly thereof (Highway Engineer's Station 4+66) a distance of 400 feet, creates a hazard not only to the traveling public but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which in the opinion of the Commission, should be provided pedestrians and the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the

action of the Commission as herein declared, on which signs shall be printed in plain letters the words, "NO PARKING AT ANY TIME".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 127 be entered in the minutes and records of the State Highway Commission as of the 13th day of April, 1955.

EXHIBIT "H-1"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway in Josephine County, and of the Ontario-Snake River Section of the Old Oregon Trail Highway in Malheur County, and in connection therewith to prepare maps showing the routes and locations of said sections, and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1-a. That the survey of the Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway, beginning at Highway Engineer's Station 750+00, approximately 1.5 miles north of the community of Pleasant Valley, and extending in a southerly direction to Highway Engineer's Station 1220+00, a short distance north of the north city limits of the City of Grants Pass, together with the map, which for identification purposes bears Map File No. 1R-5-661 and the date of March, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1-b. That the survey of the Ontario-Snake River Section of the Old Oregon Trail Highway, beginning at Highway Engineer's Station 1185+00, approximately three quarters of a mile north of the north city limits of Ontario, and extending in a southerly direction to an intersection with the existing route of the Old Oregon Trail at Highway Engineer's Station 1297+04.42, approximately one-half mile east of the easterly city limits of Ontario, together with the map, which for identification purposes bears Map File No. 1R-5-647 and the date of February, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless other-

EXHIBIT "H-1" (cont.)

wise directed or ordered by the Commission.

3 That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the said highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That heretofore by resolution of this Commission dated November 3, 1948, said sections of said highways have been designated as throughways within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law", and, for the reasons stated therein, the above-named sections of said state highways should be and it is hereby directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law, except any portion of said sections which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said sections of highways were designated as throughways.

5. That this resolution be entered in the minutes and records of the Commission as of the thirteenth day of April, 1955 as Survey Resolution No 116.

EXHIBIT "H-2"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the route and location of the Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway (ORE 10) in Multnomah County, and of the Lake Road-Oregon City Section of the Cascade Secondary Highway (ORE 213) in Clackamas County, and in connection therewith to prepare maps showing the route and location of each of the said sections, and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1-a. That the survey of the Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway, beginning at Highway Engineer's Station 22+09 in the community of Hillsdale and extending in a westerly direction to Highway Engineer's Station 126+00 near the Washington-Multnomah County line, together with a map, which for identification purposes bears Map File No. 1R-5-656 and the date of March, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1-b. That the survey of the Lake Road-Oregon City Section of the Cascade Secondary Highway, beginning at Highway Engineer's Station 468+50, immediately south of the Southern Pacific Railroad Overcrossing north of the town of Clackamas and extending in a southerly direction to Highway Engineer's Station 708+50 in the northerly part of the City of Oregon City, together with the map, which for identification purposes bears Map File No. 1R-5-660 and the date of March, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

EXHIBIT "H-2" (cont.)

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4 That this resolution be entered in the minutes and records of the Commission as of the thirteenth day of April, 1955 as Survey Resolution No. 117.

EXHIBIT "H-3"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Ferry Street-Bridge-Mohawk Road Unit ("Q" Street Route) of a road known as the Eugene-Springfield Highway in Lane County, and in connection therewith to prepare a map showing the route and location of said section and to file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Ferry Street Bridge-Mohawk Road Unit ("Q" Street Route) of the Eugene-Springfield Highway, beginning at Highway Engineer's Station 40+09.39, near the east end of the Ferry Street Bridge across the Willamette River in Eugene, and extending in an easterly direction to an intersection with the Mohawk Road, 19th Street, Springfield, (Highway Engineer's Station 265+9510), together with the map which, for identification purposes, bears map file No. 7B-32-7 and the date of January, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of the said highway section along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of the said highway section along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

EXHIBIT "H-3" (cont)

4. That this resolution be entered in the minutes and records of the Commission as of the thirteenth day of April, 1955, as Survey Resolution No. 120.

EXHIBIT "J-1"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, the State Highway Commission on the 23rd day of June, 1954, by resolution, which said resolution was amended on the 18th day of January, 1955, declared the necessity for the acquisition of certain real property owned by Ruby A. Bailey, et al., bearing file No. R-21896, and situated in Section 13 and Section 24, Township 36 South, Range 15 West, W.M., Curry County, Oregon, for right of way purposes for the relocation, construction, improvement and maintenance of the Euchre Creek-Wedderburn Section of the Oregon Coast Highway, including its use for the relocation, construction, improvement and maintenance of the Curry County Road, known as the Wedderburn-Giesel Monument County Road; and

WHEREAS, the said resolutions declared the necessity for the acquisition or extinguishment of all rights of access to a right of way of the said relocated Euchre Creek-Wedderburn Section of the relocated Oregon Coast Highway and all of the contiguous real property of the owners, except for rights of access to the said relocated Oregon Coast Highway via the Wedderburn-Giesel Monument Curry County Road on the Easterly side thereof, opposite Highway Engineer's center line Station 1249+00; and

WHEREAS, the said State Highway Commission, after further investigation, has found that it will be to the best interests of the State and the owners to change the above-mentioned rights of access to the said relocated Oregon Coast Highway so as to allow the owners additional access rights to the said relocated Oregon Coast Highway via the Wedderburn-Giesel Monument Curry County Road;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That that certain resolution of June 23, 1954, as amended by paragraph number one of that certain resolution dated January 18, 1955, as entered in the minutes and records of the Commission and pertaining to the access rights to the property owned by Ruby A. Bailey, et al., File No. R-21896, be and the same hereby is further amended to read as follows:

> Rights of access to the said relocated Oregon Coast Highway via connections between the Wedderburn-Giesel Monument Curry County Road and the said relocated Oregon Coast Highway, which said connections will be constructed on the Easterly and Westerly sides of the said relocated Oregon Coast Highway at the most feasible places in the vicinity of Highway Engineer's center line Station 1249+00.

EXHIBIT "J-1" (cont)

2. That this amending resolution be entered in full in the minutes and records of the Commission this 13th day of April, 1955, as Condemnation Resolution No. 517.

EXHIBIT "J-2"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the State Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining certain sections of the state highway system, the Commission plans and proposes to acquire a material site, and for such purpose and in connection therewith the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that the following described real property is necessary and required for the acquisition of roadbuilding materials for use in connection with the proper construction and maintenance of the state highway system, said real property being located in Josephine County, Oregon, to-wit:

R-23404
Owner: Everett E. Robinson, et al.

A parcel of land lying in the East half ($E\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 31, Township 36 South, Range 6 West, and in the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 6, Township 37 South,

EXHIBIT "J-2" (cont)

Range 6 West, W.M., Josephine County, Oregon, and being a portion of that tract of land described in those certain deeds to Everett E. Robinson and Marion C. Robinson, recorded in Book 168, page 611 and in Book 108, page 115 of Josephine County Records of Deeds, the said parcel being described as follows:

Beginning at a point on the southeasterly line of the relocated Redwood Highway, opposite and 292.73 feet Southeasterly of Station 472+33.01 on the center line of said relocated Redwood Highway, said point being 611.61 feet South and 1412.84 feet East of the West quarter corner of said Section 31; thence along the Southeasterly line of said relocated Redwood Highway North 57° 57' 06" East 417.05 feet, North 51° 45' 30" East 552.27 feet, and North 36° 23' 48" East 84 feet, more or less, to the North line of the East half ($E\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of said Section 31; thence East along said North line 321 feet, more or less, to the Northeast corner of said East half ($E\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$); thence South along the East line of the East half ($E\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of said Section 31, and the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of said Section 6, 2980 feet, more or less, to a point which bears East of the Southeast corner of that tract described in that deed to David E. Turnridge and Wilma B. Turnridge, recorded in Book 175, Page 14 of Josephine County Deed Records; thence West 350 feet, more or less, to said Southeast corner; thence Northerly along the low water line of the Applegate River to the Northeast corner of said Turnridge tract, which corner is on the North line of said Section 6; thence West along the North line of said Section 6, 150 feet, more or less, to a point 705.7 feet East of the Northwest corner of the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of said Section 6; thence North 10° 37' 20" East 229 feet; thence North 5° 42' 50" West 451.84 feet; thence North 7° 45' 40" East 978.08 feet; thence North 58° 01'30" West 735.45 feet to the point of beginning.

The parcel of land to which this description applies contains 42.39 acres.

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located and will be operated and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "J-2" (cont)

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and that in the event no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 13th day of April, 1955, as Condemnation Resolution No. 535.

24754

EXHIBIT "J-3"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the S. E. Flavel Street-Lake Road Section of the Cascade Secondary Highway; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said S. E. Flavel Street-Lake Road Section of the Cascade Secondary Highway, certain interests in or fee simple title to certain parcels of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "J-3" (cont)

2. That the widening, improvement and maintenance of the said S.E. Flavel Street-Lake Road Section of the Cascade Secondary Highway and the highway facilities for which the said parcel of property, or interest therein, is required and being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 13th day of April, 1955, as Condemnation Resolution No. 542.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 542, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-4"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the S. E. Flavel Street-Lake Road Section of the Cascade Secondary Highway; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said S. E. Flavel Street-Lake Road Section of the Cascade Secondary Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT " J-4" (cont)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said S. E. Flavel Street-Lake Road Section of the Cascade Secondary Highway and all of the contiguous real property of the respective owners on the easterly side thereof remaining after the appropriation of the real property; provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A".*

3. That the widening, improvement and maintenance of the said S. E. Flavel Street-Lake Road Section of the Cascade Secondary Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of April, 1955, as Condemnation Resolution No. 543.

EXHIBIT "J-5"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the State Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Shady Point-Booth Ranch Section of the Pacific Highway; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Shady Point-Booth Ranch Section of the Pacific Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "J-5" (cont.)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the widening, improvement and maintenance of the said Shady Point-Booth Ranch Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of April, 1955, as Condemnation Resolution No. 553.

EXHIBIT "J-6"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to widen, improve, construct and maintain the Judkins Point-Goshen Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "J-6" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of widening, improving, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement, construction and maintenance of the said Judkins Point-Goshen Section of the Pacific Highway as a throughway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interest of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and improved Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the widening, improvement, construction and maintenance of the said Pacific Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to

final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of April, 1955, as Condemnation Resolution No. 666.

---

*FOOTNOTE:

EXHIBIT "J-7"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Clackamas Overcrossing Section of the Clackamas Secondary Highway; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the Clackamas Overcrossing Section of the Clackamas Secondary Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interest of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "J-7" (Cont)

2. That the relocation, construction, improvement and maintenance of the Clackamas Overcrossing Section of the Clackamas Secondary Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 13th day of April, 1955, as Condemnation Resolution No. 667.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 667, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-8"

Minutes of April 13 and 14, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit; For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry site; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads, highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goshen-Divide Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "J-8" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, construction, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment, and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Goshen-Divide Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Goshen-Divide Section of the relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Goshen-Divide Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief

EXHIBIT "J-8" (Cont)

Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of April, 1955, as Condemnation Resolution No. 596.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 596, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

Portland, Oregon
April 27, 1955

The State Highway Commission met in special session in the Green Room of the Imperial Hotel in Portland at 2:00 p.m. on April 27, 1955.

Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Robert L. May, Jr., Assistant Counsel
R. L. Porter, Right-of-Way Engineer
C. H. Armstrong, State Parks Superintendent
H. B. Glaisyer, Secretary

Also present were the following persons from the State of Washington representing the Washington State Highway Commission and the Washington Toll Bridge Authority:

Messrs. R. E. Hensel and E. C. Huntley, members of the Washington State Highway Commission;
Mr. O. K. Dinsmore, Assistant Director, Washington State Highway Department;
Mr. D. B. Hedges, Secretary, Washington Toll Bridge Authority;
Mr. Edward Starin, Bond Counsel for the Washington Toll Bridge Authority, and
Mr. A. G. Hutton, Jr., Assistant Attorney General for the State of Washington.

Chairman Chandler stated that the purpose of the meeting is to try to reach an agreement with respect to construction of the new bridge across the Columbia River between Vancouver and Portland and to reconstruct the existing bridge.

Mr. Dinsmore stated that it is the feeling of the Washington Highway authoritites that reconstruction of the existing bridge should be a part of the entire bridge project and that it is the obligation of the Federal Government to pay the costs involved, and that every effort should be made to get Federal funds to finance complete revision of the old structure. He pointed out that it was the Army Engineers who suggested that the old structure be revised. He stated also that there is concern in the minds of Washington authorities that if provision is made in the issuance of bonds to perform the revision work on the old bridge, the river-boat interests will not work for securing of Federal-aid.

Chairman Chandler stated that the Oregon State Highway Commission is in agreement with the idea that the Federal Government should pay at least part of the cost to revise the old bridge structure; however, the Commission also feels that there should be a meeting of minds between the two State authorities as to the procedure that should be followed in the event that Federal funds cannot be obtained under the Truman-Hobbs Act, because, in its opinion, the old bridge should be altered to conform to the new one.

Commissioner Reynolds commented that time is important and a start on the bridge construction program should be made as soon as possible. He agreed that the Federal Government should pay the cost of revising the old bridge and that there should be an agreement among the two States as suggested by Chairman Chandler.

Commissioner McIver remarked that, as he understands the Washington position, there is a possibility of losing Federal-aid if the two States agreed to make financial provision for revising the old bridge. He expressed the feeling that everything possible should be done to get the Truman-Hobbs money which was authorized for purposes such as this.

Mr. Baldock, Oregon State Highway Engineer, stated that the Army Engineers refused to invoke the provisions of the Truman-Hobbs Act as they felt that there is not enough river traffic at this time to justify raising the old bridge although they do require that the new bridge be constructed to a higher level. It was his feeling that if the two States request a new hearing with the Army Engineers and indicate to them that the States are willing to contribute a substantial portion of the cost of revising the old bridge, it will help the cause considerably. He pointed out that if the old bridge were raised, about 90 per cent of the drawspan openings can be eliminated, which would result in reducing the annual operating expense about 50 per cent thus realizing a savings of approximately $32,000 that will amortize an investment of $640,000. He suggested that the Army Engineers be approached with an offer by the States to pay one-half the cost of revising the old structure and if difficulties are encountered, then the matter can be presented to the Congress. He also suggested that every effort should be made to secure Federal-aid and if unsuccessful, that the States proceed with the work on the basis of an agreement which he proposed should be entered into at this time providing for State financing through issuance of bonds.

Chairman Chandler expressed the feeling of the Commission that the States should agree to build a high structure if the Federal monies cannot be obtained. He inquired as to the cost and time required to revise the old bridge and was informed by Mr. Baldock that it would take a year or possibly two and would cost about $3,000,000. He estimated the total cost for the new bridge, including interest charges but excluding financing cost, at $11,000,000 and the cost for both structures at $14,000,000.

Mr. Hedges commented that execution of an agreement as suggested by Mr. Baldock in his estimation will satisfy the conditions.

Mr. May presented copies of a form of agreement revised to contain the latest modifications agreed upon at a recent conference of officials of both States.

Chairman Chandler inquired if navigation interests would be agreeable to giving a 12-hour or a 6-hour notice for drawspan openings if the old bridge is revised. Mr. Baldock replied that no discussion had as yet been carried on with them on this matter, but he felt that they would be agreeable. Chairman Chandler then inquired if the Washington authorities are agreeable to proceeding with construction of both bridges with State money if Federal-aid cannot be obtained. Mr. Huntley replied that he is not in position to say at this time. Mr. Hedges stated his feeling that the Washington Toll Bridge Authority will approve any plan that the Highway Departments of the two States agree on and will sell bonds in conformity with the decision reached by both departments. Mr. Hensel inquired as to how much delay might be involved were the matter of cooperation from the Federal Government to be worked out before the States reach an agreement. Mr. Baldock gave as his opinion that it would delay construction about a year, whereupon Chairman Chandler remarked that such delay will cost the users of the bridges a considerable sum.

Mr. Huntley remarked that the Washington State Highway Commission will meet with the Toll Bridge Authority in Olympia on May 2 and that a decision could probably be reached by them at that time. He expressed the desire to "go the limit" in securing Federal participation. He also inquired if it is Mr. Baldock's feeling that approval can be obtained from the Army Engineers on a 50-50 cost basis without going to Congress. Mr. Baldock replied that if the Army Engineers submit a favorable recommendation to the Secretary of the Army, there should be no difficulty in securing Congressional approval. He suggested that it would be advisable to contact the Army Engineers on Friday of this week before the meeting of the Washington groups on Monday, May 2. The suggestion was adopted unanimously and arrangements were thereupon made for Mr. Baldock and Mr. Dinsmore to meet with the Army Engineers. The Commission authorized Mr. Baldock to attend the meeting of the two Washington groups in Olympia on May 2 to explain details of the Commission's position.

Mr. Hutton stated that nothing could be done toward issuing the bonds until a contract between the two States is signed; that it is urgent that an agreement be reached as soon as is possible because the Washington Supreme Court has a meeting scheduled for the first week in May and the agreement must be executed before then.

Chairman Chandler stated that the Oregon Commission will adopt the necessary resolution and sign the agreement before this meeting adjourns.

The conference was concluded at 3:15 p.m.

Following the departure of the Washington group, discussion of the project was resumed.

Mr. May stated that to provide for all possible legal technicalities involved in issuing bonds, et cetera, a resolution should be adopted by the Commission concerning the proposed agreement with Washington State Authorities for construction of the two bridges. He presented a form of resolution which the Secretary read aloud. Upon motion of Commissioner Reynolds, seconded by Commissioner McIver, the Commission unanimously adopted the resolution, as follows:

RESOLUTION

WHEREAS, on the 9th day of August, 1954, the State of Oregon, by and through its State Highway Commission, the State of Washington, by and through its State Highway Commission, and the Washington Toll Bridge Authority entered into an agreement wherein the right, powers, duties and obligations of the parties thereto with respect to the construction and financing of a new interstate bridge across the Columbia River, with approaches, adjacent to the existing Vancouver-Portland bridge, the possible reconstruction of the existing bridge, the fixing and collection of tolls for the use of both bridges, and the issuance of revenue bonds by the Washington Toll Bridge Authority were fixed; and

WHEREAS, it has been found necessary by the parties to said agreement that the same be amended and changed in certain particulars and that a new agreement containing such amendments and changes be entered into by the parties to said original agreement; and

WHEREAS, such amended agreement has been presented to this Commission in Special meeting duly called by the Chairman as required by law; and

WHEREAS, said amended agreement has been duly considered by the members of the Commission and approved in all sections and particulars thereof;

NOW, THEREFORE, BE IT RESOLVED by the Oregon State Highway Commission as follows:

1. That the amended agreement dated April 27, 1955, by and between the State of Oregon acting by and through its State Highway Commission, the State of Washington acting by and through its State Highway Commission, and the Washington Toll Bridge Authority, fixing the rights, duties, powers and obligations of the parties thereto with respect to the construction and financing of a new interstate bridge across the Columbia River, with approaches, adjacent to the existing Vancouver-Portland bridge, the alteration or reconstruction of the existing bridge, the fixing and collection of tolls for the use of both bridges, and the issuance of revenue bonds by the Washington Toll Bridge Authority, is hereby in all respects approved.

2. Each of the members of the Oregon State Highway Commission is hereby authorized to execute said agreement on behalf of the Commission.

3. That this resolution be entered in the minutes and records of the Commission as of this 27th day of April, 1955.

The Commission thereupon signed the "Amended Agreement" referred to in the above resolution.

The Commission continued in session and disposed of accummulated routine matters.

The minutes of the meeting held on March 2 and 3, 1955 were approved by the Commission unanimously.

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed for State highway improvements and for other purposes. After careful consideration, the Commission approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked "EXHIBIT A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer reported that he again contacted officials of the Corvallis Lumber Company concerning acquisition of their property needed in connection with the proposed relocation of the Pacific Highway West along First Street in Corvallis. He said that the Company now offers to sell the property for $110,000. He recalled that the highest appraised value of the property is $90,000, and he advised that he cannot recommend purchase of the property at a higher figure. The Commission decided not to acquire the property unless it can be bought for $90,000.

Upon the Right of Way Engineer's favorable recommendation and his statement to the effect that the property no longer is needed for highway purposes, the Commission approved the sale of 0.18 acre of land situate on the Canyonville Section of the Pacific Highway to I. N. Gray for a consideration of $100.

Sale of certain excess property in the City of Clatskanie was considered by the Commission. The Right of Way Engineer explained that this property is a portion of a vacated street in the City and no longer is needed for highway purposes. He recommended, and the Commission approved, sale of the property to Forris E. Humphrey for the sum of $500, which was the high bid received for the property at an oral auction.

Also presented for the Commission's consideration was the vacation of certain dedicated roadways in the community of Rowena on the Columbia River Highway west of The Dalles, which roadways are intersected by the new Columbia River Highway. The Right of Way Engineer explained that vacation of these roadways is required in order to eliminate any question

as to access to the Columbia River Freeway at these points. He requested authority to petition the Wasco County Court to vacate the streets. The Commission approved the request.

The Right of Way Engineer also presented a request for the vacation of a portion of N. E. Clackamas Street between 68th and 69th Avenues in Portland. He said that the Highway Department owns property in that area which is the reason the Commission is being asked to consent to the vacation proceedings. He also said that the proposed vacation will not adversely affect the State's interests, and he recommended that the Commission offer no objection to such vacation. The Commission accepted the recommendation.

Authority was requested by the Right of Way Engineer to offer for sale 1.449 acres of land situate on the Salem-Silverton road for a minimum consideration of $1,800. He explained that the tract was acquired by the Commission several years ago in connection with a settlement for right of way needed for improvement of the Salem-Silverton road but it no longer is needed for such purposes. He recommended that it be sold at public sale for not less than $1800. The Commission approved the recommendation.

The matter of compensating Mr. Carl A. Forrest for damages that already have accrued or that may hereafter accrue to him in connection with purchase of right of way from him was discussed. The Right of Way Engineer explained that in acquiring property from Mr. Forrest for the Booth Ranch-Myrtle Creek Section of the Pacific Highway an inadequate allowance of $500 was made for a new water system. Mr. Forrest, he said, has spent three times that amount for a water supply without success, and now advises that he will be satisfied with some sort of a chlorination system which will cost about $500, and he is asking the State to allow him such extra amount. He recommended that Mr. Forrest be paid such sum to enable him to install the system that he has in mind, contingent upon his signing a complete and final release for all damages, past or future. The Commission approved the recommendation.

The Assistant Chief Counsel requested authority to acquire by condemnation, if necessary, the following described parcel of land that is needed as a source of materials in connection with the proposed improvement of the Flora Spur Section of the Enterprise - Lewiston Highway in Wallowa County, and to tender an offer for the same in conformity with instructions issued by the Commission in a resolution adopted on December 20, 1951:

Flora Spur Section of the Enterprise - Lewiston Highway

R-20020- Samuel Curry
Road-building materials (Wallowa)
9.50 acres

The Commission approved the request and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The State Parks Superintendent, Mr. C. H. Armstrong, reported on the following matters:

1. Offer of Coos County Court to deed to the State for park purposes 28 acres of land adjacent to Golden and Silver Falls State Park on the Coos River Secondary Highway: The Parks Superintendent advised that the land lies in Lot 7, Sec. 18, T. 24 S., R. 10 W., W.M., and that it has been offered to the State without restrictions and at no cost; also, that it can be used to advantage in developing the existing state park. He recommended acceptance of the gift. The Commission accepted the property with thanks.

2. Request of the Conservative Baptist Church Association that it be allowed to construct a swimming pool and facilities in North Falls Youth Camp in Silver Falls State Park: The Parks Superintendent advised that the Association has offered to construct the swimming pool and the necessary facilities at its own expense and in conformity with State Highway specifications. In return for its outlay, he said, the Association wants the State to waive for a period of ten years the annual rental charge of $700 that it has paid in the past for use of the premises. He estimated the cost to construct the swimming pool at $8,000, and he advised that it has been orally agreed that the Association shall not have exclusive right to use the pool, and that at the end of the ten-year period, the pool will become the full and complete property of the State. He recommended approval of the arrangement which, he said, will be covered by written agreement between both parties. The recommendation was approved by the Commission.

The Engineer reported that under authority granted by law and pursuant to instructions from the Commission, he has awarded to the successful bidders, contracts which were referred to him by the Commission to award when certain conditions have been satisfied, as follows:

1. Grading and paving the Hess Creek (Newberg) Section of Pacific Highway West, Yamhill County. Bids received March 2, 1955. Conditions of award satisfied April 15, 1955. Stevenson Construction Company, Salem, contractor.

2. Construction of Quartz Creek Culvert and McNeil Creek Bridge on Butte Falls Road, Jackson County. Bids received April 14, 1955. Conditions of award satisfied April 20, 1955. E-W Construction Company, Eugene, contractor.

3. Grading and oiling Beals Corner-Parkdale Junction Section of the Dougherty Corner-Parkdale Road, Hood River County. Bids received April 13, 1955. Conditions of award satisfied April 20, 1955. Oregon Asphaltic Paving Co., Portland, contractor.

4. Stayton (10th Street) Paving Project, Marion County. Bids received April 13, 1955. Conditions of award satisfied April 21, 1955. Warren Northwest, Inc., Portland, contractor.

5. Peters-Messner Junction Stone Base and Oiling Project on 3 County Roads near Boardman, Morrow County. Bids received April 13, 1955. Conditions of award satisfied April 22, 1955. Babler Bros., Inc., Portland, contractor.

6. Grading and oiling the Houston Lake-Powell Butte Section of Houston Lake Road, Crook County. Bids received April 14, 1955. Conditions of award satisfied April 22, 1955. P. C. Knox, Gladstone, contractor.

7. Construction of Drews Creek and Lost River Bridges, Klamath and Lake Counties. Bids received April 14, 1955. Conditions of award satisfied April 26, 1955. Hamilton & Thoms, Eugene, contractor.

8. Grading and surfacing S. E. Stark Street-Powell Valley Road Section of East Burnside Road, Multnomah County. Bids received April 13, 1955. Conditions of award satsified April 26, 1955. Allum Bros., Eugene, contractor.

9. Grading, stone base and paving North Plains-Hillsboro Section of Shadybrook-Hillsboro County Road, Washington County. Bids received April 14, 1955. Conditions of award satisfied April 26, 1955. Rogers Construction Company, Portland, contractor.

10. Linn County oiling projects on 4 County roads. Bids received April 13, 1955. Conditions of award satisfied April 27, 1955. Oregon Asphaltic Paving Company, Portland, contractor.

The Engineer reported on the bids received by the Commission at its meeting on April 13 for furnishing liability and property damage insurance covering the "Steel Bridge" in Portland. He recalled that the bids were received on the basis of furnishing protection in the amounts of $200,000/$500,000 personal injury or death in any one accident, and $100,000 property damage in any one accident, and that the bid submitted by W. C. Dyer and Sons, Insurance Agency, Salem, was the low one at $1,129.40. This bid was accepted by the Commission and instructions were given to refer it to the Department of Finance and Administration to make the award. The Engineer pointed out that the insurance is being provided for the benefit of the Union Pacific Railroad Company which is the owner of the structure, pursuant to an agreement dated February 28, 1941, and that the insurance presently in effect is in the amounts of $100,000/$100,000 personal injury, and $25,000 property damage, in any one accident. Due to the fact that the insurance benefits only the Railroad Companies, he said, and because the present coverage is satisfactory for the Railroads, W. C. Dyer and Sons were contacted relative to providing insurance in the amounts of the present coverage, and they agreed to furnish such insurance for a premium of $995.40 for a three-year period. Full information was then referred to the Department of Finance and Administration with a recommendation that the negotiated offer of W. C. Dyer and Sons be accepted; however, the recommendation

was disapproved, and the suggestion was made that the Commission advertise for new bids for insurance in the amounts specified in the existing policy. In view of the circumstances, he recommended that all bids received by the Commission on April 13 be rejected and that the Commission issue a call for new bids to be received at the meeting on May 25. The Commission approved the suggestion and so ordered.

A report was presented by the Engineer concerning a request submitted by a delegation from Harney County at the previous meeting for installation of a traffic signal at the intersection of Monroe Street and Date Avenue in the City of Burns where the Burns-Crane Highway crosses the Union Pacific Railroad at grade. This request, he stated, has been carefully investigated and it has been determined that there is not sufficient warrant for a signal installation at this point. He explained that during the past eight years, only three accidents occurred at this crossing and there were no fatalities; also, that there are 53 grade crossings at other locations with a higher priority than this one. He recommended that the request be denied. The Commission approved the recommendation.

The Engineer reported the placing of a reduced load limit over the entire length of the East Diamond Lake Secondary Highway, effective April 27, 1955. He explained that snow is now being removed from this highway, with completion estimated about April 28, and that the reduced load limit is required to protect the road from severe damage by heavy traffic. The Commission approved the Engineer's action.

The matter of designating as a U. S. route the highway that passes through Hermiston and Umatilla and across the new Umatilla bridge, and the designation as a U. S. Route of the highways that extend from Lewiston, Idaho, through Flora, Enterprise and to La Grande in Oregon was considered by the Commission. The Engineer reported receipt of a letter from the Director of Highways of the State of Washington stating that the Washington Highway Commission presently is not in favor of so designating the Washington connection to the bridge at Umatilla, and receipt of a letter from the Idaho State Highway Engineer stating that he can give no assurance that the Idaho Highway Commission will agree to designating as a U. S. Route the highway which extends from Lewiston through Enterprise and to La Grande. In view of these communications, he said, it seems impossible to secure a U. S. Route designation for either highway. He was instructed to pass the information on to the Stanfield, Hermiston and Umatilla Chambers of Commerce.

The Engineer presented a supplemental report on his studies of the feasibility of constructing the Washington-Jefferson Streets Overcrossing of the Southern Pacific Company tracks in Eugene, with special reference to a proposed northern extension to River Road via Dike Road as compared with the improvement of Railroad Boulevard and First Street. He recalled that when the Commission authorized the original study it was understood that the State's participation with the City in any project or combination of projects would not exceed $700,000, and that the City would have to contribute the difference which was estimated at $500,000 on the basis of a

total cost of $1,200,000. The work outlined in this supplemental report, he said, calls for a total expenditure of $1,734,500. He further stated that copies of the supplemental report have been submitted to the City officials of Eugene and that he plans to meet with them later on to discuss it, following which he will present his recommendations to the Commission. The Commission accepted the report,but deferred action on it.

The Commission discussed briefly the advisability of erecting "Welcome" signs at points where State highways enter Oregon from adjoining States, but deferred action thereon until its next meeting.

Also deferred until the next meeting was approval of the location survey for the Cline Falls Section of the McKenzie Highway in Deschutes County.

The Commission considered requests for installation of a traffic light at the intersection of the Pacific Highway with a County road that leads to the plant of the Bear Creek Orchards, south of Medford. The Engineer advised that many requests have been received for a traffic light at this location and that an investigation discloses that it is difficult for traffic to enter the highway from the side road with safety. It was his opinion that a fully actuated signal should be installed, which he estimated would cost about $4,000, and he recommended approval of the installation on condition that Bear Creek Orchards will contribute $2,000 toward the expense involved, which, he said, they have agreed to do because most of the side road traffic originates at its plant. The Commission approved the recommendation, subject to the Orchard Company contributing $2,000 toward the costs, and ordered the matter covered by appropriate written agreement with the Company.

Petitions were considered from municipal corporations within the boundaries of the Port of Coos Bay, in which the Commission was urged to authorize a reconnaissance survey for a direct and modern highway extending from Coos Bay to Roseburg. In the discussion of this matter, the Engineer advised that the cost of such a survey would be considerable and that presently he does not have engineers available to conduct the work. The Commission ordered that the petitioners be informed that engineering personnel is not available at this time, but their request will be given consideration later on.

The Engineer requested approval of the transfer of $40,000 from a fund of $60,000 set up for pavement reinforcing on the Glover-Hilgard Section of the Old Oregon Trail in Union County, in order to finance construction of an 0-9 oil mat surface on a 12-mile section of the I.O.N. Highway south of Crooked Creek, between Rome and Basque, where the surface is badly broken. He pointed out that both projects are in Division V, and that immediate improvement of the I.O.N. Highway is a necessity. He recommended approval of the transfer of funds as requested, and that he be authorized to advertise the I.O.N. project for bids to be received at the May meeting of the Commission. He also stated that it will be necessary to call bids for production of rock for this project and for future maintenance, but provision has been made for such expense in the 1955 rock

production budget so no additional authorization for that purpose is required at this time. The Commission approved the I.O.N. project and the transfer of funds to finance it as recommended by the Engineer.

Consideration was given to a request from Richard L. Rice, Hillsboro, for permission to construct a temporary road approach on the south side of the Sunset Highway at Station 2579+50, to be used for a period of 90 days. The Engineer explained that the approach is for the purpose of removing logs, and that Mr. Rice has agreed to deposit $50 cash to guarantee removal of the approach and restoration of the drainage ditch. He recommended approval of the request. The Commission accepted his recommendation.

Payment of damages to 13 property owners whose crops were damaged by a survey crew on the Salmon River Highway between Sheridan and Valley Junction was considered. The Engineer explained that the damage occurred to planted crops in connection with the survey that was conducted for a new route for the Salmon River Highway between Sheridan and Valley Junction; also, that advance arrangements were made to trespass upon private property with the understanding that the State would pay for any damage that resulted. The 13 claims, he stated, ranged from $3.08 to a maximum of $29.04. Upon his favorable recommendation, the Commission approved payment of the 13 claims for a total of $153.89.

Transfer of the Fox Hollow Secondary Highway from the State Secondary Highway System to the jurisdiction of Lane County was discussed. The Engineer recalled that at the previous meeting it was agreed with the Board of County Commissioners of Lane County that the County would assume maintenance of and jurisdiction over Fox Hollow Secondary Highway as of April 15, 1955. The County Board, he said, has taken official action to that end, in view of which he recommended adoption of a resolution by the Commission formally transferring the highway to Lane County. The Commission accepted the recommendation unanimously by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The matter of granting authority to the State Highway Engineer to accept the offers of high bidders for Used Equipment and Scrap Materials immediately after the offers have been received and tabulated was considered by the Commission. The Engineer remarked that complaints have been received from bidders that they have to wait too long under present procedure to get their notification from the Commission whether or not their offers were accepted, the delay amounting to several weeks in some instances; whereas some of the other State Departments, including the Department of Finance and Administration, the State Forestry Department, and the State College, take action within two or three days following the bid opening. He suggested that it would be helpful were he granted authority to make awards to the highest responsible bidders for Used Equipment and Scrap Materials immediately after such have been determined with the understanding that he will report his action to the Commission at its next following meeting. The Commission approved the suggestion and ordered the action entered in the record of this meeting.

The Commission had under discussion the matter of public hearings that are required by Federal law when a highway is to be rerouted to by-pass a city or town. In the discussion it was pointed out that the Commission at the previous meeting scheduled such a hearing in Sheridan on Tuesday, May 24, 1955, starting at 10:00 a.m., to give the people of Sheridan and Willamina an opportunity to express themselves regarding the proposed rerouting of the Salmon River Highway to by-pass these towns. It was also pointed out that the Commission at the same meeting decided to discuss the proposed Rickreall-Dolph Corner Project at the meeting to be held in Portland on May 26, 1955, and that the Secretary was instructed to so notify Mr. Joseph H. Harland, Rickreall, so he could arrange to be present should he so desire. It now appears that Mr. Harland objects to the hearing in Portland and has stated his feeling that the hearing should be held either in Dallas or in Rickreall for the convenience of local people who wish to be heard on the subject, in fact, he has appealed to the Governor and certain members of the Legislature for their assistance in securing a change in the meeting place. As a result of the discussion, the Commission decided to change the meeting place of such hearing from Portland to Rickreall and thereupon scheduled it to be held in Rickreall on Tuesday, May 24, 1955, starting at 1:00 p.m. following the meeting in Sheridan. In this connection, the Engineer advised that the proposed improvement of Three Mile Lane Secondary Highway contemplates reconstruction of this highway on a route that will by-pass the town of Dayton. In order to satisfy the Federal requirements, he suggested that the Commission conduct a public hearing in Dayton on the same day that the public hearings are held in Sheridan and Rickreall, starting at 3:00 p.m. The Commission approved the suggestion and so ordered.

Attention was given to a claim submitted by the Pacific Telephone and Telegraph Company for reimbursement for the expense it incurred in repairing damage that resulted to its facilities near Swisshome from blasting operations conducted by a highway extra gang crew on January 5, 1955, said claim being in the amount of $855.20. The Engineer pointed out that the maximum amount that the State can pay under the law is $500, and he recommended that such amount be paid to the Company inasmuch as the highway crew definitely was responsible for the accident. He gave as his understanding that the Company will accept such amount as payment in full for its loss. The Commission approved the recommendation.

The Commission discussed briefly dates and routes for its proposed Highway Inspection Trips this coming summer, but deferred action until its meeting in May.

The Engineer suggested as a matter of good public relations that the State Highway Department maintain a display at the State Fair in Salem this fall. He said that if the Commission approves the suggestion he would arrange to show models of highway improvements, such as the Banfield Expressway, Salem Bridges, etc., artist sketches of proposed highway construction, and would have in the booth, pamphlets concerning State parks and other scenic attractions for distribution to the public. The Commission adopted the suggestion and authorized the Engineer to proceed with details, including a showing of highway pictures.

A letter was presented from Mr. Waldo W. Taylor, Creswell, who headed a delegation from that place at the previous meeting, which requested improvements to the Springfield-Creswell Highway. Mr. Taylor stated that they do not want the highway improved to modern standards at a cost of one-half million dollars which the Engineer previously reported such improvement would cost, but they will be satisfied with a good hard-surfaced market road. The Engineer stated that the road carries a great deal of heavy log hauling traffic that will soon break up the type of road they are requesting, so it is necessary to construct a much higher type of improvement. The Commission ordered that such information be passed on to Mr. Taylor.

The Commission approved and signed agreements as follows:

"Agreement" with City of Ashland covering the proposed reconstruction of present undercrossing in Ashland. (Bids received 4-14-55)

"Agreement" with City of Cave Junction covering the proposed traffic installation at the intersection of the Redwood and Oregon Caves Highway. (Authorized 1-18-55)

"Amended Agreement with State of Washington and Washington Toll Bridge Authority re construction of new bridge between Portland and Vancouver and alterations to existing structure.

There being no further business to be considered at this time the meeting adjourned at 4:30 p.m.

State Highway Engineer

Minutes of

Special Meeting

April 27, 1955

EXHIBIT "A"

Minutes of April 27, 1955

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE BE IT RESOLVED THAT the following described properties are hereby declared to be necessary for State Highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

UNIT 2 - T. H. BANFIELD EXPRESSWAY

22963 - Arnston, C. L. and Lydia May (Johnson)
Temporary construction easement,
Easement signed 4-20-55

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system, and right of way for a haul road; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "B" (Cont)

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 27th day of April, 1955, as Condemnation Resolution No. 665.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 665, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "C"

Minutes of April 27, 1955

RESOLUTION

WHEREAS, the Highway Commission on November 13, 1931, approved and on December 6, 1933, by resolution confirmed the establishment and designation of the Fox Hollow State Secondary Highway No. 221 in Lane County, described as follows:

> Market Road No. 24 and county roads, beginning at the south city limits of Eugene (as of November 13, 1931) and running thence southerly along Market Road No. 24 to the top of a certain ridge; thence along county roads and a portion of Market Road No. 25 to a connection with the Pacific Highway north of Walker Station approximately 15.5 miles;

and

WHEREAS, the Lane County Board of Commissioners has requested the State Highway Commission to eliminate the Fox Hollow State Secondary Highway No. 221 from the State Highway System and place such road under the jurisdiction and control of Lane County; and

WHEREAS, the State Highway Commission after due and careful consideration, based upon their knowledge of the needs of the traveling public in the State, are of the opinion that the Fox Hollow Secondary State Highway is not a necessary integral part of the State Highway System and that the interests of the State will best be served by establishing such road as a county road under the jurisdiction and control of Lane County; and

WHEREAS, it is the purpose of the State Highway Commission to take official action and to impress upon its records the disposition made of such secondary state highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission that:

1. The Fox Hollow Secondary State Highway No. 221 originally described as follows:

> Market Road No. 24 and county roads, beginning at the south city limits of Eugene (as of November 13, 1931) and running thence southerly along Market Road No. 24 to the top of a certain ridge; thence along county roads and a portion of Market Road No. 25 to a connection with the Pacific Highway north of Walker Station approximately 15.5 miles

EXHIBIT "C" (Cont)

is hereby eliminated and removed from the Secondary State Highway System, and all right, title and interest which the State has in said highway herein described passes to and vests in Lane County.

2. This Resolution be entered in the minutes and records of the State Highway Commission on the 27th day of April, 1955, as Abandonment and Retention Resolution, File No. 303, and the Secretary is ordered to mail a duly certified copy thereof to the Board of County Commissioners of Lane County.

Sheridan, Oregon
May 24, 1955

The State Highway Commission convened in special session at 10:00 a.m. in the City Council Chambers in the Sheridan City Hall, pursuant to formal notice sent to the Common Councils of the Cities of Sheridan and Willamina on April 19, 1955. This meeting was held to comply with the requirements of Section 13 of the Federal-Aid Highway Act of 1950.

Present were:

Ben R. Chandler, Chairman, State Highway Commission
Charles H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
H. B. Glaisyer, Secretary

Also present were approximately seventy-five people from the towns of Willamina, Sheridan and vicinities. Chairman Chandler explained that the purpose of the meeting is to give the people of Sheridan and Willamina an opportunity to express themselves concerning the proposed plan to rebuild the Salmon River Highway on alignment that will by-pass the Cities of Willamina and Sheridan. At his request the Engineer exhibited a map showing the several routes that have been investigated, and explained details, particularly pointing out the advantages and disadvantages of each route. (For details of his presentation see copy of his written report to the Commission in the general files.) He summarized his report by stating that the routes meriting highest consideration are the "A" line and the "C" line, and he recommended adoption of the "C" line because the rise and fall in grade on that line is much less than on the other and the line is closer to Sheridan. Chairman Chandler then invited the local people to express themselves either for or against the plan. He asked the people of Sheridan to talk first.

Mr. Eugene E. Marsh, McMinnville, Attorney for the City of Sheridan, spoke at the request of Mayor Fred Bozeman. He presented an airplane photograph of the City of Sheridan showing the present highway and the nature of the land across which the new highway is routed, and he inquired as to the type of access that will be allowed to the proposed relocated highway. The Engineer stated that the new highway will be constructed to controlled access standards and that access will be allowed at or near Wallace Bridge and at a junction of the new highway with the existing highway east of Sheridan. Mr. Marsh recalled previous proposals for a one-way couplet through the City of Sheridan, using Main Street for travel in one direction and Yamhill Street for travel in the other direction. He said that many businessmen have improved their properties in conformity with such plan. He also said that the town of Sheridan has recently bonded itself in the amount of $365,000 for construction of a new sewer system and if the by-passing of the City hurts business in the City, it will make it difficult to retire the bonds. He also pointed out that the proposed highway relocation passes through

some excellent farm land and will destroy a large amount of it. He called attention to plans which have been made concerning construction of a dam in the Yamhill River west of Wallace Bridge, and gave as his opinion that if the dam is constructed it will be necessary to abandon a part of the proposed "C" line. It was his concluding comment that towns should not be bypassed unless there is some urgent or nationally important reason, and that farmers whose land will be cut up, as well as the business people of Sheridan, are much concerned. State Senator Carl Francis of Dayton, commented that if by-passing a town or community has a detrimental economic effect on a community, the by-pass should not be constructed. He mentioned that the State Legislature, in an attempt to solve this problem, had appointed an Interim Committee to study the effects of by-passing towns and cities. It was his thought that the actual by-passing of Sheridan and Willamina should be deferred pending completion of the studies that are being made by the Interim Committee.

Material, as follows, was filed with the Commission in support of the arguments presented by the Sheridan group: (1.) Copy of resolution adopted by the City Council on August 22, 1947, endorsing a one-way highway couplet through Sheridan, using Main Street for east-bound traffic and Yamhill for west-bound traffic; (2.) Resolution adopted by the City of Sheridan and the Sheridan Chamber of Commerce on May 23, 1955, urging retention of the present route of the highway through Sheridan and establishment of a one-way grid system when conditions warrant the same; (3.) Resolution from the Yamhill County Chamber of Commerce, dated May 12, 1955, stating that it is unalterably opposed to any by-pass of a community where such by-pass will adversely affect the economy of that community; and (4.)a sketch showing property located at the eastern edge of Sheridan that, it is alleged, was purchased by the State Highway Department to effect the establishment of a one-way couplet for this highway.

Mr. Frank Smelser, Mayor of the City of Willamina, stated that highways and railroads are the life-blood arteries of towns such as Willamina and Sheridan, and if businesses are hurt by relocation of the highway the towns will suffer by reason of a smaller income from taxes. He pointed out that the Yamhill Valley is narrow and that 200 feet of right of way through farming country will take much valuable land and remove it from tax rolls. He commented that it is his thought that a feasible route can be found that will not by-pass the towns of Sheridan and Willamina. He called attention to the great number of accidents that are caused by speed, and he predicted that construction of a new, straight highway bypassing Willamina and Sheridan will accentuate traffic fatalities. It was his feeling also that construction of the by-pass will be an inducement for loggers to haul past Willamina, and as a result the plywood industry in Willamina will suffer because business follows the highways. Mr. Louden, President of the Willamina Chamber of Commerce, stated that in his opinion the "F" line, passing through Sheridan and Willamina, is the best route and can be modernized at low cost. The main problem, he said, is improving the highway west of Willamina. He also said that the people of Willamina do not like the idea of having to travel two miles or more in order to get on the new highway, and that they are going to protest to the

limit against the proposed change. He presented a petition opposing the by-pass project.

A property owner in Sheridan who did not give his name commented that he has lived in Sheridan for a number of years and that he would very much like to see the heavy highway traffic taken away from the City's main street. Mr. John Leger of Willamina expressed the fear that the proposed by-pass will prove detrimental to the lumbering and plywood industry in Willamina as well as to service stations and businesses catering to the traveling public.

Chairman Chandler stated that concepts of highway construction have been changing rapidly, especially since 1947, due to the great increase in the number of vehicles that use the highways, and that a factor in highway construction is to provide safety and this must be considered, along with provisions for cheaper travel, when new highways are planned. He pointed out that highways are financed with road-user monies rather than general taxes, and that it is not the intent of the Commission to hurt any town or community. He also commented that from limited experience in Oregon and elsewhere it has been determined that by-passes generally do not hurt a community. He concluded the hearing by stating that anyone who is interested in securing information on costs or other data pertaining to the several routes considered by the Engineer can secure the same upon request to the Commission in Salem.

The meeting adjourned at 11:00 a.m.

State Highway Engineer — Chairman

Commissioner

Secretary — Commissioner

Rickreall, Oregon
May 24, 1955

A special meeting of the Highway Commission was held at 1:00 p.m. in the Rickreall Grange Hall. Present were:

Chas. H. Reynolds, Acting Chairman
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
H. B. Glaisyer, Secretary

Chairman Chandler was excused from attending this meeting due to a previous appointment.

May 24, 1955

Also attending the meeting were approximately 85 people from Rickreall, Dallas and Salem.

Commissioner Reynolds introduced Commissioner McIver and members of the Highway Department staff and explained that the purpose of the meeting is to give local people an opportunity to express themselves regarding the plans of the Commission to construct a highway between Oak Knoll or Rickreall, and Dolph Corner. He called upon the State Highway Engineer to explain the several routes that have been studied. The Engineer exhibited a map showing the several routes that were considered. He explained that in determining the costs and benefit quotients of the proposed routes, there must be considered, in addition to the cost of construction of each route, the additional cost of improvement of the existing highway from the Dallas junction to Oak Knoll.

On this basis he stated that the Basket Slough Route of 7.39 miles would cost $1,653,500 and would provide a benefit quotient of 4.07. Another route, known as Route 2, lying north of the existing highway and also beginning at Oak Knoll Golf Club, would cost $1,281,500 and would provide a benefit quotient of 4.52, the total distance being 7.43 miles. Line No. 3, beginning at Oak Knoll and following the existing highway to Rickreall and thence on new alignment northwesterly to Dolph Corner, would cost $1,243,500 and would provide a benefit quotient of4.72,the total distance being 7.84 miles. Line No. 4, would utilize the existing highway from Oak Knoll through Rickreall to a point 1.65 miles east of Dallas, thence northerly on a new line to Dolph Corner, would cost $1,245,500 and would provide a benefit quotient of 4.01, the total distance being 9.06 miles.

These studies, he stated, indicate conclusively that Line No. 3 is the best of the alternate routes studied, and he recommended that it be adopted.

Commissioner Reynolds stated that this is a courtesy hearing and that anycne present will be allowed to speak.

Mr. James Walton of Salem presented a petition containing 3328 signatures urging early construction of whichever route the Commission may adopt.

Mr. E. H. Thompson, President of the Salem Chamber of Commerce, also urged early construction of the most feasible route. He expressed himself as in favor of the route recommended by the Engineer.

Mr. E. C. Kennedy, President of the North Santiam Chamber of Commerce, said that they are not endorsing any particular route but they urge early construction of a new route in order to remove the "bottleneck" that now exists for traffic from Central Oregon.

Mr. J. L. Franzen, City Manager for the City of Salem, stated that the City Council is not particularly interested in the routing of the highway but has passed a resolution urging construction of the new highway on new alignment as soon as possible. He presented a copy of the resolution.

Mr. Hal Barnhart, Polk County Judge, stated that Dallas is the hub of industry in Polk County and, as such, needs a better road between Salem and Dallas. He favored a revised route that will come closer to Dallas,

possibly the use of Route No. 4.

Mr. Joe Harland, a farmer whose land will be severed by Route No. 3, stated that in the past he has urged the use of the Basket Slough Line, or Route No. 1, and has offered to donate one and one-quarter mile of right of way if the right of way coincides with his north property line. He felt that Line No. 2 is not a good line as it chops up too much farm land, and he suggested that a new highway be constructed north of and closely paralleling the existing highway from Oak Knoll west. He called attention to the fact that a new mill is to be established in Dallas which will require a large number of people to operate it. Some of these new people as well as many other Salem and Dallas residents will travel the highway between Salem and Dallas. It was his thought that, if the new highway were constructed parallel to the present highway, the old highway should be maintained as a city street for residential use. Mr. W. C. Winslow, Salem, Mr. Harland's Attorney, spoke in favor of Mr. Harland's proposal.

Mr. J. Ryan, farmer, inquired how much distance to the coast will be saved by Line No. 1 and by Line No. 3. The Engineer replied that the saving in mileage would be 3.12 miles on Line No. 1 and 2.67 miles on Line No. 3. Mr. Ryan then stated that he favors Route No. 1, as the other line would cut through his property.

Mr. Ross Simpson stated that it appeared to him to be poor economy to spoil a number of good farms for the sake of approximately 800 vehicles a day which would use the short-cut route. It was his thought that the existing road north of Dallas could be improved to satisfy requirements.

Commissioner Reynolds concluded the hearing by pointing out that the Highway Commission is entrusted with the handling of highway funds and the construction of highways so that the best interests of the greatest number of people will be served. The present highway, he said, is obsolete and when the new one is constructed it must be put in the proper place for the benefit of future generations. The meeting thereupon adjourned at 2:00 p.m.

State Highway Engineer — Acting Chairman

Secretary — Commissioner

Dayton, Oregon
May 24, 1955

Pursuant to Federal Aid requirements and notice heretofore given the Dayton City Council the State Highway Commission held a public hearing in the Dayton City Hall at 3:00 p.m. this date. Present were the following:

Chas. H. Reynolds, Acting Chairman
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
H. B. Glaisyer, Secretary

Chairman Ben R. Chandler was excused from attending this meeting due to a previous appointment. Also present were approximately 25 residents of Dayton and vicinity.

Commissioner Reynolds explained that the purpose of the hearing was to give the people of Dayton an opportunity to express themselves concerning the Commission plans to reroute the Three Mile Lane State Secondary Highway so as to by-pass the City of Dayton a short distance to the north. He introduced the members of the Commission group and asked the State Highway Engineer to explain details. The Engineer exhibited a map showing the location of the proposed by-pass which just misses the city limits of Dayton on the northwest. This location, he stated, provides a very satisfactory river crossing and takes the through traffic from Dayton's main street. He explained that the proposed project will lead to an ultimate development of highways in this vicinity which will shorten distance, relieve traffic of delays and congestion, and will materially expedite the movement of goods and services in this part of the state.

The meeting was then turned over to the local people to express themselves regarding the plan. One of the local residents stated his belief that it would be better to widen the present highway rather than to construct the by-pass so as to avoid destruction of a large amount of farm land. The Engineer explained that the existing bridge must be replaced shortly and when it is replaced it should be relocated for better highway alignment. It is planned, he stated, to give the old bridge to Yamhill County if the County wants it. He also said that the new highway will be constructed as a controlled access highway.

Mr. Philip Bladine, editor of the newspaper in McMinnville and President of the Chamber of Commerce, stated that, if the Dayton by-pass section is constructed it will effect traffic routing into McMinnville, and the result will be an intolerable traffic situation,because it will destroy the effectiveness of their proposed one-way couplet on US99W, unless the reconstruction is continued westerly to the highway junction at the south edge of McMinnville. The Engineer replied that studies indicate that a one-way couplet for US99W traffic will still be needed in McMinnville even though the Dayton by-pass route is constructed because it is anticipated that not more than 25 per cent of US99W traffic will use the new route. Inquiry was then made by Mr. Bladine if there is any real need for the by-pass. To this inquiry the Engineer replied that the existing bridge at Dayton will have to be replaced in the near future and when it is replaced the new bridge should be built on the ultimate route of the highway.

One local gentleman commented that the new highway route would destroy much valuable farm land and that, in his opinion, the limited ac-

cess provision will be detrimental to the interests of farmers, who he stated, are generally not in favor of the by-pass.

Mr. John Howard, service station operator, inquired if it might not be advisable to modernize the existing route. The Engineer replied that it would soon be necessary to rebuild the bridge at Dayton and that from an engineering point of view it would be unwise to rebuilt it in its present location.

Mr. E. W. Budke, President of the Dayton Chamber of Commerce, read aloud and presented a letter from the Chamber of Commerce urging development of US99W and opposing the Dayton by-pass as it was felt that businessmen in Dayton would suffer serious financial loss. He declared that Dayton will be isolated for tourist business if the by-pass is constructed.

Mr. John Howard, speaking again in behalf of the Dayton Lion's Club, presented a resolution opposing the by-pass route and favoring improvement of the present road.

State Senator Carl Francis stated that he felt the State could save money and make people happy by constructing a new bridge on Main Street in the town of Dayton. Construction of the by-pass, he said, will injure much excellent farm land, will destroy farm planning, and will adversely effect the economy of the community. He urged a new bridge on the site of the existing bridge.

Mr. Earl Coburn, a businessman of Dayton, gave as his feeling that the by-pass is primarily for the benefit of truckers and tourists whereas local business depends upon tourist traffic that goes through the town. It was his thought that the present highway could be modernized without chopping up farm land by construction of the by-pass.

Mr. Clifford Elliott, Manager of the McMinnville Chamber of Commerce, stated that, if US99W highway traffic is diverted from the existing route through McMinnville, about 30 of the 78 service stations along the route will be forced to go out of business, representing an annual trade loss of $360,000 which the community cannot afford.

Mr. James Stannard, representing the Roads and Highway Committee of the McMinnville Chamber of Commerce, stated that there will be forthcoming from his committee a resolution containing suggestions relative to improvement of the Amity-Dayton Highway as well as US99W and the Three Mile Lane Highway.

Mr. Pruitt, turkey raiser, stated that the proposed by-pass will go through his property and that his turkey business will be ruined if it is built.

Mr. Allison, of the "Dayton Tribune", declared that the proposed by-pass is ahead of its time and that US99W should be improved first.

Senator Carl Francis, speaking again, called attention to the old pioneer blockhouse in the City of Dayton, which if properly advertised, could be made a great tourist attraction. He also pointed out that this hearing is unique in one respect in that the desires of most of the people present are that the State spend less money than is proposed.

Commissioner Reynolds concluded the discussion by stating that careful consideration will be given to the points brought out at the hearing, and that they will not be passed over lightly by the Commission in reaching its decision.

The meeting adjourned at 4:00 p.m.

State Highway Engineer

Chas. H. Reynolds
Acting Chairman

Secretary

Commissioner

May 24, 1955

Portland, Oregon
May 25, 1955

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows, for furnishing insurance covering the Steel Bridge in Portland and for highway construction, were opened and read aloud by the Secretary who then announced that the award of contracts would be made at 4:00 p.m. in the same room.

May 25, 1955

The Commission approved the minutes of April 13-14, and April 27, 1955.

The State Parks Superintendent reported on the following matters pertaining to State Parks:

1. Purchase of Drury property on Oregon Coast Highway south of Yaquina Bay for park purposes: The Parks Superintendent requested confirmation of telephonic approval for purchase of land owned by Mrs. Beatrice Crawford Drury. He recalled that Mrs. Drury, in a previous appearance before the Commission, had offered to sell to the State this property consisting of approximately 96 acres along the west side of the Oregon Coast Highway, a short distance south of Yaquina Bay and in the $S\frac{1}{2}$ of the $SW\frac{1}{4}$ of Sec. 17, T. 11 S., R. 11 W. Mrs. Drury has agreed to accept $10,000 for the land plus $1,287 for the merchantable timber on the land with the provision that the State pay back taxes amounting to $1,263 and the cost of transferring title. A study of the Lincoln County area, he stated, indicates the need of more park land in the next 10 to 20 years. Lands suitable for park purposes are scarce in this area except at a very high price and he recommended that the purchase of the Drury property be confirmed. The Commission confirmed the purchase.

2. Request of the Natural Resources and Recreation Committee of the Portland Chamber of Commerce to improve the area around the marker at Willamette Stone State Park: The Parks Superintendent reported that the request proposed laying out an area around the stone indicating the method of land subdivision and the construction of a shelter, benches, etc., at an estimated cost of $2,500. It was his opinion that at the present time construction of a concrete apron around the marker indicating the plan of subdivision of land would meet the present needs. If use and interest in the area become great enough, further development could be made at a later time. The Commission approved the development as presented by the Parks Superintendent for construction in 1956.

3. Proposed development of a park area on the McKenzie River at Leaburg in Lane County: The Parks Superintendent reported that sometime ago the Eugene Water & Electric Board had requested the State to develop an area at the Leaburg Dam if the property was given to the State: A study was made of the area, the Parks Superintendent reported, but subsequently the Eugene Water & Electric Board decided to retain the property and make their own development at their own expense. The Commission accepted the report.

4. Offer of Mr. Wm. J. Wineberg to give to the State 56 lots in the platted townsite of South Newport for State Park purposes: The Parks Superintendent stated that this property lies within the area being purchased from Mrs. Drury and is located in Blocks 4,6,7,9, and 12 of South Newport. Mr. Wineberg has offered the property as a gift to be used for park purposes with the understanding that some recognition

be made for the donation, such as a marker to be placed in the area. He recommended acceptance of the gift and the placement of an appropriate small bronze marker. The Commission accepted his recommendation.

5. Request of Mr. R. A. Herb to cross a small portion of South Beach Wayside property at Yaquina Bay in the construction of a boat launching ramp: The Parks Superintendent reported that Mr. Herb owns property adjoining the South Beach Wayside and east of the highway on the south shore of Yaquina Bay where he has established a trailer camp. He proposes to construct on his own property a boat launching facility which will necessitate crossing a corner of State owned land to reach the ramp. It was his feeling that there is a need for a place to launch boats in this area and the construction of one at this location will not interfere in the use of the park. He recommended that a permit be granted Mr. Herb to cross State land at this location. The Commission accepted his recommendation.

6. Closing of certain park areas to overnight camping. The Parks Superintendent reported that in the development of overnight camping areas, it had been found after three years trial, that a number of park areas were not receiving enough overnight campers to justify their continuance. He recommended discontinuance of overnight camping at:

Governor Patterson Memorial State Park
Ben & Kay Dorris State Park
Booth State Park
Chandler State Park
Cline Falls Wayside
Shelton State Park
Painted Hills State Park
Red Bridge State Park

He also pointed out that the yearly use in any one of these areas had been less than 30 overnight campers. The Commission approved discontinuance as recommended.

7. Request of Jack Flaucher to lease approximately 39 acres for pasture purposes in the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Sec. 29, T. 1 N., R. 5 E. This property, the Parks Superintendent stated, is located near Sheppards Dell on the Columbia River Highway and is submerged by the Columbia River during high water. He recommended that the property be leased to Mr. Flaucher for $50 per year plus whatever taxes the State may have to pay on the land. The Commission approved the rental of the property as recommended, but at the suggestion of the Engineer, instructed that an investigation be made to determine if the rental offered is adequate for the value being received by the renter.

8. Proposed park area consisting of land owned by Mrs. Albert Powers at Broadbent on the Powers Secondary Highway in Coos County: The Parks Superintendent recalled that he had been instructed at the April meeting to have the property appraised, which has been done and the value determined in the amount of $804. The land consists of slightly more than 5 acres and has a heavy growth of myrtle and other trees, and is desirable as a wayside area. He recommended that Mrs. Powers be offered $800 for the property. The Commission approved the offer.

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed for state highway improvements and for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked Exhibit A, which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission considered and, upon the Right of Way Engineer's favorable recommendation, confirmed the sale of miscellaneous items by the Property Manager made since the last Commission meeting. (For details of the items sold, see Miscellaneous Sales Report, dated May 25 and 26, 1955 in the Commission files).

The matter of consenting to the issuance of a permit for the construction of a sewer on N. E. Clackamas Street between 68th and 69th Avenues in the City of Portland was discussed. The Right of Way Engineer explained that at the April meeting a request had been received from the City of Portland that the State give its consent to the vacation of a street section in this area and they are now asking that the Highway Commission voice no protest to the issuance of the permit for sewer construction. Private property owners have deposited $800 with the State to cover the cost of a sewer assessment which will be made against the State. He recommended that no protest be made. The Commission accepted his recommendation.

Attention was also given to a request from Stapleton and Stapleton, Attorneys in The Dalles, for vacation of an unused roadway through the property of Philip and Jessie Stofer, located in Lots 27 and 34, Rowena Tracts, Sec. 12, T. 2 N., R. 12, E., W.M., Wasco County. The Right of Way Engineer explained that since the Columbia River Highway has been rebuilt in this area, there is no access to the highway and there is no reason for protesting vacation of the road by the County Court. He recommended that the Commission give its consent for vacation of the roadway because it owns adjacent right of way. The Commission accepted the recommendation.

Upon the favorable recommendation of the Right of Way Engineer, the Commission also consented to vacation of a portion of Lane County Road No. 1129 known as the Bloomberg Road that lies east of the Pacific Highway on the Judkins Point-Goshen Section, with the provision that private

property owners affected will waive all rights of access to the Judkins Point-Goshen Section. The Right of Way Engineer also commented that these waivers of access have been secured.

The matter of selling 0.72 acre of land on the Medford County Farm Section of the Pacific Highway in Jackson County was discussed. The Right of Way Engineer explained that this property is on a one-way section which by-passes the town of Phoenix and that access will be given to the property, not to exceed 25 feet in width and not limited as to use. He explained that adjoining property owners were given private and commercial access limited only in number and not to use. The property is no longer needed for State highway purposes and he recommended that it be offered for sale at public auction for a minimum price of $2,000. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "B-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The purchase of the Corvallis Lumber Company property in the south part of Corvallis was considered for use in future relocation of the Pacific Highway West. The Right of Way Engineer recalled that at previous meetings purchase of this property had been discussed and he had recommended that not more than $90,000 be paid as that is all that appraisals showed that it is worth. Also, the City of Corvallis had been contacted concerning their cooperation by contributing at least one-half of the cost of the property. The City, he stated, has agreed to pay $55,000 toward the purchase of the property and will convey to the State, land necessary for highway right of way. He recommended that the State pay the sum of $45,000 which is one-half of the appraised valuation. The Engineer inquired if the agreement with the City of Corvallis contains any provision that no access is to be allowed to the highway. After some further discussion concerning the access provisions as contained in the agreement, the Commission ordered that the last page of the agreement be retyped in order to more clearly define access restrictions. (On the following day, the Commission approved and signed a revised form of agreement with the City of Corvallis, providing among other things, that the State is to pay $45,000 toward the acquisition of the Corvallis Lumber Company property and that the City of Corvallis is to pay the balance necessary to acquire it.)

The Right of Way Engineer presented for the Commission's consideration the sale of 1.54 acres of right of way on the Jefferson County Line-Prineville Section on the Madras-Prineville Secondary Highway in Crook County. He explained that this property is no longer required for highway purposes and that at a recent oral auction Roscoe Hopper had offered to pay $300 for the land. He recommended that the land be sold to him for the amount he bid. The Commission approved the sale.

The Commission also considered the sale to Mr. and Mrs. Edward Blondell of 0.4 acre of right of way on the Deady-Shady Section of the Pacific Highway. The Right of Way Engineer stated that the property is no longer required for highway purposes and had been advertised for sale at

public auction, with complete restriction of access to the highway. Mr. Blondell was the only bidder and he offered to pay $100 for the parcel. As The State had originally paid for the land at the rate of $210 per acre, he recommended that the 0.4 acre parcel be sold to Mr. Blondell for $100. The Commission approved the sale.

The matter of offering for sale at public auction a parcel of land containing 36.5 acres was discussed. The Right of Way Engineer reported that this parcel of property, which is no longer required for highway purposes is located on the Vadis-Gardner Ranch Section of the Sunset Highway in Washington County. It has been determined by competent appraisers that the land is worth $6,550, and he recommended that the Commission grant authority to offer the land for sale at public auction for the sum of $6,550, with complete restriction of access to the Sunset Highway but with an easement to be granted over the former Stauss property lying to the east. The Commission authorized the sale by adopting the attached resolution relative thereto, marked EXHIBIT "B-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Right of Way Engineer recommended, and the Commission approved, granting to the Union Oil Company permission to occupy a portion of the right of way on the Beaverton-Hillsdale Highway for the balance of the year 1955. He explained that it has been determined that the Union Oil Company's facilities encroach on a small segment of State land and this lease will provide them time to make the necessary changes.

The Right of Way Engineer recommended and the Commission approved renewal of a lease with the City of Tualatin whereby the State is granted use of a stock pile site. He stated that the lease involves no consideration and covers a 3-year period beginning May 15, 1955.

A change in point of access was recommended by the Right of Way Engineer on property owned by Nellie Fromm providing for access at Engineer's Station 395+10 on the Oregon Coast Highway in Curry County, in lieu of the original point of access at Engineer's Station 396+00. The Commission approved the change of access.

Consideration was given to the sale of 16.9 acres of land on the Tigard-Newberg Section of the Pacific Highway West in Washington County. The Right of Way Engineer reported that the property is no longer needed for highway purposes and has been appraised by experienced appraisers at a valuation of $7,230. This land, he added, consists of two parcels consisting of 10.7 acres and 6.2 acres, with one private access to be allowed. The Commission authorized sale of the land by public auction at a minimum price of $7,230 by adopting the attached resolution relative thereto marked EXHIBIT "B-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

At the request of Chairman Chandler, the Right of Way Engineer reviewed the costs of acquiring right of way on the Rocky Point-Wedderburn Section of the Oregon Coast Highway in Curry County. He commented that the right of way is costing far more than expected, and in condemnation cases jury verdicts are far in excess of the appraised values. Eleven condemnation suits have not yet been brought to trial. He estimated that the total cost of right of way would be about $800,000.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties which are needed as right of way in connection with various highway improvements, or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951.

Wilderville-Grants Pass Section of the Redwood Highway

R-22997- J. L. Helms
Right of Way (Josephine)

Weston-Weston Mountain Section of the Weston-Elgin Highway

L-2354 - Keith E. Tucker, et al.
New resolution required for additional taking

The Commission approved the request by adopting the attached resolutions relative thereto, marked EXHIBITS "L-1" through "L-7", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and unanimously approved the Chief Counsel's written report of cases which have been tried in court by his staff since the April meeting of the Commission as follows:

1. State vs. William H. E. Coffman, et ux., for 9.8 acres of land on the Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County. An offer in the amount of $9,300, later reduced to $7,850, was rejected by the defendants, who demanded the sum of $26,600. The jury returned a verdict in the amount of $13,000 plus $1,400 for attorneys' fees.

2. State vs. S. H. Frank & Company for 19.6 acres of real property on the Euchre Creek-Frankport Section of the Oregon Coast Highway in Curry County. An offer in the amount of $3,000 was rejected by the defendants, who demanded the sum of $98,000, later reduced to $44,000. The jury returned a verdict in the amount of $9,000 plus the $1,500 for attorneys' fees.

3. State vs. Martin Prevics, et ux., for 1.455 acres on the Euchre-Creek-Wedderburn Section of the Oregon Coast Highway in Curry County: The defendants rejected an offer of $3,250 and demanded the sum of

of $7,500. A verdict was returned by the jury allowing $6,000 and attorneys' fees in the sum of $750.

4. State vs. Herbert S. Dettmer, et ux., for 0.14 acre on the Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County: The defendants rejected an offer of $300, demanding the sum of $1,200. The jury returned a verdict for $550 plus $150 for attorneys' fees.

5. State vs. Nolan L. Chenoweth, et ux., for 0.64 acre on the Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County: An offer in the sum of $5,950 was rejected, the defendants demanding the sum of $8,250. The jury returned a verdict in the amount of $7,500 and allowed attorneys' fees in the amount of $350.

6. State vs. Ruby A. Bailey, et al., for 25 acres on the Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County: An offer in the amount of $7,400 was rejected by the defendants, who demanded the sum of $40,000. The jury returned a verdict in the amount of $22,000 plus $3,000 for attorneys' fees.

7. State vs. Leicester T. King, et al., for 0.26 acre on the Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County: An offer in the amount of $570 was rejected by the defendants, who demanded the sum of $1,500. The jury returned a verdict in the amount of $1,350 and allowed attorneys' fees in the amount of $250.

8. State vs. J. W. Andrews, et al., for 0.15 acre on the Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County: The defendants rejected an offer of $175 and demanded the sum of $1,000. The jury returned a verdict in the amount of $900 plus $150 for attorneys' fees.

9. State vs. F. W. Adams, et ux., for 6.35 acres on the Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County: The State's offer of $4,425 was rejected by the defendants, who demanded the sum of $10,700. The jury returned a verdict in the sum of $6,250 and allowed attorneys' fees in the amount of $500.

10. State vs. Cecil C. Wooley, et ux., for 0.02 acre on the Goshen-Divide Section of the Pacific Highway in Lane County: An offer in the amount of $1,250 was rejected by the defendants, who demanded the sum of $3,500. The jury returned a verdict in the amount of $1,000 and the defendants were not allowed attorneys' fees.

11. State vs. John Stalder, et ux., for 14.35 acres for the Goshen-Divide Section of the Pacific Highway in Lane County, 5.16 acres for road-building materials, and 1.35 acres for channel change. An offer in the amount of $11,000 was rejected by the defendants, who demanded the sum of $42,000. The jury returned a verdict in the amount of $19,500.

12. State vs. George Harold Raab for acquisition of all his rights of access to the Sylvan Section of the Sunset Highway: The State offered to pay $200, which offer was rejected and the defendants demanded the sum of $20,000. The jury returned a verdict in the amount of $7,500. The Court refused to accept the verdict and sent the jury back for further deliberations with instructions that their verdict could not exceed $4,000, which was the largest amount of damage testified to by value witnesses. The jury returned a verdict in the amount of $4,000.

13. State vs. Henry Weber, et ux., for 25.6 acres on the Shady Point-Booth Ranch Section of the Pacific Highway in Douglas County: The defendants rejected an offer in the amount of $6,566 and demanded the sum of $28,984. The jury returned a verdict in the amount of $9,250 plus $600 for attorneys' fees.

14. State vs. Louis C. Lorenz, et ux., for 0.14 acre on the Salem By-Pass-Jefferson Junction Section of the Pacific Highway East in Marion County: The defendants rejected an offer of $2,600 and demanded the sum of $7,500. The jury returned a verdict in the amount of $3,000.

15. Morris Klorfein, et ux., vs. State Highway Commission for alleged damages resulting from the change of grade of Marion Street in connection with construction of the Marion Street Bridge in Salem: The complaint sought to recover the sum of $30,000. The amount of damages as appraised by State witnesses varied between $800 and $2,500. The defendants witnesses estimated the damages from $18,411 to $32,000. The jury returned a verdict in the amount of $2,000. The defendant had previously refused to settle for $3,000.

16. C. J. Eldon vs. State Highway Commission for extra compensation consisting of additional structural excavation on the St. Joseph Undercrossing Unit of the Lafayette-N. Yamhill River Section of the Pacific Highway West in Yamhill County, Contract No. 3816. The Engineer's final estimate showed an item of 48.5 cubic yards of structural excavation. The contractor claimed that he was entitled to compensation for 695.4 cubic yards of structural excavation at $12 per cubic yard, amounting to a total of $8,344.80. The case was tried before the Hon. E. H. Howell on May 18, 1955 without a jury. The Court on May 19, 1955 decided in favor of C.J. Eldon and against the State.

(For details see copy of the Chief Counsel's written reports to the Commission, dated May 20 and May 24, 1955 in the general files).

The Commission also accepted the Chief Counsel's report of cases which have been settled out of court since the last Commission meeting, as follows:

1. State vs. Floyd L. McBride, et ux., L-2315 (R-22140): For 88.59 acres on the Olds Ferry-Ontario Section of the Old Oregon Trail Highway and 1.5 acres for a stock pile site. The defendants rejected an offer of $4,670 for this property but after further negotiations a settlement was reached in which the State will pay the sum of $6,000, construct two concrete box culverts, a right of way fence, and a road connection between two farm roads.

May 25, 1955

2. State vs. Guy E. Turner, et al., L-2319 (R-22136, R-22137): For 115.2 acres on the Olds Ferry-Ontario Section of the Old Oregon Trail Highway in Malheur County. The defendants refused an offer of $2,550. A tentative settlement has now been reached, under the terms of which the State will acquire the needed property for the sum of $8,150, which amount includes the sum of $5,060 for development of a water supply. The amount of the original offer was based on the assumption that the State would develop a water supply.

3. Edward A. Lebold, et ux., vs. State Highway Commission, L-2154 (R-21737): For damages resulting from change of grade on Marion Street in construction of the Marion Street Bridge in the City of Salem. Plaintiff sought to collect the sum of $10,000. An offer was made in the sum of $3,500 and after further negotiations a settlement was agreed upon for the sum of $4,000.

4. Abe L. Steinbock, et ux., vs. State Highway Commission, L-2173, L-2173A, (R-21758): For damages resulting from a change of grade on Center Street in reconstruction of the Center Street Bridge in Salem. The defendant sought to recover the sum of $12,000. The case was tried in October, 1954, and a jury awarded the plaintiff the sum of $4,000. Notice of appeal was filed by the State as it was felt that an error had been committed at the trial. Subsequent negotiations, however, resulted in a settlement for the sum of $4,568.03.

5. Dobe Steinbock vs. State Highway Commission, L-2174 (R-21764): For damages resulting from the change of grade of Center Street in reconstruction of the Center Street Bridge in the City of Salem. The defendant sought to collect the sum of $7,500. Further negotiations resulted in a settlement for the sum of $100.

6. John Nyberg vs. State Highway Commission, L-2292 (R-4843, R-4844): For damages caused by dirt washed from a state highway fill onto the plaintiff's property on the Barbur Boulevard-Marion County Line Section of the Portland-Salem Expressway in Washington County. The plaintiff sought to collect the sum of $30,000. A settlement of the case has been reached for the sum of $15,000.

7. State vs. Kogap Lumber Industries, L-2280: To recover damages for timber trespass consisting of the removal of 72,000 board feet of timber from the Tub Springs Wayside in Jackson County during April, 1954. Treble damages in the sum of $4,242 were sought. Negotiations resulted in a settlement by which the State will be paid the sum of $1,250, which is the approximate single value of the timber removed.

8. State vs. Ray Snook, et ux., L-1902 (R-19208): For 3.9 acres on the Reedsport-Hauser Section of the Oregon Coast Highway in Coos County. An offer in the sum of $400 was rejected by the defendants who demanded unrestricted access to the relocated highway, or the sum of $28,000. The taking was later reduced to 3.45 acres and the defendants

reduced their demands to $3,595. Appraisals on the property showed a value between $400 and $531. A settlement was effected for the sum of $1,000.

(For details see copy of the Chief Counsel's written reports to the Commission, dated May 20 and May 24, 1955 in the general files).

In compliance with a resolution adopted by the Commission on December 20, 1951, the Chief Counsel presented and the Commission accepted offers for the acquisition of real property which offers were tendered to the owners of the following properties prior to the institution of condemnation proceedings:

S. E. Flavel Street-Lake Road Section of the Cascade Secondary Highway:

R-21878-Owner: John E. Strandberg, et al. 16,000 square feet for right of way. Offer of $2,425 approved by Mr. McIver on May 6, 1955.

R-22680-Owner: Walter B. Shaw, et ux. 8,940 square feet for right of way. Offer of $5,500 approved by Mr. McIver on May 19,1955.

R-22682-Owner: Nick Baroni, et ux. 0.5 acre for right of way and 500 square feet for easement for highway drainage facility. Offer of $2,650 approved by Mr. McIver on May 6, 1955.

R-22683-Owner: David T. McBride, et ux. 0.5 acre for right of way. Offer of $1,500 approved by Mr. McIver on May 19, 1955.

R-22685-Owner: George Barron, et al. 0.23 acre for right of way. Offer of $15,000 approved by Mr. McIver on May 19, 1955.

R-22692-Owner: George Glynn, et al. 0.17 acre for right of way. Offer of $3,634 approved by Mr. McIver on May 13, 1955.

R-22694-Owner: James I. Henderson, et al. 0.10 acre for right of way. Offer of $835 approved by Mr. McIver on May 6, 1955.

R-22697-Owner: Alta B. Brumpton, et al. 0.09 acre for right of way. Offer of $400 approved by Mr. McIver on May 6, 1955.

R-22699-Owner: J. Lynn Walters, et ux. 1.4 acres for right of way. Offer of $3,525 approved by Mr. McIver on May 6, 1955.

R-22886-Owner: J. R. McKee, et al. 6,000 square feet for right of way. Offer of $1,000 approved by Mr. McIver on May 6, 1955.

S. E. Flavel Street-Lake Road Section of the Cascade Secondary Highway (cont)

R-22923-Owner: L. Helen Fischer, et al. 500 square feet for easement for highway drainage facility. Offer of $100 approved by Mr. McIver on May 13, 1955.

Shady Point-Booth Ranch Section of the Pacific Highway:

R-22976-Joseph William Holmgren, et ux. 3.26 acres for right of way. Offer of $400 approved by Mr. McIver on May 6, 1955.

The Commission considered and approved the following offer in condemnation cases heretofore authorized for acquisition of real property required for various highway purposes, as recommended by the Chief Counsel:

	Recommended Offer
Clackamas Overcrossing Section of the Clackamas Secondary Highway	
R-22568-G. Alger Ryan, et al. (Clackamas) 0.22 acre for right of way	$660.00

A report was submitted by the Chief Counsel concerning orders issued by the Public Utilities Commissioner which are of interest to the Highway Commission, as follows:

PUX 99: Uniform rules for railroad clearances. Order No. 3370 issued April 11, 1955, superseding Order No. 99 issued in 1916 and Supplemental Order No. 1003 issued in 1923. The order is of interest because it prescribes minimum vertical and horizontal clearances for spans of structures carrying railroads over highways.

PUX 123: Seufert Grade Crossing on county road affecting the revised location of Union Pacific Railroad Company's tracks near Seufert Station in Wasco County. This involves a connection with the revised location of the Columbia River Highway.

PUX 124: Kinzua Corporation private truck crossing at grade on the Heppner-Spray Secondary Highway approximately 8 miles south of Hardman. This involves a private truck road crossing at grade across the highway.

The Chief Counsel submitted a report which was accepted by the Commission showing final disposition of actions against the State by reason of change of grade in construction of the Marion Street and Center Street Bridges in Salem. He explained briefly that in the Marion Street Bridge cases, of which there were nine, four had been tried in court and five cases settled out of court. Total demands were $155,500 and the total amount paid was $43,500. In the seven cases concerning the Center Street Bridge, two cases were tried in court and five cases were settled out of court. Total demands were $255,500 and the total amount paid was $85,918.03.

The Commission accepted a report submitted by the Chief Counsel concerning a meeting of the Legal Subcommittee of the National Committee on Urban Transportation. He stated that he had been requested by the National Committee to serve as an advisor to Subcommittee 7 concerning the characteristics of legal tools. Meetings were held in February in Chicago and in May in Washington, D.C.

The Commission gave approval for the Chief Counsel to attend the annual meeting of the National Board of Directors of the American Right of Way Association, National Education Seminar, June 23 through June 26, 1955, in Los Angeles, at an estimated cost of $200.05.

Upon the Chief Counsel's favorable recommendation, the Commission approved a salary increase for Assistant Attorney James B. Daniels from his present salary of $459 per month to $495 per month, effective June 1, 1955.

The Chief Counsel requested and the Commission granted authority to participate in legal proceedings before the Supreme Court of the State of Washington to test the validity of the contract entered into between the two States for construction of a new interstate bridge between Portland and Vancouver. The Commission also granted authority for Mr. Charles Peterson, attorney, to travel in the State of Washington two or more times in order to maintain necessary contacts.

The Chief Counsel stated that it had come to his attention that Tillamook County intends to sell at a sheriff's sale two parcels of property located at the intersection of the Wilson River Highway with the Oregon Coast Highway in Tillamook County. As it is anticipated that these parcels will be needed for highway purposes, he asked the Commission for authority to contact the Tillamook County Court to set aside the lands for the State, or authority to bid on the property when it is offered for sale. The Commission granted the authority.

The matter of adopting a resolution designating The Dalles Bridge and its approaches as a part of the highway system was presented by the Chief Counsel. He explained that, under Oregon Law, any bridge on an

interstate river to the center of the channel of the river, and the connecting approaches on the Oregon side shall be designated by the State Highway Commission as a part of the Oregon State Highway system. It has been concluded that such designation does not require the Highway Commission to maintain the bridge nor does it impose any obligation to pay for the principal or interest on the bonds issued for construction of the bridge. In order to comply with the statute it is necessary, however, that the Commission adopt a resolution designating The Dalles Bridge and its Oregon approaches as part of the State Highway system, and he so recommended. The Commission accepted his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "I-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that, as previously authorized by the Commission, he had awarded contracts referred to him to award when certain conditions had been satisfied, as follows:

1. Elgin (North 10th Avenue) Grading and Paving Project, Union County. Bids received April 14, 1955. Conditions of award satisfied April 28, 1955. Russell Olson Construction Company, Pendleton, contractor.

2. Construction of Applegate River Bridge on Redwood Highway, Josephine County. Bids received April 13, 1955. Conditions of award satisfied April 29, 1955. Tom Lillebo, Reedsport, contractor.

3. Service Creek-Goose Rock Bridge Rock Production Project on John Day Highway, Wheeler and Grant Counties. Bids received April 13, 1955. Conditions of award satisfied May 4, 1955. E.H. Itschner Company, Molalla, contractor.

4. Construction of Ashland Undercrossing Section of Pacific Highway, Jackson County. Bids received April 14, 1955. Conditions of award satisfied May 9, 1955. Miller and Strong Inc., Eugene, contractor.

The Commission accepted the report.

A report showing statistics from the weighmaster's records for the three-month period from January through March for the years 1951 to 1955, inclusive, was presented by the Engineer. He pointed out that the average fine per violation had decreased from $61.75 during the same quarter in 1954 to $49.83 in the corresponding quarter of 1955, whereas the percentage of violations had increased from 1.31 percent of the loads weighed in 1954 to 1.51 percent in the corresponding quarter in 1955. He pointed out that the percentage of increase in violations is proportionate to the decrease in amount of fines assessed. The Commission accepted the report.

The Engineer also presented a report concerning construction of a grade separation structure on the Wilson River Highway at its crossing of the Nehalem Secondary Highway near Banks. He recalled that at a previous meeting the Washington County Lifesavers Committee had appeared before the Commission and urged that a grade separation be installed. As instructed by the Commission at that time, a survey had been made and he estimated that it would cost $150,000 to construct a grade separation and interchange facility. He pointed out that, if the 2,000 vehicles now traveling on the Nehalem Secondary Highway were allowed to enter the Wilson River Highway at grade, a very serious hazard would be created. He stated that there is approximately $300,000 in available secondary funds in Division I and he recommended that $150,000 be taken from this fund to construct the interchange which will be charged against the Nehalem Secondary Highway. The Commission approved his recommendation.

Consideration was given to a claim submitted by Whittenburg Construction Co. and Q. L. Rufener, contractors, operating as a joint venture on Contract No. 4273 on the Beals Corner-Dougherty Corner Section of the Woodworth Hood River County Road. The Engineer reported that due to a low grade line across a swampy area it was found necessary to change the grade elevations, thereby increasing the amount of borrow materials from 3,454 cu. yds., as specified in the plans, to 9,172.8 cu. yds. The contractor, he added, submitted a claim in the amount of $16,000 but the claim could not be verified. A complete investigation was made, including an inspection of the contractor's books, and it was determined that the cost to the contractor was $1.523 per cu. yd. whereas his bid price was $0.75. He recommended that the contractor be paid his actual cost price on the quantities in excess of the original plans but that he be allowed no additional compensation for the 3,454 cu. yds. as specified in the plans. The Commission deferred final action pending the appearance of Mr. Whittenburg and Mr. Rufener on the following day.

(The Commission informed the contractors when they appeared before them that it was their feeling that no additional compensation should be allowed for the quantities contained in the original plans but extra compensation should be allowed for the added materials, the amount of compensation to be not in excess of the contractors' actual cost.)

Removal of load limit restrictions was reported by the Engineer, in conformance with authority previously granted by the Commission, as follows:

1. On the Medical Springs Highway, No. 340-from M.P. 0.50 at Union to M.P. 20.35 at Medical Springs, effective 8:00 a.m., May 23, 1955.

2. On the Weston-Elgin Highway, No. 330-from M.P. 8.0 to M.P. 11.33, effective 8:00 a.m., May 16, 1955.

3. On the Crane-Scotts Butte Secondary Highway No. 442, from M.P. 28.0 to M.P. 40.5, effective 8:00 a.m., May 21, 1955.

The Commission accepted the report.

The Commission gave attention to the following items of unfinished business as they appeared on the Secretary's summary, dated April 14, 1955:

1. Proposed construction of Clay Street Interchange in the City of Portland: The Engineer reported that the survey has not been completed but he expects to make a report at the next meeting. The item is to remain on the list of unfinished business.

2. Offer of Mrs. Albert Powers to sell five acres of myrtle timber along the Powers Secondary Highway for the sum of $1,750: This item was ordered deleted from the list of unfinished business as the Parks Superintendent had reported on it earlier in the day.

3. Proposed park at the mouth of the Deschutes River, as suggested by the Deschutes Planning Commission and The Dalles Chamber of Commerce: The Parks Superintendent stated that his report on this matter is not yet ready. The Commission ordered the item to be retained on the list of unfinished business.

4. Lease of property on Seventh Avenue West in Eugene to Big Y Supermarket: The Engineer reported that disposition of this property is being investigated but the report is not yet ready. The Commission ordered the item to be retained on the list of unfinished business and also instructed that it be determined if the property can be classed as excess property and sold outright rather than leased.

5. Report of Engineer on improvements required to control traffic and to reduce accidents at the Stanfield Junction on US30: The Engineer reported that plans for improvement had been approved by Commissioner Reynolds and the work is now being done. The item was ordered deleted from the list of unfinished business.

6. Request of Benton County delegation for improvement of the Alsea Highway over Alsea Mountain: The Engineer reported that all of the facts in this investigation had not yet been determined. This item is to remain on the list of unfinished business.

7. Request of Washington County Lifesavers Committee for a grade separation structure on the Wilson River Highway near Banks: This item was ordered deleted from the list of unfinished business as the Engineer had reported on it earlier in the day.

8. Request of Mrs. Drury that the State purchase her property south of Yaquina Bay for park purposes: This item is to be removed from the list of unfinished business as the Parks Superintendent reported on this matter earlier in the day.

9. Request of Harney County delegation for traffic signals at the intersection of East Monroe and Date Avenue in the City of Burns: The Commission ordered this item deleted from the list of unfinished business as the matter had been reported on by the Engineer at the special meeting April 27, and had been denied.

10. Request of Mrs. Blanche Tipton for additional access to her property on the Pacific Highway near Roseburg: This item is to remain on the list of unfinished business pending personal inspection by the Commission.

11. Complaint of Judge Latourette that the State is leasing river frontage in Oregon City at too low a rate: The Engineer reported that an investigation is being made by the Property Manager. The Commission ordered the matter to be retained on the list of unfinished business.

Commissioner Reynolds inquired as to what had been done concerning the park site at the mouth of the Deschutes River as proposed by the Wasco County Planning Commission, previously mentioned in Item 3 of the unfinished business. The Parks Superintendent stated that investigative work is being done by the County Planning Commission and they have stated that the results of the investigation will be given to the Parks Superintendent when completed. Commissioner Reynolds then inquired if the location of the park could be classed as generally suitable. The Parks Superintendent replied that the railroad and the highway are both close and that it would be necessary to enter the park between them. He also pointed out that it would be difficult to cross traffic on the highway in order to get into the park.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

The erection of Welcome signs at border entrances on highways entering Oregon was discussed. The Engineer presented pictures of the proposed signs and recommended that ten of them be installed at an estimated cost of $500 each, the signs to be located on US 97 south of Klamath Falls, on US 395 south of Lakeview, on US 20 at Nyssa, on US 30 at Ontario, on US 30 near Weiser Junction, on ORE 11, north of Milton-Freewater, on US 30 near Wallula Junction, at The Dalles Bridge, at the Hood River Bridge, and on US 99 at Portland. The wording to be placed on the signs was also discussed at some length, and the Commission finally decided that on the signs to be read by people entering Oregon, the inscription should read, "Welcome to Oregon, We Hope You Will Enjoy Your Visit", and for those signs to be

read by people leaving the State, the inscription should read, "Leaving Oregon, We Hope You Enjoyed Your Visit, Come Again". They also approved erection of ten signs at locations recommended by the Engineer.

The Engineer reported that he had completed surveys for the relocation and reconstruction of several sections of State highways. These sections for relocation, he stated, have been studied carefully and have been designed to provide the greatest benefit for the greatest number of the traveling public. He recommended that the Commission adopt surveys on the following sections of State highways:

1. Deschutes River Section of McKenzie Highway in Deschutes County.

2. Moro-Kent Section of Sherman Highway in Sherman County.

3. East Unit, Hamilton-Long Creek Section of the Kimberly-Long Creek Secondary Highway in Grant County.

The Commission accepted his recommendation by adopting the attached resolutions relative thereto marked EXHIBITS "J-1" and "J-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The waiving of a previously assessed engineering penalty against R. A. Heintz Construction Company for overrunning the specified time limit on the contract for grading the Elkhead-Rice Hill project on the Pacific Highway was considered. The Engineer reported that a review of the penalty assessed in the amount of $1,230.26 had disclosed that $799.72 had been included which did not pertain to the overrun. Also the contractor had been plagued with an exceedingly wet spring and summer, and as he has a very good record for completion of jobs, he recommended that the penalty be cancelled. The Commission approved the cancellation.

A request from the Eugene Safety Council and others that something be done to decrease congestion and other traffic hazards on the Junction City-Eugene Secondary Highway between Santa Clara and Eugene was discussed. The Engineer reported that the exceedingly heavy traffic in the morning and evening hours required construction of a four-lane highway, but as no funds are available, he recommended the following treatment: (1) Extension of the existing footpath from Maxwell Road northerly 1.32 miles to a point immediately north of the Santa Clara School, at an estimated cost of $7,500; (2) that the existing pavement be widened to permit left-turn refuges at two of the most heavily traveled road intersections, at Howard Avenue and at Park Avenue, at an estimated cost of $600; (3) that additional "Look Out for Pedestrians Ahead" signs be placed at six specific locations; (4) that the request for school bus loading areas be denied, but that school bus drivers be requested to park the buses on the graveled shoulder after loading or unloading, until congestion caused by their stopping has been relieved; (5) that additional speed signs be installed throughout the section; (6) that Captain Lansing of the State Police, be requested to investigate and report on desirability of school crossings to be administered by school patrols; (7) that existing speed zones be rescinded and the following speed zones established: From Ferndale Drive at

M. P. 9.36 to Azalea Drive at M. P. 9.65, 40 miles per hour; from M. P. 9.65 to the north city limits of Eugene at M. P. 12.65, 30 miles per hour, except at Santa Clara School at M. P. 9.69 to M. P. 9.88 and River Road School M. P. 11.48 to M. P. 11.74, the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission approved the recommendations as made by the Engineer, and also adopted the resolution relative to speed zones attached hereto marked EXHIBIT "H-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A request was considered from the City of Salem for installation of a traffic signal at the intersection of 17th and State Streets in Salem. State Street, the Engineer reported, is the present route of the North Santiam Highway and an investigation conducted discloses that traffic conditions warrant the signal. He recommended that a traffic signal be installed, with the City to pay half the total estimated cost of $3,000, to furnish the electrical energy necessary to operate the signal, and to maintain it after installation. The Commission approved the installation as recommended.

The City of Salem also requested the installation of traffic signals at the intersections of Marion and Center Streets with Church Street in Salem. Marion and Center Streets, the Engineer stated, are one-way streets utilized to carry traffic for the Pacific Highway East. The intersections for which signals are requested are adjacent to other signalized intersections and are also adjacent to the new Meier and Frank store. As traffic volume on both the highway and city streets is very heavy, he recommended that fixed time traffic signals be installed at these two intersections at an estimated cost of $5,600, to be shared equally by the City and the State, with funds to be obtained from 1955 minor betterment traffic signal funds The Commission accepted his recommendation.

The City of Medford presented a request for traffic signals at the intersection of the Pacific Highway and Stewart Avenue at the southerly edge of Medford. The Engineer reported that this is a channelized four-way intersection with left-turn refuges. Traffic volumes are relatively high and considerable congestion exists at the present time. He recommended that a three-phase fully-actuated traffic signal be installed at this intersection at an estimated cost of $7,000. As the city limits of Medford are coincident with the center line of Stewart Avenue, both the County and the City are affected. The County has agreed to pay 25 percent of the cost of the signal, the City, 25 percent, and the State the usual 50 percent, with funds from 1955 minor betterment traffic signal projects. The Commission approved the installation.

Attention was given to a request from the Arlington Chamber of Commerce and others for erection of danger signs and illumination at the "Watchman Dip" Section on US 30 about 18 miles west of Arlington. The Engineer reported that the major problem is a sidehill cut about 700 feet in length where strong winds erode the sand, thereby loosening rocks which roll down onto the roadbed. Two boys were killed on February 10, 1955 as a result of their car being struck by a rolling rock. Considerable work, he stated, has been done to remedy this condition and large reflectorized signs, reading "Beware of Rocks

on Road", have been installed. He recommended that additional work be performed involving resloping of the upper portion of the cut slopes, seeding, mulching, and the placing of straw mats, at an estimated cost of $4,900, as a minor betterment project. He also stated that the request for illumination had been investigated, and it was found that illumination would not remove the danger and also that it would be very costly. He recommended that this request be denied. The Commission approved the recommendations as made by the Engineer.

The Commission gave attention to a resolution submitted by the Camas Valley Grange, No. 521, for improvement of the Coos Bay-Roseburg State Highway No. 42 as the most direct connection between the Pacific Highway and Coos Bay. The matter was discussed briefly and the request was ordered filed.

The Engineer presented to the Commission descriptions and maps showing 82.8 miles of state highway and 31.5 miles of county roads as proposed additions to the federal-aid secondary system. He pointed out that the 82.8 miles of highway routes are mostly old portions of US 99 and US 30 which will revert to secondary status when the reconstructed sections are opened to traffic. The 31.5 miles are various sections for which requests have been made to add them to the federal-aid county road secondary system.

The Engineer recommended that the following sections of highways be added to the FAS System:

DOUGLAS COUNTY:

FAS 553 (State Highway) - 22.4 miles, from a point north of Oakland to Shady Point, being the old route of the Pacific Highway.

FAS 675 (State Highway) - 8.07 miles, from the Umpqua Highway at Drain southerly along the old route of the Pacific Highway to a junction with the new Pacific Highway at Rice Hill.

LANE COUNTY:

FAS 673 (State Highway) - 20.07 miles, from the Pacific Highway at Goshen southerly along the old route of the Pacific Highway to the Pacific Highway at Divide.

FAS 674 (State Highway) - 1.62 miles, connecting the McKenzie and Pacific Highways south of Springfield.

MALHEUR COUNTY:

FAS 671 (State Highway) - 25.18 miles, from Olds Ferry southerly along the old route of the Old Oregon Trail to Ontario.

SHERMAN COUNTY:

FAS 313 (Extension) - 6.7 miles, carrying the route in a southerly direction to the city of Wasco.

FAS 665 - 5.2 miles, from the Sherman Highway northwest of Moro easterly to a county road junction.

FAS 666 - 3.6 miles, from the Sherman Highway at Moro southerly to a county road junction.

FAS 667 - 6.6 miles, from the Sherman Highway south of Grass Valley easterly to a county road junction.

FAS 668 - 4.0 miles, from the Sherman Highway at Kent easterly to a county road junction.

FAS 669 - 5.0 miles, from the Sherman Highway north of Kent westerly to a county road junction.

UMATILLA COUNTY:

FAS 672 (State Highway) - 5.46 miles, from the Washington-Oregon State line, southerly to the Oregon-Washington Highway at Milton-Freewater.

YAMHILL COUNTY:

FAS 100 - Route revised to follow the proposed new alignment northwest of Dayton. Present route to be deleted.

FAS 104 - 0.52 mile to a junction with the new route of FAS 100.

FAS 105 - Extending along the present route of FAS 100 to a junction with FAS 116 at Dayton.

FAS 116 - 0.5 mile along present route of FAS 586 to a junction with the new route of FAS 100.

FAS 670 - New route composed of a 0.5-mile section of existing FAS 104 and 0.91-mile section of existing FAS 100.

The Engineer also commented that the addition of all state highway routes, except those in Yamhill County, was requested by the Bureau of Public Roads. The Commission approved the additions as recommended by the Engineer.

A request from Multnomah County was considered for a 1.5-mile extension of Federal-aid Secondary No. 654 along 122d Avenue north to a connection with Sandy Boulevard at the easterly edge of Portland. The Engineer commented that the connection to Sandy Boulevard was requested by the Bureau of Public Roads in order to form a connection at either end with an existing federal-aid highway, and he recommended that it be approved. The Commission approved the extension.

The Commission gave attention to a request from the Coos County Court for an extension of a county road northerly from Lakeside to a connection with the newly constructed Oregon Coast Highway. The Engineer reported

that the County Court has what appears to be a good title to a county road right of way connecting with the Oregon Coast Highway. The County, however, has requested a slight change in the proposed access location in order to bring the access road to the new highway at a less hazardous position. He recommended that the access be granted as requested, contingent upon the County's release of any right to a connection at the old location and the granting by the County of complete access control between the Oregon Coast Highway right of way line and the right of way line of the Bonneville Power Administration. The Commission accepted his recommendation.

The request of District 13C, Polk County School Board, for construction of a footpath along the Monmouth-Independence Highway between the cities of Independence and Monmouth was considered. The Engineer recalled that in 1951 construction of a footpath had been denied as too costly but later the matter was revived when local citizens offered to acquire the right of way. The right of way, he stated, has now been acquired. There is considerable pedestrian traffic between the two cities, particularly because of the Central High School which is established approximately midway between. He recommended that a footpath be constructed between the cities of Monmouth and Independence, a distance of about two miles, at an estimated cost of $8,000, the project to be financed by funds from the minor betterment budget.

Attention was given to a request from the City of Beaverton for improvement and designation of Hall Street as the route of the Beaverton-Aurora Secondary Highway through Beaverton. For the past two years, the Engineer stated, there have been requests from the City of Beaverton for this improvement in lieu of improving the existing route over Watson Street. He recalled that in April, 1954 a delegation had advised the Commission that the City would contribute $35,000 toward the cost of the project but at that time the State had no secondary funds available to complete the job. Such secondary funds are now available and he recommended that $60,000 be allocated which, in conjunction with the City's contribution of $35,000, will complete the requested project. The Commission approved the Engineer's recommendation contingent upon the City of Beaverton contributing $35,000, and thereupon adopted the attached resolution relative thereto marked EXHBIT "I-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that there is an allotment of $600,000 to complete the section on The Dalles-California Highway between the Willamette Highway Junction and the Diamond Lake Junction. Present estimates indicate an underrun of approximately $125,000 on this project which, with an additional $25,000, would complete the paving of US97 from Diamond Lake Junction to a point 8 miles southerly thereof which would connect with an existing contract, thus completing paving between Willamette Highway Junction and Algoma. He recommended inclusion of the 8 miles of paving work in the contract for the Willamette Highway Junction-Diamond Lake Section and the authorization of $25,000 additional funds to finance the project. The Commission approved his recommendation.

The Engineer recommended, and the Commission approved, construction of an 0-11 oil mat surface treatment on the Coos River Secondary Highway, easterly from the end of the existing oil surface at the old Enegren Ferry. It was his thought that traffic could be well served by construction of this type of surfacing at an estimated cost of $60,000 compared with a paving cost of $200,000. He pointed out that $20,000 had been previously approved for placing calcium chloride on this section

and, if the section is oiled, such funds will not be required for the calcium chloride treatment and would act as a credit toward the estimated $60,000 cost for oiling. The Commission approved the oiling project as recommended by the Engineer.

The Engineer reported that the following cities and towns have satisfied the legal requirements with respect to expenditure of State Tax Street Funds accrued to them during the first and last halves of 1954 as follows:

Funds accrued during first half of 1954:

Gearhart	$ 1,617.37	Weston	$ 1,933.44

Funds accrued during last half of 1954:

Arlington	$ 2,412.71	Long Creek	$ 1,012.92
Aumsville	988.30	Lowell	2,043.42
Butte Falls	1,308.35	Malin	2,082.10
Clatskanie	3,168.88	Maupin	1,097.32
Corvallis	57,001.12	Metolius	552.18
Culver	1,058.64	Mt. Vernon	1,586.20
Detroit	963.68	North Powder	1,417.38
Elkton	706.93	Paisley	752.65
Falls City	3,000.06	Phoenix	2,623.73
Gearhart	1,997.69	Sherwood	2,317.75
Harrisburg	3,031.71	Troutdale	1,807.77
Hines	3,228.67	Weston	2,388.09
Imbler	524.04	Yamhill	1,895.70
Cornelius	3,510.03		

The plans for the projects proposed by each, he said, have been examined and found satisfactory, and he recommended that they be approved. The Commission unanimously approved the plans as recommended by adopting the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the City of Cornelius has made a request to transfer a project for which the City has accumulated St ate Tax Street Funds as follows:

1952, First Half	$3,133.09
1953, Second Half	2,882.21
1954, First Half	3,509.04

The City, he stated, had originally saved this money to repair North Main Street, but they now wish to transfer it to a project for grading, surfacing, and oiling N. W. First Avenue and S. W. First Avenue, the work to be performed this summer. He recommended approval of the transfer. The Commission accepted his recommendation.

Authorization was requested by the Engineer to transfer the sum of $34,800 from maintenance to construction. He explained that at the March meeting bids had been taken for correction of a slide condition on the Oregon Coast Highway at the Douglas-Coos County Line which already is partially on a contract awarded by the State and partially on the Bureau of Public Roads contract. As the Bureau has no money to repair the slide, it is necessary for the State to make the repair. It was his thought that the work should be properly charged as a capital outlay, and he so recommended. The Commission accepted his recommendation.

Transfer of three projects in the 1957 Federal-aid Program to the 1956 program was requested by the Engineer so as to provide for immediate use of $1,200,000 of 1956 Federal money that has been held in reserve for payment of the bond principal. He explained that the $1,200,000 of 1957 Federal funds released by such transfer can then be taken up on bond payments after the 1957 funds are allotted and after the fall payments of bond principal have been made. The Commission approved the transfer of the following projects:

Interstate Projects:	
Myrtle Creek-Canyonville (Division 3)	$ 570,000
Urban Projects:	
Unit on Banfield Expressway (Division 1)	830,000
Primary Projects:	
Unit of the Lapine-Lenz Road Section (Division 4)	600,000
	$2,000,000

Reconstruction of a section of the Elkton-Sutherlin Secondary Highway was discussed. The Engineer explained that there is $257,700 in reserve in the Division No. 3 1956 Federal-aid Secondary Highway Program. The Commission, he recalled, had previously approved an allocation to the Elkton-Sutherlin Highway, but had not taken formal action until a section to be built had been decided upon. He recommended that the $257,700 be used to construct a section beginning at the westerly end of the existing improvement and extending as far as the money will go, probably about three miles. The Commission approved the project as recommended.

The Commission considered and upon recommendation of the Engineer, approved the following requests for extensions of time within which to complete highway contracts:

1. F. O. Laws, Contract No. 4261, for grading and paving West Hood River Connection on the Columbia River Highway in Hood River County, requested an additional extension of time from April 15, 1955 to June 15, 1955. A previous extension had been granted from October

15, 1954 to April 15, 1955 with the provision that the cost of engineering from October 15, 1954 to the actual completion date of the contract be assessed as penalty. Extension approved with this same provision.

2. F. O. Laws, Contract No. 4201, for slope grading on the Modoc Point-Barkley Springs Section on The Dalles-California Highway in Klamath County: requested an additional extension of time from January 31, 1955 to February 4, 1955. Extension approved as requested without penalty.

3. Albert C. Bubak, Contract No. 4310, for Big Eddy-Rufus Fencing Project on the Columbia River Highway in Wasco and Sherman Counties, requested an extension of time from March 31, 1955 to May 1, 1955. Extension approved as requested without penalty.

4. Valley Construction Company, Contract No. 4207, for construction of Row River Bridges on the Coast Fork Willamette River-Divide Section of the Pacific Highway in Lane County, requested an extension of time from March 31, 1955 to July 1, 1955. Extension approved as requested without penalty.

5. Tom Lillebo, Contract No. 4215, for constr uction of Main Street, 16th Street and Taylor Street Overcrossings of the Pacific Highway in Cottage Grove in Lane County, requested an extension from March 31, 1955 to June 30, 1955. Extension approved as requested without penalty.

6. Lee Hoffman, Contract No. 4130, for construction of Calapooya River Overflow structures on the Pacific Highway in Linn County, requested an additional extension of time from December 31, 1954 to June 30, 1955. Extension approved as requested without penalty.

7. Johnston & Bryant, Contract No. 4268, for construction of Woodburn Interchange Undercrossing on the Salem-Portland Expressway in Marion County, requested an extension of time from April 30, 1955 to May 30, 1955. Extension approved as requested without penalty.

8. Vernie Jarl, Contract No. 4227, for rock surfacing Hilgard Junction-Meadowbrook Section on the Ukiah-Hilgard Highway in Union County, requested an additional extension of time from February 28, 1955 to June 15, 1955. A previous extension had been granted from November 30, 1954 to February 28, 1955 with the provision that an engineering penalty is to be assessed after that date. Extension approved with the penalty to be assessed to the actual completion date.

9. Charles E. Wiedeman, Contract No. 4327, for construction of Yaquina River Bridge on the Elk City Road in Lincoln

County, requested an extension of time from May 31, 1955 to June 30, 1955. Extension approved as requested without penalty.

10. Witzig Construction Company, Contract No. 4256, for installation of traffic signals at Corvallis on the Pacific Highway West in Benton County, requested an additional extension of time from December 30, 1954 to February 11, 1955. Extension approved as requested without penalty.

11. George L. Rochat & Son, Contract No. 4251, for installation of illumination on the Salem By-pass on the Pacific Highway in Marion County, requested an additional extension of time from April 1, 1955 to May 31, 1955. Extension approved as requested without penalty.

(For further details regarding the extensions of time listed above, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.) *

---

* FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that contracts Nos. 3853, 4169, 4199, 4201, 4222, 4251, 4252, 4256, 4268, 4281, 4306, 4309, 4310, 4319, 4328, 4339, 4351, and 4406 for construction of St ate Highway projects have been completed according to requirements of the contracts or modifications thereof and that said projects are ready for acceptance. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A request was considered from Mr. J. D. McMillan, Chief of Police at Gresham, requesting an extension of the existing speed zone west of Gresham. In connection with this request, the Engineer reported that it was deemed advisable to investigate all of that section of the Mt. Hood Highway between Portland and Gresham. As a result of that investigation, he recommended that the 35-mile per hour speed zone established September 28, 1950 be rescinded and that the following speed zones be established on the Mt. Hood Highway between Portland and Gresham: (1) From the east city limits of Portland (M. P. 5.31) to S. E. 92d Avenue (M. P. 5.81) 35 miles per hour; (2) from S. E. 92d Avenue (M. P. 5.81) to M. P. 7.24, 45 miles per hour, except that between M. P. 6.98 and M. P. 7.10 the indicated speed shall be 20 miles per hour during the hours of school crossings; (3) from M. P. 7.24 (50 feet west of S. E. 120th Avenue) to

M. P. 7.55, 30 miles per hour; (4) from a point 50 feet east of S. E. 127th Place (M. P. 7.55) to M. P. 9.14, 45 miles per hour, except that between M. P. 8.42 and M. P. 8.63, the indicated speed shall be 20 miles per hour during the hours of school crossings; (5) from M. P. 9.14 to the west city limits of Gresham at M. P. 11.97, 50 miles per hour except that between M. P. 9.86 and M. P. 10.12, the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission approved the speed zones as recommended by adopting the attached resolution relative thereto marked EXHIBIT "H-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A speed zone on The Dalles-California Highway north of Bend was also considered by the Commission. The Engineer stated that an investigation had been made at the request of the Division Engineer, and, as a result of the facts disclosed by that investigation, he recommended that a 50-mile per hour speed zone be established on The Dalles-California Highway between the north entrance to the State Highway Shops at M. P. 137.39 and the north city limits of Bend at M. P. 140.14. The Commission accepted the recommendation by adopting a resolution relative thereto marked EXHIBIT "H-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a request from Mr. E. L. Tedrick of the Union Creek Resort and Mr. J. H. Wood, Rogue River National Forest Supervisor, for a speed zone on the Crater Lake Highway in the Union Creek area. An investigation on this request was made, the Engineer stated, and it was found, in view of the prevailing speeds, the favorable accident record, and lack of roadside culture, that a reduced speed zone is not needed, and he recommended that the request be denied. The Commission accepted the recommendation.

A reduced speed zone was also requested by the Hon. Rodney Keating, Jackson County Judge, on the Pacific Highway between Medford and Phoenix. An investigation was made, the Engineer stated, and it was found that local people feel that the existing 45-mile per hour speed zone throughout this section is unreasonably low. In view of the accident rate on this section and the prevailing speeds, he recommended that Speed Limit Resolution No. 164, dated September 23, 1954, and a portion of Speed Limit Resolution No. 73, adopted October 11, 1951, be rescinded and the following speed zones be established: (1) From the south city limits of Medford at M. P. 312.06 to 0.14 mile north of the north city limits of Phoenix at M. P. 315.09, 50 miles per hour; (2) from M. P. 315.09 to the north city limits of Phoenix, 45 miles per hour, except that between M. P. 315.14 and M. P. 315.23, the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission approved the recommended speed limits by adopting the attached resolution relative thereto marked EXHIBIT "H-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that an undesirable situation is developing on the Oakland Junction-Deady Section of the Pacific Highway at the Sutherlin Inter-

change by reason of parked vehicles. These vehicles apparently belong to employees of the lumber and logging industry and that parking, as practiced, obstructs the view, impairs sight-distance and creates roadside friction generally. He recommended that a "NO PARKING AT ANY TIME" regulation be established on both sides of the highway between Engineer's Station 1785+00 and Engineer's Station 1815+00. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that Mr. T. H. Edmunson who operates the Blue Spruce Motel south of Bend had requested an investigation into the matter of shoulder parking in front of his motel. An investigation was subsequently made by the Traffic Engineer, and it was found that trucks which park on the shoulders restrict sight-distance for vehicles leaving the motel, thereby creating a hazardous condition. He recommended that shoulder parking be prohibited on the west side of The Dalles-California Highway between M. P. 144.58 (Engineer's Station 1154+68, and M. P. 144.63 (Engineer's Station 1151+90). The Commission approved his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The matter of prohibiting parking on that section of the Pacific Highway which by-passes Roseburg was also presented by the Engineer. He anticipated that when this section of highway is open to traffic, a dangerous situation will result because of shoulder parking along a section of the highway which overlooks the High School Athletic field, and a section which adjoins the County Fairgrounds. It was his feeling that motorists will stop along the shoulders to watch events at the athletic grounds and will park along the shoulders at the fairgrounds because of limited parking space within the fairgrounds. He therefore recommended that shoulder parking be prohibited on the Pacific Highway between the south end of the South Umpqua River Bridge at M. P. 196.75 and M. P. 197.01, and between M. P. 197.69 and M. P. 198.92. The Commission accepted his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a request from the Albany Timber Carnival Association for permission to use Waverly Lake Park for the annual timber carnival during the 4th of July weekend. The Engineer recalled that they had been allowed to use this area in years past, and their operations had been satisfactory. It was his recommendation that a permit be granted to the Association under the same terms as specified in the permit issued June 3, 1954, which required among other things, that the Association post a $500 bond to guarantee that all state highway property be cleaned up on or before July 22, 1955. Issuance of the permit was approved by the Commission.

The Engineer reported that a request had been received from Mr. John R. Gray, Umatilla County Engineer, for a change in the existing stop sign locations at the northerly junction of the Athena-Holdman Highway with the Havana-Helix Highway west of Athena. This is a three-way intersection, the Engineer explained

with the Havana-Helix Highway entering from the north, the Athena-Holdman Highway from the east, and the two highways having a common alignment to the south. At the present time, vehicles entering the intersection from the north are required to stop. The 1953 average daily traffic shows 420 vehicles from the north, 350 vehicles from the south, and 180 from the east. To properly take care of this traffic, he recommended that the resolution covering "THROUGH STOP HIGHWAYS" be amended to insert the following exception under the Athena-Holdman Highway, "Traffic on Road No. 334, the Athena-Holdman Highway, westbound, shall stop at its junction with Road No. 335, the Havana-Helix Highway, at M. P. 8.46", and that the following exception as contained in the resolution under the Havana-Helix Highway be rescinded: "Traffic on Road No. 335, the Havana-Helix Highway, southbound, shall stop at its junction with Road No. 334, the Athena-Holdman Highway, at M. P. 2.50". The Commission accepted his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer recommended that the following sections of highways be designated as secondary highways:

1. Sams Valley Secondary Highway West No. 271, extending from the Rock Point Bridge on the relocated line of the Pacific Highway to Fourth Street in the town of Gold Hill.

2. Sams Valley Secondary Highway East No. 271, beginning at Fourth Street and extending along Second Avenue in the town of Gold Hill to a connection with the relocated Pacific Highway. The Commission approved the designations as recommended by adopting the attached resolution relative thereto marked EXHIBIT "I-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the new section of the Columbia River Highway between Mosier and The Dalles has been completed and opened to public travel, and it is desired to designate the old route of the Columbia River Highway as a State Secondary Highway. He therefore recommended that the former route of the Columbia River Highway commencing at its junction with the relocated Columbia River Highway in the City of Mosier at M. P. 67.96 and extending easterly to a junction with the relocated Columbia River Highway near The Dalles at M. P. 80.61, a distance of 15.25 miles, be designated as the Mosier-The Dalles State Secondary Highway No. 292. The Commission approved his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "I-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Secretary presented for the Commission's consideration a resolution authorizing Mr. I. A. DeFrance, Assistant Maintenance Engineer, and Mr. R. M. Smith, District Maintenance Superintendent, who is also Superintendent of the Astoria-Megler Ferries, to sign certain documents in behalf of the Highway Commission as required by the Collector of Customs, Bureau of Inter-

nal Revenue, relating to registration and annual renewals of registration for the Motor Vessels M. R. Chessman, Tourist No. 2 and Tourist No. 3. He explained that this resolution is to supersede one adopted June 8, 1953, authorizing Mr. DeFrance and Mr. Floyd Simon, who is now deceased, to sign such documents. The Commission authorized these men to sign the documents by adopting the attached resolution relative thereto, marked EXHIBIT "C-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A request from the Chief of Police of the town of Rockaway was considered for permission to land planes on a section of the ocean beach at Rockaway on July 3, in connection with a fly-in breakfast sponsored by the City of Rockaway and the Veterans of Foreign Wars. The Engineer recommended that the request be denied due to the hazards involved to people on the beach. After some further discussion, the Commission instructed that the Chief of Police be notified of the provisions in the law which requires, among other things, the submission of a petition signed by the State Board of Aeronautics before being filed with the State Highway Commission.

Payment of a claim presented by State Farm Insurance Companies for damages to their client's automobile in the sum of $184.90 was considered. The Engineer explained that a state maintenance tree-felling crew had misjudged the felling of a small tree, with the result that it fell across the Warm Springs Highway, striking the car of Mr. Paul R. Want, of Woodburn. He recommended that the insurance company be reimbursed in the amount of $184.90 The Commission approved the payment.

The Engineer reported that the new route of the Pacific Highway West in the north part of Corvallis has been completed and the old section is no longer required for highway purposes, and under terms of an agreement previously entered into with Benton County, the old section can now be abandoned to the County, and he so recommended. The Commission approved his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a letter from Mrs. Mary Squires, Secretary of the Astor Center Farm Bureau, suggesting that the section of the Oregon Coast Highway between the eastern city limits of Astoria and the city limits of Seaside be named "Lewis and Clark Way". The Engineer stated that the Memorials Committee of the Oregon Historical Society objects to the use of the word "Way" as it indicates the exact route of Lewis and Clark, which does not seem probable. He suggested the use of the work "Boulevard". In view of the objections of the Memorials Committee of the Oregon Historical Society concerning the use of the word "Way", and the fact that other organizations may be interested in the matter, the Commission declined to designate the name as requested.

The Commission approved out-or-state traveling expenses for the following people:

1. Mr. R. H. Baldock, State Highway Engineer, to attend the meeting of the Council of State Governments, in Billings, Montana, June 27 and 28, 1955, at an estimated cost of $100; also, to attend the meeting of the Executive Committee of the AASHO and a meeting of the National Highway Research Board, in San Francisco, July 19, 20, and 21, 1955, at an estimated cost of $105.

2. Mr. P. M. Stephenson, Bridge Engineer, to attend the meeting of the Bridge Committee of AASHO, in Salt Lake City, June 27 and 28, at an estimated cost of $115.

3. Mr. G. S. Paxson, Assistant State Highway Engineer, to attend Bridge Regional Meetings of AASHO, in Birmingham, New York City, St. Louis, and Salt Lake City, from June 14 to June 29, at an estimated cost to the State of $45. The Engineer explained that Mr. Paxson's expenses are being paid by the AASHO, except for those expenses in the western states.

4. Mr. J. Al Head and Mr. R. C. Blensly, Traffic Engineers, to attend the annual meeting of the Western Section of the Institute of Traffic Engineers, in San Diego, during the last week in June, at an estimated cost of $250.

5. Mr. R. C. Blensly, to Olympia, Wenatchee, and Seattle, in June, at an estimated cost of $40.

The Commission approved the Secretary's report of papers he had signed in behalf of the Commission during the period from April 8 through May 20, 1955.

A request of D. R. Johnson Lumber Company to lease highway property on the northerly side of the Tiller-Trail Secondary Highway, about two miles west of Tiller, was considered. The Engineer explained that they wished to lease the property for exploration and development as a mining claim as they feel that the area may contain uranium. Mr. Lewis E. Scott, Geologist for the Department, investigated the property but could not obtain any reaction with a Geiger counter. It was the Engineer's opinion that exploration or development work would probably handicap traffic because of the closeness of the road to the property, and he recommended, therefore, that the request be denied. The Commission accepted his recommendation.

The Commission also considered a request from John W. Krebs, of Cecil, Oregon, for State assistance in the extermination of obnoxious weeds and grasses on sections of the Old Oregon Trail, the Heppner Highway, and the John Day Highway. The Engineer recalled that the State had assisted in a similar operation during the past two years, and he recommended that assistance be granted in burning or spraying this year under the same terms and conditions that were in effect last year. The Commission approved the recommendation.

The Commission set the date for the next regular Commission meeting at June 30 and July 1, in the Imperial Hotel at Portland, and set tentative dates of August 11 and 12, September 22 and 23, and November 3 and 4 for following meetings. The Commission also approved dates of June 13 to 17, inclusive, for an inspection trip on the coast and west of the Cascades, and the dates of July 11 through 14 for an inspection trip in eastern and central Oregon.

Chairman Chandler commented that he planned to do some traveling this summer and would not be available for the August and September meetings. The Chief Counsel was instructed to make necessary arrangements with the Governor to excuse the Chairman for the two meetings. The Commission also discussed with the Engineer as to who should be invited to accompany the Commission on the June inspection trip.

The Commission discussed with the Engineer and the Chief Counsel problems to be presented by delegations scheduled to appear on the following day, but no action was taken at this time.

Chairman Chandler requested the Engineer to submit a report on the cost of improving a $2\frac{1}{2}$-mile section of the Santiam Highway south of Lebanon.

The Engineer reported that a log truck on May 6, 1955 had severely damaged a bridge over the Siletz River at M. P. 24.59 on the Siletz Secondary Highway and that it would be necessary to construct a temporary emergency bridge across the river. To protect the temporary bridge from undue damage and to provide safety for the traveling public, he recommended that a reduced speed of 10 miles per hour be imposed and that no more than one truck be allowed on any span at any one time. The Commission approved the recommendation and adopted the attached resolution relative thereto marked EXHIBIT "H-5", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Chairman Chandler inquired concerning progress made in getting electric power to service the lights in the Salt Creek Tunnel on the Willamette Highway. The Engineer stated that a request had been made to the U. S. Forest Service for permission to install a power line and that the Forest Service has so far refused to grant a permit for the line. The refusal, he stated, had been made by the local supervisor and upon taking the matter up with the Portland office, they agreed to a joint inspection of the route to be followed by the line. Also he contacted city officials in Oakridge in an effort to secure their support. He pointed out that there has been criticism of the Highway Department because of freezing conditions which sometimes occurs inside the tunnel when no freezing is apparent on the highway. If electric power is made available, it may be advisable to install heat units in the pavement to eliminate the danger of freezing.

Commissioner Reynolds called attention to a letter that he had received from the City of Pendleton urging the addition of a third lane to the highway from the Pendleton air field to the City of Pendleton in order to take care of the anticipated increase in traffic due to a large construction program contemplated on the air field. He suggested that the Engineer tell the Pendleton city officials that further consideration would be given their request when the traffic actually develops

but improvement would be considered on the basis of a four-lane section as a three-lane facility is exceedingly dangerous except as a climbing lane.

Commissioner Reynolds also brought up the matter of fire insurance on shop equipment in the State Highway shops. He pointed out that the state restoration reserve contains now approximately $1,000,000 which would be adequate to cover any loss by fire which might occur. At his suggestion, the Commission approved placing under the state restoration fund the shop equipment in highway shops valued at approximately $372,000. The restoration fund rate for insurance, he stated, is about 25 percent less than commercial rates.

Commissioner Reynolds also inquired as to what had been done regarding the installation of signs on the scenic drive section of the Columbia River Highway as requested by a resident of Hood River. The Engineer replied that the matter had been discussed with Mr. Widdows, Sign Engineer, and an investigation was underway. It was expected that a report could be presented at the next meeting. He pointed out that he felt that it was a bad precedent to install such signs and that the AASHO did not approve of such installation. He recommended that no action be taken until the full report could be presented. The Commission deferred action on the matter.

At 4:00 p.m. Commissioner Reynolds announced awards of contracts for which bids were received at the morning session, as follows:

"Liability Insurance for Steel Bridge in Portland: The Commission referred the low bid of Hansen & Rowland, Inc., Portland, in the sum of $795.33 to the Department of Finance and Administration with recommendation to award the contract to said low bidder.

"Grading and paving South River Road Junction (Milwaukie) Section of the Pacific Highway East in Clackamas County: The Commission awarded the contract to the low bidder, Central Paving Company, Independence, at their bid price of $9,982.

"Grading and paving Park Avenue-Gladstone Section of the Oatfield County Road in Clackamas County: The Commission elects to accept the bid of K. F. Jacobsen & Company, Inc., Portland, in the sum of $144,645 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Clackamas County is received and the sum of $32,700 is deposited by the County.

"Grading, paving, and construction of a concrete bridge on the Miles Crossing- Lewis & Clark River and Cooks Slough Sections on the Lewis & Clark River and Youngs River Loop County Roads, southeast of Astoria in Clatsop County: The Commission elects to accept the bid of Grimstad & Vanderveldt, Astoria, in the sum of $90,313 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Clatsop County is received and the sum of $20,450 is deposited by the County.

"Cleaning and painting all structural steel on the North Fork Quartz Creek

Bridge on the Sunset Highway in Clatsop County and the Necarney Creek Bridge on the Oregon Coast Highway in Tillamook County: The Commission awarded the contract to the low bidder, Tri-State Painting Company, Portland, at their bid price of $22,800.

"Oiling project on five county roads in the vicinity of Redmond, Sisters, and Bend in Deschutes County: The Commission elects to accept the bid of Babler Brothers, Inc., Portland, in the sum of $66,909 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Deschutes County is received and the sum of $15,000 is deposited by the County.

"Construction of reinforced concrete structure and the relocation of 640 feet of county road on the Weaver Overcrossing of Southern Pacific Company Tracks near Myrtle Creek on the Pacific Highway in Douglas County: The Commission elects to accept the bid of A. H. Saxton & Son, Corvallis, in the sum of $89,161.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of a maintenance building at Reedsport in Douglas County: The Commission awarded the contract to the low bidder, Donald W. Thompson, North Bend, at his bid price of $11,676.

"Grading and surfacing Main Street-S. W. 2d Avenue at John Day in Grant County: The only bid which was submitted by Lankford Brothers, Nyssa, was rejected as being too high.

"Construction of Wagner Creek and Bear Creek Bridges on the Valley View Road near Talent in Jackson County: The Commission elects to accept the bid of Columbia Empire Constructors, Inc., and P. S. Lord Mechanical Contractors, Portland, in the sum of $91,258.40 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Jackson County is received and the sum of $20,500 is deposited by the County.

"Grading and paving the Applegate River Section of the Redwood Highway southwest of Grants Pass in Josephine County: The Commission elects to accept the bid of C. R. O'Neil, Pendleton, in the sum of $188,927.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Chiloquin (Klamath Avenue) Paving Project in Klamath County: The Commission awarded the contract to the low bidder, Asphalt Paving Company, Klamath Falls, at their bid price of $7,540.

"Jackson County Line-Keno Rock Production Project on the Green Springs Highway west of Klamath Falls in Klamath County: The Commission awarded the contract to the low bidder, M. C. Lininger & Sons, Medford, at their bid price of $39,040.

"Stone base and oiling Valley Falls and Salt Creek-Lakeview Sections of the Fremont Highway in Lake County: The Commission awarded the contract to the

low bidder, F. L. Somers, Medford, at their bid price of $102,705.

"Paving West Unit, Springfield-Walterville Section of the McKenzie Highway, east from Springfield in Lane County: The Commission awarded the contract to the low bidder, John R. Saxton, Idlewyld Park, at his bid price of $174,272.50.

"Cooks Ranch-Scott Lake Rock Production Project on the McKenzie Highway in the vicinity of Blue River and Belknap Springs in Lane County: The Commission awarded the contract to the low bidder, E. C. Hall Company, Portland, at their bid price of $42,720.

"Stone base and oiling and furnishing crushed material in stockpiles on the Chitwood Creek-Siletz Section of the Siletz Highway in Lincoln County: The Commission elects to accept the bid of Central Paving Company, Independence, in the sum of $76,081 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading and paving Queen Avenue (Albany) Section of the Corvallis-Eastside Highway in Albany, Linn County: The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at their bid price of $60,926.30.

"Construction of a concrete bridge over Abiqua Creek on Meridian Road between Monitor and Silverton in Marion County: The Commission elects to accept the bid of Concrete Structures, Portland, in the sum of $19,975 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Marion County is received and the sum of $4,500 is deposited by the County.

"Construction of a concrete bridge over the Nehalem River on Miami Valley Road near Mohler in Tillamook County: The Commission elects to accept the bid of Columbia Empire Constructors, Inc. and P. S. Lord Mechanical Contractors, Portland, in the sum of $115,321 and directs the State Highway Engineer to award the contract to said bidder as soon as right of way is cleared.

"Emigrant Hill Guardrail and Snow Fence Project on the Old Oregon Trail Highway, east of Pendleton, in Umatilla County: The Commission awarded the contract to the low bidder, George E. Berry, Beaverton, at his bid price of $133,970.

"Union (Warren and Dearborn Streets) Grading and paving project in Union County: The Commission elects to accept the bid of Russell Olson Construction Company, Inc., Pendleton, in the sum of $16,951.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Union is received and the sum of $4,470 is deposited by the City."

An inquiry was made by Commissioner Reynolds if construction of off-ramps on the Banfield Expressway would hold up construction of the Express-

way proper. The Engineer replied that in his opinion, it would not and that it was planned to have the Expressway open to 42d Avenue this fall.

At the suggestion of Commissioner Reynolds, the Commission authorized an increase in the allotment for the La Grande truck route from $25,000 to $46,000.

The Commission signed the following agreements and other papers:

"Consent" re consent to vacate public street situate between the old and new locations of the Columbia River Highway near Rowena, Wasco County.

"Bargain and Sale Deed" re sale to Mr. and Mrs. Roscoe Hopper 1.54 acres of excess right of way on Jefferson County Line-Prineville Section of Madras-Prineville Secondary Highway, Crook County.

"Bargain and Sale Deed" re sale to Mr. and Mrs. Edward Blondell 0.4 acre of right of way on Deady-Shady Section of Pacific Highway, Douglas County.

"Land Use Permit" with Union Oil Company, granting permission to occupy portion of right of way on Beaverton-Hillsdale Highway.

"Agreement" with City of Corvallis re payment of $45,000 toward the acquisition of Corvallis Lumber Company property and the City of Corvallis to pay the difference.

"Throughway Agreement" with Douglas County covering the Weaver Overcrossing Structure on the Pacific Highway in Douglas County.

"Special City Allotment Projects" in the Cities of Milton-Freewater, Toledo, and Union.

"Finance & Maintenance Agreements" with Tillamook County covering the Nehalem River Bridge on FAS 615.

"Finance & Maintenance Agreements" with Baker County covering the Forest Boundary-Halfway Section of FAS 512.

"Finance & Maintenance Agreements" with Clatsop County covering the Miles Crossing-Lewis and Clark River Section and Cooks Slough Section of FAS 608 and 571 respectively in Clatsop County.

"Finance & Maintenance Agreements"

1. Clackamas County-Park Avenue-Gladstone Section of Oatfield Road.

2. Deschutes County-Atkinson & Euston Roads, Camp Polk Road, Plainview Road, Old Lower Bridge Road.

3. Jackson County-Wagner Creek Culvert and Bear Creek Bridge.

4. Marion County-Abiqua Bridge, Turner-Aumsville Section, Pen Annex Section, and two bridges over Mill Creek.

5. Polk County-Luckiamute River Section of Burns Corner-Suver Road.

"Release Agreement" with Union Pacific Railroad Company covering settlement of $54,905.63, being 50 percent of the Railroad Company's claim for damages to railroad facilities resulting from a slide between Cascade Locks and Wyeth.

"Agreement" with Longview Fibre Company covering a road crossing by the Company across the Van Duzer Corridor in Tillamook County.

"Agreement" with the City of Albany covering the improvement and widening of Queen Avenue in the City of Albany.

"Renewal of Lease" with the City of Tualatin covering land lying in the Southwest quarter (SW$\frac{1}{4}$) of Section 24, Township 2 South, Range 1 West, W. M., Washington County, containing 1.0 acre. This lease covering a period from May 16, 1955 for, during and until May 15, 1958.

"Agreement" with Nellie L. Fromm covering Modification of Judgment and Indenture of Access to her property on the Oregon Coast Highway at Highway Engineer's center line Station 395+10.

The meeting adjourned at 4:30 p.m. to reconvene the next morning at 9:00 a.m.

Portland, Oregon
May 26, 1955

The meeting of the State Highway Commission resumed at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Charles H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. May, Jr., Assistant Counsel

R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids for construction projects as follows were opened and read aloud by the Secretary who then announced that awards of contracts would be made at 3:45 p.m. in the same room:

PINE CREEK ROAD IN BAKER COUNTY
STONE BASE AND OILING

N. A. Toole Construction Company, Ontario	$ 55,014.00
H. G. Johnson, Portland *	60,294.50
Arthur Simonsen & Company, Baker	61,732.00

* Bidder will accept award of only one project.

WASHINGTON COUNTY
TUALATIN VALLEY HIGHWAY GRADING AND SHOULDER PAVING

Porter W. Yett, Portland	$ 4,040.00
Oregon Asphaltic Paving Company, Portland	4,515.00

The Commission discussed the Engineer's reports on the completed surveys concerning which public hearings were held in Sheridan, Rickreall, and Dayton on May 24, 1955, as follows:

1. Salmon River Highway between a point approximately one mile east of Sheridan to Valley Junction, by-passing the cities of Sheridan and Willamina, Yamhill County.

2. Dolph Corner-Rickreall Section of the Willamina-Salem Highway, Polk County.

3. McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway, by-passing the city of Dayton, Yamhill County.

In connection therewith, the Commission gave consideration to arguments presented at the hearings by local groups. The Engineer recommended adoption of all three surveys as reported and that authority be granted to the Right of Way Department to proceed with negotiations for right of way. He pointed out that the Commission on November 9, 1951 formally adopted the survey for the Dolph Corner-Rickreall project so favorable action by the Commission at this time will simply be confirmation of the action previously taken. As a result of careful consideration of all the facts at hand, the Commission unanimously approved the surveys as recommended and authorized the right of way negotiations. The attached resolutions relative thereto marked EXHIBITS "J-3", "J-4", and "J-5" respectively, which resolutions by this reference are made a part hereof with like effect as though extended in full herein, were thereupon adopted by the Commission by unanimous vote upon motion of Commissioner

Reynolds which was duly seconded by Commissioner McIver. The following statement relative to the action taken was thereupon approved by the Commission and released to the press for immediate publication:

PRESS RELEASE BY THE OREGON STATE HIGHWAY COMMISSION

On May 24, the Oregon State Highway Commission held three public hearings, in accord with federal law, to obtain first-hand information about the proposed locations of state highways in the vicinity of Sheridan and Willamina, McMinnville and Dayton, Dallas and Rickreall. After listening to the evidence presented at the hearings and studying the engineering and economic data presented by the Engineering Staff, the Commission today made a decision with relation to the location of each of the projects.

With respect to the location of Oregon 18 near Sheridan and Willamina, the Commission decided on the selection of a direct line from a point about one mile east of Sheridan to a point near Wallace Bridge, by-passing the towns of Sheridan and Willamina, for the following reasons:

1. The bulk of the traffic has no reason to go through these towns and such movements cause this traffic an additional expense and loss of time as well as cause traffic congestion at peak-hour periods in each town.

2. It is the considered opinion of the Commission, based upon observation of by-passes of towns in Oregon as well as studies made elsewhere in the nation, that neither Sheridan nor Willamina will be handicapped to any serious degree by the loss of this traffic. On the other hand, the major monetary benefits to the road users, who after all pay for the highway, will be material by the building of the by-pass line. The present highway through Sheridan and Willamina will be maintained in satisfactory condition by the State Highway Commission to afford road service to these towns. In fact, at the present time the street in the town of Willamina is being widened by the State Highway Department.

3. By using the by-pass line, access to the highway can be controlled which protects the public investment and materially reduces accidents, with resultant property damage and loss of life.

The by-pass at Dayton was selected to provide for present and future traffic on a controlled access basis on a portion of a route which, when completed, will save three miles for north and south traffic on US 99W and reduce potential traffic hazards and congestion that would develop in Dayton's main street.

The Rickreall-Dolph Corner route of the Salem coast highway was selected after a careful engineering and economic analysis of various routes, some of which have been under investigation since 1950. The Commission feels that the route between Rickreall and Dolph Corner will give the road users the route that will provide them with the greatest monetary benefits.

May 26, 1955

The Commission feels keenly the need for building a road system not merely for today but for tomorrow so as to encourage and not to retard the growth of Oregon's economy which is so dependent upon motor transport in the movement of goods and services. Moreover, the Commission believes that, where possible, controlled access should be used to preserve the public investment in roads and to reduce accidents which cause loss of life and damage to property.

To this end, the Commission believes that it is better not to build a road at all than to fail to recognize the growth of traffic, the need to encourage the economy of Oregon by the reduction in the cost of movement of goods and services and the control of access to preserve the public investment and to prevent accidents. Attention is called to the fact that with controlled access no new business can develop alongside the proposed by-pass so that traffic must turn off and go into the town to secure service. As a result the private investment in the by-passed cities and towns will not be damaged by competition with new business alongside the new highway. The Commission's action is based upon engineering and economic facts and it believes that its selection will give the greatest benefit to the greatest number of people at the lowest cost.

The Commission approved and signed the following letter directed to the District Engineer of the Bureau of Public Roads requesting approval of the addition of the Dolph Corner-Rickreall Section to the Federal-aid highway system:

May 26, 1955

Mr. C. G. Polk
District Engineer
Bureau of Public Roads
State Highway Building
Salem, Oregon

Dear Sir:

The State Highway Commission proposes now to add to the Federal-aid Primary Highway System in Oregon a route connecting the Pacific Highway East (F. A. Route 3) at Salem with the Salmon River Highway (F. A. Route 11) near Willamina, the general location of the route to be as indicated on the accompanying small scale map.

The proposed route has a length of 26.2 miles and carries an average daily traffic ranging from 6,800 immediately west of Salem to 1,500 at the Willamina end. It has become important during recent years as a part of a through connection from Salem to the Oregon Coast Highway and the ocean beaches.

For 21.77 miles, the route traverses existing improved roads. The remaining 4.43 miles are new location.

The following is suggested as a suitable description for the proposed designation:

> Route 47. From a point on Federal-aid primary route 11 southwest of Willamina to a point on Federal-aid primary route 3 at Salem.

Official approval of this proposed addition to the Federal-aid primary system is requested and will be appreciated.

Requests for changes in the Federal-aid secondary system to eliminate the overlapping of systems which this addition to the primary system will entail, will be submitted if and when the addition has your approval.

Oregon State Highway Commission

By /s/ Ben R. Chandler
As Chairman

By /s/ Chas. H. Reynolds
As Commissioner

By /s/ M. K. McIver
As Commissioner

The Commission discussed, approved, and signed an agreement with the city of Corvallis providing for the purchase of property from the Corvallis Lumber Company that is needed for a proposed future improvement of US 99W through this city, the agreement having been revised by the Chief Counsel in conformity with instructions given by the Commission on the previous day.

A delegation representing the Chambers of Commerce of Jackson, Josephine, Klamath, and Lake Counties came before the Commission concerning construction of a new highway between Klamath Falls and Medford via Lake of the Woods. The following people were present: Messrs. Paul Rynning, Chairman of the Highway Committee of the Chamber of Commerce, Medford; Charles McLean, Chairman of the Highway Committee of the Chamber of Commerce; Grants Pass; Francis Landrum, Chairman of the Highway Committee of the Chamber of Commerce, Klamath Falls; and John R. Howard, Director of Roads and Highways, Chamber of Commerce, Klamath Falls. Mr. Paul Rynning acted as spokesman and asked the Commission to conduct a resurvey for this route on secondary standards as it was his feeling that such standards would be sufficient

to take care of the traffic needs. He presented to the Commission a statement pointing out the advantages of this highway. He also pointed out that this is the only secondary road improvement that has been requested by Jackson County, and is not a new request. Mr. McLean stated that Josephine County is 100 per cent in favor of the new road. Mr. Landrum stated that the people of Klamath Falls are much in favor of the proposed construction and asked that the Commission make a reexamination of the proposed route which would be a much better facility than the Green Springs Highway. Mr. Howard stated briefly that the Counties of Jackson, Josephine, Klamath and Lake are all in favor of the proposed construction. Mr. Rynning commented that it appeared more feasible to construct the highway they have requested than to improve the Green Springs Highway. Chairman Chandler stated that the Commission would give careful consideration to the evidence submitted by the delegation, but it now appears that construction of this highway would probably have a very low priority.

Mr. Mel Davidson, Mayor of The Dalles; Mr. Virgil Kelly, Councilman; Mr. Joe McNutt, President of the Chamber of Commerce; Mr. Arthur Thresher, Manager, Pacific Power & Light Co.; Mr. Ed Chamber with the Harney Aluminum Co., and Mr. Rupert Kennedy, Chairman of the Highway Committee, The Dalles Chamber of Commerce, all of The Dalles, came before the Commission to urge realignment of US197 from The Dalles south to Eight Mile Creek. Mr. Kennedy who acted as spokesman for the delegation introduced the other members and stated that they were very much interested in securing a relocated highway section from The Dalles south to Eight Mile Creek. He pointed out that the new bridge across the Columbia and the dam provide a great tourist attraction. Mr. Davidson called attention to the great economic value to the traveling public and to the City of The Dalles by construction of the new highway section. Mr. McNutt stated that now that the dam and the bridge have been constructed, better access to them is needed from the south. Mr. Kennedy asked that an allocation be made for this improvement when anticipated additional Federal funds are available. Mr. Davidson called attention to the fact that the existing highway is too crooked for many large trucks to travel. Chairman Chandler advised the delegation that although the Commission recognizes that the project is important, there are no funds available for the improvement at this time.

A delegation representing the US Highway 20 Association came before the Commission to request improvement of the Albany-Corvallis Highway between Albany and Corvallis, and construction of a $2\frac{1}{2}$-mile section of four-lane pavement south of Lebanon from the end of the existing four-lane section to Sodaville Junction. The following people were present: Messrs. Kurt Kiesow and Frank Updike, Directors of US 20 Association, Toledo; James Howes, Secretary, US 20 Association, Newport; Robert Sipe, Director of US 20 Association, Albany; Don Donahue, Manager, Chamber of Commerce, Albany; McKenzie Alexander, Manager, Chamber of Commerce, Lebanon, and Fred Spores, Director of US 20 Association, Lebanon. Mr. Sipe who acted as spokesman pointed out that in promotion of developments on Highway 20, they had previously asked for a survey over Pioneer Mountain east of Toledo which is just now under way, and

the next points in their program consists of construction of a high level road between Albany and Corvallis to avoid flooding, and widening of the Santiam Highway east of Albany. He asked that a survey be made between Albany and Corvallis. Mr. Spores thanked the Commission for improvements made in and in the vicinity of Lebanon. He pointed out, however, that the traffic volume south of Lebanon is very high, and requested extension of the four-lane section from the south limits of Lebanon to Sodaville Junction.

Chairman Chandler stated that although these are worthy projects, the Commission has other problems in the same area, and he pointed out that some groups are interested in improving US99W rather than improving the Albany-Corvallis Highway. Following departure of the delegation, the matter was discussed briefly, and the Commission authorized a reconnaissance survey for the Albany-Corvallis Highway.

Mr. W. R. Whittenburg and Mr. Q. L. Rufener came before the Commission to request additional compensation arising out of their contract No. 4273 for construction on the Beals Corner-Dougherty Corner Section of the Woodworth County Road in Hood River County. Mr. Whittenburg pointed out that because of changes in the plans, the amount of excavation had been more than tripled, and also he felt that his request to use an alternate borrow pit had been refused arbitrarily. He asked compensation for the additional material on the basis of his actual cost. After some further discussion Chairman Chandler informed the contractors that the Commission feels that the quantities as shown in the contract should be paid for at the bid price, but compensation should be made for additional material on the basis of the contractors' actual cost. The Engineer stated that if the contractors would come to the office in Salem, a fair settlement would be arranged.

The Chief Counsel brought up the matter of hearings in connection with the case before the Supreme Court in Washington to test the validity of the contract and the bonds to be issued for construction of a second interstate bridge between Portland and Vancouver. The Washington bond Attorneys, he stated, are cautious and have requested Governor Patterson of Oregon to sign an affidavit and also a petition, and that a writ of mandate be signed by the Oregon Highway Commission. He recommended that the Commission adopt a resolution authorizing signing of the writ of mandate. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "C-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

At the request of the Chief Counsel the Highway Commission directed that for a period of one year the Commission would depart from its policy of requiring the use of local counsel in all jury cases, and instead authorized the Chief Counsel to use local counsel in such cases and to such extent as he deems to be in the best interest of the state.

A delegation representing the Reedsport Chamber of Commerce appeared before the Commission to urge improvement of the Umpqua Highway and the Elkton-Sutherlin Secondary Highway. The following people were

present: O. H. Hinsdale, Chairman, Roads, Lower Umpqua Chamber of Commerce, Roy Henderson, Mayor; Tom Lillebo, Contractor, all of Reedsport; Percy Croft, Chamber of Commerce, and Elmer Metzger, Douglas County Court, both of Roseburg; Ernest Seaton, Chamber of Commerce, Drain; Bob Hanson, President, Umpqua Improvement Association, Hugh McKinley, City Manager, and Russell J. Hubbard, farmer, all of Sutherlin. Mr. Hinsdale acted as spokesman and introduced the other members of the delegation. He requested improvement of the Umpqua Highway, particularly east of Scottsburg, and completion of the reconstruction of the Elkton-Sutherlin Highway. Chairman Chandler pointed out that considerable improvements have been made on both highways in the last few years, and present plans contemplate improvement of the Umpqua Highway as far east as Scottsburg. Also it is planned to reconstruct a three or four mile section on the Elkton-Sutherlin Highway in 1955. He also called attention to the fact that people in Roseburg and Coquille are very much interested in securing an improved route between these two Cities. Mr. Percy Croft commented that although Roseburg is interested in securing a better route to the coast, they are also in favor of improving the Umpqua Highway and the Elkton-Sutherlin Highway. Mr. Hinsdale pointed out that improvements are becoming necessary in that increasing sales of O & C timber lands are being made which involve hauling of logs on both highways. Mr. Hansen called attention to the formation of the Umpqua Improvement Association whose purpose is to unite various groups and actions to bring in outside industry. They have hopes of improving the harbor in Reedsport. In response to an inquiry by Mr. Hinsdale concerning the availability of Federal funds for these projects, Chairman Chandler stated that although the Commission does not know what Congress will do and consequently can make no plans for the use of extra Federal funds, it was his feeling that funds provided would probably be mostly for highways on the interstate system.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. in the same place with the same persons present and participating.

A delegation from the City of Dallas came before the Commission concerning improvement of the highway between Salem and Dallas. The following people were present: Mr. Hollis Smith, Mayor; Mr. Otto B. Adolf, President, Chamber of Commerce; Mr. Lynn McCulley, City Auditor, and Mr. C. L. Marsters, City Attorney. Mayor Smith acted as spokesman and introduced the other members of the delegation. He presented a resolution adopted by the City Council of the City of Dallas, urging immediate improvement of the Salem-Dallas Highway and construction of an access road from Dallas to the Dolph Corner-Rickreall Section when this new section is constructed. He also presented a resolution from the Dallas Chamber of Commerce, a resolution from the Dallas Junior Chamber of Commerce, a resolution from the Dallas Lions Club, a resolution from the Dallas Rotary Club, a letter from Gerlinger Carrier Co., and a letter from the Willamette Valley Lumber Company, all endorsing these same improvements. He also called attention to plans for construction of a new mill in Dallas which will employ a considerable number of people many of whom will travel the Salem-Dallas Road.

Chairman Chandler stated that the Commission today had adopted the survey for relocation of the section of the Willamina-Salem Highway between Rickreall and Dolph Corner and that to complete this section of the road would take all the available funds for this area for several years. Improvement of the present road, he stated, is a question of money and there is none now available.

Mr. R. E. Koozer, Ashland City Councilman and Chairman of the Highway Committee of the Chamber of Commerce, and Mr. Harry Morris, Chairman of the Ashland City Council, appeared before the Commission concerning construction of a highway between Medford and Klamath Falls via Lake of the Woods. Mr. Koozer stated that the City of Ashland wishes to protest the building of this road via Lake of the Woods if it is on a primary highway standard. People in the Ashland area, he stated, are interested in the improvement of or relocation of the Green Springs Highway and he asked that this matter be given early consideration. Mr. Morris stated that he could see no particular reason for constructing the Lake of the Woods Highway and that in his opinion any money available should be spent on improving the Green Springs Highway.

Chairman Chandler stated that at the present time there are no plans for improvement of either one of the roads and that he anticipated it would be some considerable time before any work is undertaken.

A delegation from Astoria, Warrenton, Seaside and Portland came before the Commission regarding reconstruction of the Oregon Coast Highway between Astoria and Seaside. The following people were present: Messrs. Robert Lovell, President, Chamber of Commerce, Astoria; Chas. DeFoe, Secretary, Chamber of Commerce; Dan Thiel, Highway Chairman, Chamber of Commerce, Dr. John Rankin, Citizen; Messrs. William Larson; Clarence Singleton; Nick Kussman, Paul Hein, all citizens of Astoria; E.R. Baldwin, City Manager, Warrenton, Dale Sanders, Seaside, and Francis E. Harrington, Attorney, Clatsop County, Motel Association, Portland. Mr. Lovell acted as spokesman and introduced the other members of the delegation. He pointed out that the present highway between the two cities of Astoria and Seaside is obsolete and during periods of the day is badly congested with traffic. He commented that there is a difference of opinion within Clatsop County as to the route that should be used when the highway is reconstructed but it was not his intention at this time to make any recommendation as to which route should be used, but this expression of opinion would come at a later date. He added that a decision in Clatsop County has been delayed due to a high school bond issue and also due to the findings concerning feasibility of a bridge across the Columbia River at Astoria.

Chairman Chandler stated that a careful study had been made concerning various highway locations between Astoria and Seaside and the Commission was about ready to make up its mind on the matter as soon as the communities involved can reach a decision. Commissioner Reynolds inquired of the delegation if they had any objection to the work starting at the Seaside end. Mr. Lovell stated that he thought they could obtain an expression of opinion from the people who were concerned within 90 days. Another mem-

ber of the delegation pointed out that traffic congestion is extremely bad at Miles Crossing and it was his feeling that the Highway Engineer should select the route which would best serve the public as there is considerable difference of opinion locally as to the advantages of one route over the other.

Mr. Harrington stated that he represented the Motel Association in Seaside and they favored the Lewis and Clark Valley route, but before any decision is made in the matter he stated that the Seaside people would like to be heard. Mr. Larson pointed out that the existing bridges are narrow and act as bottlenecks and that a new highway should be constructed for four-lanes of traffic. It was his feeling that the Lewis and Clark Valley route was best. Mr. Baldwin, Warrenton City Manager, stated that they hoped to be able to present their views within 90 days, but it was his feeling that the Smith Point route would be a better one. Chairman Chandler concluded the interview by stating that no decision would be made in the meeting today and the Commission would wait for some expression from the communities involved.

US Highway 126 Association came before the Commission to request an extension of US126 from Eugene to Florence via the Eugene-Richardson Secondary Highway. The following people were present: Messrs. Jack Larson, Chairman, Highway Committee of Chamber of Commerce; Hartley Kneeland, Chairman, Springfield Greeters Club of Chamber of Commerce; Robert Straub, Lane County Commissioner; Ersel Zimmerman, Greeters Club of Chamber of Commerce and Springfield Realty Board, all of Springfield; Velma Kepler, Business and Professional Women's Club and Greeters Club, Springfield; Messrs. Virgil Estes, Businessmen's Association, Glenwood; Don Houghton, Chamber of Commerce, Florence; Richard Apling, President of Highway 126 Association, Vida; Willis Brewster, Treasurer of Highway 126 Association, McKenzie Bridge; Mrs. Willis Brewster, Assistant Postmaster, McKenzie Bridge, and Mrs. Ruth Mills, Secretary, Highway 126 Association, Leeburg. Mr. Larson, who headed the delegation, introduced Mr. Richard Apling. Mr. Apling stated that the Association felt that the Highway should be extended to the coast from Eugene. He also requested an early opening for the McKenzie Pass Section of the McKenzie Highway. It was his feeling that the Highway Department had not made an adequate snow survey and that two shifts should be placed in operation to open the highway at an early date. Mr. Kneeland pointed out that a great many people who live in the McKenzie Valley and those in Springfield and Eugene benefit by having the McKenzie Highway open as soon as possible.

Chairman Chandler requested the Engineer to explain to the delegation about extension of US Route 126. The Engineer pointed out that, before any highway can be designated as a U.S. Route, it must be constructed to certain required standards, including paving. As the highway from Eugene west has not been constructed to these standards, there is no possibility of its being assigned a U.S. highway route number; also, the road is not included as a part of the state highway system.

Mr. Kneeland then inquired as to why other states seemed to have their mountain passes opened earlier than in Oregon. Chairman Chandler stated that on the McKenzie Pass there are a number of deep cuts which cannot be opened until the snow has melted to a certain depth. He commented that as soon as the road via Clear Lake and Belknap Springs is constructed there will then be a year-round route over the Cascades via Hoag Pass on the Santiam Highway. Mr. F. E. Andrews of the Bureau of Public Roads, who was present, pointed out that construction of the road via Clear Lake has been delayed because of Linn County's failure to sign an agreement to maintain the section of road in Linn County after it has been constructed. It seems, he stated, that Linn County feels that the timber hauled out over the road would go into the Lane County area. He suggested that if the delegation desired early completion of the road, they try to get the Linn County Court to cooperate.

Concerning the amount of snow in the McKenzie Pass, the Engineer stated that a snow survey has been made and that there is much more snow on the summit than there was last year. He also stated that it will take about 20 days to open the Pass after plowing operations begin. Chairman Chandler stated that the Pass would be opened as soon as possible.

A group of people from Oswego, Milwaukie, Oregon City, and Portland came before the Commission concerning construction of a new bridge across the Willamette River between Oswego and Oak Grove. State Senator Monroe Sweetland, who acted as spokesman, called attention to the heavy population living in these two areas, amounting to some 50,000 to 60,000 people. He asked the Commission to take preliminary steps to get the bridge started, including a survey for location and other details. Mr. Stidd stated that the City of Oswego is vitally interested in and much in favor of the proposed bridge. Mr. Crampton stated that all service and community clubs that he knew of in the area endorsed the bridge. Mr. Fleming of Oak Grove, stated that his community was also in favor of the bridge. Mr. Jones, Clackamas County Commissioner, and Mr. Wallace Telford, Clackamas County Judge, stated that the County Court is also in favor of the bridge and asked that a survey be made.

Chairman Chandler stated that the project had been brought to the Commission's attention in the past but no specific action had been taken. He called attention to the fact that a survey is now being made of the Portland area to determine traffic needs for the next 20 years but the amount of work involved in this survey is great and it is not known when the report will be ready. Senator Sweetland inquired if the report would be made available to interested parties, to which the Engineer replied that it was planned to prepare a preliminary report and give it to those who are interested for their comments and criticism.

Mr. T. R. Williams, Manager of the Astoria Navigation Company, came before the Commission regarding additional payment for extra expenses incurred by the Navigation Company in compliance with the Coast Guard's recent ruling requiring extra pilots in connection with the Astoria

ferry operation. He stated that the Coast Guard seem to have difficulty in making up their minds on how many crewmen are required on the ferries, and they now say that the Tourist No. 2 and Tourist No. 3 Ferries need additional pilots and that the deck hands can be reduced. It was his thought that the bid submitted for operation of the ferries did not include additional crew personnel. He offered the suggestion that more strenuous objections should be offered when the Coast Guard made similar requests. He also called attention to the fact that the labor unions involved are protesting the laying off of the deck hands and that the matter is now under arbitration and, if the Board of Arbitration decides against the Company, he would be back before the Commission again. He stated that the outcome of the arbitration should be known by June 10 or thereabouts and that it was agreeable to him to defer action until that time. After some further discussion, the Commission deferred action on the matter until the outcome of the arbitration has been determined.

The Commission discussed with the Engineer bids received at the morning session, and at 3:45 p.m., Commissioner McIver announced awards of contracts as follows:

"Stone base and oiling Forest Boundary-Halfway Section of the Pine Creek Road east of Baker in Baker County: The Commission elects to accept the bid of N. A. Toole Construction Co., Ontario, in the sum of $55,014 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Baker County is received and the sum of $12,350 is deposited by the County.

"Stone base and paving Cannon Beach (Second Street-First Street) Section of the Oregon Coast Highway (Alternate Route) in Clatsop County: The Commission elects to accept the bid of United Contracting Co., Portland, in the sum of $10,851.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading and oiling Deschutes River Section of the McKenzie Highway west of Redmond in Deschutes County: The Commission elects to accept the bid of Durbin Brothers, Eugene, in the sum of $159,941 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Umatilla County Line-Long Creek Rock Production Project on the Pendleton-John Day Highway in Grant and Umatilla Counties: The Commission awarded the contract to the only bidder, E. H. Itschner Co., Molalla, at their bid price of $34,340.

"Buchanan-Stinking Water Mountain Guardrail Project on the Central Oregon Highway east of Burns in Harney County: The Commission awarded the contract to the low bidder, Vern Hoaglin, Beaverton, at his bid price of $3,360.

"Expansion of existing overnight camping facilities in Beverly Beach State Park south of Depoe Bay on the Oregon Coast Highway in Lincoln County: The Commission awarded the contract to the low bidder, Petersen Construction Co., Florence, at their bid price of $19, 911.12.

"Toledo ("A" Street) Paving Project in Lincoln County: The Commission awarded the contract to the low bidder, Western Paving & Construction Co., Albany, at their bid price of $9,921.

"Oiling, etc. Rome-Maintenance Station Section of the I.O.N. and Crane-Scotts Butte Highways in Malheur County: The Commission awarded the contract to the low bidder, N. A. Toole Construction Co., Ontario, at their bid price of $69,899.

"Grading and paving Turner-Aumsville Section of the Salem-Turner-Aumsville Road, southeast of Salem in Marion County: The Commission elects to accept the bid of Warren Northwest, Inc., in the sum of $65,660 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Marion County is received and the sum of $14,800 is deposited by the County.

"Construction of Mill Creek and Pen Annex Bridges in Marion County: The Commission elects to accept the bid of Tom Lillebo, Reedsport, in the sum of $61,484 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Marion County is received and the sum of $13,800 is deposited by the County.

"Illumination installations at Hubbard, Woodburn and Hayesville Interchanges on the Portland-Salem Expressway in Marion County: The Commission awarded the contract to the low bidder, Electric Corp., Salem, at their bid price of $29,180.

"Grade widening and paving Killingsworth Street-Sandy Boulevard Section of the Cascade Highway (N.E. 82nd Ave.), in Portland in Multnomah County: The Commission awarded the contract to the low bidder, Parker-Schram Co., Portland, at their bid price of $93,338.60.

"Construction of reinforced concrete and structural steel connecting ramp between east end of Ross Island Bridge and McLoughlin Boulevard on Pacific Highway East in Portland, Multnomah County: The Commission elects to accept the bid of Manson Construction & Engineering Co., Seattle, Washington, in the sum of $419,580 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received and $245,850 is deposited by Multnomah County.

"Construction of a bridge over Luckiamute River on the Burns Corner-Suver Road; also construction of 0.20 mile of highway roadbed in Polk County: The Commission elects to accept the bid of Tom Lillebo, Reedsport, in the sum of $70,530 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Polk County is received and the sum of $15,800 is deposited by the County.

"Milton-Freewater (South Main Street & S.E. 15th Avenue) Paving Project in Umatilla County: The Commission elects to accept the bid of Morrison & Lamping, Milton-Freewater, in the sum of $15,666 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Milton-Freewater is received and the sum of $3,100 is deposited by the City.

"Grading and stone base on Glover Overcrossing-Orodell Overcrossing Approaches on the Old Oregon Trail Highway northwest of La Grande in Union County: The Commission awarded the contract to the low bidder, La Grande Concrete Pipe Co., Island City, at their bid price of $17,494.

"Grading and oiling Wallowa Lake Lodge-Power House Section of the Joseph-Wallowa Lake Highway south of Enterprise; also bridge construction and furnishing crushed materials in stock piles, in Wallowa County: The Commission awarded the contract to the low bidder, Morrison & Lamping, Milton-Freewater, at their bid price of $55,225.

"Dillon-Rufus Guardrail Project on the Columbia River Highway east of The Dalles in Wasco and Sherman Counties: The Commission awarded the contract to the low bidder, Hutton-Kalkhoven, Portland, at their bid price of $80,680.

"Intermittent grading and paving of shoulders of roadbed on the Beaverton Section of the Tualatin Valley Highway in Washington County: The Commission awarded the contract to the low bidder, Porter W. Yett, Portland, at his bid price of $4,040."

The State Parks Superintendent stated that he had talked to Mr. Ruby, who is a member of the Columbia Gorge Commission, and Mr. Ruby had stated that there are eight areas which should be considered for acquisition. He requested authority to investigate these areas and to present a report on them to the Commission. The authority was granted as requested, subject to the condition that the Columbia Gorge Commission shall submit its request in writing.

There being no further business to come before the Commission, the meeting adjourned at 4:10 p.m.

Minutes of

May 25 and 26, 1955

EXHIBIT "A"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

UNIT 2 - T. H. BANFIELD EXPRESSWAY

22934 - White, Floyd W. et al (Grant)
Right of Way and Slope Easement
Option expires October 25, 1955

380 sq. ft. at $0.20 per sq. ft.	$ 76.00	
Easement, 576 sq. ft. and Damage to remainder	924.00	
Amount to be paid owners - chrg to Right of Way		$ 1,000.00

Grantor to remove plants, trees, flowers and shrubs by June 1 or they become State property.

Access completely restricted to Banfield Expressway. Grantors' present access to 31st Street reserved.

Access controlled - none allowed -

EXHIBIT "B-1"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land in Jackson County, Oregon lying along adjacent to the Pacific Highway described as follows:

A parcel of land lying in water lots 23, 24 and 25 of Phoenix, situated in Section 9, township 38 south, range 1 west, W. M., Jackson County, Oregon, and being a portion of that property conveyed by that deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 369, Page 388, of Jackson County Record of Deeds. The said parcel being described as follows:

Beginning at the most Easterly corner of said Lot 24; thence northwesterly along the northeasterly lines of lots 24 and 25 to the most northerly corner of said lot 25; thence southwesterly 220 feet more or less along the northwesterly line of said lot 25 to a line which is parallel to and 50 feet northeasterly of the relocated center line of the Pacific Highway which center line is hereinafter described; thence southeasterly along said parallel line to the center line of said lot 23; thence northeasterly along the center line of said lot 23 to a point which is 274.42 feet northeasterly of the intersection of said center line of lot 23 with the northeasterly line of Main Street; thence along the boundaries of said State property, north 49° West 30.67 feet and north 53° east 20 feet more or less to the point of beginning.

The relocated center line of the Pacific Highway above referred to is described as follows:

Beginning at Engineer's center line Station 358+47.26, said Station being 141.77 feet north and 3178.56 feet west of the southwest corner of dlc No. 82, said township and range; thence on a spiral curve right (the long cord of which bears north 67° 01' 55" west) 200 feet; thence on a 954.93 foot radius curve right (the long cord of which bears north 52° 31' 40" west) 350.14 feet to Station 363+97.4. The parcel of land to which this description applies contains 0.72 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

EXHIBIT "B-1" (cont.)

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 140 be entered in the minutes and records of the Commission as of the 25th day of May, 1955.

EXHIBIT "B-2"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land lying along and adjacent to the Sunset Highway described as follows:

A parcel of land lying in the Isaac M. Evans D. L. C. #62 and situated in Section 7, Township 1 North, Range 2 West, W. M., Washington County, Oregon, and being a portion of that tract of land described in those certain deeds to The State of Oregon, by and through its State Highway Commission recorded in Book 207, Page 263, and Book 206, Page 662 of Washington County Records of Deeds; the said parcel being that portion of said D. L. C. #62 lying southerly of a line which is parallel to and 170 feet southerly of the center line of the Sunset Highway, and being more particularly described as follows:

Beginning at the Southwest corner of said D. L. C. #62; thence North 10° 04' West along the Westerly line of said D. L. C. 1550 feet, more or less, to a line which is parallel to and 170 feet southerly of the center line of the Sunset Highway; thence south 61° 50' East parallel to said center line 2600 feet, more or less, to the southerly line of said D. L. C. #62; thence south 81° 25' West along said southerly line 2045 feet, more or less, to the point of beginning, containing 36.5 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $6,550.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.070 Et. Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 141 be entered in the minutes and records of the Commission as of the 25th day of May, 1955.

May 25, 1955

EXHIBIT "B-3"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land lying along and adjacent to the Pacific Highway West described as follows:

A parcel of land lying in the southeast quarter of Section 30, Township 2 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of that property described in that deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 359, Page 646, of Washington County Records of Deeds; the said parcel being that portion of said property lying Northwesterly of a line which is parallel to and 70 feet northwesterly of the center line of the Southbound Lane of the Pacific Highway West as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 425+89.72, said Station being 1296.46 feet North and 1153.32 feet East of the South quarter corner of said Section 30; thence on a 14,323.94 foot radius curve left (the long cord of which bears south 45° 30' 52.5" West) 313.54 feet; thence on a spiral curve left (the long cord of which bears south 44° 21' 15" west) 400 feet; south 44° 05' 15" West 412.6 feet to Station 437+15.86, said center line crossing the northeasterly and southwesterly lines of said property approximately at Station 427+85 and 434+63, respectively, containing 10.7 acres.

A parcel of land lying in the southeast quarter of Section 30, Township 2 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of that property described in that deed to above named, recorded in Book 360, Page 91, of Washington County Records of Deeds; the said parcel being that portion of said property lying northwesterly of a line which is parallel to and 70 feet northwesterly of the center line of the Southbound lane of the Pacific Highway West as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line station 433+03.26, said Station being 790.75 feet north and 650.01 feet East of the south quarter corner of said Section 30; thence south 44° 05' 15" West 412.6 feet; thence on a spiral curve right (the long chord of which bears south 44° 21' 15" West) 400 feet; thence on a 14,323.94 feet radius curve right (the long cord of which bears south 45° 34' 30" West) 343.75 feet to Station 444+59.61, said center line crossing the Northeasterly and Westerly lines of said property approximately at Station 434+63 and 442+41 respectively, containing 6.2 acres.

WHEREAS, after consideration, the Commission finds and declares that

EXHIBIT "B-3" (cont.)

the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $7,230.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.070 Et. Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 142 be entered in the minutes and records of the Commission as of the 25th day of May, 1955.

EXHIBIT "C-1"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the Highway Commission operates a ferry service between Astoria, Oregon and Megler, Washington, to connect the portion of highway US 101 located in Oregon with the portion of said highway located in Washington, and

WHEREAS, the Highway Commission in furnishing said ferry service utilizes three motor vessels, the M. R. Chessman, Tourist No. 3 and Tourist No. 2, and

WHEREAS, the laws of the United States require the registration of said vessels with the Collector of Customs, with annual renewals of said registration, and

WHEREAS, it is cumbersome, inconvenient and burdensome for the Highway Commission to make an annual special trip to the Customs House in Astoria to sign and execute the documents necessary to register the said vessels, and

WHEREAS, it is deemed necessary and in the public interest that the Highway Commission be relieved of the above mentioned burdensome duties, and that the same be delegated to responsible employees of the State Highway Department, as hereinafter set forth,

NOW, THEREFORE, be it and it hereby is resolved by the State Highway Commission as follows:

1. That Mr. R. M. Smith, District Maintenance Superintendent, and Mr. I. A. DeFrance, Assistant Maintenance Engineer, both of whom are employees of the Oregon State Highway Department, are delegated and authorized to sign and execute, either jointly or individually, as the case may be, for and on behalf of the State Highway Commission all documents necessary and required by the Office of Collector of Customs, or any other federal agency for the continued registration of the following motor vessels, the M. R. Chessman, Tourist No. 3, and Tourist No. 2.

2. This resolution supersedes a prior resolution of June 8, 1953 on the same subject and shall be entered in the minutes and records of the Highway Commission on this 25th day of May, 1955.

EXHIBIT "C-2"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the State Highway Commission of the State of Oregon and the State Highway Commission of the State of Washington have determined after extensive study and research of problems pertaining to roads and bridges between the states that there is a critical need for the construction, maintenance and operation of a second interstate bridge, including approaches thereto in both states, across the Columbia River between Portland, Oregon, and Vancouver, Washington, adjacent to the existing interstate bridge and the alteration or reconstruction of said existing bridge, to accomodate the present and ever-increasing volume of traffic between said states; and

WHEREAS, in order to accomplish the above objectives an agreement was entered into under date of August 9, 1954, by and between the State of Oregon, by and through its State Highway Commission, and the State of Washington, by and through its State Highway Commission, and the Washington Toll Bridge Authority and an amended agreement was entered into by and between the same parties under date of April 27, 1955; and

WHEREAS, under the terms and provisions of said agreements the State of Oregon, by and through its State Highway Commission, is obligated to do and perform certain things and to submit itemized statements of the cost and expense of such things to the Washington Toll Bridge Authority and the Authority is obligated to promptly reimburse Oregon for the total amount of each such itemized statement; and

WHEREAS, pursuant to the above agreement an itemized statement has been submitted to the Washington Toll Bridge Authority and demand has been made upon Cliff Yelle as Auditor of the State of Washington for the issuance of a warrant in payment thereof, which demand has been refused by said Auditor; and

WHEREAS, the refusal of the Auditor of the State of Washington to issue said warrant will seriously impair and delay the planning, designing and constr uction of said proposed interstate bridge and the alteration or reconstruction of the existing interstate bridge; and

WHEREAS, it is necessary and desirable that appropriate legal proceedings be instituted to require the Auditor of the State of Washington to issue warrants of the State of Washington in payment of expenditures made by the State of Oregon, by and through its State Highway Commission, under authority of the contracts referred to above; now therefore,

BE IT RESOLVED by this Commission as follows:

1. That the State of Oregon, by and through its State Highway Commission, join with the State of Washington, by and through its State Highway Com-

mission, and the Washington T.[illegible] Bridge Authority in instituting appropriate legal proceedings in the Supreme Court of the State of Washington to require the Auditor of the State of Washington to issue warrants in payment of expenses incurred and disbursements made by said Commission pursuant to said agreement made and entered into between said parties for the construction of a new bridge across the Columbia River and the alteration or reconstruction of the existing bridge across the Columbia River between Portland, Oregon and Vancouver, Washington.

2. That the Honorable Paul L. Patterson, Governor and Ex Officio Chairman of the Oregon State Highway Commission under ORS 381.805, and Ben R. Chandler, Chairman of the Oregon State Highway Commission, be and they hereby are authorized and directed to execute for and on behalf of the Oregon State Highway Commission an "Application for Writ of Mandate", a copy of which application is attached hereto and by this reference made a part hereof.

3. That the Chief Counsel of the Commission be and he hereby is authorized and directed to participate in said legal proceedings and to cooperate with and assist the Washington State Highway Commission and the Washington Toll Bridge Authority and their attorneys in all proceedings attendant upon the filing of said Application for Writ of Mandate.

4. That this resolution be entered in full in the minutes and records of the Commission this 26th day of May, 1955.

EXHIBIT "D"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, pursuant to the provisions of ORS 366.810, there have been by the Oregon State Highway Commission appportioned to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

FUNDS ACCRUED DURING FIRST HALF OF 1954

Gearhart	$ 1,617.37	Weston	$ 1,933.44

FUNDS ACCRUED DURING LAST HALF OF 1954

Arlington	$ 2,412.71	Long Creek	$ 1,012.92
Aumsville	988.30	Lowell	2,043.42
Butte Falls	1,308.35	Malin	2,082.10
Clatskanie	3,168.88	Maupin	1,097.32
Corvallis	57,001.12	Metolius	552.18
Culver	1,058.64	Mt. Vernon	1,586.20
Detroit	963.68	North Powder	1,417.38
Elkton	706.93	Paisley	752.65
Falls City	3,000.06	Phoenix	2,623.73
Gearhart	1,997.69	Sherwood	2,317.75
Harrisburg	3,031.71	Troutdale	1,807.77
Hines	3,228.67	Weston	2,388.09
Imbler	524.04	Yamhill	1,895.70
Cornelius	3,510.03		

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said

EXHIBIT "D" (cont.)

cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 25th day of May, 1955.

EXHIBIT "E"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3853 with Rogers Construction, Inc., for paving on the Boones Ferry Road-Willamette River Unit, Barbur Blvd. -White School Section of the West Portland-Hubbard (Portland-Salem Expressway) Highway in Washington and Clackamas Counties, completed November 30, 1954.

"Contract No. 4169 with George E. Berry for construction of the Malheur River Bridge on the Central Oregon Highway in Malheur County, completed April 29, 1955.

"Contract No. 4199 with C. E. Leseberg for grading and oil mat surfacing on the Hy-Line County Road Section in Malheur County, completed October 29, 1954.

"Contract No. 4201 with F. O. Laws for slope grading on the Modoc Point-Barkley Springs Section of The Dalles-California Highway in Klamath County, completed February 4, 1955.

"Contract No. 4222 with United Pacific Construction, Inc., for construction of park facilities in Wallowa Lake Park in Wallowa County, completed May 3, 1955.

"Contract No. 4251 with George L. Rochat & Son for illumination installation on the Salem By-Pass Section of the Pacific Highway in Marion County, completed May 9, 1955.

"Contract No. 4252 with Charles R. Schmiedeskamp for construction of 74th Avenue Undercrossing on the T. H. Banfield Expressway in Multnomah County, completed May 19, 1955.

"Contract No. 4256 with Witzig Construction Company for installation of traffic signals in the City of Corvallis on the Pacific Highway West in Benton County, completed February 11, 1955.

"Contract No. 4268 with Johnston & Bryant for construction of Woodburn Interchange Undercrossing on the Portland-Salem Expressway, completed May 11, 1955.

"Contract No. 4281 with L. G. Sperling for construction of a maintenance building at Long Creek in Grant County, completed April 12, 1955.

EXHIBIT "E" (cont.)

"Contract No. 4306 with Den Herder & Strobel for construction of facilities and roadway for Honeyman Park camping expansion, completed April 15, 1955.

"Contract No. 4309 with Hutton-Kalkhoven for construction of guardrail on the Big Eddy-Dillon Section of the Columbia River Highway in Wasco County, completed April 27, 1955.

"Contract No. 4310 with A. C. Bubak for fencing on the Big Eddy-Rufus Section of the Columbia River Highway in Wasco and Sherman Counties, completed April 28, 1955.

"Contract No. 4319 with Trowbridge Electric Company for construction of traffic signals at Albany in Linn County, completed April 22, 1955.

"Contract No. 4328 with C & W Crushing Company for grading and oil mat surfacing on the Locust Grove-Mud Hollow Canyon Section of the Fulton Canyon-Wasco County Road in Sherman County, completed May 6, 1955.

"Contract No. 4339 with J. C. Compton Company for furnishing crushed materials in stockpile on the Eagle Point-Lake Creek Section of the Little Butte Highway in Jackson County, completed April 19, 1955.

"Contract No. 4351 with Lind & Marr for construction of McDowell Creek Bridge on County Road No. 1286 in Linn County, completed May 3, 1955.

"Contract No. 4406 with Trussfab, Inc., for construction of guardrail on the Molalla Junction-Marquam Section of the Cascade Highway in Clackamas County, completed May 17, 1955.

THEREFORE BE IT RESOLVED that the work covered by State Highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 42 shall be entered in the minutes and records of the Commission as of the 25th day of May, 1955.

EXHIBIT "F"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the relocated North Corvallis Section of the Pacific Highway West located in Benton County, the southerly terminus of which is at Highway Engineer's Survey Station 0+00 and the northerly terminus of which is at Highway Engineer's Survey Station 138+74.55 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section a portion of the old right of way is no longer needed for state highway purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Benton County and the State Highway Commission entered into an agreement under date of April 22, 1955, relating to the disposition to be made of the portion that may be eliminated, therein and hereinafter referred to as Unit "A"; and

WHEREAS, said agreement provided that Unit "A" would be abandoned by the State Highway Commission as part of the Pacific Highway West and would be maintained thereafter by said County as a county road under the jurisdiction and control of said County; and

WHEREAS, it is the judgement of the Highway Commission that certain portions of the former right of way of the North Corvallis Section of the Pacific Highway West, together with other real property acquired by the State for roadway right of way and other public purposes, as is shown colored in green on the map attached hereto marked Exhibit "A" and by this reference made a part hereof, is needed and valuable for right of way purposes and public use; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the right of way of said highway referred to herein as Unit "A" and effected by reason of the said relocation;

NOW, THEREFORE, based upon the power and authority vested in this Commission by the State of Oregon, IT IS HEREBY ORDERED that the portion or unit of the former right of way, which by reason of the relocation of the said Pacific Highway is no longer within the boundaries of the new right of way, is identified as Unit "A" and described as follows:

Unit "A"

Beginning on the former route of the Pacific Highway West from a line extending westerly at right angles to the centerline of the relocated Pacific Highway West at Highway Engineer's

EXHIBIT "F" (cont.)

Survey Station 123+50 in the northwest quarter of the southwest quarter (NW¼ SW¼) of Section 24, Township 11 South, Range 5 West, W. M.; thence outherly via the former route of the Pacific Highway West to the northerly city boundary of the City of Corvallis in the southwest quarter of the southeast quarter (SW¼ SE¼) of Section 26, Township 11 South, Range 5 West, W. M.

IT IS FURTHER ORDERED that pursuant to the aforesaid agreement, Unit "A" is hereby duly abandoned as part of the Pacific Highway West and the State Highway System and all of the right, title and interest which the State has in the right of way of Unit "A" herein described hereby passes to and vests in the said Benton County.

IT IS FURTHER ORDERED that the right of way of the former and of the relocated North Corvallis Section of the Pacific Highway West, together with the real property acquired by the State for roadway right of way and other public purposes, shown colored in green on Exhibit "A" attached hereto, shall be retained and held by the St ate. *

IT IS FURTHER ORDERED that this Resolution No. 302 be entered in the minutes and records of the Oregon State Highway Commission as of the 25th day of May, 1955, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Benton County.

---

*FOOTNOTE:

The map mentioned in tnis resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 302. under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-1"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the Pacific Highway (US99) is one of the major state primary highways and is likewise a federal highway, which, throughout its entire length, carries a large volume of traffic; and,

WHEREAS, it appears that at the Sutherlin interchange on the Oakland Junction-Deady Section in Douglas County, vehicles, particularly those of lumber and logging industry workers, are parked on both sides of the said highway for extended periods of time; and

WHEREAS, parking of said vehicles on the shoulders of said highway tends to obstruct the view, impairs sight-distance, and creates roadside friction generally to such an extent, that in the opinion of the Highway Commission, an undesirable situation is developing and a hazard is created not only to through traffic but to pedestrians and to the owners and drivers of said parked vehicles; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that the use of the shoulders on either side of said highway within said area for the parking of vehicles should be prohibited.

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff, that the parking of vehicles along either shoulder of the Pacific Highway between Engineers Station 1785+00 and Station 1815+00 creates a hazard not only to through traffic but to pedestrians and to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which, in the opinion of the Commission, should be provided pedestrians and the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs

shall be printed in plain letters the words, "NO PARKING AT ANY TIME".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 128 be entered in the minutes and records of the State Highway Commission as of the 25th day of May, 1955.

EXHIBIT "G-2"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, The Dalles-California Highway No. 4 is a state primary highway and likewise a federal highway which throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that in front of the Blue Spruce Motel on the westerly side of US97, south of Bend, vehicles are parked on the west side of the highway for extended periods of time; and

WHEREAS, the parking of vehicles on the west shoulder of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to the traveling public but to persons entering and leaving said motel; and

WHEREAS, in the opinion of the Commission public travel and public safety require that the use of the shoulder on the west side of said highway within said area for the parking of vehicles should be prohibited.

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff, that the parking of vehicles along the west side of The Dalles-California Highway between M.P. 144.58 (Engineer's Station 1154+68) and M.P. 144.63 (Engineer's Station 1151+90) creates a hazard not only to the traveling public but to persons entering and leaving said Motel.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the west side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words, "NO PARKING ON HIGHWAY SHOULDER".

EXHIBIT "G-2" (cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 129 be entered in the minutes and records of the State Highway Commission as of the 25th day of May, 1955.

EXHIBIT "G-3"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the Pacific Highway is a state primary highway and is likewise a federal highway which throughout its entire length carries a large volume of traffic; and

WHEREAS, it is anticipated that when said highway by-passing Roseburg in Douglas County is opened to traffic that a dangerous traffic situation will result because of shoulder parking on two sections of this highway; namely, south of the South Umpqua River Bridge overlooking the high school athletic field and at the county fairgrounds; and

WHEREAS, the parking of vehicles on the shoulders of the highway at said locations will tend to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a hazardous condition will be created not only to the traveling public but to the owners and drivers of said parked vehicles; and

WHEREAS, in the opinion of the Commission public travel and public safety require that the use of the shoulders on either side of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles along either side of the Pacific Highway between the south end of the South Umpqua River Bridge at M.P. 196.75 (Engineer's Station 2535+00) and M.P. 197.01 (Engineer's Station 2549+00) and between M.P. 197.69 (Engineer's Station 2585+00) and M.P. 198.92 (Engineer's Station 2650+00) will create a hazard to the traveling public and to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided pedestrians and the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of the right of way of said highway within said termini shall be prohibited.

4. That the State Highway Engineer be and he hereby is instructed

to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 130 be entered in the minutes and records of the State Highway Commission as of the 25th day of May, 1955.

EXHIBIT "H-1"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: JUNCTION CITY-EUGENE HIGHWAY

Highway number 223 Route number

M. P. 9.36	(Ferndale Drive)	to	M.P. 9.65 (Azalea Drive)	40 M.P.H.
M. P. 9.65	(Azalea Drive)	to	M.P. 12.65 (north city limits of Eugene)	30 M.P.H.

EXCEPT BETWEEN

M. P. 9.69 and M.P. 9.88 at Santa Clara School and between M.P. 11.48 and M.P. 11.74 (River Road School), the indicated speed shall be 20

miles per hour during the hours of school crossings, as per the provisions of Subsection 1. a., of ORS 483. 104.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous orders heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein, particularly Speed Limit Resolution No. 11, adopted by the State Highway Commission on May 15, 1947, Speed Limit Resolution No. 30, adopted by the State Highway Commission on September 21, 1949, and Speed Limit Resolution No. 38, adopted by the State Highway Commission on April 25, 1950, which are in conflict with the provisions of this order hereby are vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 188 be entered in the minutes and records of the Commission as of the 25th day of May, 1955.

EXHIBIT "H-2"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter;

NOW THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway: Mt. HOOD HIGHWAY

Highway number 26 Route number _____

M.P. 5.31 (east city limits of Portland)	to M.P. 5.81 (S.E. 92nd Ave.)	35 M.P.H.

EXCEPT BETWEEN

A point 300 feet west of S. E. 144th Avenue (M. P. 8.42) and a point 0.12 mile East of S. E. 145th Avenue (M. P. 8.63) the indicated speed shall be 20 MILES PER HOUR during the hours of school crossings in accordance with provisions of Subsection 1. a., of ORS 483.104.

M. P. 9.14 (200 feet east of S. E. 157th Ave,)	to	M. P. 11.97 (west city limits of Gresham)	50 M. P. H.

EXCEPT BETWEEN

A point 0.13 mile west of S. E. 174th Avenue (M. P. 9.86) and a point 0.13 mile East of S. E. 174th Avenue (M. P. 10.12) the indicated speed shall be 20 MILES PER HOUR during the hours of school crossings as provided in Subsection 1. a., of ORS 483.104.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein, particularly Speed Limit Resolution No. 43, adopted by the State Highway Commission on September 28, 1950, which is in conflict with the provisions of this order, hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 189 be entered in the minutes and records of the Commission as of the 25th day of May, 1955.

EXHIBIT "H-3"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

EXCEPT BETWEEN

M.P. 315.14 and M.P. 315.23 the indicated speed shall be 20 MILES PER HOUR during the hours of school crossings as per the provisions of Subsection 1.a., of ORS 483.104.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein, particularly Speed Limit Resolution No. 164, adopted by the State Highway Commission on September 23, 1954, and a portion of Speed Limit Resolution No. 73 pertaining to a 45-mile per hour speed zone on that section immediately south of the south city limits of Medford, adopted by the State Highway Commission on October 11, 1951, which are in conflict with the provisions of this order hereby are vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 191 be entered in the minutes and records of the Commission as of the 25th day of May, 1955.

EXHIBIT "H-5"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, under the provisions of ORS 483.532 the Highway Commission, with respect to state highways under its jurisdiction, is authorized to prohibit the operation thereon of any or all vehicles of any class or kind, may impose limitations as to any gross weight or any dimension of any vehicle or combination of vehicles, may reduce the authorized speed of any vehicle and impose any other restrictions that in the judgment of said Highway Commission is necessary to protect any highway or section thereof from being unduly damaged; and

WHEREAS, the Siletz State Secondary Highway No. 181 from Kernville south through the city of Siletz to the Corvallis-Newport Highway is a State Secondary Highway under the jurisdiction and control of the Highway Commission; and

WHEREAS, the highway bridge crossing the Siletz River at the southern boundary of the city of Siletz, said crossing being at M. P. 24.59 of the Siletz State Secondary Highway No. 181, was severely damaged and rendered unfit for use of state highway traffic on May 6, 1955; and

WHEREAS, to meet the emergency created it has been necessary to eliminate the said highway bridge and to construct a temporary emergency bridge across the Siletz River; and

WHEREAS, it is, in the judgment of the Highway Commission, necessary for the safety and convenience of the traveling public and to promote the safe and expeditious flow of traffic as well as to protect the temporary emergency bridge from undue damage, to impose restrictions upon the use of such structure;

NOW THEREFORE, IT IS HEREBY RESOLVED AND ORDERED by the Highway Commission that:

1. The speed at which a vehicle may be driven upon the temporary emergency bridge crossing the Siletz River at M. P. 24.59 of the Siletz State Secondary Highway No. 181 shall not exceed the rate of ten (10) miles per hour.

2. Not more than one truck shall be driven or allowed to proceed upon, by the person in charge thereof, any span of the temporary emergency bridge crossing the Siletz River at M. P. 24.59 of the Siletz State Secondary Highway No. 181 at any one time.

3. The State Highway Engineer be, and he hereby is directed

to erect at appropriate places in sufficient number adequate signs giving notice of the restrictions hereinabove made upon highway traffic traveling over the temporary emergency bridge.

4. That any previous order heretofore made by the Highway Commission with respect to the Siletz State Secondary Highway No. 181 which is in conflict with the provisions of these orders are hereby vacated and annulled.

5. That this resolution be entered in the minutes and records of the Highway Commission as of the 25th day of May, 1955, as Speed Limit Resolution, File No. 192, and the Secretary of the Highway Commission is directed to forward duplicate originals of these orders to the Secretary of State, and that a duly certified copy hereof be filed with the Public Utilities Commissioner and the Superintendent of State Police.

EXHIBIT "I-1"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, ORS 381.205 provides that each county, city, town or port of this State adjoining or bordering on any interstate river or stream of water may construct, reconstruct, purchase, rent, lease or otherwise acquire, improve, operate and maintain bridges over any interstate river or stream of water to any adjoining State.

WHEREAS, Wasco County, Oregon, which borders on the Columbia (an interstate) River has constructed and opened to traffic a bridge, together with an approach and connecting road on the Oregon side of the river, approximately one mile east of The Dalles, Oregon, which bridge extends over and across said Columbia River between Wasco County, Oregon, and Klickitat County, Washington, and forms a connection between the Columbia River Highway in Wasco County, Oregon, and U. S. Highway 830 in Klickitat County, Washington.

WHEREAS, ORS 381.295 specifies that the connecting road and approaches to any bridge mentioned in ORS 381.205, on the Oregon side of the interstate river, together with the bridge to the center of the channel of the river, shall be part of the Oregon State Highway system.

NOW THEREFORE, BE IT, AND IT HEREBY IS ORDERED AND RESOLVED by this Commission pursuant to and in conformance with ORS 381.295 as follows:

1. That The Dalles bridge, located one mile east of The Dalles, Oregon, and extending over and across the Columbia River between Wasco County, Oregon, and Klickitat County, Washington, from its Oregon terminus to the center of the channel of the Columbia River, together with the approach and connecting road on the Oregon side of said river, is officially declared to be and designated as a part of the Oregon State Highway system. Said connecting road and approach extends from an intersection with the Columbia River Highway at a point approximately one mile east of The Dalles, Oregon, to the southerly terminus of The Dalles bridge.

2. That the said connecting road and approach, together with the bridge to the center of the channel of the stream, is designated as The Dalles Bridge Highway, the route of which is described as follows:

> The Dalles Bridge Highway runs from a junction with the Columbia River Highway one mile east of The Dalles, Oregon, to the Oregon-Washington State line on The Dalles Bridge.

EXHIBIT "I-1" (cont)

3. That the purpose of this resolution is to comply with the provisions of ORS 381. 295 and the State of Oregon, by and through its State Highway Commission, does not assume or agree to pay the interest or principal of the bridge construction bonds, or to maintain or operate the said bridge, approaches or connecting road either before or after the bridge is toll-free.

4. That this Resolution shall be entered in the minutes and records of the Commission as of the 25th day of May, 1955, as Primary Highway Designation Resolution, File No. 19.

EXHIBIT "I-2"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, on November 13, 1931, the Highway Commission, by agreement with the County Court of Jackson County, selected and designated the Sams Valley Road, then under the jurisdiction of said County Court, as a State Secondary Highway; and

WHEREAS, the said Sams Valley Road has been designated on the records of the Highway Commission as Sams Valley Secondary Highway No. 271; and

WHEREAS, the said Sams Valley Secondary Highway No. 271, extended from Crater Lake Highway in Section 15, Township 35 South, Range 1 West, W.M., to the City of Gold Hill in Section 22, Township 36 South, Range 3 West, W.M., which latter portion of the highway is indicated in green on the map attached hereto, marked Exhibit "A", and by this reference made a part hereof; and *

WHEREAS, on January 21, 1954, the Highway Commission, by resolution, designated as part of the Sams Valley Secondary Highway No. 271, that portion of roadway shown in blue on Exhibit "A" attached hereto, and described as follows:

> Beginning at State Highway Engineer's Station 638+50 of the former route of the Pacific Highway in the Northwest quarter of the Northwest quarter (NW¼ NW¼) of Section 20, Township 36 South, Range 3 West, W.M., thence Easterly via the former route of the Pacific Highway to State Highway Engineer's Station 514+00 of said former Pacific Highway located at the intersection of 4th Street and 2nd Avenue in the City of Gold Hill, in the Northwest quarter of the Northwest quarter (NW¼ NW¼) of Section 22, Township 36 South, Range 3 West, W.M., *

and

WHEREAS, on January 21, 1954, the Highway Commission, by resolution, designated as a road connection between Sams Valley Secondary Highway No. 271 and the relocated Pacific Highway that roadway described as follows:

> Beginning at State Highway Engineer's Station 514+00 of the former route of the Pacific Highway in the Northwest quarter of the Northwest quarter (NW¼ NW¼) of Section 22, Township 36 South, Range 3 West, W.M.; thence Easterly

via the former route of the Pacific Highway to State Highway Engineer's Station 492+25 of the former route of the Pacific Highway in the Northwest quarter of the Northeast quarter (NW¼ NE¼) of Section 22, Township 36 South, Range 3 West, W.M.

and

WHEREAS, by a Throughway Agreement with the County Court of Jackson County, dated July 24, 1952, the State constructed a traffic interchange on the relocated Pacific Highway Southeasterly of the City of Gold Hill which interchange, together with the aforesaid road connection and a portion of the Old State County Road as shown colored in yellow on Exhibit "A" attached hereto has acted as an Easterly link between the said relocated Pacific Highway and the Sams Valley Secondary Highway No. 271 in Gold Hill; and*

WHEREAS, the Highway Commission deemed it expedient and necessary for the State, and in the best interests of the traveling public, that such Easterly link be named and designated as part of the Sams Valley Secondary Highway No. 271.

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission that:

1. That portion of roadway which is part of the Sams Valley Secondary Highway No. 271, shown colored in blue on Exhibit "A" attached hereto and described as follows:

Beginning at State Highway Engineer's Station 638+50 of the former route of the Pacific Highway in the Northwest quarter of the Northwest quarter (NW¼ NW¼) of Section 20, Township 36 South, Range 3 West, W.M.; thence Easterly via the former route of the Pacific Highway to State Highway Engineer's Station 514+00 of said former Pacific Highway located at the intersection of 4th Street and 2nd Avenue in the City of Gold Hill, in the Northwest quarter of the Northwest quarter (NW¼ NW¼) of Section 22, Township 36 South, Range 3 West, W.M., *

is hereby designated and shall hereafter be known as Sams Valley Secondary Highway West, No. 271.

2. That portion of roadway which has been the road connection between the relocated Pacific Highway and the Sams Valley Secondary Highway No. 271 in Gold Hill, together with a portion of the Old Stage County Road and the interchange, shown colored in yellow on Exhibit "A" attached hereto and described as follows:

EXHIBIT "I-2" (cont)

Beginning at State Highway Engineer's Station 514+00 of the former route of the Pacific Highway in the Northwest quarter of the Northwest quarter (NW¼ NW¼) of Section 22, Township 36 South, Range 3 West, W.M., said Station being at the intersection of 2nd Avenue and 4th Street in the City of Gold Hill; thence Easterly via the former route of the Pacific Highway to State Highway Engineer's Station 492+25 of said former Highway; thence Southerly via a portion of the Old Stage County Road and the State constructed interchange road of the relocated Pacific Highway, a distance of 1.02 miles, *

is hereby classified as a State Secondary Highway and is hereby designated and shall hereafter be known as Sams Valley Secondary Highway East, No. 271,

3. That this Resolution be entered in the minutes and records of the Highway Commission this 25th day of May, 1955, as Secondary Highway Designation Resolution, File No. 30.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 30, under the heading "Secondary Highway Designation" Resolutions, and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-3"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the Mosier-The Dalles Section of the relocated Columbia River Highway in Wasco County has been completed and opened to public travel; and

WHEREAS, the Highway Commission is desirous of making the former route of the Columbia River Highway a State Secondary Highway; and

WHEREAS, it is the purpose of the State Highway Commission to take official action and impress upon its records the disposition made of that portion or unit of the former right of way of the Columbia River Highway, as well as to name and designate State Secondary Highways and their termini;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Highway Commission that:

1. The portion of the former route of the Columbia River Highway commencing at its junction with the relocated Columbia River Highway in the City of Mosier easterly to its junction with the same relocated Columbia River Highway near The Dalles, is hereby reclassified as a State Secondary Highway and is hereby identified and shall hereafter be known as the Mosier-The Dalles State Secondary Highway No. 292, with a route and termini as follows:

> Beginning at milepost 67.96 of the relocated Columbia River Highway in the City of Mosier; thence easterly via the former route of the Columbia River Highway to milepost 80.61 of the relocated Columbia River Highway near The Dalles, in Section 29, Township 2 North, Range 13 East, W.M., and being a distance of 15.25 miles.

2. This Resolution be entered in the minutes and records of the Highway Commission the 25th day of May, 1955, as Secondary Highway Designation Resolution, File No. 31.

EXHIBIT "I-4"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, on December 6, 1933, the Highway Commission, by resolution, selected and designated as a secondary highway certain county roads in Clackamas, Marion, and Washington Counties, then under the jurisdiction of the County Courts of the respective counties, which roads, then described as:

Washington County:

Market Road N . 23, beginning at Beaverton and extending southerly to Tigard and thence by Market Road No. 24 to the Clackamas county line, approximately 12 miles,

and

Clackamas County:

Being all of Market Road No. 27, beginning at the Marion county line and extending in a northerly direction via Wilsonville toward Tigard to the Washington county line, a distance of approximately 5.6 miles,

and

Marion County:

Beginning at Aurora and extending in a northerly direction by way of Market Road No. 59 to the Marion-Clackamas county line, approximately 2.9 miles,

were selected and designated on the records of the Highway Commission as the Beaverton-Aurora Secondary State Highway No. 141; and

WHEREAS, on December 6, 1933, the Highway Commission, by resolution, selected and designated as a secondary highway a certain county road in Washington county, then under the jurisdiction of the County Court of said county, which road, then described as:

Market Road No. 4, beginning at Beaverton and extending in a southwesterly direction to an intersection with the Hillsboro-Scholls-Newberg road near Campbell Bridge, approximately 10 miles,

was selected and designated on the records of the Highway Commission

as the Farmington Secondary State Highway No. 142; and

WHEREAS, the Beaverton-Aurora Secondary State Highway No. 141 extends northerly in the city of Beaverton from the south city limits over Watson Street to 12th Street, thence continuing northerly along the said Watson Street to a junction with the Beaverton-Hillsdale Primary State Highway No. 40 at Broadway, in the said city of Beaverton; and

WHEREAS, the Farmington Secondary State Highway No. 142 extends easterly in the city of Beaverton from the westerly city limits over Farmington Road to Watson Street where it terminates at a juncture with the Beaverton-Aurora Secondary State Highway No. 141; and

WHEREAS, the Highway Commission deems it necessary in the best interests of the traveling public that the route and the terminus of the Beaverton-Aurora Secondary State Highway No. 141 in Beaverton be altered, as well as extending the Farmington Secondary State Highway No. 142 and altering the terminus of said highway in Beaverton.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission that:

1. The Beaverton-Aurora Secondary State Highway No. 141 shall retain its present designation and classification as a secondary highway, but its route and terminus in the city of Beaverton shall be altered. The new terminus of the said Beaverton-Aurora Secondary State Highway shall be at the junction of the Tualatin Primary State Highway No. 29 and North Hall Street in the city of Beaverton and the new route of the said highway in the said city shall extend from the above designated terminus southerly along North Hall Street and continue southerly along Hall Street to its intersection with Watson Street and 12th Street, then continue southerly along Watson Street to the south city limits of the city of Beaverton, all as shown colored in yellow on the map attached hereto, marked Exhibit "A", and by this reference made a part hereof. *

2. The Farmington Secondary State Highway No. 142 shall retain its present designation and classification as a secondary highway, but its route in the city of Beaverton shall be extended and its terminus altered. The Farmington Secondary State Highway No. 142 shall be extended from its existing terminus, at the intersection of Farmington Road and Watson Street in the city of Beaverton, northerly along Watson Street to Broadway and a junction with the Beaverton-Hillsdale Primary State Highway No. 40 and the new terminus in the city of Beaverton shall be at the intersection of Broadway and Watson Street where the said Farmington Secondary State Highway No. 142 forms a junction with the Beaverton-Hillsdale Primary State Highway No. 40, all as shown colored in blue on the map attached hereto, marked Exhibit "A". *

EXHIBIT "I-4" (cont)

3. Watson Street, in the city of Beaverton, extending from Farmington Road southerly to 12th Street, as is shown colored in red on the attached Exhibit "A", shall cease to be the route of the Beaverton-Aurora Secondary State Highway No. 141 or of any State Highway. *

4. That this resolution be entered in the minutes and records of the Highway Commission this 25th day of May, 1955, as Secondary Highway Designation Resolution, File No. 32.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 32, under the heading "Secondary Highway Designation" Resolutions, and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-1"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the East Unit, Hamilton-Long Creek Section of the Kimberly-Long Creek Secondary Highway in Grant County, and to make a complete and final survey of the route and location of the Deschutes River Section of the McKenzie Highway in Deschutes County, and in connection therewith to prepare maps showing the route and location of each of said highway sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the East Unit, Hamilton-Long Creek Section on the Kimberly-Long Creek Secondary Highway, beginning at Highway Engineer's Station 1525+00, approximately four miles east of the town of Hamilton, and extending in an easterly direction to a connection with the Pendleton-John Day Highway at Highway Engineer's Station 1848+79.14 in the town of Long Creek, together with the map, which, for identifiaction purposes, bears map file No. 1R-5-726 and the date of May, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That the survey of the Deschutes River Section of the McKenzie Highway, beginning at Highway Engineer's Station 5+00, approximately 1.5 miles west of the Deschutes River, and extending in an easterly direction to Highway Engineer's Station 108+00, a short distance east of the community of Cline Falls, together with the map, which for identification purposes bears map file No. 1R-5-649 and the date of May, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

EXHIBIT "J-1" (cont)

3. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

4. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

5. That this resolution be entered in the minutes and records of the Commission as of the 25th day of May, 1955, as Survey Resolution No. 121.

EXHIBIT "J-2"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Moro-Kent Section of the Sherman Highway in Sherman County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Moro-Kent Section of the Sherman Highway, beginning at Highway Engineer's Station 474+00 in the town of Moro, and extending in a southerly direction to Highway Engineer's Station 1640+00, near the town of Kent, together with the map which, for identification purposes, bears map file No. 1R-5-722 and the date of May, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That heretofore by resolution of this Commission dated Novem-

EXHIBIT "J-2" (cont)

ber 3, 1948, said section of the Sherman Highway between Moro and Kent was designated as a throughway within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law", and, for the reasons stated therein, the above-named section of said highway should be so designated and it is hereby directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law except any portion of said section which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a throughway.

5. That this resolution be entered in the minutes and records of the Commission as of the 25th day of May, 1955, as Survey Resolution No. 122.

EXHIBIT "J-3"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Valley Junction-Sheridan Section of the Salmon River Highway in Polk and Yamhill Counties, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Valley Junction-Sheridan Section of the Salmon River Highway, beginning at Highway Engineer's Station 25+00 on the existing highway approximately one-quarter mile east of the community of Valley Junction, and extending in an easterly direction by-passing the towns of Willamina and Sheridan, to Highway Engineer's Station 605+00 at a connection with the existing highway approximately one mile east of the town of Sheridan, together with the map, which, for identification purposes, bears map file No. 1-R-5-732 and the date of May, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

EXHIBIT "J-3" (cont)

4. That heretofore by resolution of this Commission dated November 3, 1948, said section of the Salmon River Highway between Valley Junction and Sheridan was designated as a throughway within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law", and, for the reasons stated therein, the above-named section of said highway should be so designated and it is hereby directed that the construction of the same shall be accomplished pursuant toand within the meaning and scope of said law except any portion of said section which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a throughway.

5. That this resolution be entered in the minutes and records of the Commission as of the twenty-sixth day of May, 1955, as Survey Resolution No. 123.

EXHIBIT "J-4"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Dolph Corner-Rickreall Section of the Willamina-Salem Highway in Polk County, and in connection therewith to prepare a map showing the route and location of said section of highway and to file said report and record with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed the said survey and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the survey of the Dolph Corner-Rickreall Section of the Willamina-Salem Highway, beginning at a point on the Dallas-Coast Secondary Highway at Dolph Corner, 2.93 miles north of Dallas, (Engineer's Station 622+00), and ending at a point on the Salem-Dallas Highway in the westerly part of the town of Rickreall, (Engineer's Station 857+00), together with the map which, for identification purposes, bears the number 7B-9-15, and the date October, 1951, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Departments all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That the survey of the section or unit of said Highway has been

made within the meaning and purpose of Chapter 4, Oregon Laws 1947, commonly known as the Throughway Law, and was likewise made within the scope and purpose of the resolution approved and adopted by the Highway Commission November 3, 1948. Therefore, the construction of said state highway shall be accomplished pursuant to the provisions of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 26th day of May, 1955, as Survey Resolution No. 62A, and shall be considered as confirmation of the action previously taken by this Commission by resolution on November 9, 1951.

EXHIBIT "J-5"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway in Yamhill County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway, beginning at Highway Engineer's Station 155+00, at the McMinnville Airport, and extending in an easterly direction to Highway Engineer's Station 378+43.44, approximately 0.3 mile west of the Pacific Highway West, together with the map, which for identification purposes bears map file No. 1R-3-1075 and the date of April, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

EXHIBIT "J-5" (cont)

4. That this resolution be entered in the minutes and records of the Commission as of the twenty-sixth day of May, 1955, as Survey Resolution No. 124.

EXHIBIT "K"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, the State Highway Commission is authorized to designate main traveled or through highways or sections thereof by placing at the entrances thereto from intersecting highways signs or markers, notifying drivers of vehicles to stop before entering or crossing such designated highway or highways, and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS, the Commission heretofore on the 21st day of September, 1949, adopted a resolution by which certain state highways and sections thereof were declared to be and were designated as main or through highways, and the State Highway Engineer was instructed to properly mark the same; and

WHEREAS, by said resolution of September 21, 1949, the Highway Commission declared the Athena-Holdman Secondary Highway, No. 334 and the Havana-Helix Secondary Highway, No. 335, to be throughways with certain specified exceptions; and

WHEREAS, since the adoption of said resolution of September 21, 1949, a traffic engineering investigation has been made which reveals that traffic conditions have changed on said highways, indicating that a change in location of stop signs is required; and

WHEREAS, based upon the findings of said investigation, the State Highway Engineer has recommended to the Commission a modification of the order contained in the aforementioned resolution of September 21, 1949;

NOW, THEREFORE, based upon the results of said traffic engineering investigation and upon the recommendation of the State Highway Engineer, THIS COMMISSION DOES HEREBY FIND, DECLARE, RESOLVE AND ORDER, as follows:

1. That a portion of said resolution of September 21, 1949, be amended to insert the following under the Athena-Holdman Highway No. 334:

> Traffic on Road No. 334, Athena-Holdman Highway, westbound, shall stop at its junction with Road No. 335, Havana-Helix Highway, at M.P. 8.46.

2. That the following provision contained in said resolution of September 21, 1949, under the Havana-Helix Highway, No. 335, be rescinded:

EXHIBIT "K" (cont)

Traffic on road No. 335, Havana-Helix Highway, southbound, shall stop at its junction with the Athena-Holdman Highway, No. 334, at M.P. 2.50.

3. That the State Highway Engineer be and he hereby is instructed to place or cause to be placed and thereafter maintain the necessary signs and markers to accomplish the traffic control and regulation contemplated by this resolution. Such signs as may be erected at said intersection shall conform to the types and standards heretofore approved by the Commission.

4. That this resolution shall be entered in the minutes and records of the Commission as of the 25th day of May, 1955, as Through Highways Resolution No. 22, and a duly certified copy thereof delivered to the U. S. Bureau of Public Roads and like copies to be delivered to the County Clerk of Umatilla County and to the Superintendent of the Department of State Police, for their information.

24947

EXHIBIT "L-1"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Corvallis East Side Highway; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Corvallis East Side Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "L-1" (cont.)

2. That the widening, improvement and maintenance of the said Corvallis East Side Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 25th day of May, 1955, as Condemnation Resolution No. 554.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 554, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

24949

EXHIBIT "L-2"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Reedville-Beaverton Section of the Tualatin Valley Highway; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Reedville-Beaverton Section of the Tualatin Valley Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "L-2" (cont.)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Tualatin Valley Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A".*

3. That the widening, improvement and maintenance of the said Reedville-Beaverton Section of the Tualatin Valley Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 25th day of May, 1955, as Condemnation Resolution No. 555.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 555, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-3"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public, and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "L-3" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, hgihway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the establishment, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire

title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 25th day of May, 1955, as Condemnation Resolution No. 725.

---

*FOOTNOTE.

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 725, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-4"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct, improve and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part

of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of locating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "L-4" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 25th day of May, 1955, as Condemnation Resolution No. 726.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 726, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

24957

EXHIBIT "L-5"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravelpits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads; highway drainage; drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Sage Hen Hill-Hines Section of the Central Oregon Highway; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Sage Hen Hill-Hines Section of the Central Oregon Highway, certain interests in or fee simple title to certain parcels of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "L-5" (Cont)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and improved Central Oregon Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property; provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A". *

3. That the widening, improvement and maintenance of the said Sage Hen Hill-Hines Section of the Central Oregon Highway and the highway facilities for which the said parcel of property, or interest therein, is required and being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 25th day of May, 1955, as Condemnation Resolution No. 772.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 772, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-6"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of road-building materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Weston-Weston Mountain Section of the Weston-Elgin Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system,and the relocation, construction, improvement and maintenance of the said Weston-Weston Mountain Section of the Weston-Elgin Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the relocation, construction, improvement and maintenance

EXHIBIT "L-6" (Cont)

of the Weston-Weston Mountain Section of the Weston-Elgin Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 25th day of May, 1955, as Condemnation Resolution No. 790.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 790, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-7"

Minutes of May 25 and 26, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to improve and maintain the relocated Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said relocated Oregon Coast Highway shall be improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the interest in the real property hereinafter described is necessary, and that access to and from the said highway should be controlled.

EXHIBIT "L-7" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the improvement and maintenance of the said relocated Oregon Coast Highway, as a throughway, certain interest in certain parcels of real property. The certain interests in certain parcels of real property needed and required, and the specific use to be made thereof or which in the best interests of the State and the owner should be acquired, are in particular described in the attached list marked Exhibit "A" under the name of the record owner or reputed owner and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access between the said relocated Oregon Coast Highway and all of the contiguous remaining real property of the owner; except that there shall be granted unto the owner, her heirs and assigns, for service of the said remaining land, such rights of access as are noted on the attached list marked Exhibit "A". *

3. That the improvement and maintenance of the said relocated Oregon Coast Highway and the highway facilities for which the certain interests in certain parcels of real property is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 25th day of May, 1955, as Condemnation Resolution No. 817.

EXHIBIT "L-7" (Cont)

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 817, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

First Inspection Trip (1955)
June 13 to 17, inclusive

The State Highway Commission made its first inspection trip in 1955 during the period June 13 to 17. The trip, covering a total of approximately 1,063 miles, was made by Greyhound Bus, equipped with a public address system, which proved to be a very satisfactory form of transportation. There follows a list of the people who composed the Commission group:

STATE HIGHWAY DEPARTMENT

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
H. B. Glaisyer, Secretary
C. W. Enfield, Chief Counsel
C. H. Armstrong, State Parks Superintendent
J. D. Walker, Division Engineer (Portland to Newport)
Tom Edwards, Division Engineer, Roseburg (Newport to Eugene)
Les Farnum, Chauffeur
Gene Kinney, Photographer

LEGISLATIVE HIGHWAY INTERIM COMMITTEE

Sen. Warren A. McMinimee, Chairman, Tillamook (Astoria to Newport)
Rep. Robert L. Elfstrom, Vice Chairman, Salem (Dorchester House to Coos Bay)
Sen. Charles W. Bingner, LaGrande
Rep. E. A. Littrell, Medford (Portland to Grants Pass)
Sen. Walter C. Leth, Monmouth (Tillamook to Newport)
Rep. Fred Meek, Portland (Portland to Coos Bay)

PARKS ADVISORY COMMITTEE

William M. Tugman, Reedsport
J. W. Forrester, Pendleton
Frank Jenkins, Klamath Falls

U.S. BUREAU OF PUBLIC ROADS AND U.S. FOREST SERVICE

Frank E. Andrews, Division Engineer, Portland
J. F. Cameron, Assistant Division Engineer, Portland
C. G. Polk, District Engineer, Salem
W. L. MacDonald, U. S. Forest Highway Engineer, Portland

June 13 to 17, 1955

NEWSPAPERS

Paul Harvey, Associated Press, Salem (Portland to Coos Bay)
Don Sterling, Jr., Oregon Journal, Portland
Mervin Shoemaker, The Oregonian, Portland

OREGON COAST ASSOCIATION

Verne Ayers, Manager, Newport (Astoria to Brookings)
William Manion, Vice President, Port of Astoria, Seaside (Astoria to Brookings)

COUNTY COURTS

Judge O. E. Effenberger, Tillamook (Astoria to Tillamook)
Charles Ross, Chairman Highway Committee, Oregon Coast Association, Tillamook (Astoria to Tillamook)

The purpose of the trip was to inspect highway construction and state parks. The Commission departed from the Benson Hotel, Portland, at 8:00 a.m. on June 13, and drove down the Lower Columbia River Highway to Astoria where the Commission and its group were guests of the Astoria Chamber of Commerce for luncheon. Following luncheon, the Commission viewed highways and parks along the Oregon Coast Highway as far as Tillamook where an overnight stop was made. Tillamook County was the host for dinner that evening.

On Tuesday, June 14, the trip was resumed down the Oregon Coast Highway. U.S. Highway 20 Association was host for lunch at the Beach Club, Agate Beach. An overnight stop was made at Coos Bay where the group was the dinner guest of the Oregon Coast Association and the City of Coos Bay. The trip continued down the coast on the morning of June 15. Luncheon was served that day by citizens of Gold Beach and Wedderburn at the Del Rogue Club in Wedderburn. Following luncheon, the Commission drove to the Smith River in California, thence over the Redwood Highway to Grants Pass for an overnight stop. The City Council of Grants Pass was host for dinner on that evening.

On Thursday, June 16, the Commission inspected highways and parks along the Pacific Highway between Grants Pass and Medford, thence returned to Roseburg where luncheon was served by the Roseburg Chamber of Commerce at Susan Creek State Park. The inspection was continued northerly over the Pacific Highway to Eugene, arriving there at 5:30 p.m. Members of the group were guests of the Eugene Chamber of Commerce that evening. Following an overnight stop in Eugene, the Commission returned to Portland on Friday, June 17, concluding its trip at 12:00 noon on that day.

The following matters of business were disposed of by the Commission enroute Tuesday afternoon, June 14: Present and participating in the

discussion were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
H. B. Glaisyer, Secretary

The Commission unanimously approved a report submitted by the Engineer with respect to the awards of the following State Highway contracts for which bids were received by the Commission at its regular meetings held on April 13 and 14, 1955 and on May 25 and 26, 1955:

1. Grading and paving Flavel Street-Clackamas Overcrossing Section of Cascade Highway, Clackamas and Multnomah Counties. Bids received April 13, 1955. Conditions of award satisfied May 27, 1955. Logan Taylor Co., Portland, contractor.

2. Grading, paving and construction of a concrete viaduct over S.P. Company Railroad on Clackamas Railroad Overcrossing Section of Clackamas Highway, Clackamas County. Bids received April 14, 1955. Conditions of award satisfied May 27, 1955. Inland Construction Co., Milwaukie, contractor.

3. Construction of Luckiamute River Bridge, Polk County. Bids received May 26, 1955. Conditions of award satisfied June 2, 1955. Tom Lillebo, Reedsport, contractor.

4. Grading, paving, and construction of a reinforced concrete bridge on Miles Crossing -Lewis and Clark River and Cooks Slough Sections on Lewis and Clark River and Youngs River Loop County Roads, Clatsop County. Bids received May 25, 1955. Conditions of award satisfied June 2, 1955. Grimstad & Vanderveldt, Astoria, contractor.

5. Grading and paving Warren and Dearborn Streets in Union, Union County. Bids received May 25, 1955. Conditions of award satisfied June 2, 1955. Russell Olson Construction Co., Pendleton, contractor.

6. Milton-Freewater (South Main Street & S. E. 15th Avenue) Paving Project, Umatilla County. Bids received May 26, 1955. Conditions of award satisfied June 2, 1955. Morrison & Lamping, Milton-Freewater, contractor.

7. Construction of Wagner Creek and Bear Creek Bridges on Valley View Road near Talent, Jackson County. Bids received May 25, 1955. Conditions of award satisfied June 3, 1955. Columbia Empire Constructors, Inc., and P. S. Lord Mechanical Contractors, Portland, contractor.

8. Deschutes County Roads Oiling Project on five county roads in vicinity of Redmond, Sisters and Bend, Deschutes County. Bids received May 25, 1955. Conditions of award satisfied June 3, 1955. Babler Bros., Inc., Portland, contractor.

9. Stone base and oiling Forest Boundary-Halfway Section of Pine Creek Road, Baker County. Bids received May 26, 1955. Conditions of award satisfied June 7, 1955. N. A. Toole Construction Company, Ontario, contractor.

10. Stone base and paving on Cannon Beach (Second Street-First Street) Section of Oregon Coast Highway (Alternate Route), Clatsop County. Bids received May 26, 1955. Conditions of award satisfied June 9, 1955. The United Contracting Company, Portland, contractor.

11. Construction of Nehalem River Bridge on Miami Valley Road, Tillamook County. Bids received May 25, 1955. Conditions of award satisfied June 9, 1955. Columbia Empire Constructors, Inc., and P. S. Lord Mechanical Contractors, Portland, contractor.

Discussed by the Commission was a report presented by the Engineer on the results of a reconnaissance survey and an economic analysis concerning the proposed realignment of US 101 between Coos Bay and Bandon. The Engineer recommended tentative approval of what, he termed, "the Davis Slough Route", and requested authority to conduct a location survey of such route, which he estimated would cost about $75,000. As a result of discussion, motion was made by Commissioner Reynolds that the route recommended by the Engineer be tentatively selected, and that he be authorized to make a detailed location survey along such route. The motion was seconded by Commissioner McIver and received the unanimous vote of the Commission, it being understood that no commitment whatsoever was being made relative to construction.

The Engineer requested authority to spend approximately $9,500 to install partitions in rooms that are being vacated by the State Liquor Commission and the Department of Finance and Administration on the fifth floor of the State Highway Building in Salem so as to make these rooms available for use by Highway Department employees. He explained details. The Commission authorized the expenditure.

The Commission discussed a request from Mr. Roy Kilpatrick, Attorney, Canyon City, that his Secretary, Katherine J. Eismann, be granted access to the relocated John Day Highway from her property between the Cities of John Day and Mount Vernon. The Engineer pointed out that the property referred to by Mr. Kilpatrick is located on the new highway where no highway previously existed and that in acquiring the right of way for the new highway all access rights were acquired with the exception

of one that was granted for the purpose of farming activities only. He also pointed out that all property located adjacent to the new highway section has access to the old highway. He strongly recommended that the request be denied. The Commission adopted the recommendation, and instructed the Secretary to so inform Mr. Kilpatrick.

Consideration was given by the Commission to a request from Mr. and Mrs. Frank Pattison, Eugene, through their attorney, Mr. Gordon A. Ramstead, for access to the Pacific Highway from their property located at Broadway and Hilyard Streets in Eugene. The Engineer recalled that on November 24, 1954 the Commission sold to the Pattisons, 3,331 sq. ft. of property situate in Lot 1, Patterson's Addition to Eugene, which property is located at the southeast corner of Hilyard and Broadway Streets. The estimated value of this property with complete restriction of access to the highway, he said, was $1,000, but due to highly competitive bidding at an auction sale, it was sold to the Pattisons for $3,750. The Pattisons now request that they be allowed access to the Pacific Highway from this property. He pointed out that had the Commission approved the access at the time of the sale, a much higher bid would have been received. He recommended that their request be denied, and advised that the Right of Way Engineer concurs in such recommendation. The recommendation was adopted by the Commission unanimously.

The Engineer reported that the survey for the location of the Wrights Point Section of Frenchglen Secondary Highway in Harney County has been completed. He exhibited a map showing the proposed location and explained details. He recommended adoption of the survey by the Commission at this time. As a result of discussion, the Commission unanimously approved the said survey, as recommended, by adoption of the following resolution relative thereto:

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Wrights Point Section of the Frenchglen Secondary Highway in Harney County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively as follows:

1. That the Survey of the Wrights Point Section of the Frenchglen Secondary Highway, beginning at Highway Engineer's Station 451+00 a short distance north of Wrights Point and extending in a southeasterly direction to Highway Engineer's Station 18+80 on Wrights Point, together with the map, which for identification purposes bears Map File No. 1R-5-730 and the date of May, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the fourteenth day of June, 1955, as Survey Resolution No. 127.

The Engineer requested authority to spend approximately $280,000 of a total of approximately $1,200,000 of bond monies that have accumulated as a result of underruns on contract work, to finance the sealing of pavements. He explained that for approximately two years the sealing of pavements for a number of reasons has been omitted at the time the contracts for pavement construction were awarded, but it is now found necessary to seal coat a number of these pavements so as to avoid increased maintenance costs. In order to perform the work this year, he said, it will be necessary that the contracting of the sealing work be awarded at the next meeting of the Commission. Because of the urgency of the matter, he asked the Commission to authorize the expenditure at this time. The Commission approved the request unanimously upon motion of Commissioner Reynolds. It was left with the Engineer to select the pavements to be given the seal coat.

The Commission discussed a request from Mr. W. F. Harcombe, Principal of Elmira Union High School, Lane County, for construction of a footpath along the Territorial Highway between their high school and the Elmira Shopping Center, a distance of 0.18 mile. The Engineer advised

that the matter has been investigated, and that the project has been found fully warranted. He estimated the cost to construct a five-foot bituminous footpath between the high school (M.P. 18.55) and the Elmira Shopping Center (M.P. 18.73) at $1,600 and recommended the expenditure. The Commission approved the project as recommended.

The Engineer reported receipt of information from the Bureau of Public Roads that some of the cuts and fills on its North Umpqua Highway Project are eroding badly and that considerable damage will occur unless the slopes are seeded. The Bureau, he said, has asked the State to do the seeding work and has agreed to reimburse the State for the cost . He further stated that a highway crew with mulching equipment was working in the vicinity when the request was received and he authorized them to proceed with the work which has been completed at a cost of $259.61. He presented an agreement with the Bureau of Public Roads, the signing of which is necessary in order to secure reimbursement for the expense incurred. The Commission approved the report and the agreement.

Consideration was given by the Commission to the following requests for extensions of time within which to complete highway construction:

1. Kissell and Robinson, Contract No. 4269, for fencing work on Willamette River-Hayesville Section of Portland-Salem Expressway in Marion and Clackamas Counties, requested an extension of time from April 30, 1955 to September 30, 1955. Extension approved as requested without penalty.

2. Tom Lillebo, Contract No. 4209, for construction of four structures at Hayesville Interchange on Portland-Salem Expressway in Marion County, requested an extension of time from April 30, 1955 to May 30, 1955. The Engineer recommended approval of the request and presented a letter from the Bureau of Public Roads concurring therein. Extension approved as requested without penalty.

3. Schrader Construction Company, Contract No. 4203, for construction of the 42nd Avenue Undercrossing on T. H. Banfield Expressway in Multnomah County, requested an additional extension of time from April 1, 1955 to July 1, 1955. The Engineer recommended approval of the request and presented a letter from the Bureau of Public Roads concurring therein. Extension approved as requested without penalty.

4. United Builders, Inc., Contract No. 4253, for construction of the 58th Avenue Overcrossing on the T. H. Banfield Expressway in Multnomah County, requested an extension of time from May 31, 1955 to July 31, 1955. Extension approved as requested without penalty, upon recommendation of the Engineer who presented a letter from the Bureau of Public Roads concurring therein.

5. Wold Brothers, Contract No. 4303, for fencing work on the Greggs Creek-Wedderburn Section of Oregon Coast Highway in Curry County, requested an extension of time from April 30, 1955 to July 31, 1955. Extension approved as requested without penalty.

6. Columbia Empire Constructors, Inc., and P. S. Lord Mechanical Contractors, Contract No. 4112, for construction of six structures on Goshen-Coast Fork Willamette River Section of the Pacific Highway in Lane County, requested an additional extension of time from February 28, 1955 to March 31, 1955. Extension approved as requested without penalty, upon recommendation of the Engineer and Bureau of Public Roads concurrence.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that Contract 4112, awarded to Columbia Empire Constructors, Inc., and P. S. Lord Mechanical Contractors, for construction of six structures on the Goshen-Coast Fork Willamette River Section of the Pacific Highway in Lane County, has been completed according to requirements of the contract or modifications thereof and that the said project is ready for acceptance. After due consideration, the Commission approved the recommendation by adoption of the following resolution relative thereto:

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contract for the construction of a State Highway Project has been completed according to the terms and provisions of said contract and that said job is now ready for acceptance:

"Contract No. 4112 with Columbia Empire Constructors, Inc., and P. S. Lord Mechanical Contractors, for construction of six structures on the Goshen-Coast Fork Willamette River Section of the Pacific Highway in Lane County, completed March 31, 1955.

THEREFORE BE IT RESOLVED that the work covered by this State Highway contract for the construction of said State Highway project be declared completed according to the terms of the contract and said job is hereby accepted and final payment in connection therewith is hereby authorized.

BE IT FURTHER RESOLVED that this Contract Completed Resolution No. 44 shall be entered in the minutes and records of the Commission as of the 14th day of June, 1955.

The Commission discussed a request from the Hood River Chamber of Commerce for permission to install scenic route signs on state highways in the Hood River Valley, using an emblem in the shape of a yellow apple with red lettering. The Engineer recommended that the request be denied in order to discourage this type of signing which, he said, will create a traffic hazard by detracting attention from official highway signs and is of interest only to a small percentage of motorists. He suggested that better results could be obtained by the preparation of brochures and maps for distribution by theChamber of Commerce and local service stations. He suggested as a substitute for the proposed signs the erection of a large sign, probably 10-foot by 14-foot in dimension, on the highway at each side of the town calling attention to the scenic aspects of the vicinity, and that such type of sign be adopted by the Commission as standard in all communities where similar conditions obtain. He mentioned similar signs that are planned to be erected at Roseburg and Salem. The matter was discussed at some length but a decision was deferred by the Commission pending further study. The Commission decided to discuss the matter further on the last day of its Eastern Oregon inspection trip during July 11 to 14 when, according to present plans, the Commission will pass through the Hood River Valley enroute from Bend to Portland.

There was presented for the Commission's consideration claims submitted by Messrs. Walter Moorehouse, Grants Pass, and Donald W. Baker, Seal Beach, California,each in the amount of $50 and representing the value of some small apple trees that were destroyed by a survey crew on the proposed route of US 99 between Jump Off Joe Creek and Grants Pass. The Engineer advised that the trees were destroyed by a location survey party during the progress of the survey for this highway unit. He recommended payment of both claims. The Commission adopted the recommendation.

Also presented for the Commission's consideration was a request from the Coos-Curry Electric Co-op for reimbursement for the cost of moving its power line necessitated by construction of the Greggs Creek-Wedderburn Section of US 101 in Curry County. The Engineer advised that the Greggs Creek-Wedderburn Section is being constructed by the U. S. Bureau of Public Roads as a forest highway project, and that the Commission previously authorized payment of $4,000 to the Electric Co-op on a tentative billing. It now develops that the actual cost involved was $5,100.37. He recommended approval of the payment of an additional sum of $1,100.37, making a total of $5,100.37 which he said, is the actual amount that the Co-op spent in reestablishing its power line. The Commission adopted the recommendation.

The Engineer requested authority for Mr. W. C. Williams, Deputy State Highway Engineer, to go to Salt Lake City, Utah, on July 7 and 8 at State expense, in connection with the final meeting of the WASHO Test Road Committee, of which he is a member. He estimated the amount of out-of-state expense involved at $100. The Commission approved the request.

The Engineer requested authority to spend about $32,000 of bond funds to finance construction of guard fence along the Divide-Rice Hill Section of U.S. 99 in Douglas County. The Commission approved the project and the expenditure.

There being no further business to come before the Commission at this time, Chairman Chandler declared the meeting adjourned at 2:40 p.m.

25181		STATE TAX STREET FUNDS. January 1 to June 30, 1955. Allocation to Cities and Towns approved. See EXHIBIT "G".
		CROOK COUNTY. Prineville. Main Street. Ochoco Creek Bridge. Request for State assistance on bridge construction approved.
		WASCO COUNTY. The Dalles Dam area. Access road. Request of US Engineers for new location of access road approved.
		UNION COUNTY. Hilgard-Starkey Secdy. Hwy. 3-mile Section. Maintenance agreement with County approved.
		GEOLOGICAL AND SEISMIC SURVEYS. Humble Oil & Refining Co.-Standard Oil Co. of California. Permits granted conditionally.
25182		TRAVEL - OUT OF STATE approved for:
		R. B. Sipprell to Salt Lake City, September 12-13 for Steering Committee on Reciprocity of Council of State Governments.
		F. B. Crandall to Pittsburg, October 23-28 for Institute of Traffic Engineers.
		Mark H. Astrup to Columbus, Ohio, October 4-7, for 14th Annual Short Course on Roadside Development.

Page	Date 1955	Subject
25182	Aug. 11	SECRETARY'S REPORT OF PAPERS SIGNED from June 28 to August 9, 1955, approved.
		COMMISSION MEETING DATES SET FOR September 22-23 and tentatively for November 3-4, 1955.
		LOG HAULING. Baker County. Baker-Homestead Hwy. Ballards Bridge-Richland Section. Overlength permit granted Mr. Hess.
25183		LIABILITY AND INDEMNITY INSURANCE for State Highway Employees. Engineer authorized to advertise for bids at next meeting.
		MALHEUR COUNTY. Nyssa. Snake River Bridge (old). Bridge to be offered to County on completion of new bridge.
		DELEGATION PROBLEMS discussed. No action taken.
25184		LANE COUNTY. McVay Secdy. Hwy. Eugene SE. SP RR Underpass. Agreement with SP RR Company re hwy. lowering approved.
		MULTNOMAH COUNTY. Columbia River Hwy. Rooster Rock park development. Hwy. widening authorized and bids to be called.
		WASCO COUNTY. US97-US197 Jct. Mr. French's request to change wording on directional signs denied.
		CONTRACTS. Award of contracts publicly announced.
25186		AGREEMENTS and other papers signed.
25188		COMMISSION MEETING ADJOURNED at 3:15 p.m.
	Aug. 12	BIDS received on construction projects.
25192		OREGON BEACHES. Plane landings. Engineer recommends that no landings be allowed. No action.
		UMATILLA COUNTY. Old Oregon Trail. Proposed Hinkle Interchange. Project approved. Acquisition of r/w authorized.
		UMATILLA COUNTY. Havana. Construction improvement project. Bids to be received on project at September meeting.
		GILLIAM COUNTY. Wasco-Heppner Secdy. Hwy. Condon-John Day River Section. Oiling project to be considered for 1956.
		PACIFIC HWY. WEST ALTERNATE ROUTE. McMinnville-Rainier Section. Reconnaissance survey and economic study authorized.
2519.		CLATSOP-TILLAMOOK COUNTIES. Elsie-Wheeler Cutoff. Delegation urges
25.94		construction. No action.
		UMATILLA COUNTY. Hermiston. Orchard Avenue improvements. Request for Special State Tax Street Funds deferred to next year's program.
		CLACKAMAS COUNTY. Pacific Hwy. East. Clackamas River County Park.
25195		Engineer to make further study re interchange.
		WASCO-SHERMAN COUNTIES. Deschutes River mouth. Proposed park. Delegation thanks Commission for action taken.
		WASHINGTON COUNTY. Pacific Hwy. West. Red Rock Road Jct. Engineer to investigate hazardous condition and report.
25196		COMMISSION MEETING RECESSED at 12:00 noon and reconvened at 2:00 p.m.
		BAKER COUNTY. Old Oregon Trail. Baker. Delegation requests information re hwy. plans. By-pass not favored.
25197		MALHEUR COUNTY. Old Oregon Trail. CCC Camp area. Ontario NW. Delegation's request for interchange to be studied.
		CONTRACTS. Award of contracts publicly announced.
25199		COMMISSION MEETING ADJOURNED at 2:45 p.m.

Portland, Oregon
June 30, 1955

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Charles H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Park Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary who then announced that the Commission would award contracts at 3:30 p.m. in the same room.

COOS COUNTY
OILING ENEGREN FERRY-MARLOW CREEK SECTION OF COOS RIVER HIGHWAY

J. C. Compton Co., McMinnville	$ 67,542.00

DESCHUTES COUNTY
CLINE FALLS BRIDGE OVER DESCHUTES RIVER ON MCKENZIE HIGHWAY

C. J. Eldon, Portland	$ 95,926.00
Babler Bros., Inc., Portland	99,610.00
R. H. Jones, Hillsboro	103,500.00
Parker-Johnson Co., Portland	106,142.50
Hamilton & Thoms, Eugene	111,825.00
Schrader Construction Co., Portland	117,740.00
Lee Hoffman, Beaverton	118,945.00

JACKSON AND DOUGLAS COUNTIES
DIVISION NO. 3 PAVEMENT SEALING PROJECT ON THE PACIFIC, CRATER LAKE AND WEST DIAMOND LAKE HIGHWAYS

D-H Paving Co., Vancouver, Washington	$ 63,770.50
J. C. Compton Co., McMinnville	76,847.00

JOSEPHINE COUNTY
GRADING LOUSE CREEK-GRANTS PASS (MERLIN HILL) SECTION OF THE PACIFIC HIGHWAY

C. R. O'Neil, Creswell	$278,899.50
R. A. Heintz Construction Co., Portland	285,603.00
Somers and Stacey, Klamath Falls	286,112.50
Durbin Bros., Eugene	314,145.00
Kuckenberg Construction Co., Portland	322,972.50
Gibbons and Reed Co., Portland	336,538.00
Fred H. Slate Co. and E. C. Hall Co., Portland	339,570.00
Earl L. McNutt Co., Eugene	342,664.00
J. N. Conley, Portland	354,606.00
Funderburk Construction Co., Sutherlin	363,050.00
J. W. Briggs, Bend	379,035.00
D & H Construction Co., Sacramento, California	379,179.00
Peter Kiewit Sons' Co., Longview, Washington	400,318.00
Parker-Schram Co., Portland	410,169.50
J. Ira McNutt Construction Co., Springfield	456,450.00

KLAMATH COUNTY
LANE COUNTY LINE-WILLAMETTE JUNCTION ROCK PRODUCTION PROJECT ON WILLAMETTE HIGHWAY

Rogers Construction, Inc., Portland	$ 22,800.00
E. C. Hall Co., Portland	37,080.00
F. L. Somers, Medford	39,000.00
McNutt & Sons, Inc., Salem	43,200.00

LANE COUNTY
PAVING COTTAGE GROVE-DIVIDE UNIT, GOSHEN-DIVIDE SECTION OF PACIFIC HIGHWAY

Parker-Schram Co., Portland	$489,533.00
E. C. Hall Co. and J. C. Compton Co., Portland	524,258.00
Roy L. Houck & Sons, Salem	531,538.00
The Central Heating Co., Ore. Ltd., Eugene	547,032.00
Max J. Kuney Co., Inc., Spokane, Washington	554,474.50
Warren Northwest, Inc., Portland	585,165.00
J. N. Conley, Portland	586,119.00
Acme Construction Co., Eugene	662,001.00
J. Ira McNutt, Springfield	688,097.20

MALHEUR AND WALLOWA COUNTIES
DIVISION NO. 5 PAVEMENT SEALING PROJECT ON I.O.N., CENTRAL OREGON AND LITTLE SHEEP CREEK HIGHWAYS

D-H Paving Co., Vancouver, Washington	$ 47,232.00
Babler Bros., Inc., Portland	49,700.00
J. C. Compton Co., McMinnville	51,625.00

June 30, 1955

MALHEUR COUNTY
CONSTRUCTION OF TWO STRUCTURES ON OLDS FERRY-ONTARIO SECTION OF OLD OREGON TRAIL HIGHWAY

Neilsen & Smith Construction Co., Twin Falls, Idaho	$108,655.00
Hannan Bros. Co., Portland	113,388.00
R. H. Jones, Hillsboro	120,565.00
J. O. Young & Sons, Nampa, Idaho	130,340.00

MARION COUNTY
CONSTRUCTION OF GUARDRAIL AND RIGHT OF WAY FENCE ON BATTLE CREEK JUNCTION-ILLAHEE UNIT OF THE PACIFIC HIGHWAY EAST

Trussfab, Inc., Portland	$ 16,125.00
Vern Hoaglin, Beaverton	16,533.00
A. C. Bubak, Woodburn	16,665.00
Fred Stubbert, Springfield	18,120.00
McWaters & Bartlett, Boise, Idaho	18,217.50

MULTNOMAH COUNTY
122ND AVENUE SUBWAY RECONSTRUCTION

General Construction Co., Portland	$ 38,483.00
United Builders, Inc., Beaverton	39,283.00
Gibbons and Reed Co., Portland	40,145.00
C. J. Eldon, Portland	43,405.50
Peter Kiewit Sons' Co., Longview, Washington	45,119.00
Birkemeier Construction Co., Milwaukie	46,316.00
Lee Hoffman, Beaverton	52,130.00
Schrader Construction Co., Portland	56,468.00
Cherveny Construction Co., Portland	58,801.20

UNION COUNTY
PAVING LA GRANDE (JEFFERSON AVENUE) SECTION OF THE OLD OREGON TRAIL HIGHWAY

Russell Olson Construction Co., Inc., Pendleton	$ 41,935.00
Morrison & Lamping, Milton-Freewater	47,462.00

UNION COUNTY
OILING EAST UNIT, ALICEL JUNCTION-COVE SECTION OF LOWER COVE ROAD

Russell Olson Construction Co., Inc., Pendleton	$ 29,400.00
Babler Bros., Inc., Portland	31,370.00
Morrison & Lamping, Milton-Freewater	31,659.00
D-H Paving Co., Vancouver, Washington	36,907.50
J. C. Compton Co., McMinnville	37,994.00

June 30, 1955

WALLOWA COUNTY
GRADING AND SURFACING WERST CORNER-WALLOWA SECTION OF THE WERST CORNER-WALLOWA RIVER ROAD

C. C. Meisel, McMinnville	$ 69,382.00
Vernie Jarl, Gresham	69,417.00
Arthur Simonsen & Co., Baker	71,500.50
Morrison & Lamping, Milton-Freewater	79,387.00
Leslie Harris, Pendleton	87,438.00

WALLOWA COUNTY
ENTERPRISE (DEPOT STREET) PAVING PROJECT

Morrison & Lamping, Milton-Freewater	$ 28,380.00
Leslie Harris, Pendleton	31,746.00

WASHINGTON COUNTY
GRADING AND PAVING REEDVILLE-BEAVERTON SECTION OF THE TUALATIN VALLEY HIGHWAY

Porter W. Yett, Portland	$596,233.00
Acme Construction Co., Eugene	600,561.00
J. N. Conley, Portland	619,812.75
Rogers Construction Co., Portland	630,918.50

D-H Paving Co., Vancouver, Washington	43,780.00
J. C. Compton Co., McMinnville	48,740.00

YAMHILL COUNTY
NORTH YAMHILL RIVER BRIDGE ON MOORES VALLEY ROAD

Birkemeier Construction Co., Milwaukie	$ 38,443.50
C. J. Eldon, Portland	45,920.00
Orlando C. Bennard, Portland	46,230.00
Chas. E. Wiedeman, Dallas	46,373.00
United Builders, Inc., Beaverton	65,948.50

June 30, 1955

The Engineer reported receipt of a telegram from the Montana State Highway Engineer and from Mr. Andrews of the Bureau of Public Roads requesting that specialists be sent to Montana to study a large slide of about one million cubic yards which recently occurred on one of the Montana highways. The Commission approved the loan of the services of Lewis E. Scott, Geologist, and William C. Hill, Soils Engineer, to the State of Montana after July 4th, it being understood that their salary and expenses will be paid by the State of Montana.

The State Parks Superintendent, Mr. C. H. Armstrong, reported on the following park matters:

1. Request of Miss Gladys Jones, Otter Rock, for construction of a shelter in Devils Punch Bowl State Park for the benefit of park patrons during stormy weather: The Parks Superintendent advised that similar shelters have been constructed in Ecola Park and at Silver Falls Park, but the cost per user is high. It was his thought that eventually such facilities in the parks should be provided but presently fundamental developments are more important. He recommended that this request be denied. The Commission accepted the recommendation.

2. Request of Clatsop County Chapter of the American Red Cross for employment of a life guard at Coffenbury Lake in Fort Stevens State Park: The Parks Superintendent reported that no swimming facilities have been provided by the State at this place and it therefore is in the same category as a great many of the other park areas situated on lakes, rivers, or the ocean. It was his thought that if a lifeguard is furnished at one of these locations it may lead to demands for the furnishing of lifeguards at many of the other state parks. Upon his adverse recommendation the Commission denied the request.

3. Request of Mr. and Mrs. Jack Flaucher for renewal of their lease of the Vista House at Crown Point State Park for a period of five years beginning March 31, 1956: The Parks Superintendent advised that the Flauchers also request that they be allowed a reduction of $250.00 per year in rental due to the increased cost of heating the Vista House. He explained that a steam heating plant was installed by the State late in 1954 and up to May 1 the cost to heat the premises was $256.64 in excess of that for the same period in 1953 and 1954. He also called attention to the fact that with the new heating plant in use the amount of moisture in the building has been reduced materially, and it was his thought that such condition would decrease the maintenance cost as well as improve the general appearance of the building. He recommended that the lease be extended for a five-year period from March 31, 1956 to March 31, 1961, with a $250.00 allowance per year to compensate for additional heating costs, and that Mr. Flaucher also be allowed $250.00 compensation for heating during the past winter of 1954-1955, and also for the coming winter of 1955-1956. The Commission approved the recommendation.

4. Special Use Permit issued by the U. S. Forest Service covering the Mongold Boat Launching area at Detroit Lake: The Parks Superintendent recalled that development of a State Park at this location was previously approved by the Commission, and that an agreement covering what is known as the Lakeshore area was executed. However, it is necessary to secure a different type of agreement for the Mongold area because it was not originally within the Forest boundaries. The Mongold agreement, he stated, is in the form of a special use permit covering 25 acres and includes construction and maintenance of camp, picnic, and public boat launching facilities. He recommended approval of the permit. The Commission adopted the recommendation.

5. Proposed acquisition of a house in Susan Creek State Park to be used as park caretaker's quarters: The Parks Superintendent reported that he has had considerable difficulty in getting a caretaker to work at Susan Creek State Park as there is no place for him to live within a reasonable distance. In the western edge of the park property, he said, there is located a suitable home owned by Mr. and Mrs. E. K. Jones. The lease allowing the house in its present location expires in 1957 and Mr. Jones plans to remove the house at that time. He requested authority to secure an appraisal of the property and to negotiate for its acquisition. The Commission approved the request.

6. Offer of Oregon State Board of Forestry to deed to the State Highway Department 20 acres of land, known as Jackson F. Kimball Park, located at the headwaters of Wood River near Fort Klamath in Klamath County: The Parks Superintendent stated that this area has been used for many years for park purposes and that it will make a fine addition to the State Park System. He further said that the Board of Forestry proposes to deed the area to the highway department without cost, and that the cost to develop it will not be great. He recommended that the area be accepted. The Commission accepted the area with thanks.

7. Request of Al Pierce and Weyerhauser Timber Co. for joint use of an easement across Simpson State Park at the South end of the Coos Bay Bridge: About a year ago, the Parks Superintendent stated, an easement was granted to Mr. Pierce for his use of the roadway as an outlet in connection with a development on the sand spit next to the Bay. Weyerhauser Timber Co., he added, now wishes to use the road in connection with its operations on each side of the bridge and Mr. Pierce has no objections to such use of the road. Because it will not materially affect the use of the park area, he recommended approval of the joint use easement. The Commission approved the recommendation.

8. Request of Columbia Gorge Commission that the Highway Commission authorize employment of a man to handle negotiations for the exchange of lands in the Columbia Gorge: The Parks Superintendent stated that the Gorge Commission wants to employ Mr. Kenneth Wolfe,

a former U. S. Forest Service employee, to handle negotiations and other work in connection with the Columbia Gorge acquisition, the State to pay for his services. The Commission deferred action on this matter until later in the session. (Discussion of the subject was resumed following luncheon recess at which time the Commission decided not to contribute State Highway funds for employment of Mr. Wolfe. The $50,000 that the Commission heretofore agreed to spend during the present biennium for acquisition of land in the Columbia Gorge is to be held intact for purchase of properties that are strictly suitable as additions to the State Park system and will fit into the overall State Park picture. The Commission expressed itself against spending funds for land that cannot be used to good advantage for park purposes. The Commission also went on record as being favorable to cooperating with the Columbia Gorge Commission as in the past by assigning someone from the Highway Department to work part time on this project, it being the feeling of the Commission that it is not necessary to assign someone to the work on a full time basis. The Commission also ordered all acquisitions for the Columbia Gorge property referred to the Commission with the recommendation of the State Parks Superintendent, when recommended by a majority of the Gorge Commission.)

9. Proposed park at the mouth of the Deschutes River: The Parks Superintendent reported that the area is desirable for Park use and that it most likely will be patronized by a large number of people. However, it is difficult to provide safe access to and from the Highway. No word, he added, has been received as yet from The Dalles Chamber of Commerce and the Deschutes Planning Commission, which are sponsoring the park, as to their findings. Commissioner Reynolds inquired if the Parks Superintendent feels that the location is good. He replied in the affirmative. After some further discussion the Commission instructed the Engineer and the Parks Superintendent to submit a joint report on the project, particularly with respect to the access feature. The Commission also agreed to inspect the site on its Eastern Oregon trip in July.

10. Report on request from Columbia Gorge Committee for acquisition of eight areas in the Columbia Gorge: The Parks Superintendent reported that the Gorge Commission is working on a list of areas which they can recommend and when such a list has been received in writing he will report the same to the Commission.

11. Report on study of property owned by Fritz Luscher in the Columbia Gorge: The Parks Superintendent reported that an appraisal has been made showing the value of the timber at $918 and the land at $400, or a total of $1,318. It appears that Mr. Luscher may want $4,000 for the property. No action, he stated, will be taken until he has received a recommendation in writing from the Gorge Committee.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway improvements and for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHBIT "A", which resolution by this reference is made a part hereof, with like effect as though extended in full herein:

The Commission approved the Right of Way Engineer's request for authority to negotiate the purchase of the following properties for which no authority previously had been granted:

COUNTY AND SECTION	FILE NO. AND NAME	PURPOSE	HIGHWAY
Linn			
Southern Pacific Overcrossing-Lane County Line	23482-Foster	Quarry Site	Pacific East
	23483-Holloway	Quarry Site	Pacific East
	23579-Bond	Quarry Site	Pacific East

The Commission considered and, upon favorable recommendation by the Right of Way Engineer, confirmed the sale of miscellaneous items by the Property Manager since the last Commission meeting.

(For details of the items sold see Miscellaneous Sales Report, dated June 30 and July 1, 1955, in the Commission's files in Salem).

An extension of an industrial lease to the Howard Cooper Corporation for the use of State-owned property on the T. H. Banfield Expressway was discussed by the Commission. The Right of Way Engineer stated that the proposed extension is for ten years beginning December 31, 1955, at a monthly rental of $1,600, whereas the original lease provided for rental at $1,100 per month; also, that the extension contains a six-month cancellation clause. Upon his favorable recommendation, the Commission approved the new lease.

Transfer to Douglas County of 0.35 acre of land on the Winchester Bay-Umpqua River Section of the Pacific Highway was considered by the Commission. The Right of Way Engineer explained that a frontage road is being taken over by Douglas County as a part of the county road system and it is felt that the county should have title to this parcel of property which was originally purchased as a part of the frontage road. He recommended that a deed be given to the County. The Commission approved the recommendation.

Sale of 3,600 square feet of excess property on the Noble Slough-Foster Section of the Santiam Highway in Linn County was discussed. The Right of Way Engineer advised that this property was advertised for sale at public auction on June 13, 1955 and that A. W. Boggs submitted the only bid therefor at $400. He recommended that the sale be approved, with no access rights to the Santiam Highway. The Commission approved the recommendation.

The Commission also gave attention to the sale of a parcel of land on the La Grande Section of the Wallowa Lake Highway in Union County. This piece of property which contains 2,345 square feet was offered for sale at public auction on June 7, 1955. R. J. Green submitted the only bid in the amount of $100. As the bid represents a fair price for the land, the Right of Way Engineer recommended that the sale be approved. The Commission approved the sale.

The Right of Way Engineer requested authority to offer for sale at public auction a parcel of land containing 0.40 acre on the Banfield Expressway in Multnomah County, with the explicit understanding that no access rights will accrue to the Banfield Expressway. He said that the property no longer is needed for highway purposes. The Commission authorized the sale at a minimum price of $1,500 by adoption of the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to compensating Mr. J. A. Sansbury for releasing the State from its obligation to construct a concrete box around a spring located at the edge of the right of way on the Siletz River-Depoe Bay Section on the Oregon Coast Highway in Lincoln County, and to relocate his pipe line to the new building site. The Right of Way Engineer stated that Mr. Sansbury has agreed to develop an alternate source of water and will relieve the State from its obligation if paid the sum of $365. He recommended settlement on such basis provided Mr. Sansbury will execute a complete release. The Commission adopted the recommendation.

Presented for consideration by the Commission was a proposed settlement with Winifred A. Kimble and C. Omar and Irene E. Culy for reestablishment of their water system on the Jacksonville Grade Unit of the Provolt-Jacksonville Section of the Medford-Provolt Highway in Jackson County. The Right of Way Engineer requested confirmation of telephonic approval for payment of $375 to these people, provided they release the State from all obligation. The Commission confirmed the settlement.

A proposed settlement with the Kernville-Gleneden Beach Water District concerning the moving of its water pipe necessitated by construction of the Siletz Bay-Miner Creek Section of the Oregon Coast Highway in Lincoln County was considered. The Right of Way Engineer explained that the State previously agreed to move the pipe line when the highway was constructed but it developed that the old pipe was badly deteriorated and the Water District decided to install new pipe. To avoid

complications and to discharge the State's obligation in the matter, he recommended that the Water District be paid the sum of $2,352.59, provided it will give the State a complete release of all obligations contained in the right of way option. The amount to be paid, he stated, was determined by the State Highway Engineering Department. The Commission approved the recommendation.

The Right of Way Engineer recommended and the Commission approved renewal of a lease agreement with Mr. and Mrs. C. A. Van Dyke concerning a parcel of property on the Nehalem Highway in Washington County, which is being used as a stock pile site. The present lease, he stated, expires June 7, 1955, and the new lease is for a period of three years beginning June 7, 1955, and involves a total consideration of $75.

The Commission gave attention to the sale or lease of boom rights on the Willamette River in Oregon City that are under control of the Highway Department at that location. The Right of Way Engineer recalled that at a previous meeting the Commission ordered an investigation of the matter, particularly as to whether sufficient rental was being charged for use of the rights. It was his thought that when the present lease expires, bids should be received at public auction for lease of the rights, with a minimum consideration of $600 per year. Chairman Chandler interposed the suggestion of outright sale and inquired if there is any reason why the property should not be sold. Commissioner McIver expressed his opinion that it would be better business to sell the rights rather than to lease them. The Commission instructed the Right of Way Engineer to have the rights appraised and report the results.

(The Right of Way Engineer reported later that the rights are valued at not less than $10,000. Following discussion the Commission authorized him to sell the rights at public sale for not less than such sum. The attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission unanimously.)

Disposal of excess property between 6th Avenue and 7th Avenue in the westerly part of Eugene had the attention of the Commission. This matter, the Right of Way Engineer recalled, was discussed at a previous Commission meeting, when he was requested to present a report as to whether the property should be leased or sold. Some of the property, he stated, is now under lease until December 1, 1960 and he recommended that the remaining leased property, including that leased to the Big Y Supermarket, be continued under lease until that time so the leases will expire simultaneously, and then be advertised for sale at a minimum price to be determined at that time. The Commission accepted the report and ordered immediate sale of all unleased property on the south side of 7th Avenue. The Commission approved and later signed a form of lease covering the property that is being used by the Big Y Supermarket, containing an expiration date of December 1, 1960.

The Right of Way Engineer recommended acceptance of an easement from the Bonneville Power Administration granting the State Highway Department the right to use 0.83 acre of land for highway construction and maintenance on the Salem-Stout Creek Section of the North Santiam Highway. He pointed out that the easement supersedes the State's acquisition. The Commission approved the easement.

The Right of Way Engineer also brought up the matter of eliminating a frontage road on the Salem-Stout Creek Section of the North Santiam Highway and granting to Mr. and Mrs. A. P. Erpelding, Mr. and Mrs. Harvey A. Fery and to Mr. and Mrs. Robert L. McCall in lieu thereof farm and private residential access. He explained that in deeds previously executed complete restriction of access had been secured on condition that the State would build a frontage road on the southerly side of the highway for the benefit of these people, but it now appears that it would be to the State's advantage to grant farm and residential access rather than to construct the frontage road, and the property owners have agreed to such change. He recommended, therefore, that the frontage road provision be cancelled and that the farm and residential access be granted as a substitute arrangement. The Commission accepted his recommendation.

The Right of Way Engineer recommended that a parcel of property, containing 0.061 acre, and another parcel, containing 0.304 acre, located on the old route of US99W near Oregon College of Education, be deeded to the City of Monmouth. This property, he said, was acquired for widening but now is no longer needed because the highway has been relocated. The Commission approved the transfer.

Based upon the Right of Way Engineer's favorable recommendation, the Commission approved a change in access point from Station 335+80 to Station 334+15 on the Chaney estate located on the Goble-St. Helens Section of the Columbia River Highway in Columbia County.

The Commission accepted a permit from the U.S. Army Engineers granting to the State the right to use a material storage site within the boundaries of The Dalles Dam project. The Right of Way Engineer explained that this permit is granted without cost to the State for a period of one year, with an option of renewal.

Consideration was given to an agreement with the U. S. Bureau of Reclamation covering right of way needed across its Owyhee project on the Olds Ferry-Ontario Section of the Old Oregon Trail, about three miles north of Ontario. This easement, the Right of Way Engineer explained, is necessary in connection with the State's construction program in this area, and he recommended that the easement be approved. The Commission accepted his recommendation.

Settlement of a claim made by Leslie and Myrtle Watters in connection with the re-establishment of their water line on the Tide Creek-St. Helens Section of the Columbia River Highway was discussed. The Right

of Way Engineer explained that in acquiring right of way for this highway section the State is obligated by the option to re-establish the Watters water line. It was his opinion, and he so recommended, that it would be better to pay the Watters the sum of $3,256 in cash, with the provision that they re-establish their own line thus relieving the State from all responsibility in this matter. The Commission approved the settlement.

The Right of Way Engineer requested authority to offer for public sale 0.5 acre of excess right of way on the Beaverton-Reedville Section of the Tualatin Valley Highway for a minimum price of $2,000. This property, he stated, is no longer required for highway purposes. The Commission authorized the sale as requested.

A proposed expenditure of $2,000 to renovate the MackTruck building on the Banfield Expressway in Portland was presented by the Right of Way Engineer. He explained that the present lease expires in six months and it was his thought that it would be wise to expend the $2,000 to fix the building so that it would be attractive to a new lessee, and probably will bring a higher rental. The Commission approved the expenditure.

Commissioner Reynolds inquired when it is expected that the T. H. Banfield Expressway will be completed. The Engineer replied that if present plans mature, completion should be made in 1958. It will probably be necessary, he added, to transfer some funds in order to hasten completion.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties which are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution dated December 20, 1951:

Beaverton-Forest Grove Section of the Tualatin Valley Highway

R-1144- The Reed Institute
Right of Way (Washington)
900 square feet

R-22810- Worth D. Wilson
Right of Way (Washington)
0.1 acre

R-22821- Ruth M. Ross
Right of Way (Washington)
0.12 acre

R-22832 H. A. Nielson
Right of Way (Washington)
0.42 acre

Beaverton-Forest Grove Section of the Tualatin Valley Highway (cont)

R-22849- E. H. Seemann
Right of Way (Washington)
0.08 acre

R-22862- Raymond R. Mathis
Right of Way (Washington)
0.23 acre

R-22881- James Leveton
Right of Way (Washington)
0.26 acre

Jump Off Joe Creek-Grants Pass Section of the Pacific Highway

R-23274- Sylvia Lake
Right of Way (Josephine)
6.64 acres

R-23275- Edna Glines and Josephine County
Right of Way (Josephine)
Parcel No. 1: 11.0 acres
Parcel No. 2: 1.66 acres

R-23276- John M. Green
Right of Way (Josephine)
5.6 acres

R-23277- Peter Schmuck
Right of Way (Josephine)
1.35 acres

R-23280- William J. Morris
Right of Way (Josephine)
1.62 acres

R-23282- Mary Josephine Hurst
Right of Way (Josephine)
0.63 acre

R-23732- Mary Josephine Hurst
Right of Way (Josephine)
1.30 acres

R-23283- E. D. Morgan
Right of Way (Josephine)
6.06 acres

R-23284- Martha A. Morris
Right of Way (Josephine)
11.32 acres

R-23285- William V. Burgess
Right of Way (Josephine)
1.19 acres

Jump Off Joe Creek-Grants Pass Section of the Pacific Highway (cont)

R-23286- M. W. Koons
Right of Way (Josephine)
3.32 acres

R-23288- J. A. McKnight
Right of Way (Josephine)
1.65 acres

R-23295- Harry H. Dutton
Right of Way (Josephine)
Parcel No. 1: 0.97 acre
Parcel No. 2: 0.02 acre

R-23296- Earl V. Ingels
Right of Way (Josephine)
4.88 acres

R-23300- Jesse L. Adams
Right of Way (Josephine)
1.27 acres

R-23301- D. P. Schnakenburg
Right of Way (Josephine)
4.25 acres

R-23307- V. E. Vinyard
Right of Way (Josephine)
0.68 acre

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-21553- Schnitzer-Wolf Investment Co.
Right of Way (Multnomah)
0.85 acre

R-22545- Sam Fazzolari
Right of Way (Multnomah)
10,000 square feet

R-22549- Edward L. Kelley
Right of Way (Multnomah)
5,000 square feet

N. E. 122nd Avenue Connections to the T. H. Banfield Expressway

R-23791- Robert Beadle
Right of Way (Multnomah)
1.1 acres

June 30, 1955

N. E. 122nd Avenue Connections to the T. H. Banfield Expressway (cont)

R-23792- Ruby E. Seaburg
Right of Way (Multnomah)
16,977 square feet

R-23799- Oran O. Kerley
Right of Way (Multnomah)
1.41 acres

R-23800- Joseph F. Garbarino
Right of Way (Multnomah)
0.12 acre

Southern Pacific Overcrossing-Lane County Line Section of the Pacific Highway East

R-23482- Merlin Foster
Road-building materials (Linn)
27.27 acres

R-23483- E. H. Holloway
Road-building materials (Linn)
13.22 acres

R-23579- Frank M. Bond
Road-building materials (Linn)
7 acres

Rice Hill-Chenoweth Park Section of the Pacific Highway

R-21193- Winston Glenn Walker and Glenn Walker
Right of Way (Douglas)
Parcel No. 1: 2.73 acres
Parcel No. 2: 0.37 acre

Goshen-Divide Section of the Pacific Highway

R-23448- Hubert Hickethier
Road-building materials (Lane)
11.7 acres

Deschutes River Section of the McKenzie Highway

R-23764- The Estate of Millie P. Struss, deceased
Right of Way (Deschutes)
9.0 acres

June 30, 1955

The Commission approved the request by adopting the attached resolutions relative thereto, marked EXHIBITS " K-1 " through " K-7 ", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

In discussing the properties to be condemned, Commissioner McIver inquired as to how much time is spent in negotiating with the property owners before condemnation proceedings are started. It was his opinion that better public relations could be secured if at least one contact were made with each property owner before filing the condemnation proceedings. He pointed out that it had come to his attention in at least one instance that the contract for highway construction had been awarded before the property owner was contacted at all concerning the purchase of his property. The Right of Way Engineer stated that on some jobs the Right of Way Department has only a few weeks to acquire the property while on other jobs several months' time is available. The Chief Counsel called attention to the fact that property appraisals to determine fair property value take considerable time and that good appraisers are very difficult to secure. The State Highway Engineer stated that this condition is better now than it used to be but if an enlarged construction program is undertaken it will again become serious. He suggested employment of more appraisers. Commissioner Reynolds inquired if the engineering department is furnishing descriptions in time to provide adequate right of way negotiations, to which the Engineer replied that it is also very difficult to secure an adequate number of qualified engineers. He also commented that if plans in Congress materialize, funds may be allowed for advance purchase of right of way. Chairman Chandler stated that he felt that all branches of the department are doing the best job they can under the conditions, but he also felt that it is bad public relations for the Highway Department, when adequate time is not allowed to negotiate for needed properties.

The Commission considered and approved the Chief Counsel's written report of cases which have been tried in court by his staff since the previous meeting of the Commission,as follows:

REPORT OF CONDEMNATION CASES TRIED June 2, 1955 to June 28, 1955

Case	County	Highway	Section	State's Offer	Defts. Demands	Verdict
L-2090 Holt	Lane	Pacific	Goshen-Divide	$13,157	$31,000	$14,975
L-2103 Bates	Lane	Pacific	Goshen-Divide	5,610	25,000	7,500
L-2289 Bolter	Wasco	The Dalles California	Sherman Junction-Willowdale	9,375	23,000	12,000

Report of Condemnation Cases Tried June 2, 1955 to June 28, 1955 (cont)

Case	County	Highway	Section	State's Offer	Defts'. Demands	Verdict
L-1894 Nunnen-camp	Coos	Oregon Coast	Forest Boundary Hauser	$ 2,175	$20,000	$ 2,500
L-2350 Johnston	Washington	Pacific Highway West	Tualatin River-Middleton	975	6,000	1,500
L-2338 Severin	Marion	Pacific Highway East	Salem By-Pass-Jefferson	3,700	20,000	5,000

REPORT OF TRIAL OF OTHER CASES

Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict of Judgment
L-2087	State	Ronsom, et al.	Marion	Damages for automobile accident	$64.73	$64.73
L-2295	State	Thrasher	Marion	Damages for automobile accident	$75.13	$75.13

(For further details of cases tried, see copy of the Chief Counsel's report in the Commission's Files in Salem, dated June 2 to 20, 1955 and June 20 to 28, 1955).

Concerning his report of cases tried, the Chief Counsel stated that a new and much shortened form of report was used this time to eliminate the voluminous reports which had been submitted previously. He inquired as to the Commission's attitude. Chairman Chandler stated that he felt that the abbreviated form would be acceptable but details should be given as before in cases where the verdict is considerably higher than the amount of the State's offer.

The Commission also considered and accepted a written report submitted by the Chief Counsel on cases which have been settled out of court since the last Commission meeting, as follows:

Case	County	Highway	Section	State's Offer	Amount of Settlement
L-2364 Curtis	Clackamas	Clackamas Secondary	Clackamas Overcrossing	$ 600.00	$ 750.00
L-2375 Shaw	Clackamas	Cascade Secondary	S.E. Flavel St.-Lake Road	5,500.00	7,508.00
L-2206 Thorp	Columbia	Columbia River	Goble-St. Helens	200.00	650.00
L-2302 Van Kleeck	Marion	Portland-Salem Expressway	Hayesville Junction-Wilsonville Junction	617.00	845.00
L-2354	Tucker	Umatilla	Weston-Weston Mountain	7,400.00	8,000.00

(Note: For further details see copy of the Chief Counsel's report of cases settled, attached to his letter of June 21 and June 28 in the Commission's files in Salem.)

The Commission also considered and approved the following offers that were tendered to property owners by the Chief Counsel prior to the institution of condemnation proceedings, in compliance with the resolution adopted at the Commission meeting on December 20, 1951:

Deschutes River-Biggs Section of the Columbia River Highway:

R-22023- Horace S. Carlisle, et al. 8.64 acres for stockpile site. Offer of $450 approved by Mr. McIver June 28, 1955.

Queen Avenue (Albany) Section of the Corvallis-East Side Highway:

R-23225- Mina Hansen, et al. 0.69 acre for right of way purposes. Offer of $500 approved by Mr. McIver on June 28, 1955.

Flora Spur Section of the Enterprise-Lewiston Highway:

R-20020- Samuel Curry et ux. 9.25 acres for acquisition of roadbuilding materials and 0.25 acre for easement for haul road. Offer of $1,642 approved by Mr. Reynolds June 8, 1955.

Euchre Creek-Wedderburn Section of the Oregon Coast Highway:

R-22952- S. O. Newhouse, et ux. 0.006 acre for easement for drainage facility. Offer of $100 approved by Mr. McIver on June 28, 1955.

June 30, 1955

Rocky Point-Brush Creek Section of the Oregon Coast Highway:

R-23011- Nellie Fromm. 3.11 acres for easement for diversion dam and overflow channel. Offer of $1,610 approved by Mr. McIver on June 28, 1955.

Myrtle Creek-Canyonville Section of the Pacific Highway:

R-21024- George D. Weaver, et ux. 3.14 acres for right of way. Offer of $3,300 approved by Mr. McIver on June 28, 1955.

Wilderville-Grants Pass Section of the Redwood Highway:

R-22404- Everett E. Robinson, et ux. 42.39 acres for the acquisition of a materials site. Offer of $5,075 approved by Mr. McIver on June 28, 1955.

Weston-Weston Mountain Section of the Weston-Elgin Highway:

L-2354- Keith E. Tucker, et ux. Increase in offer from $6,500 to $7,400 to cover increased acreage for right of way purposes. The revised offer was approved by Mr. Reynolds on June 2, 1955.

Consideration was given by the Commission to the question whether or not to authorize legal proceedings for the collection of damages arising out of the collapse of the Snake River Bridge at Nyssa. The Chief Counsel stated that although there appears little doubt that collapse of the bridge was caused by failure of the west portal brace of the east span of the bridge, and that this portal brace was struck by a truck owned by Mr. McCarver, the State still has no definite proof that it was Mr. McCarver's truck that caused the damage. He requested instructions whether or not to start legal proceedings to collect damages inasmuch as Mr. McCarver's insurance carrier has rejected the State's claim. After some discussion, Commissioner Reynolds moved that legal action be dismissed in this matter. The motion was seconded by Commissioner McIver and was declared by Chairman Chandler to have received the unanimous vote of the Commission.

The Chief Counsel recommended that Mr. Frank I. Towle be authorized to go to Olympia, Washington, July 21, 22, and 23, at State expense to examine records pertaining to Natt McDougall's construction operations within the State of Washington, the information to be used in connection with Mr. McDougall's suit for additional compensation arising out of a State Highway contract. Mr. Towle's expenses, he stated, will not exceed $50. The Commission authorized this out-of-state travel.

The Commission gave attention to a request submitted by the Chief Counsel for adjustment in salaries for attorneys working for the Highway Department which have been authorized by the Attorney General, as follows:

Name	Present Classification	New Classification	Present Salary	Authorized Salary
Enfield, Clifton W.	Attorney VI		$700.00	$738.00
May, Robert L., Jr.	Attorney VI		651.00	672.00
DeSouza, Joseph W.	Attorney VI		651.00	672.00
Lindas, Leonard I.	Attorney VI		672.00	No change
Peterson, Charles	Attorney V	Attorney VI	630.00	651.00
Wyckoff, Ralph	Attorney V		610.00	630.00
McKinney, Frank C.	Attorney IV	Attorney V	590.00	630.00
Rohde, George E.	Attorney IV	Attorney V	570.00	610.00
Daniels, James B.	Attorney III		495.00	No change
McAdams, Owen	Attorney III		495.00	No change
Morgan, Frederick A.	Attorney III		513.00	551.00
Hampton, Leslie B.	Attorney I		442.00	459.00
McLean, John C.	Attorney I	Attorney II	459.00	477.00
Puckett, P. K.	Attorney I		410.00	442.00

The Commission approved the increases as requested.

It was also called to the Commission's attention that Mr. C. W. Enfield, the present Chief Counsel, was appointed as Chief Counsel for the Commission on October 12, 1951 for a four-year term, and inasmuch as this is the last Commission meeting prior to October 12 at which all three members of the Commission will be present, it was suggested that if the Commission so desires, a re-appointment be made at this meeting. The Commission re-appointed Mr. Enfield as Chief Counsel for the State Highway Commission for a term of four years, commencing on the First Day of July, 1955, at a salary of $738 per month by adopting the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Attention was given to a claim submitted by employees of the Consumers Co-operative Association for loss of wages by reason of damages to their plant near Swisshome on the Siuslaw Highway caused by blasting operations of a State Highway crew on January 5, 1955. The Chief Counsel recalled that this matter was discussed by the Commission at its meeting in March and was denied; however, Mr. Wm. A. Babcock, Attorney for the employees involved, has asked reconsideration of the Commission's decision in view of the passage of House Bill No. 763 by the 1955 legislature and O.R.S. 366.430 which authorize the Commission to expend the sum of $36,837.59 in payment of claims for property damage arising from the blasting operation. He gave as his opinion that there is no legal liability for the claims presented by Mr. Babcock and payment of them would create an undesirable precedent which could lead to an endless chain of remote and speculative claims. He recommended confirmation of the previous action. The Commission accepted the recommendation.

The Engineer also reported the revision of previously placed load limits on the East Diamond Lake Secondary Highway so that vehicles may haul 11,000 pounds gross on any single axle, 20,000 pounds on any pair of tandem axles, and 36,000 gross pounds on any vehicle or combination of vehicles. This revision became effective at 11:30 a.m., May 25, 1955. The Commission accepted the report.

Removal of load limits previously placed on sections of state highways was reported by the Engineer, as follows:

1. Weston-Elgin Secondary Highway-Load limit removed 8:00 a.m., June 20, 1955, from M.P. 11.33 at the Basket Mountain Road, to M.P. 37.94 at Summerville Road.

2. East Diamond Lake Secondary Highway-Load limit removed entire length of highway at 8:00 a.m., June 22, 1955.

3. West Diamond Lake Secondary Highway-Load limit removed at 8:00 a.m., June 22, 1955, from M.P. 8.0 to M.P. 23.89.

The Commission accepted the report.

The results of bids received in Salem on May 31, 1955 for purchase of obsolete equipment and scrap materials located at Salem, La Grande and Klamath Falls was presented by the Engineer. The total amount of high bids, he commented, was $27,444.66 whereas the appraised value on these items amounted to $20,094.00. He recommended award to the high bidder for each of the 113 items. The Commission accepted the recommendation.

Consideration was given by the Commission to a request from Virgil Rose for permission to truck-haul logs over the Alsea-Deadwood Secondary Highway northerly from its summit a distance of 3.99 miles to the Coquille Valley sawmill. The Engineer advised that Mr. Rose has approximately 1-$\frac{1}{2}$ million board feet of timber to market. He pointed out temporary permits have been granted in the past to haul logs over the southerly portion of this highway under official flagging conditions, but not over the northerly portion, and inasmuch as the highway at the summit does not have sufficient width for two vehicles to pass safely, he recommended that Mr. Rose's request be denied. The Commission deferred action on this matter pending the appearance of Mr. Rose before the Commission on the following day.

(When Mr. Rose appeared before the Commission he was informed by Chairman Chandler that the Engineer would make an investigation on the ground to determine whether or not the logs can be transported without undue hazard to other traffic and that the Commission will study his report sometime during its road trip in Eastern Oregon July 11 through 14, 1955. See additional entry ahead.)

The Engineer reported that as previously authorized by the Commission he has awarded the following contracts which were referred to him by the Commission to award when certain conditions had been satisfied:

1. Abiqua Creek Bridge, Marion County. Bids received May 25, 1955. Conditions of award satisfied June 13, 1955. Concrete Structures, Portland, contractor.

2. Mill Creek and Pen Annex Bridges, Marion County. Bids received May 26, 1955. Conditions of award satisfied June 13, 1955. Tom Lillebo, Reedsport, contractor.

3. Turner-Aumsville Section of Salem-Turner-Aumsville Road grading and paving, Marion County. Bids received May 26, 1955. Conditions of award satisfied June 13, 1955. Warren Northwest, Inc., Portland, contractor.

4. Chitwood Creek-Siletz Section of the Siletz Highway, stone base and oiling and furnishing crushed material in stock piles, Lincoln County. Bids received May 25, 1955. Conditions of award satisfied June 14, 1955. Central Paving Company, Independence, contractor.

5. Grading and paving Park Avenue-Gladstone Section of the Oatfield County Road in Clackamas County. Bids received May 25, 1955. Conditions of award satisfied June 16, 1955. K. F. Jacobsen & Company, Inc., Portland, contractor.

6. Construction of Ross Island Bridge East Ramp, Multnomah County. Bids received May 26, 1955. Conditions of award satisfied June 20, 1955. Manson Construction & Engineering Company, Seattle, Washington, contractor.

7. Deschutes River Section of the McKenzie Highway, Deschutes County. Bids received May 26, 1955. Conditions of award satisfied June 24, 1955. Durbin Brothers, Eugene, contractor.

The Commission accepted the Engineer's report.

Placing of reduced load limits on the West Diamond Lake Secondary Highway was reported by the Engineer. He stated that under authority previously granted by the Commission he had placed reduced load limit allowing 11,000 pounds gross on any single axle, 20,000 pounds gross on any pair of tandem axles, and 36,000 pounds maximum gross load, from M.P. 8.00 to M.P. 23.89 on the West Diamond Lake Secondary. This load limit was effective at 8:00 a.m., June 1, 1955. The Commission accepted the report.

Reclassification of the Williams Secondary Highway, No. 261, from Provolt at M.P. 13.79 to the southerly end of the highway at its intersection with the Munger Creek County Road at M.P. 23.13 was reported by the Engineer. He stated that at the request of lumber and timber interests test runs were made which indicated that a 60-foot truck and full trailer can be operated over this section of highway without encroaching on the opposing traffic lane. As the result of these tests and under authority previously granted, the section mentioned has been reclassified from a Group II to a Group I standard. The Commission accepted the report.

The Commission gave attention to a report submitted by the Engineer concerning the improvement of the Alsea Highway over Alsea Mountain. He said that as previously ordered by the Commission, an investigation was made and it was determined that it would be necessary to reconstruct a seven-mile section of the highway to make proper improvement over the summit. The survey for this improvement, he stated, is estimated to cost $35,000 plus approximately $14,000 for an aerial survey. It was his opinion that, unless the Commission intends to proceed with this improvement in the near future, engineers should not be taken from other work to make this survey notwithstanding that the project is solvent. In the discussion that followed, it was pointed out that the section under discussion is crooked but was recently repaved; also, that improvement of the Pioneer Mountain Section on the Corvallis-Newport Highway has a higher priority rating. The Commission decided not to authorize the survey of the Alsea Mountain Section at this time.

The Engineer reported that, as requested by the Commission at its May meeting, a study has been made of the acreage of farm land that will be destroyed by the proposed relocation of the Salmon River Highway by-passing Sheridan and Willamina, and it was found that a total of 196 acres of either cultivated or fenced pasture land will be needed for the 200-foot right of way for the new location of this highway. Of this total, 54 acres, he said, lie between Wallace Bridge and Valley Junction and 142 acres lie between Wallace Bridge and the end of the project, approximately one mile east of Sheridan. The Commission accepted the report and instructed the Engineer to pass the information on to Governor Patterson.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m., with the same persons present and participating.

The Engineer reported a telephone conversation with Mr. E. R. Fatland and State Senator Stewart Hardie who request that the Commission give careful consideration to a telegram submitted by Mr. Van Rietman and 18 other people urging the oiling of the graveled portion of the Wasco Secondary Highway between Condon and the John Day River at the earliest possible date. The Engineer read the telegram aloud and commented that the unoiled portion is about 20 miles long. The Commission instructed the Engineer to bear this project in mind in the preparation of the 1956 budget.

The Commission considered items of unfinished business appearing on the Secretary's Summary, dated May 26, 1955, as follows:

1. Proposed construction of Clay Street Interchange in the City of Portland: The Engineer stated that his report on this project is now ready and that copies had been mailed to the Commission. He pointed out details of the project as outlined in the report. Portland city officials, he stated, are agreed that this is the most critical spot for the handling of traffic in the City. He recommended that authority be granted to advertise the project for bids to be received by the Commission at its August meeting. Chairman Chandler commented that the original project had been set up for $600,000 but the Engineer had not called attention at that time to the necessity for the Jefferson Street Interchange. The Engineer stated that the Jefferson Street Interchange is an integral part of the project and it had not been his intent to omit mention of it. He called attention again to the fact that the City of Portland officials feel that this is a most essential project and that traffic lights now installed on Harbor Drive have reduced the movement of traffic by 40 per cent. Commissioner McIver expressed doubt that any advantage would be gained by delaying the project. Commissioner Reynolds inquired if contracting this project will retard completion of the T. H. Banfield Expressway. The Engineer replied in the negative and pointed out that construction of the Market-Clay-Columbia Street Interchange will provide immediate benefits for traffic. Chairman Chandler inquired if the Engineer is definitely certain that the proposed interchange will fit into the over-all traffic development picture for the Portland Metropolitan area. The Engineer replied in the affirmative. Motion was thereupon made by Commissioner McIver that the Commission approve the Engineer's report and authorize construction of the Clay Street-Market Street Interchange, bids to be received at the August meeting. Commissioner Reynolds seconded the motion and it was declared unanimous by Chairman Chandler. This item is to be removed from the list of unfinished business.

2. Park at the mouth of the Deschutes River, as proposed by the Deschutes County Planning Commission and The Dalles Chamber of Commerce: This item was considered in a report submitted by the Parks Superintendent earlier in the day. The Commission ordered the item removed from the list of unfinished business.

3. Lease of property on Seventh Avenue West in Eugene to Big Y Supermarket: This item is to be removed from the list of unfinished business as it was considered earlier in a report presented by the Right of Way Engineer.

4. Request of Benton County delegation for improvement of the Alsea Highway over Alsea Mountain: This item was considered in a report presented earlier by the Engineer. The Commission ordered it deleted from the list of unfinished business.

5. Request of Mrs. Blanche Tipton for additional access to her property on the Pacific Highway near Roseburg: The Engineer recalled that the location was inspected by the Commission on its June trip. He recommended again that the request for access be denied. The Commission accepted the recommendation and ordered that Mrs. Tipton be notified in writing of the action taken. The item is to be deleted from the list of unfinished business.

6. Complaint of Judge Latourette that the State is leasing river frontage in Oregon City at too low a rate: The Commission ordered this item deleted from the list of unfinished business as it was disposed of in a report submitted by the Right of Way Engineer earlier in the day.

7. Request for signs on scenic drives in Hood River Valley: Action was deferred on this matter pending inspection by the Commission on its July 11-14 trip through Eastern Oregon. The matter is to remain on the list of unfinished business.

8. Survey to determine the amount of farm land destroyed by new highway location between Sheridan and Valley Junction: This item was considered in a report rendered by the Engineer earlier in the day, and the Commission ordered it deleted from the list of unfinished business.

9. Request of Astoria Navigation Company for compensation for additional personnel required by the Coast Guard in connection with the operation of the Astoria ferries: The Commission ordered this item deleted from the list of unfinished business. It is to be considered as new business if and when it again arises.

10. Request from Columbia Gorge Committee for acquisition of eight areas in the Columbia Gorge: Earlier in the day the Parks Superintendent reported that he is awaiting a formal written recommendation from the Gorge Committee concerning the areas they wish acquired in the Gorge. The item is to remain on the list of unfinished business.

The Chief Counsel requested approval of the installation of a system of air conditioning in the room occupied by the Right of Way Department in the State Highway Building in Salem. He explained that this is an inside room in which from 25 to 30 people are employed. To provide better working conditions for these people, he proposed installation of an air distribution system which will provide fresh air for the room in a better manner than is now provided. The Commission approved an expenditure of $1,500 for such installation.

Attention was given to requests from the Prospect Lions Club, Jackson County Chamber of Commerce and from residents of Medford, Prospect, Tiller, and other nearby areas for improvement of a sharp curve on the Crater Lake Highway, approximately 300 yards southerly from Casey State Park, which is approximately seven miles north of Trail. The Engineer advised that an investigation of the section was made by Mr. W. W. Stiffler, Assistant State Highway Engineer, on June 18, and it was determined that to widen the curve 15 feet, which would provide width for standard shoulders would cost approximately $25,000. The improvement, he stated, is justified as the average daily traffic is approximately 1,650

vehicles, many of which are trucks. He recommended that authority be granted to conduct a short survey to determine accurately the quantities involved and the estimated cost, and that the project be considered in the 1956 Minor Betterment Budget. The Commission authorized the survey.

A request from the City of Rockaway for oiling of the shoulders on the Oregon Coast Highway within the town was considered. The Engineer estimated the cost to oil the shoulders from 18 to 20 feet on one side and from 8 to 10 feet on the other side for a distance of 1,750 feet at $4,000. The project, he stated, is needed and he recommended approval of the expenditure, the work to be performed with State forces as a Minor Betterment job during this summer. The Commission approved the recommendation.

Consideration was given to requests from the Siletz Chamber of Commerce and the Siletz Valley Grange to construct a new bridge across the Siletz River on the Siletz Secondary Highway just south of the town of Siletz, as a replacement of the existing bridge that was recently damaged by a truck. The Engineer advised that a survey to determine the site and the cost of a new bridge has been made and from the information gathered it has been determined that the new bridge structure alone will cost $175,000, and that to construct the approaches to the bridge, including grading and paving, will cost an additional $100,000, or a total of $275,000 for the entire project. He recommended that an expenditure of $175,000 be authorized at this time for construction of the bridge, with approval to be secured at a later date for the amount necessary to construct the approaches. The Commission approved the recommendation and authorized the taking of bids for the project at the August meeting.

The Engineer reported that in construction of the new interchange at Swift Boulevard and Denver Avenue in North Portland considerable readjustment of drainage conditions is required and it has been determined that better drainage can be obtained by connecting a state storm sewer with an existing sewer previously installed by Mr. Frank Kernan. An agreement, he stated, has been reached with Mr. Kernan whereby Mr. Kernan will permit the state drainage system to be connected with his system upon the payment of $1,000, and he will maintain the drainage system at his own expense. Inasmuch as this drainage plan is desirable and less costly than other systems investigated, he recommended that it be approved. The Commission adopted the recommendation.

The Commission considered requests from Coos and Washington Counties for additions to the Federal-Aid Secondary (County Road) systems of these counties. The Engineer advised that Washington County wants to add the County Road that extends easterly from Hillsboro along Base Line County Road to Wheeler Road thence southerly to Aloha, 6.9 miles in length, and that Coos County wants to add a road that extends westerly from the Oregon Coast Highway at the Chrome Plant northwest of Coquille, to a county road junction approximately three miles south of the Seven

Devils Chrome Mine, also 6.9 miles in length. The existing Southern Pacific Railroad Overcrossing on this road, he stated, is in need of immediate replacement and Coos County desires to use FAS funds for a new structure. Upon his favorable recommendation, the Commission approved both additions to the Federal-Aid Secondary System as requested.

The Engineer presented a tabulation showing the status (As of May 31, 1955) of Federal-Aid Secondary County Road Funds, and another tabulation with descriptions and maps indicating additional Federal-Aid Secondary projects requested by Coos, Harney, Multnomah and Washington Counties. He recommended approval of the following projects:

ADDITIONAL PROPOSED 1956 & 1957 COUNTY FAS PROJECTS

County	FAS Hwy. No.	Section and Description	Programmed Amount	FAS Fund
Coos	677	Chrome Plant Overcrossing Section	$188,000	'57
Harney	450	Wrights Point Section (State Highway). NOTE: This is a state highway project for which Harney County has agreed to release $30,000 of Federal funds. As Federal funds represent 60% of the county's total fund allocation, available total funds are being reduced by $50,000.	$ 50,000	'56
Multnomah	582	S.E. Stark Street-Powell Valley Road Section, 3.3 Miles. Pave.	$ 80,000	'57
	654	Halsey Street-South Section. Grade and Pave.	$444,000	'57
		Subtotal, Multnomah County	$524,000	
Washington	676	Rock Creek & Beaverton Creek (2). Bridges.	$100,000	'57
TOTAL			$862,000	

June 30, 1955

Additional Proposed 1956 & 1957 County FAS Projects (cont)

SUMMARY BY FISCAL YEARS

	1956 (2)	1957	Total
Available Funds (1)	$3,176,000	$3,100,000	$6,276,000
Previously Approved (1)	2,796,000	1,406,000	4,202,000
Unprogrammed Balance (1)	$ 380,000	$1,694,000	$2,074,000
Proposed Projects 6/15/55	50,000	812,000	862,000
Unprogrammed Balance	$ 330,000	$ 882,000	$1,212,000

(1) These are revised totals from the "Status, 1954 & 1955 County FAS Funds" and "Status, 1956 & 1957 County FAS Funds" tabulations dated May 31, 1955.

(2) 1956 available funds include $76,000 unprogrammed 1955 funds as shown in the "Status, 1954 & 1955 County FAS Funds" tabulation dated May 31, 1955.

The Commission approved the projects as recommended.

(For details of Status Report see copy of report covering 1954-1955 and 1956-1957 County F.A.S. funds, dated May 31, 1955, in General Files.)

Consideration was given to a request from the City of Lebanon for installation of traffic signals on Main Street, in Lebanon, at its intersection with Ash Street, Sherman Street, and Grant Street, and a fourth signal at the intersection of Park Street and Grant Street. The Engineer pointed out that these intersections are on the one-way couplet of the Santiam Highway through the city. He estimated the cost involved at $13,000 and he recommended that the installation be approved on the basis that the cost is to be shared equally by the City and the State, with State funds to be secured from the 1955 Minor Betterment Budget for traffic signal projects. The Commission approved the recommendation.

The Engineer reported that a number of cities and towns have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds accrued to them during the second six months period of 1954. He said that the plans for the projects proposed by each, have been examined and found satisfactory, and he recommended approval of the plans by the Commission. The Commission unanimously approved the plans as recommended by adopting the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein. (For a list of cities and towns and the amounts accrued to each, see EXHIBIT "E".)

The Commission considered and upon recommendation of the Engineer, approved the following requests for extensions of time within which to complete state highway contracts.

1. United Builders, Inc., Contract No. 4254, for construction of Halsey Street Undercrossing at 68th Avenue on the T. H. Banfield Expressway in Multnomah County, requested an extension of time from May 31, 1955 to July 31, 1955. Extension approved as requested without penalty.

2. United Builders, Inc., Contract No. 4039 for construction of Barbur Boulevard-Boones Ferry Road Unit Structures on West Portland-Hubbard Highway in Clackamas and Washington Counties, requested an extension of time from September 30, 1954 to June 30, 1955. Extension approved to June 30, 1955 with the understanding that the contractor will be penalized for all engineering expense incurred by the State in connection with this job after April 30, 1955.

3. Columbia Empire Constructors, Inc. and P. S. Lord Mechanical Contractors, Contract No. 4241, for construction of three structures on the Deady-Shady Section of the Pacific Highway in Douglas County, requested an extension of time from May 31, 1955 to September 1, 1955. Extension approved subject to the contractor paying the engineering expense incurred in connection with this job after July 15, 1955.

4. R. A. Heintz Construction Co., Contract No. 4064, for grading and paving Seven Oaks-Medford Unit, Blackwell Hill-Medford Section of the Pacific Highway in Jackson County, requested an extension of time from October 31, 1954 to July 1, 1955. Extension approved with the provision that the contractor shall pay the costs of actual field inspection necessary to complete the project this year.

5. Roy L. Houck & Son, Contract No. 3875, for grading Turner Road-Battle Creek Junction Unit, Salem By-Pass Section of the Pacific Highway East in Marion County, requested an extension of time from June 30, 1954 to November 30, 1954. Extension approved as requested without penalty.

6. L. P. Stubblefield, Contract No. 4128, for grading and paving Siuslaw Junction-Smithfield Section of the Territorial Highway in Lane County requested an extension of time from September 30, 1954 to July 30, 1955. Extension approved,without penalty, to and including June 1, 1955, which was the actual completion date of the project.

7. J. M. Arenz, Contract No. 4272, for grading and surfacing East Unit, Van-Drewsey Section of the Van-Drewsey County Road in Harney County, requested an extension of time from November 15, 1954 to June 10, 1955. Extension approved without penalty to the actual completion date, May 21, 1955.

8. Stephens and Carnes Construction Company, Contract No. 4197, for grading and oil mat surfacing East Unit, Rock Creek-Haines Section of the Rock Creek Road in Baker County, requested an extension of time from September 15, 1954 to August 31, 1955. Extension approved without penalty to and including June 2, 1955, the actual completion date of the project.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommenations on file in the respective contracts in the Secretary's office.

The Engineer reported that Contract Nos. 3875, 4039, 4053, 4065, 4128, 4130, 4156, 4197, 4209, 4215, 4227, 4232, 4250, 4261, 4272, 4279, 4284, 4304, 4321, 4345, 4347, 4361, 4365, 4375, 4377, 4381, 4393 and 4440 for construction of state highway projects have been completed according to the requirements of the contracts or modifications thereof, and that said projects are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Considered by the Commission was a request from Merle Brown, President of the Oregon City Chamber of Commerce, for construction of an underpass on the Pacific Highway East just south of the Clackamas River Bridge, north of Oregon City, to serve the Clackamas River Park. An investigation was made, the Engineer stated, and it was found that it would cost approximately $17,000 to provide such facility. It was his feeling that the expenditure is not warranted due to the small benefits derived. He recommended that the request be denied. The Commission deferred approval of the project until such time as more need for the same develops.

The Engineer reported that under authority previously granted by the Commission, he has completed surveys for relocation of several sections of state highways, as follows:

1. Ukiah-Forest Boundary Section of the Ukiah-Hilgard Secondary Highway in Umatilla County.

2. Bradley Park-Columbia County Line Section of the Columbia River Highway in Clatsop County.

3. Havana Section of the Havana-Helix Secondary Highway in Umatilla County.

4. Millicoma Bridge Unit, Enegren Ferry-Allegany Section of the Coos River Secondary Highway in Coos County.

He presented maps showing each located route and advised that in each instance the route selected is the one that will provide the greatest benefit for the largest number of people at the most economical cost. With respect to the survey of the Ukiah-Forest Boundary Section of the Ukiah-Hilgard Secondary Highway in Umatilla County, the Engineer explained that he made a personal inspection of the highway in the vicinity of Ukiah. He recalled that a survey previously adopted would by-pass the town of Ukiah. As a result of later studies and from his personal inspection, it has been determined that if the by-pass line were constructed, it would be necessary to build approximately one mile of new roadway to serve the community, which he estimated would cost $50,000. This means that the additional cost of the connecting road would make the proposed route cost about $39,000 in excess of the route through the town of Ukiah. The survey as now recommended, he stated, is based on routing the highway through the town. He recommended adoption of all four surveys as reported. The Commission approved the surveys as presented by the Engineer by adopting the attached resolutions relative thereto marked EXHIBITS "G-1", "G-2" and "G-3" , which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

An increase of $2,000 in the project authorization for the Ochoco Creek Bridge widening project on the Paulina Secondary Highway in Prineville, Contract No. 4335, was requested by the Engineer who explained that unsuitable foundation footings were encountered, which caused considerable excavation below the planned footing elevation. The Commission approved the increase.

Attention was given to a request from the City of Monmouth for widening a two block section of Pacific Avenue, route of US99W, in this town. An investigation was made, the Engineer reported, and it was found that the work would cost approximately $17,400. He gave as his opinion that such widening and curbing will not materially improve conditions for highway traffic, but will mainly benefit the adjacent properties. The Commission accepted his recommendation that the request be denied.

The Commission gave consideration to adjustments in the Federal-Aid and Bond Fund Programs as recommended by the Engineer, including the Emigrant Street project in Pendleton. With respect to the Emigrant Street project, the Engineer pointed out that it had been originally planned to construct a two-lane underpass, but opposition developed to such plan and additional studies were made based on construction of a four-lane overpass which was estimated to cost $750,000. Right of way costs, he said, were estimated at $610,000, making a total cost of $1,360,000 for the project. He further stated that the Union Pacific Railroad Company,

in its reply to the Public Utilities Commissioner concerning the State's application for a permit to build the overpass, stated that there is no warrant for the grade separation and that the Company refuses to pay any part of the cost. It was the Engineer's opinion that for the benefits to be derived, construction of a grade separation at a cost of $1,360,000 appears not to be justified. Accordingly, he recommended that the project be eliminated from the current construction program and that the $450,000 originally allocated to this project, be transferred to finance construction of a unit of the Pendleton-John Day Highway between Pendleton and Pilot Rock; also, that the Commission authorize preparation of plans and purchase of right of way on a section that can be constructed with the $450,000 thus made available.

The Commission also discussed additional program adjustments and additions listed in the Engineer's letter of June 29, 1955 superseding a list submitted to the Commission on June 9th. These program adjustments, the Engineer stated, are required to accomplish the following purposes: (1.) to rearrange fund allotments on the Banfield Expressway to better suit needs as they have developed; (2.) to provide funds to take care of flood conditions at Brush Creek in Curry County. (3.) transfer to the Beaverton-Hillsdale Highway $120,000 of Urban Funds released from the Flavel Street-King Road Project; and (4.) to provide funds for the construction of a new bridge across the Snake River at Nyssa. He advised that these changes, including the Emigrant Street project change, do not effect the basis on which allocations are made to the several divisions. He recommended approval of the following program of adjustments and additions to accomplish the above mentioned purposes:

Emigrant Street (Pendleton), Grade Separation

CANCEL previous allotments as follows:

1955 Primary Federal-aid Funds	$135,000	
1955 Urban Federal-aid Funds	315,000	
1956 Primary Federal-aid Funds	300,000	
		$750,000

Pendleton-Pilot Rock Section, Grading and Paving

APPROVE allotments as follows:

1955 Primary Federal-aid Funds	$135,000	
1956 Primary Federal-aid Funds	300,000	
		$435,000

Division 5 Reserve

APPROVE allotment as follows:

1957 Primary Federal-aid Funds (From Emigrant St. Project)	$315,000*

Banfield Expressway

CANCEL previous allotment to grading and paving on Union Ave. -42nd Ave. Unit as follows:

1957 Primary Federal-aid Funds	$251,000

APPROVE allotment for grading and paving on Union Ave. -42nd Ave. Section as follows:

1955 Urban Federal-aid Funds	$251,000

CANCEL previous allotment to 39th Avenue Grade Separation as follows:

1957 Urban Federal-aid Funds	$310,000

*This $315,000, when added to the currently available reserve of $67,000, will bring to $382,000 the unallotted reserve of Primary Federal-aid Funds in Division 5.

APPROVE allotment for grading, paving and structural work on Union Ave. -42nd Ave. Section as follows:

1957 Urban Federal-aid Funds	$310,000

CANCEL previous allotment to 112th Ave. Grade Separation as follows:

1954 Urban Federal-aid Funds	$ 65,000

APPROVE allotment for landscaping on 99th Ave. -Sundial Section as follows:

1954 Urban Federal-aid Funds	$ 65,000

APPROVE allotment for 39th Ave. and 33rd Ave. Grade Separations as follows:

1956 Urban Federal-aid Funds (From Division 1 Reserve)	$450,000

Brush Creek-Greggs Creek Section

APPROVE allotment for construction of Brush Creek Relief Channel and Culvert:

Bond Funds	$ 23,000

June 30, 1955

Urban Unit, Washington County Line-Hillsdale Section

APPROVE allotment for grading and paving as follows:

1956 Urban Federal-aid Funds (From Division 1 Reserve)	$120,000

Snake River Bridge at Nyssa

APPROVE allotments as follows:

1955 Secondary Federal-aid Funds	$151,000	
1956 Secondary Federal-aid Funds	89,000	
		$240,000

(Of the above amounts, $151,000 is available from a Division 5 Reserve of 1955 FAS Funds, $67,000 is available from savings on the Weston-Elgin and Ukiah-Starkey Projects.)

The Commission approved the adjustments and additions as presented.

The Commission discussed with the Engineer the status of construction of the T. H. Banfield Expressway. Chairman Chandler stated that the Commission would like very much to see the Expressway opened from its eastern end to 42nd Street in 1955. Mr. W. C. Williams, Deputy State Highway Engineer, stated that all work to 42nd Street is under contract, that the grading is completed, and that the 42nd Street Ramp should be done by October or November; also, that if the weather is suitable, the paving may be completed this season.

The Engineer suggested the following plan to advance construction of the Bradley Park-Wauna Section of the Lower Columbia River Highway in Clatsop County, plans for which have been completed: Temporary transfer of $1,200,000 of the total amount of bond monies heretofore allocated to finance construction of the Gold Beach-Pistol River Section of the Oregon Coast Highway in Curry County, the same to be replaced with 1957 Federal-aid money from Division II when it becomes available. He explained that plans for the Bradley Park-Wauna Project have been prepared and that this project can be advertised for bids to be received at the August meeting of the Commission, if the Commission approves; whereas, the Gold Beach-Pistol River Project will not be ready for contracting for some time. Chairman Chandler stated his approval of the temporary

transfer of the funds as suggested by the Engineer, with the strict understanding that the amount transfered will be replaced with 1957 Federal-aid money from Division No. II, when it becomes available. Commissioners Reynolds and McIver stated their approval of the condition whereupon the Commission unanimously approved the Engineer's suggestion and authorized him to advertise the Bradley Park-Wauna Project for bids to be received at the August meeting of the Commission.

The Engineer recommended establishment of reduced speed zones as follows, on State highway sections adjacent to several cities and towns in order to make the restrictions compatible with speed zones established by the State Speed Control Board within the limits of those cities and towns:

1. Cascade Secondary Highway No. 160 in Clackamas County between the south city limits of Oregon City, at M.P. 16.68, and a point .25 mile south of the south city limits of Oregon City, at M.P. 16.93---40 miles per hour. (See EXHIBIT "H-1".)

2. Oregon Coast Highway in Tillamook County from a point 0.10 mile north of the north city limits of Tillamook, at M.P. 76.22, to the north city limits of Tillamook, at M.P. 76.32---30 miles per hour. (See EXHIBIT "H-2".)

3. John Day-Burns Highway in Grant County from the south city limits of John Day at M.P. 0.38 to a point 0.30 mile south of the south city limits of John Day at M.P. 0.68---35 miles per hour.

From M.P. 0.68 to the north city limits of Canyon City at M.P. 0.94---45 miles per hour. (See EXHIBIT "H-3".)

4. John Day Highway in Grant County from a point 0.17 mile west of the west city limits of John Day at M.P. 161.76 to the west city limits of John Day at M.P. 161.93---35 miles per hour. (See EXHIBIT "H-4".)

5. Pacific Highway West in Benton County from the south city limits of Monroe at M.P. 103.26 to the south end of the Long Tom River Bridge at M.P. 103.28---35 miles per hour. (See EXHIBIT "H-5".)

6. On the McKenzie Highway in Lane County from the east city limits of Eugene at M.P. 1.38 W to a point 300 feet east of Jenkins Drive at M.P. 0.71 W---45 miles per hour.

From M.P. 0.71 W to a point 400 feet west of Henderson Avenue at M.P. 0.41 W---35 miles per hour.

From M.P. 0.41 W to the west city limits of Springield at M.P. 0.24---25 miles per hour. (See EXHIBIT "H-6".)

7. Elkton-Sutherlin Highway in Douglas County from a point 450 feet west of the new section of the Pacific Highway to the west city limits of Sutherlin---35 miles per hour, except that between a point 300 feet west of End Street and End Street, the indicated speed shall be 20 miles per hour during the hours of school crossings. (See EXHIBIT "H-7".)

8. Wallowa Lake Highway in Union County from the east city limits of La Grande at M.P. 0.42 to 50 feet east of Portland Street at M.P. 0.58---35 miles per hour.

From M.P. 0.58 to 450 feet west of the west city limits of Island City at M.P. 2.07---50 miles per hour.

From M.P. 2.07 to the west city limits of Island City at M.P. 2.16---35 miles per hour. (See EXHIBIT "H-8".)

The Commission approved the Engineer's recommendation in each instance by adopting the attached resolutions relative thereto, marked EXHIBITS "H-1" through "H-8", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein.

As a part of the over-all speed zone investigation on state highways in the Eugene area, the Engineer reported that an investigation was conducted on the McVey Secondary Highway in the community of Glenwood. This investigation indicated that the following speed zones should be designated and he so recommended:

From the McKenzie Highway at M.P. 0.00 to a point 0.15 mile south of 19th Street at M.P. 0.35---25 miles per hour, except that between a point 250 feet north of 19th Street at M.P. 0.15 and a point 500 feet south of 19th Street at M.P. 0.30 the indicated speed shall be 20 miles per hour during the hours of school crossings.

From M.P. 0.35 to a point 0.37 mile north of the McVey overcrossing at M.P. 0.65---40 miles per hour.

The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "H-9", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer recommended that parking be prohibited on the west side of the Alsea Highway, between Engineer's Station 668+50 and Station 670+45, where a County Road connects with the highway at the Five Rivers Bridge. He explained that the junction is a "T" type intersection and some time ago the highway was widened to permit log trucks to enter without encroachment on the opposing lane of traffic. It is desirable to keep this widened area clear of parked vehicles, he said, so the trucks will have adequate room to make the turn. The Commission approved establishment of a no parking zone by adopting the attached resolution relative thereto marked EXHIBIT "I-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer also reported that the St. Helens Chapter of the Veterans of Foreign Wars has called attention to a hazard caused by cars parking on the shoulders of the Lower Columbia River Highway in St. Helens at either side of the Fairgrounds. The matter was investigated and it was found that there is ample parking space inside the Fairgrounds so there is no necessity for the parking of vehicles on the highway shoulders. He recommended, therefore, that parking be pronibited on the shoulders of the Lower Columbia River Highway for 1,500 feet in each direction from the entrance and exit gates of the Fairgrounds (Engineer's Station 343+50 to Engineer's Station 373+50) during the time the County Fair is in progress. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "I-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer reported that in a short time the section of the North Santiam Highway connecting the Silver Creek Falls Highway and the Airport Road with the Salem By-pass will be opened to traffic, and he anticipates that when it is opened a large percentage of traffic now entering the City of Salem via the Silver Creek Falls Highway will use the new connection. In order to safeguard traffic at this point in view of the new conditions he recommended that traffic on the Silver Creek Falls Highway No. 163, southbound be required to stop at its junction with Road No. 162, the North Santiam Highway, at M.P. 3.57.

The Commission accepted the recommendation unanimously by adopting the attached resolution relative thereto, marked EXHIBIT "I-3", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

A request from the United Log Truckers Association, Inc., and others, that the truck-hauling of logs be permitted on Saturday afternoons was discussed. The Engineer advised that the requests are predicated on the need to stock-pile sufficient logs so as to provide orderly operations throughout the year, such stock-piling having been delayed by an unusually wet and late spring season. He suggested approval of the requests and that the Commission recommend to the Public Utilities Commissioner adoption of an amendment to the present regulations that would allow the hauling of logs, poles or piling over State highways on Saturday afternoons from July 9 to August 27, 1955, inclusive, but that no hauling is to be allowed on the afternoon of Saturday, September 3, which is part of the three-day Labor Day holiday. He pointed out that the hauling of logs, poles or piling on Saturday afternoons is now permitted in the regulations, beginning with the first Saturday after Labor Day. The Commission approved his suggestion and instructed the Secretary to convey such recommendation to the Public Utilities Commissioner.

Attention was given to a proposed agreement among the City of Eugene, the Southern Pacific Company and the State Highway Commission relative to construction of a sewer pipe line through certain headgates located in the millrace in Eugene. The City of Eugene, the Engineer stated,

has agreed to pay all costs and to hold the Highway Commission harmless by reason of the sewer line installation. As the project is of benefit to the City of Eugene and as no harm will be done to highway facilities, he recommended that the agreement be approved. The Commission approved the agreement as prepared.

Permission for Carl W. Jordan, Director of the Travel Information Department, to attend the annual meeting of the Pacific Northwest Travel Association at Paradise Inn in Mt. Rainier National Park, September 8, 9, and 10, 1955, at an estimated cost of $85 was recommended by the Engineer and approved by the Commission.

Installation of a text board to be placed on the old Yaquina Bay lighthouse site in Newport was discussed. Material submitted by the Lincoln County Historical Society, the Engineer stated, has been condensed into a text of practical length and has been approved by Mr. Thomas Vaughan, Director of the Oregon Historical Society. He recommended installation of a text board containing the following inscription, which he estimated will cost about $450:

> "THE OLD YAQUINA BAY LIGHTHOUSE ESTABLISHED IN 1871 IS THE EARLIEST AID TO NAVIGATION STANDING WITHIN THE RANGE OF THE FIRST RECORDED LANDFALL MADE FROM A SHIP TO THE SHORES OF THE PACIFIC NORTHWEST. CAPTAIN JAMES COOK MADE THIS LANDFALL ON MARCH 6, 1778. AT NOON HE NAMED CAPE FOULWEATHER. ON ACCOUNT OF THE HEAVY WEATHER HE WAS COMPELLED TO STAND OUT AT SEA AT NIGHT AND ONLY APPROACH THE LAND IN THE AFTERNOON SO THAT HE WAS UNABLE TO FIND ANY HARBOR ALONG THE OREGON COAST. NEWS OF COOK'S VOYAGE TO THE PACIFIC NORTHWEST STIMULATED THE AMERICAN INTERESTS IN THIS REGION AND AROUSED IN THOMAS JEFFERSON AN INTEREST THAT LED TO THE LOUISIANA PURCHASE IN 1803 AND THE DISPATCH OF THE LEWIS AND CLARK EXPEDITION."

The Commission approved the installation as recommended.

Abandonment of a part of the old Zigzag-Rhododendron Section of the Mt. Hood Highway which has been replaced by a newly constructed section was presented by the Engineer. He pointed out that construction of the new section was completed September 27, 1954 and that traffic is now using it, so the old section no longer is needed for State highway purposes. He recommended that the old section of highway be abandoned in favor of Clackamas County pursuant to previous agreement. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "J", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Considered also was an agreement with the State Game Commission whereby the Game Commission is granted a license to use a portion of the right of way on the southerly side of the McKenzie Highway at Mile Point

34.0, between Engineer's Station 1804 and Station 1807, on which to construct a small parking area and a boat-launching ramp to accommodate people who wish to launch boats in the McKenzie River at this point. The Engineer explained that under terms of the agreement, the Highway Department is required to construct the approaches and the small parking area, but cost will be paid by the Game Commission. He added that the site is about four or five miles west of Blue River, and that the agreement contains a clause which provides for revocation of the privileges if the land is needed for highway purposes or if the Game Commission fails to comply with provisions of the agreement. The Commission approved the agreement in response to the Engineer's favorable recommendation.

The Commission discussed with the Engineer the bids received at the morning session for highway construction and at 3:30 p.m., Commissioner McIver announced awards of contracts as follows, the Commission's action in each instance being unanimous:

"Oiling Enegren Ferry-Marlow Creek Section of the Coos River Highway east of Coos Bay in Coos County: The Commission awarded the contract to the only bidder, J. C. Compton Co., McMinnville, at his bid price of $67,542.

"Construction of Cline Falls Bridge over Deschutes River on McKenzie Highway in Deschutes County: The Commission awarded the contract to the low bidder, C. J. Eldon, Portland, at his bid price of $95,926.

"Division No. 3 Pavement Sealing Project on the Pacific, Crater Lake and West Diamond Lake Highways in Jackson and Douglas Counties: The Commission awarded the contract to the low bidder, D-H Paving Co., Vancouver, Washington, at their bid price of $63,770.50.

"Grading Louse Creek-Grants Pass (Merlin Hill) Section of the Pacific Highway, north from Grants Pass in Josephine County: The Commission elects to accept the bid of C. R. O'Neil, Creswell, in the sum of $278,899.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Lane County Line-Willamette Junction Rock Production Project on the Willamette Highway east of Oakridge in Klamath County: The Commission awarded the contract to the low bidder Rogers Construction, Inc., Portland, at their bid price of $22,800.

"Paving Cottage Grove-Divide Unit, Goshen-Divide Section of the Pacific Highway in Lane County: The Commission elects to accept the bid of Parker-Schram Co., Portland, in the sum of $489,533 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Division No. 5 Pavement Sealing Project on the I.O.N., Central Oregon and Little Sheep Creek Highways in Malheur and Wallowa Counties: The Commission awarded the contract to the low bidder D-H Paving Co., Vancouver, Washington, at their bid price of $47,232.

"Construction of two structures on Olds Ferry-Ontario Section of Old Oregon Trail Highway in Malheur County: The Commission awarded the contract to the low bidder Neilsen & Smith Construction Co., Twin Falls, Idaho, at their bid price of $108,655.

"Construction of guardrail and right of way fence on Battle Creek Junction-Illahee Unit, Battle Creek Junction-Jefferson Junction Section of the Pacific Highway East south of Salem in Marion County: The Commission awarded the contract to the low bidder Trussfab, Inc., Portland, at their bid price of $16,125.

"Subway Reconstruction project on 122nd Avenue in Multnomah County: The Commission referred all bids to the Board of County Commissioners of Multnomah County as this is a County project.

"Paving La Grande (Jefferson Avenue) Section of the Old Oregon Trail Highway in Union County: The Commission awarded the contract to the low bidder Russell Olson Construction Co., Inc., Pendleton, at their bid price of $41,935.

"Oiling East Unit, Alicel Junction-Cove Section of the Lower Cove Road northeast of La Grande in Union County: The Commission elects to accept the bid of Russell Olson Construction Co., Pendleton, in the sum of $29,400 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Union County is received and the sum of $6,650 is deposited by the County.

"Grading and surfacing Werst Corner-Wallowa Section of the Werst Corner-Wallowa River Road in Wallowa County: The Commission elects to accept the bid of C. C. Meisel, McMinnville, in the sum of $69,382 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Wallowa County is received and the sum of $15,700 is deposited by the County.

"Enterprise (Depot Street) Paving project in Wallowa County: The Commission elects to accept the bid of Morrison & Lamping, Milton-Freewater, in the sum of $28,380 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Enterprise is received and the sum of $17,500 is deposited by the City.

"Grading and paving Reedville-Beaverton Section of the Tualatin Valley Highway in Washington County: The Commission elects to accept the bid of Porter W. Yett, Portland, in the sum of $596,233 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Division No. 1 Pavement Sealing Project on the Portland-Salem Expressway and the T. H. Banfield Expressway south and east of Portland in Washington, Clackamas and Multnomah Counties: The Commission awarded the contract to the low bidder, Harr & Horton, Portland, at their bid price of $39,432.50.

"Construction of North Yamhill River Bridge on Moores Valley Road in Yamhill County: The Commission elects to accept the bid of Birkemeier Construction Co., Milwaukie, in the sum of $38,443.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Yamhill County is received and the sum of $8,600 is deposited by the County".

A petition from members of the Rockaway City Council requesting that permission be granted for the landing of airplanes on the ocean beach at Rockaway for a "fly-in" breakfast on Sunday, July 3, 1955, was considered by the Commission. The Engineer recalled that this request was considered at the previous meeting when the Commission ordered that the Chief of Police at Rockaway be notified that the Commission could not take action on it because it had not been presented in conformity with the requirements of law, which requires petitions to be filed in writing accompanied by written approval of the Oregon State Board of Aeronautics. The Engineer stated that in his opinion allowing airplanes to land on the beach is exceedingly dangerous and he recommended that the request be denied. The Chief Counsel pointed out that under provisions of the law the Highway Commission is required to consider each petition individually. As a result of discussion the Commission decided to adhere to its former policy of denying requests for this privilege. The Secretary was instructed to inform the State Board of Aeronautics that petitions for the privilege will be considered but in order to provide safety for other users of the beach considers that it should not grant permits for this purpose.

In this connection the Commission instructed the Chief Counsel to prepare a draft of a law to be submitted to the 1957 Legislature, to remove control and jurisdiction of the ocean beaches from the Highway Commission.

The Commission approved the Secretary's report on papers that he signed on behalf of the Commission during the period May 23 to June 28, 1955.

Extension of an agreement with McWilkens, Cole and Webber to handle the Highway Department's advertising, during the period June 30, 1955 to June 30, 1956 was considered. Carl W. Jordan, Director of Travel Information Division, stated that the Travel Information Advisory Committee at its meeting on May 17 went on record as favoring a one-year extension of the Commission's agreement with this agency. He added his own personal recommendation to the same effect. The Commission approved the extension of the agreement as recommended.

Consideration was given to revised agreement with Douglas County providing for use of its property and buildings on Mt. Nebo, about 1-½ miles west of Roseburg in connection with the operation of a remote-controlled radio repeater station. The Engineer recalled that in 1951 the Commission entered into an agreement with Douglas County for the construction of a remote controlled radio repeater station at this site. Further improvements are now being made to the station and a new agreement is required to cover certain features such as construction of buildings, installation of radio equipment and the removal of such installations when necessary. The County, he said, agrees to maintain the access road to Mt. Nebo and the State is to pay the County $125 per year toward such expense. He added that the revised agreement is effective until July 9, 1961, with an option to renew for an additional ten years. His recommendation to approve the agreement was accepted by the Commission.

Assignment of Contracts No. 4161 and No. 4102 awarded to the partnership of Birkemeier and Saremal to Dan Birkemeier was discussed by the Commission. The Engineer explained that Mr. Saremal, partner in the firm, recently passed away and that it is the desire of Mr. Birkemeier and Mrs. Saremal that the contracts be assigned to Dan Birkemeier who will complete them. He also said that Mrs. Birkemeier has been authorized to assign the contracts by court order and that the surety on the contract bonds has consented to the assignment. He recommended that the assignment be approved. The Commission adopted the recommendation.

The Commission discussed a meeting date for its next regular meeting and decided to hold such meeting on Thursday and Friday, August 11 and 12 in the Green Room of the Imperial Hotel in Portland. The Commission also tentatively selected September 22 and 23 and November 3 and 4, 1955 as the dates for its two following meetings.

The Engineer recommended that the following persons be named to represent the Oregon Highway Department at the annual conference of the Western Association of State Highway Officials which is to be held at Jackson Hole, Wyoming, during September 8, 9, and 10, 1955: all members of the Commission, R. H. Baldock, W. C. Williams, G. S. Paxson, Forrest Cooper, R. L. Porter and H. B. Glaisyer. He stated that clearance for all has been received from Mr. Dorman of the Department of Finance and Administration. The Commission approved the recommendation.

The Engineer also recommended that, in addition to the members of the Commission and himself, the following be designated to represent the Oregon Highway Department at the annual conference of the American Association of State Highway Officials in New Orleans during the early part of December: W. W. Stiffler, G. S. Paxson and C. W. Enfield. He advised that Mr. Dorman has stated his approval of this selection. The Commission approved the recommendation.

The Commission discussed with the Engineer and the Chief Counsel matters to be presented by delegations scheduled to appear on the following day; however, action on such matters was deferred pending appearance of the delegations.

The Engineer's report on the proposed rerouting of the Oregon Coast Highway between Astoria and Seaside was discussed by the Commission. Chairman Chandler stated that the Commission is in agreement with the Engineer's recommendation that the route that crosses Youngs Bay at Smith Point, Astoria, is the best of all routes considered. Commissioners Reynolds and McIver confirmed such statement. Commission McIver thereupon moved adoption of the Engineer's plan for the project. The motion was duly seconded by Commissioner Reynolds and Chairman Chandler declared it carried unanimously. Formal adoption of the survey was deferred until later. The Secretary was instructed to telephone the action to the group from Warrenton and Astoria which was scheduled to be present on the following day. (This matter was again discussed on the following day after the appearance of a group representing the Clatsop County Development League which urged adoption of the "Lewis and Clark River Route". The Commission at that time decided to defer formal adoption of the survey until some time during the progress of its Eastern Oregon Inspection trip, July 11 to 14, 1955.)

Sale of the old maintenance headquarters site at Government Camp was discussed. The Secretary pointed out that the Commission some time ago authorized sale of the property at a minimum price of $2,850, and that at the auction sale which was held on June 20 Mr. Constam and Mr. Scott M. Kelly, representing R. L. K. & Company, submitted the only bid received for the property in the amount of $2,850. The Commission approved the sale of the property at such figure.

Commissioner Reynolds stated that he has been contacted by property owners near Ontario concerning access to the new route of the Old Oregon Trail in that vicinity, and that they want to discuss the matter with the Commission during the inspection trip in July. In the discussion it was pointed out that right of way for the new highway was acquired on a 100% freeway basis. The Secretary was instructed to inform Mr. Wardlaw, who represents the property owners, to that effect and to advise him further that the Commission is not inclined to change its policy in that regard; but, if they want to be heard on the subject the Commission will be glad to give them time at one of its regular meetings in Portland, there being no time to hear delegations on the trip.

Mr. W. C Williams, Deputy State Highway Engineer, brought up the matter of replacing water pipes on 82nd Avenue, Portland, necessitated by highway reconstruction which is now under way. It appears that the water pipes are under the pavement and have been in place for about 40 years, and that the Water District has offered to furnish new pipe if the State will install it; whereas if the old pipe is left under the pavement it will be destroyed by the highway improvement. He recommended that authority be granted to negotiate an agreement with the Water District whereby the State will cooperate to the extent of not more than $6,000. The Commission approved this arrangement.

Chairman Chandler inquired as to what has been done or is being done in connection with removal of danger trees adjoining state highways

and what use is being made of the litter cans recently placed for rubbish disposal. The Engineer was instructed to report these matters to the Commission on its inspection trip through Eastern Oregon, July 11 to 14.

The Commission signed agreements and other papers as follows:

"Extension of Industrial Lease" with Howard Cooper Cooper Corporation for rental of property on Unit 4, Banfield Expressway, Multnomah County. Monthly rental $1,600.

"Deed" conveying to Douglas County 0.35 acre of property on Winchester-Umpqua River Section of the Pacific Highway, Douglas County.

"Bargain and Sale Deed" re sale to Mr. and Mrs. A. W. Boggs of 3,600 sq. ft. of excess property on Noble Slough-Foster Section of South Santiam Highway, Linn County.

"Quitclaim Deed" re sale to Mr. and Mrs. R. J. Green of excess property near the easterly edge of La Grande on Wallowa Lake Highway, Union County.

"Renewal of Lease" with Mr. and Mrs. C. A. Van Dyke for a stockpile site on Nehalem Highway, Washington County.

"Easement" from the Bonneville Power Administration for the crossing of the North Santiam Highway across the Santiam-Chemawa transmission line.

"Indentures" (3) re eliminating construction of the present frontage road on the Salem-Stout Creek Section of North Santiam Highway and in lieu thereof granting the owners a farm and private residential access.

"Bargain and Sale Deed" with City of Monmouth a small tract acquired several years ago for proposed widening of US 99 W (old route) near Oregon College of Education.

"Indenture" re Chaney Estate property located on Goble-St. Helen's Section of Columbia River Highway, Columbia County.

"Agreement" re compensating Frank Kernan, $1,000 which permits the State's drainage system to be connected with his system at the new interchange of Swift Boulevard and Denver Avenue in North Portland.

"Agreement" with City of Eugene and Southern Pacific Company relative to construction of a sewer line through certain headgates located in the mill-race in Eugene.

"Agreement" with Oregon State Game Commission for use of a portion of highway right of way adjacent to McKenzie Highway at M.P. 34.0 in conjunction with construction and operation of a parking area and a boat-launching ramp.

"Agreement" with Douglas County covering use of county property on Mt. Nebo 1½-miles west of Roseburg for construction of a remote control radio repeater station. State to pay county $125 per year.

"Trust Agreement" re paying the Bonneville Power Administrator $4,700 for relocation of their structures 18/12 on the Beaverton-Reedville Project on the Tualatin Valley Highway, Beaverton-Forest Grove Section.

"Agreement" with Marion County and City of Mt. Angel covering the proposed Special City Allotment project in the city and reconstruction of a portion of County Market Road No. 17.

"Agreement" with Big Y Super Market covering leasing of property between 6th and 7th Avenues in Eugene.

"License" with U. S. Army Engineers for a material storage site within boundaries of The Dalles Dam Project.

"Agreement" with Cole and Weber Advertising Agency to handle advertising for the Travel Department, for the period June 30, 1955 to June 30, 1956.

"Consent to Assignment of Easement" to Al Pierce and Weyerhaeuser Timber Company for joint use of a previously granted easement across Simpson State Park at south end of Coos Bay Bridge.

"Bargain and Sale Deed" to R.L.K. and Company for lots 7 and 8 of Block 5, Townsite of Pompeii, Clackamas County, Oregon.

"Right of Way Easement" with the U.S. Department of Interior, Bureau of Reclamation, in connection with the Owyhee Project on the Olds Ferry-Ontario Section of the Old Oregon Trail, about 3 miles north of Ontario.

The meeting adjourned at 4:30 p.m., to reconvene at 9:00 a.m. on the following day.

Portland, Oregon
July 1, 1955

The meeting of the State Highway Commission resumed at 9:00 a.m. in the Green Room of the Imperial Hotel, with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer

W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Robert L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Prior to the reading of bids for highway construction the Secretary announced that today is Chairman Chandler's birthday. The assembled group of contractors, insurance men, highway engineers and others thereupon greeted Mr. Chandler by singing "Happy Birthday to You."

Bids as follows, for highway construction were then opened and read aloud by the Secretary, who announced that the award of contracts would be made at 2:30 p.m. in the same room.

BENTON COUNTY
GRADING AND SURFACING BRUCE JUNCTION-MARTINS LAKE SECTION OF MARTINS LAKE ROAD

C. J. Eldon, Portland	$ 56,880.00
Allum Bros., Eugene	58,183.50

Cherveny Construction Co., Portland	30,256.00
J. M. Steinmuller, Jr., Eugene	34,186.00

The Right of Way Engineer reported, as requested on the previous day, the value of the "boom" riparian rights at Oregon City. He said that such rights have a value of $10,000 and he recommended sale of the same at such minimum amount. The Commission approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

At the request of the Commission, the Deputy State Highway Engineer outlined the projects for which bids are to be received at the August meeting, and the Right of Way Engineer advised concerning the status of right of way acquisition for each project. The Commission ordered the Washington County Line-Hillsdale project, now scheduled for August 11 and 12, deferred to the September letting, and the Bradley Park-Wauna project, presently scheduled for November, advanced to the August letting. Also, the Engineer was instructed to strike from the November and later schedule the Emigrant Avenue (Pendleton) Section and the Pendleton one-way street section as previously discussed at this meeting.

The matter of holding public hearings pertaining to highway improvements within cities was discussed. The Engineer pointed out that under provisions of a law passed by the 1955 Legislature it will be neces-

sary to notify a city or town when an improvement is proposed within the corporate limits, and, if the City Council so requests, a hearing must be held. He suggested that the Commission authorize notifications sent as occasion requires. The Commission approved the suggestion and so ordered.

The Engineer remarked that a tentative offer had been received from Southern Pacific Railroad to remove the old bridge structure on the South Sixth Street Section of the Klamath Falls-Lakeview Highway in Klamath Falls. He pointed out that it will cost the State a considerable sum to remove this structure and if it can be sold or given to someone who will remove it, at no cost to the State, a considerable savings will accrue. The Engineer was authorized to negotiate for removal of the structure.

Mr. Virgil Rose and his attorney Mr. S. J. Nicholson, both of Florence, Oregon, appeared before the Commission concerning the truck-hauling of logs over the Alsea-Deadwood Secondary Highway northerly from the summit a distance of about 4 miles. Mr. Nicholson acted as spokesman. He explained that in January, 1955, Mr. Rose bought approximately 1-$\frac{1}{2}$ million feet of logs at this location which had been cut in 1953. He pointed out that if the logs are not hauled out this season there will be a considerable loss due to rot. Mr. Rose, he stated, wishes to haul logs not exceeding 20 feet in length on solo trucks northerly from the top of Alsea Mountain, about 3.8 miles to the Coquille Lumber Company. He said that Mr. Rose plans to use three trucks in the hauling operations, and that in his estimation the operation will be no more hazardous to other traffic than the trucks which now operate over this road hauling sawed lumber. Mr. Rose stated his hauling will be completed within three months' time. As a result of discussion the Commission instructed the Engineer to make further investigation of the existing conditions and report to the Commission on its trip through Eastern Oregon July 11 to 14, whether or not something can be worked out to accommodate Mr. Rose.

A delegation from Astoria, Seaside and Portland, representing the Clatsop County Development League, came before the Commission concerning adoption of a permanent route for the Oregon Coast Highway between Astoria and Seaside. The following people were present: Mr. Francis E. Harrington (Spokesman), attorney for Clatsop County Development League, Portland; Mr. Dale Sanders, member of League, Seaside; Messrs. William Larson, Paul Hein, John F. Rankin, Nicholas Kussman, and Elmore L. Shelton, members of the League, all of Astoria. Mr. Harrington recalled that he appeared before the Commission at its May meeting and asked the Commission to delay adoption of the Smith Point Route until his group could secure more data in behalf of the Lewis and Clark River route. He pointed out that newspapers have carried the story that the Commission has approved the Smith Point Route. He gave as his feeling that maintenance costs will be less on the Lewis and Clark Route and he asked the Commission to reconsider its action because the difference in benefit quotients between the two routes is very small. Tugboat operators, he stated, are also concerned about getting their boats through two bridges close to each other. Chairman Chandler called attention to

the fact that the relocation of the highway has been pending for three or four years and many studies have been made. As the result of these studies, he said, the Engineer has made a recommendation in favor of the Smith Point Route and the Commission has adopted the recommendation.

Commissioner Reynolds commented that he felt the delegation must have some other interest in the matter other than the engineering features. Mr. Harrington replied that his group favors the Lewis and Clark Route because of the economic advantages that will accrue to them. He again requested time for his group to submit further information. Chairman Chandler, in reply to Mr. Harrington's inquiry as to when right of way acquisition would be started, stated that right of way will be negotiated when the survey has been formally adopted, but there is no money available for immediate construction. He pointed out that the design of the bridge will take time and it is not known when funds will be available to finance construction. He suggested that Mr. Harrington and his group discuss the matter with the Engineer, and he also said that the Engineer's report is a public record and will be made available to them at Salem, if they should want to see it.

Mr. Kussman commented that he had been told by highway engineers that the Smith Point Route is not possible and would never be built so the group had not complained previously as they felt it was not necessary. Chairman Chandler stated the the Commission knows nothing about such unauthorized statements. He concluded the discussion with the comment that the decision had been difficult to make and that the Commission never makes a decision until it has studied all of the engineering facts and has the Engineer's recommendation. He stated again that all of the information on which the decision was based will be available to the group at the Commission offices in Salem. Discussion of the subject was resumed following departure of the group and the Commission at that time decided to defer formal adoption until its Eastern Oregon trip.

Mr. R. L. Burke, Portland, a property owner in Wheeler, appeared before the Commission to urge construction of the Elsie cutoff which extends from Wheeler on the Oregon Coast Highway in Tillamook County to Elsie on the Sunset Highway in Clatsop County. This short-cut route, he stated, is urgently needed for the economic health of the towns of Mohler and Wheeler and adjacent communities which, he said, are now isolated. He urged the Commission to give early consideration to building this "cutoff". He advised that the group that requested the appointment with the Commission had been delayed for some unknown reason and that he appeared simply as an interested spectator. The Commission took no action.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating, except Commissioner McIver, who was excused.

Proposed developments at Depoe Bay were discussed. Chairman Chandler stated that he is not wholeheartedly in favor of a development

which includes a building for a concession and restrooms as has been suggested, because of the far reaching effect that it will have on other communities which, undoubtedly, will insist on similar projects, but he will join with Commissioners Reynolds and McIver in whatever decision they may reach regarding the project. The Commission deferred its decision pending further study and discussion during the progress of its inspection trip later in the month. The Engineer was instructed to submit a complete report on this subject, including cost estimates, at that time.

The Commission discussed with the Engineer and the Secretary details with respect to the July 11 to 14 inspection trip through Central and Eastern Oregon.

Bids received at the morning session were discussed with the Engineer and at 2:30 p.m., awards of contracts were announced by Commissioner Reynolds, as follows:

"Grading and surfacing Bruce Junction-Martins Lake Section of the Martins Lake Road about five miles north and east of Monroe in Benton County: The Commission elects to accept the bid of C. J. Eldon, Portland, in the sum of $56,880 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Benton County is received and the sum of $12,750 is deposited by the County.

"Gladstone(Clackamas Blvd.) Paving Project in Clackamas County: The Commission elects to accept the bid of P. A. Shoat Co., Portland, in the sum of $15,781.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Gladstone is received and the sum of $3,550 is deposited by the City.

"Construction of Austin Dwelling and Sand Storage Shed in Grant County: The Commission rejects all bids on this project as being too high.

"Grading and surfacing Wrights Point Section of the Frenchglen Highway south of Burns in Harney County: The Commission has awarded the contract to the low bidder, F. L. Somers, Medford, at his bid price of $65,060.

"Viento-Wasco County Line Rock Production Project on the Columbia River Highway near Hood River in Hood River County: The Commission has awarded the contract to the low bidder, Calkins Crushing Co., Oceanlake, at their bid price of $24,900.

"Oiling Metolius-Juniper Butte Section of the Metolius-Culver and Culver-Juniper Butte County Roads in Jefferson County: The Commission elects to accept the bid of Babler Bros., Inc., Portland, in the sum of $68,580 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Jefferson County is received and the sum of $15,500 is deposited by the County.

"Grading and paving Walker Mountain Road-Lenz Road Unit, Lapine-Lenz Road Section of The Dalles-California Highway near Chemult and Beaver Marsh in Klamath County: The Commission elects to accept the bid of Rogers Construction Co., Portland, in the sum of $450,665 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Division No. 4 Pavement Sealing Project on the Columbia River, Central Oregon and The Dalles-California Highways, near Hood River, west of Burns and north of Klamath Falls in Klamath and other Counties: The Commission has awarded the contract to the low bidder, J. C. Compton Co., McMinnville, at their bid price of $61,264.

"Paving Orleans-Tangent Junction Section of the Orleans-Lebanon Road in Linn County: The Commission elects to accept the bid of Warren Northwest, Inc., Portland, in the sum of $84,187.50, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Linn County is received and the sum of $19,100 is deposited by the County.

"Santiam Junction Guardrail Project on the North Santiam and Santiam Highways southeast of Detroit and east of Cascadia in Linn County: The Commission has awarded the contract to the low bidder Trussfab, Inc., Portland, at their bid price of $10,476.

"Grading and paving Church and College Streets at Mt. Angel in Marion County: The Commission elects to accept the bid of Warren Northwest, Inc., Portland, in the sum of $26,644.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Mt. Angel is received and the sum of $12,800 is deposited by the City and $5,300 is deposited by Marion County.

"Salem By-Pass Pavement Sealing Project on the Portland-Salem Expressway in Marion County: The Commission has awarded the contract to the low bidder, Babler Bros., Inc., Portland, at their bid price of $14,450.

"Willamette River-Hayesville Guardrail Project on the Portland-Salem Expressway north from Salem in Marion and Clackamas Counties: The Commission has awarded the contract to the low bidder Fred Stubbert, Springfield, at his bid price of $50,720.

"Grading and paving 122nd Avenue Ramp Unit, 92nd Avenue-Fairview Section of the T. H. Banfield Expressway east of Portland in Multnomah County: The Commission elects to accept the bid of Warren Northwest, Inc., Portland, in the sum of $30,583 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of Emigrant Hill Hill Sand Storage Shed in Umatilla County: The Commission has awarded the contract to the low bidder Rohde Construction Co., Pendleton, at their bid price of $14,222.88.

"Imbler-Dry Creek-Island City Oiling Project on the Imbler-Dry Creek and Dry Creek-Island City County Roads, north of La Grande in Union County: The Commission has referred all bids to the County Court of Union County as this is a County project.

"Construction of Warm Springs Dwelling and Sand Storage Shed in Wasco County: The Commission has awarded the contract to the low bidder, Gilbert Roberts, Hood River, at his bid price of $24,853."

There being no further business to come before the Commission at this time, Chairman Chandler declared the meeting adjourned at 2:45 p.m.

State Highway Engineer

Minutes of

June 30 and July 1, 1955

EXHIBIT "A"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

EXHIBIT "B"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land lying along and adjacent to the Banfield Expressway described as follows:

A parcel of land lying in Section 27, Townsip 1 North, Range 2 East, W. M., Multnomah County, Oregon, and being a portion of that tract of land described in that certain deed to the State of Oregon, by and through its State Highway Commission recorded in Book 1426, Page 492 of Multnomah County Records of Deeds; the said parcel being described as follows;

Beginning at the Southwest corner of said property said point being 1980 feet North and 1302.20 feet West of the East $\frac{1}{4}$ corner of said Section 27; thence North 2° 02' 58" East along the West line of said property 130.64 feet; thence South 76° 25' 04" East 153.08 feet; thence South 2° 02' 58" West 98.22 feet to the South line of said property; thence North 88° 38' 32" West 150 feet to the point of beginning.

The parcel of land to which this description applies contains 0.4 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.070 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 146 be entered in the minutes and records of the Commission as of the 30th day of June, 1955.

June 30, 1955

25071

EXHIBIT "C"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of certain riparian rights abutting on the east, or right, bank of the Willamette River between the north line of North Street, extended northwesterly and the south line of Fifteenth Street, extended northwesterly, in Oregon City, Clackamas County, Oregon.

WHEREAS, after consideration, the Commission finds and declares that the said rights are no longer needed, required or useful for highway purposes.

AND WHEREAS, the said rights have been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $10,000.00, and the Commission is desirous of selling and disposing of said rights at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said rights for sale, in accordance with the terms and provisions of ORS 273.070 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 147 be entered in the minutes and records of the Commission as of the 30th day of June, 1955.

June 30, 1955

EXHIBIT "D"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, ORS 366.130 directs and authorizes the State Highway Commission, with the approval of the Attorney General, to appoint a Chief Counsel; and

WHEREAS, Clifton W. Enfield is an attorney and a member in good standing of the Oregon State Bar, is admitted to practice before all of the courts of the State of Oregon, before the United States District Court for the District of Oregon, and the Supreme Court of the United States, and is qualified to discharge the duties of Chief Counsel for the Commission; and

WHEREAS, Clifton W. Enfield was appointed as Chief Counsel for the Commission on October 12, 1951, and has served in that capacity since said appointment; and

WHEREAS, ORS 366.130 provides that the Chief Counsel for the Commission shall serve at the pleasure of the Commission but shall not serve for a period in excess of four years without reappointment; and

WHEREAS, the Commission wishes to reappoint Clifton W. Enfield as Chief Counsel for the Commission for a new term of four years; and

WHEREAS, the reappointment of Clifton W. Enfield has been approved by the Attorney General of the State of Oregon;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That Clifton W. Enfield be and he hereby is reappointed as Chief Counsel for the State Highway Commission to serve in such capacity for a term of four years commencing the 1st day of July, 1955.

2. That the salary to be paid to Clifton W. Enfield is hereby fixed by the Commission in the sum of $738.00 per month.

3. That, in addition to the salary which shall be paid to Clifton W. Enfield, he shall be entitled to and shall be paid his actual traveling and other expenses as may be incurred in the performance of his official duties.

4. That this resolution shall be entered into the minutes and records of the Commission as of the 30th day of June, 1955.

June 30, 1955

EXHIBIT "E"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, pursuant to the provisions of ORS 366.810, there have been by the Oregon State Highway Commission apportioned to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

EXHIBIT "G-1"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Ukiah-West Forest Boundary Section of the Ukiah-Hilgard Secondary Highway in Umatilla County, and of the East Forest Boundary-Meadow Creek Section of the Ukiah-Hilgard Secondary Highway in Union County, and in connection therewith to prepare maps showing the route and location of said sections and to file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Ukiah-West Forest Boundary Section of the Ukiah-Hilgard Secondary Highway, beginning at Highway Engineer's Station 0+00 at a junction with the Pendleton-John Day Highway west of the town of Ukiah and extending in an easterly direction through the town of Ukiah to Highway Engineer's Station 537+25 at the western boundary of the Umatilla National Forest, approximately 9.75 miles east of the point of beginning; together with the survey of the East Forest Boundary-Meadow Creek Section of the Ukiah-Hilgard Secondary Highway, beginning at Highway Engineer's Station 250+00 at the easterly edge of the Umatilla National Forest near the Mt. Emily Lumber Company Camp and extending easterly a distance of approximately 4.31 miles to Highway Engineer's Station 22+30 about two miles northeasterly from the town of Starkey, together with the map, which for identification purposes bears Map File No. 10C-21-18 and the date of June, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data

(cont.)

of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution shall supersede and cancel a similar resolution that was adopted by the Commission on June 23, 1954, pertaining to the same highway section.

5. That this resolution be entered in the minutes and records of the Commission as of the thirtieth day of June, 1955, as Survey Resolution No. 104-A.

EXHIBIT "G-2"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Bradley Park-Columbia County Line Section of the Columbia River Highway in Clatsop County, and in connection therewith to prepare a map showing the route and location of said section, and to file said map, reports, and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Bradley Park Columbia County Line Section of the Columbia River Highway, beginning at Highway Engineer's Station 114+50, near Bradley Park, and extending in an easterly direction to Highway Engineer's Station 363+30, at the Columbia-Clatsop County Line, approximately 3/4 mile east of the town of Westport, together with the map, which for identification purposes bears map file No. 1R-5-1085 and the date of June, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and acoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That heretofore by resolution of this Commission dated November 3, 1948, said section of the Bradley Park-Columbia County Line Section of the Colum

(cont.)

bia River Highway was designated as a throughway within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law"; and, for the reasons stated therein, the above-named section of said highway should be so designated, and it hereby is directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law except any portion of said section which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a throughway.

5. That this Resolution shall supersede that portion of Survey Resolution No. 66 adopted by the Highway Commission on April 21, 1952, particularly the portion that is described as beginning at Highway Engineer's Station 114+50 at Bradley Park and as ending at the road leading to Wauna (Highway Engineer's Station 613+84, old highway), and said portion of said Survey Resolution No. 66 is hereby rescinded, but the remaining portion thereof shall remain in full force and effect.

6. That this Resolution be entered in the minutes and records of the Commission as of the thirtieth day of June, 1955, as Survey Resolution No. 125.

EXHIBIT "G-3"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Millicoma Bridge Unit of the Enegren Ferry-Allegany Section of the Coos River Secondary Highway in Coos County, and a complete and final survey of the route and location of the Havana Section of the Havana-Helix Secondary Highway in Umatilla County, and in connection therewith to prepare maps showing the route and location of each of said highway sections, and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Millicoma Bridge Unit of the Enegren Ferry-Allegany Section of the Coos River Secondary Highway, beginning at Highway Engineer's Station 8+50, south of the Millicoma River, and extending in a northerly direction approximately 1/4 mile to Highway Engineer's Station 22+63, a short distance north of the community of Allegany, together with the map, which for identification purposes bears map file No. 1R-5-739 and the date of June, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That the survey of the Havana Section of the Havana-Helix Secondary Highway, beginning at a point on the said highway at Highway Engineer's Station 0+00, a short distance north of McCormack Creek, and extending approximately one mile in a southerly direction to a connection with the Oregon-Washington Highway at Highway Engineer's Station 52+06.99, approximately 3/4 mile south of the town of Havana, together with the map, which for identification purposes bears map file No. 1R-5-749 and the date of June, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

3. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless other-

(cont.)

wise directed or ordered by the Commission.

4. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

5. That this resolution be entered in the minutes and records of the Commission as of the thirtieth day of June, 1955, as Survey Resolution No. 126.

EXHIBIT "H-1"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: CASCADE HIGHWAY Clackamas County

Highway number: 160 Route number

Location of Termini		Established Speed
M. P. 16.68 (south city limits of Oregon City)	to M. P. 16.93 (0.25 mile south of the south city limits of Oregon City	40 MPH

(cont.)

EXHIBIT "H-1" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 193 be entered in the minutes and records of the Commission as of the 30th day of June, 1955.

EXHIBIT "H-2"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: OREGON COAST HIGHWAY (Tillamook County)

Highway number: 9 Route number US 101

Location of Termini		Established Speed

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts, and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: WALLOWA LAKE HIGHWAY (Union County)

Highway number: 10 Route number ORE 82

Location of Termini			Established Speed
M.P. 0.42 (east city limits of La Grande)	to	M.P. 0.58 (50 feet east of Portland Street)	35 M.P.H.
M.P. 0.58 (50 feet east of Portland Street)	to	M.P. 2.07 (450 feet west of west city limits of Island City)	50 M.P.H.
M.P. 2.07 (450 feet west of the west city limits of Island City)	to	M.P. 2.16 (West city limits of Island City)	35 M.P.H.

EXHIBIT "H-8" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 200 be entered in the minutes and records of the Commission as of the 30th day of June, 1955.

EXHIBIT "H-9"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts, and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: McVEY SECONDARY HIGHWAY (Lane County)

Highway number: 225 Route number 126

M. P. 0.00 (McKenzie Highway)	to M. P. 0.35 (0.15 mile south of 19th Street)	25 M. P. H.
M. P. 0.35 (0.15 mile south of 19th Street)	to M. P. 0.65 (0.37 mile north of the McVey Overcrossing)	40 M. P. H.

25101

EXHIBIT "H-9" (Cont)
EXCEPT THAT BETWEEN

M. P. 0.15 (250 feet north of 19th Street) and M. P. 0.30 (500 feet south of 19th Street) the indicated speed shall be 20 MILES PER HOUR during the hours of school crossings in accordance with the provisions of Subsection 1.a., of ORS 483.104.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 201 be entered in the minutes and records of the Commission as of the 30th day of June, 1955.

EXHIBIT "I-1"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, the Alsea Highway is one of the major state primary highways and is likewise a federal highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, the junction of the Alsea Highway and the county road at the Five Rivers Bridge forms a T type intersection; and

WHEREAS, the highway at said point was widened on the westerly side to allow a greater turning radius for log trucks; and

WHEREAS, it is desirable to keep this widened area clear of parked vehicles so that the trucks will have adequate room to enter the highway with safety; and

WHEREAS, in the opinion of the Commission, public safety requires that parking of vehicles on the west side of Alsea Highway in said area should be prohibited;

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendation by members of its staff, that the parking of vehicles on the westerly side of the Alsea Highway between Engineer's Station 668+50 and Engineer's Station 670+45 in the vicinity of the Five Rivers Bridge creates a dangerous condition for the traveling public as well as for log trucks using this area.

2. That this Commission does hereby find and declare that the parking of vehicles within said termini should be prohibited.

3. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words "NO PARKING AT ANY TIME".

4. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

5. That this resolution be entered in the minutes of the Oregon State Highway Commission as of June 30, 1955, as "No Parking Resolution No. 131".

25[illegible]3

EXHIBIT "I-2"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, the Lower Columbia River Highway (US30) is one of the major state primary highways and is likewise a Federal-aid highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that the parking of vehicles on the shoulders of said highway, in the vicinity of the fairgrounds in St. Helens, Columbia County, creates a traffic hazard during the time the Columbia County Fair is in progress; and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited during the time the Columbia County Fair is in progress.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles on the shoulders of the Lower Columbia River Highway (US30) for a distance of 1500 feet (Engineer's Station 343+50 to Engineer's Station 373+50) in each direction from the entrance and exit gates of the fairgrounds creates a hazard to the traveling public as well as to the owners and occupants of said parked vehicles.

2. That the Commission does further find and declare that the parking of vehicles on the shoulders of said highway between said termini during the progress of the fair should be prohibited.

3. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs should be printed in plain letters the words "NO PARKING ON HIGHWAY SHOULDERS".

4. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

5. That this No Parking Resolution No. 132 be entered in the minutes and records of the State Highway Commission as of the 30th day of June, 1955.

EXHIBIT "I-3"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, the State Highway Commission is authorized to designate main traveled or through highways or sections thereof by placing at the entrances thereto from intersecting highways signs or markers, notifying drivers of vehicles to stop before entering or crossing such designated highway or highways, and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS, the Commission heretofore on the 21st day of September, 1949, adopted a resolution by which certain state highways and sections thereof were declared to be and were designated as main or through highways, and the State Highway Engineer was instructed to properly mark the same; and

WHEREAS, by said resolution of September 21, 1949 the Highway Commission declared the Silver Creek Falls Secondary Highway to be a through highway and stipulated that traffic on said highway should stop before entering the highway; and

WHEREAS, since adoption of said resolution of September 21, 1949 a traffic engineering investigation has been made which reveals that traffic conditions have been changed by reason of construction of that section of the North Santiam Highway which extends from a connection with the Silver Creek Falls Highway south of a place known as Four Corners, to a connection with Airport Road, southeast of Salem; and

WHEREAS, based upon results of said investigation, the State Highway Engineer has recommended to this Commission a modification of the order contained in the afore-mentioned resolution of September 21, 1949.

NOW, THEREFORE, based upon the results of said traffic engineering investigation and upon the recommendation of the State Highway Engineer, this Commission does hereby find, declare, resolve and order as follows:

1. That said resolution of September 21, 1949 be amended by inserting the following exception pertaining to the Silver Creek Falls Secondary Highway:

"Traffic on the Silver Creek Falls Secondary Highway, Road No. 163, southbound, shall stop at its junction with the North Santiam Highway, Road No. 162, at M.P. 3.57."

But in all other respects the provisions of said resolution of September 21, 1949 shall remain in full force and effect.

25105

EXHIBIT "I-3" (cont.)

2. That the State Highway Engineer be and he hereby is instructed to place or cause to be placed and thereafter maintain the necessary signs and markers to accomplish the traffic control and regulation contemplated by this resolution. Such signs as may be erected at said intersection shall conform to the types and standards heretofore approved by the Commission.

3. That this resolution shall be entered in the minutes and records of the Commission as of the 30th day of June, 1955 as Through Highways Resolution No. 23, and a duly certified copy thereof delivered to the U. S. Bureau of Public Roads and a like copy to the County Clerk of Marion County and to the Superintendent of the Department of State Police, for their information.

EXHIBIT "J"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, on June 8, 1953, the Highway Commission adopted the survey of the relocated Zigzag-Rhododendron Section of the Mt. Hood Primary Highway No. 26, beginning at Highway Engineer's Survey Station 899+00, west of the hamlet of Zigzag and thence extending easterly to Highway Engineer's Survey Station 1032+83.2, at an easterly edge of Rhododendron; and

WHEREAS, the construction of the relocated Zigzag-Rhododendron Section of the Mt. Hood Primary Highway No. 26 was completed on September 27, 1954 and accepted by the State on November 19, 1954; and

WHEREAS, due to the relocation of the aforesaid section a portion of the former right of way is no longer needed for right of way purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Clackamas County and the State Highway Commission entered into an agreement on the 5th day of August, 1952, relating to the disposition to be made of the portion that may be eliminated, therein and hereinafter referred to as Unit "A"; and

WHEREAS, said agreement provided that upon completion of said relocated section and acceptance by the State, Unit "A" would be abandoned by the State Highway Commission to the County as part of the Mt. Hood Primary Highway No. 26 and the State highway system, and Unit "A" would be maintained thereafter by the County as part of the County road system; and

WHEREAS, it is the judgment of the Highway Commission that a certain portion of the former right of way and of the relocated right of way of the Mt. Hood Primary Highway No. 26, together with other real property acquired by the State for roadway right of way and other public purposes, is needed and valuable for right of way purposes and public use; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the former right of way of the said Mt. Hood Primary Highway No. 26 referred to herein as Unit "A",as well as all the property affected by reason of said realignment.

NOW, THEREFORE, based upon the power and authority vested in this Commission by the State of Oregon, it is HEREBY ORDERED AND RESOLVED that:

25117

EXHIBIT "J" (cont.)

1. The portion of the former right of way which by reason of the relocation of the Zigzag-Rhododendron Section of the Mt. Hood Primary Highway No. 26 is no longer within the boundaries of the new right of way or required for State highway purposes, is identified as Unit "A" and described as follows:

Unit "A"

All of the land situated within the right of way boundaries of the Mt. Hood Primary Highway No. 26 as formerly routed, beginning at the southwesterly boundary opposite Highway Engineer's Survey Station 991+50 of the relocated Mt. Hood Highway in the southwest quarter of the southwest quarter ($SW\frac{1}{4}$ $SW\frac{1}{4}$), Section 2, Township 3 South, Range 7 East, W.M.; thence southeasterly via the said highway as formerly routed to the southeasterly right of way line opposite Highway Engineer's Survey Station 1017+00 of said relocated highway in Tract 37, Section 11, Township 3 South, Range 7 East, W.M.

2. Pursuant to the agreement entered into with Clackamas County on the 5th day of August, 1952, Unit "A", indicated on the map attached hereto, marked Exhibit "A", and by this reference made a part hereof, is hereby duly abandoned as part of the Mt. Hood Primary Highway No. 26 and the State highway system, and all right, title and interest which the State has in the right of way of Unit "A" herein described passes to and vests in the said Clackamas County, effective as of November 19, 1954, the date the relocated Zigzag-Rhododendron Section was officially accepted as completed by the State. *

3. The right of way of the former and of the relocated Mt. Hood Primary Highway No. 26, together with the real property acquired by the State for roadway right of way and other public purposes which shall be retained and held by the State is indicated on Exhibit "A" attached hereto.*

4. This Abandonment and Retention Resolution, No. 267, be entered in the minutes and records of the Oregon State Highway Commission as of the 30th day of June, 1955, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Clackamas County.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 267, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-1"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels;or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining certain sections of the state highway system, the Commission plans and proposes to acquire a material site, and for such purpose and in connection therewith the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "K-1" (cont.)

2. That the highway facilities for which the said parcels of property, or interest therein, are required and are being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and that in the event no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 30th day of June, 1955, as Condemnation Resolution No. 556.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 556, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

25110

EXHIBIT "K-2"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Reedville-Beaverton Section of the Tualatin Valley Highway; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Reedville-Beaverton Section of the Tualatin Valley Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully

EXHIBIT "K-2" (cont.)

as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Tualatin Valley Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A". *

3. That the widening, improvement and maintenance of the said Reedville-Beaverton Section of the Tualatin Valley Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 30th day of June, 1955, as Condemnation Resolution No. 557.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 557, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-3"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites;or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is ne-

cessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Jumpoff Joe Creek-Grants Pass Section of the said Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels

of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 30th day of June, 1955 as Condemnation Resolution No. 558.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 558, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-4"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "K-4" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the establishment, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

25117

EXHIBIT "K-4" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 30th day of June, 1955, as Condemnation Resolution No. 727.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 727, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-5"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the said Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to

EXHIBIT "K-5" (Cont)

final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 30th day of June, 1955, as Condemnation Resolution No. 728.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 728, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-6"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "K-6" (Cont)

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 30th day of June, 1955, as Condemnation Resolution No. 729.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 729, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

25123

EXHIBIT "K-7"

Minutes of June 30 and July 1, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Deschutes River Section of the McKenzie Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Deschutes River Section of the McKenzie Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "K-7" (Cont)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated McKenzie Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted to each parcel or parcels on the said attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Deschutes River Section of the said McKenzie Highway and the highway facilities for which each of the said parcels of real property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his ab sence, any assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 30th day of June, 1955, as Condemnation Resolution No. 792.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 792, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

Second Inspection Trip (1955)
July 11 to 14, Inclusive

The State Highway Commission made its second inspection trip in 1955 during the period July 11 to 14, inclusive. The trip covered a total of approximately 1,203 miles and was made by Greyhound bus, equipped with public address system. There follows a list of people that composed the Commission group:

STATE HIGHWAY DEPARTMENT

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
H. B. Glaisyer, Secretary
C. W. Enfield, Chief Counsel
C. H. Armstrong, State Parks Superintendent
A. G. Skelton, Division Engineer, Portland (Portland to Viento Park)
Dean Swift, Division Engineer, Bend (Viento Park to Bend)
A. F. Parson, Division Engineer, La Grande (Blalock to Lakeview)
Les Farnum, Chauffeur
Gene Kinney, Photographer

LEGISLATIVE HIGHWAY INTERIM COMMITTEE

Rep. Wm. W. Bradeen, Secretary, Burns (Ontario to Lakeview)
Sen. Charles W. Bingner, La Grande (La Grande to Portland)
Rep. E. A. Littrell, Medford
Rep. Fred Meek, Portland

STATE PARKS ADVISORY COMMITTEE

William M. Tugman, Chairman, Reedsport
Frank Jenkins, Klamath Falls

C. G. Polk, District Engineer, U.S. Bureau of Public Roads, Salem
Ed H. Thompson, Highway Engineer, U.S. Bureau of Public Roads, Portland
R. F. Grefe, Acting Regional Forester, U.S. Forest Service, Portland
Ray Conway, Manager, Oregon State Motor Association, Portland
Charles W. Terry, Civil Service Director, Salem
Harry S. Dorman, Director, Department of Finance & Administration, Salem
Roy A. Klein, Former State Highway Engineer, Portland
Rep. Loran L. Stewart, Cottage Grove (Portland to Lapine)
George Henderson, Vice President, First National Bank, Portland
F. D. Eason, Salem, Former Division Engineer

The purpose of the trip was to inspect highway construction and state parks. The Commission departed from the Benson Hotel, Portland, at 8:00 a.m. on July 11, and drove over the Upper Columbia Highway to Pendleton. Following luncheon with the Pendleton Chamber of Commerce, the Commission viewed highways and parks enroute to Wallowa Lake where an overnight stop was made. The group was the guest of the Enterprise and Joseph Chambers of Commerce for dinner. On Tuesday, July 12, the Commission returned to La Grande and continued along the Old Oregon Trail to Baker where luncheon was served by the Baker Chamber of Commerce. The trip was resumed along the Old Oregon Trail during the afternoon of that day and an overnight stop was made at Ontario. On Wednesday, July 13, the Commission continued its inspection over the Central Oregon Highway. Members of the group were guests of the Burns Chamber of Commerce for luncheon, and then drove over the Lakeview-Burns Highway to Lakeview for an overnight stop. The Lakeview Chamber of Commerce was host to the group at dinner that evening. On Thursday, July 14, the Commission inspected the Fremont Highway and stopped for luncheon at Bend, following which the trip was resumed along US 97 to Madras, thence to Portland over the Warm Springs and Mt. Hood Highways. Time did not permit return via the Hood River Valley as was originally contemplated; moreover, because of adverse snow conditions at Cloud Cap, it would not have been possible for the Commission to have inspected the proposed recreational area at that place.

The following matters of business were disposed of by the Commission enroute Wednesday afternoon, July 13, between Burns and Lakeview. Present and participating in the discussion were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
H. B. Glaisyer, Secretary

The Commission unanimously approved a report submitted by the Engineer with respect to the awards of the following state highway contracts for which bids were received by the Commission at its regular meetings held on May 25 and 26, 1955 and on June 30 and July 1, 1955.

1. Grading and paving Applegate River Section of Redwood Highway, Josephine County. Bids received May 25, 1955. Conditions of award satisfied July 7, 1955. C. R. O'Neil, Pendleton, contractor.

2. Oiling Metolius-Juniper Butte Section of Metolius-Culver and Culver-Juniper Butte County Roads, Jefferson County. Bids received July 1, 1955. Conditions of award satisfied July 8, 1955. Babler Bros., Inc., Portland, contractor.

3. Paving Orleans-Tangent Junction Section of Orleans-Lebanon Road, Linn County. Bids received July 1, 1955. Conditions of award satisfied July 8, 1955. Warren Northwest, Inc., Portland, contractor.

The Commission discussed a progress report by the Engineer concerning the experience that has been gained by providing containers for the deposit of the contents of litter bags that had been circulated and dispensed by several corporations. According to the report it is the consensus of opinion among the Division Engineers and the District Maintenance Superintendents that regardless of some abuse at certain locations, the practice of providing receptacles in which to deposit litter definitely results in decreasing the cost of clean up on state highways. It was the Engineer's belief that as a result of the publicity that is being given to this subject, greater cooperation from the public can be expected in the future. The Commission accepted the report and authorized the Engineer to prepare a press release covering the subject. (For details see copy of the Engineer's report, dated July 8, 1955, in the General Files.)

The Engineer reported results of further investigation with respect to the request of Mr. Virgil Rose, Cushman Lumber Company, for permission to truck-haul logs over the Alsea-Deadwood Secondary Highway northerly from the summit of Deadwood Mountain, a distance of three miles, to the Coquille Valley Lumber Company's mill near a place known as Paris. He said that Mr. Rose has about one and one-half million feet of timber to haul and that the logs will be cut to a length not in excess of 20 feet; also, that Mr. Rose proposes to operate three trucks, each of which will average four trips per day, or a total of twelve trips daily. He pointed out that the roadway is narrow and winding and is quite steep; however, there are numerous turnouts, averaging about 1,000 feet apart, which would be suitable for solo trucks to pass one another or to pass a car. He mentioned that the Coquille Valley Lumber Company ordinarily employs four and sometimes five trucks in the transportation of lumber from the Company's mill over the entire length of this highway to a connection with the Siuslaw Highway, thence to Swisshome, each of which makes an average of three trips per day, and in addition to this lumber haul, there are an estimated 35 other vehicles, cars, etc. that daily use that portion of the highway which extends over the summit. He also said that school busses do not operate over the summit. He advised that Mr. Rose's operations can be legalized and made reasonably safe were the movements to be supervised by a flagman who has been deputized as a deputy sheriff or if movements are controlled by push button flash light installation. He recommended the granting of a revocable permit to Mr. Rose subject to the following requirements, and provided the movements are supervised by the deputy sheriff:

" 1. The three log trucks, loaded in the woods, will enter the highway at the summit (M.P. 15.68) where they will wait until a flagman in a pickup proceeds to the foot of the hill (M.P. 18.21), which will require an estimated 15 minutes' time.

2. The three trucks will remain at the summit an additional 20 minutes, which will allow sufficient time for any loaded lumber trucks ascending the hill southbound to reach the summit. At the end of the 35-minute wait, the three loaded log trucks will proceed northerly down the hill at approximately 500-foot intervals, using due caution even though the road will nominally be clear of all approaching traffic.

3. The flagman in the advance pickup will, upon reaching M.P. 18.21, dismount and hold any southbound traffic until the three loaded log trucks have reached this point, which it is estimated will require a maximum of 15 minutes' time in addition to the 20 minutes allowed for any loaded lumber trucks or other traffic to ascend the hill, making a total delay of 35 minutes for southbound traffic.

4. During the 35-minute wait at the summit before entering the highway the driver of one of the loaded log trucks will hold (at the summit) all northbound traffic in order that there will be no undue delay in loaded lumber trucks or other traffic clearing the $2\frac{1}{2}$-mile north slope during the 20 minutes' time allotted. Any traffic held at this point would be permitted to proceed ahead of the loaded log trucks at the end of the 35-minute wait.

Empty log trucks will be permitted to ascend the hill in a southerly direction, one at a time at an estimated interval or spacing of 15 minutes apart without the protection of a flagman as the empty trucks are somewhat more maneuverable than a loaded truck and can utilize any of the 15 suitable turnouts if any northbound traffic is met."

The Commission unanimously adopted the recommendation on the condition that Mr. Rose's operations be limited to two months duration and that he will use no more than three trucks.

The Engineer also rendered a progress report on removal of danger trees along state highways covering the period January 1, 1954 to July 1, 1955. He advised that at the beginning of this period there were reported 2,103 danger trees; also, that during the period state forces removed 3,522 trees at a total cost of $38,569, or an average of $10.95 per tree. At the end of the period, he said, there remained 3,005 trees, classed as danger trees, a slight increase over the number that was reported at the beginning of the period. He explained that the accumulation of danger trees is the result of logging operations adjacent to the state highways and trees which have been killed by forest pests. He estimated the cost to remove the 3,005 danger trees at $35,000, and he gave as his opinion that the Commission should authorize an annual expenditure of about $30,000 for this purpose because it appears that the removal of danger trees will be a continual obligation. The Commission accepted the report and authorized the Engineer to include $30,000 annually in the budget for this purpose.

The Engineer reported orally on the proposed development at Depoe Bay, involving construction of a building with concession, lookout and restroom facilities. He was instructed by the Commission to render a cost report on the subject at the next meeting of the Commission. Chairman Chandler requested that a copy of the report be sent to him on his vacation trip in Europe.

The Commission discussed a report from the Engineer on the request of Willard L. Archer and others for a traffic interchange on the Portland-Salem Expressway at Norwood Road. In his report the Engineer stated that pursuant to previous instructions from the Commission a care-

ful origin and destination survey has been made which shows rather conclusively that a traffic interchange at this point is not warranted. He again recommended that the request be denied. The Commission adopted the recommendation and ordered that Mr. Archer be informed of the action taken.

The Commission had under discussion the adoption of the survey for the Astoria-Seaside Section of the Oregon Coast Highway, particularly the Smith Point-Glenwood Unit thereof, as tentatively approved by the Commission at its meeting held on June 30 and July 1, 1955. As a result of discussion, the Commission unanimously approved the survey as recommended by the Engineer over the Smith Point Route by adoption of the attached resolution relative thereto, marked EXHIBIT "A-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In this connection the Commission decided that it would be preferable to construct the bridge across Youngs Bay as the first project on the new route and to complete the entire job within a period of five years or more if and when the Congress makes Federal-aid funds available. The Engineer was instructed to investigate the old highway between the proposed interchange,near a place known as Glenwood, and Seaside to determine what improvements are necessary to put this highway in satisfactory condition pending construction of the new highway. He also was instructed to investigate the need for additional right of way into Seaside along Roosevelt Drive.

The Engineer reported that the surveys for the proposed relocation of the following state highway sections have been completed: (1) Boulder Gorge Section of Sumpter Valley Secondary Highway, Baker County; (2) Siletz-Camp Twelve Unit of the Siletz-Toledo Section of the Siletz State Secondary Highway, Lincoln County; and (3) Hillsboro One-Way Street Section of the Tualatin Valley Highway, Washington County. He exhibited maps showing the proposed locations and explained details. He recommended adoption of the surveys so the several projects may be advertised for bids at the earliest possible time. As a result of discussion, the Commission unanimously approved and adopted the said surveys as recommended. The attached resolution relative thereto, marked EXHIBIT "A-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission by unanimous vote.

The Engineer brought up for discussion the matter of revising the location survey that was made in 1937 for the proposed relocation of the Oregon Coast Highway between Oretown and Neskowin in Tillamook County. He said that the route surveyed in 1937 has been blocked by a large number of summer residences so a revision is essential at this time to connect with the survey that is being made by the Bureau of Public Roads over Cascade Head to the south of Neskowin. He requested authority to conduct a survey as may be necessary between Oretown and Neskowin, a

distance of 4.4 miles which, he said, will cost approximately $15,400. The Commission approved the request.

A request was presented from the Union High School District No. 1, Seaside, for the oiling of a car-parking area on a small tract across the Oregon Coast Highway from their school house. The Engineer advised that the area in question is a viewpoint from which tourists, southbound, obtain their first view of the ocean and the bay. He estimated the cost of the oiling work at $1,500 and advised that the School District will pay one-half of such expense, or $750. He recommended approval of the project. The Commission deferred action in the matter until its next meeting, and instructed the Engineer to submit a complete report at that time on the probable use of the area.

The Engineer requested authority for an expenditure of approximately $21,000 to construct guard fence, sight posts, and portable type snow fence on the recently constructed section of the Weston-Elgin State Secondary Highway between Weston and Weston Mountain. The Commission approved the request.

The Engineer also requested authority to spend about $6,000 to raise the grade and to pave a short section of U. S. 30 near 122nd Avenue, Portland, immediately east of the community of Parkrose. He explained that in recent years several complaints have been received from highway users as to the inconvenience and hazard that result from the annual flooding of two low sections of this highway section. The matter, he said, has been under investigation for sometime to determine what remedial corrections are necessary, and it has been determined that the only way to alleviate the condition is to raise the grade of the highway approximately eighteen inches and to construct a pavement on the new grade. The section involved, he added, is 700 feet long and extends easterly from a point 1,200 feet east of 122nd Avenue. He mentioned that if the Commission approves the project, it will be advertised for bids to be received at the August meeting of the Commission. The Commission approved the project unanimously.

There was presented to the Commission a request from Mr. R. W. Van Buren, Business District Representative of Cedar Hills Company, Portland, for an investigation of traffic conditions on and adjacent to the Sunset Highway near the area of the underpass at Cedar Hills Shopping Center. The Engineer advised that an investigation by the Traffic Engineer discloses that the shoulder parking of cars on Connection "E" of the Cedar Hills Interchange between Barnes Road and the Sunset Highway in the vicinity of the Tektronix Plant is a cause of hazard and confusion. He recommended as a solution of the problem that the shoulder parking of vehicles be prohibited on said Connection "E" between Barnes Road (Engineer's Station 6+60) and the Sunset Highway (Engineer's Station 13+00). The Commission approved the Engineer's recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission approved and signed the voucher covering payment of principal and interest on outstanding bonds that is due September 1, 1955, totalling $2,487,187.50.

Consideration was given by the Commission to the renewal of an arrangement with the Columbia Sand and Gravel Products Company, Umatilla, covering removal of material from a State-owned gravel pit at Umatilla. A proposed form of agreement of one year's duration, which has been executed by the Company, was presented. In the discussion of this matter the question arose whether or not the Company had fulfilled its obligation in connection with the previous agreement. In view of this uncertainty, the Commission deferred action in the matter until its next regular meeting. The Engineer was instructed to check the records and report at that time whether or not the Company has completed its obligation.

The Commission discussed and approved a form of agreement with the Pacific Telephone and Telegraph Company concerning the installation of an additional radio control loop from the State Highway office in Bend to the remote radio station on Pilot Butte.

The Commission discussed a letter from the Hon. George H. Layman, Mayor of the City of Newberg, in which the members of the Commission and the Engineer were invited to be present and to participate in the dedication of Ex-President Herbert Hoover's boyhood home in Newberg on the occasion of his 80th birthday, Wednesday, August 10, 1955. Mr. Layman advised that Mr. Hoover will be present for the ceremonies, and he requested installation of appropriate signs naming the area "Herbert Hoover Park", and additional signs along U. S. Highway 99W, reading "Herbert Hoover Boulevard", as previously designated by the Highway Commission. The Commission accepted the invitation and authorized the Engineer to erect signs as requested.

There was brought to the attention of the Commission a law that was enacted by the 1955 Legislative Assembly (Chapter 447, Oregon Laws, 1955) which requires that notice be given to the Mayor of any city before the Highway Commission acquires any new rights of way or relocates or abandons any existing state highway within such city, and provides for a public hearing in the event the Mayor or Council of such city remonstrates or objects to the action contemplated by the Highway Commission. The Engineer advised that it is necessary and desirable that the Commission establish a standard procedure so as to permit full and complete compliance with the provisions of this law and the intent of the Legislative Assembly. He suggested in view of the possibility that some hearings will be required, that the Commission authorize certain officials of the Highway Department to conduct the hearings in behalf of the Commission. He also suggested that a tape recording of the hearings be made in addition to the notes that are kept by the Secretary. As a result of discussion, the Commission approved the Engineer's suggestions and thereupon, by unanimous vote, adopted the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer brought to the Commission's attention a letter, dated July 7, 1955, received from the City Manager of the City of Coos Bay, in which he advises that the City is prepared to cooperate with the Highway Commission in the widening of Central Avenue from 8th Street to 14th Street to the extent of $10,875, representing 25% of the estimated cost of the project; also, that the City is able to finance the work this summer provided the work can be completed before winter, otherwise it would be satisfactory to postpone the work until the summer of 1956 which would allow the City time to reconstruct a sanitary sewer on Central Avenue prior to the highway improvement. The Engineer estimated the cost of the project at $43,500, and he recommended acceptance of the City's offer, and that the work be done either this fall or in the spring of 1956. The Commission approved the recommendation and instructed the Engineer to notify the City accordingly.

The Commission had under discussion the matter of increasing the salary of the Secretary, Mr. H. B. Glaisyer. It was the feeling of the members of the Commission that the Secretary is entitled to a salary increase comparable to the increases that have been granted other officials in the State Highway Department. Accordingly, the matter was referred to the Engineer to discuss with Mr. Harry Dorman, Director of the Department of Finance and Administration. The Commission authorized any salary increase that Mr. Dorman may approve.

The Commission discussed a definite date for its meeting in September, heretofore tentatively scheduled for Thursday and Friday, September 22 and 23. It was decided to change the meeting date to Monday and Tuesday, September 26 and 27, subject to further consideration at the next meeting.

Consideration was also given by the Commission to the request of Mr. Donald M. Sharp, Hood River, for state assistance in developing a recreational area at Cloud Cap Inn on the Mt. Hood Highway, Hood River County, involving construction of a roadway to a proposed ski site and a car parking area. The Commission recalled Mr. Sharp's previous statements to the effect that the U. S. Forest Service contemplates constructing the road and the parking lot, and that if the roadway is provided then a private company will spend about $200,000 in developments, but their main problem is to keep the road open for travel during the winter season. In the discussion mention was made of information received from the U. S. Forest Service Engineer that the Forest Service is not interested in building a road to the ski area, but will approve an expenditure of forest highway funds to improve the Mt. Hood Highway to facilitate the truck hauling of logs to Parkdale. It was the feeling of the Commission that it is more important to complete reconstruction of the Mt. Hood Highway between Portland and Government Camp than it is to improve the highway in the Parkdale area. It was also recalled that Mr. Sharp was informed that the Commission would investigate the proposed recreational development at Cloud Cap sometime this summer. The Engineer advised that it would not be possible to make such inspection at this trip because of snow conditions. Accord-

ingly, the Commission decided to take no action in the matter now and to return to Portland via Government Camp rather than through the Hood River Valley as was originally intended.

The Commission discussed a request from the U. S. Forest Service that the State take over some of the forest wayside camps along the John Day Highway, particular mention being made of such a camp between Austin and Baker, and a camp at Aneroid Lake in Wallowa County. It appeared from the discussion that the Forest Service is of the feeling that the camp between Austin and Baker should be a state responsibility because it is adjacent to the John Day Highway; also that the Forest Service has no money available to finance development. The Engineer was instructed to discuss the matter with the Regional Forester, Mr. J. Herbert Stone.

During the progress of the inspection trip the Commission observed the condition of numerous stock pile sites on some of which sage brush has been allowed to grow causing an unsightly appearance. The Engineer was instructed to remove the sage brush and to perform such other work as may be necessary to give the sites a more pleasing appearance.

The Engineer reported on the request of the Overland Greyhound Corporation for permission to operate its scenicruisers over the Old Oregon Trail between the Idaho State line and Portland, particularly between Pendleton and La Grande, where the alignment of the highway is such that this type of vehicle cannot operate without encroaching in the opposing lane of travel on the approaches to the several bridges across the Grande Ronde River and at the Glover overpass. He said that while it is true that 35-foot busses also have some trouble, they are permitted to operate under statute, but the statute expressly forbids the issuance of a permit for a longer vehicle unless a trial run discloses that the vehicle can stay on its side of the road at all times. He further stated that a trial run of the 40-foot scenicruiser disclosed that it could not meet this requirement,so the Commission authorized a contract for widening these approaches to a width that would permit such movements without encroaching on the opposing traffic lanes. He again pointed out that the Highway Commission cannot give a permit to the Overland Greyhound Corporation to operate its scenicruisers until this work is done, and be within the law. He mentioned that it is expected the contract will be completed by September 1.

In the ensuing discussion, it was pointed out that trucks and busses that now operate over the highway without special permit have difficulty in crossing the bridge structures proper without crowding the vehicle in the opposing traffic lane because of the narrowness of the bridge structures. The Engineer recalled that he recommended some time ago that traffic control lights be installed, but he said, perhaps the condition could be cared for by installing signs warning trucks and busses not to attempt to pass on the bridges. It was the opinion of the Commission that neither the scenicruisers nor any other trucks or busses should be allowed to cross any of the bridge structures when they are occupied by another ve-

hicle; accordingly the Engineer was instructed to erect appropriate signs at once at each end of the several structures, prohibiting any truck or bus from entering upon them when they are occupied by another vehicle.

The Commission discussed the question of what action to take against contractors who have claims for compensation in excess of the amount shown by the Engineer's final estimate to have been earned under contracts with the State Highway Department, of more than one year's standing, and who have not instituted court action to collect. The Commission stated that in its opinion, contractors in that category are not qualified to perform work on public contracts, and will henceforth be disqualified from bidding on State Highway work. The Engineer was instructed to submit a list of such contractors to the Commission at its next regular meeting so as to enable the Commission to take appropriate action with respect to each of the contractors concerned.

There being no further business to come before the Commission at this time, the meeting was declared adjourned at 4:00 p.m., upon arrival at Valley Falls.

EXHIBITS "A-1" through "C"

Minutes of

OREGON STATE HIGHWAY COMMISSION SECOND INSPECTION

TRIP (1955)

July 11 to 14, 1955

EXHIBIT "A-1"

Minutes of July 11 to 14, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Smith Point-Glenwood Section of the Oregon Coast Highway in Clatsop County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Smith Point-Glenwood Section of the Oregon Coast Highway, beginning at Highway Engineer's Station 0+00 at Smith Point and extending in a southwesterly direction across Youngs Bay to Highway Engineer's Station 432+00, approximately 1½ miles south of the community of Glenwood, north of Seaside, together with the map, which for identification purposes bears Map File No. 1R-5-751 and the date of July, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

EXHIBIT "A-1" (cont)

4. That heretofore by resolution of this Commission dated November 3, 1948, said section of the Oregon Coast Highway between Astoria and Seaside has been designated as a "throughway" within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law, and, for the reasons stated therein, the above-named section of said highway should be so designated and it is hereby directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law except any portion of said section which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a "throughway".

5. That this resolution be entered in the minutes and records of the Commission as of the thirteenth day of July, 1955, as Survey Resolution No. 128.

EXHIBIT "A-2"

Minutes of July 11 to 14, 1955

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the routes and locations of (1.) Boulder Gorge Section of the Sumpter Valley Secondary Highway in Baker County, (2.) Siletz -Camp Twelve Unit of the Siletz-Toledo Section of the Siletz Secondary Highway in Lincoln County, and (3.) Hillsboro-One-Way Streets Section of the Tualatin Valley Highway in Washington County, and in connection therewith to prepare maps showing the routes and locations of said highway sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1-a. That the survey of the Boulder Gorge Section of the Sumpter Valley Secondary Highway, beginning at Highway Engineer's Station 283+00 approximately 4½ miles west of the junction with the Baker-Unity Highway,and extending in a westerly direction to Highway Engineer's Station 313+50 at California Gulch, together with the map, which for identification purposes bears Map File No. 1R-5-761 and the date of July, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1-b. That the survey of the Siletz-Camp Twelve Unit of the Siletz-Toledo Section of the Siletz Secondary Highway, beginning at Highway Engineer's Station 364+32.52 near the old bridge across the Siletz River at the southerly city limits of the town of Siletz, and extending in a northeasterly direction to Highway Engineer's Station 407+13 in the town of Siletz, together with the map, which for identification purposes bears Map File No. 1R-5-767 and the date of July, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to

EXHIBIT "A-2" (cont)

file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1-c. That the survey of the Hillsboro One-Way Streets Section of the Tualatin Valley Highway, beginning at Highway Engineer's Station 405+02.64 near the southeasterly city limits of the City of Hillsboro and extending in a northerly direction along 10th Street to Baseline Street, thence westerly through the City of Hillsboro along Baseline Street and Oak Street to a junction at Highway Engineer's Station 36+86 at Dairy Creek, a short distance west of the west city limits of Hillsboro, together with the map, which for identification purposes bears Map File No. 1R-5-766 and the date of July, 1955, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the thirteenth day of July, 1955 as Survey Resolution No. 129.

EXHIBIT "B"

Minutes of July 11 to 14, 1955

RESOLUTION

WHEREAS, the Sunset Highway is a State Primary Highway and likewise a Federal-Aid Highway which throughout its entire length carries a large part of traffic; and

WHEREAS, it appears that on "Connection E" of the Cedar Hills Interchange between Barnes Road and the Sunset Highway in the vicinity of the Tektronix Plant, a short distance west of Portland, vehicles are parked on both sides of said "Connection E" for extended periods of time; and

WHEREAS, the parking of vehicles on said "Connection E" creates traffic congestion to such an extent that in the opinion of the Highway Commission, a hazardous condition is created to the traveling public; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking should be prohibited on both sides of said "Connection E".

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED, by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on either shoulder of said "Connection E", between Highway Engineer's Station 6+60 at Barnes Road and Highway Engineer's Station 13+00 at the Sunset Highway, creates a hazard to the traveling public.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of the right of way of said "Connection E" within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words, "NO PARKING ON HIGHWAY SHOULDER".

EXHIBIT "B" (cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 133 be entered in the minutes and records of the State Highway Commission as of the thirteenth day of July, 1955.

EXHIBIT "C"

Minutes of July 11 to 14, 1955

RESOLUTION

WHEREAS, the Legislative Assembly at its Forty-eighth Regular Session enacted Senate Bill No. 478 (Chapter 447, Oregon Laws 1955), which requires that notice be given to the Mayor of any city before the Highway Commission acquires any new rights of way or relocates or abandons any existing state highway within such city and provides for public hearing in the event the Mayor or Council of such city remonstrates or objects to the action contemplated by the Highway Commission; and

WHEREAS, it is necessary and desirable that the Commission establish a standard procedure so as to permit full and complete compliance with the provisions of said law and the intent of the Legislative Assembly;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. Not less than thirty days prior to the acquisition of any right of way for any highway project within the limits of any incorporated city and not less than thirty days prior to the execution of any agreement or the adoption of any resolution by the Highway Commission for the relocation or abandonment of any existing state highway within any incorporated city, the Secretary of the Highway Commission is directed to give notice of the contemplated action by letter addressed to the Mayor of the city affected by the contemplated action. Such letter shall contain sufficient information to permit the Mayor and City Council of the city concerned to identify the location of the same and to ascertain its effect upon the city. If the Mayor or City Council requests further or additional information and data, the Secretary shall immediately submit such maps, construction plans or other data as may be necessary to afford the Mayor and City Council the complete information relative to the details of the contemplated action of the Highway Commission.

2. If the Mayor or City Council of any city objects or remonstrates to the action contemplated by the Highway Commission within ten days after receipt of the letter referred to in paragraph one of this resolution, the Secretary for the Highway Commission shall make all necessary arrangements for a public hearing to be held at the City Hall in such city and shall give written notice of the date and time of such public hearing to the State Highway Commission and the Mayor of such city at least ten days prior to the date of the hearing.

3. That whenever it is practical, the Highway Commission shall attend and conduct said public hearing. Recognizing, however, that in many instances it may be impractical or impossible for all or any of the

members of this Commission to attend and conduct said public hearing, each of the following persons are hereby designated as the representative of the Commission for the purpose of such public hearings and are hereby authorized and directed to conduct public hearings in behalf of the Commission in accordance with the provisionsof Chapter 447, Oregon Laws 1955:

A. Any Highway Commissioner
B. The State Highway Engineer
C. The Deputy State Highway Engineer
D. Any Assistant State Highway Engineer

4. That either the Secretary of the State Highway Commission or the Assistant Secretary of the Highway Commission shall be present at each of said public hearings and shall maintain minute records of the proceedings and furnish copies of the minute records to each member of the Highway Commission as soon as practicable after each said public hearing.

5. That when any such public hearing is conducted by any of the representatives of the Commission designated in paragraph three of this resolution, such representative shall prepare a written report of the public hearing, together with his recommendations concerning the matter, and submit a copy of the same to each member of the State Highway Commission as soon as practicable after each said public hearing. In the event more than one of the representatives of the Commission designated in paragraph three of this resolution conducts the hearing, said report and recommendation may be prepared jointly by such representatives.

6. That after considering the reports and recommendations of the representatives of the Commission and the minute records of each public hearing and such additional information and data as the Commission may consider pertinent, the Commission shall enter in its official records a resolution setting forth its decision with respect to the proposed public improvement for which the public hearing was held. The Secretary for the Commission or the Assistant Secretary for the Commission shall deliver certified copies of such resolution to the Mayor of the city wherein such meeting was held.

7. That this resolution be entered in the minutes of the Commission as Miscellaneous Resolution, No. 148, as of this 13th day of July, 1955.

Portland, Oregon
August 11, 1955

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Chas. H. Reynolds, Acting Chairman
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
R. L. May, Jr., Assistant Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Chairman Chandler was excused from attending this meeting.

Bids as follows for highway construction were opened and read aloud by the Secretary, who then announced that the award of contracts would be made at 3:00 p.m. in the same room.

The Commission approved the minutes of the meeting held on May 25 and 26, 1955.

The State Parks Superintendent reported on the following matters pertaining to parks:

1. Proposed exchange of land with Lincoln County for state park purposes in the townsite of South Newport, south of Yaquina Bay: The

Parks Superintendent reported that negotiations have been completed for most of the land in the proposed park site, excepting 31 lots owned by Lincoln County, which the County will deed to the State if the State will deed to the County a 40-acre tract of land to the east, which the County deeded to the State a number of years ago, being situate in the SW¼ NE¼ of Section 20, Township 11 South, Range 11 West. The property contains approximately 1,200,000 B.F of timber, mostly spruce and hemlock, valued at $5,000 to $6,000. The County would like to have the land returned to them and as it is not suitable for park purposes, he recommended that it be deeded to Lincoln County in exchange for the 31 lots in the park area, and provided further that Lincoln County will construct and maintain boat launching facilities on the Siletz River for benefit of fishermen. The Commission approved the exchange of properties and ordered that an agreement be prepared covering the provisions mentioned by the Parks Superintendent.

2. Proposed park at the mouth of the Deschutes River in Wasco and Sherman Counties: The Parks Superintendent reported that he had investigated the area which had been recommended by The Dalles Chamber of Commerce and others, and had found it to be quite suitable for park purposes. He estimated the cost of primary development, excluding a road connection, at $40,000, of which $20,000 represents the cost of the land. He recommended that the necessary land be acquired, but that no development be made until the Columbia River Highway has been widened for 4 lanes of travel and a traffic interchange has been constructed to provide a safe entrance to the park.

The Engineer reported that the newly constructed section of the Columbia River Highway is so close to the railroad that under present conditions it is not feasible to construct a grade separation. He gave as his opinion that it will be necessary to widen the highway to 4-lanes within a few years and when this is done, an adequate entrance could be made to the park. He recommended against the construction of a grade crossing now. Following further discussion, the Commission authorized the Parks Superintendent to negotiate the acquisition of the land with the understanding that it is not to be developed until such time as it is possible to provide an adequate traffic interchange for ingress and egress to the park.

3. Report on acquisition of property in the Columbia Gorge as recommended by the Columbia Gorge Commission: The Parks Superintendent reported that the Gorge Commission has recommended the acquisition of 13 areas and that appraisals and studies have been made on some of them. Appraisals, timber cruises, contacts with owners, and other work will be pushed as rapidly as possible, he stated, with the idea in mind of presenting some completed transactions to the Commission at its next meeting. The Gorge Commission, he added, is in accord with the progress being made and the methods used. The Highway Commission accepted the report.

4. Out-of-State travel by the Parks Advisory Committee and the Parks Superintendent: The State Parks Advisory Committee, the Parks Superintendent reported, is planning a trip to Seattle during August 27-28 to visit parks in the western part of the State of Washington. He requested permission for himself and the Assistant Parks Superintendent, Mr L. V Koons, to make the trip. He estimated the cost for the entire group at $214. The Commission approved the trip for all and instructed the Parks Superintendent to submit a report concerning what had been seen and the reaction of the Parks Advisory Committee.

5. Out-of-State travel by the Parks Superintendent to attend the National Conference on State Parks: This Conference, the Parks Superintendent stated, is to be held at Mt. Mansfield State Park near Stowe, Vermont, during September 25-28. The estimated cost by plane, he stated, is $440 and he requested authority to attend. The Commission approved the request

6. Request of the "Geological Society of the Oregon Country", Portland, for development of a park area around an "erratic" stone located a short distance east and north of Bellevue on the Salmon River Highway in Yamhill County: This stone, the Parks Superintendent stated, is unusual in its size, weighing about 200 tons, and the fact that it was probably carried to this point in floating ice at a time when the Willamette Valley was covered with flood waters The composition of the stone is such that it is not of local origin. He recommended that authority be granted to acquire a few hundred square feet of land around the stone by purchase or lease, to provide a trailway to the stone and to install a suitable marker on the highway opposite the area. The Commission accepted the recommendation

7 Investigation of possible recreational areas on the Snake River in conjunction with the proposed Pleasant Valley and Mountain Sheep dams: A meeting was recently held, the Parks Superintendent stated, to discuss the possible recreational features at these damsites. At this meeting the U. S. Forest Service, the National Park Service, the Idaho Fish and Game Department, and the Oregon State Parks Department were represented. Inasmuch as the areas lie between the States of Oregon and Idaho, it was the feeling at the meeting that the National Park Service should carry on the necessary investigation for an overall recreational development. He requested that authority be granted him to join in this investigation so that the interests of the State of Oregon are not overlooked. The Commission granted the authority.

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed for state highway improvements and for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked

EXHIBIT "A", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission accepted the Right of Way Engineer's report on Miscellaneous Sales made by the Property Manager since the last meeting of the Commission. (For details concerning the sales, see the Property Manager's report dated August 11-12, 1955 in the Highway Commission's files in Salem.)

Renewal of a ground lease with the Weyerhaeuser Timber Company for 3 stock pile sites on the Green Springs Highway in Klamath and Jackson Counties was considered. The Right of Way Engineer reported that these sites have been under lease since 1930 and it is desired to extend the lease for a period of 5 years, beginning August 14, 1955, for a consideration of $1.00 and he so recommended. The Commission approved the lease extension.

Approval was requested for the sale of 1.6 acres of excess land on the Chenoweth Park-Deady Section of the Pacific Highway in Douglas County. The Right of Way Engineer advised that the property has been appraised at $500 and that an offer of such amount was received from Mr. Milo Fellows, at a public auction, Mr. Fellows being the only bidder for the property. He said that the property no longer is required for highway purposes,and he recommended in view thereof that it be sold to Mr. Fellows for the amount of his bid. The Commission approved the sale.

The Right of Way Engineer presented a number of requests for changes in points of access to state highways. He explained that none of these requests involve additional access, but are changes only for existing points of access. He recommended approval of the following changes:

a. Gillette property, File 20049, on the Mt. Vernon-John Day Section of the John Day Highway in Grant County.

b. Pope property, File 20098, on the Dayville-Mt. Vernon Section of the John Day Highway in Grant County.

c. Koble property, File 20101-20102, on the Dayville-Mt. Vernon Section of the John Day Highway in Grant County.

d. Morris property, File 20300, Dayville-Mt. Vernon Section, John Day Highway in Grant County.

e. Beck property, File 18472, Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County.

f. Chipman property, File 18469, Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County.

g. Goodwin property, File 21333, Dayville-Mt. Vernon Section of the John Day Highway in Grant County.

h. Masson property, File 20060, Dayville-Mt. Vernon Section of the John Day Highway in Grant County.

i. Petwin property, File 18541, Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County.

j. Burkland property, File 5076-5078-5079, Interstate Avenue, Pacific Highway West in Multnomah County.

The Commission approved the changes as recommended.

Upon the Right of Way Engineer's recommendation, the Commission approved entering into a "Lease Agreement" with the Signal Oil Division of Standard Oil Company of California for temporary use of Lots 1, 2, 3 and 4, Block 110, Portland. The Right of Way Engineer explained that this property lies within the Harbor Drive-Clay-Columbia Interchange Section and the lease will be cancelled very soon because of construction operations. However, the Oil Company requests that the lease be signed so that they can pay for the use of the property for two months on a basis of 2 cents per gallon of gasoline sold.

Sale of 1.65 acres of excess property on the Mt. Vernon-John Day Section of the John Day Highway in Grant County was discussed. The Right of Way Engineer stated that this property has been declared surplus and that a minimum value of $500 has been placed on it. At a public sale held on July 13, 1955, Mr. Fred Clift and Mr. Robert Keerins submitted the only bid received in the amount of $500. He recommended that the property be sold to them for such amount with one unrestricted access to the highway of a width not to exceed 25 feet. The Commission approved the sale of the property as recommended.

The following parcels of property were reported by the Right of Way Engineer as being no longer required for highway purposes, and he requested authority to advertise them for public sale:

a. 1.449 acres on the Silverton Section of the Salem-Silverton Highway in Marion County, for a minimum price of $1,800. (See EXHIBIT "B-1".)

b. 1.4 acres on the Portland-Milwaukie Section of the Pacific Highway East in Clackamas County, at a minimum price of $2,000. (See EXHIBIT "B-2".)

c. 160 acres of timber land on the Wolf Creek-Grants Pass Section of the Pacific Highway in Josephine County, at a minimum price of $61,000 and allowing a temporary access for logging purposes. (See EXHIBIT "B-3".)

d. 1.5 acres on the Gervais-Hayesville Section of the Portland-Salem Expressway in Marion County, for a minimum price of $1,000, without access to the Portland-Salem Expressway. (See EXHIBIT "B-4".)

The Commission approved the request by adopting the attached resolutions relative thereto marked EXHIBITS "B-1" through "B-4", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Consideration was given to conveying to Douglas County 0.45 acre of excess land on the Garden Valley Road-South Umpqua River Section of the Pacific Highway in Douglas County. The County has requested this property, the Right of Way Engineer stated, as additional ground for the Douglas County Farm Home. The property is 26 feet below the new highway level, and presently is a decided eyesore, and is of no value for highway purposes. He recommended that it be deeded to Douglas County with access restrictions, for the sum of $1.00. The Commission accepted the recommendation with the stipulation that the property is to be used by the County for public purposes only.

Authority was requested by the Right of Way Engineer to offer at public sale 0.45 acre of land on the Greggs Creek-Wedderburn Section of the Oregon Coast Highway in Curry County, which land, he said, is located just south of Nessica Beach, and is not required for highway purposes. He recommended that it be advertised for sale for a minimum price of $450. The Commission authorized the sale at such minimum amount.

Attention was given to a proposed exchange of property with Mr. O. A. Erickson, on the Olds Ferry-Ontario Section of the Old Oregon Trail, Malheur County. The Right of Way Engineer stated that in acquiring right of way from Mr. Erickson, it had been agreed to re-establish his irrigation system on the westerly side of the highway. Mr. Erickson has now offered to accept 8.26 acres previously acquired from him, and in exchange he will release the State from its obligation to reconstruct his irrigation system. The appraised value of the land, he stated, is $704, and it is estimated that it will cost $962.75 to reconstruct the irrigation system. He recommended that the 8.26 acres be deeded to Mr. Erickson without access to the Old Oregon Trail, on condition that he will release the State from all obligation to re-establish the irrigation system. The Commission accepted the recommendation.

The Right of Way Engineer recommended and the Commission authorized the expenditure of not to exceed $360 for installation of new heating units in property that was acquired in connection with a settlement for right of way for the City Limits-Barbur Boulevard Unit of the Portland-Salem Expressway in Multnomah County. These properties, the Right of Way Engineer explained, provide an income of $200 a month and purchase of the heating units is well justified.

Consideration was given to a "Waiver and Relinquishment of Lease" on a parcel of ground leased by the State Highway Department, October 17, 1941, for a period of 15 years, for a borrow pit on the 7th Street-11th Street Connection in the City of Eugene. The Right of Way Engineer explained that the 7th Street-11th Street Connection has now been turned over to the City, so the State has no use for the borrow pit. He recommended that the lease be relinquished. The Commission approved the relinquishment as recommended.

Payment to the West Coast Telephone Company of the sum of $850 for moving its poles on the Hinsdale Slough-Luder Creek Section of the Umpqua Highway in Douglas County, was presented by the Right of Way Engineer. He explained that the poles are on property owned by the Telephone Company and that it is necessary that they be moved to accommodate highway construction that is now under way. He recommended that an amount not to exceed $850 be paid the Telephone Company. The payment was approved by the Commission.

The Commission approved a request from the Right of Way Engineer that he be granted authority to offer at public sale 0.51 acre on the Bear Creek-Talent Section of the Pacific Highway in Jackson County. This land, the Engineer commented, was acquired for the sum of $51 and is no longer needed for highway purposes; also, that the property has been appraised at a value of $300. He recommended that it be offered at public sale for not less than $300 with complete restriction of access to the Pacific Highway. The Commission authorized the sale on such basis.

Consideration was given to approval of a new lease with Roberts Motor Company for use of property at the east end of the Steel Bridge in Portland, known as the Mack Truck Building. The proposed lease, the Right of Way Engineer stated, provides that the Company shall pay $750 per month for the lease, and shall also pay taxes on the property, the premium for fire insurance, and that either party may cancel the lease upon one year's written notice. He advised that the new lease covers the period November 1, 1955 to October 31, 1960, and he recommended approval of the same. The Commission approved the lease as recommended.

The Right of Way Engineer recommended entering into an agreement with Multnomah County relative to the acquiring of properties that are needed for the ramp connecting the T. H. Banfield Expressway with 122nd Avenue, Portland. He explained that Multnomah County is at this time acquiring right of way to widen 122nd Avenue as part of a county project, and that the Right of Way Department is at this time attempting to acquire properties from the same owners for the construction of this ramp. The matter has become somewhat confused by reason of two public agencies negotiating simultaneously with the same property owners. Four properties are required in connection with the Highway Department's contract. It is proposed that the State acquire three of these parcels and the County acquire one parcel. It is further proposed that the cost of each parcel be prorated according to the appraisal of Mr. Leroy Draper. Mr. Draper has, or will, set up percentages which in his opinion will reflect the amount of money that the County should pay and the amount of money that the State should pay. The Right of Way Engineer requested, if the Commission approves this arrangement, that it be covered by appropriate agreement with the County and that the

Chief Counsel be authorized to sign such agreement in behalf of the Commission in order to expedite the awarding of the contract. The Commission approved the arrangement as recommended and authorized the Chief Counsel to sign the agreement. The attached resolution relative thereto marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties which are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Dolph Corner-Rickreall Section of the Willamina-Salem Highway

R-18155- Ross A. Simpson
Right of Way (Polk)
Parcel No. 1: 7.65 acres
Parcel No. 2: 2.15 acres

R-18161- Joseph H. Harland
Right of Way (Polk)
13.13 acres

Meacham-Hilgard Section of the Old Oregon Trail Highway

R-22793- Chester C. Whitehill
Right of Way (Union)
12.64 acres

Bradley Park-Columbia County Line Section of the Columbia River Highway

R-23858- Thomas W. Freeman
Right of Way (Clatsop)
2.14 acres

R-23863- Arthur T. Trenholm
Right of Way (Clatsop)
1.01 acres
Permit of Entry obtained

Hillsboro One-Way Streets Section of the Tualatin Valley Highway

R-23840- The City of Hillsboro
Right of Way (Washington)
0.61 acre

R-23841- O. E. Schwab
Right of Way (Washington)
302 square feet

R-23842- Millard E. Morley
Right of Way (Washington)
350 square feet

R-23843- Charles W. Marshall
Right of Way (Washington)
1660 square feet

R-23844 C. C. Rate
Right of Way (Washington)
900 square feet

Hillsboro One-Way Streets Section of the Tualatin Valley Highway (cont)

R-23845- William O. Joos
Right of Way (Washington)
1.76 acres

R-23846- Walter L. Peavey
Right of Way (Washington)
2650 square feet

R-23847- E. D. Carver
Right of Way (Washington)
2650 square feet

R-23848- Eva Elnora Bailey
Right of Way (Washington)
6.25 acres

R-23849- H. N. Kummer
Right of Way (Washington)
.06 acre

R-23850- G. E. Gibbons
Right of Way (Washington)
0.28 acre

R-23853- Charles W. Ketcham
Right of Way (Washington)
.01 acre

Bandon-Port Orford Section of the Oregon Coast Highway

R-22524- W. J. Sweet
Road-building materials (Curry)
9.5 acres

Tualatin River-Middleton Section of the Pacific Highway West

R-23347- Anna E. Stein
Right of Way (Washington)
0.90 acre

R-23348- Elizabeth Miller
Right of Way (Washington)
0.23 acre

R-23397- Elizabeth Rose and Maxwell F. Beno
Right of Way (Washington)
2.5 acres

Shady Point-Booth Ranch Section of the Pacific Highway

R-23035- Raymond C. Laurence
Right of Way (Douglas)
0.23 acre

Myrtle Creek-Canyonville Section of the Pacific Highway

R-21012- Roy W. Alspaugh
Right of Way (Douglas)
3.32 acres

R-21013- Adeline Weaver
Right of Way (Douglas)
Parcel No. 1: 6.4 acres
Parcel No. 2: 1.32 acres

R-21014- Orville H. Weaver
Right of Way (Douglas)
Parcel No. 1: 5.22 acres
Parcel No. 2: 0.76 acre

R-21016- Bess W. Briggs
Right of Way (Douglas)
3.13 acres

R-21017- William P. Weaver
Right of Way (Douglas)
2.36 acres

R-21018- C. R. Weaver and William P. Weaver
Right of Way (Douglas)
2.31 acres

R-21019- C. R. Weaver
Right of Way (Douglas)

Right of Way (Douglas)
5.08 acres

Clay-Columbia Street Interchange of the Portland-Salem Expressway

R-20670- Continental Pacific Trailways
Multnomah
20,790 square feet
To condemn leasehold interest of above lessee

August 11, 1955

Washburn-North Plains Section of the Wilson River Highway

L-2051- Florence E. Jones, et al.
New resolution required for additional taking

L-2055- Melissa J. Gibson, et vir.
New resolution required for additional taking

The Commission granted the request by adoption of the attached resolutions relative thereto marked EXHIBITS "I -1" through "I -12 ", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and unanimously approved the Chief Counsel's written report of cases which have been tried in court by his staff since the June 30, July 1 meeting of the Commission,as follows:

REPORT OF CONDEMNATION CASES TRIED JUNE 28, 1955 to AUGUST 8, 1955

Case	County	Highway	Section	State's Offer	Defts. Demands	Verdict
R-10008 Walmsley	Columbia	Columbia River	Goble-St. Helens	$ 555.00	$ 850.00	$ 650.00
R-21898 Billings	Curry	Oregon Coast	Wedderburn-Giesel Monu.	1,000.00	None	1,050.00
R-21546 Collins	Curry	Oregon Coast	Euchre Creek-Wedderburn	3,500.00	$ 3,500.00	3,500.00
R-21223 Sherrill	Lane	Pacific	Goshen-Divide	8,726.00	13,226.00	10,000.00
R-22098 Smith	Marion	Pacific East	Salem By-Pass-Jefferson Junction	2,934.00	12,500.00	3,000.00
R-20361 Stampley	Marion	Portland-Salem-Expressway	Hayesville Jct.-Wilsonville Junction	6,847.00	19,256.00	10,250.00
R-19735-Wesling	Washington	Pacific West	Tualatin River-Middleton	506.00	1,600.00	500.00
R-22411 Branchflower	Yamhill	Yamhill-Newberg	Carlton Jct.-Newberg	4,570.00	8,000.00 + Lessee's Interest	6,500.00

August 11, 1955

(Note: For details see copy of the Chief Counsel's written report to the Commission, dated August 4, 1955, in the General Files.

The Commission also approved the Chief Counsel's report of cases which have been settled out of court since the last Commission meeting, as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-22685 Georges	Clackamas	Cascade Secondary	S.E. Flavel Street-Lake Road	$15,000.00	$16,500.00
R-21893 Connet	Curry	Oregon Coast	Euchre Creek-Wedderburn	7,140.00	9,260.00
R-22976 Holmgren	Douglas	Pacific	Shady Point-Booth Ranch	400.00	600.00

R-21990 Trinkhaus	Curry	Oregon Coast	Euchre Creek-Wedderburn	1,250.00	1,400.00

*Saving of $4,100 effected by construction of smaller underpass.

(For further details see the Chief Counsel's letters of August 4, 9, and 10, 1955 in the General Files.)

The Chief Counsel presented and the Commission accepted offers, as follows, for the acquisition of real property, which offers were tendered to the owners of the properties prior to the institution of condemnation proceedings in accordance with authority granted by the Commission on December 20, 1951:

Goshen-Divide Section of the Pacific Highway:

R-23448-Hubert Hickethier, et al. 11.7 acres for acquisition of roadbuilding materials. Offer of $4,440 approved by Mr. Reynolds August 5, 1955.

Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway:

R-23276-John M. Green, et al. 5.6 acres for right of way purposes. Offer of $940 approved by Mr. Reynolds August 5, 1955.

R-23282-Mary Josephine Hurst. 0.63 acre for right of way purposes. Offer of $150 approved by Mr. Reynolds August 5, 1955.

R-23284-Martha A. Morris. 11 32 acres for right of way purposes. 36.36 acres for excess taking. Offer of $2,057 approved by Mr. Reynolds August 5, 1955.

R-23285-William V. Burgess, et ux. 1.19 acres for right of way purposes. Offer of $150 approved by Mr. Reynolds August 5, 1955.

R-23286-M. W. Koons, et al. 3.32 acres for right of way purposes. 0.98 acre for excess taking. Offer of $215 approved by Mr. Reynolds August 5, 1955.

Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway (Cont)

R-23732-Mary Josephine Hurst, et al. 1.3 acres for right of way purposes. Offer of $19,350 approved by Mr. Reynolds August 5, 1955.

Harbor Drive-Barbur Drive Section of the Portland-Salem Expressway

R-22545-Sam Fazzolari, et ux. 10,000 square feet for right of way purposes. Offer of $7,500 approved by Mr. McIver July 29, 1955.

R-22549-Edward L. Kelley, et ux. 5,000 square feet for right of way purposes. Offer of $3,000 approved by Mr. McIver July 29, 1955.

Reedville-Beaverton Section of the Tualatin Valley Highway:

R-22525-John Farley, et al. 2,890 square feet for right of way purposes. Offer of $8,750 approved by Mr. McIver July 29, 1955.

R-22810-Austen Sinnerud, et al. 0.1 acre for right of way purposes. Offer of $2,050 approved by Mr. McIver July 29, 1955.

R-22821-Ruth M. Ross. 0.12 acre for right of way purposes. Offer of $9,000 approved by Mr. McIver July 29, 1955.

R-22832-H. A. Nielsen, et ux. 0.42 acre for right of way purposes. Offer of $9,750 approved by Mr. McIver July 29, 1955.

R-22859-Fletcher Russell, et al. 0.09 acre for right of way purposes. Offer of $433 approved by Mr. McIver July 29, 1955.

R-22862-Raymond R. Mathis, et al. 0.23 acre for right of way purposes. Offer of $26,625 approved by Mr. McIver July 29, 1955.

R-22871-John Farley, et al. 0.25 acre for right of way purposes. Offer of $2,600 approved by Mr. McIver July 29, 1955.

A report was submitted by the Chief Counsel and accepted by the Commission concerning orders issued by the Public Utilities Commissioner which are of interest to the Highway Commission, as follows:

PUX 113: S. W. Emigrant Avenue Overcrossing in Pendleton: On motion of the Highway Commission the application of the Commission was dismissed without prejudice.

PUX 128: Relocated Divide Overcrossing and removal of existing overcrossing on the revised location of the Pacific Highway in Lane County. The order issued by the PUC fully authorizes the work proposed by the Commission.

PUX 130: Ochoco Lumber Company truck crossing near Prineville in Crook County. The order provides in detail the signing and signal protection being installed at the crossing.

PUX 132: City of Hillsboro grade crossing of the tracks of Southern Pacific Company southeast of Hillsboro. The order entered by the PUC validates an existing crossing of the railroad which long has been in use.

The matter of disqualifying as prospective bidders those contractors who have outstanding claims against the Highway Department of more than one year's duration was discussed. The Assistant Counsel pointed out that a provision has recently been placed in all contract forms providing that any claim for additional compensation must be submitted by the contractor within ninety days following mailing of the Engineer's final estimate to the contractor; that the contractor must commence suit or action to collect or enforce his claim within a period of one year and, if such action is not taken, the contractor waives all claim for additional compensation. The Engineer stated that at this time only one contractor, Mr. Edwin C. Gerber, will be affected by the Commission's disqualification ruling as made on July 13, 1955 during an inspection trip. It was the Assistant Counsel's opinion that the prequalification law pertains to the ability of a contractor to perform contract work, and he expressed doubt as to the legal authority of the Commission to disqualify a contractor because he refuses to sign a final estimate voucher. He recommended that the Commission rescind its previous order. The matter was the subject of considerable discussion, with the result that the Commission decided to adhere to its previous decision and ordered that Mr. Gerber be notified that he has been disqualified from further bidding.

The Assistant Counsel presented a report concerning the institution of the case of Ballard vs. State of Oregon, by and through its State Highway Commission. He explained that this case, filed in the name of Ballard, is really in behalf of a number of employees of the Consumers Cooperative Association who seek to collect wages for loss of time because of damages to the Association's sawmill resulting from blasting operations conducted by state highway crews on the Siuslaw Highway about one mile west of Swisshome, on January 5, 1955. He recalled that the Commission previously indicated that it would not oppose payment of property damages to the sawmill, and that legislation had been enacted to enable such payment; also, that when the matter was previously considered the Commission, on recommendation of the Chief Counsel, denied all claims for loss of wages due to the fact that the law does not provide for such payments. The complaint now submitted demands recovery of a total of $9,325.40. The Commission ordered appropriate action taken to defend the State.

A report on damage claims that have been abandoned was also submitted by the Assistant Counsel, as follows:

Milton A. Klippel: For damages to a state vehicle in the amount of $7.15. It now appears that the State Highway Department's vehicle struck Mr. Klippel's vehicle on entering the highway from a private driveway, and the State operator may have been at fault.

State Board of Forestry: For damages to a highway pilot car caused when a car owned by the State Board of Forestry attempted to pass the pilot car, causing damages to the pilot car in the approximate amount of $100. Subsequently, it was determined that the State's automobile liability policy does not cover damages caused by one State vehicle to another State vehicle. The Commission approved the abandonment of the claims as presented.

Commissioner McIver inquired concerning the status of the "Q" Street route between Eugene and Springfield regarding which the Commission previously adopted a survey extending from the East end of the Ferry Street Bridge to the Mohawk Road. Mr. W. C. Williams, Deputy State Highway Engineer, stated that he has heard that a supermarket and possibly other developments are scheduled to start on the proposed right of way in the near future. This property, he stated, is becoming increasingly valuable, particularly near the Ferry Street Bridge and he estimated that it would cost about $180,000 to acquire the right of way in that vicinity. Mr. R. H. Baldock, State Highway Engineer, pointed out that the "Q" Street route is an integral part of the State Highway system in the Eugene area and is badly needed; also, being on the interstate system, it appears that the Federal Government will pay 90 per cent of the cost. The Commission instructed the Engineer to give the matter further thought and present a report tomorrow concerning what should be done regarding the acquisition of right of way.

(On the following day the Right of Way Engineer reported that it would cost at least $750,000 to acquire right of way on the "Q" Street route from the Ferry Street Bridge to the Mohawk Road. He requested authority to negotiate acquisition of those properties on which it appears that building developments will soon take place. The Engineer emphasized the need for acquiring land on the proposed right of way before expensive development is undertaken and urged that authority be given to negotiate purchase of five tracts fronting on Coburg Road which are the most necessary properties; also, that authority be given to condemn these properties if the negotiations are unsuccessful. The Commission granted the authority for acquisition and condemnation, as requested).

The Engineer reported that, as previously authorized by the Commission, he has awarded contracts referred to him to award when certain conditions had been satisfied, as follows:

1. Bruce Junction-Martins Lake Section of Martins Lake Road, Benton County. Bids received July 1, 1955. Conditions of award satisfied July 11, 1955. C. J. Eldon, Portland, contractor.

2. Gladstone (Clackamas Blvd.) Paving Project, Clackamas County. Bids received July 1, 1955. Conditions of award satisfied July 11, 1955. P. A. Shoat Co., Portland, contractor.

3. North Yamhill Bridge on Moores Valley Road, Yamhill County. Bids received June 30, 1955. Conditions of award satisfied July 13, 1955. Birkemeier Construction Co., Milwaukie, contractor.

4. East Unit, Alicel Junction Cove Section of Lower Cove Road Oiling Project, Union County. Bids received June 30, 1955. Conditions of award satisfied July 13, 1955. Russell Olson Construction Co., Pendleton, contractor.

5. Enterprise (Depot Street) Paving Project, Wallowa County. Bids received June 30, 1955. Conditions of award satisfied July 15, 1955. Morrison & Lamping, Milton-Freewater, contractor.

6. Mt. Angel (Church and College Streets) Grading and Paving project, Marion County. Bids received July 1, 1955. Conditions of award satisfied July 21, 1955. Warren Northwest, Inc., Portland, contractor.

7. Grading and surfacing Werst Corner-Wallowa Section of Werst Corner-Wallowa River Road, Wallowa County. Bids received June 30, 1955. Conditions of award satisfied July 22, 1955. C. C. Meisel, McMinnville, contractor.

8. Grading and paving Walker Mountain Road-Lenz Road Unit, Lapine-Lenz Road Section of The Dalles-California Highway, Klamath County. Bids received July 1, 1955. Conditions of award satisfied July 25, 1955. Rogers Construction Co., Portland, contractor.

9. Weaver Overcrossing of the Southern Pacific Company Tracks near Myrtle Creek on the Pacific Highway, Douglas County. Bids received May 25, 1955. Conditions of award satisfied August 8, 1955. A. H. Saxton & Son, Corvallis, contractor.

The Commission accepted the report.

The Engineer also reported that test runs had been made with truck and trailer combinations over that portion of the Medical Springs Secondary Highway No. 340 from Pondosa to its junction with the Baker-Homestead Highway near the City of Baker, and that the tests revealed that such equipment can be operated over the highway without encroaching on the opposing lane of traffic. As the result of these test runs, he stated, that he has reclassified this highway section from a Group II Highway to a Group I Highway. The Commission accepted the report.

Consideration was given to the renewal of an agreement with the Columbia Sand and Gravel Products Company, of Umatilla, Oregon, con-

cerning its operations in a State-owned gravel pit at Umatilla. The Engineer reported that as instructed by the Commission at the previous meeting, he has checked to ascertain if the Company has completed its obligations under the terms of the previous two-year agreement which expired April 9, 1955, and found that the obligations have been fulfilled. He recommended,in view thereof,that the agreement be extended for one year. The Commission approved such extension.

A tabulation of statistics taken from the weighmaster records for a three-month period, from April through June for the years 1951 to 1955, inclusive, was presented by the Engineer who commented that there appears to be nothing particularly significant about the statistics except that the number of pending cases is still increasing and the number of log-hauling violations in excess of 10,000 pounds has increased somewhat. The Commission accepted the report.

Consideration was given to a request from the Seaside High School Board for oiling of a parking area across the Oregon Coast Highway from the school. The oiling, the Engineer explained, would extend from the pavement edge to the right of way line and also onto an area outside the right of way which area is owned by the School District. He called attention to the fact that the area is used as a view point by tourists in the summer months to view the ocean and bay, and when school is not in session tourists will have almost exclusive use of it. As a matter of good public relations, he recommended that the parking area inside and outside of the right of way be oiled, on the basis that the State and the School District, each pay half of the total estimated cost of $1,500. The Commission approved the project.

The Commission discussed briefly the Engineer's report on six schemes for construction of a rest room and concession building at Depoe Bay. Action, however, was deferred until later in the day.

(Shortly after the meeting reconvened at 1:30 p.m., the Commission again discussed with the Engineer the several plans for this project. Commissioner McIver moved adoption of Scheme "E" (Drawing No.S-237). As a result of the discussion that followed, the Commission unanimously approved such plan tentatively estimated to cost $46,500, subject to minor changes with respect to location and design as may be approved by Commissioner McIver, after personal inspection of the premises. Authority was also given the Engineer to advertise the project for bids to be received at the September meeting of the Commission.)

A petition was considered from E. D. Wardlaw and other farm residents along the new section of the Old Oregon Trail immediately northwest of Ontario, requesting an additional interchange at a location known as the old CCC Camp. The Engineer reported that there is an existing interchange approximately 1-2/3 miles northwest of the requested interchange and that the petitioners will be required to travel only about one-half mile additional distance to use it. He also pointed out that there are not more than fifteen farms which would be materially benefited by the requested interchange.

Construction of such interchange, he stated, will cost approximately $70,000, expenditure of which is not justified by the number of prospective users; moreover, it would be inimical to the principles of a freeway design. The Commission deferred action on this matter pending the appearance of a delegation on the following day.

(The delegation which appeared before the Commission was informed that the Commission does not feel that the interchange is justified now, but further consideration will be given the matter after the highway has been opened to traffic for a year or two).

The following matters of unfinished business as shown on the Secretary's report of July 13, 1955 were considered by the Commission:

1. State park at the mouth of the Deschutes River as proposed by the Deschutes County Planning Commission and The Dalles Chamber of Commerce: This item was ordered removed from the list of unfinished business as the matter had been considered earlier in the day.

2. Request for signs on scenic drives in Hood River Valley: The Engineer recalled that action had been deferred on this matter pending inspection by the Commission on their July trip which was not done due to lack of time. Action was again deferred pending inspection by the Commission. This item is to remain on the list of unfinished business.

3. Request from the Columbia Gorge Committee for acquisition of several areas in the Columbia Gorge: The Commission ordered this item deleted from the list of unfinished business as the matter had been taken care of in reports previously submitted at this meeting by the Parks Superintendent.

4. Purchase of Fritz Luscher property in the Columbia Gorge: This item was considered earlier in the day in a report made by the Parks Superintendent and was ordered deleted from the list of unfinished business.

5. Proposed concession and rest room facilities at Depoe Bay: This item was also ordered removed from the list of unfinished business as action on the matter was previously approved by the Commission.

6. Request of Seaside High School Board for the oiling of a parking area and view point adjacent to the Oregon Coast Highway, opposite their high school: This matter having been reported by the Engineer, the Commission ordered it deleted from the list of unfinished business.

7. Renewal of an agreement with Columbia Sand and Gravel Products Company for removal of material from a State-owned gravel pit at Umatilla: The Commission ordered this item removed from the list of unfinished business as the matter had been previously disposed of.

8. Hearings concerning rerouting of highways in cities and towns: The Engineer stated that there is nothing to report at this time and he recommended that the item be removed from the list of unfinished business, to appear as new business when the matter again arises. The Commission ordered the item deleted from the list of unfinished business.

9. Proposed road construction leading to Cloud Cap Inn Recreational Area: This matter was scheduled for Commission inspection during the road trip in July but time and snow conditions did not permit. Commissioner Reynolds stated that he had been informed that the U.S. Forest Service does not intend to construct the roadway to the area. The item was ordered removed from the list of unfinished business.

A request from Mr. O. C. McWherter, Myrtle Point, for construction of a cattle pass on the Coos Bay-Roseburg Highway, approximately five miles east of Myrtle Point, was considered. The matter was investigated by the Traffic Engineering Division, the Engineer reported, and it was found that the accident rate in this vicinity is very good and that Mr. McWherter moves stock across the highway only twice a year. He recommended, in view of these findings, that the request be denied. The Commission accepted the report.

The Engineer requested authority to expend the sum of $4,200 to recondition a section of guard fence between Wygant Park and Hood River on the Columbia River Highway, specifically 2,400 lineal feet between M.P. 58.9 and M.P. 59.4. He explained that since the guardrail was originally installed, the embankment has settled unequally, giving the guardrail an unsightly appearance and reducing its effectiveness as a traffic safeguard. He recommended that the fence be raised to proper grade, realigned, cleaned and painted, as a minor betterment project. The Commission approved the project.

The Engineer also requested authority to expend $3,500 to construct a decelerating lane, a left-turn refuge for southbound traffic and drainage facilities on US101 at its junction with a Coos County road which the County is constructing as an approach to a new bridge across Isthmus Slough. This County road, he stated, will make a new connection with the Oregon Coast Highway and the connection facilities would have been provided for in the over-all contract on US101, if the County road had been reconstructed at that time. As it is the State's obligation to accommodate the County road, he recommended that the project be approved as a minor betterment project to be performed by State forces. The Commission accepted the recommendation.

Consideration was given by the Commission to adopting a survey for the relocation of a section of the Mt. Hood Highway from the foot of Laurel Hill to a point immediately east of Government Camp. The Engineer pointed out that on this revised section there are only two major

curves and that the new section will eliminate an extremely crooked section of the old highway. The Assistant Counsel called attention to the fact that under Oregon Law it is necessary that all three Commissioners be present to adopt a survey. Both he and the Engineer recommended that the Commission approve the project and authorize negotiations for the acquisition of right of way, with the understanding that the survey will be adopted when all three Commissioners are present. The Commission approved the recommendation.

In connection with this same matter, the Engineer reported that the U. S. Forest Service has indicated a desire to transfer the sum of $500,000, allocated to the Laurel Hill project on the Mt. Hood Highway, to the North Umpqua and other forest roads. He urged the Commission not to accede to this request and to give him authority to write a letter to the Forest Service officials stating that the Highway Commission does not wish to postpone construction of the Mt. Hood Highway project. The Commission granted him authority to notify the Forest Service by letter, that the Commission does not wish to postpone the Mt. Hood Highway job.

Authority was requested by the Engineer to conduct a detailed location survey of the Oregon Coast Highway between Manzanita and Rockaway in Tillamook County. The Engineer commented that reconnaissance surveys have been completed and it appears that this section has a high priority in the rebuilding of the Oregon Coast Highway. The Commission approved the request.

Requests by the Engineer for increases in the following project authorizations were granted by the Commission:

1. An increase of $29,500 in Contract No. 4070 on the Mill City-Niagara Section of the North Santiam Highway. This increase was caused, he stated, by the additional cost of sealing the pavement and an overrun in extra base rock and in excavation quantities.

2. An increase of $30,000 on Contract No. 4212 for grading and paving the South Umpqua-Shady Unit on the Pacific Highway in Douglas County. This overrun, he stated, is mostly the result of placing a seal coat which will cost $27,000.

3. An increase of $110,000 on Contract No. 4153 for grading the Shady-Booth Ranch Section of the Pacific Highway in Douglas County. This overrun, the Engineer stated, was caused by having to flatten the slope in a deep cut which cost approximately $275,000. Considerable savings, however, were effected on other items in the contract and it is necessary to ask only for an increase of $110,000.

4. An increase of $35,000 on Contract No. 3915 for paving the 92nd Avenue-Fairview Section of the T. H. Banfield Expressway in Portland. This overrun, he stated, is caused almost entirely by the increasing of pavement thickness at several locations which showed signs of weakness.

5. An increase of $47,000 on Contract No. 4021 for grading the North Unit, Elbow Lake-Gardiner Section of the Oregon Coast Highway in Douglas County. The major cause of the overrun, he stated, was due to slides costing $35,000 and an increase in base surfacing materials in the sum of $8,500.

In connection with these increased authorizations, the Engineer called attention to a statement of underruns and overruns on contract projects which he recently sent to the Commission. He pointed out that many of the contracts underran the authorization, with the result that the net saving in 1954 was approximately $1,200,000.

Authority was requested by the Engineer to enter into another agreement with the U. S. Geological Survey regarding measurement of flood water on small drainage areas. He stated that for the past four years the State has cooperated with the U. S. Geological Survey to provide data for the design of culverts serving small drainage areas. As the result of the studies conducted during these four years, it has been possible to effect considerable savings in drainage structures but because of the short period of observation the designs are still on a conservative basis. It was his thought that the program has been well worth the money expended and that it is worthwhile to continue the program for at least one year. He recommended that such be done at a cost to the State of $5,000. The Commission approved extension of the agreement for one year and the expenditure of $5,000. The Engineer was instructed to find out how long the studies are to be continued.

The Engineer called attention to the fact that the Congress on June 30, 1955 cancelled an unappropriated balance of the 1954 authorization for forest highways in the sum of $2,191,118. He presented the following statement from the Bureau of Public Roads showing those projects which had been cancelled or reduced, and those which still remain in the forest highway program:

Cancel and/or Reduce Program as Follows:

	3-A1, Oregon Coast Highway	$ 440,000.00
	8-A3, Umpqua Highway	250,000.00
	35-B5, G3, John Day-Burns	390,000.00
	36-B3, John Day Highway	260,000.00
	47-E1, North Umpqua Highway	100,000.00
	47-F, North Umpqua Highway	90,000.00
(1)	51-A1, B, Belknap Springs Highway (Reduce Only)	250,000.00
	43-C5, Diamond Lake Highway	250,000.00
	Subtotal	$2,030,000.00
	Reduce State Contingent Balance by	161,118.00
	Total	$2,191,118.00

Remaining Program

	10-C2, Oregon Coast	$ 400,000.00
	25-A10, Mt. Hood	500,000.00
	38-B2, Un. 2, Flora-Enterprise	247,000.00
	46-C5, D4, E3, Cascade Lakes	150,000.00
(1)	51-A1, Belknap Bridges	100,000.00
	52-B, Ukiah-Starkey	200,000.00
	State Contingent Balance	$ 235,213.00
	Total	$1,832,213.00

He recommended that the cancelled projects in the sum of $2,191,118 be given first priority in the programming of 1957 fiscal year forest funds when such funds are available. He commented on two of the projects, calling attention to 3-A1, one of the cancelled projects on the Oregon Coast Highway, as being the section over Cascade Head between Neskowin and Oceanlake, and project 10-C2 on the Oregon Coast Highway, in the amount of $400,000, which remains in the program for surfacing and paving the Greggs Creek-Wedderburn Section north of Gold Beach. He pointed out that this information is in the form of a report only and no further action can be taken until the 1957 forest highway funds are available for programming. The Commission accepted the recommendation.

Attention was given to letters from the postmaster and other residents of Walton, Oregon, for improvement of the Richardson-Eugene Secondary Highway between Noti and Richardson. The cost of properly improving the 19-mile section, the Engineer stated, is approximately $3,000,000. He pointed out that there is no money available at present to finance such a project, and he suggested that consideration be given to the request when additional federal or state funds become available. He also recommended that to alleviate the dusty condition on the section between Noti and Walton that a one-mile section be treated with calcium chloride as an experiment, and if this proves successful, that the balance of the section be treated with the same material at a total estimated cost of $10,000. The Commission accepted the recommendation.

The Engineer reported that Jackson County has requested an additional 1957 County Federal-aid project, being the McKee Bridge over the Applegate River on Federal-aid Secondary Highway No. 559, approximately nine miles south of Ruch. This project, he stated, is estimated to cost $63,000, and he recommended that it be approved. He also pointed out that there still remains an unprogrammed balance of $1,149,000 of Federal-aid Secondary County Road Funds. The Commission approved the project as recommended.

Consideration was given to a request submitted by the City of Springfield for widening of the existing pavement on Main Street in Spring-

field which is used for westbound traffic on the McKenzie Highway. The Engineer reported that base rock heretofore placed by the City is satisfactory but to simply widen the pavement would result in a type of improvement which he felt would not be acceptable, as drainage conditions could not be controlled. A satisfactory improvement should entail a regulation curbed section, with provision for parking and adequate drainage. The estimated cost of an adequate project, he stated, is $70,000, and he recommended that such a project be considered when funds are available for this type of work. The Commission accepted his recommendation.

Consideration was also given to a request from the City of Canyonville for installation of a traffic signal at the intersection of Main and Third Streets in Canyonville. Main and Third Streets, the Engineer explained, form a four-way intersection for the Tiller-Trail Highway. The intersection was carefully investigated, and it was found that conditions at this intersection do not meet nationally accepted warrants for signalization. In view of these findings, he recommended that the request be denied. The Commission accepted his recommendation.

The Commission gave attention to a request from the City of Oakridge for installation of flashing beacons on the Willamette Highway at its intersection with Crestview Street and Hills Street. Crestview and Hills Streets, the Engineer reported, are the only two streets connecting the main business district of Oakridge with the Willamette Highway. He also said that a Traffic Engineering investigation disclosed that the volume of traffic and the accident rate in that area warrant the installation of flashing beacons. He recommended that a flashing beacon be installed at each of the two intersections, provided the City of Oakridge will agree to maintain them and will furnish electrical energy to operate them. He estimated the cost of installation at $1,200. The Commission approved the installation as recommended.

The Engineer recalled that at a Commission meeting in the fall of 1954, installation of a flashing beacon at the intersection of the North Santiam Highway and Fern Ridge County Road, just north of Stayton, was approved. At that time, he said, it was thought that the intersection was within the city limits of Stayton and the installation had been approved upon condition that the City would assume the cost of maintaining the beacon; however, it has since been determined that the intersection is outside of the Stayton city limits so the City is precluded from paying the maintenance expense. As the intersection is hazardous, he recommended that a flashing beacon be installed, maintained and operated at State expense. The Commission approved the installation on such basis.

A request was considered from the City of Ontario for installation of fixed-time traffic signals at the intersection of Oregon Street and Idaho Avenue on the Old Oregon Trail in Ontario. The Engineer reported that an investigation disclosed ample warrant for the signalized control, provided certain left-turn movements are prohibited which would eliminate intersectional complications. The City of Ontario, he stated, is now in a position to enter into a cooperative arrangement with respect to install-

ation of these signals, and he recommended that they be installed at an estimated cost of $3,200, on condition that the City of Ontario will pay one-half of the installation cost and will pay all of the maintenance and power consumption costs and will enact the necessary ordinance to prohibit left-turn movements of westbound traffic on Idaho Avenue. The Commission accepted the recommendation.

The Engineer reported that the Traffic Engineer in his studies to remedy accident-prone locations, investigated the intersection at 42nd Avenue with the McKenzie Highway east of Springfield and ascertained that this intersection stands quite high in the "high accident" list of unsignalized rural intersections. Most of the conditions at the intersection, he stated, more than meet the minimum warrants for signalization, and he recommended in view thereof that a fully actuated traffic signal be installed at a total estimated cost of $5,000, as a 1955 minor betterment traffic signal project. The Commission approved the installation.

The meeting recessed at 12:00 noon and reconvened at 1:30 p.m. with the same persons present and participating.

The Commission discussed with the Engineer several plans for construction of a rest room and concession building at Depoe Bay on the Oregon Coast Highway. After careful consideration of these plans, the Commission approved "Scheme E" (Drawing No. S-237), with minor changes in design of the building and location to be approved by Commissioner McIver, following inspection on the ground. The Commission also authorized the expenditure of approximately $46,500 for construction and granted authority to advertise the project for bids to be received at the September meeting of the Commission.

A list of construction projects deferred on account of their being on the Interstate System was presented by the Engineer. These projects, he stated, were deferred in the hope that federal legislation would enable financing the work with Interstate funds on a 90 to 10 matching ratio. However, the federal legislation did not materialize, and in view of the urgency of the projects, he recommended that the following be removed from the deferred list, to be contracted as soon as possible as bond projects:

1. Shady-Canyonville Section:

   Shady-Booth Ranch Unit, Structures---------2nd Bond $150,000

2. Shady-Canyonville Section:

   Shady-Booth Ranch Unit, Paving----------2nd Bond 485,000

3. Shady-Canyonville Section:

   Booth Ranch Unit, S. Umpqua River Bridge ----------2nd Bond 320,000

4. Shady-Canyonville Section:

Booth Ranch Unit, Structure---------2nd Bond	$ 50,000
	$1,005,000

The Commission approved the recommendation.

The Engineer also reported that an amount of $67,000 is being held as a reserve in the 1956 Federal-aid Primary Funds allotted to Division 5. He recommended allocation of such amount to the Meacham-Glover Section of the Old Oregon Trail. The Commission approved the transfer as recommended.

The Engineer also reported that there is now in the 1957 Federal-aid Program an unprogrammed balance of $2,576,600 and a reserve amount of $405,000 as follows:

	Unprogrammed	Reserves	Totals
Interstate	$ 475,600	$ - -	$ 475,600
Urban	1,578,000	- -	1,578,000
Primary	523,000	405,000	928,000
	$2,576,600	$405,000	$2,981,600

He recommended in order to balance the Federal-aid Programs for 1956 and 1957 according to formula, allocations to the several Divisions as follows:

	Unprogrammed	Reserves	Totals
Division 1	$ 766,780	$ - -	$ 766,780
Division 2	357,876	90,000	447,876
Division 3	497,740	- -	497,740
Division 4	409,204	- -	409,204
Division 5	545,000	315,000	860,000
	$2,576,6 00	$405,000	$2,981,600

He also recommended distribution of this money to the following projects:

Interstate Funds:		
Division 5	Meacham-Glover (Partial)	$ 475,600
Urban Funds:		
Division 1	Banfield Expressway	$ 766,780
Division 3	Springfield Bridge	811,220
		$1,578,000
Primary Funds:		
Division 2	Valley Junction-Sheridan (Partial)	$ 447,876
Division 3	North Ashland	225,000
Division 3	North Brookings	161,520
Division 3	Transfer from Springfield Bridge	- 700,000*
Division 4	Crescent Lake Jct.-Dalles Cal. Jct.	409,204
Division 5	Meacham-Glover (Partial)	384,400
		$ 928,000

*The Engineer explained that the transfer of $700,000 of primary funds from the Springfield Bridge, and the substitution of $811,220 of urban funds therefor, is suggested in part to provide more funds for the bridge and in part to release primary funds for use on projects which are not eligible for urban funds. Of the $700,000 of primary funds thus released $313,480 is to be used to finance the Crescent Lake Jct.-Dalles Cal. Jct. Project, $225,000 for the North Ashland Project and $161,520 for the North Brookings Project.

The Commission approved the allocations as recommended by the Engineer.

Discussed was a request from the Bureau of Public Roads that the State oil a detour road and a connecting road on the Greggs Creek-Wedderburn project of the Oregon Coast Highway in Curry County. The Engineer stated that the detour road is at Nessica Beach near the north end of a Forest Highway project and that the connecting road is at the south end of the job. The Bureau, he stated, has agreed to reimburse the State for the entire cost of the work, estimated at not to exceed $3,500, and an agreement has been prepared covering this matter. Upon his favorable recommendation the Commission approved the agreement.

The Commission considered and upon recommendation of the Engineer, approved the following requests for extensions of time within which to complete state highway contracts:

1. Morrison & Lamping, Contract No. 4413, for grading the Seufert Frontage Road on the Columbia River Highway in Wasco County, requested an extension of time from May 31, 1955 to June 25, 1955. Extension approved as requested without penalty.

2. Wold Bros., Contract No. 4238, for construction of guardrail on the Rocky Point-Greggs Creek Section of Oregon Coast Highway in Curry County, requested an extension of time from June 30, 1955 to August 31, 1955. Extension approved as requested without penalty.

3. P. B. Doherty & Son, Contract No. 4402, for the Sardine Creek Rock Production Project on the Sardine Creek-Linn County Line Section of the North Santiam Highway in Marion County, requested an extension of time from June 30, 1955 to August 15, 1955. Extension approved as requested without penalty.

4. W. G. Wright, Contract No. 4296, for grading and paving the Willamina ("D" Street-East) Section of the Salmon River Highway in Yamhill County, requested an extension of time from July 15, 1955 to July 30, 1955. Extension approved as requested without penalty.

5. C & W Crushing Company, Contract No. 4322 for rock production on the Clatsop County Line-Rockaway Section of the Oregon Coast and Necanicum Highways in Tillamook County, requested an extension of time from July 31, 1955 to August 31, 1955. Extension approved as requested without penalty.

6. George L. Rochat & Son, Contract No 4237, for illumination installation on the Barbur Boulevard-White School Section of the Portland-Salem Expressway and Wilsonville-Hubbard Highway in Clackamas, Marion, Multnomah and Washington Counties, requested an additional extension of time from May 28, 1955 to June 6, 1955. Extension approved as requested without penalty.

7. Johnson & Amens, Contract No. 4236, for construction of Baker Creek and Panther Creek Bridges on the Carlton-McMinnville and Baker Creek Roads in Yamhill County, requested an additional extension of time from June 14, 1955 to July 15, 1955. Extension approved to July 12, 1955, the actual completion date of the contract, without penalty.

8. C & W Crushing Company, Contract No. 4314, for rock production on the Necanicum Section of the Oregon Coast, Sunset and Necanicum Highways in Clatsop County, requested an extension of time from July 31, 1955 to August 31, 1955. Extension approved as requested without penalty.

9. Acme Construction Co., Contract No. 4187, for grading, paving and bridge construction on the Jasper Bridge-Pleasant Hill Section of Springfield-Creswell Secondary Highway in Lane County, requested an extension of time from October 15, 1954 to July 31, 1955. Extension approved without penalty.

August 11, 1955

10. Lockyear and White, Inc., Contract No. 4218, for construction of Broadacres Road and Crosby Road Undercrossings on the Portland-Salem Expressway in Marion County, requested an extension of time from April 30, 1955 to July 30, 1955. Extension approved as requested without penalty.

11. Columbia Empire Constructors, Inc. & P. S. Lord Mechanical Contractors, Contract No. 4332, for construction of Cottage Grove Overcrossing on the Pacific Highway in Lane County, requested an extension of time from June 30, 1955 to September 30, 1955. Extension approved as requested without penalty.

12. Birkemeier and Saremal, Contract No. 4161, for construction of eight structures on the Willamette River-Gervais Unit of the Portland-Salem Expressway in Clackamas and Marion Counties, requested an extension of time from April 30, 1955, to July 31, 1955. Extension approved as requested without penalty.

13. Portland Construction Co., Contract No. 4288, for roadside improvement on the Boones Ferry Road-Willamette River Unit, Barbur Boulevard-White School Section of the Portland-Salem Expressway in Washington and Clackamas Counties, requested an extension of time from May 31, 1955 to July 15, 1955. Extension approved as requested without penalty.

14. Berke Bros. & C. R. O'Neil, Contract No. 4076, for grading on the Emigrant Hill Section of the Old Oregon Trail Highway in Umatilla County, requested an extension of time from June 30, 1955 to July 15, 1955. Extension approved as requested without penalty.

15. Donald M. Drake Co., Contract No. 4118, for construction of the Tualatin River Bridge on the Pacific Highway West in Washington County, requested an extension of time from June 30, 1955 to August 29, 1955. Extension approved as requested without penalty.

16. Whittenburg Construction Co. & Q. L. Rufener, Contract No. 4273, for grading, oiling and bridge construction on Bealls Corner-Dougherty Corner of the Woodworth County Road in Hood River County, requested an extension of time from July 31, 1955, to August 31, 1955. Extension approved as requested without penalty.

17. Valley Construction Co., Contract No. 4207, for construction of Row River Bridges on the Pacific Highway in Lane County, requested an additional extension of time from June 30, 1955 to August 31, 1955. Extension approved as requested without penalty.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the State Highway Engineer

and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that Contract Nos. 3807, 3923, 4064, 4138, 4161, 4178, 4187, 4203, 4204, 4218, 4236, 4237, 4241, 4275, 4291, 4296, 4305, 4307, 4315, 4320, 4327, 4334, 4335, 4340, 4346, 4360, 4362, 4366, 4369, 4378, 4385, 4391, 4395, 4396, 4397, 4404, 4405, 4414, 4419, 4420, 4427, 4429, 4455, 4480, 4481 for construction of state highway projects have been completed according to requirements of the contracts or modifications thereof, and said projects are ready for acceptance. After due consideration, the Commission accepted the particular contracts by adopting the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the following cities and towns have satisfied the legal requirements with respect to expenditure of state tax street funds accrued to them during the first and second six-month periods of 1954:

From funds accrued during first half of 1954

Donald	$ 532.48
Taft	1,281.37

From funds accrued during second half of 1954

Amity	$ 2,363.47
Antelope	211.02
Aurora	851.13
Barlow	263.78
Boardman	422.05
Chiloquin	3,197.01
Condon	3,404.52
Donald	657.69
Gervais	1,607.30
Halfway	1,097.32
Hammond	1,835.91
Huntington	2,578.01
Joseph	2,342.37
Seaside	13,667.33
Taft	1,582.68

The plans for the projects proposed by each city or town, he said, have been examined and found satisfactory, and he recommended that they be

approved. The Commission approved the plans as recommended by adopting the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave attention to a request from the Columbia Empire Constructors, Inc., and P. S. Lord Mechanical Contractors that they be relieved of their Contract No. 4460 to construct a bridge over the Nehalem River on the Miami-Barnsdale School County Road in Tillamook County. The Engineer stated that bids for this project were received on May 25 and these two companies, bidding as a joint venture, were the low bidder in the sum of $115,321. Matters pertaining to a grade crossing were cleared up on June 9, 1955, and the contractor was advised of the award of the contract. On June 13, contract forms were mailed to the contractor for execution. On July 22, the contractor requested cancellation of the contract and return of his bid bond, alleging that the Southern Pacific Company would not grant him a private crossing of the railroad to get to the job until Tillamook County had entered into an agreement with the Railroad Company relative to such matter. The Engineer further stated that because of these details, the contractor felt that he would not be able to complete the work this year and that were the job delayed for another year, his costs would be materially increased because of increases in steel prices and labor rates. The matter was investigated and the contractor's statements were found to be substantially correct in that he was prevented from starting the work on scheduled time through no particular fault of his own. He recommended in view thereof that the contract be cancelled and the contractor's bid bond released, provided that the contractor will release the State from any and all claims that may have accrued. He also recommended that the project be readvertised for bids as soon as Tillamook County has done enough grading so that there is reasonable assurance that the grade will be ready when the bridge contractor is ready to start work. The Commission approved the Engineer's recommendations.

Consideration was given to a request from D-H Paving Company that they be allowed additional compensation in connection with their contract for pavement sealing on state highways in Division 3. The Engineer advised that a careful analysis of the Company's bid has been made and in his opinion the Company had made an honest mistake. He pointed out that on the particular item in question the contractor bid $2.60 per cu. yd. for crushed rock under the belief that the State would furnish the aggregate, being $2.55 beneath the only other bid submitted for this item in the amount of $5.15. The Legal Department, he stated, has ruled that the Commission does not have authority to allow additional compensation inasmuch as the D-H Paving Company accepted the contract. The Commission denied the claim and ordered that the contractor be advised that the Commission has no legal means to compensate him as requested.

Construction of a pedestrian walkway on the Eagle Creek Bridge on the Clackamas Secondary Highway was requested in a letter submitted by Gilbert M. Bowe in behalf of the Oregon Area Council of Girl Scouts. This request, the Engineer stated, was carefully investigated and it was found that the bridge in question is a structure 150' long with 26-$\frac{1}{2}$' roadway be-

tween curbs which are 1-½' wide. The wide curbs, he stated, are not intended as a walkway but do provide a refuge for pedestrians. To construct a timber sidewalk attached to the bridge would cost approximately $2,500. Also, it would be necessary to construct stairways down the embankment slopes at both ends of the bridge, estimated to cost $550, which amount the Council of Girl Scouts has offered to pay. There is no roadside culture within one-half mile of the bridge in either direction and there appears to be no use for the sidewalk other than for the Girl Scouts. During the past 2½ years, the Engineer said, no accidents have been reported. He recommended in view of these findings that the request be denied. The Commission adopted the recommendation.

In considering requests for reduced speed zones, the Engineer explained that a number of them are made necessary by reduced speed zones designated by the State Speed Control Board within cities and towns, and it is desirable for the Highway Department to take correlating action beyond the city limits where roadside culture requires speed restrictions. He recommended establishment of reduced speed zones, as follows:

1. 40 miles per hour on the Hillsboro-Silverton Secondary Highway from M.P. 19.02 to the north city limits of Newberg at M.P. 19.87. (See EXHIBIT "E-1".

2. 50 miles per hour on The Dalles-California Highway from M.P. 143.59 at Hayes Avenue near the south city limits of Bend, to M.P. 145.08 south of Bend. (See EXHIBIT "E-2".)

3. 45 miles per hour on the Silver Creek Falls Secondary Highway from M.P. 39.42 which is 0.55 mile east of the east city limits of Silverton to the east limits of Silverton at M.P. 39.97. (See EXHIBIT "E-3".)

4. 35 miles per hour on the Old Oregon Trail from the east city limits of La Grande, at M.P. 288.38, to a point 0.43 mile east of the east city limits of La Grande, at M.P. 288.81, except that between M.P. 288.38 and M.P. 288.48, the indicated speed shall be 20 miles per hour during the hours of school crossings. (See EXHIBIT "E-4".)

5. 40 miles per hour on the Columbia River Highway from M.P. 80.49 west of the city limits of The Dalles to M.P. 81.66 at the west city limits of The Dalles; and, 45 miles per hour from the east city limits of The Dalles at M.P. 84.23 to a point 0.14 mile east of the junction with the toll bridge road at M.P. 85.39. (See EXHIBIT "E-5".)

6. 50 miles per hour on The Dalles-California Highway from the south city limits of Redmond, at M.P. 123.99, to a point 300 feet south of the Juniper Crafts Shop, at M.P. 125.07. (See EXHIBIT "E-6".)

7. 45 miles per hour on the Pacific Highway East from M.P. 90.28, which is 0.32 mile north of the town of Shedd, to M.P. 91.01, 0.44 mile south of the road to Plainview, except that between M.P. 90.36 and M.P. 90.58 the indicated speed shall be 20 miles per hour during the hours of school crossings. (See EXHIBIT "E-7".)

The Engineer also recommended and the Commission approved that speed zone resolution No. 56 in the vicinity of Shedd which was adopted January 23, 1951, be rescinded.

8. 50 miles per hour on the Pacific Highway West from a point 500 feet north of its junction with the Tualatin Valley Highway at M.P. 35.76 to the city limits of McMinnville, at M.P. 36.81; and,

50 miles per hour on the Pacific Highway West from the city limits of McMinnville at M.P. 37.07 to the city limits of McMinnville at McDonald Lane, M.P. 37.37. (See EXHIBIT "E-8".)

The Commission approved all of the Engineer's recommendations by adopting the attached resolutions relative thereto marked EXHIBITS "E-1" through "E-8", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission also considered a request for a reduced speed zone on the Coos Bay-Roseburg Highway in the vicinity of Tenmile. The Engineer stated that investigation of this request covered a 0.28 mile section, and it was determined that roadside culture was insufficient to warrant a speed restriction. He recommended that the request be denied. In lieu of the speed zone, he stated that measures are being taken to remove the brush from the curve on the section and to install "Slow Congested Zone" signs. The Commission accepted the recommendation.

The Engineer reported that a hazardous condition is created by the parking of vehicles on the shoulders of the Salem-Lancaster Drive Section of the North Santiam Highway west of the Salem By-pass, in the vicinity of Mill Creek, and that such condition will be accentuated when this highway section is opened to general public use in the near future. He therefore recommended that a "No Parking on Highway Shoulders" zone be established on both sides of this highway section from Airport Road (Engineer's Station 120+00) to the Salem By-Pass (Engineer's Station 160+00). The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

An agreement with Ray and Miriam Hough modifying a previous agreement, dated October, 1948, relative to maintenance of a pump house and accessories on the Judkins Point-Goshen Section of the Pacific Highway was discussed. The Engineer explained that the previous agreement allowed the owner to maintain a well, pump, tank, and pump house within the limits of property acquired from them, and that landscaping, which was to be

performed under the terms of the old agreement, will seriously interfere with the sight distance involving access from a frontage road. The new agreement, he stated, allows the State to cut the height of the pump house to a height not exceeding 3 feet with appropriate planting to hide the structure. The Commission accepted his recommendation that the agreement be approved.

The Engineer reported that under provisions of Oregon Law, the sum of $2,321,772.11 has accrued to the various cities and towns within the State from the State Highway Fund during the period of January 1 to June 30, 1955, by reason of the 10% statutory requirements. It is necessary, he stated, that the Commission take official action to transfer the amounts due the several cities and towns. The Commission thereupon adopted the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The City of Prineville, the Engineer reported has requested the State Highway Department to design, prepare contract documents, and to receive bids in behalf of the City for widening the Ochoco Creek Bridge on Main Street in Prineville. This structure, he said, is on a city street and the City has agreed to deposit with the State a check covering the estimated cost of the work to be performed. As the City of Prineville does not have an engineering organization, he recommended that he be authorized to perform the work and collect from the City the cost thereof. The Commission approved his request.

Consideration was given to a request from the U.S Corps of Engineers for a new location of a private access road connecting with the Columbia River Highway at Engineer's Station 1596+34 near The Dalles Dam project. The Engineer advised that the old access at Engineer's Station 1628+90 must be abandoned because of levee construction protecting the railroad and highway. The proposed access, he stated, is superior to the old access from the safety standpoint. He recommended that the change be granted with the proviso that when the road is used only as a private access by the Corps of Engineers that a locked gate be installed. Use of this access by others than Government employees will cease about January 1, 1957. The Commission approved the access as requested.

An agreement with Union County regarding maintenance of a three-mile section of the existing Hilgard-Starkey Secondary Highway was discussed. This section, the Engineer stated, will not be a part of the newly designated Ukiah-Hilgard Secondary Highway and will be maintained by the County which has agreed to assume such maintenance obligation if the State will perform the necessary snow removal, for which work the County will reimburse the State. Upon the Engineer's favorable recommendation, the Commission approved the agreement.

The Engineer reported that requests have been received from the Humble Oil & Refining Company and from the Standard Oil Company of

California for permission to conduct geological and seismic surveys on State highway rights of way. The Humble Oil & Refining Company, he stated, wishes to conduct its surveys in Deschutes, Jefferson, Crook, Grant and Wheeler Counties, and the Standard Oil Company wishes to perform work on highways lying west of the Cascade Mountains. Both Companies, he said, have agreed to furnish property damage and liability insurance in amounts not less than $50,000/$100,000 personal injury and $25,000 property damage. He recommended that a permit be granted to the Humble Oil & Refining Company expiring 60 days after date of issuance and that a like permit be granted to the Standard Oil Company expiring August 1, 1956. The permits are to provide, among other things, that all drilled holes shall be located in advance and be approved by the Engineer or his representative, and other regulations similar to those stipulated in a permit previously granted to the Standard Oil Company for exploratory surveys in the vicinity of Fort Clatsop. The Commission approved issuance of the permits as recommended.

Out-of-state travel expense for the following Highway Department personnel was recommended by the Engineer and approved by the Commission:

Mr. R. B. Sipprell-to attend a meeting of the Steering Committee on Reciprocity of the Council of State Governments in Salt Lake City, September 12 and 13, at an estimated cost of $140.

Mr. F. B. Crandall-to attend the annual meeting of the Institute of Traffic Engineers at Pittsburg, Pennsylvania, October 23-28, at an estimated cost of $370.

Mr. Mark H. Astrup-to attend the Fourteenth Annual Short Course on Roadside Development, in Columbus, Ohio, October 4-7, at an estimated cost of $310.

The Secretary's report of papers signed in behalf of the Commission during the period from June 28 to August 9, 1955 was approved.

The next Commission meeting date was set for September 22 and 23, in the Green Room of the Imperial Hotel, Portland, Oregon. Also, a tentative date of November 3 and 4 was set for the next following meeting. The Secretary was instructed to make the usual arrangements for a meeting place

Attention was given to a request from Mr. Melvin Hess to transport logs on a truck and trailer, over-all length of 55 feet, over the Baker-Homestead Highway from Ballards Bridge across the Snake River to Richland, Oregon. Mr. Hess, the Engineer stated, is now hauling logs with the over-all length limited to 50 feet. A test run with the longer length was conducted on July 21, and it was found that the major portion of this 32-mile section of highway does not have sufficient width for two legal vehicles to pass. Mr. Hess, he said, has approximately 5 million feet of timber to haul which will take him about three summer seasons to log and haul out.

He recommended that log hauling be permitted and that he be authorized to issue overlength permits for logs, poles or piling having an over-all length of vehicle load in excess of 50 feet, subject to certain stipulated regulations which shall provide, among other things, that at certain locations the trucks shall stop for a designated length of time while a police officer proceeds ahead to stop traffic until the log trucks pass through; and on other sections, that the log trucks proceed in convoy preceded by a flag car. The Commission authorized the hauling of logs under the conditions as outlined by the Engineer.

(For further details, see the Engineer's letter to the Commission, dated August 9, 1955.)

The matter of purchasing liability and indemnity insurance as authorized by the 1955 legislature was discussed by the Commission. This subject, the Engineer stated, has been studied by his staff and by the Assistant Counsel, with the result that he recommends the purchase of liability insurance that will protect employees in the State Highway Department against any action taken, work done, or omission in their official capacities or in the course of their employment; and also to protect them against any injury to persons or property resulting from the dangerous or defective condition of any public property. He pointed out that 3,300 employees of the Highway Department have been tentatively classified into five groups, showing relatively their exposure to such claims and the risk involved. Contacts with representatives of insurance companies, he stated, show an extremely wide variation as to the estimated annual premium based on covering 2,400 employees. These estimates vary from an annual premium of $40,000 to a low of $6,000. In the discussion of this matter, Commissioner Reynolds stated that in advertising for bids an attempt should be made to secure coverage for all State employees. He also suggested that the State Insurance Agents Association be contacted for any possible suggestions that they might have concerning the type of policy that should be secured. The Assistant Counsel suggested that consideration be given to securing a policy which would offer a $500 deductible clause inasmuch as the State law allows the Highway Commission to pay claims up to but not exceeding the amount of $500. After some further discussion, the Commission authorized the Engineer to advertise for bids for furnishing insurance at the September meeting of the Commission, details of which are to be discussed with and approved by Commissioner Reynolds.

The disposition to be made of the old steel bridge across the Snake River at Nyssa was discussed. The Engineer stated that the bridge presently belongs to the State of Oregon, but Malheur County originally participated in its construction. In conformity with past practice in matters of this kind, he recommended that the old bridge be offered to Malheur County when the new structure is completed and ready for traffic, which he thought would be in about two years. The Commission approved the recommendation.

The Commission discussed with the Engineer matters to be presented by delegations on the following day, but no action was taken at this time.

August 11, 1955

The Engineer brought up the matter of a proposed agreement with Southern Pacific Railroad Company concerning the lowering of the highway beneath the railroad tracks on the McVay Secondary Highway south and east of Eugene. He recalled that this cooperative project was authorized by the Commission in December, 1954, on a 50/50 basis. The Commission approved and later in the day signed the agreement.

Development of a state park at Rooster Rock along the Columbia River Highway was considered. The Engineer stated that to safely take traffic off and onto the highway at this location would require construction of an interchange and a four-lane section of highway. He estimated the cost of the four-lane section at $150,000. He recommended approval of the project and that the widening be charged as a highway cost and the balance of the interchange construction be financed with parks funds. The Commission approved the additional authorization of $150,000 from State or Federal funds, and the plan of construction as presented by the Engineer. The Commission also authorized the Engineer to call for bids for construction of the project as soon as plans can be prepared.

Commissioner Reynolds commented that Mr. Giles L. French, Moro, Oregon, had asked that the directional signs located at the intersection of US97 and US197 in Wasco County, be changed by adding thereto the name of Yakima and deleting the name Biggs. He gave as his understanding that the Department policy will permit no more than three names on a sign, none of which are those of out-of-state cities. The Engineer replied that such a policy has been in effect for many years and Oregon is establishing a good reputation for its signing as evidenced by a number of complimentary letters that have been received. He recommended no deviation from the previously established policy. The Commission accepted his recommendation and instructed the Engineer to inform Mr. French that it is contrary to Commission policy to change the sign as he requests.

The Commission discussed with the Engineer bids received at the morning session, and at 3:00 p.m., Commissioner McIver announced awards of contracts as follows:

"Installation of traffic signal on the Oswego Highway in Clackamas and Multnomah Counties: The Commission has awarded the contract to the low bidder, Trowbridge Electric Co., Roseburg, at their bid price of $17,580.

"Grading, paving and furnishing crushed rock in stock piles on the Bradley Park-Wauna Section of the Columbia River Highway, about 21 miles east of Astoria in Clatsop County: The Commission elects to accept the bid of Rogers Construction, Inc., Portland, in the sum of $844,000.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Bunker Hill-Delmar Screen Planting Project on the Oregon Coast Highway, about 2 miles south of Coos Bay in Coos County: The Commission rejects the only bid on this project as being too high.

"Aerial photography and topographic mapping on the Davis Slough-Bandon Section of the Oregon Coast Highway in Coos County: The Commission has awarded the contract to the low bidder, Aero Service Corp., Philadelphia, Pennsylvania at their bid price of $14,582.

"Tumalo State Park Latrine in Deschutes County: The Commission rejects all bids on this project as being too high.

"Construction of Myrtle Creek-Canyonville Structures on the Pacific Highway in Douglas County: The Commission has awarded the contract to the low bidder, Hamilton & Thoms, Eugene, at their bid price of $406,161.50.

"Construction of a Sand Storage Shed at Austin in Grant County: The Commission has awarded the contract to the low bidder, Gilbert Roberts, Hood River, at his bid price of $12,800.

"Goshen-Divide Guardrail Project on the Pacific Highway, intermittent along 20.8 miles of highway south from Goshen in Lane County: The Commission has awarded the contract to the low bidder, T. W. Thomas, Portland, at his bid price of $70,240.

"Construction of Siletz River Bridge on Siletz Highway in Lincoln County: The Commission elects to accept the bid of Lee Hoffman, Beaverton, in the sum of $124,510 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Construction of Muddy Creek Bridge over Muddy Creek on Oakville County Road in Linn County: The Commission elects to accept the bid of Hannan Bros. Co., Portland, in the sum of $26,445 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Linn County is received and the sum of $5,950 is deposited by the County.

"Construction of Olds Ferry-Ontario Section Structures on the Old Oregon Trail Highway in Malheur County: The Commission has awarded the contract to the low bidder, Hannan Bros. Co., Portland, at their bid price of $77,427.

"42nd Avenue-99th Avenue Roadside Improvement Project on the T. H. Banfield Expressway, in Southeast Portland in Multnomah County: The Commission has awarded the contract to the low bidder, Russellville Nursery, Portland, at their bid price of $55,155.80.

"Grading, paving and roadside improvement of Ross Island Bridge On-Ramp Section of the Pacific Highway East at the east end of the Ross Island Bridge in Portland in Multnomah County: The Commission rejects the one and only bid on this project as being too high.

"Construction of Holman Park Latrine near Eola on the Willamina-Salem Highway in Polk County: The Commission rejects all bids on this project as being too high.

August 11, 1955

"Construction of Levens Street Bridge over Rickreall Creek in the City of Dallas in Polk County: The Commission has referred all bids to the City of Dallas as this is a City project.

"Pendleton-La Grande Rock Production Project on the Old Oregon Trail Highway in Umatilla and Union Counties: The Commission has awarded the contract to the only bidder, Rogers Construction Co., Portland, at their bid price of $81,000.

"Grading and paving Hillsboro Section of the Tualatin Valley Highway (eastbound) at Hillsboro in Washington County: The Commission elects to accept the bid of Rogers Construction Co., Portland, in the sum of $237,504 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received."

The Commission signed agreements and other papers as follows:

"Agreement Extending Term of Ground Leases" re renewal of lease for three stock pile sites on Green Springs Highway from Weyerhaeuser Timber Company.

"Bargain and Sale Deed" re sale to Mr. and Mrs. Milo Fellows of 1.6 acres of property on Chenoweth Park-Deady Section of Pacific Highway, Douglas County. Consideration $500.

"Indentures of Access" re changes of access points for the following:

a. Gillette property on Mt. Vernon-John Day Section of John Day Highway, Grant County.

b. Pope property on East Unit, Dayville-Mt. Vernon Section of John Day Highway, Grant County.

c. Koble property on East Unit, Dayville-Mt. Vernon Section of John Day Highway, Grant County.

d. Morris property on East Unit, Dayville-Mt. Vernon Section of John Day Highway, Grant County.

e. Beck property on Newport-Toledo Section of Corvallis-Newport Highway, Lincoln County.

f. Chipman property on Newport-Toledo Section of Corvallis-Newport Highway, Lincoln County.

g. Goodwin property on Dayville-Mt. Vernon Section of John Day Highway, Grant County.

h. Masson property on East Unit-Dayville-Mt. Vernon Section of John Day Highway, Grant County.

i. Potwin property, Newport-Toledo Section, Corvallis-Newport Highway, Lincoln County.

j. Burkland property on Interstate Avenue (US99W), Portland, Multnomah County.

"Lease Agreement" with Signal Oil Division of Standard Oil Company for temporary use of Lots 1, 2, 3 and 4, Block 110, Portland. Consideration based on 2 cents per gallon of gasoline delivered to the premises.

"Bargain and Sale Deed" re sale of 1.65 acres on John Day Highway to Fred Cliff and Robert Keerins for $500.

"Quitclaim Deed" re conveyance of 0.45 acre on US99 near Garden Valley Road to Douglas County. Consideration $1.00.

"Agreement" with Columbia Sand and Gravel Products Company, Umatilla, Oregon, renewing arrangement for removal of material from a State-owned gravel pit at Umatilla.

"Agreement" with Bureau of Public Roads for oiling of a detour road at Nesika Beach and a connecting road to certain establishments in Wedderburn on Oregon Forest Highway Project 10-01, Greggs Creek-Wedderburn Project. Estimated cost not to exceed $3,500. Bureau will reimburse State for entire cost of oiling.

"Agreement" with Ray and Miriam Hough modifying a previous agreement, dated October, 1948, re maintenance of a pump house and accessories on state highway property that was acquired as right of way for the Judkins Point-Goshen Section of US99, Lane County.

"Throughway Agreement" covering Fords Bridge Unit, Myrtle Creek-Canyonville Section.

"Maintenance and Finance Agreement" with Gilliam County covering Hay Creek-Canyon Section, FAS 440. (Authorized 10-28-54)

"Maintenance and Finance Agreement" with Linn County covering Muddy Creek-Bridge Section, FAS 595. (Authorized 10-28-54)

"Waiver and Relinquishment of Lease" re relinquishing lease on property acquired for the 7th Street-11th Street connection in Eugene.

"Abandonment Agreement" covering Siletz-Camp Twelve Section of Siletz Secondary Highway in Lincoln County.

"Maintenance and Finance Agreement" with Marion County, covering Clear Lake Bridge Section, FAS 592. (Authorized 10-28-54)

"Maintenance and Finance Agreement" with Clackamas County, covering Bakers Bridge on FAS 131. (Authorized 10-28-54)

"Lease" with Roberts Motor Company covering use of property, known as Mack Truck building, at east end of Steel Bridge, Portland. Consideration $700 per month.

"Supplemental Throughway Agreement" correcting a county road name on Fairgrounds-Shady Unit of Deady-Shady Section of Pacific Highway, Douglas County.

"Agreement" with City of Hillsboro covering construction of the one-way couplet for the Tualatin Valley Highway through this city, including installation of traffic signals. (Previously authorized by Commission.)

"Agreement" with Southern Pacific Company relative to lowering roadway at Glenwood Undercrossing on the McVay Secondary Highway, Springfield.

"Finance & Maintenance Agreements" with Curry County covering the Coast Highway-Forest Boundary Section of the Elk River Road, FAS 597.

"Agreement" with the City of Salem covering the proposed traffic signal installation at eight intersections in the City of Salem.

The meeting adjourned at 3:15 p.m., to reconvene on the following day at 9:00 a.m.

Portland, Oregon
August 12, 1955

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Chas. H. Reynolds, Acting Chairman
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
Robert L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary, who announced that the award of contracts would be made in the same room at 2:30 p.m.:

CLACKAMAS COUNTY
BAKERS BRIDGE APPROACH RECONSTRUCTION ON MARKET ROAD NO. 39

Babler Bros., Inc., Portland	$ 62,192.50
Hannan Bros. Co., Portland	64,410.00
Orlando C. Bennard, Portland	65,959.00
Birkemeier Construction Co., Milwaukie	66,772.50
United Builders, Inc., Beaverton	67,899.10
Lee Hoffman, Beaverton	67,900.00
Workman & Wilson, Canby	68,450.00
Inland Construction Co., Milwaukie	69,747.00
L. B. Read, Portland	70,965.00
Lockyear & White, Inc., Longview, Washington	72,986.50

CURRY COUNTY
BRUSH CREEK RELIEF CHANNEL, BRUSH CREEK-GREGGS CREEK SECTION OF THE OREGON COAST HIGHWAY

Glen Ousley, Eugene	$23,496.00
Peter Kiewit Sons' Co., Longview, Washington	23,572.80
Allum Brothers, Eugene	31,809.00

CURRY AND COOS COUNTIES
COAST HIGHWAY-FOREST BOUNDARY SECTION OF ELK RIVER COUNTY ROAD, AND BANDON-PORT ORFORD ROCK PRODUCTION PROJECT ON OREGON COAST HIGHWAY

Calkins Crushing Co., Oceanlake	$90,323.50
Allum Brothers, Eugene	95,904.00

DOUGLAS, JACKSON AND LANE COUNTIES
JUDKINS POINT-SEVEN OAKS SCREEN PLANTING PROJECT ON THE PACIFIC HIGHWAY

Knight Pearcy, Salem	$10,416.50
Russellville Nursery, Portland	13,610.50

GILLIAM COUNTY
GRADING HAY CREEK CANYON SECTION OF THE MIKKALO COUNTY ROAD

O & K Construction Co., Gresham	$66,063.50
Rogers Construction, Inc., Portland	67,978.00
Cartwright Construction Co., Durkee	69,204.00
Zachary Construction Co., Everett, Washington	70,525.00
Vernie Jarl, Gresham	71,477.00
Durbin Bros., Eugene	71,835.00

W. F. Stratton, Hermiston	13,950.00
Marshall Construction Co., Hermiston	14,294.92

August 12, 1955

The matter of allowing planes to land on the Oregon beaches was brought up by Commissioner Reynolds. He inquired if it is proper to say that the Commission will continue to deny requests for this privilege. The Engineer commented that he has always recommended in the past and that he still will recommend that planes not be allowed to use the beaches for this purpose due to the hazards that they create for pedestrians. He urged the Commission to maintain such policy. The Commission took no action.

The matter of adopting a survey for the proposed Hinkle interchange on the Old Oregon Trail at the intersection of the Hermiston Highway was also brought up by Commissioner Reynolds. The Engineer stated that the survey as yet has not been adopted and cannot be adopted until all three Commissioners are present. He suggested that the Right of Way Engineer be authorized to negotiate right of way options now,so that feature will be disposed of when the survey is adopted, probably at the meeting in November. The Commission accepted the Engineer's recommendation by approving the project and authorizing the acquisition of right of way, it being understood that the formal survey will be adopted as soon as all three Commissioners are present.

Also brought up by Commissioner Reynolds was construction of the proposed improvement at Havana in Umatilla County. The Commission instructed the Engineer to include this project among those for which bids are to be received at the meeting in September if possible.

Oiling of the Wasco-Heppner Secondary Highway northerly from the end of the oil west of Condon to the John Day River crossing was mentioned by Commissioner Reynolds. The Engineer advised that Mr. Fatland, Condon, has been informed that no funds are available at this time for such oiling work, but the project is to be considered by the Commission in formulating its 1956 F.A.S. construction program

A delegation from McMinnville, Carlton, Rainier, Vernonia, Forest Grove, Rockaway, and Kelso and Longview, Washington, was present, and urged the Commission to authorize a survey for an alternate US99W route, starting at McMinnville and extending north through Yamhill, Forest Grove, Vernonia and Apiary to a connection with the Columbia River Bridge at Rainier. The following people formed the group: Ralph Kletzing, Carleton; Clifford Elliott, Leonard Gillam, McMinnville; Lester Odle, H. R. Barker, Rainier; Mr. and Mrs. A. G. Ostrander, Eugene Drips, Mary Drips, Hattie M Draper, Guy I. Thomas, Bill J. Horn, Mr. and Mrs. Desmond Laird, Ronald E. Bayley, Vernonia; Homer Waltz, Wm. K. Eaton, John Richardson, Clifford P. Rawe, Chester Broders, Mrs. H. G Bond, Forest Grove; S. J. Mammano, Rockaway; F. H Anderson, Longview, Washington, and Pat Hanson, Kelso, Washington.

Mr Kletzing headed the group. Mr. Elliott pointed out that the delegation includes representatives from towns along the entire route. The project, he stated, is not new but to his knowledge was first proposed and actively considered about thirty years ago. The Longview Bridge, he said,

is now a public toll bridge which in a few years very likely will be toll free. Construction of an alternate highway for 99W from McMinnville north will greatly relieve traffic congestion in the Portland area for those who are bound for points in Washington. He urged the Commission to authorize a reconnaissance survey at this time to determine the cost and feasibility of the proposed route. Commissioner Reynolds inquired if it is the delegation's wish that the road be constructed as a freeway or for the benefit of local travel. Mr. Elliott replied that he believed that most of the delegation feel that it should be a dual purpose highway. As a result of the discussion the Commission authorized the Engineer to make a reconnaissance survey and economic study as soon as personnel can be spared for the purpose.

The members of the Tillamook County Court and others from Tillamook, Manzanita, Wheeler, Rockaway and Nehalem came before the Commission to urge construction of the "Elsie Cutoff", beginning at Elsie on the Sunset Highway, and extending in a southwesterly direction to a junction with the Necanicum Highway north of the town of Wheeler. The following people were present: County Judge O. E. Effenberger, County Commissioners August Schoolmeier, and Wesley Schulmerich, Charles Ross, Vern Tinnerstedt, Fred Guyton, Earl K. Sweet, Hans Paulson, all Tillamook; Harry Scott, Manzanita; Erling Brauti, J. H. Beale, Dell Curtis, Mrs. J. Douma, Dr. Robert Reinhart, all of Wheeler; R. L. Bourke, Portland; Ted Dufrain, Mrs. Wm. Pearson, Ruth Bess, R.G.W. Graham, Rockaway; Lee Mead, F. E. Knight, Merle Ferrell, Mr. and Mrs. John Dillard, Nehalem.

Judge Effenberger introduced Mr. Harry Scott who acted as spokesman for the group. Mr. Scott thanked the Commission for the construction program that has been outlined and for work that has recently been performed in the Tillamook County area. He stated that he had made the original reconnaissance survey of the Elsie Cutoff and found that it is a feasible route and would cost about $1,500,000 to construct. He pointed out that the proposed short-cut route will save many miles in moving products to and from the Wheeler area. He estimated that on a basis of 750 vehicles daily it is costing traffic $191,000 annually to travel the existing highways. He asked the Commission to authorize a survey of the route as the first step.

Mr. Brauti commented that a road over the suggested route has been urged for thirty years or more and is greatly needed for the economical development of the area north of Tillamook. Mr. Paulson, Tillamook City Manager, stated that construction of the proposed cutoff will be of benefit to the entire County and that the City of Tillamook is in favor of it. Mr. Ross commented concerning the recent action taken by Congress which necessitated postponement of the proposed revision of the Oregon Coast Highway over Cascade Head south of Neskowin. He asked the Commission to reinstate this project in the Forest Highway Program when forest money is available. Concerning the "Elsie Cutoff", he stated that the delegation is asking only for a reconnaissance survey to serve as a basis for future consideration.

The Engineer stated that the Highway Department as no information on the proposed cutoff route. He pointed out that many other surveys are needed in the immediate future and suggested that further consideration be given to the delegation's request when engineering help is available.

Commissioner Reynolds stated that the "Elsie Cutoff" route is not new to the Commission and that the Commission up to the present time has had to deny requests for it because of lack of funds and because other projects had priority status. He mentioned the Commission's program for modernizing the Oregon Coast Highway, and he gave as his feeling that such work should not be deferred. He also said that the Wilson River Highway will soon be completed which will be of benefit to Tillamook County. He called attention to the fact that many other sections of the State are desirous of securing improved highways as well as new highway routes and that the Commission at this time can give no encouragement that the "Elsie Cutoff" will be programmed soon; however, the project will be kept in mind for future consideration when funds and personnel are available.

Mr. Gene Palmer, Superintendent of Public Works, Mr. George Harkenrider, Mayor, and Mr. Frank Wells, Councilman, all from the City of Hermiston, came before the Commission concerning a Special State Tax Street Fund Project. Mr. Palmer stated that the City previously requested State assistance in improving Orchard Avenue but the request had been denied. Since then the City has contracted drainage facilities and can offer financial assistance up to $4,000; however, the street needs additional base rock and surface material. Commissioner Reynolds pointed out that each year the Commission receives more applications for Special State Tax Street Funds than can be financed with the funds available. He suggested resubmission of the project for consideration in the next year's program.

Mr. R. L. Wyrick, of the Gladstone Chamber of Commerce, Mr. Merle Brown, President of the Oregon City Chamber of Commerce, and Mr. J. H. Van Winkle, Editor of the Oregon City Enterprise Newspaper, came before the Commission to request an interchange on the Pacific Highway East at the Clackamas River north of Oregon City, so that people using the Clackamas County State Park at this location can have safe access to and from the highway. Mr. Wyrick stated that the access in which they are most concerned is on the west side of the highway, and it was his thought that the necessary construction might be a cooperative project involving the State, Clackamas County, and the City of Gladstone. Mr. Brown called attention to the excellence of the location which is at the mouth of the Clackamas River where it empties into the Willamette River. The access road, he stated, is badly needed and he asked the Commission to give it serious consideration. Mr. Van Winkle called attention to a previous request for this interchange, which was denied on the basis that the amount of traffic does not warrant the expense involved The Game Commission, he stated, has spent approximately $7,000 for a road to permit the launching of boats at the park, and he gave as his thought that the use of the park would increase very rapidly were safe entrance and exit provided. He urged the Commission to reconsider its previous action in the interests of

safety for people who use the park and for the general traveling public.

Commissioner Reynolds commented that the previous report rendered to the Commission on this matter indicated that the interchange is not justified; however, the Commission will have the Engineer make further study. The Engineer was thereupon instructed to review the matter and render another report

A delegation from The Dalles and Portland came before the Commission regarding establishment of a state park at the mouth of the Deschutes River. The following people composed the group: Ward Webber, County Judge, Wasco County, W. C. Nelson, Manager, The Dalles Chamber of Commerce; J. Haslett Bell, County Planning Consultant; L. E. Emmerson, Isaac Walton League; Don Heisler, Rod and Gun Club; R. A. Brouhard, Yacht Club; R. E. Sjoblom, Rifle and Pistol Club, all of The Dalles; State Senator Pat Lonergan, Lawrence Barber, Marine, Editor, The Oregonian, and Archie Hovey, Portland, President, Portland Optimists Club.

County Judge Ward Webber headed the group. He thanked the Commission for the action taken on the previous day when the Commission authorizied negotiations for acquisition of land necessary for the proposed park. He advised that Wasco County has very few recreational areas and that development of a State Park at this location will be greatly appreciated by the public. Mr. Nelson and Mr Bell also expressed appreciation for the Commission's action. Mr. Barber stated that the new park will serve as an excellent boating area. He also stated that they are much interested in the development of park facilities at Rooster Rock in Multnomah County. Others expressing appreciation for the Commission's action were Messrs. Hovey, Heisler, Brouhard, Sjoblom and Senator Lonergan who stated his pleasure with the Commission's action relative to establishment of this park and for the cooperation the Commission has given in acquiring scenic areas in the Columbia Gorge. Judge Webber commented that Wasco County has been carrying on negotiations with the Army Engineers to acquire the Seufert property as an area to be used for 4-H Club activities and that they may need State assistance. He suggested that the Parks Superintendent be, authorized to investiage this property to see if it might not be suitable as a park area for overnight camping and picnic use.

Commissioner Reynolds concluded the discussion by stating that the Commission has authorized negotiations to acquire the Deschutes area and is interested in development of it later on, but cannot make a definite commitment now. He mentioned that the Commission is faced with a serious problem of providing means of ingress and egress to the property which will require considerable study before final action can be taken.

Mr. John Krieger, Portland, was present and asked the Commission to authorize an investigation of the intersection of US99W and the Red Rock Road, about a mile east of Tigard, to determine the need for some sort of traffic regulation. He pointed out that there is no refuge for left-

turn movements at this intersection and that highway traffic moves at high speed causing a hazardous condition. The Commission instructed the Engineer to make such investigation and report the findings.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. in the same room, with the same persons present and participating.

The following people composed a delegation from Baker County which was present regarding proposed highway changes in the City of Baker: Fred Young, Mayor; Robert M. Applegate, City Manager, Benjamin A. Ryder, Councilman, all of the City of Baker; Baker County Judge Lloyd Rea, R. M. Phipps and Gill C. Wright, County Commissioners, Baker County. Mayor Young was principal spokesman. He stated that residents of Baker are somewhat concerned by rumors to the effect that the Commission has plans to reroute the Old Oregon Trail about six miles to the east of Baker. At a previous time, he stated, the City was asked to cooperate in selecting a new route for the highway through the City of Baker, and that they do not feel like working on such a project if the route will completely by-pass the City. It was his thought that the route through the east edge of Baker could be constructed for a reasonable cost and he asked the Commission to give consideration to such a route. He pointed out that it is 50 and 75 miles to the nearest sizable towns which would be an inconvenience to tourists if the highway is not routed through or nearer the City of Baker than rumors indicate. It was his feeling that it would be satisfactory and feasible to use Main Street and Resort Street as a one-way couplet, and he requested more information regarding the Commission's plans for the south entrance into the City before the Commission makes its final decision. Mayor Young also mentioned another possible route through the City from the north, using Tenth Street (present route) to Broadway, thence paralleling the Union Pacific Railroad to a connection with the present highway in the southeastern part of the City.

Mr. Allen L. Johnson, Chairman, Highway Committee, Baker, who also was present, stated that he represents people on Tenth and Broadway Streets and that they are much concerned in the routing of the highway as it is a fine residential district. He offered objection to the routing of the highway along these streets, and stated their approval of the Main and Resort Street routing. Mr. Applegate stated that the City Council is vitally interested in the routing and would like to know what plans are under way for highway work south of the City.

Commissioner Reynolds explained why the Commission is studying the matter at this time. He advised that in the event additional Federal funds are made available, the Bureau of Public Roads might not approve the present route through the City of Baker. The Commission, he said, wishes to plan ahead and has asked the City to cooperate in finding a new route. There is no intent of the Commission, he added, to hurt the economy of any community and if a route through the City of Baker is provided now it might delay construction of the by-pass for many years. He expressed appreciation for the City's suggestions and advised that they will

be given careful consideration by the Commission in arriving at its decision. It was his feeling that a solution of the problem can be found that will be satisfactory to all concerned.

County Judge Rea stated that the County Court endorses the by-pass route, but is of the feeling that it should be located nearer to the City than six miles.

Commissioner Reynolds concluded the discussion by expressing appreciation for the efforts made by the City to work out a satisfactory plan and by stating that the studies will be continued and that the City will be advised of the progress.

Messrs. R. C. Wardlaw, Leo Tschida, and A. R. Cammack, farmers residing in the vicinity of Ontario, appeared before the Commission and urged construction of a traffic interchange structure on the new section of the Old Oregon Trail near the old CCC Camp, approximately five miles northwest of Ontario. Mr. Wardlaw, who acted as spokesman, presented a petition signed by 75 people who want an interchange at this location. Mr. Cammack stated that about seventy families who will use this access will have to travel about one and one-half miles to use another access at Stanton Boulevard, if they are not allowed access at the old CCC Camp. He inquired why the interchange had not been provided in the plans. Mr. Tschida read aloud a resolution from Ontario Heights Grange #917 urging construction of some type of interchange at this location.

Commissioner Reynolds stated that the interchange requested was not included in the plan for the highway improvement because the cost involved appeared not justified by the traffic that would use it. He also said that the matter will be given further consideration when the new highway has been in use for some time, perhaps a year or two, and a definite traffic pattern established, but it is the feeling of the Commission that the interchange is not justified now. Mr. Tschida then urged improvement of the present highway so there will be two parallel roads leading into Ontario. He was informed by Commissioner Reynolds that such improvement appears to be a local one and the obligation of the County. This concluded the discussion.

The Commission discussed with the Engineer the bids received at the morning session for highway construction and at 2:30 p. m., Commissioner McIver announced awards of contracts as follows:

"Bakers Bridge Approach Reconstruction on Market Road No. 39 in Clackamas County: The Commission elects to accept the bid of Babler Bros., Inc., Portland, in the sum of $62,192.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Clackamas County is received and the sum of $14,200 is deposited by the County.

"Brush Creek Relief Channel, Brush Creek-Greggs Creek Section of the Oregon Coast Highway, about 10 miles south of Port Orford in Curry County: The Commission elects to accept the bid of Glen Ousley, Eugene, in the sum of $23,496 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading, surfacing and furnishing crushed material in stock piles on the Coast Highway-Forest Boundary Section of the Elk River County Road, and Bandon-Port Orford Rock Production Project on the Oregon Coast Highway in Curry and Coos Counties: The Commission elects to accept the bid of Calkins Crushing Co., Oceanlake, in the sum of $90,323.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Curry County is received and the sum of $10,550 is deposited by the County.

"Judkins Point-Seven Oaks Screen Planting Project on the Pacific Highway, intermittent between Eugene and Central Point in Douglas, Jackson and Lane Counties: The Commission has awarded the contract to the low bidder, Knight Pearcy, Salem, at his bid price of $10,416.50.

"Grading Hay Creek Canyon Section of the Mikkalo County Road about five miles west of Mikkalo in Gilliam County: The Commission elects to accept the bid of O & K Construction Co. in the sum of $66,063.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Gilliam County is received and the sum of $14,850 is deposited by the County.

"Grading and surfacing Main Street-S. W. 2nd Avenue in the City of John Day in Grant County: The Commission has awarded the contract to the only bidder, Lankford Bros., Nyssa, at their bid price of $7,945.

"Construction of a sand storage shed at Chemult in Klamath County: The Commission has awarded the contract to the low bidder, R. H. Jones, Hillsboro, at his bid price of $11,230.

"Construction of Clear Lake Bridge Section on Clear Lake County Road No 604 in Marion County: The Commission elects to accept the bid of Tom Lillebo, Reedsport, in the sum of $56,413 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Marion County is received and the sum of $12,700 is deposited by the County.

"Construction of traffic signals in the City of Salem in Marion County: The Commission has awarded the contract to the low bidder, Trowbridge Electric Co., Roseburg, at their bid price of $18,000.

"Construction of Detroit Lake State Park Overnight Camp Facilities on the North Santiam Highway in Marion County: The Commission has awarded the contract to the low bidder, Enoch I. Maerz, Salem, at his bid price of $24,245.40.

"Construction of Clay-Columbia Street Traffic Interchange over Harbor Drive in Multnomah County: The Commission has awarded the contract to the low bidder, General Construction Co., Portland, at their bid price of $881,706.

"42nd Avenue-99th Avenue Irrigation System Project on the T. H. Banfield Expressway in Southeast Portland in Multnomah County: The Commission has awarded the contract to the low bidder, Russellville Nursery, Portland, at their bid price of $16,317.65.

"Paving East Parkrose Section of the Columbia River Highway between N. E. 122nd Avenue and N. E. 132nd Avenue in Multnomah County: The Commission rejects the only bid received for this project as being too high.

"Construction of Helmick Park Shelter and Latrine near Monmouth on the old Pacific Highway West in Polk County: The Commission rejects all bids for this project as being too high.

"Construction of park buildings at Hat Rock State Park about eight miles east of Umatilla in Umatilla County: The Commission has awarded the contract to the low bidder, Walt M. Young, Hermiston, at his bid price of $8,157.

There being no further business to come before the Commission at this time the meeting adjourned at 2:45 p.m.

State Highway Engineer

EXHIBITS "A" through "I"

Minutes of

the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

August 11 and 12, 1955

EXHIBIT "A"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land lying in Silverton on the former location of the Salem-Silverton Highway, described as follows:

A parcel of land lying in the Northeast quarter (NE¼) of Section 34, Township 6 South, Range 1 West, W.M., Marion County, Oregon, and being all of the following described property. That tract of land which was conveyed by that certain deed to Geo. Vick, recorded in Book 307, Page 78 of Marion County Record of Deeds, being more particularly described as follows:

Beginning at the Northwest corner of said property, said corner being 616 feet South and 561.5 feet West of the Southwest corner of the James Brown D.L.C. #47 in the Northeast quarter (NE¼) of Section 34, Township 6 South, Range 1 West, W.M.; thence North 82° 10' East 188.46 feet; thence South 0° 12' East 350.42 feet; thence South 89° 48' West 186.79 feet; and thence North 0° 12' West 325.38 feet to the place of beginning; containing 1.449 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $800.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.070 Et. Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 149 be entered in the minutes and records of the Commission as of the 11th day of August, 1955.

August 11, 1955

EXHIBIT "B-2"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land lying adjacent to the Pacific Highway described as follows:

A parcel of land lying in the Southwest quarter of Section 25, Township 1 South, Range 1 East, W. M., Clackamas County, Oregon, and being those tracts of land described in those certain deeds to the State of Oregon, by and through its State Highway Commission recorded in Book 389, Page 288, Book 389, Page 545 and Book 284, Page 62 of Clackamas County Records of Deeds; the said parcel being described as follows:

Beginning at the Northeasterly corner of that tract conveyed to Marie Witte by deed recorded in Book 272, Page 515, Clackamas County Deed Records; said point being North 868.4 feet, and East 1704.9 feet from the Southwest corner of said Section 25; thence South 19° 19' East along the Easterly line of said Witte tract 55.07 feet to the true point of beginning; thence South 87° 47' West parallel to the North line of said Witte tract 101.5 feet to the Westerly line of said Witte property; thence southerly along said Westerly line 373 feet, more or less to the Southwest corner; thence Westerly approximately 29.4 feet to the Southwest corner of that tract conveyed to the State of Oregon, by and through its State Highway Commission by deed recorded in Book 389, Page 545 of Clackamas County Deed Records; thence Northerly along the Westerly line of said State tract 428 feet to the Southwest corner of that tract conveyed to the State of Oregon, by and through its State Highway Commission by deed recorded in Book 284, Page 62 of Clackamas County Deed Records; thence North 19° 33' West along the Westerly line of said last mentioned State tract 187.3 feet to the Northwest corner; thence North 87° 47' East along the Northerly line of said State tract 228.8 feet to the Northeast corner; thence along the Easterly line of said last mentioned State tract on a 2921.59 foot curve left (the long cord of which bears South 17° 48' East 240.25 feet) a distance of 240.3 feet to the Southeast corner; thence South 87° 47' West 92.1 feet to the true point of beginning, containing 1.4 acres.

Also a perpetual easement for an obstructed roadway 20 feet in width extending from the Southerly boundary of the above described parcel to a connection with Brownell Street, the parcel of land covered by said easement being described as follows:

Beginning at a point on the Easterly line of the above mentioned Marie Witte property at the true point of beginning of the above described parcel of land, said point being 816.4 feet North and 1723.1 feet East of the Southwest corner of said Section 25; thence South 19° 19' East along

EXHIBIT "B-2" (Cont)

the Easterly line of said Witte property 373.4 feet to the North line of Brownell Acres; thence north 87° 47' East along said North line 20.9 feet; thence North 19° 19' West 373.4 feet; thence South 87° 47' West 20.9 feet, to the point of beginning.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.070 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 150 be entered in the minutes and records of the Commission as of the 11th day of August, 1955.

EXHIBIT "B-3"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land lying adjacent to the Pacific Highway described as follows:

All of the Northeast quarter of the Southeast quarter (NE$\frac{1}{4}$ SE$\frac{1}{4}$); the East half of the Northeast quarter (E$\frac{1}{2}$ NE$\frac{1}{4}$), and the Southwest quarter of the Northeast quarter (SW$\frac{1}{4}$ NE$\frac{1}{4}$) of Section 22, Township 34 South, Range 6 West, W. M., containing 160 acres, being in Josephine County, State of Oregon.

WHEREAS, after consideration, the Commission finds and declares that the down and standing timber is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $61,000.00. and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.070 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 151 be entered in the minutes and records of the Commission as of the 11th day of August, 1955.

EXHIBIT "B-4"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land lying adjacent to the Portland-Salem Expressway described as follows:

A parcel of land lying in the Southeast quarter of Section 25, Township 6 South, Range 3 West, W.M., Marion County, Oregon, and being a portion of that tract of land described in that certain deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 458, Page 585 of Marion County Records of Deeds; the said parcel being that portion of said property lying Westerly of a line which is parallel to and 174 feet Westerly of the center line of the North Bound Lane of the Portland-Salem Expressway. Said parcel being more particularly described as follows:

Beginning at the Southeast corner of said State tract; said point being on the East line of said Section 25 and 11.90 chains North of the Southeast corner of said Section 25; thence West along the South line of said State tract 13.95 chains to the Southwest corner and the true point of beginning; thence East along the South line of said State of Oregon tract 330 feet, more or less to a line which is parallel to and 174 feet Westerly from the center line of the North bound lane of the Portland-Salem Expressway; thence Northerly along said parallel line 510 feet, more or less to the center line of the County Road and the Northwesterly line of said State tract; thence Southwesterly along the center line of said County Road 700 feet, more or less, to the point of beginning. The parcel of land to which this description applies contains 1.50 acres, outside of the existing right of way.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.070 Et Seq.

EXHIBIT "B-4" (Cont)

AND BE IT FURTHER RESOLVED that this Miscellaneous Reso-
lution No. 152 be entered in the minutes and records of the Commission as
of the 11th day of August, 1955.

EXHIBIT "C"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3807 with Gibbons & Reed Company for grading on the 92d Avenue-Fairview Section of the T. H. Banfield Expressway in Multnomah County, completed January 21, 1955.

"Contract No. 3923 with Tom Lillebo for construction of the Lone Rock Bridge on the North Umpqua Highway in Douglas County, completed June 29, 1955.

"Contract No. 4064 with R. A. Heintz Construction Company for grading and paving on the Seven Oaks-Medford Unit, Blackwell Hill-Medford Section of the Pacific Highway in Jackson County, completed June 9, 1955.

"Contract No. 4138 with Andrew Nesheim for painting five bridges on the Oregon Coast Highway in Curry County, completed June 19, 1955.

"Contract No. 4161 with Birkemeier & Saremal for constructing eight structures on the Willamette River-Gervais Unit of the Portland-Salem Expressway in Clackamas and Marion Counties, completed July 29, 1955.

"Contract No. 4178 with Acme Construction Company for paving on the Kirk Road-Spring Creek Hill Section of The Dalles-California Highway in Klamath County, completed July 6, 1955.

"Contract No. 4187 with Acme Construction Company for bridges, grading and paving on the Jasper Bridge-Pleasant Hill Section of the Springfield-Creswell Highway in Lane County, completed July 18, 1955.

"Contract No. 4203 with Schrader Construction Company for constructing the 47th Avenue Undercrossing on the T. H. Banfield Expressway in Multnomah County, completed July 1, 1955.

"Contract No. 4204 with Rogers Construction Company for oil mat surfacing on the Big Eddy-Rufus Section of the Columbia River Highway in Wasco and Sherman Counties, completed August 4, 1955.

"Contract No. 4218 with Lockyear and White for constructing Broadacres Road and Crosby Road Undercrossings on the Portland-Salem Expressway in Marion County, completed June 25, 1955.

EXHIBIT "C" (cont)

"Contract No. 4236 with Johnson & Amens for constructing the Baker Creek and Panther Creek Bridges on the Carlton-McMinnville and Baker Creek Roads in Yamhill County, completed July 12, 1955.

"Contract No. 4237 with George L. Rochat & Son for illumination installation on the Barbur Boulevard-White School Section of the Portland-Salem Expressway and Wilsonville-Hubbard Highway in Clackamas, Marion, Multnomah, and Washington Counties, completed June 6, 1955.

"Contract No. 4241 with Columbia Empire Constructors, Inc. and P. S. Lord Mechanical Contractors for constructing three structures on the Deady-Shady Section of the Pacific Highway in Douglas County, completed July 22, 1955.

"Contract No. 4275 with Tom Lillebo for constructing the Hilton Bridge over Bear Creek on the Table Rock Road in Jackson County, completed June 30, 1955.

"Contract No. 4291 with Hamilton & Thoms for constructing four structures on the Gervais-Hayesville Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway, completed June 30, 1955.

"Contract No. 4296 with W. G. Wright for grading and paving on the Willamina ("D" Street) City Street Section in Yamhill County, completed July 28, 1955.

"Contract No. 4305 with Rogers Construction, Inc., for grading and paving on the Wasco County Line-Warm Springs Agency Section of the Warm Springs Highway in Jefferson County, completed June 14, 1955.

"Contract No. 4307 with Hamilton & Thoms for constructing four structures on the Gervais-Hayesville Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway in Marion County, completed July 7, 1955.

"Contract No. 4315 with C. C. Meisel for furnishing crushed material in stock-piles on the Birkenfeld- Washington County Line Section of the Nehalem Highway in Columbia County, completed July 8, 1955.

"Contract No. 4320 with Tom Lillebo for constructing Illahee Overcrossing Structures on the Pacific Highway in Marion County, completed June 30, 1955.

"Contract No. 4327 with Charles E. Wiedeman for constructing the Yaquina River Bridge on the Elk City Road in Lincoln County, completed June 25, 1955.

EXHIBIT "C" (cont)

"Contract No. 4334 with Carl P. Tallon for furnishing crushed material in Stockpile on the Myrtle Point-Powers Section of the Coos Bay-Roseburg and Powers Highways in Coos County, completed July 11, 1955.

"Contract No. 4335 with T. W. Thomas for widening the Ochoco Creek Bridge on the Paulina Highway in Crook County, completed June 9, 1955.

"Contract No. 4340 with M. C. Lininger & Sons for furnishing crushed material in stockpile on the Cave Jct.-Oregon Caves Section of the Oregon Caves Highway in Josephine County, completed July 12, 1955.

"Contract No. 4346 with Babler Brothers, Inc., for shoulder oiling on the Arlington-Boardman Section of the Columbia River Highway in Morrow, Gilliam, and Umatilla Counties, completed July 5, 1955.

"Contract No. 4360 with F. L. Somers for Salt Creek Bank Protection on the Eagle Creek-Twin Creek Section of the Willamette Highway in Lane County, completed August 1, 1955.

"Contract No. 4362 with Glen Ousley for grade widening and surfacing on the Yach Bridge-Weed Bridge Section of the Little Nestucca Highway in Tillamook County, completed July 20, 1955.

"Contract No. 4366 with Russell Olson Construction Company, Inc., for reoiling on the Weston Mountain-Little Phillips Creek Section of the Weston-Elgin Highway in Umatilla and Union Counties, completed August 1, 1955.

"Contract No. 4369 with Woodward & Son and Barklow for paving on the Myrtle Point (Ash and 8th Streets) City Section in Coos County, completed August 4, 1955.

"Contract No. 4378 with Warren Northwest, Inc., for paving on the Grass Valley (Church Street-Bryan Street) Section of the Sherman Highway in Sherman County, completed June 29, 1955.

"Contract No. 4385 with Frank Watt Construction Company and S & D Construction Company for constructing the Hurricane Creek Bridge on the Hurricane Creek County Road in Wallowa County, completed June 5, 1955.

"Contract No. 4391 with Babler Brothers, Inc., for shoulder oiling on the Redmond-Bend Section of the The Dalles-California Highway in Deschutes County, completed July 23, 1955.

"Contract No. 4395 with M. C. Lininger & Sons for paving on the Talent (Main Street) City Section in Jackson County, completed August 6, 1955.

"Contract No. 4396 with M. C. Lininger & Sons for paving on the Phoenix (1st Street) City Street Section in Jackson County, completed August 6, 1955.

EXHIBIT "C" (cont)

"Contract No. 4397 with Warren Northwest, Inc., for paving on the Madras ("E" & 10th Streets) City Street Section in Jefferson County, completed July 22, 1955.

"Contract No. 4404 with C. E. Leseberg for furnishing crushed materials in stockpile on the Lime-Porter Ferry Section of the Old Oregon Trail Highway in Baker and Malheur Counties, completed June 23, 1955.

"Contract No. 4405 with Salem Black Top Paving Company for grading and paving on the Molalla (Hart Avenue-7th Street) City Street Section in Clackamas County, completed July 13, 1955.

"Contract No. 4414 with Warren Northwest, Inc., for paving on the Shaniko ("E" and 4th Streets) City Street Section in Wasco County, completed July 5, 1955.

"Contract No. 4419 with Babler Brothers, Inc., for stone base and oiling on the Peters-Messner Junction Section of the Peters and Smith County Roads in Morrow County, completed July 5, 1955.

"Contract No. 4420 with P. C. Knox for grading and oiling on the Houston Lake-Powell Butte Section of the Houston Lake Road in Crook County, completed July 31, 1955.

"Contract No. 4427 with E. H. Itschner Company for furnishing crushed material in stockpile on the Service Creek-Goose Rock Bridge Section of the John Day Highway in Wheeler and Grant Counties, completed July 19, 1955.

"Contract No. 4429 with Central Paving Company for grading and paving on the South River Road Junction (Milwaukie) Section of the Pacific Highway East in Clackamas County, completed August 5, 1955.

"Contract No. 4455 with Morrison & Lamping for paving on the Milton-Freewater (South Main Street & S. E. 15th Avenue) City Street Section in Umatilla County, completed June 30, 1955.

"Contract No. 4480 with Trussfab Inc., for constructing guardrail on the Santiam Junction Section of the North Santiam and Santiam Highways in Linn County, completed August 5, 1955.

"Contract No. 4481 with Babler Brothers, Inc., for pavement sealing on the Salem By-Pass Section of the Portland-Salem Expressway in Marion County, completed July 19, 1955. "

THEREFORE BE IT RESOLVED that the work covered by State Highway contracts for the construction of said State Highway projects be

EXHIBIT "C" (cont)

declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 45 shall be entered in the minutes and records of the Commission as of the 11th day of August, 1955.

EXHIBIT "D"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, pursuant to the provisions of ORS 366.810, there have been by the Oregon State Highway Commission apportioned to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

From funds accrued during first half of 1954

Donald	$ 532.48
Taft	1,281.37

From funds accrued during second half of 1954

Amity	$ 2,363.47
Antelope	211.02
Aurora	851.13
Barlow	263.78
Boardman	422.05
Chiloquin	3,197.01
Condon	3,404.52
Donald	657.69
Gervais	1,607.30
Halfway	1,097.32
Hammond	1,835,91
Huntington	2,578.01
Joseph	2,342.37
Seaside	13,667.33
Taft	1,582.68

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and

thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 11th day of August, 1955.

EXHIBIT "E-1"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: HILLSBORO-SILVERTON HIGHWAY (Yamhill Co.)

Highway number 140 Route number ORE 219

Location of Termini				Established Speed
M.P. 19.02	(200 feet north of County Road No. 1026)	to M.P. 19.87	(north city limits of Newberg)	40 M.P.H.

EXHIBIT "E-1" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 202 be entered in the minutes and records of the Commission as of the 11th day of August, 1955.

EXHIBIT "E-2"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 206 be entered in the minutes and records of the Commission as of the 11th day of August, 1955.

EXHIBIT "E-5"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

EXHIBIT "F"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, the North Santiam Highway is a State Secondary Highway and likewise a Federal-Aid Highway which throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that on the Salem-Lancaster Drive Section of the said North Santiam Highway west of the Salem By-Pass in the vicinity of Mill Creek, vehicles are parked on both sides of said section for extended periods of time; and

WHEREAS, the parking of vehicles on said Salem-Lancaster Drive Section creates traffic congestion to such an extent that in the opinion of the Highway Commission, a hazardous condition is created to the traveling public; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking should be prohibited on both sides of said highway within said section.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare based upon recommendations by members of its staff, that the parking of vehicles on either shoulder of said Salem-Lancaster Drive Section of the North Santiam Highway between Highway Engineer's Station 120+00 (Airport Road) and Highway Engineer's Station 160+00 (Salem By-Pass) creates a hazard to the traveling public.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the shoulders of the pavement on either side of said Salem-Lancaster Drive Section within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters, the words, "NO PARKING ON HIGHWAY SHOULDERS".

EXHIBIT "F" (cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 134 be entered in the minutes and records of the State Highway Commission as of the 11th day of August, 1955.

EXHIBIT "G"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, ORS 366.800 provides that:

"There shall be and hereby are appropriated out of the highway fund annually such sums of money as will equal 10 per cent of all moneys credited to the highway fund by the State Treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the highway fund by the State Treasurer under ORS 319.410, 481.540, 767.635 and from fines and penalties collected for violations of the motor vehicle and transportation laws. The appropriation shall be distributed among the several cities as provided in ORS 366.785 to 366.820."

AND, WHEREAS, ORS 366.805 provides:

"The appropriation specified in ORS 366.800 shall be allocated to the cities as follows.

(1) The sum of $250,000 shall be withdrawn from the appropriation of each year and set up in a separate account to be administered by the commission.

(2) Such account shall be spent each year by the commission upon streets not a part of the state highway system within cities which are receiving excessive wear through sudden increases in population in the area or heavy and unusual industrial traffic.

(3) The commission shall determine the distribution of the expenditures after considering applications made to it therefor from the cities.

(4) The balance remaining in the appropriation after the withdrawal of the $250,000 shall be distributed to all the cities.

(5) Each city shall receive such share of the balance as its population bears to the total population of the cities."

AND, WHEREAS, ORS 366.810 provides that:

"Funds accrued and payable to cities under ORS 366.785 to 366.820 shall be remitted semiannually by the Secretary of State to the financial officer of each city. The funds appropriated shall be apportioned on a

EXHIBIT "G" (cont)

semiannual basis immediately following June 30 and December 31 of each year by the commission, which shall certify the apportionment to the Secretary of State. Upon receipt of such certificate the Secretary of State shall issue his warrants therefor payable to the cities in the amounts set out."

WHEREAS, the funds or moneys which have been by the State Treasurer credited to the state highway fund during the period of January 1 to June 30, inclusive, of the year 1955, and which have accrued from the sources named herein, produced the following amounts:

Funds resulting under the provisions of ORS 481.540 (motor vehicle registration and operators' license fees) total	$ 5,972,406.70
Funds resulting under the provisions of ORS 319.410 (gasoline tax) total	13,466,611.23
Funds resulting under the provisions of ORS 767.635 (motor carrier fees) total	4,823,482.66
Funds resulting from fines and penalties collected for violations of the motor vehicle and transportation laws total	205,220.55
	$24,467,721.14

AND, WHEREAS, the statutory ten per cent of said total produces for allocation and distribution by the Highway Commission to the benefited cities and towns a total of $2,446,772.11, from which sum there is to be deducted one-half of the sum of $250,000, or $125,000, thus leaving for allocation and distribution for the period January 1 to June 30, 1955, the sum of $2,321,772.11, and

WHEREAS, by applying the factors of allocation or distribution provided for in ORS 366.800 to 366.810, the State Highway Commission has determined upon an apportionment of said balance among the cities of the state as shown in the tabulation given below:

NOW, THEREFORE, be it and it hereby is resolved and ordered by this Commission as follows:

1. The Commission does hereby find, declare and order that the funds made available for allocation and distribution to the several cities of the State of Oregon pursuant to law, are hereby allocated and appropriated to the cities and/or towns named below in the amounts set opposite the names of the respective cities:

2. That a certified copy of this resolution be delivered to the Secretary of State for his use and guidance in the administration of said law with respect to the distribution of said funds.

3. That this resolution be entered in the minutes and records of the Commission as of August 11, 1955.

EXHIBIT "H"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, the Highway Commission requires and has been negotiating for four parcels of property south of the T. H. Banfield Expressway and east of N. E. 122nd Avenue, in Multnomah County, Oregon, for the construction of the N. E. 122nd Avenue ramp unit of the 92nd Avenue-Fairview Section of the T. H. Banfield Expressway;

WHEREAS, Multnomah County requires and has been negotiating for four parcels of property south of the T. H. Banfield Expressway and abutting the easterly right of way line of N. E. 122nd Avenue, for the purpose of widening N. E. 122nd Avenue, a county road; and

WHEREAS, it has become apparent that simultaneous negotiations for separate right of way by the State and County from the property of one owner is creating hindrances that are best solvable by having one government agency negotiate with the owner for the property required by both government agencies.

NOW, THEREFORE, based upon the power and authority vested in this Commission by the State of Oregon, it is hereby ordered and resolved that:

1. The Chief Counsel of the Highway Commission is authorized to enter into an agreement for and in behalf of the Highway Commission with Multnomah County, which agreement is to provide for,

(a) The State Highway Commission to acquire from Robert Beadle, his heirs or assigns, those parcels of his land required for the aforementioned projects, conveying to Multnomah County the land it requires and being reimbursed by the said County in the sum of 53 percent of the cost;

(b) The State Highway Commission to acquire from Ruby E. Seaburg, her heirs or assigns, those parcels of her land required for the aforementioned projects, conveying to Multnomah County the land it requires and being reimbursed by said County in the sum of eleven hundred and fifty ($1,150.00) dollars;

(c) The State Highway Commission to acquire from Oran O. and Mabel M. Kerley, husband and wife, their heirs or assigns, those parcels of their land required for the aforementioned projects, conveying to Multnomah County the land it requires and being reimbursed by the said County in the sum of four hundred and fifty ($450.00) dollars;

EXHIBIT "H" (Cont)

(d) The County to acquire from Joseph F. and Josephine A. Garbarino, husband and wife, their heirs or assigns, those parcels of their land required for the aforementioned projects, conveying to the State Highway Commission the land it requires and being reimbursed by the said Commission in the sum of five hundred ($500.00) dollars;

(e) The State Highway Commission and Multnomah County to cooperate in their respective construction programs and each to authorize the other to enter upon and use so much of their respective right of ways as is necessary and essential to make the construction of each effective, on these premises.

2. This Miscellaneous Resolution, No. 153, be entered in the minutes and records of the Oregon State Highway Commission as of the 11th day of August, 1955.

EXHIBIT "I-1"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to relocate, construct, improve and maintain the Dolph Corner-Rickreall Section of the Willamina-Salem Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part

of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Dolph Corner-Rickreall Section of the Willamina-Salem Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Willamina-Salem Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Dolph Corner-Rickreall Section of the Willamina-Salem Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said

EXHIBIT "I-1" (Cont)

parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of August, 1955, as Condemnation Resolution No. 540.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 540, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-2"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myrtle Creek-Canyonville Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "I-2" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the lease private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and

in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of August, 1955, as Condemnation Resolution No. 546.

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 546, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-3"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State or Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to relocate, construct, improve and maintain the Dolph Corner-Rickreall Section of the Willamina-Salem Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners

EXHIBIT "I-3" (Cont)

and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Dolph Corner-Rickreall Section of the Willamina-Salem Highway as a throughway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interest of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Willamina-Salem Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Dolph Corner-Rickreall Section of the Willamina-Salem Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the

EXHIBIT "I-4"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to State highways; or for the maintenance of an unobstructed view of any State highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myrtle Creek-Canyonville Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking,

and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

25304

EXHIBIT "I-5"

August 11 and 12, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve, construct and maintain the Tualatin River-Middleton Section of the Pacific Highway West; and

WHEREAS, for the purpose of widening, improving, constructing and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement, construction and maintenance of the said Tualatin River-Middleton Section of the Pacific Highway West, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "I-5" (Cont)

2. That the widening, improvement, construction and maintenance of the said Tualatin River-Middleton Section of the Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 11th day of August, 1955, as Condemnation Resolution No. 730.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 730 under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-6"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to relocate, construct, improve and maintain the Meacham-Hilgard Section of the Old Oregon Trail Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation construction, improvement and maintenance of the said Meacham-Hilgard Section of the Old Oregon Trail Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the said Meacham-Hilgard Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "I-6" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of August, 1955, as Condemnation Resolution No. 733.

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 733, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

25309

EXHIBIT "I-7"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to State highways; or for the maintenance of an unobstructed view of any State highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Shady Point-Booth Ranch Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described

EXHIBIT "I-8"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Hillsboro-One-Way Streets Section of the Tualatin Valley Highway; and

WHEREAS, for the purpose of relocating, constructing improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Hillsboro-One-Way Streets Section of the Tualatin Valley Highway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which, in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A" under the name of the record owner or reputed owner and the Commission's file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "I-8" (Cont)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Tualatin Valley Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the said Hillsboro One-Way Streets Section of the said Tualatin Valley Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as, in his judgment, may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of August, 1955, as Condemnation Resolution No. 793.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 793 under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-9"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Pacific Highway West; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State

are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Pacific Highway West, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened, improved and maintained Pacific Highway West and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the widening, improvement and maintenance of the said Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination

EXHIBIT "I-9" (Cont)

such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of August, 1955, as Condemnation Resolution No. 791.

EXHIBIT "I-12"

Minutes of August 11 and 12, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road, or street; quarry sites, gravel pits; storage sites; stock pile sites, or for the acquisition or manufacture of road building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light, and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myrtle Creek-Canyonville Section of the Pacific Highway, and

WHEREAS the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved, and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement, and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State

are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment, and maintenance of highways of the state highway system and the relocation, construction, improvement, and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway as a throughway certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list marked Exhibit A under the name of the record owner or reputed owner, and the Commission's respective file number, and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway and the highway facilities for which each of the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest; and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking; and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "I-12" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of August, 1955, as Condemnation Resolution No. 818.

---

*FOOTNOTE:

The name of the property owner and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 818, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

		MORROW-WHEELER COUNTIES. Heppner-Spray Secdy. Hwy. Judge Barratt's letter re improvements. Engineer's reply approved.
		JEFFERSON COUNTY. Santiam Hwy. Suttle Lake Resort. Request for snow removal from hwy. to resort approved.
		LINCOLN COUNTY. Oregon Coast Hwy. (old). Otter Crest. Request for removal of barricades denied.
25556		INCREASE IN PROJECT AUTHORIZATIONS approved for:
		Klamath County. The Dalles-California Hwy. Willamette Jct. Beaver Marsh Section. Contract #4200.
		Columbia County. Columbia River Hwy. Clatskanie-Delena Section. Contract #4172.
		Multnomah County. Portland-Salem Expressway. Barbur Blvd.-White School Section. Contract #4032.
		Multnomah County. Banfield Expressway. 42nd Ave.-92nd Ave. Section. Contract #4211.
		CONTRACTS. Award of contracts publicly announced.
25558		LANE COUNTY. Willamette Hwy. Oakridge west. Agreement with US BPR to take over forest road project approved.
		LANE COUNTY. Richardson-Eugene Secdy. Hwy. Noti. Request for footpath construction denied.
25559		SHERMAN-GILLIAM COUNTIES. Columbia River Hwy. Rufus-Arlington Section. Reconnaissance survey authorized.
		DOUGLAS COUNTY. Elkton-Sutherlin Secdy. Hwy. Sutherlin. Central Avenue. Agreement with SP RR re grade-crossing signals approved.
		FEDERAL-AID COUNTY ROAD SYSTEM. Crook-Morrow-Umatilla Counties. Counties' requested revisions approved.
		FEDERAL-AID COUNTY SECONDARY FUNDS - 1956-57. Engineer's tabulation and status report of projects approved.
25561		CLACKAMAS COUNTY. Clackamas Secdy. Hwy. Milwaukie. 21st St.-City Limits Section. Request for hwy. widening to 40 feet approved.
25562		LINCOLN COUNTY. Oregon Coast Hwy. Otter Crest Summit. Request for lookout or scenic point approved.
		CLACKAMAS COUNTY. Pacific Hwy. East (14th St.). Oregon City. Request for revision of traffic route through city denied.
		EXTENSIONS OF TIME to complete contracts granted.

Page	Date 1955	Subject
25567	Nov. 3	CONTRACT EXTENSIONS OF TIME. Failure to complete contracts on time discussed. Revision of policy considered.
		CONTRACTS completed and accepted. See EXHIBIT "C".
		STATE TAX STREET FUNDS. Plans approved. See EXHIBIT "D".
25568		LANE COUNTY. McKenzie Hwy. Request for improvement of hwy. sections due to Cougar Dam construction denied.
		TILLAMOOK COUNTY. Netarts Secdy. Hwy. Stillwell Drainage District. Request for flood control and raising of hwy. approved.
		SPEED ZONES as follows:
		Curry County. Oregon Coast Hwy. Langlois south. Approved. See EXHIBIT "I-1".
25569		Jackson County. Crater Lake Hwy. Shady Cove. Approved. See EXHIBIT "I-2". Request for no-passing zone denied.
		Jefferson County. Warm Springs Hwy. Madras north. Speed zone denied. Warning signs approved.
		Polk County. Dallas-Rickreall Secdy. Hwy. Dallas east. Approved. See EXHIBIT "I-3".
		Coos County. Oregon Coast Hwy. Coquille-Cedar Point Road Section. Approved. See EXHIBIT "I-4".
25570		Polk County. Salem-Dayton Secdy. Hwy. Spring Valley Road-Orchard Heights Road Section. Approved. See EXHIBIT "I-5".
		NO PARKING ON HWY. SHOULDERS AND NO U-TURNS established as follows:
		Multnomah County. Banfield Expressway. Portland. See EXHIBITS "L-1" - "L-2".
		Multnomah-Washington-Clackamas-Marion Counties. Portland-Salem Expressway. See EXHIBITS "L-3" - "L-4".
25571		TRAVEL - OUT OF STATE authorized for following:
		R. H. Baldock and G. S. Paxson to Washington, D.C., January 16-20, 1956, for Hwy. Research Board meeting.
		J. Al Head to attend same meeting.
		Robert C. Blensly to Los Angeles, January 25-27, 1956, for State Hwy. Conference.
		ABANDONMENT AGREEMENTS authorized for the following:
		Lane County. Springfield-Creswell Secdy. Hwy. Jasper-Pleasant Hill Section. See EXHIBIT "E-1".
		Clackamas County. Mt. Hood Hwy. Zigzag-Rhododendron Section. See EXHIBIT "E-2".
		Umatilla County. Old Oregon Trail Hwy. Emigrant Hill Section. See EXHIBIT "E-3".
		Lincoln County. Corvallis-Newport Hwy. Newport-Toledo Section. See EXHIBIT "E-4".

Portland, Oregon
September 22, 1955

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Chas. H. Reynolds, Acting Chairman
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Chairman Chandler was excused from attending this meeting.

Bids as follows for Employees' Public Liability Insurance and highway construction were opened and read aloud by the Secretary, who then announced that the Commission would award contracts at 3:30 p.m. in the same room:

LIABILITY INSURANCE FOR STATE HIGHWAY DEPARTMENT OFFICERS, AGENTS AND EMPLOYEES

J. Ira McNutt Construction Co., Springfield	1,593,040.50

September 22, 1955

The Commission approved the minutes of June 30 and July 1, 1955 and the minutes of the public hearings that were held in Sheridan, Rickreall and Dayton on May 24, 1955.

The State Parks Superintendent, Mr. C. H. Armstrong, reported on the following park matters:

1. Amendment to a special use permit granted by the U. S. Forest Service at Detroit Lake State Park to allow a concessionaire joint use of water from the State's supply near Tumble Creek: The Parks Superintendent reported that the U. S. Forest Service wishes to establish a concession, preferably at Tumble Creek, and it is their desire that the concessionaire be allowed to connect his water line to the existing system, if and when the concession is established. He explained that the source of supply is Tumble Creek and that there is ample water for the State's needs as well as for those of the concessionaire; also, that the amendment to the perm. will allow the concessionaire to connect his water line to the existing one with a provision that he share equally in the cost of maintaining the water system. The Commission approved the amendment to the permit upon his favorable recommendation.

2. Proposed acquisition of a park area on Coos Head, one-half mile west of the town of Charleston in Coos County: The Parks Superintendent stated that the area consists of about 65 acres presently under the jurisdiction of the cities of Coos Bay and North Bend which have offered the property to the State for park purposes. He pointed out that the State has three other park areas in this vicinity, particularly at Sunset Bay, Shore Acres, and Cape Arago, all being somewhat similar except that the proposed area overlooks the entrance to the bay where the boats come in. He requested authority to study the proposed site. Commissioner McIver questioned if the site should be given favorable consideration inasmuch as it lies very close to a town, it being the established policy of the Commission not to develop parks within or closely adjacent to towns or cities. The Parks Superintendent replied that he cannot answer the question without study of the area. The Commission thereupon authorized him to make such study.

3. Proposed gift from Mrs. Winifred K. Morton of a 24-acre tract of land along the McKenzie River in Lane County: Mrs. Morton, the Parks Superintendent stated, wishes to donate this land to the State as a memorial to her late husband. He explained that the area consists of three tracts, two of which lie between the highway and the river, and the other being situate north and west side of the highway in Lot 1 in Section 6, Township 17 South, Range 4 East, about 40 miles east of Springfield. The area, he stated, is very beautiful and will be a delightful place for fishermen and people who stop along the highway to enjoy the scenic aspects of the river. Mrs. Morton wishes to donate the property during three different years, to be covered by three different deeds. He recommended that the property be accepted as of-

fered. The Commission accepted the property and thereupon adopted the attached resolution relative thereto marked EXHIBIT "I-1", which resolution by this reference is made a part hereof with like effect as though copied in full herein. The Commission ordered a copy of the resolution sent to Mrs. Morton.

4. Proposed gift from Mrs. Edith M. Bowman of four lots in Pacific View Addition, south of the town of Newport: The Parks Superintendent stated that this land, which consists of Lots 3, 4, 5, and 6, in Block 26, Pacific View Addition, will make a very desirable addition to the park area south of Newport that the State has already acquired. He recommended acceptance of Mrs. Bowman's offer. The Commission accepted the lots by adoption of the attached resolution relative thereto marked EXHIBIT "I-2", which resolution by this reference is made a part hereof with like effect as though copied in full herein. The Commission ordered a copy of the resolution sent to Mrs. Bowman.

5. Status report on Columbia Gorge properties: The Parks Superintendent presented a written report, dated September 15, 1955, based on accomplishments of the Right of Way Department, concerning progress that has been made in acquiring properties in the Columbia Gorge, as proposed by the Columbia Gorge Commission. He explained that the E. J. Williamson property, immediately west of Crown Point, can be purchased at a price of $12,700. Part of this area, he stated, may be needed in connection with the Rooster Rock development as a large spring is located on the land. The Bridal Veil Lumber Company, he said, has offered a small area as a gift at Bridal Veil Falls. Proposals made to B. B. Bennets for property south of Latourell Falls have been rejected as well as proposals to purchase the F. Luscher property. The J. G. Dobing property, Section 31, Township 1 North, Range 5 East, can be purchased for approximately $3,000 and an option will be presented at the next meeting. Appraisals of parcels as suggested by the Gorge Commission are being carried on as rapidly as possible, and he expressed the hope that further recommendations can be made for purchase of additional properties at the November meeting, although negotiations for exchanges of land through the Bureau of Land Management have been slow. The Commission accepted the Parks Superintendent's report and approved the purchase of the Dobing land at $3,000, with the understanding that the option will be presented at the next meeting.

(For further details concerning these properties, see Columbia Gorge Progress Report, dated September 15, 1955, in the general files).

6. Report by the Parks Superintendent concerning inspection of Washington State Parks by members of the State Parks Advisory Committee: Several Washington State Parks, he stated, were visited on August 27 and 28, 1955, by Messrs. Wm. Tugman, J. W. Forrester, Jr., and Ralph Cronise, all members of the State Parks Advisory Committee. Many things of interest were found in these parks and it was also noted that there is a considerable difference in the Oregon and Washington

methods of administration, management, and in the appearance of the park areas. He expressed his feeling that the Oregon State Parks compare very favorably with those in the State of Washington and he gave as his understanding that the Advisory Committee will submit a report on the subject in the near future. The Commission accepted the report.

7. Proposed trip by members of the Park Advisory Committee and Commissioner McIver to investigate California State Parks: The Parks Superintendent stated that the Park Advisory Committee contemplates a trip to California for the purpose of studying park development in that State, and that it is planned that the group which will consist of Mr. Wm. Tugman, Mr. Arden Pangborn, Mr. Ralph Cronise, Mr. J. W. Forrester, Jr., and Mr. Frank Jenkins, will make the trip on October 8 and 9. It is proposed, he said, to visit park areas in the vicinity of Crescent City and Eureka. He requested authority for himself and Mr. L. V. Koons, Assistant Parks Superintendent, to accompany the committee on this trip, and he estimated the total expense involved at $400. The Commission approved the trip.

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed for state highway right of way and for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In discussing the options the Right of Way Engineer also brought up the matter of making an advance deposit to the Bonneville Power Administration in the amount of $31,300, to cover the cost of rearranging a Bonneville transmission line necessitated by construction of the Meacham-Glover Section of the Old Oregon Trail in Umatilla County. The Engineer pointed out that bids for this project were received earlier in the day and that it is a requirement of the Bonneville Power Administration that a deposit be made prior to moving of the power facilities. It was his thought that steel towers would probably be the best type of reinstallation, and he recommended approval of the advance deposit as required. The Commission accepted the recommendation.

The Commission considered and upon favorable recommendation by the Right of Way Engineer, confirmed sales of miscellaneous items by the Property Manager since the last meeting, as reported.

(For details of the items sold, see Miscellaneous Sales Report dated September 22 and 23, 1955, in the Commission's Files in Salem.)

The Commission gave attention to a form of lease presented by the Right of Way Engineer granting to Mr. and Mrs. Otto Russell the right to use a parcel of excess state property consisting of 6,075 square feet on the North Santiam Highway in Detroit, Marion County. The lease, he stated, is for five years and the property is to be used as a parking area without access to the highway; also, that the lessees are to pay the sum of $121.50 annually for such use. Upon his favorable recommendation the Commission approved the lease.

A request from the Willamette National Lumber Company for an additional six-months' time in which to remove machinery and other personal property from land recently acquired by the State in Corvallis was considered. The Right of Way Engineer explained that the original transaction provided that the State would assume title to the machinery and the other property if not removed by January 1, 1956. As it would be of no advantage to the State to acquire the material, he recommended that the Company be granted six-months' time, beginning January 1, 1956, to remove it from the premises, provided the area is not needed for highway purposes before then. The Commission approved the extended time as recommended.

Authority was requested by the Right of Way Engineer to offer at public sale the following parcels of excess property that no longer are needed for highway purposes:

a. Springfield Section, McKenzie Highway, Clear Fir Products Co., File 16277, 5000 square feet, minimum price, --$950.

b. Goshen-Divide Section near Saginaw Interchange, Pacific Highway, Luton, File 21217, 11.44 acres, minimum price, $5000. (See EXHIBIT "B-1".)

c. Unit 5, Banfield Expressway, Burns, File 19209, 14.4 acres, minimum price, --$21,600. (See EXHIBIT "B-2".)

d. Vale-Cairo Section in the City of Vale, Central Oregon Highway, Aldred, File 21118, 5800 square feet, minimum price, --$1,500. (See EXHIBIT "B-3".)

e. Beaverton-Forest Grove Section, Tualatin Valley Highway, Pizer, File No. 22852, 18,000 square feet, minimum price, --$800

f. Beaverton-Forest Grove Section, Tualatin Valley Highway, Hays, File No. 22841, 20,000 square feet, minimum price--$2,000. (See EXHIBIT "B-4".)

g. Willamette River-Hayesville Section, Portland-Salem Expressway, Bilyou, File No. 20905, 10.9 acres, minimum price--$5,500, without access to the Expressway. (See EXHIBIT "B-5.")

h. Block 62 on the Port Orford Section, Oregon Coast Highway, Gillings, File No. 10653, 28,000 square feet, minimum price--$1,000. (See EXHIBIT "B-6".)

i. Canyonville Section, Tiller-Trail Highway, DuBell, file 19516, 7 acres, minimum price, --$1,500. (See EXHIBIT "B-7".)

The Commission authorized the sales as requested and thereupon adopted the attached resolutions relative thereto marked EXHIBITS "B-1" through "B-7", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission also authorized sale of the following additional parcels which no longer are needed for highway purposes:

a. Mehama-Mill City Section, North Santiam Highway, Geil property, file 16471, sold to Marion County School District No. 77, 0.66 acre for $188, with complete restriction of access to the highway.

b. Roseburg Section, Pacific Highway, Files 17853-17854, 3400 square feet, sold to W. E. Wilshire for $300, without access to the new highway.

c. Canyonville Section Tiller-Trail Highway, DuBell, File 19516, 7 acres, sold to George V. Blomgren for $3000.

The Right of Way Engineer brought up for discussion a request from the City of Eugene to purchase certain properties owned by the State Highway Department in the western part of the City, particularly described as Lots 6 to 17 inclusive of Block 3, West Moreland Addition to Eugene. He said that the City wants the Commission to set a price on all of the Lots, and a price on Lots 12 to 17 inclusive only, in case the price asked by the Commission for the entire tract is more than the City can pay. He explained that the City wants to use the property as a site for a combined "fire and training station, fire tower, pump pit and other training stations that might be needed". He also said that the property has been appraised and according to the appraiser, the State should receive a minimum of $20,000 for the entire area, and not less than $6,000 for Lots 12 to 17 inclusive. From the discussion that followed, it appeared that Lots 12 to 17 inclusive are sufficient to meet the City's requirements Accordingly, the Commission authorized the sale of these particular lots to the City for the sum of $6,000, on condition that the deed of conveyance shall include provision to the effect that the land must be used for public purposes only. The Right of Way Engineer was authorized, in case the City elects to purchase the property on such basis, to advertise the remaining property (Lots 6 to 11 inclusive) for public sale at a minimum consideration of $14,000.

The Right of Way Engineer presented for the Commission's consideration a number of changes in existing points of access to several State highways. He explained that none of these changes grant any additional access but provide merely a change in location of heretofore approved points of access. He recommended that the Commission approve changes in location on the following properties:

a. John R. and Millicent May Pereira property, File No. 20094, on the Dayville-Mt. Vernon Section of the John Day Highway in Grant County.

b. Tom and Billie Morris property, File No. 20099, on the Dayville-John Day Section of the John Day Highway in Grant County.

c. W. M. and Gertrude Green Bennett and Zella Green Lee property, File No. 20062, on the Dayville-Mt. Vernon Section of the John Day Highway in Grant County.

d. Clara J. Boyer and Donald E. and Estelle C. Boyer property, File No. 20103, on the Dayville-Mt. Vernon Section of the John Day Highway in Grant County.

e. Robert L. and Ruth Lorene Carter property, File No. 19990, on the East Unit, Dayville-Mt. Vernon Section of the John Day Highway in Grant County.

f. Katherine Geisler property, File No. 20002 on the Dayville-Mt. Vernon Section of the John Day Highway in Grant County.

g. Robert and Melvie L. St. Elmo property, File No. 21499, on the Coast Fork Willamette River-Divide Unit, Goshen-Divide Section of the Pacific Highway in Lane County.

h. Howard E. and Hilda J. Olsen, File 13891 & 13894 on the Hayesville School Section of the Pacific Highway East in Marion County.

The Commission approved changes in access as recommended.

The Right of Way Engineer presented a form of "Street Indenture" with Southern Pacific Company whereby Southern Pacific Company allows encroachment on its property near Huber on the Beaverton-Reedville Section of the Tualatin Valley Highway in Washington County. He stated that the indenture is the usual form required for encroachments on railroad property and he recommended that it be approved. The Commission approved the indenture form as presented.

Consideration was given to a proposed agreement with Howard Hinsdale and Ralph Foster which would provide for a complete release of

any obligation to extend four culverts and install tide gates at Engineer's Stations 237+75, 277+35, 286+68 and 293+38 on the Hinsdale-Luder Creek Section of the Umpqua Highway in Douglas County. The Right of Way Engineer pointed out that it is the Commission's obligation to maintain these culverts under an agreement with the County, and that to extend them will cost approximately $5,500. Mr. Hinsdale, he said, has offered to construct a ditch to take care of the situation for the sum of $4,000 and he has agreed to accept such amount in lieu of requiring the State to extend the culverts. He recommended acceptance of the offer, provided Messrs. Hinsdale and Foster will execute a complete release of any obligation that the State may have to extend the four culverts and to install tide gates. The Commission approved the arrangement and ordered the matter covered by appropriate agreement.

Authority was requested by the Right of Way Engineer to compensate the U. S. Department of Forestry for the value of timber which will have to be removed from right of way needed for construction of the Meacham-Hilgard Section of the Old Oregon Trail in Umatilla and Union Counties. He stated that he received a figure of $1,742.25 from the Forestry Department, but he is not sure that it is a lump sum for which they will settle or is merely an estimate based upon a unit price. He requested authority to pay the Department of Forestry for the timber to be removed, based on the amount of timber taken, and a unit price to be set by the Department of Forestry. The Commission approved such settlement.

Payment of $14,093.25 to the U. S. Forest Service to cover the cost of moving their Summit Ranger Station on the Government Camp-Laurel Hill Section of the Mt. Hood Highway in Clackamas County was discussed. The Right of Way Engineer explained that in connection with the proposed reconstruction of this highway section it is necessary to furnish right of way for the Forest Service and it so happens that it will be necessary to move Summit Ranger Station across the road and east approximately one-half mile when the new construction is undertaken. Upon his favorable recommendation, the Commission approved the payment.

Rejection of an option obtained from Delford Lang for property on the Willamette Highway Junction-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County was requested by the Right of Way Engineer. He explained that the option covers acquisition of 2.97 acres of land and the furnishing of a deep well for the sum of $3,500; also, that the highest appraisal for the property is approximately $1,800. He recommended that the option be rejected and that the Chief Counsel be authorized to acquire the property by condemnation if settlement cannot be reached otherwise. The Commission approved the recommendation.

Commissioner McIver brought up for discussion the disposition to be made of some buildings located on the right of way of the Sunset Highway between the Multnomah County Line and North Plains. He mentioned

that the owners of these buildings are making improvements and he inquired if it might not be well to remove the buildings from the right of way before the improvements are too far advanced. The Right of Way Engineer stated that the buildings are owned by a Mr. Stucki and a Mr. Berger. He was instructed to negotiate with the owners for the removal of all buildings on this highway section and to report the results thereof.

Commissioner McIver also brought up for discussion the Engineer's plans for the metropolitan area of Portland as they affect real property on the connection between the Columbia-Clay Street Interchange and Canyon Road. He advised that some of the property owners whose property may be affected by the proposed highway construction have inquired when the State intends to buy their property, and what are the State's plans for this project. The Engineer replied that it is not known when the work will be undertaken as funds to finance it are dependent to a great extent upon additional monies which may or may not be provided by the National Congress. It was his thought that the owners should not be asked to defer their improvements inasmuch as the highway developments are still uncertain and it may be two years or more before the Commission can reach a decision regarding details.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties which are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same, in conformity with instructions given him by the Commission in its resolution dated December 20, 1951:

Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway

R-23158- George S. Yost

Tualatin River-Middleton Section of the Pacific Highway West

L-2406- Elizabeth Lyda, et al.
New resolution required to include permit of entry

Right of way maps, construction plans and other data were submitted to the Commission, and the Engineer advised that the acquisition of the properties listed is required in order to carry out plans for high-

way improvements and other projects heretofore approved by the Commission. After considering the matter in light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the request by adopting the attached resolutions relative thereto marked EXHIBITS "M-1" through "M-11 ", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

In discussing parcels of property which it may be necessary to condemn, Commissioner McIver inquired if the legal proceedings instituted by Mr. Joe Harland might delay construction of the Dolph Corner-Rickreall Section of the Willamina-Salem Highway, on which bids were received today. The Chief Counsel replied that no injunction is yet in force but, if Mr. Harland is successful in securing one, construction might be delayed. The hearing, he stated, is set for Monday, September 26. He recommended that the usual practice be followed in awarding the contract by referring it to the Engineer for award when right of way has been acquired.

The Chief Counsel requested authority to offer the sum of $2,500 to Mr. Jack W. Olsen, et al. for 24.32 acres of land that is needed as right of way for the Meacham-Hilgard Section of the Old Oregon Trail Highway. This offer, he stated, is for property which the Commission previously authorized acquiring under condemnation proceedings if it could not be acquired by negotiation. The Commission approved the amount of the offer as reported.

The Commission considered and approved the Chief Counsel's written report of cases which have been tried in court by his staff since the previous meeting of the Commission, as follows:

REPORT OF CONDEMNATION CASES TRIED AUGUST 8, 1955 TO SEPTEMBER 19, 1955

Case	County	Highway	Section	State's Offer	Defts. Demands	Verdict
R-18456 Hill	Lane	Pacific	Goshen-Divide	$4,645.00	$12,000.00	$6,000.00

REPORT OF TRIAL OF OTHER CASES

Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict or Judgment
L-2363	Monroe	State Highway Commission, et al.	Marion	Death resulting from automobile accident	$20,550.00	Motion to quash service allowed

REPORT OF TRIAL OF OTHER CASES (cont)

Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict or Judgment
L-2363	State	Davis, et al.	Marion	Damages resulting from automobile accident	$161.68	$161.68 Default judgment
L-2190	State	Roesch, et al.	Umatilla	Specific performance of option to convey property	Specific performance of option	Defendant Roesch directed to convey land.

(For further details of cases tried, see copy of the Chief Counsel's report, dated August 8 to September 19, 1955, in the Commission files in Salem).

The Commission also considered and accepted a written report submitted by the Chief Counsel on cases which have been settled out of court since the last Commission meeting, as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-22310 Coos Hone	Coos	Cape Arago	Rocky Point-Tarheel	$ 300.00	$ 500.00
R-21239 Doyle	Lane	Pacific	Goshen-Divide	900.00	1,000.00
R-21478 Merrick	Lane	Pacific	Goshen-Divide	6,484.00	7,500.00
R-22871 Farley	Washington	Tualatin Valley	Reedville-Beaverton	2,600.00	2,800.00

REPORT OF CONDEMNATION CASES SETTLED (cont)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-22525 Farley	Washington	Tualatin Valley	Reedville-Beaverton	$8,750.00	$9,000.00
R-22478 Godwin	Yamhill	Pacific West	Hess Creek (Newberg)	680.00	750.00

(For further details, see copy of the Chief Counsel's report of cases settled, dated September 16, 1955, in the Commission files in Salem).

Following careful consideration, the Commission approved the following offers that were tendered to property owners by the Chief Counsel prior to the institution of condemnation proceedings, in compliance with the resolution adopted by the Commission at its meeting on December 20, 1951:

Dolph Corner-Rickreall Section of the Willamina-Salem Highway:

R-18161-Joseph H. Harland, et ux. 13.13 acres for right of way purposes. Offer of $10,500 ratified by Mr. Reynolds September 15, 1955.

Tualatin River-Middleton Section of the Pacific Highway West:

R-23347-Anna E. Stein. 0.61 acre for right of way purposes. Offer of $560 ratified by Mr. Reynolds September15, 1955.

R-23397-Elizabeth Lyda, et al. 2.5 acres for right of way purposes. Offer of $3,100 ratified by Mr. Reynolds September 15, 1955.

Sylvan Section of the Sunset Highway:

R-20651-Anna Algesheimer. For control of access only. Offer of $3,250 approved by Mr. Reynolds September 15, 1955.

R-20866-Anna Kelly Algesheimer. For control of access only. Offer of $650 approved by Mr. Reynolds September 15, 1955.

Sage Hen Hill-Hines Section of the Central Oregon Highway:

R-21614-John P. Fay. 1.5 acres for right of way purposes. Offer of $825 approved by Mr. Reynolds September 15, 1955.

Meacham-Hilgard Section of the Old Oregon Trail Highway:

R-22793-Chester C. Whitehill. 7.68 acres for right of way purposes. Offer of $525 approved by Mr. Reynolds September 15, 1955.

Deschutes River Section of the McKenzie Highway:

R-23764-The Estate of Mille P. Struss. 6.9 acres for right of way purposes. Offer of $1,550 approved by Mr. Reynolds September 15, 1955.

Washburn-North Plains Section of the Wilson River Highway:

L-2051 (R-19833)-Florence E. Jones, et al. Increase in offer from $2,370 to $2,700 to cover increased acreage for right of way purposes. The revised offer was ratified by Mr. Reynolds September 15, 1955.

L-2055(R-19834)-Melissa J. Gibson, et ux. Increase in offer from $6,000 to $9,600 to cover increased acreage for right of way purposes. The revised offer was ratified by Mr. Reynolds September 15, 1955.

A report was presented by the Chief Counsel concerning highway matters that have been before the Public Utilities Commissioner. He stated that although there are many matters pending only one final order has been issued by the Commissioner since he last reported under date of August 5, 1955. This order, known as PUX 135, pertains to a private road crossing by American Forest Products Corporation of the Fremont Junction-Camas Valley Section of the Warner Secondary Highway, at M.P. 5.04, near Lakeview in Lake County. The order, he said, provides that the Corporation shall strengthen the pavement, install adequate signs, and perform other maintenance features at the Corporation's expense, and the State's obligation is limited to maintenance of advance warning signs on the highway. The Commission accepted the report.

Request was made by the Chief Counsel that the Commission approve payment of a bill in the amount of $509.91 submitted by Wood, Matthiessen, Wood & Tatum for legal services in connection with the case of Verlin E. McCarthy, et al. vs. Gibbons and Reed, Inc., et al, involving a state highway contract. He explained that the State in this case was obligated to defend its contractor, Gibbons and Reed, Inc., but the Attorney General first ruled that the Chief Counsel could not undertake the defense of the contractor because the State was not named a defendant; however, later the Attorney General reversed his ruling. He recommended payment of the bill submitted by Wood, Matthiessen, Wood & Tatum, who acted as attorneys for the contractor. The Commission approved such payment.

Authority was requested by the Chief Counsel to institute legal proceedings against Mr. Tamison H. Moore for the purpose of collecting damages that occurred to a State Highway truck, in the sum of $53, caused by Mr. Moore. He explained that the accident occurred on January 16,

1955 near M.P. 58.5 on the Willamette Highway and that Mr. Moore was entirely to blame. The surety for Mr. Moore, he added, has denied responsibility so it will be necessary to institute legal proceedings. The Commission granted the authority.

A written report concerning legal action instituted by Mr. Joe Harland, Rickreall, Oregon, against the State Highway Commission was presented by the Chief Counsel. Mr. Harland, he stated, has asked the court for a temporary restraining order and a permanent injunction restraining the Commission from acquiring or attempting to acquire right of way needed for the proposed Dolph Corner-Rickreall Project on the Willamina-Salem Highway in Polk County. Service of summons and complaint, he said, has not yet been made but from newspaper articles it appears that a hearing is to be held in Dallas on September 26, 1955; also, that action will be taken to resist both the restraining order and the junction. The Commission accepted the report. (For details see copy of the report, dated September 19, 1955, in general files.)

Out-of-state travel expense for either Mr. Leonard I. Lindas or Mr. Charles Peterson, Assistant Counsels, to go to Grand Rapids, Michigan, and to High Point, North Carolina, to interview prospective expert witnesses in connection with the case of "State vs. Superbilt Manufacturing Co.", was requested by the Chief Counsel. He explained that in conducting the condemnation suit against Superbilt Manufacturing Co. in Portland it is necessary to secure witnesses who are expert in the furniture manufacturing business to testify concerning the type of equipment and machinery used in the furniture business generally and by the Superbilt Manufacturing Co. in particular, the depreciation of such furniture manufacturing equipment, obsolescence, and other matters pertaining to the items of property and equipment contained in the Superbilt building. Strenuous efforts, he stated, have been made to locate expert witnesses on the West Coast but without success as it appears there is a close fraternity between furniture manufacturers and related businesses in this section of the United States, and phone calls and letters to eastern representatives have been met with evasive answers. It was his thought that personal contact by either Mr. Lindas or Mr. Peterson might provide the type of witness that is needed. He recommended that one of the two men be authorized to take this trip which, he estimated, will cost about $462.50. The Commission granted the authority as requested.

A written report was also submitted by the Chief Counsel concerning legal action instituted by Mr. E. L. Kennard, contractor, against the Highway Commission. Mr. Kennard, he stated, seeks to collect $22,228.34 plus interest for misrepresentation of quantities, failure of the State to provide right of way, and failure of other contractors to complete work on certain bridge structures that were involved. Mr. Kennard, he explained, was awarded Contract No. 3756 for construction of embankment and slope protection at the west end of the Marion Street and Center Street Bridges in Salem. He refused to complete the contract as specified, so another contractor, Mr. F. O. Laws, finished it under Contract No. 3975. All necessary steps, he said, will be taken to resist the complaint. The Commission accepted the report.

The matter of disposing of right of way acquired by the Commission in the extension and widening of Pine Street in the City of Salem was discussed. The Chief Counsel explained that in conformity with an agreement with the City of Salem the Commission acquired the right of way, extended and reconstructed Pine Street as a by-pass route, with the understanding that the City would maintain the street after construction was completed. In acquiring the right of way, he said, access rights were purchased which precluded construction of driveways, sidewalks, etc. Inasmuch as the reconstructed street is entirely a city street, the Chief Counsel recommended that the right of way purchased by the Highway Commission be deeded to the City of Salem, thereby giving the City the right to take such action concerning access and sidewalks as it deems fit. Parcels acquired outside of the normal right-of-way limits, he stated, will not be conveyed to the City of Salem but will be retained for either sale or use for other public purposes. The Commission approved the transfer to the City without cost.

The Chief Counsel requested authority to employ Mr. Monte Walter as an attorney in his office at $459 a month, effective September 26, 1955, with the provision that if his services are satisfactory, his salary be raised to $477 per month at the end of six months' trial period. He pointed out that one of the attorneys recently resigned and that he also has another vacancy on his staff which he is unable to fill at the present time. The Commission approved employment of Mr. Walter as requested.

The Engineer reported that as previously authorized by the Commission, he has awarded the following contracts which were referred to him by the Commission to award when certain conditions had been satisfied.

1. Grading Louse Creek-Grants Pass (Merlin Hill) Section of Pacific Highway, Josephine County. Bids received June 30, 1955. Conditions of award satisfied August 12, 1955. C. R. O'Neil, Creswell, contractor.

2. Paving Cottage Grove-Divide Unit, Goshen-Divide Section of Pacific Hignway, Lane County. Bids received June 30, 1955. Conditions of award satisfied August 12, 1955. Parker-Schram Company, Portland, contractor.

3. Grading and paving Reedville-Beaverton Section of Tualatin Valley Highway, Washington County. Bids received June 30, 1955. Conditions of award satisfied August 12, 1955. Porter W. Yett, Portland, contractor.

4. Bakers Bridge Approach Reconstruction on Market Road No. 39, Clackamas County. Bids received August 12, 1955. Conditions of award satisfied August 16, 1955. Babler Bros., Inc., Portland, contractor.

5. Grading Hay Creek Canyon Section of Mikkalo County Road, Gilliam County. Bids received August 12, 1955. Conditions of award satisfied August 17, 1955. O & K Construction Company, Gresham, contractor.

6. Construction of Muddy Creek Bridge on Oakville County Road, Linn County. Bids received August 11, 1955. Conditions of award satisfied August 19, 1955. Hannan Bros. Co., Portland, contractor.

7. Construction of Clear Lake Bridge on Clear Lake County Road No. 604, Marion County. Bids received August 12, 1955. Conditions of award satisfied August 22, 1955. Tom Lillebo, Reedsport, contractor.

8. Grading, paving and furnishing crushed rock in stock piles on Bradley Park-Wauna Section of Columbia River Highway, Clatsop County. Bids received August 11, 1955. Conditions of award satisfied August 23, 1955. Rogers Construction, Inc., Portland, contractor.

9. Construction of Siletz River Bridge on Siletz Highway, Lincoln County. Bids received August 11, 1955 Conditions of award satisfied August 23, 1955. Lee Hoffman, Beaverton, contractor.

10. Construction of Brush Creek Relief Channel on Oregon Coast Highway, Curry County. Bids received August 12, 1955. Conditions of award satisfied August 23, 1955. Glen Ousley, Eugene, contractor.

11. Grading and paving the 122nd Avenue Ramp Unit, 92nd Avenue-Fairview Section of T. H. Banfield Expressway, Multnomah County. Bids received July 1, 1955. Conditions of award satisfied August 30, 1955. Warren Northwest, Inc., Portland, contractor.

The Commission accepted the Engineer's report.

A report was presented by the Engineer concerning plans for constructing a new interstate bridge across the Columbia River between Portland and Vancouver. He said that a Supreme Court hearing has held up the project to some extent, but it is expected that a decision will be made by November 1, 1955. If the Court decision is favorable, he stated, the project will then be advertised for bids with the bid opening scheduled for December 15, 1955. Following the bid opening, bids for the bridge bonds will be requested, to be opened about February 1, 1956, at which time the contract for construction could be awarded. To meet the outlined schedule, he said right of way should be acquired now on the Oregon side. Washington, he commented, is acquiring right of way on the Washington side of the river. He requested authority to negotiate immediately for the necessary right of way on the Oregon side by the taking of eight months' options. The Commission granted the request.

The Engineer submitted a report on a request from the City of Pendleton for construction of a third traffic lane on US 30 easterly from the junction of Airport Road to the junction of the one-way street couplet in Pendleton, a distance of 1.94 miles. He recalled that this request was made last spring and that the Commission at that time authorized an investigation, which has been made and which revealed that this section is not adapted to three lanes of traffic as three-lane pavement is practically obsolete in level country. To construct a four-lane facility, he said, will cost about $391,000 for construction and $56,000 for right of way. He gave as his opinion that the present highway will handle the traffic for several years, and because there are other localities that have higher priority for four-lane construction, he recommended that the request be denied, pending determination of traffic demands when the proposed air force installation is completed at the Pendleton Airfield. The Commission accepted the recommendation.

The Commission discussed a report submitted by the Engineer supplementing a previous report on the economic analysis for construction of a highway between Medford and Klamath Falls via Lake of the Woods. The Engineer stated that the former report was based on construction of this highway to a primary highway status, and that on such basis the estimated cost is $5,684,044 and the benefit cost ratio is less than unity. He recalled that the estimate was based on completing the unimproved section between a point near McAllister Springs to the junction with the Lake of the Woods Road, a distance of 15.2 miles; surfacing and oiling the 7.21 mile unoiled section west of McAllister Springs; and reconstruction of the existing oiled portion of the Little Butte Secondary Highway, plus the placement of an increased pavement thickness on the Klamath Lake Secondary Highway. He further stated that subsequent to rendering that report, a request was received from Jackson County for a reinvestigation based on constructing the highway on secondary highway standards. On such basis, he said, it will cost about $1,475,000 to resurface and oil the 7.21 mile section west of McAllister Springs and to construct the 15.2 mile section between McAllister Springs and Lake of the Woods Junction, but the estimate does not provide for improvement of the existing oiled Little Butte Secondary Highway and the Klamath Lake Secondary Highway. Jackson County, he said, is agreeable to placing the existing state secondary highway between McAllister Springs and the Klamath County line, a distance of 9.6 miles, on its Federal-aid County Road System and will provide Federal-aid County Funds to pay 60% of the construction cost, and will also furnish the right of way if the State will contribute 40% of the match money. He estimated the cost to construct the 15.2 mile section to secondary highway standards at $908,000 which, he said, will require $363,200 of State matching funds. The Engineer also said that Klamath County has not yet agreed to place the Klamath County portion of the road on its County Road system, but is considering it. The estimated cost to construct the Klamath County portion extending from the Jackson County line to Lake of the Woods Junction is $416,000 of which amount the State matching funds would be $166,400. In summarizing his statements, the Engineer stated that the cost to the State will be $151,000 to resurface and oil the existing State secondary highway west of McAllister Springs, 7.21 miles in length; $363,200 to construct

the unimproved portion in Jackson County; and $166,400 to construct the Klamath County portion, or a total State obligation of $680,600. The Counties' share of the total, exclusive of right of way, is $794,400. He recommended approval of the plan which, he said, would have to be constructed over a period of six to eight years to accommodate County financing, and on that basis the annual cost to the State would average about $100,000. The Commission indicated its approval of the plan as reported, and authorized the Engineer to discuss it with the Klamath County Court. He is to render a full report on the subject at the November meeting of the Commission.

The Engineer reported that under authority previously granted him by the Commission, he approved, on August 31, reclassification from a Goup II highway status to a group I highway status, the section of the Territorial Secondary Highway which extends from M.P. 10.12 (Junction with Siuslaw Highway) southerly to M.P. 32.44, (Gillespie Corner). A trial run conducted over this section, he said, indicated that a truck-trailer combination having an overall length of 60 feet can operate over this section without encroaching on the opposing lane of traffic. The Commission accepted the report.

The Commission accepted a report that the Engineer submitted for informational purposes only concerning the Five-year Program which, the Engineer stated, has been revised to include changes that have been approved by the Commission, as follows: (1.) to show the latest estimates of costs; (2.) to include projects that have been added by action of the Commission; and (3.) to show in proper position the projects recently advanced from F.Y. 1957 to F.Y. 1956 by action of the Commission. He pointed out an increase of $4,600,000 in the program total, which, he said, is accounted for by additions, increases, and reductions as follows:

Additions and Extensions:

US-30	Meacham-Glover	$1,000,000
US-99	North Ashland	250,000
US-101	North Brookings	100,000
US-58	Crescent Lake Jct.-Dalles Cal. Jct.	400,000
Oregon 18	Sheridan-West	350,000
		$2,100,000

Increased Estimates:

US-30	Banfield Expressway	$1,250,000
US-99	Shady-Canyonville	500,000
	Barbur Blvd.-White School	200,000
	Battle Ck. Jct.-Jefferson Jct.	100,000
	Ross Island Bridge Ramp	100,000
	Jefferson St. Traffic Interchange	300,000

Increased Estimates-Continued

US-101	Siletz Bay-Miner Ck.	$ 150,000
	Brush Ck.-Greggs Ck.	100,000
US-126	Springfield Bridge	100,000
	Deep Canyon and Deschutes River Units	100,000
Oregon 6	Wilson River Tunnel Section	150,000
Oregon 8	Reedsville-Beaverton	300,000
Oregon 66	Klamath Falls Grade Separation	200,000
Oregon 20	Beaverton-Hillsdale	150,000
		$3,700,000

Eliminations and Reductions:

US-30	Durkee Overcrossing	$ 350,000
US-99	Tigard-Newberg	250,000
	Goshen-Divide	100,000
	Deady-Shady	200,000
Oregon 213	Flavel St.-Clackamas Overcrossing	200,000
Oregon 6	Glenwood-N. Plains	100,000
		$1,200,000

Consideration was given to a report submitted by the Engineer concerning the establishment of a roadside rest area on the Old Oregon Trail about three miles north of Baker on the site of the old "Covered Wagon" Tavern. Commissioner Reynolds stated that he felt the proposed site is not satisfactory and he suggested selection of an area adjacent to some stream. The Engineer was instructed to attempt to locate such an area near Baker. The sum of $5,000 was ordered included in the 1956 budget to finance development of a roadside rest area in this vicinity when it has been selected.

Also considered was the Engineer's report on a request from John Kreiger, Tigard, Oregon, for installation of traffic signals at the intersection of the Pacific Highway West and Red Rock Road north of Tigard. This matter, the Engineer stated, was carefully investigated by the Traffic Engineer and it was found that traffic conditions do not meet the minimum requirements for installation of traffic signals. He therefore recommended that the request be denied. The Commission accepted the recommendation.

The Commission gave attention to a request previously submitted by the Chambers of Commerce of Oregon City and Gladstone for construction of a traffic interchange at the intersection of Pacific Highway East with the

road that leads to Clackamas River Park, just south of the Clackamas River bridge between Gladstone and Oregon City. The Engineer recalled that at the June 30 meeting of the Commission, he submitted an adverse report based on the fact that the volume of traffic to and from the park did not warrant an interchange; however, subsequent investigation reveals that were the interchange provided there would result a large increase in the use of the park and that the improvement would be a part of the final improvement of this road as outlined in the Portland Metropolitan area plan. In view thereof, he recommended that the traffic interchange be constructed as a State project during the year of 1956 at an estimated cost of $17,000. The Commission approved the recommendation and so ordered.

The Commission considered items of unfinished business appearing on the Secretary's summary, dated August 12, 1955, as follows:

1. Request for signs on scenic drive in Hood River Valley: Action on this matter was again deferred pending inspection by the Commission. The item is to remain on the list of unfinished business.

2. Adoption of the survey for the Laurel Hill-Still Creek Section of the Mt. Hood Highway: Action was deferred on this survey until all three Commissioners are present. This item is to remain on the list of unfinished business.

3. Adoption of the survey for the Hinkle Interchange Section of the Boardman-Stanfield Highway: Action on this matter was deferred until all three Commissioners are present. The item is to remain on the list of unfinished business.

4. Request of Mr. John Kreiger, Tigard, for an investigation to determine what can be done to prevent accidents at the intersection of the Red Rock County Road with the Pacific Highway West near Tigard: The Engineer's report on this matter was considered earlier in the session so the item was ordered removed from the list of unfinished business.

5. Request of Chambers of Commerce of Oregon City and Gladstone for construction of a traffic interchange at the intersection of the Pacific Highway East and the road leading to Clackamas River Park, just south of the Clackamas River Bridge: This item was considered in a report presented by the Engineer earlier in the session and action taken at that time so the Commission ordered the item deleted from the list of unfinished business.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

Attention was given by the Commission to a request from the City of The Dalles for installation of traffic signals on Second Street (US30, westbound) at its intersection with Court, Federal and Jefferson Streets in The Dalles. The Engineer advised that an investigation which was conducted disclosed that signals are warranted at the Court and Federal Street intersections but not at the Jefferson Street intersection. He recommended that fixed time traffic signals be installed at the intersections of Second Street with Court and Federal Streets, at an estimated cost of $7,000, provided the City will pay one-half of the installation expense and the entire cost of maintenance and furnishing of electrical energy to operate them. The Commission approved the installation on such basis.

Also considered was a request from the City of Estacada for installation of a flashing beacon at the intersection of the Woodburn-Estacada Secondary Highway and George Road, at the northerly edge of this town. The Engineer explained that this is a three-way intersection and that highway traffic has to make a right-angle turn. The volume of traffic using the intersection and the accident record at this location, he said, warrant the installation of a flashing beacon. He recommended approval of such installation which he estimated will cost about $500. The Commission authorized the installation.

The Engineer reported that a succession of letters and petitions have been received from residents along the River Road-Santa Clara area, north of Eugene, urging reconstruction of the highway and installation of signals or other devices to protect pedestrians desiring to cross the Junction City-Eugene Secondary Highway. He said that this highway carries a heavy volume of vehicular traffic and that pedestrians are subjected to severe hazard in crossing it to go to the stores and schools in the vicinity; also, that to solve the problem properly will require a major widening project which presently is not warranted in view of other long-range planning to provide additional facilities to serve this area. To relieve the pedestrian situation, he recommended installation of six pedestrian type signals which, upon push-button actuation, would give a red or stop indication to highway traffic and would allow sufficient time for pedestrians to cross the highway safely. Such installation he estimated will cost $11,500. The Commission approved the installation as recommended.

Increases in project authorizations were requested by the Engineer and approved by the Commission as follows:

1. An increase of $12,000 for grading and paving the Bear Creek-Scotts Point Section of the Siletz Secondary Highway in Lincoln County, Contract No. 4092, occasioned by slides and an increase in quantities of base rock.

2. An increase of $50,000 for grading and surfacing the Clatskanie-Delena Section of the Columbia River Highway, in Columbia County, Contract No. 4172, to pay for more crushed rock surfacing materials than was anticipated.

3. An increase of $84,000 for paving the Anlauf-Rice Hill Section of the Pacific Highway in Douglas County, Contract No. 4019, due to the need to increase base thicknesses where settlements have occurred, removal of slides, and construction of a pavement seal coat which was not included in the original plans for this project.

The Engineer requested confirmation of the oral authority previously given him by the Commission to authorize the Salt Lake Pipe Line Company to move portions of its pipe line east of Pendleton to accommodate construction of the Old Oregon Trail on new alignment between Meacham and Hilgard. He said that the pipe line must be revised at six locations and that the estimated cost thereof as determined by the Company is $75,350. He also said that the Company has agreed to convey to the State a satisfactory easement along the highway to be constructed across its property. The Commission confirmed its prior approval of this project and authorized reimbursing the Company for its actual expense in making the necessary revisions at the six locations referred to, upon proper billing and after auditing of the same by the State Highway Department.

The Engineer requested authority for an expenditure of $47,000 from savings that have accrued in Federal-aid Secondary Highway allotments in Division No. 5 to finance construction of the Boulder Gorge Section of the Sumpter Valley Secondary Highway in Baker County. He said that approximately $49,000 of such funds have accrued in Division No. 5 and that the Commission previously approved the contracting of the Boulder Gorge Section, although it did not specifically authorize the use of Federal-aid Secondary Funds to finance it. He added that he is requesting the Bureau of Public Roads to program this project and that it is his hope the work can be contracted this fall. The Commission authorized the improvement as reported.

The Engineer also requested approval of an allotment of $150,000 of bond money to finance the illumination and channelization of 35 traffic interchanges on the Pacific Highway between Goshen and Medford. He said that no money heretofore has been earmarked for this purpose but the work should be done as an accident prevention measure. He pointed out that the $150,000 can be secured from an underrun of $257,000 of bond funds heretofore allocated to the Pacific Highway. The Commission approved the allotment as recommended.

The Commission confirmed previous authority given the Engineer to perform with State forces certain protective screen planting work on the Bunker Hill-Delmar Section of the Oregon Coast Highway south of Coos Bay. The Engineer explained that this project was advertised for bids to be received at the previous meeting but only one proposal was submitted, being for $14,970 and this one was rejected because it was far in excess of the estimate. A further analysis of the project, he stated, has been made, and it now is the feeling of the Landscape Engineer that a satis-

factory job can be performed by state forces for approximately $3,500. He recommended that the project be performed by state forces, the work to be undertaken immediately. The Commission approved the project as recommended.

Confirmation of telephonic approval previously given for construction of a pedestrian walk on the South Umpqua River Bridge at Tiller was requested by the Engineer. He pointed out that a considerable number of pedestrians use this bridge, including school children,and he estimated the cost involved at $4,300. The project was confirmed by the Commission.

Requests from Clackamas and Multnomah Counties for additions to the Federal-aid County Road system of each county were considered. The Engineer presented a map indicating the extensions requested and recommended approval of the following additions:

FAS 680, Clackamas County, 2.3 miles--known as County Market Road No. 31, extending from the Boones Ferry County Road easterly to the Oswego State Primary Highway in Oswego.

FAS 681, Clackamas and Multnomah Counties, 7 miles--composed of the Lower Boones Ferry Road and the Boones Ferry Road in Clackamas County, and the Boones Ferry Road and Terwilliger Boulevard in Multnomah County. This road, he said, extends from the Lower Boones Ferry Interchange on the Portland-Salem Expressway northerly to a connection with the Pacific Highway West (Barbur Boulevard) in Portland. The Commission approved the additions as recommended.

Additional 1957 Federal-aid County Road projects as requested by Baker and Clackamas Counties were presented by the Engineer who stated that they will program the balance of the FAS funds available to these counties, and who recommended their approval. The Commission adopted the recommendation and approved the following projects:

County	FAS Hwy. No.	Section and Description	Programmed Amount	FAS Fund
Baker	508	Muddy Creek School-Haines Junction Section, 2.6 miles. Grade, surface, and oil.	$ 52,000	1957
Clackamas	680	Boones Ferry Road-Oswego Section, 2.2 miles. Grade and pave.	$160,000	1957
		TOTAL	$212,000	

Allotment of 1957 Federal-aid Secondary Funds to the various counties was also presented by the Engineer. He explained that 1957 FAS funds have been appropriated and that it now is in order for the Commission to take official action allotting the funds to the several counties. He presented a tabulation indicating the amount of such funds, totaling $1,862,362, which, added to previously approved 1956 funds, provides a total of $3,720,558 to be apportioned to the counties, and when matched 20 per cent by the County and 20 per cent by the State will provide a total of $6,200,000 for the biennium. Upon his favorable recommendation, the Commission approved the following allotment of FAS funds:

1956 AND 1957 FAS ALLOCATION TO COUNTIES SEPTEMBER, 1955

	FEDERAL FUNDS ONLY			TOTAL FUNDS Including State & County Match Money (Rounded to Thousands)
County	1956 Funds	1957 Funds	Total	
Baker	$ 34,213	$ 34,291	$ 68,504	$114,000

	$1,858,196	$1,862,362	$3,720,558	$6,200,000

September 22, 1955

Consideration was given to a request from the town of Banks for widening the pavement and construction of curbs for a distance of 1,200 feet on the Nehalem Secondary Highway through this town. The Engineer advised that this matter has been investigated and it has been determined that the cost of the improvement will be about $14,000. The town, he added, has evidenced a willingness to cooperate and has agreed to contribute 25 per cent of the cost of the project, which on the basis of the Engineer's estimate will amount to $3,500. He recommended approval of the improvement as a state construction project in 1956 at an estimated cost of $10,500 to the State and $3,500 to the City. The Commission approved the project on such basis.

Attention was also given by the Commission to a request from the U. S. Forest Service that the State assume maintenance of the Clear Lake-Belknap Springs Road, Lane and Linn Counties, as an addition to the State Secondary Highway system. The Engineer explained details and legal requirements. The Commission deferred action until the following day when a delegation is scheduled to appear concerning the project. (See additional entry ahead)

A petition was discussed from residents along the Alsea Highway in which request is made for widening of the shoulders on this highway for a distance of 0.78 mile between Eckman Slough and McKinney Slough, immediately east of Waldport in order to provide deceleration lanes for the benefit of local residents. The Engineer estimated the cost of such improvement at approximately $21,000. He further stated that a traffic count reveals approximately 1,200 vehicles per day and that in his opinion the expenditure for widening is not justified. He recommended that the request be denied. The Commission accepted the recommendation.

A request from the Portland Area Council of Girl Scouts for construction of a pedestrian walkway upon the bridge crossing Eagle Creek on the Clackamas Secondary Highway was presented. The Engineer pointed out that this request had been made previously at the Commission meeting in August and at that time on his recommendation had been denied. A further appeal, he stated, was made for construction of the bridge and another engineering investigation was made. In this additional investigation it was found that the bridge is used considerably by fishermen and also that the Girl Scout's Camp is in operation and patronized the year round. In view of this new information he recommended construction of a timber walk at an estimated cost of $2,500, provided the Portland Area Council of Girl Scouts will bear the cost of constructing and maintaining stairways at both ends of the bridge sidewalk. It was his suggestion that the stairway be constructed by state forces while building the sidewalk and that the Girl Scouts pay for the stairway construction which he estimated would cost $550. The Commission approved the project as outlined by the Engineer and ordered the matter covered by an appropriate written agreement which shall contain a provision that the Council of Girl Scouts shall be held liable for accidents that may occur to its members as a result of using the stairways.

Heating the roadway and lighting in Salt Creek tunnel on the Willamette Highway in Lane County was discussed. This tunnel, the Engineer reported, has a bad accident record due to formation of ice within the tunnel. A scheme has been devised for heating the roadway surface in the tunnel at an estimated cost of $60,000. Negotiations, he commented, are underway for a commercial power supply to replace the diesel engine which, because of age, is becoming rather unreliable. When the commercial power is available the lighting system, he stated, should be revised to provide adequate illumination which is estimated to cost $15,000. He recommended that these two projects be approved in the 1956 budget. The Commission approved the recommendation.

A request was presented from the Crook County Court that the State design, contract and furnish field supervision for construction of a bridge over Beaver Creek on a county road at Paulina. The Engineer recommended that the request be approved, provided that Crook County will reimburse the State for all costs for field supervision. The request was approved by the Commission on such basis.

The Commission discussed a request from the Port of Portland for extension of 82nd Avenue from Killingsworth Street to the Portland Airport. The Engineer explained that the section of 82nd Avenue that extends northerly from Sandy Boulevard to Killingsworth is now under contract for widening to four lanes at an estimated cost of $105,000. He pointed out that the section from Killingsworth to the Airport is not on the state highway system. He recommended that he be authorized to make a survey of this section, so an estimate of cost can be prepared. The Commission authorized such survey subject to the condition that no commitment whatsoever is being made as to construction.

In discussing the extension of 82nd Avenue northward, Commissioner McIver mentioned an inquiry from the Mixermobile Company which owns property in this area as to the plans of the Commission relative to highway improvements in this vicinity. The Engineer replied that the survey just authorized by the Commission will give an answer to their question. He was instructed to have the Division Engineer Skelton contact the mixermobile people concerning their development plans.

The Engineer requested approval of an increase of $40,000 in the project allotment for the South Sixth Street Grade Separation project in Klamath Falls. This project, he stated, includes an interchange involving median islands comprising approximately 4.4 acres and the best solution to maintain the area in a satisfactory manner appears to be to plant grass in the interchange islands, except on the steep slopes where shrubs would be planted, and to install a sprinkler system. The City of Klamath Falls, he stated, has indicated a willingness to cooperate by supplying water needed for sprinkling. He estimated the cost of the project at $40,000 and recommended that the work be done as outlined. The Commission approved the increase in authorization.

A request was considered from the City of Eugene that the State transfer to the City without cost a 30' strip of land, 835' in length, and a 60' strip, 580' in length, from excess property owned by the State immediately south and west of Seventh Avenue in Eugene. The Engineer explained that the City is developing an 80-acre industrial subdivision and that this land together with land to be set aside by the City will be used as right of way for an access street. It was his opinion that construction of this new street along the southerly edge of the State's property will increase the value of the remaining State property to a greater extent than the value of the property donated to the City. He also gave as his opinion that the remaining state property should not be sold until the street is constructed. He recommended that the property be transferred to the City without cost subject to the understanding that either the City or the County shall bear the entire cost of constructing the roadway along the new street. The Commission accepted the recommendation.

An authorization in the sum of $66,000 for landscaping the Portland-Salem Expressway from the Willamette River Bridge at Wilsonville to Salem was requested by the Engineer. Length of this section, he stated, is 24 miles and the landscaping plan is based on seeding to grass the wide median strip, with the further addition of a planted rose hedge. The rose hedge, he stated, forms a dense growth which is not only attractive but will prevent a vehicle from hurtling across the dividing strip into the opposing lane of traffic. He recommended approval of the authorization with funds to be obtained from an underrun balance of $107,000 of bond funds allocated to the Pacific Highway. It is planned, he added, to call for bids at the November meeting if the project is approved. The Commission granted the authorization as requested.

The Commission considered and upon recommendation of the Engineer, approved the following requests for extensions of time within which to complete state highway contracts:

1. Fred H. Slate Co., Oreg. Ltd. & E. C. Hall Co., Contract No. 4099, for grading and paving the Sixes Junction Section of the Sixes-Dry Creek County Road in Curry County, requested an extension of time from August 31, 1954 to August 1, 1955. Extension approved as requested without penalty.

2. Calkins Crushing Co., Contract No. 4092, for grading and paving the Bear Creek-Scotts Point Section of the Siletz Secondary Highway in Lincoln County, requested an extension of time from September 30, 1954 to September 1, 1955. Extension approved without penalty to August 17, 1955, the actual completion date of the contract.

3. Kuckenberg Construction Co., Contract No. 3984, for grading and bridge construction on the Clatskanie-Delena Section of the Columbia River Highway in Columbia County, requested an additional extension of time from November 22, 1954 to August 26, 1955. Extension approved as requested without penalty.

4. Kissell and Robinson, Contract No. 4179, for fencing on the Goshen-Divide Section of the Pacific Highway in Lane County, requested an additional extension of time from August 31, 1955 to December 31, 1955. Extension approved as requested without penalty.

5. T. C. Wildish, Contract No. 4055, for grading and paving the Prairie Road-Eugene Unit, Junction City-Eugene Section of the Pacific Highway in Lane County, requested an extension of time from September 30, 1954 to August 4, 1955. Extension approved as requested without penalty.

6. Leslie Harris, Contract No. 4171, for grading and paving the Umatilla ("K" Street) Section in Umatilla County, requested an extension of time from September 30, 1954 to August 4, 1955. Extension approved as requested without penalty.

7. Whittenburg Construction Co. & Q. L. Rufener, Contract No. 4273, for grading, oiling and bridge construction on the Beals Corner-Dougherty Corner of Woodworth County Road in Hood River County, requested an additional extension of time from August 31, 1955 to September 20, 1955. Extension approved as requested without penalty.

8. Frank Watt Construction Co. and S & D Construction Co., Contract No. 4386, for construction of North Scappoose Creek Bridge on the Pittsburg-Scappoose County Road in Columbia County, requested an extension of time from July 31, 1955 to September 30, 1955. Extension approved as requested without penalty.

9. Central Paving Co., Contract No. 4235, for grading and paving the Hopmere-Wheatland Junction Section of the North River Road in Marion County, requested an extension of time from October 31, 1954 to August 31, 1955. Extension approved as requested without penalty.

10. Fred H. Slate Company, Oregon Limited, Contract No. 4079, for grading and paving the Salem-Lancaster Drive Section of the North Santiam Highway in Marion County, requested an extension of time from October 31, 1954 to September 1, 1955. Extension approved as requested without penalty.

11. Peter Kiewit Sons' Co., Contract No. 3980, for grading and paving the Brush Creek-Frankport Unit, Rocky Point-Gold Beach Section of the Oregon Coast Highway in Curry County, requested an extension of time from September 30, 1954 to August 1, 1955. Extension approved as requested without penalty.

12. Warren Northwest, Inc., Contract No. 4070, for grading and paving the Mill City-Niagara Section of the North Santiam Highway in Marion County, requested an extension of time from September 30, 1954 to August 20, 1955. Extension approved without penalty to August 6, 1955, the actual completion date of the contract.

13. Warren Northwest, Inc., Contract No. 4283, for paving Lenz Road-Kirk Road Unit, Mazama Junction-Lobert Section of The Dalles-California Highway in Klamath County requested an extension of time from July 31, 1955 to September 30, 1955. Extension approved without penalty to September 2, 1955, the actual completion date of the contract.

14. Acme Construction Co., Contract No. 4264, for grading and paving the Depot Slough-Toledo Section of the Corvallis-Newport Highway in Lincoln County, requested an extension of time from June 30, 1955 to October 1, 1955. Extension approved without penalty to September 10, 1955, the actual completion date of the project.

15. R. A. Heintz Construction Company, Contract No. 4056, for grading the Willamette River-Gervais Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway in Marion and Clackamas Counties, requested an extension of time from November 30, 1954 to September 28, 1955. Extension approved to August 16, 1955 without penalty.

16. Calkins Crushing Co., Contract No. 4323, for rock production on Hebo Section of the Oregon Coast and Three Rivers Highways in Tillamook County, requested an extension of time from July 31, 1955 to September 5, 1955. Extension approved as requested without penalty.

17. Fred H. Slate Co. & E. C. Hall Co., Contract No. 4121, for grading and paving the Frankport-Greggs Creek Unit, Brush Creek-Greggs Creek Section of the Oregon Coast Highway in Curry County, requested an extension of time from August 31, 1955 to September 30, 1955. Extension approved without penalty to September 2, 1955, the actual completion date of the contract.

18. J. R. Taggart, Contract No. 4025, for grading and paving the Orr Corner-Monmouth Section of the Pacific Highway West in Polk County, requested an additional extension of time from June 30, 1955 to September 30, 1955. Extension approved to August 22, 1955 without penalty.

19. Babler Bros., Inc., Contract No. 4486, for oiling the Metolius-Juniper Butte Section of FAS Route Nos. 548 & 547 in Jefferson County, requested an extension of time from August 31, 1955 to September 15, 1955. Extension approved without penalty to and including September 10, 1955, the actual completion date of the contract.

20. United Builders, Inc., Contract No. 4254, for construction of the Halsey Street Undercrossing on the Banfield Expressway in Multnomah County, requested an additional extension of time from July 31, 1955 to August 31, 1955. Extension approved as requested without penalty.

21. Lee Hoffman, Contract No. 4292, for paving and bridge construction on the Union Avenue-Swift Road Junction Section of Pacific Highway West in Multnomah County, requested an extension of time from July 31, 1955 to September 30, 1955. Extension approved as requested without penalty.

22. Lord Bros., Contractors, Contract No. 4331, for construction of bridge on the 42nd Avenue Ramp Section of the T. H. Banfield Expressway in Multnomah County, requested an extension of time from August 31, 1955 to October 31, 1955. Extension approved as requested without penalty.

23. L. B. Read, Contract No. 4333, for grading and paving and construction of the Blodgett Overcrossing on the Corvallis-Newport Highway in Benton County, requested an extension of time from August 31, 1955 to November 30, 1955. Extension approved as requested without penalty.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that Contract Nos. 3984, 4025, 4055, 4061, 4070, 4079, 4092, 4099, 4118, 4154, 4171, 4235, 4253, 4254, 4285, 4288, 4292, 4316, 4323, 4329, 4343, 4363, 4368, 4370, 4371, 4373, 4374, 4376, 4384, 4386, 4388, 4398, 4407, 4408, 4409, 4411, 4413, 4418, 4436, 4439, 4442, 4453, 4457, 4468, 4470, 4472, 4476, 4479, 4487 and 4491 have been completed according to the requirements of the contracts or modifications thereof and that said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer reported that the following cities and towns have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds accrued to them during the last six months of 1954 and that the plans for the projects proposed have been examined and found satisfactory.

Cascade Locks. . . .	$2,578.01	Scio. . .	$1,575.65
Dayton.	2,528.77	Tualatin. .	1,157.12
Ione.	1,171.18	Yoncalla. .	2,201.68
Prescott.	418.53		

He recommended that the Commission approve the plans. The Commission approved the plans as recommended by adopting the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Authority to advertise for bids to grade the Hermiston Secondary Highway from Hinkle Undercrossing to its intersection with US30 and to reconstruct the Hinkle Undercrossing was requested by the Engineer. He pointed out that the original plan was to follow the old highway but due to building development at the point where the Hermiston Highway crosses US30 it has become necessary to change it so as to cross US30 about one-quarter mile to the east of the existing highway. He estimated the total cost of such reconstruction work, including the Hinkle Underpass and the Umatilla River Bridge, at $310,000. As there is only $170,000 available, he recommended that a contract be awarded later this year for reconstruction of the Hinkle Underpass, the grading of all of the secondary highway to its connection with US30, and the paving of approximately one-half mile near the Hinkle interchange which must still carry traffic. He estimated the cost of such project at $150,000. When additional secondary funds become available, he said, then a contract can be awarded for paving the roadway that will be graded on this arrangement and for building the Umatilla River Bridge. The Commission approved the plan as presented by the Engineer and authorized the contracting of the $150,000 project as soon as plans are completed.

Attention was given to a request from the Baker County Commercial Club for improvement of the Haines-Anthony Secondary Highway, No. 411. A reconnaissance survey was made, the Engineer stated, and it was found that to improve the 12.58-mile section with a 0-11 type oil mat will cost approximately $335,000. As the traffic volume on this road is quite low and as there are no funds currently available, he recommended that consideration of the improvement be deferred until allocations are made for future secondary highway projects, which cannot be done until some type of road bill is passed by the National Congress. The Commission accepted the recommendation.

Approval was requested by the Engineer for contracting of approximately $300,000 worth of rock production projects at the November and December Commission meetings. He recalled that in past years authority had been granted to contract a portion of the projects prior to approval of the budget which, he stated, will be submitted to the Commission at the November or December meeting. It is very desirable to get these rock production projects under way so that rock will be available for the sum-

mer of 1956. The Commission approved the contracting of the work as requested.

The Engineer requested authority to expend $11,000 for illumination of the new traffic interchange at the intersection of The Dalles-California Highway with the Willamette Highway north of Chemult. He said that this interchange will be of a high-speed character and should be illuminated for protection of the traveling public. He recommended that the project be financed with funds left over in the 1955 betterment budget for illumination and channelization, and that authority be granted to receive bids for the installation at the November meeting. The Commission approved the request.

The Commission gave attention to a telegram from the Otter Rock Women's Club protesting the barricading of the old route of the Oregon Coast Highway north of Otter Rock in Lincoln County. The Engineer stated that the new entrances to the highway at Otter Rock are not dangerous and he recommended that the barricades be left in place. As a result of discussion the Commission decided to make no change in the present barricades or plans for this section of highway and ordered that the petitioners be so informed.

Attention was given by the Commission to a request from J. O. Thornburg, Portland, for designation of a reduced speed zone on US30 near Biggs, Sherman County, and a request from Mrs. Mae Belle Zimmerman, Tiller, for establishment of such a zone on the Tiller-Trail Highway west of Tiller. The Engineer reported that the Traffic Engineer who investigated both requests found that reduced speeds will provide greater safety for the traveling public. He recommended that reduced speed zones be established, as follows:

1. 40 MPH speed zone on the Columbia River Highway (U.S.30) from the west end of the Spanish Hollow Bridge, M.P. 103.24, to a point 0.21 mile east of the Sherman Highway, M.P. 103.53.

2. 35 MPH speed zone on the Tiller-Trail Secondary Highway from M.P. 23.02, north and west of the South Umpqua River Bridge, to M P. 23.65, south and east of the South Umpqua River Bridge, except that between a point 0.06 mile west of the Tiller School at M.P. 23.12, and a point 0.06 mile east of the Tiller School at M.P. 23.24, the indicated speed shall be 20 MPH during the hours of school crossings.

The Commission approved the speed zones as recommended, by adopting the attached resolutions relative thereto, marked EXHIBITS "G-1" and "G-2", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein.

The Engineer reported receipt of three requests for action by the Commission to eliminate hazards to the traveling public caused by the parking of vehicles on state highway shoulders, one concerning the Cape Arago

Secondary Highway near Sunset Bay, one concerning the Willamina-Salem Highway west of Salem, and the third concerning US30 in the vicinity of Benson Park and the Multnomah Falls parking area. Each of these requests, he stated, have been carefully investigated and the findings disclose that shoulder parking of vehicles at these locations should be prohibited. He recommended as follows:

(1.) That the shoulder parking of vehicles be prohibited on both shoulders of the Columbia River Highway between M.P. 28.61 and M.P. 29.12, near Benson State Park, and between M.P. 29.88 and M.P. 29.98, near the Multnomah Falls parking area, and on the westbound leg of US30 between M.P. 29.12W and M.P. 29.87W, near the Multnomah Falls parking area;

(2.) On both shoulders of the Cape Arago Secondary Highway, from M.P. 11.52 to M.P. 11.84, adjacent to Sunset Bay State Park; and,

(3.) On both shoulders of the Willamina-Salem Highway, from M.P. 20.68 to M.P. 20.95, west of Salem.

The Commission approved the Engineer's recommendation in each instance by adopting the attached resolutions relative thereto, marked EXHIBITS "H-1" through "H-3", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein.

A petition was presented from Chenowith Grange No. 591, The Dalles, Oregon, protesting the proposed relocation of the Columbia River Highway through the Chenowith area west of The Dalles. The petitioners declare that The Dalles livestock auction yard (WINKS) will be put out of business if the highway is built on the alignment presently proposed, and that a hazardous condition will be created which will endanger life and property in this fast growing district. The Engineer advised that the proposed location has been given very careful study and is correct for a highway of such great importance as is this one. He recommended that the location be kept as previously selected. The Commission accepted the recommendation.

A claim for damages in amount of $15, submitted by J. L. Harris of Medford for damage to his combine caused by survey stakes left in his field in surveying the Pacific Highway from Seven Oaks to Ashland was considered by the Commission. The Engineer advised that the claim has been investigated and found to be reasonable. He recommended that it be paid in full. The Commission approved payment of the claim subject to obtaining the customary release from the claimant.

The Commission also considered and authorized payment of a claim submitted by A. W. Lux, Sheridan, for damages to his property caused by operations of a state drilling crew on the Valley Junction-Sheridan Section of the Salmon River Highway. The Engineer stated that the damage occurred when the crew was prospecting for aggregate materials, and consisted of borings and pits to reveal the character of the underlying gravel. The claim, he said, has been carefully investigated and settlement has been

arranged with Mr. Lux in the amount of $50 as complete compensation for all damage incurred.

The Engineer brought up for discussion the designation of a one-way couplet section for the Tualatin Valley Highway through the City of Hillsboro. The City, he stated, is in agreement with the proposed action which is taken to relieve traffic congestion. He recommended that Tualatin Valley Highway traffic, eastbound, be routed along Oak Street to its intersection with South 10th Avenue, thence along South 10th Avenue to the east city limits of the city; and that westbound highway traffic be routed along 10th Avenue at the east city limits to Base Line Street, thence along Base Line Street to the west city limits of the city, such routing to become effective when the State has completed all work on the Tualatin Valley Highway within the City of Hillsboro. He recommended that the Commission designate the one-way couplet as described. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The location of stop signs at the intersection of the Woodburn-Estacada Secondary Highway with the Barlow-Monitor County Road in Clackamas County was discussed. The Engineer commented that the location of these stop signs has been the subject of controversy for many years. The volume of traffic on the two roads, he said, is approximately the same and at the present time vehicles entering from the county road are required to stop. There is a continual violation of the stop requirements on the county road and many accidents have occurred. To correct the condition, he recommended that the intersection be made a four-way stop and that the existing flashing beacon be revised to flash red in all four directions. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "J-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer also requested Commission approval of revisions in the stop signs at the junction of the Williams Secondary Highway and the Medford-Provolt Secondary Highway. He explained that presently traffic from Grants Pass to Medford and from Medford to Grants Pass are required to stop before entering this intersection. A recent investigation, he said, discloses that conditions have changed since the original order was made and it now appears more desirable to stop traffic from Williams and allow other traffic through the intersection to proceed without stopping. He recommended, therefore, that the through highway resolution of September 21, 1949 as amended on August 21, 1950 be revised accordingly. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "J-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission approved out-of-state travel expense for the following personnel:

1. W. C. Williams, Deputy State Highway Engineer, Forrest Cooper, Assistant Construction Engineer, and D. J. Barbee, Design Engineer, to attend a meeting of the AASHO Committee on Design, in Los Angeles, during September 26, 27 and 28, 1955, at a total estimated cost of $525. The Commission requested a report on the results of the meeting.

2. Georgy Kayser, Cost Analyst, to go to Seattle to check the records of Stoen Construction Company regarding State Highway Contract No. 3805. Estimated cost $40.00.

3. R. B. Sipprell, Director of Permits, to attend a meeting of the Council of State Governments, in Denver and Colorado Springs, Colorado, during November 4-8, 1955, regarding state reciprocity, WASHO road tests, and other highway matters. Estimated cost $215.00.

Authority was requested by the Engineer for an expenditure of $500 each year during the fiscal years 1957 and 1958, to help finance a study of highway laws that is to be made by the Highway Research Board at the request of the American Association of State Highway Officials, with the object of establishing a model, uniform highway code throughout the nation. The total cost of the study for a period of three years, he stated, is budgeted for $150,000 and the first year cost of $50,000 has been financed by the Bureau of Public Roads and the Automotive Safety Foundation. The Bureau of Public Roads has agreed to pay half the cost of the remaining two years and the states have been requested to participate by raising $25,000 annually and to furnish to the Laws Committee a complete set of annotated statutes and session laws effective during the period of this study, which will mean an additional cost of $136 for Oregon. He recommended approval of Oregon's participation in the total cost involved--$500 for each of the fiscal years 1957 and 1958 and $136 for the law books. The Commission approved the expenditure as recommended and thereupon authorized the Engineer to sign a pledge to that effect.

The Engineer recalled that, on April 27, 1955, the Commission had authorized him to make awards to the highest responsible bidders for used equipment and scrap materials, with the understanding that his action would be reported to the Commission at the next following meeting. This authorization, he said, was given without the adoption of a formal resolution. To clearly define his responsibilities and to prevent misunderstandings, he recommended that the Commission adopt a resolution at this time outlining clearly the authority delegated to him. The Commission approved the recommendation and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission approved the Secretary's report of papers signed by him in behalf of the Commission during the period of August 9 to

September 19, 1955.

The Commission confirmed November 3 and 4, 1955 as the date for its next regular meeting and tentatively selected December 19 and 20 as the date for the next following meeting. The Secretary was instructed to make the usual arrangements to hold these meetings in the Imperial Hotel, Portland.

The Engineer presented a formal throughway agreement with Polk County concerning the closing of certain county roads that are crossed by the Rickreall-Dolph Corner Section of the Willamina-Salem Highway in Polk County, and recommended approval of the same. The Commission adopted the recommendation and thereupon signed the agreement.

Commissioner McIver inquired concerning the progress that has been made in the sale of riparian rights at Oregon City previously authorized by the Commission. The Chief Counsel replied that the sale has been advertised for bids to be received on September 26, 1955. He called attention to the delegation that is scheduled to appear before the Commission on the following day concerning this matter.

The Engineer brought up for discussion the programming of an allotment of $2,988,195 of 1957 Forest Highway Funds. He said that the sum of $2,680,000 is now available for construction after deducting an amount of $308,195 which has been reserved by the Bureau of Public Roads for surveys, maintenance, etc., which amount, he added, is sufficient to reinstate projects that were previously cancelled in the sum of $2,030,000. He read aloud the list of the cancelled jobs, totaling the sum of $2,030,000, and he recommended that they be given preference in the new allotment of $2,680,000. Of the remaining $650,000 that is available for programming, he recommended that $500,000 be allocated to extend the improvement of the Government Camp-Rhododendron Section of the Mt. Hood Highway to the bottom of Laurel Hill, a distance of about 2.5 miles where a connection can be made with the old highway. He suggested that the programming of the $150,000 balance be deferred pending consultation with the Federal officials. The Commission deferred action on the matter until the following day. (See ahead for additional entry.)

The State Highway Engineer reported receipt of a request from the California State Personnel Board that he serve on their Examining Committee which is scheduled to conduct an oral examination for Deputy and Assistant Highway Engineer in the State of California on October 3 and 4, 1955. The expenses of the trip, he stated, will be paid by the State of California. The Commission authorized him to serve on the Committee.

Commissioner Reynolds brought up for discussion the matter of eliminating traffic hazards at Watchman's Dip on the Columbia River Highway where several people recently were killed by rocks falling from nearby cliffs. The Engineer stated that he has already requested Mr. W. W.

Stiffler and Mr. G. S. Paxson, Assistant State Highway Engineers, to visit the location in company with Union Pacific Railroad officials, with the object of determining what can be done to properly protect the traveling public. The Commission ordered an immediate investigation of the matter and a report of the findings.

A resolution was presented from the Coquille Chamber of Commerce, urging that more frequent and adequate turn-outs be provided on the Oregon Coast Highway and on the Coos Bay-Roseburg Highway in Coos and Douglas Counties for the convenience of truck operators. The Commission referred the resolution to the Engineer for investigation and report.

Also presented were communications from residents of Medford protesting the proposed relocation of the Pacific Highway along Genessee Street in Medford. The Engineer advised that Genessee Street is bordered by a number of good residential properties, and that the people along the street object to the noise which would be produced by highway traffic. He pointed out that no survey as yet has been adopted for this proposed highway revision so he is in no position at this time to recommend any particular route as the most feasible by-pass. As this matter is still being studied, he suggested that the petitioners be informed that they will be given an opportunity to present their views when a hearing is held concerning the proposed highway relocation. The Commission approved this procedure.

Protests by residents of the town of Walton concerning the dusty condition of the Richardson-Eugene Secondary Highway were brought to the attention of the Commission. The Engineer advised that Division Engineer Edwards is investigating the condition and that he will report the findings to the Commission when the investigation has been completed.

The Commission discussed with the Engineer bids received at the morning session, and at 3:30 p.m., Commissioner McIver publicly announced the awards of contracts as follows:

"Liability Insurance for State Highway Department Officers, Agents, and Employees: The Commission has referred all bids to the Department of Finance and Administration with a recommendation that the contract be awarded to the low bidder, Martin Knutsen & Son, Astoria, at their bid of $8,487.50 on Alternate "B".

"Construction of Main Street Bridge over Ochoco Creek in City of Prineville in Crook County: The Commission referred this project to the City of Prineville for award as this is a City project.

"Construction of a State Park Latrine near Tumalo in Deschutes County: The Commission awarded the contract to the low bidder, Mann Construction Co., Redmond, at their bid price of $3,985.

"Construction of three structures on Shady-Canyonville Section of the Pacific Highway in Douglas County: The Commission awarded the contract to the low bidder, Glenn Snook, Eugene, at his bid price of $134,402.50.

"Divide-Rice Hill Fencing Project on the Pacific Highway south of Cottage Grove in Douglas County: The Commission elects to accept the bid of Robinson & Robinson, Moses Lake, Washington, in the sum of $26,340 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the Bureau of Public Roads is received.

"South Umpqua River-Myrtle Creek Guardrail Project on the Pacific Highway between Roseburg and Myrtle Creek in Douglas County: The Commission awarded the contract to the low bidder, T. W. Thomas, Portland, at his bid price of $53,510.

"Construction of Overcrossing over Southern Pacific Company tracks near Divide on the Pacific Highway in Lane County: The Commission elects to accept the bid of Hamilton & Thoms, Eugene, in the sum of $90,980 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of a Maintenance Building at Newport in Lincoln County: The Commission awarded the contract to the low bidder, Lloyd G. Sperling, Tillamook, at his bid price of $14,211.

"Grading, paving and construction of a concrete deck girder bridge on the Burrell-Vale Section of the Central Oregon Highway in Malheur County: The Commission elects to accept the bid of T. W. Thomas, Portland, in the sum of $200,792.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving the Olds Ferry-Ontario Section of the Old Oregon Trail Highway in Malheur County: The Commission elects to accept the bid of Rogers Construction Co., Portland, in the sum of $1,120,067.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Paving Fairfield Junction-Hopmere Section of the North River County Road about six miles north of Salem in Marion County: The Commission elects to accept the bid of Porter W. Yett, Portland, in the sum of $75,315 50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Marion County is received and the sum of $17,200 is deposited by the County.

"Grading and paving the Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway in Multnomah County: The Commission elects to accept the bid of Porter W. Yett, Portland, in the sum of $304,741.50 and the State Highway Engineer is directed to award the con-

tract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading Dolph Corner-Rickreall Section of the Willamina-Salem Highway in Polk County: The Commission elects to accept the bid of Babler Bros., Inc., Portland, in the sum of $99,163 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired, approval of the Bureau of Public Roads is received,and any court order or decree which may be entered enjoining the award of this contract or performance of work thereunder has been dissolved.

"West Unit, Weston-Weston Mountain Guardrail Project on the Weston-Elgin Highway in Umatilla County: The Commission awarded the contract to the low bidder, Vern Hoaglin, Beaverton, at his bid price of $13,381.

"Grading Meacham-Glover Section of the Old Oregon Trail Highway in Umatilla and Union Counties: The Commission elects to accept the bid of Rogers Construction, Inc., Portland, in the sum of $903,281 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received. "

The Commission discussed with the Engineer and the Right of Way Engineer the status of projects that are scheduled for contracting at the November and following lettings, but took no action.

The Commission signed agreements, etc. as follows:

"Lease" with Otto and Tude Russell covering 6,075 sq. ft. of excess property on North Santiam Highway in Detroit, Marion County. Lease is for 5-tear term with six months cancellation clause. Annual consideration $121.50.

"Deed" re sale of 3,400 sq. ft. of excess property in Roseburg to Mr. and Mrs. W. E. Wilshire for $300 with complete restriction of access to the new highway.

"Deed" re sale of 7 acres of excess land to George V. and Bess H. Blomgren on the Canyonville Section of the Tiller-Trail Highway, Douglas County. Consideration $3,000.

"Indenture" with the Southern Pacific Company covering highway encroachment on railroad property on the Tualatin Valley Highway near Huber Station, Washington County.

25375

"Indentures of Access" re changes in highway access points for the following:

a. John R. Pereira and wife on Dayville-Mt. Vernon Section of John Day Highway, Grant County.

b. Tom Morris and wife on Dayville-John Day Section of John Day Highway, Grant County.

c. W. M. Bennett and wife on Dayville-Mt. Vernon Section of John Day Highway, Grant County.

d. Clara J. Boyer, et al., on Dayville-Mt. Vernon Section of John Day Highway, Grant County.

e. Robert L. Carter and wife on East Unit, Dayville-Mt. Vernon Section of John Day Highway, Grant County.

f. Katherine Geisler on Dayville-Mt. Vernon Section of John Day Highway, Grant County.

g. Robert St. Elmo and wife on Coast Fork Willamette River-Divide Unit, Goshen-Divide Section of the Pacific Highway, Lane County.

"Deed" re conveying right of way of Pine Street in Salem to City of Salem.

"Consent Agreement" and "Modification of Pipe Line Right of Way" with Salt Lake Pipe Line Company concerning the relocation of pipe lines owned by the Company, made necessary by the Meacham-Hilgard Section project on the Old Oregon Trail.

"Finance & Maintenance Agreements" as follows:

Douglas County: Yokum Bridge Section of Yokum Road, FAS 244. Approved 3-2-55 & 4-13-55.

Hood River County: Odell Junction-Dukes Valley Junction Section of Straight Road FAS 661. Approved 3-2-55 & 4-13-55.

Josephine County: Hells Gate Canyon Section of Galice Road, FAS 594. Approved 3-2-55.

Marion County: Fairfield Junction-Hopmere Section of North River Road, FAS 159. Approved 10-28-54 & 4-13-55.

"Renewal of Lease for Road Materials" to Robert Harper for a parcel of land on the Benton County-Lane County Line-Cheschire Section of the Territorial Highway in Lane County.

"Agreement" with the City of Beaverton covering the Beaverton (Highway Junction-12th Street) Section of the Beaverton-Aurora Highway.

"Indenture of Access" re change in highway access points for Howard E. Olsen and wife on Hayesville School Section of the Pacific Highway East, Marion County.

"Bargain and Sale Deed" re sale of 1.449 acre of land to Mr. and Mrs. A. J. Seifer on Silverton-Middle Grove Section, Salem-Silverton Highway, Marion County. Consideration $1,950. (Authorized 8-11-55)

"Throughway Agreement" with Polk County re Rickreall-Dolph Corner-Section of Willamina-Salem Highway, Polk County.

"Amendment No. 1 to Term Special Use Permit" granting Tumble Creek Resort authority to obtain water from the line serving the Mongold Camp.

The meeting adjourned at 4:00 p.m., to reconvene at 9:00 a.m. on the following day.

Portland, Oregon
September 23, 1955

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Chas. H. Reynolds, Acting Chairman
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
L. V. Koons, Assistant Park Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary, who then announced that the award of contracts would be made in the same room at 2:30 p.m.

DOUGLAS COUNTY
YOKUM BRIDGE SECTION OVER COW CREEK

Tom Lillebo, Reedsport	$144,952.00

Lord Bros. Contractors, Portland	380,234.00

September 23, 1955

At the Right of Way Engineer's request the Commission approved out of state travel in the approximate amount of $35 for a right of way agent to go to Tacoma, Washington, in connection with acquisition of the Gallagher property on the Portland-Salem Expressway.

The Commission discussed the programming of 1957 Forest Highway Funds as suggested by the Engineer on the previous day. The Engineer again pointed out that there is available for construction the sum of $2,680,000, and that the amount that was allocated to projects that later were eliminated from the program because of failure of Congress to provide funds totalled $2,030,000, leaving a balance unallocated of $650,000. He recommended that the projects previously deleted be reinstated as follows:

Project & Acct. No.	Route Name and Type of Work	Length Miles	Prev. Cancelled Allocation
3-A1 (3231-00)	Oregon Coast Highway Grading & Bridge Advance Clearing	2.15 3.90	$ 440,000
8-A3 (3232-00)	Umpqua Highway Grad. & Temp Surf.	2.5	250,000
35-B5, G3 (3234-00)	John Day-Burns Highway Grad. Surf. & Bit. Surf.	9.0	390,000
36-B3 (3235-00)	John Day Highway Grad., Surf. & Bit. Surf.	4.52	260,000
43-C5 (3236-00)	Diamond Lake Highway Grad., Surf. & Paving	4.89	250,000
47-C3, E1 (3237-00)	North Umpqua Highway Surf. & Bit. Surf. Treat.	4.5	100,000
47-F (3238-00)	North Umpqua Highway Advance Clearing	5.0	90,000
51-B (3239-00)	Belknap Springs Hwy. (North End) Grading	4.7	250,000
		Total	$2,030,000

He also recommended that of the unappropriated balance of $650,000 an amount of $500,000 be allocated to grade an additional section of the Mt. Hood Highway extending westerly a distance of about 2.5 miles from the end of the presently approved Forest Highway project near Rhododendr n and that the remaining $150,000 be allocated in accordance with the ideas

of the U. S. Forest Service. The Commission approved the reinstatement of the projects mentioned by the Engineer totaling $2,030,000 and the allocation of $500,000 for the Mt. Hood Highway, as recommended.

The Commission authorized the State Highway Engineer to take a two weeks' vacation immediately following the annual conference of the American Association of State Highway Officials in New Orleans in December.

A delegation from Lane and Linn Counties came before the Commission regarding the designation as a state secondary highway of the Belknap Springs Road extending northerly from a junction with the McKenzie Highway near Belknap Springs in Lane County, via Clear Lake, to a junction with the Santiam Highway in Linn County. The following people composed the group: Robert Straub, Kenneth Nielsen, and Ralph Peterson, Lane County Commissioners; Floyd B. Jenks, Linn County Commissioner; Walter W. Larsen, Linn County Engineer, Charles O. McCormack, Mayor of Albany; Robert A. Finlayson, Eugene City Manager, William Clubb, Eugene City Engineer; Mr. Byron Taylor, Eugene Water and Electric Board; Mr. and Mrs. Willis Brewster and Mrs. Ray Gordon, McKenzie Bridge Chamber of Commerce; Mr. M. E. Cady, Manager of Bend Chamber of Commerce; Mr. M. F. Roberts, Redmond Chamber of Commerce; Fred M. Brenne, Manager, Eugene Chamber of Commerce; Donald Donohue, Manager, Albany Chamber of Commerce; Mr. Jerry Benson, City Recorder from Sisters; Mr. Carl Baker, Mr. C. R. Belknap, Mr. H. P. Ford, and Edward M. Blenis, representing the McKenzie Protective and Development Association; H. R. Turrittin and Mrs. Ruth A. Mills, representing the McKenzie River Chamber of Commerce; Mr. Jack Larson, Mr. Frank Lockman, Mr. Guy Wright, and Mr. Lee Raish, representing the Springfield Chamber of Commerce; Mr. H. P. Hornish, Editor of the Springfield News; and Mr. Jack Lively, Director of the Springfield Chamber of Commerce, who acted as spokesman.

Mr. Lively stated that he represents the following organizations all of whom are in favor of constructing an all-weather road from Belknap Springs north to a connection with the Santiam Highway: Springfield Chamber of Commerce, McKenzie River Chamber of Commerce, Linn County Court, Lane County Court, Redmond Chamber of Commerce, City of Albany, Bend Chamber of Commerce, City of Springfield, Central Oregon Chamber of Commerce, Prineville Chamber of Commerce, Highway #126 Association, Glenwood Business Men's Association, City of Eugene, Eugene Chamber of Commerce, Sisters Chamber of Commerce, Albany Chamber of Commerce, Lebanon Chamber of Commerce and McKenzie Development and Improvement Association.

He asked the Commission to designate the road as a state secondary highway and to maintain it as such when construction is completed by the U. S. Forest Service and U. S. Bureau of Public Roads, and he advised that all of the groups that he represents are united in making this request. Mr. Lively spoke for the project from the economic and scenic standpoints, particularly mentioning its value in the marketing of overripe timber north

of Belknap Springs, the attraction it will have for tourists and sportsmen and its importance as a year around route for exchange of produce between Central Oregon and the Willamette Valley. He also called attention to the value of the road in the event of hostilities when it might be necessary to evacuate people from Eugene and Springfield, and he gave as his feeling that maintenance of the proposed road will be cheaper than maintenance of the existing route over McKenzie Pass. He repeated his request that the Commission designate the road as a state secondary highway and to maintain it as an all-year route when it has been constructed by the Federal Government. Commissioner Reynolds stated that the Commission is familiar with the project but cannot do what has been requested until the legal requirements have been satisfied. He particularly pointed out that the County Courts of Linn and Lane Counties must petition the Commission for such designation and even then the Commission cannot act until all three members are present. County Commissioner Nielsen of Lane County stated that both counties will file the required petitions with the Commission prior to its next regular meeting.

A delegation from the town of Mt. Vernon in Grant County came before the Commission concerning the proposed relocation of the Southern end of the Pendleton-John Day Highway. The following people were present, all from Mt. Vernon: Mr. James Damon, Manager, Telephone Corporation; Mr. Lee Hehn, member of the City Council; Mr. Vernon Rehder, Businessman; Mr. E. H. Rehder, Cattleman; and Mr. Roscoe Cannon, Machine Shop owner. Mr. Damon acted as spokesman. He urged the Commission to retain the highway in its present location through the town of Mt. Vernon. It was his feeling that the route under consideration to the east of Mt. Vernon is an inferior alignment although it may be approximately 1½ miles shorter. He pointed out that the route under consideration will cross a great deal of bottom land which will be removed from production. The people of Mt. Vernon, he stated,are opposed to having the highway removed from the town, and he asked that a public hearing be granted them if relocation is actually contemplated. The Engineer commented that the route now being considered was tentatively selected about 35 years ago, but the final survey of the same has not been made; moreover, there are no funds available to finance construction. Under the Oregon law, he stated, all towns are given a hearing if they so desire when a highway relocation affecting the town is proposed. He stated further that in locating a highway, the first consideration must be the economic movement of people and products. Commissioner Reynolds concluded the conference by stating that before a new highway route can be constructed, a survey must be made and approved by the Commission after which bids may be called for construction. The people of Mt. Vernon, he said, will have plenty of time to request a hearing and enter any protest before highway construction is commenced.

A delegation appeared before the Commission concerning proposed sale of riparian rights along the Willamette River at Oregon City. The following people were present, all from Portland: Captain H. T. Shaver, Columbia River Basin Operators; F. O. Meyer, Knappton Towboat Com-

pany; L. M. Thompson and G. H. Jackson, Western Transportation Company; E. H. Crosby, Columbia Basin Loggers and Columbia Basin Sawmills.

Captain Shaver, who acted as spokesman, stated that they have heard that the State intends to sell the riparian rights which Crown Zellerbach now leases and which lease will expire in February, 1956. The people that he represents, he stated, are fearful that if the rights are placed in private hands, those who must tie up log rafts in this vicinity may be forced to pay exorbitant fees for the privilege. The towboat operators and logging companies, he stated, will be glad to pay the State for use of the riparian facilities, and he asked that the State retain ownership of the rights. Mr. Crosby stated that the matter should be given further study before the sale is consummated. Commissioner Reynolds inquired as to what organization would lease the rights from the State and, if some organization were granted the right to lease, would they allow others to use the riparian facilities? Captain Shaver replied that he could not answer directly as to who would negotiate the lease but the Columbia River towboat operators and others who transport approximately 16,000 lockages per year, containing 30,000 to 50,000 board feet per lockage, probably will be the principals in any lease negotiated and there would be no discrimination as to the use of the facilities. Commissioner Reynolds commented that the sale was authorized as it was felt that the rights should be in private hands as they do not pertain to highway construction or maintenance. After some further discussion, Commissioner Reynolds advised the delegation that bids for purchase of the rights will be received as scheduled on September 26, 1955, but no actual sale or award will be made to any bidder until the matter has been discussed further by the Commission at its meeting scheduled for November 3 and 4, 1955. Captain Shaver stated that they will be present at such meeting for their answer.

Mr. C. W. Enfield, Chief Counsel, requested two weeks' vacation, consisting of one week before the AASHO meeting at New Orleans in December and a week following that meeting. The Commission granted the request.

The matter of sending notices to cities and towns in which highway relocations are proposed was brought up by Commissioner Reynolds. He stated that his attention has been called to a newspaper article that the Pacific Highway East was to be relocated, by-passing Albany and other south Willamette Valley towns. The Commission, he stated, has taken no action in this matter and he asked that the procedure of notifying the cities be revised so that the Commission will have prior knowledge of such matters. The Engineer explained that to comply with legislation enacted by the 1955 Legislature it is necessary that cities be notified and given an opportunity to request a hearing whenever highway changes are proposed within the city. Such notices, he stated, have been sent out when surveys are to be conducted and before the Engineer has made any recommendation and before the Commission has approved any particular route. To correct this situation he stated that hereafter the Commission will be notified before the notices are sent to the cities. No city, he added, has to date requested a hearing concerning proposed highway relocation. He asked the Commis-

sion to confirm notices heretofore sent to the cities and to authorize the sending of notices to the towns of Aumsville, Newberg, Brookings, Toledo and Lafayette. The Commission approved his request.

The Right of Way Engineer requested authority to negotiate acquisition of necessary right of way at 37th and Sandy, Portland, which he stated may cost as much as $25,000. He explained that this property is needed to enable long trucks to make the turn when the Banfield Expressway is opened to traffic in the near future. The Commission granted the authority as requested and authorized the taking of options, subject to approval by Commissioner McIver.

Commissioner McIver inquired as to what has transpired in connection with the proposed access to the T. H. Banfield Expressway at 12th Street and whether it is necessary to have access at this location. The Engineer replied that he wrote the agent of the Lloyd Corporation which owns all of the right of way at this point but as yet has received no reply. He gave as his feeling that access is needed at this point but in his estimation the Lloyd Corporation should donate the property because it will receive the most benefits from the access. He added that he will again contact the Lloyd representative and will submit a report as soon as possible.

The meeting recessed for luncheon at 11:40 a.m. and reconvened at 2:30 p.m. in the same room, with the following persons present:

Mr. C. H. Reynolds, Acting Chairman
Mr. M. K. McIver, Commissioner
Mr. R. H. Baldock, State Highway Engineer
Mr. W. C. Williams, Deputy State Highway Engineer
Mr. W. W. Stiffler, Assistant State Highway Engineer
Mr. C. H. Maison, Auditor
Mr. Floyd Query, Assistant Secretary

Messrs. Enfield, Porter, Armstrong and Glaisyer were excused.

C. W. Parker, Property Manager, who was present, requested authority to offer four houses for sale, all being located on Bell Drive on the T. H. Banfield Expressway in Portland. These properties, he stated, are not needed for highway purposes and he recommended that authority be granted to sell them at public sale for not less than $18,500. The Commission granted the request by adopting the attached resolution relative thereto marked EXHIBIT "K", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The State Highway Engineer reported that it may be possible on or before November 1 to open the Portland-Salem Expressway between the Willamette River and Hayesville, north of Salem, to light traffic, but the road will not be in condition to withstand heavy loads. On portions of the

road, he said, there will be only the base course of pavement and on other portions merely an oil mat surfacing on top of the gravel base. He advised that on the section immediately north of Salem four lanes of traffic can be provided and also on the section immediately south of the Willamette River, but that the central portion, of approximately eight miles, will have to be two lanes of traffic. He recommended that all traffic between the Hubbard interchange on the north and the Hayesville interchange on the south be limited to vehicles not exceeding 10,000 pounds gross weight. The Commission approved the Engineer's recommendation by adopting the attached resolution relative thereto marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Engineer bids received in the morning session, and at 2:30 p.m. Commissioner McIver publicly announced awards of contracts as follows:

"Grade and surface 0.71 mile highway roadbed and construction of Yokum Bridge over Cow Creek, north of Canyonville in Douglas County: The Commission elects to accept the bid of Tom Lillebo, Reedsport, in the sum of $144,952 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Douglas County is received and the sum of $32,750 is deposited by the County.

"Divide-Rice Hill Guardrail Project on the Pacific Highway south of Cottage Grove in Douglas County: The Commission awarded the contract to the low bidder, T. W. Thomas, Portland, at his bid price of $30,900.

"Grading Fords Bridge Unit, Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County: The Commission elects to accept the bid of R. A. Heintz Construction Co., Portland, in the sum of $275,184 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

EXHIBITS "A" through "L"

Minutes of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

September 22 and 23, 1955

EXHIBIT "A"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land lying in the Goshen-Divide section of the Pacific Highway described as follows:

A parcel of land lying in the J. J. Vandervert D. L. C. #49, lot 1 of Section 15 and the Samuel B. Knox D. L. C. #68, all in Township 20 South, Range 3 West, W. M., Lane County, Oregon, and being a portion of that property described in that deed to the State of Oregon by and through its State Highway Commission, recorded on Reel #43-54 D, Instrument #37052, of Lane County Records of Deeds; the said parcel being that portion of said property lying westerly of a line which is parallel to and 75 feet westerly of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:
Beginning at Engineer's center line Station 623+00, said Station being 1202.7 feet north and 958 feet east of the northwest corner of said Samuel B. Knox D. L. C. #68; thence south 20° 40' West 1600 feet to station 639+00.
Bearings used herein are based upon the Oregon Co-ordinate System, South Zone.
The parcel of land to which this description applies contains 11.44 acres outside of the existing right of way.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $5,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.070 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 154 be entered in the minutes and records of the Commission as of the 22nd day of September, 1955.

EXHIBIT "B-2"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land lying in Unit 5 of the Banfield Expressway described as follows:

A parcel of land lying in Section 29, Township 1 North, Range 3 East, W. M., Multnomah County, Oregon, the said parcel being described as follows:
Beginning at the Northwest corner of that tract of land conveyed to the State of Oregon by deed recorded in Book 1604, Page 589, Deed Records of Multnomah County, said corner being 100 feet Southerly of (when measured at right angles to) the center line of the T. H. Banfield Expressway, also being 1380.2 feet East and 59.5 feet North of the Southwest corner of the G. B. Pullen D. L. C.; thence along the boundaries of said State of Oregon tract through 11 courses and distances as follows: 1. South 4° 57' West 669 feet to center of creek, tracing the center of creek, 2. South 73° 11' East 204.4 feet, 3. North 88° 52' East 150.8 feet, 4. North 80° 18' East 134.4 feet, 5. North 79° 18' East 207.7 feet, 6. South 88° 52' East 150.3 feet, 7. North 48° 19' East 123.8 feet, 8. North 73° 58' East 78.2 feet, 9. North 29° 18' East 138.3 feet, 10. North 10° 27' East 114.5 feet and 11. North 20° 07' East 107.5 feet to the South line of the O. W. R. & N. Co. right of way; thence Northwesterly along said South line of the O. W. R. & N. Co. right of way 500 feet more or less to a line which is parallel to and 100 feet Southerly of the center line of the T. H. Banfield Expressway; thence North 85° 03' West along said parallel line 620 feet more or less to the point of beginning.
No access to the Banfield Expressway.
The parcel of land to which this description applies, contains 14.4 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $21,600.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land lying in the Vale-Cairo Section, of the Central Oregon Highway described as follows:

A parcel of land lying in lots 7 and 8, Block 3 of Eldredge Addition to the City of Vale, situated in Section 20, Township 18 South, Range 45 East, W. M., Malheur County, Oregon, the said parcel being that portion of said lots 7 and 8 lying Northeasterly of a line which is parallel to and 30 feet Northeasterly of the center line of the John Day Highway Connection to the Central Oregon Highway, which center line is described as follows:
Beginning at Engineer's center line Station 0+00, said Station being opposite and 11 feet Northerly of Engineer's Station 907+75.09 on the relocated center line of the Central Oregon Highway, said Station 0+00 also being 231 feet South and 422 feet East of the Northwest corner of Block 19, said Eldridge Addition; thence on a 477.46 foot radius curve right (the long cord of which bears North 70° 17' 04" West) 362.98 feet; thence North 48° 30' 20" West 244.79 feet; thence on a 477.46 foot radius curve right (the long cord of which bears North 24° 13' 50" West) 404.58 feet; thence North 0° 02' 40" East 313.7 feet to station 13+26.05 at which station said center line is coincident with the center line of the John Day Highway at Engineer's center line Station 1767+91.41, containing 5800 square feet, more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.070 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 156 be entered in the minutes and records of the Commission as of the 22nd day of September, 1955.

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land lying on the Beaverton-Forest Grove Section of the Tualatin Valley Highway described as follows:

A parcel of land lying in the West half of Lot 181 of Johnson Estate to Beaverton-Reedville Acreage, situated in Section 12, Township 1 South, Range 2 West, W. M., Washington County, Oregon, the said parcel being that portion of said west half of Lot 181 which lies Northerly of a line parallel to and 28 feet northerly of the center line of the West bound traffic lane of the Tualatin Valley Highway, which center line is described as follows:
Beginning at Engineer's center line Station 143+18.55, said Station being 2256.8 feet south and 2271.8 feet East of the Northeast corner of the Andrew J. Masters D.L.C. No. 46, said Township and range; thence North 81° 37' West 1281.45 feet to Engineer's center line Station 156+00, said center line crossing the east and west lines of said west half of lot 181 approximately at Stations 154+60 and 155+73 respectively, containing 20,000 square feet more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.070 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 157 be entered in the minutes and records of the Commission as of the 22nd day of September, 1955.

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land in the Willamette R.-Hayesville Section of the Portland-Salem Expressway described as follows:

A parcel of land lying in Section 19, Township 6 South, Range 2 West, W.M., Marion County, Oregon, and being a portion of that tract of land described in that certain deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 458, Page 184 of Marion County Records of Deeds; the said parcel being that portion of said property lying westerly of a line which is parallel to and 174 feet westerly of the center line of the Portland-Salem Expressway and being more particularly described as follows:
Beginning at the northwest corner of the Louis Vandolf D. L. C. in Township 6 South, Range 2 West, W.M.; thence East 2.15 chains and north 21.11 chains to the northeast corner of said property and the true point of beginning; thence west along the north line of said property 5.86 chains; thence south along the west line of said property 21.11 chains; thence east along the south line of said property 163 feet, more or less, to a line which is parallel to and 174 feet westerly of the center line of the Portland-Salem Expressway; thence northeasterly parallel to said center line 610 feet, more or less, to the east line of said property; thence North along said east line of said property 825 feet, more or less, to the point of beginning, containing 10.9 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes,

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $5,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 158 be entered in the minutes of the Commission as of the 22nd day of September, 1955.

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of the parcel of land lying in the Port Orford Section of the Oregon Coast Highway described as follows:

A parcel of land lying in Block 62 of Port Orford, Curry County, Oregon, and being that tract of land described in that Trustee's deed to State of Oregon, by and through its State Highway Commission, recorded in Book 27, Page 346 of Curry County Records of Deeds; the said parcel being described as follows:
Beginning at the northeast corner of Block 62, according to the plat of 1865 of said town, now on file in the County Clerk's office at Gold Beach, Oregon; thence south 200 feet, West 140 feet, north 200 feet and east 140 feet to place of beginning, containing 28,000 square feet.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 159 be entered in the minutes and records of the Commission as of the 22nd day of September, 1955.

EXHIBIT "B-7"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of a parcel of land lying in the Canyonville Section of the Tiller-Trail Highway described as follows:

> A parcel of land lying in the Jackson Reynolds D. L. C. #58, also in Section 27, Township 30 South, Range 5 West, W. M., Douglas County, Oregon, and being a portion of that tract of land described in that certain deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 219, Page 182 of Douglas County Records of Deeds; the said parcel being that portion of said property lying northerly of a line which is parallel to and 75 feet northerly of the center line of the relocated Tiller-Trail Highway, the said parcel being more particularly described as follows:
> Beginning at a point which bears north 80° 45' East 3.16 chains from a point which is 8.33 chains east and 5.68 chains 58° east of the northwest corner of said D. L. C. #58; thence south 80° 45' west 8.88 chains; thence south 18° 35' east 515 feet, more or less, to a line which is parallel to and 75 feet northerly from the center line of the relocated Tiller-Trail Highway; thence easterly along said parallel line 520 feet, more or less, to the easterly line of said State tract; thence north 8° west 570 feet, more or less, to the point of beginning, containing 7.0 acres more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED, that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.070 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 160 be entered in the minutes and records of the Commission as of the 22nd day of September, 1955.

September 22, 1955

EXHIBIT "C"

"Contract No. 4479 with J. C. Compton Co. for pavement sealing in Division #4 on the Columbia River, Central Oregon and The Dalles-California Highways in Klamath, Lake, Hood River, Deschutes & Harney Counties, completed August 11, 1955.

"Contract No. 4487 with Warren Northwest, Inc. for paving on the Orleans-Tangent Junction Section of the Orleans-Lebanon Road in Linn County, completed September 8, 1955.

EXHIBIT "C" (Cont)

"Contract No. 4491 with Russel Olson Construction Co., Inc. for oiling on the E. Unit, Alicel Junction-Cove Section of the Lower Cove Road in Union County, completed August 20, 1955."

THEREFORE BE IT RESOLVED that the work covered by State Highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 46 shall be entered in the minutes and records of the Commission as of the 22nd day of September, 1955.

EXHIBIT "D"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, pursuant to the provisions of ORS 366.810, there have been by the Oregon State Highway Commission apportioned to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

From Funds Accrued during Last Half of 1954

Cascade Locks	$2,578.01
Dayton	2,528.77
Ione	1,171.18
Prescott	418.53
Scio	1,575.65
Tualatin	1,157.12
Yoncalla	2,201.68

AND WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 22nd day of September, 1955.

EXHIBIT "E"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, the Tualatin Valley Highway No. 29 is a part of the state highway system and a section thereof located in Washington County passes through the City of Hillsboro over streets selected and designated by the State Highway Commission, and

WHEREAS, said highway enters the City of Hillsboro at the southeast and proceeds in a northerly direction along that certain city street known as South Tenth Avenue to its intersection with that certain city street known as Baseline Street; thence westerly along said Baseline Street to the west city boundary, and

WHEREAS, the city officials of the City of Hillsboro have, for the purpose of relieving traffic congestion and for the greater convenience of the motoring public, approved plans for the establishment of a one-way couplet within the corporate limits of the City of Hillsboro and advised the Highway Commission of their complete support and cooperation in this matter, and

WHEREAS, the Highway Commission herein selects and designates that certain city street in the City of Hillsboro known as Oak Street, from its intersection with South Tenth Avenue westerly to the west city boundary as part of said one-way couplet, and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records its actions relating to location of state highways within the corporate limits of any city,

NOW, THEREFORE, Be It and It Hereby is Resolved by this Commission that:

1. The route and location of the Tualatin Valley Highway entering the City of Hillsboro, as selected and designated by the State under the authority and direction of ORS 373.010, shall be as follows:

Eastbound traffic shall enter the City of Hillsboro at the west city limits on Oak Street, and shall proceed in a general easterly direction along Oak Street to its intersection with South Tenth Avenue; thence along South Tenth Avenue to the east city limits of the City of Hillsboro.

Westbound traffic shall enter the City of Hillsboro on South Tenth Avenue at the east city limits and proceed in a general westerly direction along South Tenth Avenue to its intersection with Baseline Street; thence along Baseline Street to the west city limits of the City of Hillsboro.

EXHIBIT "E" (Cont)

provided, however, that the aforedescribed routes shall not go into effect until the State has completed all work on the Tualatin Valley Highway within the corporate limits of the City of Hillsboro and the same is opened to public travel.

2. The following city streets are designated and established to carry one-way traffic for the Tualatin Valley Highway within the City of Hillsboro in the following manner:

Eastbound traffic only:

(a) Along Oak Street from the west city boundary to its intersection with South Tenth Avenue.

Westbound traffic only:

(a) Along South Tenth Avenue from its intersection with Oak Street north to its intersection with Baseline Street.

(b) Along Baseline Street from its intersection with South Tenth Avenue to the west city boundary.

provided, however, that the aforedescribed streets shall not carry such one-way traffic until the State has completed all work on the Tualatin Valley Highway within the corporate limits of the City of Hillsboro and the same is opened to public travel.

3. The municipal authorities of the City of Hillsboro be requested to pass and adopt by appropriate procedure measures necessary to supplement the action of the Highway Commission so that those portions of the streets of the City of Hillsboro hereinbefore designated as streets to be converted to one-way traffic shall be, when all the work to be performed by the State on the Tualatin Valley Highway within the corporate limits of the City of Hillsboro and the said highway is opened to public travel, converted into one-way traffic streets.

4. That this resolution be entered in the minutes and records of the Highway Commission this 22nd day of September, 1955, as Survey Resolution No. 130, and the Secretary is ordered to mail a duly certified copy hereof to the City Recorder of the City of Hillsboro.

EXHIBIT "F"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, in the course of constructing, improving, maintaining, operating and administering a state highway system and in conducting the business and activities of the Highway Department there is acquired and accumulated personal property, supplies, materials and equipment which become surplus, obsolete or economically unusable by the Highway Department; and

WHEREAS, under the provisions of ORS 366.395 the Highway Commission is authorized to sell, lease, exchange or otherwise dispose of personal property in such manner as in the judgment of the Commission will best serve the interest of the State and will most adequately conserve highway funds; and

WHEREAS, the instances and occasions requiring the administration and disposition of various items of personal property, equipment, supplies and materials have increased to such an extent as to warrant the adoption of a procedure which will eliminate the necessity of submitting to the Commission the many and detailed problems concerning the administration and disposition of such properties and the securing of the approval of the Commission before appropriate and necessary action may be taken; and

WHEREAS, it is the judgment and opinion of the Commission that the adoption of the policy and procedure hereinafter set forth will promote and serve public welfare by permitting the economical and efficient administration of property in a manner which will best serve the interests of the State and will most adequately conserve highway funds;

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission as follows:

1. That the State Highway Engineer, or his designated representative, is authorized, subject to such rules and regulations as may be adopted by the Department of Finance and Administration, to sell personal property, supplies, materials and equipment, other than personal property acquired in the course of the acquisition of real property, which are determined by the Engineer to be surplus, obsolete or economically unusable by the Highway Department, or to request and authorize the Department of Finance and Administration to sell such personal property, supplies, materials and equipment for and on behalf of the State Highway Commission.

2. That any such personal property, supplies, materials or equipment may be sold by the State Highway Engineer, or his designated representative, only after calling for competitive bids or by selling the same at public auction as the State Highway Engineer may elect, and said sale, if

EXHIBIT "F" (Cont)

made, shall be to the highest responsible bidder and the sale price may be less than the appraised value of the property sold; provided, however, that if no bids are received or if the highest bid is less than the appraised value of the property then and in that event the property may be disposed of by the State Highway Engineer, or his designated representative at a private sale.

3. That the State Highway Engineer, or his designated representative, may for and on behalf of the State Highway Commission transfer title by bill of sale or other appropriate writing to any and all of the property, materials, supplies or equipment sold or disposed of pursuant to the authority granted in this resolution.

4. That the State Highway Engineer shall prepare or supervise the preparation of a written report to the Commission to be submitted at each meeting of the Commission setting forth a general description of all property, supplies, materials or equipment sold or disposed of during the period since the preceding meeting of the Commission, the appraised value of such property and the price for which it was sold or disposed of.

5. That that certain resolution set forth on pages 12214 through 12216, of Volume 9, Part 2, of the minutes of the meeting of the Highway Commission of October 23, 1944, and such portions of any other resolutious or orders of the Highway Commission that may conflict with the provisions of this resolution are hereby superseded, provided, however, that nothing herein contained shall be deemed to rescind or supersede Miscellaneous Resolution No. 123, identified as Exhibit C in the minutes of the meeting of the Highway Commission held on January 18 and 19, 1955, or to limit or restrict the authority granted to the Chief Counsel of the Highway Commission in that resolution.

6. That this resolution may be amended, superseded, or rescinded by the Commission when such action is deemed in the public interest.

7. That this resolution be entered in the minutes and records of the Commission as Miscellaneous Resolution No. 161, this 22nd day of September, 1955, and that a certified copy thereof be delivered by the Secretary of the Highway Commission to the Director of the Department of Finance and Administration.

EXHIBIT "G-1"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: COLUMBIA RIVER HIGHWAY (Sherman County)

Highway number 2 Route number US 30

Location of Termini			Established Speed
M.P. 103.24 (west end of Spanish Hollow Bridge)	to	M.P. 103.53 (0.21 mile east of Sherman Highway Junction)	40 MPH

EXHIBIT "G-1" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 210 be entered in the minutes and records of the Commission as of the 22nd day of September, 1955.

EXHIBIT "G-2"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth imeediately following.

Name of highway: TILLER-TRAIL STATE SECONDARY HIGHWAY (Douglas County)

Highway number 230 Route number ORE 227

M.P. 23.02 to M.P. 23.65 35 MPH

EXCEPT THAT BETWEEN

M.P. 23.12 (a point 0.06 mile west of the Tiller School) and M.P. 23.24 (a point 0.06 mile east of the Tiller School), the indicated speed shall be 20 MILES PER HOUR during the hours of school crossings according to the provisions of Subsection 1.a., of ORS 483.104.

EXHIBIT "G-2" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 211 be entered in the minutes and records of the Commission as of the 22nd day of September, 1955.

EXHIBIT "H-1"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, the Cape Arago State Secondary Highway is a highway under the jurisdiction and control of the State Highway Commission; and

WHEREAS, it appears that on a section of said highway adjacent to Sunset Bay State Park, vehicles are parked on both shoulders of said section for extended periods of time; and

WHEREAS, the parking of vehicles on said section creates traffic congestion to such an extent that in the opinion of the Highway Commission, a hazardous condition is created to the traveling public; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking should be prohibited on both sides of said highway within said section.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare based upon recommendation by members of its staff, that the parking of vehicles on either shoulder of said highway between M. P. 11.52 (Engineer's Station 161+00) and M. P. 11.84 (Engineer's Station 178+00) creates a hazard to the traveling public.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the shoulders of the pavement on either side of said section within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters, the words, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 135 be entered in the minutes and records of the State Highway Commission as of the 22nd day of September, 1955.

September 22, 1955

EXHIBIT "H-2"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, the Willamina-Salem Highway is a primary state highway which throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that on the said Willamina-Salem Highway in the vicinity of Mile Post 20, west of Salem, vehicles are parked on both shoulders of said section for extended periods of time; and

WHEREAS, the parking of vehicles on said section creates traffic congestion to such an extent that in the opinion of the Highway Commission, a hazardous condition is created to the traveling public; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking should be prohibited on said highway within said section.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare based upon recommendations by members of its staff, that the parking of vehicles on either shoulder of said Willamina-Salem Highway between M.P. 20.68 (Highway Engineer's Station 261+00) and M.P. 20.95 (Engineer's Station 247+00) creates a hazard to the traveling public.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parming of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the shoulders of the pavement on either side of said section within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters, the words, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 136 be entered in the minutes and records of the State Highway Commission as of the 22nd day of September, 1955.

September 22, 1955

EXHIBIT "H-3"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, the Columbia River Highway is a primary highway and likewise a Federal-Aid Highway which throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that on said Columbia River Highway in the vicinity of Benson State Park and Multnomah Falls, vehicles are parked on both shoulders of said section for extended periods of time; and

WHEREAS, the parking of vehicles on said section creates traffic congestion to such an extent that in the opinion of the Highway Commission, a hazardous condition is created to the traveling public; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking should be prohibited on said highway within said section.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare based upon recommendations by members of its staff, that the parking of vehicles on either shoulder of said section of the Columbia River Highway between M.P. 28.61 (Engineer's Station 1190+70) and M.P. 29.12 (Engineer's Station 1216+64) and between M.P. 29.88 (Engineer's Station 1257+03) and M.P. 29.98 (Engineer's Station 1262+03), and between M.P. 29.12W (Engineer's Station N1216+64) and M.P. 29.87W (Engineer's Station N1256+09) creates a hazard to the traveling public.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the shoulders of the pavement on either side of said Columbia River Highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters, the words, "NO PARKING ON HIGHWAY SHOULDERS".

EXHIBIT "H-3" (Cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 137 be entered in the minutes and records of the State Highway Commission as of the 22nd day of September, 1955.

EXHIBIT "I-1"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, Mrs. Winifred K. Morton, in memory of her late husband, Howard J. Morton, has given and donated to the people of the State of Oregon certain property on the bank of the McKenzie River to be used for park purposes and does propose to give and donate other property for this purpose; and

WHEREAS, during the lifetime of Howard J. Morton, he and the aforesaid Mrs. Winifred K. Morton, husband and wife, did enjoy and share together the scenic beauty of the McKenzie River and did also share a common purpose to perpetuate the natural beauty of certain forested property they owned on the bank of the McKenzie River and to contribute to the enjoyment and recreation of the people of the State of Oregon; and

WHEREAS, it is altogether fitting and proper that said property be designated and known as the Howard J. Morton Memorial State Park in the memory for which it was given; and

WHEREAS, under the provisions of law so authorizing the Oregon State Highway Commission does accept this gracious gift and on behalf of the people of the State of Oregon extend its gratitude and great appreciation;

NOW, THEREFORE, BE IT RESOLVED:

That the following described real property situate in Lane County, Oregon, be and the same hereby is designated as the Howard J. Morton Memorial State Park, to be henceforth maintained in its natural state and set aside for park purposes:

> A parcel of land lying in Lot 1, NW¼ of the NW¼ of Sec. 6, T 17 S, R 4 E, W.M. Lane County, Oregon, said parcel being that portion of said Lot 1 lying Northwesterly of the McKenzie Highway, containing 13.4 acres of land, more or less.

That such other property contiguous to the above described property which may be given and donated unto the people of the State of Oregon for park purposes by Mrs. Winifred K. Morton shall be added to and made a part of the Howard J. Morton Memorial State Park.

That Miscellaneous Resolution No. 125, recorded in the minutes and records of this Commission as of the 19th day of January, 1955, is hereby amended by adding to the list of State Parks the Howard J. Morton Memorial State Park.

EXHIBIT "I-1" (cont.)

That this Resolution be entered in the minutes and records of the Highway Commission this 22nd day of September, 1955 as Miscellaneous Resolution, File No. 125a.

2546

EXHIBIT "I-2"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, Mrs. Edith M. Bowman has given and donated to the people of the State of Oregon certain real property situated in the Pacific View area, south of Yaquina Bay in Lincoln County; and

WHEREAS, this Commission has long contemplated the creation of a state park in and about the Pacific View area section of Yaquina Bay in Lincoln County, which park would preserve in a natural state those ocean side lands so enhanced by the wild rhododendrons which grow in great profusion there, and which park would thereby contribute to the enjoyment and benefit of the people of the State of Oregon and the motoring public in general; and

WHEREAS, this property which Mrs. Edith M. Bowman has so graciously donated is excellently suited for park purposes because of its scenic beauty and does, in great part, make the creation of the aforementioned State Park more possible; and

WHEREAS, under the provisions of law so authorizing the Oregon State Highway Commission does accept this gracious gift, and on behalf of the people of Oregon extends its gratitude and great appreciation;

NOW, THEREFORE, BE IT RESOLVED:

That the following described real property situate in the Pacific View area, in Lincoln County, Oregon, donated and conveyed to the State of Oregon by Mrs. Edith M. Bowman by warranty deed on the 14th day of October, 1955, be and the same hereby is designated as a State Park:

> Lots 3, 4, 5 and 6 in Block 26 in Pacific View, according to the duly recorded plat thereof on file in the office of the County Clerk of Lincoln County, State of Oregon.

That Miscellanous Resolution No. 125 recorded in the minutes and records of this Commission as of the 19th day of January, 1955, is hereby amended by adding to the list of State Parks this State Park in the Pacific View area, Lincoln County.

That a copy of this resolution be sent to Mrs. Edith M. Bowman.

That this Resolution be entered in the minutes and records of the Highway Commission this 22nd day of September, 1955, as Miscellaneous Resolution, File No. 125b.

EXHIBIT "J-1"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS by the provisions of ORS 483.204, with respect to state highways, the State Highway Commission is authorized to designate main travelled or through highways by placing at the entrance thereto from intersecting highways, signs or markers notifying drivers of vehicles to stop before entering or crossing such designated highways, and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS by resolution adopted August 26, 1947, the Highway Commission declared the Woodburn-Estacada Secondary Highway, No. 161, between the Pacific Highway East junction near Woodburn at M.P. 0.00 and the Clackamas Secondary Highway Junction in Estacada at M.P. 34.19, to be a through highway and ordered that all traffic entering said highway from intersecting streets, roads and highways shall stop before entering said highway, except that vehicles travelling upon said highway shall be required to stop (a) before entering the Monitor-Barlow County Road intersection at M.P. 5.26 of said state highway, and (b) before entering the Cascade Secondary Highway intersection at M.P. 11.34, near the City of Molalla; and

WHEREAS on December 19, 1950, based upon a traffic engineering investigation and report, the Commission adopted a resolution requiring that vehicles on said Woodburn-Estacada Secondary Highway shall not be required to stop at said Monitor-Barlow County Road intersection, and that traffic on said Monitor-Barlow County Road shall be required to stop before entering the intersection with said Woodburn-Estacada Secondary Highway; and

WHEREAS subsequent traffic engineering investigation has revealed that traffic conditions at the intersection of the said Woodburn-Estacada Highway and the said Monitor-Barlow County Road have changed so that at the present time the amount of traffic on each road appears to be approximately equal; and

WHEREAS there have been a number of accidents at said intersection due to non-observance of the present stop signs; and

WHEREAS for the protection of the travelling public it is deemed advisable to make said intersection a four-way stop;

NOW, THEREFORE, based upon said traffic engineering investigation and report, and upon the recommendation of the State Highway Engineer, this Commission does hereby find, resolve and order as follows:

EXHIBIT "J-1" (cont.)

1. That so much of said resolution of December 19, 1950, allowing vehicles upon said Woodburn-Estacada Secondary Highway to proceed through the intersection with said Monitor-Barlow County Road at M.P. 5.26 of said state highway be and hereby is cancelled and rescinded, and that in all other respects said resolution of December 19, 1950, is hereby reaffirmed.

2. That all vehicles on the Woodburn-Estacada Secondary Highway, No. 161, and all vehicles on the Monitor-Barlow County Road shall come to a stop before entering the intersection of said highway and road at M.P. 5.26.

3. That the State Highway Engineer place, or cause to be placed, and thereafter maintain, or cause to be maintained, the necessary signs, markers and traffic signals to accomplish the traffic control and regulation contemplated by law and by this resolution. Such signs and traffic signals as may be erected pursuant to this resolution shall conform to the types and standards heretofore approved by this Commission.

4. That the State Highway Engineer install, or cause to be installed, at said intersection such signs, markers or traffic signals as will indicate or designate to all drivers of motor vehicles the place where the stop shall be made.

5. That this resolution be entered in the minutes and records of this Commission as of the 22nd day of September, 1955, as Through Highway Resolution No. 15-A, and a duly certified copy thereof be delivered to the Bureau of Public Roads, to the County Court of Clackamas County and to the Secretary of State.

EXHIBIT "J-2"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS by the provisions of ORS 483.204, with respect to state highways, the State Highway Commission is authorized to designate main travelled or through highways by placing at the entrances thereto from intersecting highways signs or markers notifying drivers of vehicles to stop before entering or crossing such designated highways, and the Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS on the twenty-first day of September, 1949, the Highway Commission adopted a resolution declaring several state highways and sections thereof to be through highways and instructing the State Highway Engineer to properly mark the same; and

WHEREAS by said resolution of September 21, 1949, the Highway Commission declared the Williams Secondary Highway, No. 261, between M.P. 0.00 at the junction of the Redwood Highway south of Grants Pass, and M.P. 23.13 at the end of the road south of Williams, to be a through highway, and ordered that all traffic entering said highway from intersecting streets, roads and highways shall come to a stop before entering said highway, except that southbound traffic on said Williams Highway shall stop at its intersection with the Medford-Provolt Highway, No. 272, in Provolt; and

WHEREAS by said resolution of September 21, 1949, the Highway Commission declared the Medford-Provolt Highway, No. 272, between M.P. 0.00 at the intersection with the Williams Highway in Provolt, and M.P. 25.42 at the intersection with the Pacific Highway in Medford, to be a through highway, and ordered that all traffic entering said highway from intersecting streets, roads and highways shall come to a stop before entering said highway, except that traffic on said Medford-Provolt Highway shall stop before entering the intersection with said Williams Highway; and

WHEREAS since the adoption of said resolution of September 21, 1949, a traffic engineering investigation and report has been made which discloses that traffic conditions have changed, and the State Highway Engineer has recommended that said resolution of September 21, 1949, be amended to accommodate said traffic changes;

NOW, THEREFORE, based upon said traffic engineering investigation and upon the recommendation of the State Highway Engineer, this Commission does hereby find, resolve and order as follows:

EXHIBIT "J-2"-Cont.

1. That so much of said resolution of September 21, 1949, pertaining to the Williams Highway, No. 261, be amended to read as follows:

Road No. 261 - Williams Highway

Between M.P. 0.00 at the junction with the Redwood Highway, No. 25, south of Grants Pass, and M.P. 23.13 at the end of the road south of Williams, except that northbound traffic on road No. 261, Williams Highway, shall stop at the junction with road No. 272, Medford-Provolt Highway, in Provolt.

2. That so much of said resolution of September 21, 1949, pertaining to the Medford-Provolt Highway, No. 272, be amended to read as follows:

Road No. 272 - Medford-Provolt Highway

Between M.P. 0.00 at the junction with the Williams Highway, No. 261, in Provolt, and M.P. 25.42 at the junction with the Pacific Highway in Medford, except that traffic on road No. 272 shall not stop before entering the junction with said Williams Highway.

3. That the State Highway Engineer place, or cause to be placed, and thereafter maintain, or cause to be maintained, the necessary signs and markers to accomplish the traffic control and regulation contemplated by law and by this resolution, and that said Engineer remove, or cause to be removed, such signs or markers as are inconsistent with this resolution. Such signs and markers as may be erected pursuant to this resolution shall conform to the types and standards heretofore approved by this Commission.

4. That the State Highway Engineer place, or cause to be placed, such signs or markers as shall indicate or designte to all drivers of motor vehicles entering said Williams Highway, Medford-Provolt Highway junction the place where the stop shall be made.

5. That this resolution be entered in the minutes and records of this Commission as of the 22nd day of September, 1955, as Through Highway Resolution No. 13-A, and a duly certified copy thereof be delivered to the Bureau of Public Roads, to the County Court of Josephine County and to the Secretary of State.

EXHIBIT "K"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of the parcel of land lying along and adjacent to the Banfield Expressway described as follows:

A parcel of land lying in Block 3, Woodland Park Addition to the City of Portland situated in Section 28, Township 1 North, Range 2 East, W. M., Multnomah County, Oregon, the said parcel being described as follows:

Beginning at the northeast corner of lot 27 of said Block 3; thence northwesterly 63 feet along the northeasterly line of said lot 27; thence southwesterly to a point on the line between lots 27 and 28 which point is 63 feet northwesterly of the northeast corner of said lot 28; thence southwesterly to a point on the line between lots 28 and 29 which point is 70 feet northwesterly of the northeast corner of said lot 29; thence southwesterly to a point on the line between lots 29 and 30 which point is 83 feet northwesterly of the northeast corner of said lot 30; thence southwesterly to a point on the line between lots 30 and 31 which point is 105 feet northwesterly of the northeast corner of said lot 31; thence southwesterly to a point on the line between lots 31 and 32 which point is 68 feet northwesterly of the northeast corner of said lot 32; thence southwesterly to a point on the south line of said lot 32 which point is 18 feet northwesterly of the southwest corner of said lot 32; thence southeasterly 18 feet to said southwest corner of lot 32; thence northeasterly along the easterly line of said Block 3 to the place of beginning, except a strip of land 5 feet in width lying southerly of and adjacent to the northeasterly line of said lot 27. Reserving to the State of Oregon an easement for the maintenance of the slopes, fences and other facilities over the northwesterly 8 feet of said parcel.
The parcel of land to which this description applies contains 23,000 square feet.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $18,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

EXHIBIT "K" (Cont)

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.070 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 162 be entered in the minutes and records of the Commission as of the 23rd day of September, 1955.

EXHIBIT "L"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, the Portland-Salem Expressway, Oregon No. 57 (US99), is a state highway under the jurisdiction and control of the State Highway Commission; and,

WHEREAS, under the provisions of ORS 483.532 the State Highway Commission, with respect to state highways, may impose limitations as to the gross weight of any vehicle or combination of vehicles, and may impose any other restrictions that, in the judgment of the State Highway Commission, are necessary to protect any highway or section thereof from being unduly damaged; and,

WHEREAS, said Portland-Salem Expressway has been opened to public travel, although portions thereof are only temporarily surfaced with an oil mat wearing surface; and,

WHEREAS, said temporary surface of said highway is not sufficiently strong to carry the weights of vehicles authorized by statute or permit.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission, all its members being present and voting affirmatively as follows:

1. The Portland-Salem Expressway between Milepost 19.07, which is the south bound junction of said highway with the Wilsonville-Hubbard Highway No. 51, and Milepost 43.17, which is the south end of the Hayesville interchange at North Salem, upon the posting of the signs hereinafter mentioned, shall be closed to the movement of all vehicles, or combination of vehicles, which have a gross weight exceeding ten thousand (10,000) pounds.

2. The State Highway Engineer shall erect and maintain signs giving notice to the public of this restriction at each end of the section to which this restriction applies and at such other places as may be necessary to inform the public. The gross weight restriction herein provided for shall become effective from the date the aforementioned signs are erected.

3. When the State Highway Engineer finds that the conditions necessitating this restriction as hereinabove recited cease to exist then the Highway Engineer shall remove the signs hereinabove provided for, and the weight restriction provided for herein shall cease and be of no effect.

4. That this resolution be entered into the Minutes of the Commission

as of the 23rd day of September, 1955, and that the original of this resolution be filed in the office of the State Highway Commission, and that a copy of this resolution be furnished to each of the following: The Superintendent of the State Police, and Public Utilities Commissioner, and the Secretary of State.

EXHIBIT "M-1"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "M-1" (Cont)

2. That the widening, improvement and maintenance of the said Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of September, 1955, as Condemnation Resolution No. 559.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 559, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-2"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to relocate, construct, improve and maintain the Dolph Corner-Rickreall Section of the Willamina-Salem Highway, and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Dolph Corner-Rickreall Section of the Willamina-Salem Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Willamina-Salem Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Dolph Corner-Rickreall Section of the Willamina-Salem Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said

parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of September, 1955, as Condemnation Resolution No. 560.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 560, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-3"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road,

EXHIBIT "M-3" (Cont)

may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper, and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction and maintenance of the said McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Three Mile Lane Secondary Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the establishment, construction and maintenance of the said McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the

EXHIBIT "M-3" (Cont)

Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of September, 1955, as Condemnation Resolution No. 619.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 619, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-4"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "M-4" (Cont)

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of September, 1955, as Condemnation Resolution No. 696.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 696, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-5"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road, or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light, and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Myrtle Creek-Canyonville Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved, and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement, and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, part of which is

EXHIBIT "M-5" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment, and maintenance of highways of the state highway system and the relocation construction, improvement, and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway as a throughway certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired, are more particularly described in the attached list marked Exhibit "A" under the name of the record owner or reputed owner, and the Commission's respective file number; and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation, construction, improvement, and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway and the highway facilities for which each of the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest; and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking;

EXHIBIT "M-5" (Cont)

and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of September, 1955, as Condemnation Resolution No. 731.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 731, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

25491

EXHIBIT "M-6"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve, construct and maintain the Willamette River (Springfield) Bridge Section of the McKenzie Highway; and

WHEREAS, for the purpose of widening, improving, constructing and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement, construction and maintenance of the said Willamette River (Springfield) Bridge Section of the McKenzie Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "M-6" (Cont)

2. That the widening, improvement, construction and maintenance of the said Willamette River (Springfield) Bridge Section of the said McKenzie Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of September, 1955, as Condemnation Resolution No. 732.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 732, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

2549

EXHIBIT "M-7"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Meacham-Hilgard Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "M-7" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Meacham-Hilgard Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the real property.

3. That the relocation, construction, improvement and maintenance of the said Meacham-Hilgard Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "M-7" (Cont)

5. That upon the trail of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of September, 1955, as Condemnation Resolution No. 734.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 734, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-8"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to State highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain Unit No. 2 of the T. H. Banfield Expressway, as a throughway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled.

EXHIBIT "M-8" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction and maintenance of Unit No. 2 of the T. H. Banfield Expressway as a throughway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said T. H. Banfield Expressway and all of the contiguous real property of the owners remaining after the appropriation of the said real property.

3. That the establishment, construction and maintenance of the said Unit No. 2 of the T. H. Banfield Expressway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of the said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of September, 1955, as Condemnation Resolution No. 754.

2549

EXHIBIT "M-9"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the South Sixth Street (Klamath Falls) Railroad Overcrossing Section of the Klamath Falls-Lakeview Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said South Sixth Street (Klamath Falls) Railroad Overcrossing Section of the Klamath Falls-Lakeview Highway, certain interests in or fee simple title to a certain parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which, in the best interests of the State and the owners, should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "M-9" (Cont)

2. That the relocation, construction, improvement and maintenance of the said South Sixth Street (Klamath Falls) Railroad Overcrossing Section of the Klamath Falls-Lakeview Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein

4. That upon the t rial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as, in his judgment, may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of September, 1955, as Condemnation Resolution No. 796.

---

*FOOTNOTE:

The name of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 796, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

25501

EXHIBIT "M-10"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutues, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the powe r of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Pacific Highway West; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "M-10" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Pacific Highway West, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and improved Pacific Highway West and all of the contiguous real property of the owners remaining after the appropriation of the said real property, except that there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the widening, improvement and maintenance of the said Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is

authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of September, 1955, as Condemnation Resolution No. 797.

---

*FOOTNOTE:

The name of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 797, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-11"

Minutes of September 22 and 23, 1955

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to relocate, construct, improve and maintain the Pendleton-Deadman's Pass Section of the Old Oregon Trail Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Pendleton-Deadman's Pass Section of the Old Oregon Trail Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Pendleton-Deadman's Pass Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required, and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said

parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of September, 1955, as Condemnation Resolution No. 848.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 848, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

Portland, Oregon
November 3, 1955

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Robert L. May, Jr., Assistant Chief Counsel
R. L. Porter, Right-of-Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary who then announced that the award of contracts would be made at 4:00 p.m., in the same room.

Parker-Schram Co., Portland	323,000.00

The Commission approved the minutes of the meetings held during inspection trips on June 13-17, 1955, and July 11-14, 1955, and also approved the minutes of the regular meeting held on August 11-12, 1955.

The State Parks Superintendent reported on the following State Park matters:

1. Request of Pilot Rock Lumber Company that property it is using as a logging camp on the Pendleton-John Day Highway about ten miles south of Ukiah, be conveyed to the Company by deed or permanent easement: The Parks Superintendent commented that this matter has been before the Commission several times, the last time being in April, 1954, when it was pointed out that the Company's existing lease does not expire until 1976, so in his estimation no emergency exists. The Commission at that time agreed that no action was necessary. The property has been appraised, he stated, at approximately $2,000 for the eight acres occupied by the logging camp. If this property is to be sold, bids would have to be received but the President of the Lumber Company is not interested in disposing of the matter in such manner. He recommended that the Commission's previous stand be confirmed. The Commission decided to stay with the present arrangement.

2. Continuation of use of the name "Jackson F. Kimball State Park" for the park site at the headwaters of the Wood River in Klamath County: This property, the Parks Superintendent stated, consists of a 20-acre tract secured from the State Board of Forestry and at the time of transfer bore the name "Jackson F. Kimball Park". He proposed that the same name be continued in honor of Mr. Kimball, an early-day timber man of that area, who was instrumental in furthering good timber practices, fire protection, and management of timber lands. The Commission approved the name "Jackson F. Kimball State Park" for this property, by adopting the attached resolution relative thereto marked EXHIBIT "J-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

3. Installation of a plaque honoring the late Elliott R. Corbett in the park area adjoining Blue Lake on the Santiam Highway, that was donated to the State by his parents, Mr. and Mrs. Henry L. Corbett: The Parks Superintendent recalled that this area was deeded to the State as a gift with the understanding that a plaque would be installed therein. He recommended approval of such a plaque with the following wording:

ELLIOTT R. CORBETT II
MEMORIAL STATE PARK

THIS AREA WAS GIVEN
TO THE STATE OF OREGON
FOR PARK PURPOSES
BY
MR. AND MRS. HENRY L. CORBETT
IN MEMORY OF THEIR SON
WHO GAVE HIS LIFE
IN THE SERVICE OF HIS COUNTRY

JUNE, 1953

The Commission approved the installation and the wording for the plaque as recommended.

4. Proposed park budget for the year 1956. This matter was discussed briefly but action was deferred until later in the session.

5. Report on State Parks Advisory Committee park inspection trip in California, October 8-9, 1955: The Parks Superintendent reported that Messrs. William Tugman, Chairman of the State Parks Advisory Committee; J. W. Forrester, Jr.; Ralph Cronise; Arden X. Pangborn; Frank Jenkins; and Herb Gray, all members of the Committee; M. K. McIver, State Highway Commissioner, L. V. Koons, Assistant State

Parks Superintendent, Otis V. Jensen, District Parks Supervisor, and himself visited 12 state parks along the northern coast of California, in company with California park officials. He pointed out that the concept under which the California parks are operated is considerably different than in Oregon as they follow along the plan or scheme of conservation in preserving large areas of timber lands, particularly redwood trees, while the parks policy in Oregon has been one of service to tourists and others visiting state parks. He also reported that, on October 14, 1955, following the trip, the Advisory Committee held a meeting in Portland at which time he gave the members an over-all picture of park problems, procedure, and organization. He presented a copy of the minutes of that meeting. The Commission accepted the report. Chairman Chandler and Commissioner Reynolds expressed their appreciation for Commissioner McIver and the others taking time off to make this trip.

6. Proposed park site at Coos Head, west of the City of Coos Bay: At the previous Commission meeting the Parks Superintendent recalled that he had been authorized to study this area which lies approximately 10.5 miles west of the City of Coos Bay and one-half mile west of the town of Charleston. The study, he stated, has been completed, indicating that the area will attract probably 75,000 visitors annually and that the cost to develop the area will be reasonable. It was found, however, that the U. S. Navy is contemplating installation of a military defense setup at this location. He recommended in view thereof that no action be taken by the Commission pending a decision by the U. S. Navy as to its plans in this area. The Commission accepted the recommendation and instructed the Park Superintendent to consult with Chairman Chandler before doing anything more with the project.

7. Establishment of a swimming area near the north end of Coffenbury Lake in Fort Stevens State Park: An area near the north end of the lake is utilized by swimmers, the Parks Superintendent stated, and for their protection boats should not be allowed to use that area. He presented a form of resolution setting aside an area near the north end, excluding boats from that area, and recommended that it be approved. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "J-2" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In this connection the Park Superintendent stated that there is some uncertainty as to the official name of this park. The area, he stated, is well known by reason of old Fort Stevens and it is commonly known by that name. He recommended that the park be named the "Fort Stevens State Park". The Commission approved the recommendation by adopting the attached resolution relative thereto, marked "EXHIBIT "J-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

8. Request of Lewis and Clark Sesquicentennial Committee that the park area along the Sandy River east of Troutdale be named "Lewis and Clark Park": The Parks Superintendent stated that it has been determined that Lewis and Clark on their trip down the Columbia River stopped at the mouth of the Sandy River and explored the River a few miles upstream. On their trip up the river, Lewis and Clark camped for several days on the north side of the Columbia River, opposite the mouth of the Sandy River, to secure meat for their return trip east. As there has been interest in naming the area in memory of Lewis and Clark, he recommended that the park be named "Lewis and Clark State Park" as requested by the Committee. The Commission approved the recommendation by adopting the attached resolution relative thereto marked "EXHIBIT J-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In reporting this matter the Park Superintendent commented that the deed transferring the property to the State contains provision that the property shall be used for park purposes only. He also said that there are no plans for development of the park in the year 1956.

9. The Parks Superintendent presented a report on his trip to the National Conference of State Parks near Stowe, Vermont, September 25-29, 1955. The meeting, he stated, was attended by some 140 people interested in park development, and only a few states were not represented. Discussions were held on management, financing, development, etc. He commented that the parks in Vermont are very nice and are particularly beautiful at this time of the year when there is an abundance of red and yellow foliage. The Commission accepted the report.

Chairman Chandler inquired as to whether or not the Lloyd Corporation has as yet donated to the State for park purposes an area situate between Geisel Monument and Wedderburn on the Oregon Coast Highway in Curry County. Commissioner McIver stated that the Corporation has requested that appraisals be made of the property. He inquired if they have been made. The State Parks Superintendent stated that the area has not yet been deeded to the State and that the results of the appraisals have not yet been received. The Commission instructed the Parks Superintendent to follow through on this matter at once as the area is an excellent one for state park purposes.

A report was submitted by the Parks Superintendent regarding progress that is being made in the acquisition of timbered areas in the Columbia Gorge: He said that negotiations are proceeding as rapidly as is possible but some owners do not wish to sell or trade, so efforts are being concentrated on those owners who have indicated a willingness to negotiate. He explained that the procedure being followed is for the State Right-of-Way man to make appraisals and then make offers to the owners. The negotiations, he said, are being conducted only for those properties which have been recommended for acquisition by the Columbia Gorge Commission. He added that the Right-of-Way Agent is working under his direction rather than under the direction of the Columbia Gorge Committee.

The Right-of-Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway improvements and for other purposes. After careful consideration of each item, the Commission unanimously approved the closing of the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

In discussing the options for real property, Chairman Chandler inquired as to the status of the survey for the proposed relocation of the Pacific Highway between Albany and Eugene. Mr. W. C. Williams, Deputy State Highway Engineer, replied that the relocated line is fairly well defined and maps have been prepared and sent to the several towns and cities which will be by-passed, showing the proposed route. At this date, he stated, none of these towns or cities have objected to the proposed route, however, it still will be necessary to conduct hearings under the federal law. He pointed out that it is contemplated to retain the existing Pacific Highway East through these towns but the relocated highway will by-pass all of the towns and cities between Albany and Eugene.

The Right-of-Way Engineer presented a list of properties required for highway construction and requested authority to negotiate for acquisition as no specific authority previously has been given by the Commission. The Commission gave the matter careful attention and, upon assurance by the Right-of-Way Engineer that all of the properties are needed for highway purposes, authorized negotiations to acquire them. There follows a list of the properties.

COUNTY and SECTION	FILE NO. and NAME	PUR-POSE	AREA	HIGH-WAY
Linn S.P. O'xing-Lane County Line	24184-Ropp, Sam & Aaron	Quarry	15.19 ac.	Pacific East
	24185-Ropp, D. F.	Right of way	1.41 ac.	Pacific East
Marion Mill City-Gates	24094-First National Bank of Portland	Right of way	0.82 ac.	North Santiam
	24095-Oregon Pulp and Paper Company	Right of way	0.41 ac.	North Santiam
	24096-Northern Lumber Company	Right of way	0.52 ac.	North Santiam
Polk County West Salem (Marion St. Bridge)	24195-Glenn O. Lewis	Right of way	0.09 ac.	Willamina-Salem

A report on the sale of miscellaneous properties as made by the Property Manager since the last Commission meeting was presented by the Right-of-Way Engineer and accepted by the Highway Commission.

(For details, see Miscellaneous Sales Report, dated November 3 and 4, 1955, in the Highway Commission files in Salem).

Sale of riparian rights along the Willamette River in Oregon City was discussed. The Right-of-Way Engineer explained that as previously authorized by the Commission a public sale of these rights was held on September 26, 1955 and that only one bid was received being that of the Crown Zellerbach Corporation in the sum of $10,000, which was the minimum amount which would be accepted. The Commission deferred action on the matter pending the appearance of a delegation on the following day. (Captain H. T. Shaver, appeared before the Commission on November 4. He stated that he and his associates have no objection to sale of the riparian rights to the Crown Zellerbach at the amount offered. The Commission thereupon approved the sale of the rights to such Corporation.)

Payment of damages to Mr. M. C. Fleming, for losses sustained to his grain crop resulting from operations of a survey crew on the 122nd Avenue Connection of the T. H. Banfield Expressway was discussed. The Right-of-Way Engineer explained that the claim was investigated and it was determined that damages in the amount of $60 had been suffered. He recommended payment of such amount to Mr. Fleming. The Commission accepted the recommendation.

Sale of Lots 5 and 6, Block 2, Elizabeth Addition to Mill City, to Mr. and Mrs. Adolph J. Brunner was presented by the Right-of-Way Engineer. He explained that these lots, which were formerly used as a stock pile site, are no longer needed for highway purposes; also, that the property was advertised for sale at a minimum price of $250 and that Mr. Brunner submitted a bid at such figure which was the only bid received. He recommended that the property be sold to Mr. Brunner at his bid price. The Commission approved the sale.

Consideration was given to granting a 10-year lease to Mr. Robert W. Marcum to use 3,719 square feet of excess right of way near the Providence Hospital on the T. H. Banfield Expressway in Portland. This property, the Right-of-Way Engineer explained, lies just east of N. E. 47th Avenue and is to be used only for the parking of cars. Mr. Marcum, he said, has agreed to pay $125 per year for use of the property and in addition thereto will pay all taxes that may be assessed against it during the period of the lease, November 1, 1955 to October 31, 1965. The Commission approved the lease.

Authority to sell at public sale a number of excess properties was requested by the Right-of-Way Engineer. He explained that these properties were acquired in connection with highway improvements but are no longer needed. The Commission authorized him to advertise the following properties for public sale by adopting the attached resolutions relative

thereto, marked EXHIBITS "B-1" through "B-6" , inclusive, which resolutions by this reference are made a part hereof, with like effect as though extended in full herein:

a. 12.2 acres on the Clackamas County Line-Hubbard Section of the Wilsonville-Hubbard Highway in Marion County (Files 3212, 3213 and 3214-A) for not less than $4,000. See EXHIBIT "B-1".

b. Approximately 2 acres on the Oregon Coast Highway at Shingle House Slough in Coos County (File 14944), minimum price $2,500. See EXHIBIT "B-2".

c. 0.4 acre on the Oregon Coast Highway in Newport, Lincoln County, (File 5166A), minimum price $5,000. See EXHIBIT "B-3".

d. 1.105 acres on Unit 2, T. H. Banfield Expressway (File 15797 to 15805), minimum price, $12,848.20. See EXHIBIT "B-4"

e. 0.158 acre on Unit 2 of the T. H. Banfield Expressway in Multnomah County (File 15796), minimum price $1,720. See EXHIBIT "B-5".

f. 175 acres on the Willamette River-Gervais Road Section of the Portland-Salem Expressway in Marion County (Files 20284, 20285 and 20639), minimum price $26,500. See EXHIBIT "B-6".

A number of changes in points of access to state highways were presented by the Right-of-Way Engineer who explained that in no instance is additional access being granted but there is involved simply a change in location of a previously approved access. Upon his favorable recommendation the Commission approved changes in access as follows:

a. Lloyd Corporation property on the Greggs Creek-Wedderburn Section of the Oregon Coast Highway in Curry County, File #21890.

b. Helen D. and T. V. Jones and George G. and Agnes D. Rausch properties on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County, Files #18491 and #19343.

c. Gerald W. and Ruth H. Jenkins property on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County, File #18715.

d. Toni W. and Martha E. Keto property on the Glendale Junction-Wolf Creek Section of the Pacific Highway in Josephine County, File # 12101.

e. Wilbur D. and Helen E. Converse property on the Glendale Junction-Wolf Creek Section of the Pacific Highway in Josephine County, File #12,100.

f. William N. and Sylvia D. Grahame property on the Glendale Junction-Wolf Creek Section of the Pacific Highway in Josephine County, File #12092.

g. Olive S. Kuhl property on the Glendale Junction-Wolf Creek Section of the Pacific Highway in Josephine County, File #12094.

h. Walter and Emilie Mosher property on the Glendale Junction-Wolf Creek Section of the Pacific Highway in Josephine County, File #12105.

i. Lucille and Raymond H. Stevens property on the Greggs Creek-Wedderburn Section of the Oregon Coast Highway in Curry County, File #22314.

j. Everett and Ora Fry property on the Dayville-Mt. Vernon Section of the John Day Highway in Grant County, File #20096.

k. James G. and Lura V. Carlton property on the Glendale Junction-Wolf Creek Section of the Pacific Highway in Josephine County, File # 12123.

l. Earl F. and Virginia I. Wead property, on the Glendale Junction-Wolf Creek Section of the Pacific Highway in Josephine County, File # 12122.

m. Magdalena Krause property on the Onion Flat-Middleton Unit of the Tigard-Newberg Section of the Pacific Highway West in Washington County, File #19695.

Authority was requested by the Right-of-Way Engineer for an expenditure of about $182 to repair a roof on the "Mansfield" rental property located on the Harbor Drive-City Limits Section of the Portland-Salem Expressway in Multnomah County, File #20664. He advised that this property is rented for a yearly consideration of $1,020 and indications are that such rental will continue for another 12 to 15 months. The Commission approved the expenditure as requested.

A grant of access to Martha J. and W. J. Inman on the Viento-Hood River Section of the Columbia River Highway in Hood River County was discussed. The Right-of-Way Engineer explained that the right of access applies only to the frontage road constructed or to be constructed along the northerly boundary of the highway right of way, and shall be unrestricted as to use. The Commission approved the grant of access on the Right-of-Way Engineer's favorable recommendation.

November 3, 1955

Also considered was a grant of access to Josephine County on and along the easterly right-of-way boundary of the relocated Glendale Junction-Wolf Creek Section of the Pacific Highway in Josephine County. The purpose of this access, the Right-of-Way Engineer stated, is to provide a connection of a county road with the relocated Pacific Highway, and is to confirm a previous action. He recommended that it be approved. The Commission accepted the recommendation.

Mr. R. N. Kellogg, Engineer representing the U. S. Bureau of Public Roads, was present and discussed with the Commission a proposed Program for the 1957 fiscal year Forest Highway Funds. The State Highway Engineer reviewed the situation briefly, pointing out that by failure of the Congress to appropriate funds it had been necessary to cancel $2,030,000 of forest highway projects. Subsequently, he said, additional Forest Highway Funds have been authorized in the amount of $3,245,500 which permits restoration of the canceled projects in the sum of $2,030,000 and provides $1,215,500 for additional projects, making available for programming a grand total of $3,245,500. He presented a list of projects to take up the total amount and advised that the suggested program was arranged as the result of mutual agreement with representatives of the Bureau of Public Roads and the U. S. Forest Service. He recommended approval of the program by the Commission. Mr. Kellogg explained further details. After due deliberation the Commission approved the projects as recommended, and thereupon signed the following letter dated October 6, 1955, addressed to the Chief, Forest Service, and the Commissioner of Public Roads, Washington, D. C., recommending adoption of the program as outlined:

DEPARTMENT OF COMMERCE
Bureau of Public Roads
Division Eight

08-00
486 Oregon General

Portland, Oregon
October 6, 1955

Chief, Forest Service,
Commissioner of Public Roads,
Washington, D. C.

Dear Sirs:

For the purpose of selecting projects to be recommended for inclusion in the 1957 fiscal year of Forest Highway Program, various conferences have been held and correspondence exchangeed between the Oregon State Highway Department, the U. S. Forest Service, and the Bureau of Public Roads. As a result of the above procedure and by mutual agreement, the following Forest Highway Program is recommended for adoption for the fiscal year 1957.

The following is a statement of the Forest Highway funds available for the 1957 fiscal year apportionment and from the unobligated balance of previous apportionments.

Funds Available:

Fiscal Year 1957 Apportionment	$3,098,378.00
Deduction for Washington Office Reserve 1957 Fiscal Year (10%)	- 309,838.00
Unused Prior Washington Office Reserve Returned for Programming	+ 199,655.00
Available from State Contingent	+ 360,000.00
Total Funds Available	$3,348,195.00

Deductions:

Reserve for 1957 Fiscal Year State Contingent	102,695.00
Total Available for Allocation	$3,245,500.00

Recommended Allocations to Projects 1957 Fiscal Year

Project & Acct. No.	Route Name and Type of Work	Length Miles	Recommended Allocation
3-A1 (3231-00)	Oregon Coast Highway Grading & Bridge Advance Clearing	2.15 3.90	$565,000
8-A3 (3232-00)	Umpqua Highway Grad. & Temp. Surf.	2.5	250,000
25-A11 (3233-00)	Mt. Hood Highway Grading	2.4	575,000
35-B5, G3 (3234-00)	John Day-Burns Highway Grad., Surf. & Bit. Surf.	9.0	445,000
36-B3 (3235-00)	John Day Highway Grad., Surf. & Bit. Surf.	4.52	373,500
43-C5 (3236-00)	Diamond Lake Highway Grad., Surf. & Paving	4.89	297,000
47-C3, E1 (3237-00)	North Umpqua Highway Surf. & Bit. Surf. Treat.	4.5	100,000

November 3, 1955

25522

Project & Acct. No.	Route Name and Type of Work	Length Miles	Recommended Allocation
47-F (3238-00)	North Umpqua Highway Advance Clearing	5.0	$ 90,000
51-B (3239-00)	Belknap Springs Hwy. (North End) Grading	4.7	350,000
(3240-00)	Location Survey Routes 3,7,8,10,17,25,26,31 35,36,43,46,47,51,52		100,000
(3241-00)	Maintenance		100,000
	Total		$3,245,500

Comments on Recommended Projects

Project 3-A1, Oregon Coast Highway, Grading & Bridge, 2.15 miles
Advance Clearing, 3.90 miles, $565,000

This project is the initial construction in the relocation of 11 miles of very substandard highway between Neskowin and the vicinity of Otis Junction, constructed in 1931-1934. The new location will be to the west and will reduce the mileage to approximately 6.5 miles and provides standard alignment, gradient and cross section. The immediate project provides for grading, bridge and advance clearing. The increasing traffic makes this improvement immediately necessary.

Project 8-A3, Umpqua Highway, Grad. & Temp. Surf., 2.5 miles, $250,000

Traffic has increased on this route to the extent that the existing road is inadequate. The recommended project contemplates the continuation of improvement easterly from the previous project 8-B2 for approximately 2.5 miles. The State has improved or is now improving that portion of the route westerly from project 8-B2. The recommended improvement contemplates grading plus such surfacing as will permit a temporary bituminous treatment. Pavement of this project and project 8-B2 will be accomplished under future programs.

Project 25-A11, Mt. Hood Highway, Grading, 2.4 miles, $575,000

This project continues the improvement from project 25-A10 westerly for a distance of 2.4 miles where it again connects with the existing road, from which point westerly the existing road is of much higher standard. The planned connection of project 25-A10 at its west end with the existing road involves a distinct hazard until the section to be graded under pro-

ject 25-All is also completed. The allocation of additional funds to this route is to expedite the completion of this important section.

Project 35-B5, G3, John Day-Burns Highway, Grad., Surf. & Bit. Surf., 9.0 miles, $445,000

Under previous projects this route has been improved northerly from a point approximately 9 miles north of Burns. The remaining 9 miles is substandard as to width and has deteriorated to such extent that improvement is necessary to accommodate traffic as well as avoid heavy maintenance. The proposed improvement contemplates widening, stabilizing, resurfacing and paving.

Project 36-B3, John Day Highway, Grad., Surf. & Bit. Surf., 4.52 miles, $373,500

By previous projects, both with State and Forest Highway funds, this project has been improved easterly from Prairie City. The proposed project, lying easterly from Forest Highway project 36-B2 to the east forest boundary, will complete reconstruction of the worst section of the route. Easterly from this project the alignment and gradient are reasonable but improvement of width and surfacing will no doubt be required later.

Project 43-C5, Diamond Lake Highway, Grad., Surf. & Paving, 4.89 miles, $297,000

This section was originally constructed to a narrow width, low standard road. Due to increases in traffic and in order to hold up under anticipated heavy logging traffic the Diamond Lake Highway will require widening and additional surfacing and bituminous surfacing. The State has improved the route to a point approximately 8 miles north of Union Creek-Park Junction and the proposed project will continue the improvement northerly approximately 4.89 miles. Further improvement of additional sections are contemplated under future programs.

Project 47-C3, E1, North Umpqua Highway, Surf. & Bit. Surf. Treatment, 4.5 miles, $100,000

This project provides for the surfacing and bituminous surface treatment of project 47-E, Unit 2 and project 47-C. This will continue a uniform road surface from the east end of project 47-A4, B7, C2, D4, at Steamboat Creek, for a distance of 4.5 miles to Panther Creek, at which point the Panther Creek logging road joins this highway.

Project 47-F, North Umpqua Highway, Advance Clearing, 5.0 miles, $ 90,000

Clearing and burning in the heavy timber along the North Umpqua involves a fire hazard during summer months and usually delays grading operations during that period. To avoid this delay and to permit the clearing to be largely accomplished during the less hazardous periods it is desired to perform the clearing as a separate project. The project extends easterly from project 47-E.

Project 51-B, Belknap Springs Highway (North End), Grading, 4.7 miles, $350,000

The work recommended under this project was deleted from project 51-A1, B programmed in the 1956 fiscal year. The mileage has been slightly decreased to stay within funds available. The grading will start at the junction of the South Santiam Highway and extend 4.7 miles in a southerly direction toward Clear Lake. Construction at the north end of the route is now desirable to accommodate logging operations contemplated in that area.

Lump Fund Survey -The $100,000 herein recommended is to finance field surveys, design and plans for the recommended projects as well as for other projects previously approved, and for new surveys recommended herein.

Lump Fund Maintenance-The $100,000 recommended is to finance the obligations of the government for maintenance of completed projects for one or two years following completion of construction.

Very truly yours,

/s/ F. E. Andrews
F. E. ANDREWS
Division Engineer.

U. S. FOREST SERVICE, REGION 6

/s/ C. E. Remington
For Regional Forester

Approved:

Acting Deputy Commissioner Date
For Commissioner of Public Roads

Approved:

Acting Chief, Forest Service Date

The Right-of-Way Engineer requested authority to spend not to exceed $1,500 to develop a new water source for property purchased on Illahee School-Jefferson Junction Section of the Pacific Highway in Marion County. This property, he stated, is rented at present for $150 per month but the water supply has become inadequate. It was his feeling that due to the rental value of the property the expenditure for securing a new water supply is justified. The Commission authorized the expenditure.

Consideration was given by the Commission to granting an additional residential and farm access to Margaret Masson on the Dayville-Mt. Vernon Section of the John Day Highway in Grant County to facilitate the handling of cattle by truck. The Right-of-Way Engineer explained that the present access is not adequate to take care of the situation and he recommended the granting of the extra access. He added that it was originally intended to grant two accesses at this point but the extra one was overlooked in preparing the papers. The Commission approved the additional access for farm use only.

Attention was given by the Commission to the matter of compensating the State Board of Forestry for timber removed from the right of way of the Bradley Park-Wauna Section of the Columbia River Highway in Clatsop County. The Right-of-Way Engineer explained that under the Board of Forestry regulations, the Board cannot sell the logs directly to a contractor; also, that the value of the timber has been determined at $588.38 and the contractor has deposited with the State that amount, with the understanding that the State will purchase the timber from the Board of Forestry. Under the terms of the contract, he said, the contractor was obliged to cut the timber and place it along the edge of the right of way. The Commission authorized purchase of the timber at the price quoted and accepted the sum of $588.38 deposited by the contractor as reimbursement for the expenditure.

The matter of granting to the U. S. Forest Service access to the Meacham-Glover Section of the Old Oregon Trail Highway in Umatilla County was discussed. The Right-of-Way Engineer explained that the U. S. Forest Service in its "Special Use Permit" authorizing construction of the highway across National Forest land retained the right of access to the highway as well as the mineral rights. This undesirable feature was called to the attention of the forest officials who agreed to amend the permit by adding a clause waiving all rights of access to the highway except as may be necessary to manage the forest area and the timber and mineral resources originating on the abutting land. He presented the proposed amendment and recommended its approval. The Commission approved the amendment as prepared.

The meeting recessed for luncheon at 12:00M and reconvened at 2:00 p.m. in the same room with the same persons present and participating.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution, dated December 20, 1951:

Coquille-Rink Creek Section of the Coos Bay-Roseburg Highway

Right of Way maps, construction plans and other data were submitted to the Commission, and the Engineer advised that the acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Chief Counsel's request by adopting the attached resolutions relative thereto, marked EXHIBITS "O-1" through "O- 12", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Chief Counsel presented and the Commission accepted a report of cases which have been tried in court from September 19 to October 31, 1955 as follows:

REPORT OF CONDEMNATION CASES TRIED SEPTEMBER 19 TO OCTOBER 31, 1955

Case	County	Highway	Section	State's Offer	Defendant's Demands	Verdict
Kate Bailey R-21895	Curry	Oregon Coast	Euchre Creek-Wedderburn	$11,888	$27,000	$22,000

November 3, 1955

REPORT OF CONDEMNATION CASES TRIED (CONT)

Case	County	Highway	Section	State's Offer	Defendant's Demands	Verdict
Abner Rice R-21060	Douglas	Pacific	Shady Point-Booth Ranch	$5,858	$ 7,500	$ 6,000
Alsea Hawley R-21491	Lane	Pacific	Goshen-Divide	13,500	42,500	22,000

(For details, see copy of the Chief Counsel's report to the Commission, dated October 31, 1955 in General Files).

Also accepted by the Commission was the Chief Counsel's report of other cases which have been brought to trial, as follows:

REPORT OF TRIAL OF OTHER CASES

Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict or Judgment
L-2390	Ballard	State Highway Commission	Marion	Loss of wages due to blasting damage near Swisshome	$ 9,325.40	Demurrer of State sustained
L-2355	Green	State Highway Commission	Douglas	Damages for change of grade of highway	2,500.00	Involuntary non-suit.

(Note: For details see copy of the Chief Counsel's written report to the Commission, dated October 31, 1955 in General Files).

The Commission approved the Chief Counsel's report of cases that have been settled out of court since the last meeting, as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-21878 Strandberg	Clackamas	Cascade Secondary	S.E. Flavel St.-Lake Road	$2,425.00	$7,625.00

November 3, 1955

REPORT OF CONDEMNATION CASES SETTLED (CONT)

Case	County	Highway	Section	State's Offer	Amount of Settlement
R-23286 Koons	Josephine	Pacific	Jump Off Joe Creek-Grants Pass	$ 215.00	$ 250.00

REPORT OF OTHER CASES SETTLED

Case Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Settlement
L-2389	State Highway Commission	Greene, et al	Marion	Damages resulting from automobile accident	$1,365.37	$690.33

(Note: For details, see the Chief Counsel's letters to the Commission, dated October 31 and November 2, 1955, in General Files).

The Chief Counsel presented and the Commission accepted offers as follows for the acquisition of real property, which offers were tendered to the owners of the properties prior to the institution of condemnation proceedings in accordance with authority granted by the Commission on December 20, 1951.

Dolph Corner-Rickreall Section of the Willamina-Salem Highway:

R-18155-Ross A. Simpson, et ux. 9.80 acres for right of way purposes. Offer of $4,500 approved by Mr. McIver October 3, 1955.

R-18156-David D. Peters, et al. 4.17 acres for right of way purposes. Offer of $3,875 approved by Mr. McIver October 3, 1955.

R-18157-Tina Linda Peters, et vir. 2.1 acres for right of way purposes. Offer of $585 approved by Mr. McIver October 3, 1955.

R-18159-Isaac Reimer, et al. 4.82 acres for right of way purposes. Offer of $2,500 approved by Mr. McIver October 6, 1955.

R-18160-Laura M. Garrard, et al. 7.3 acres for right of way purposes. Offer of $3,500 approved by Mr. McIver October 6, 1955.

R-18162-Stella Haslebacher, et al. 5.15 acres for right of way purposes. Offer of $2,450 approved by Mr. McIver October 3, 1955.

R-18164-Howard B. Fleming, et ux. 4.06 acres for right of way purposes. Offer of $2,000 approved by Mr. McIver October 6, 1955.

R-18165-Albert R. Cadle, et ux. 3.2 acres for right of way purposes. Offer of $1,425 approved by Mr. McIver October 6, 1955.

R-18166-Elsie M. Monson, et al. 3.02 acres for right of way purposes. Offer of $1,600 approved by Mr. McIver October 3, 1955.

November 3, 1955

Dolph Corner-Rickreall Section of the Willamina-Salem Highway (Cont)

R-18167-Anna Ryan, et al. 2.55 acres for right of way purposes. Offer of $1,350 approved by Mr. McIver October 6, 1955.

R-18168-Mary Burch, et al. 4.55 acres for right of way purposes. Offer of $7,625 approved by Mr. Reynolds October 14, 1955.

R-23787-Herman P. Gillam, et al. 2.30 acres for right of way purposes. Offer of $400 approved by Mr. McIver October 3, 1955.

Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway

R-23159-Jewish Home for the Aged. 0.15 acres for right of way purposes. Offer of $650 approved by Mr. Reynolds October 24, 1955.

R-23163-Albert Streiff, et ux. 0.23 acre for right of way purposes. Offer of $1,250 approved by Mr. Reynolds October 24, 1955.

R-23165-Albert C. Suratt, et ux. 0.046 acre for right of way purposes. Offer of $200 approved by Mr. Reynolds October 24, 1955.

R-23169-Harold C. Van Alstein, et ux. 0.069 acre for right of way purposes. Offer of $350 approved by Mr. Reynolds October 24, 1955.

R-23171-Bertha Rogers. 0.132 acre for right of way purposes. Offer of $11,750 approved by Mr. Reynolds October 24, 1955.

R-23173-Eva Zurbuchen. 0.17 acre for right of way purposes. Offer of $8,000 approved by Mr. Reynolds October 24, 1955.

R-23174-Glenn E. Park, et al. 0.05 acre for right of way purposes. Offer of $700 approved by Mr. Reynolds October 24, 1955.

R-23175-Ralph L. Blachly, et ux. 0.018 acre for right of way purposes. Offer of $250 approved by Mr. Reynolds October 24, 1955.

R-23178-Jane Bennett Bertz. 0.046 acre for right of way purposes. Offer of $250 approved by Mr. Reynolds October 28, 1955.

R-23181-Cecil A. Holcomb, et al. 0.115 acre for right of way purposes and 0.03 for easement for channel change. Offer of $250 approved by Mr. Reynolds October 28, 1955.

R-23186-Earl S. Briggs, et al. 0.15 acre for right of way purposes. Offer of $5,500 approved by Mr. Reynolds October 24, 1955.

R-23202-Gunda K. Jensen. 0.05 acre for right of way purposes. Offer of $200 approved by Mr. Reynolds November 1, 1955.

Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway (Cont)

R-23659-William H. Rogers, et al. 0.08 acre for right of way purposes. Offer of $210 approved by Mr. Reynolds October 28, 1955.

Myrtle Creek-Canyonville Section of the Pacific Highway:

R-23735-Joseph E. Fitzpatrick, et al. 95 acres for right of way purposes. Offer of $43,500 approved by Mr. Reynolds November 1, 1955.

R-23739-Arthur R. Holder, et al. 5.08 acres for right of way purposes. Offer of $17,000 approved by Mr. Reynolds October 14, 1955.

R-23755-Clem Tavenner, et al. 9.79 acres for right of way purposes. Offer of $6,600 approved by Mr. Reynolds October 24, 1955.

R-23756-Jimmie H. Juhl, et al. 0.42 acre for right of way purposes. Offer of $750 approved by Mr. Reynolds October 24, 1955.

R-23757-Herbert F. Juhl, et al. 0.42 acre for right of way purposes. Offer of $2,300 approved by Mr. Reynolds October 14, 1955.

R-23758-Huron W. Clough, et al. 17.47 acres for right of way purposes. Offer of $13,975 approved by Mr. Reynolds October 24, 1955.

McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway:

R-23435-Lioen Phelps, et ux. Offer of $15,450 approved by Mr. Reynolds October 28, 1955, for five parcels of real property.

R-23436-Delton A. Magness, et al. 4.4 acres for right of way purposes. Offer of $4,000 approved by Mr. McIver October 6, 1955.

Harper Junction-Vale Section of the Central Oregon Highway:

R-23443-Blair Barnes, et ux. 4.10 acres for acquisition of road-building materials. Offer of $675 approved by Mr. Reynolds October 24, 1955.

Unit No. 2 of the T. H. Banfield Expressway:

R-23856-James Arthur Lyons, Jr., et al. 1.66 acres for right of way purposes. Offer of $75,850 approved by Mr. Reynolds October 20, 1955.

Willamette Junction-Diamond Lake Junction Section of The Dalles-California Highway:

R-24098-Delford Lang. 2.97 acres for right of way purposes. Offer of $1,785 approved by Mr. McIver October 3, 1955.

Hillsboro-One-Way Street Section of the Tualatin Valley Highway:

R-23841-O. E. Schwab, et al. 302 square feet for right of way purposes. Offer of $7,000 approved by Mr. Reynolds October 24, 1955.

Washburn-North Plains Section of the Wilson River Highway:

R-22910-James L. Chapman, et al. 0.01 acre for right of way purposes. Offer of $125, plus interest at the rate of 6% per annum from August 20, 1954, the date the State acquired possession of the real property, approved by Mr. Reynolds October 20, 1955.

The Commission accepted a report presented by the Chief Counsel on matters that have been before the Public Utilities Commissioner, as follows:

PUX 129: South Sixth Street Overcrossing in Klamath Falls. For construction of a new four-lane overcrossing structure adjacent to the existing structure and for removal of the existing structure. The State is to construct the new structure and Southern Pacific Company does not participate in the cost. Cost of removing the existing structure and the salvage value therefrom will be shared equally by the State and Southern Pacific Company.

PUX 133 Undercrossing of tracks of Oregon-Washington Railroad & Navigation Company, Union Pacific Railroad Company, Lessee, near Hinkle Station, on the Hermiston Secondary Highway in Umatilla County. The project involves reconstruction of a section of the existing highway and the lengthening of the railroad span to provide a more adequate highway roadbed width. The project is being financed from State and Federal funds, except as to additional length of abutments which the Railroad Companies desire to provide for a possible future track. The State will be reimbursed for the cost of such additional abutment lengths, plus a prorated share of engineering costs.

PUX 137: Crossing at grade with the relocated tracks of Oregon-Washington Railroad & Navigation Company, Union Pacific Company, at or near Celilo Station, in Wasco County. The only interest of the Highway Commission is in respect to the intersection of the roadway with the revised location of the Columbia River Highway. This intersection has been in place for some time and has been considered satisfactory.

PUX 139: Two crossings of the tracks and right of way of Southern Pacific Company in the City of Gates in Marion County. This application was filed by the City of Gates and proposed two new crossings

at grade of the tracks of the Southern Pacific Company. The interest of the Highway Commission is that the crossings will involve two new intersections with the North Santiam Highway but no objection was filed for the reason that the crossings will be within city limits and will be constructed and maintained in a manner satisfactory to the State.

PUX 146: Helix grade crossing of tracks and right of way of Northern Pacific Railway Company on the Helix-Van Sycle County Road in Umatilla County. The petition in this matter was filed by Umatilla County. The alignment of the survey made by the County, particularly at the site of crossing, was not acceptable as the angle of intersection was too small and the grade crossing would be inherently dangerous. The application was dismissed, a new survey made and a new application is to be filed conforming to the revised conditions.

(For details see copy of written report dated November 1, 1955 in General Files).

The Commission gave consideration to an offer made by the New Amsterdam Casualty Company to pay the sum of $10,000 as settlement in full of the State's claim against Leo G. Brownley for damaging the Siletz River Bridge on the Siletz Secondary Highway. The Chief Counsel explained that on May 6, 1955, the bridge, which is located at M.P. 24.6, was extensively damaged when a load of logs fell on the span. The total damage, based on the replacement cost and remaining life of the old bridge plus the cost of erecting, dismantling, and depreciation on a Bailey bridge, has been computed at $42,375.70. Negotiations with the Insurance Company, he stated, have produced an offer from the Company to pay the full $10,000 property damage liability carried on Mr. Brownley's policy, provided the Insurance Company will not have to defend any legal action. As expert opinion could be presented to the effect that there was no negligence on the part of the person who loaded the logs, there would, therefore, be no possibility of collecting from anyone but the operator of the log truck. He also pointed out that it appears unlikely that any sum could be collected from either Mr. Brownley, the owner of the truck, or Mr. John King, the driver. He recommended that the Insurance Company's offer be accepted. The Commission approved the recommendation.

The Chief Counsel presented a report of cases, other than condemnation, that were tried during the period from September 1, 1954 to June 30, 1955. The Commission accepted the report, as follows:

REPORT OF TRIALS OTHER THAN CONDEMNATION

Legal File	Title of Case	County or Court	Date of Trial	Cause of Action and Plaintiffs' Demands	Verdict, Judgment, or Decree
L-2235	Harry Perkins vs. State of Oregon	Clackamas	9-10-54	Suit to set aside deed	Deed set aside

REPORT OF TRIALS OTHER THAN CONDEMNATION(CONT)

Legal File	Title of Case	County or Court	Date of Trial	Cause of Action and Plaintiffs' Demands	Verdict, Judgment, or Decree
L-2288	State of Oregon vs. John P. Fay	Harney	11-5-54	Specific Performance of Option	Specific Performance Not Ordered
L-2177	Robert C. Bishop vs. State of Oregon	Marion	10-19, 20, 21, 22, 23-54	Damages of $70,000.00 for change of grade	$20,250.00
L-2153	Morris Klorfein vs. State of Oregon	Marion	5, 11, 12, 13-55	Damages of $30,000 for change of grade	$ 2,000.00
L-2087	State of Oregon vs. Paul W. Ronsom and Ronald E. Land	Marion	3-2-55	Action for damages for $64.73 for automobile accident	119.91
L-2173	Abe L. Steinbock vs. State of Oregon	Marion	10-22, 23, 25, 26-54	Damages of $12,000.00 for change of grade	4,000.00
L-2295	State of Oregon vs. James F. Thrasher	Marion	6-16-55	Action for damages for $75.13 for automobile accident	110.13
L-2157	Claire Edward Weaver vs. State of Oregon	Marion	9-1, 2-54	Damages of $18,000.00 for change of grade	4,000.00
L-1851	Peninsula Drainage District No. 2 vs. City of Portland and State of Oregon	Multnomah	6-10-54	Foreclosure of local assessment lien	Foreclosure not allowed
L-2356	C. J. Eldon vs. State of Oregon	Yamhill	5-18-55	Suit to increase Engineer's estimate in contract by $6,283.14	Engineer's estimate increased by $7,762.80

November 3, 1955

REPORT OF TRIALS OTHER THAN CONDEMNATION (CONT)

Legal File	Title of Case	County or Court	Date of Trial	Cause of Action and Plaintiffs' Demands	Verdict, Judgment, or Decree
L-2294	State of Oregon vs. E. J. Munson	Yamhill	2-2-55	Action for Damages for $928.50 for timber trespass	$ 928.50
L-1825A	August DePhillips vs. State of Oregon	Supreme Court	Hearing 2-16-55	Damages of $51,000.00 for change of grade	Judgment allowing no damages affirmed
L-1740A	C. J. Eldon vs. Ben R. Chandler, et al.	Supreme Court	Hearing 10-13-54	Suit to increase Engineer's estimate in contract by $2,286.58	Engineer's estimate increased by $1,730.63
L-1744A	State of Oregon vs. State Construction Company	Supreme Court	Hearing 1-25-55	Action to recover from bid bond in amount of $8,634.95	Judgment allowing no recovery affirmed
L-2149	United States of America vs. Andrew J. Gray, et al and State of Oregon	U. S. District Court	4-19-54	Foreclosure of federal tax liens	Foreclosure allowed

(Note: For details, see copy of the Chief Counsel's letter to the Commission, dated October 18, 1955, in General Files).

A request was made by the Chief Counsel that the resolution, adopted by the Commission on January 18, 1955, concerning the sale and disposition of personal property and the rental and issuance of land use permits, be amended to increase the allowable expenditure for maintaining or repairing any building or structure without prior Commission approval from $150 to $500. As a result of discussion, the Commission decided not to change to original resolution, it being considered advisable to have such items of expense come before the Commission as they arise so each can be analyzed as to whether the property should be retained or sold.

Institution of legal proceedings against the Evans Lumber Company and others for damages for the cutting of timber in Silver Falls State Park was presented by the Chief Counsel. He explained that during the summer

and fall of the year 1949, 307 trees containing approximately 138,000 Board feet were cut in this park and that the estimated value of the timber is $1,104. The cutting of these trees, he said, was an unauthorized trespass, and he recommended that legal proceedings be instituted against Mr. William Evans, the Evans Lumber Company, and any other appropriate parties for the purpose of recovering damages suffered by the State. The Commission approved the recommendation.

Abandonment of a claim against Mr. Dan Dite, Pendleton, for damaging a state vehicle was reported by the Chief Counsel. He explained that on May 26, 1955, a state pickup truck was involved in an accident with a truck driven by Mr. Dite on S. W. Emigrant Street in Pendleton and subsequent investigation disclosed that the driver of the state vehicle may have been at fault. Mr. Dite's insurance company, he said, has denied the claim and, as there appears to be very little legal basis to collect the claim, he recommended that it be abandoned. The Commission accepted the report.

Confirmation of the employment of Robert P. Amacher as Assistant Attorney at a salary of $426 per month was requested by the Chief Counsel. Mr. Amacher, he stated, was admitted to the Oregon State Bar in 1954 and commenced work for the Highway Department on October 20, 1955. He also reported that Mr. Owen McAdams, Attorney, has tendered his resignation, effective November 15, to accept an appointment as Assistant Attorney with the State Industrial Accident Commission. The Commission approved the employment of Mr. Amacher at the salary mentioned.

Out-of-state travel authorization for Mr. Gerald Harrington, Right of Way Agent, was also requested by the Chief Counsel. He explained that Mr. Harrington, who has been active in the affairs of the American Right of Way Association has been asked to assist in installing new chapters of the Association in Chicago, Indianapolis, Columbus, and Harrisburg, and that his travel expenses will be paid by the American Right of Way Association. The Commission approved Mr. Harrington's absence from October 29 to November 6, 1955 and payment of his regular salary while he is gone.

The Chief Counsel brought up for discussion a proposed settlement with Mr. and Mrs. Charles McKenzie involving a cash payment of $340 in lieu of the performance of certain obligations under an option for purchase of real property needed for the improvement of the Siletz Bay-Newport Section of the Oregon Coast Highway. The Chief Counsel explained that the option which was accepted by the Commission in 1940, provided that the State would pay the owner, Siletz Investment Co., the sum of $2,556 and would install two 2" water mains across the right of way for its convenience. The consideration, he said, was paid, but installation of the water mains was deferred until widening and improving the highway actually commenced. Mr. and Mrs. McKenzie who have succeeded to the interests of the Company now have agreed to accept the sum of $340 in lieu of the water mains. In order to perform the option's obligation, he said,

the State would be required to purchase approximately 600 feet of 2" water main, which would cost approximately $342. He recommended approval of the cash settlement. The Commission adopted the recommendation.

A report on State properties that are rented to private parties was presented by the Chief Counsel in compliance with a previous request from the Commission. He advised that reports hereafter will be limited to those properties which have been rented or with respect to which the rental status has been changed since the filing of the previous report. The Commission accepted the report and approved the form of future reports.

(Note: For details concerning the report of rental property, see the Chief Counsel's letter of November 1, 1955, to which is attached a list of properties, in the General Files).

The Engineer reported that as previously authorized by the Commission, he has awarded contracts, as follows, that were referred to him to award when certain conditions were satisfied:

1. Grading and surfacing the Coast Highway-Forest Boundary Section of Elk River County Road and Bandon-Port Orford Rock Production Project on Oregon Coast Highway, Curry and Coos Counties. Bids received August 12, 1955. Conditions of award satisfied September 23, 1955. Calkins Crushing Company, Oceanlake, contractor.

2. Grading and oiling Odell Junction-Dukes Valley Junction Section of Straight County Road, Hood River County. Bids received September 23, 1955. Conditions of award satisfied September 29, 1955. Babler Bros., Inc., Portland, contractor.

3. Grading Meacham-Glover Section of Old Oregon Trail Highway, Umatilla and Union Counties. Bids received September 22, 1955. Conditions of award satisfied October 3, 1955. Rogers Construction, Inc., Portland, contractor.

4. Grading and surfacing highway roadbed and construction of Yokum Bridge over Cow Creek, north of Canyonville, Douglas County. Bids received September 23, 1955. Conditions of award satisfied October 4, 1955. Tom Lillebo, Reedsport, contractor.

5. Divide-Rice Hill Fencing Project on Pacific Highway, Douglas County. Bids received September 22, 1955. Conditions of award satisfied October 12, 1955. Robinson and Robinson, Moses Lake, Washington, contractor.

6. Paving Fairfield Junction-Hopmere Section of North River County Road, Marion County. Bids received September 22, 1955. Conditions of award satisfied October 12, 1955. Porter W. Yett, Portland, contractor.

7. Grading and paving Hillsboro Section of Tualatin Valley Highway, Washington County. Bids received August 11, 1955. Conditions of award satisfied October 14, 1955. Rogers Construction Company, Portland, contractor.

8. Grading and paving and construction of reinforced concrete bridge on Banks Interchange Section of Nehalem Secondary Highway, Washington County. Bids received September 23, 1955. Conditions of award satisfied October 20, 1955. Rogers Construction Company, Portland, contractor.

9. Grading and paving and construction of reinforced concrete bridge on Havana Section of Havana-Helix Secondary Highway, Umatilla County. Bids received September 23, 1955. Conditions of award satisfied October 20, 1955. Arthur Simonsen & Co., Baker, contractor.

10. Grading and paving Olds Ferry-Ontario Section of Old Oregon Trail Highway, Malheur County. Bids received September 22, 1955. Conditions of award satisfied October 24, 1955. Rogers Construction Co., Portland, contractor.

11. Construction of concrete viaduct over Southern Pacific Company tracks near Divide on Pacific Highway, Lane County. Bids received September 22, 1955. Conditions of award satisfied October 26, 1955. Hamilton & Thoms, Eugene, contractor.

12. Grading Hellgate Canyon Section of Galice County Road, Josephine County. Bids received September 23, 1955. Conditions of award satisfied October 28, 1955. Allum Bros., Eugene, contractor.

13. Construction of 33rd Avenue Undercrossing of Banfield Expressway, Multnomah County. Bids received September 23, 1955. Conditions of award satisfied November 2, 1955. Gibbons and Reed, Portland, contractor.

The Commission approved the report.

A report was also presented by the Engineer on the results of a reconnaissance survey to determine the feasibility of utilizing the old right of way of the Portland Traction Company as a route for the Clackamas State Secondary Highway between Barton and Estacada, a distance of approximately 13½ miles. The Portland Traction Company, he stated, has

indicated that it has no intention of abandoning the railroad. He further stated that it will cost about $1,448,400 to modernize the existing route over the 18.10-mile section of which amount right of way is estimated to cost approximately $343,400. The improvement would show a benefit quotient of approximately 2.4, but as there are no funds available to finance the improvement, he recommended against rebuilding the highway at this time. He pointed out that there still exists the possibility that the railroad company will abandon its right of way which then could be acquired for highway purposes. The alignment, he added, is excellent and the cost to construct a highway on it will be much less than modernizing the existing road. In view of these facts Commissioner McIver inquired if it might not be wise to make minimum expenditures on the existing highway. The Engineer replied that in his judgment no more should be spent than is necessary for the safety of the traveling public. The Commission accepted the report.

Consideration was given to a request from the Greyhound Corporation for a permit allowing 40-foot scenicruiser busses to operate over the La Grande-North Powder Secondary Highway, which is the old route of US30. The Engineer advised that a test run was observed and that the equipment was not able to stay on its own side of the highway when traveling southbound at the northerly approach to the Telocaset Overcrossing. He recommended that the request be denied until such time as the roadway is widened at the overcrossing. The Commission adopted the recommendation.

Also considered was a report by the Engineer on the use of prefabricated sections for construction of houses at isolated maintenance headquarters locations. The Engineer commented that this matter was investigated carefully and it appears that use of prefabricated sections will not be as practical as building the houses or cottages in place. He pointed out that usually only one building is constructed in any one location and that there are very few locations where the requirements are the same. Also, it would be necessary to haul the prefabricated sections over state highways where the width and height of loads are limited. He also stated that there appears to be no saving in cost in structures of comparable quality. The Commission accepted the report.

As previously requested by the Commission, the Engineer submitted a written report prepared by Mr. W. C. Williams, Deputy Highway Engineer, concerning the trip to Los Angeles, September 26-28, 1955, by Mr. Forrest Cooper, Mr. D. J. Barbee and Mr. W. C. Williams, to attend the regional meeting of the AASHO Committee on Design. He pointed out briefly that many points of interest in highway and bridge structures had been observed as well as the traffic pattern on the Hollywood Freeway, and notes had been made concerning advantages and defects on the projects viewed. In comparison with other states, it was his opinion that planning, design and construction procedures in Oregon are at least equal to, or in some cases superior to the other western states. The Commission accepted the report.

The matter of improving the Richardson-Eugene Secondary Highway in the vicinity of Walton was discussed. The Engineer recalled previous requests for this improvement and that the Commission authorized an experiment with calcium chloride on a section of the road. The people who use the road, he said, are not satisfied with the calcium chloride treatment because of the possibility of corrosion on the undercarriages of automotive vehicles, and they continue to urge construction of an oil surface between Walton and Noti, a distance of approximately 9 miles. He pointed out that in the 1957 Federal Aid Program, there is an approved project in the amount of $200,000 to grade the Richardson-Siuslaw River Section which is the most westerly portion of the highway and carries the least traffic. He recommended that this $200,000 be transferred to the Walton-Noti Section and that an additional $100,000 be taken from the Division No. 3 reserve, making a total of $300,000, to finance the regrading, surfacing, and placing of an oil mat surface treatment on the Walton-Noti Section. The Commission approved the project as recommended.

The Engineer presented his report concerning a request from the Coquille Chamber of Commerce Highway Committee for more adequate turn-outs for trucks on the Oregon Coast and Coos Bay-Roseburg Highways. This matter, the Engineer stated, was carefully investigated and it was determined that the Committee really wants climbing lanes constructed at three locations on the Oregon Coast Highway:

1. At Elk River from MP 314.9 to MP 315.6, about 4 miles north of Port Orford.

2. At Sixes River from MP 312.6 to MP 313.3, about 7 miles north of Port Orford.

3. At Four Mile Creek from MP 299.4 to MP 300.3, about 8 miles south of Bandon.

Also the Committee requested construction of passing lanes on the Coos Bay-Roseburg Highway. He called attention to a project in the 1956 budget for a short "line change" to improve both the horizontal and vertical alignment at Bethel Creek, 9 miles south of Bandon, which is estimated to cost $50,000. He recommended definite approval of such project and that an amount of $50,000 be considered in the 1957 budget for construction of passing lanes on the Oregon Coast Highway or on the Coos Bay-Roseburg Highway at locations which the Committee has suggested. The Commission approved the recommendation and so ordered.

A request was discussed from the U. S. Forest Service that the State take over a wayside area near Austin on the John Day Highway and a similar area at Aneroid Lake in Wallowa County. This matter, the Engineer recalled, was discussed orally during the Commission Inspection Trip on July 13, 1955, and in accordance with instructions given him at that time he discussed it with the Regional Forester, and likewise with the Division Head for Recreation of the Forest Service, neither of whom knew anything about the matter. An investigation, however, was made

and it was determined that the area on the John Day Highway near Austin would be a desirable addition as a rest area facility if overnight camping wereprohibited. The Aneroid Lake site, he said, can be reached only by pack horse or by foot, so should not be given any consideration. As a result of discussion, the Commission ordered the matter dropped until an official request is received from the U.S. Forest Service in writing.

The Engineer's report on the results of receiving bids in Salem on September 26, 1955 for purchase of used equipment and scrap materials located in Salem, Bend, La Grande, and Siletz was considered. The Engineer pointed out that the estimated value of the used equipment and scrap material was $10,203.50 whereas the high bids totalled $15,635.29. Mr. Thurman Sams, who was the high bidder on scrap tires at La Grande, with a unit bid of $22.80 per ton on 24 tons for a total of $547.20, stated that he was unable to accept the tires and requested that his deposit of 10 per cent of the total, or $54.75, be retained and the balance of his total deposit of $115.25 be returned to him. Upon receipt of this information, the Engineer continued, the tires at La Grande were offered to the North West Mat Company, Seattle, at its bid price of $16.80 per ton, or a total of $403.20. He recommended that Mr. Sams' deposit in the amount of $54.75 be forfeited and that the tires be awarded to North West Map Company at $16.80 per ton, and that the North West Map Company be given until December 1, 1955 to remove the tires. The Commission accepted the recommendation.

The matter of assuming maintenance on the Clear Lake-Belknap Springs Road by adding it to the State Secondary System was considered by the Commission. The Engineer pointed out that resolutions have been received from the County Courts of Lane and Linn Counties requesting the State to take over this road as a state secondary highway. He recalled that in previous negotiations to improve this road as a forest road Linn County consistently refused to assume maintenance of the road in that county so the only way to secure Forest Service funds for the improvement would be for the State to take it over as a secondary highway. He pointed out the advantages to be had by improving this road, including the fact that it would provide an all winter route from Eugene and Springfield to Eastern Oregon; that the road is needed for the harvesting of ripe timber in that area; and that the road has statewide importance as it would serve as a connecting link between the Santiam and McKenzie Highway which has been under consideration for many years. Chairman Chandler commented that, although he would not oppose taking over the road as a secondary highway, he still felt that it should be the obligation of Linn and Lane Counties to maintain the road, and that Linn County in refusing to take over the road had exerted undue pressure to have the road taken over as a secondary state highway. There was some further discussion on this matter, at the conclusion of which the Commission designated the Clear Lake-Belknap Springs Road as a State Secondary Highway by adopting the attached resolution relative thereto, marked EXHIBIT "N", which resolution by this reference is made a part hereof, with like effect as though extended in full herein. The Commission also approved a cooperative agreement with the Bureau of Public Roads concerning construction and maintenance of the highway.

The Commission gave attention to a request from the Oakland Chamber of Commerce for an interchange connection to the new Pacific Highway at Cemetery Road due west from Oakland. The Engineer commented that in the light of an investigation made it does not appear that the connection is justified at this time. Action was deferred by the Commission pending the appearance of a delegation on the following day.

(The delegation which appeared on the following day urged the new connection for the economic good of residents of Oakland and because of hazards to highway traffic caused by car owners making "U" turns on the highway to reach Oakland. Later in the day, based upon the Engineer's favorable recommendation due to new facts presented by the delegation, the Commission authorized construction of an interchange) (See additional entry ahead for details.)

The Commission also gave attention to a request from residents along the Springfield-Creswell Secondary Highway, south of its junction with the Willamette Highway, that this road be oiled. The Engineer recalled that this improvement has been considered by the Commission several times in the past and each time was denied because of low priority and lack of funds to finance it. He pointed out that there still are no funds available but he suggested that consideration be given to the improvement when additional funds for this type of road are provided by Congress. The Commission accepted the report and ordered that the proponents of the project be informed of the action and the reasons that prompted it.

Improvement of Lake of the Woods Road in Jackson and Klamath Counties was discussed. The Engineer stated that Jackson County has tentatively agreed to accept that section of the Little Butte Secondary Highway between McAllister Springs and the Klamath County line as a part of the road system of Jackson County. This tentative agreement, he said, is based upon the road being constructed as part of the Federal-Aid Secondary system whereby the County would make available future Federal allocations of 60%, and the State 40% of construction costs, it being understood that Jackson County would acquire the necessary right of way and maintain the road after construction. Word has now been received from Klamath County, he continued, in which the County Court offers to take over as a county road that section of the Klamath Lake Secondary Highway, No. 421, from a junction with Lake of the Woods Road northerly to the north end of the highway at Fort Klamath, if the State will assume jurisdiction over the existing Lake of the Woods Road from its junction with the Klamath Lake Secondary Highway westerly to the Jackson County line, a distance of approximately 13.6 miles. The mileage to be taken over by the County on the Klamath Lake Secondary Highway, he stated, would be approximately 27 miles. He pointed out that Klamath County has improved to a very satisfactory standard the Lake of the Woods Road from its junction with the Klamath Lake Secondary Highway westerly, a distance of 7 miles. The 5.6-mile section westerly to the Jackson County line has been graded and leveled to a fair standard but he estimated that it would cost $416,000 to provide an adequate oiled-surface road. No expenditures appear necessary on the 7-mile section to the east. It was his opinion that the Klamath

County proposition is worthy of consideration but it would be an odd situation if the State required Jackson County to take over a section of State Secondary Highway which now acts as a route for the Lake of the Woods Road and then add a section of county road in Klamath County as a part of the state secondary system. He suggested that no action be taken at this time, pending the appearance of a delegation regarding the subject on the following day. The Commission deferred action for the time being.

(A Jackson County delegation, which appeared before the Commission on the following day, was informed that the Commission is agreeable to the Jackson County proposal but cannot see its way clear to accept the proposal submitted by Klamath County. It was suggested that the two Counties get together to see if mutual agreement can be reached based on the arrangement recommended by the Engineer.) (See ahead for additional entry).

Attention was given to the Engineer's report regarding prevention of accidents at "Watchman's Dip" on the Columbia River Highway, about 12 miles west of Arlington, that result from rocks falling from overhanging cliffs. The Engineer stated that an exhaustive investigation has been made of this matter, and that on the basis of such investigation, it appears that the only complete solution would be to raise the highway embankment so that falling and rolling rocks would strike the embankment rather than the surface of the highway. He estimated the cost to construct such type of improvement at $325,000, and he advised that it would provide protection along the highway for a distance of about 2,700 feet. He pointed out that the condition that prevails at "Watchman's Dip" is not greatly different from conditions that prevail on many other sections of the Columbia River Highway. It was his feeling that an expenditure of $325,000 is not justified in view of the possibility that the highway will be flooded when the proposed John Day Dam is constructed. A great majority of accidents, he said, are caused by cars striking rocks upon the highway; not by the rocks striking the cars. He recommended that a 24-hour patrol be maintained at this location during the approximate 6-months' period when most rocks fall, in lieu of the present 16-hour patrol, and that more conspicuous warning signs be placed. The Commission accepted the recommendation.

The Commission discussed with the Engineer the proposed routing of the Old Oregon Trail Highway through the City of Baker. The Engineer recalled that at the request of a delegation from the City of Baker the Commission instructed him to make a reconnaissance survey of a possible route for US30 which would parallel the Union Pacific Railroad from the intersection of Broadway Avenue and 10th Street on the north to a connection with the existing highway near the intersection of Elm Street and Pennsylvania Avenue on the south. He exhibited a map showing this proposed routing and also another route using Main Street and Resort Street as a one-way couplet. The cost of improving the existing route, including the new route along the railroad track, he estimated at $865,000, whereas the cost to improve the

route using Main Street and Resort Street would be about $573,000. He pointed out the advantages and faults of both routes and he suggested before any large expenditure is committed to the project, that it would be prudent to determine definitely the location of the freeway which probably will by-pass Baker. The people of the City of Baker, he stated, are very much interested in the highway location within the town and also as to where the eventual by-pass route will be. He presented a telegram, dated November 1, 1955, stating that at a special meeting on October 31, the City Council by unanimous vote of those present favored the north-south couplet route, utilizing Resort and Main Streets, with possible variation in the south approach. He recommended that the Commission grant him authority to make a survey to determine a permanent location for US30 in the vicinity of Baker and the most logical connections from such relocation into the city. Commissioner Reynolds pointed out that the Commission some time ago initiated the project so the city is entitled to full information; moreover, in his estimation, it would be a waste of money were the Commission to make a decision until it has complete facts on all possible routes. As a result of further discussion the Commission authorized the Engineer to make investigations and surveys as may be necessary to determine the proper location of the proposed by-pass and connections to the city. (See additional entry ahead covering the appearance of a delegation from Baker on the following day.)

Attention was given by the Commission to a letter from the Port of Astoria and Pacific County, Washington, in which 11 questions were asked concerning the proposed Columbia River Bridge at Astoria. The Engineer recalled that on November 1, 1955 he submitted a written report to the Commission on the subject but since then he has received information to the effect that there is a possibility that Federal-Aid money can be used to help finance construction of the bridge. He pointed out, however, that such use of the Federal money will reduce the amount of funds available for regular highway purposes. The matter was discussed briefly but action was deferred pending the appearance of a delegation from the Astoria District on the following day. (See additional entry ahead).

Items of unfinished business as they appear on the Secretary's summary, dated September 23, 1955, were considered and acted upon as follows:

1. Request for signs on the scenic drives in the Hood River Valley: Action on the matter was again deferred pending Commission inspection. The item is to remain on the list of unfinished business.

2. Adoption of survey on the Laurel Hill-Still Creek Section of the Mt. Hood Highway: This item is to be removed from the list of unfinished business inasmuch as it is the subject of a report to be submitted by the Engineer later in the day. (See ahead for additional entry).

3. Adoption of a survey for the Hinkle Interchange Section of the Hermiston Highway: This item was also ordered removed from the list of unfinished business as it is the subject of the Engineer's report to be submitted later in the day. (See ahead for additional entry).

4. Proposed gift of a park site at Coos Head, west of the City of Coos Bay: This item was disposed of in a report submitted by the Parks Superintendent earlier in the session, and was ordered removed from the list of unfinished business.

5. Proposed addition of the Lake of the Woods Road to the Federal-Aid Secondary System: This item was ordered removed from the list of unfinished business, having been disposed of earlier in the session.

6. Establishment of a roadside rest area adjacent to the Old Oregon Trail near Baker: The Engineer stated that a suitable area has not yet been located but the search will continue. The Commission ordered the item deleted from the list of unfinished business. It is to appear as new business when the matter again arises.

7. Proposed extension of 82nd Avenue from Killingsworth Street to the airport in Multnomah County: The Engineer reported that a survey is being made by Multnomah County, including an investigation of right of way requirements. Airport officials are to be contacted November 8, 1955 for further discussion. The Commission ordered the item deleted from the list of unfinished business. It is to be considered as new business when it again arises.

8. Regional meeting of AASHO Committee on Design in Los Angeles on September 26-28, 1955: This item was ordered deleted from the list of unfinished business as the Engineer submitted a report earlier in the session.

9. Proposed remedial measures to prevent accidents at "Watchman's Dip" on the Columbia River Highway in Columbia River Gorge: This item was the subject of the Engineer's report considered earlier in the day. The item was ordered removed from the list of unfinished business.

10. Resolution from Coquille Chamber of Commerce urging more turnouts or passing lanes on the Oregon Coast Highway and on the Coos Bay-Roseburg Highway in the Coquille area: The Commission ordered this item deleted from the list of unfinished business as the matter had been reported on by the Engineer earlier in the day.

11. Protests from residents of Walton regarding the use of calcium chloride on the Richardson-Eugene Secondary Highway and requesting construction of an oiled surface: This matter was considered in a report submitted by the Engineer earlier in the day and the Commission ordered it removed from the list of unfinished business.

12. Request of Captain H. T. Shaver that riparian rights at Oregon City not be sold: This matter was also ordered removed from the list of unfinished business as it had been considered earlier in a report presented by the Right of Way Engineer.

13. Proposed access to Banfield Expressway at 12th Street involving the Lloyd property: The Engineer reported that contacts had been made with representatives of the Lloyd Corporation, and it appears that they may donate the property if provided with maps and descriptions of the property that the State needs. He was instructed to furnish such information and to submit a report at the next meeting. This item is to remain on the list of unfinished business.

14. Request of McKenzie River and Springfield Chambers of Commerce that the Clear Lake-Belknap Springs Road be added to the State Secondary Highway System: Earlier in the day the Commission approved adding this road to the State Secondary Highway System on the basis of a report submitted by the Engineer; accordingly, the item was ordered removed from the list of unfinished business.

Attention was given by the Commission to a request from Milton R. Scott and T. L. Bransdal for installation of a traffic signal at the intersection of the Mt. Hood Highway and S. E. 136th Avenue, east of Portland. The Engineer advised that this four-way intersection has been studied several times in the past and that the most recent investigation disclosed that conditions very closely approach the nationally accepted warrant for signals. Because of this and because of the large percentage of preventable-type accidents, he recommended that a fully-actuated type signal be installed at this location. He also recommended installation of traffic signals at the intersection of this highway with 122nd Avenue. He explained that the Traffic Engineer at the time of the last investigation studied all major intersections on the Mt. Hood Highway between Portland and Gresham, and it was found that there is no need for traffic signals other than the two mentioned locations. These two installations, he stated, are estimated to cost $10,000 and there are funds in the 1955 minor betterment budget to cover the costs involved which will have to be paid entirely by the State because the locations are outside the corporate limits of any city. The Commission approved both signal installations as recommended.

The proposed budget for the year 1956 was discussed briefly, but action thereon was deferred until the following day. (The budget, including that for parks, was approved on the following day.) Chairman Chandler commented that he did not particularly like the item in the budget which provides $5,000 for cooperative study with the Federal Government concerning water flow in small streams. The Assistant Engineer, Mr. G. S. Paxson, stated that this is the last year for which funds will be requested for this project. Chairman Chandler also inquired as to an item of $50,000

for revision of maps. The Engineer explained that these are detailed county maps which were prepared in 1936 but have not been brought up to date since that time. He pointed out that planning survey monies will be used to finance the work involved.

Attention was given by the Commission to a number of completed surveys reported by the Engineer, covering relocation of sections of state highways. The Engineer advised that these revised locations were given very careful study and represent the most feasible routes, considering cost and benefit, to the traveling public. Upon the Engineer's favorable recommendation, the Commission approved surveys, as follows, by adopting the attached resolutions relative thereto, marked EXHIBITS "K-1" through "K- , which resolutions by this reference are made a part hereof, with like effect as though extended in full herein:

1. John Day River-Donnelly Grade Section of the Service Creek-Mitchell Highway in Wheeler County.

2. South Unit, Forest Boundary-Burns Section of the John Day-Burns and Central Oregon Highways in Harney County.

3. Depp Canyon-Deschutes River Unit, Sisters-Deschutes River Section of the McKenzie Highway in Deschutes County.

4. Laurel Hill-Still Creek Section of the Mt. Hood Highway in Clackamas County.

5. Hinkle Underpass-Umatilla River Section of the Hermiston Highway in Umatilla County.

6. Black Bridge-Richland Section of the Baker-Homestead Highway in Baker County.

7. Lost River-Hatfield Junction Section of the Klamath Falls-Malin Highway in Klamath County.

8. Coquille-Rink Creek Section on the Coos Bay-Roseburg Highway in Coos County.

9. The Deady-Winchester Unit of the Deady-Shady Section on the Pacific Highway in Douglas County.

10. Ferry Street Bridge-Mohawk Road Section on a Lane County road in Lane County.

11. Chehalem Mountain-Newberg Section on the Hillsboro-Silverton Highway in Yamhill County.

In discussing the several surveys, Chairman Chandler inquired if the project on the John Day-Burns Highway will complete that road. The Deputy State Highway Engineer replied in the affirmative. Inquiry was also made concerning

the survey for the Ferry Street Bridge-Mohawk Road Section, otherwise known as the "Q" Street Route, between Eugene and Springfield. The Engineer stated that a careful investigation was made of the survey adopted several months previously, with a view to decreasing right of way costs by the use of an alternate line. The original routing, he stated, is desirable for the greater part of the distance but it has been possible to effect a saving of approximately $100,000 by revising the route near the connection with Ferry Street. He also commented that the portion of the "Q" Street Route from the Ferry Street connection to the proposed US99 interchange is on the proposed interstate highway system as a spur from the main route to an adjoining city. Therefore, the cost of construction between the interchange and Eugene can be financed with interstate funds when Congress makes such funds available. He estimated the over-all cost of the "Q" Street Route from the Ferry Street Bridge in Eugene to a connection with the Mohawk County Road in Springfield at $1,913,300, of which amount, he said, $582,000 represents right of way costs.

The Commission discussed and approved a request from the Engineer for authority to conduct a survey between Pleasant Valley and Oxman Overcrossing on US30 in Baker County at an estimated cost of $19,500.

Confirmation of telephonic approval was requested by the Engineer for permission to submit notices of projects regarding proposed revisions of highway routes within the city boundaries of Ashland, Cornelius, Merrill and Nyssa. The Commission confirmed submission of the notices to the four cities.

The Engineer reported that he had submitted a letter to the Hon. Garnet Barratt, Morrow County Judge, in reply to Mr. Barratt's letter of August 30 concerning improvement of the Heppner-Spray Highway. He said that Judge Barratt's letter concerned the status of this highway as to ownership and maintenance, traffic counts, and cooperation in improving the highway with the Forest Service and the Bureau of Public Roads. He presented a copy of his letter to Judge Barratt which the Commission approved and ordered filed.

A request was considered from Mr. Orlo Cummings, Manager of Suttle Lake Resort on the Santiam Highway, that the Highway Department plow snow from the highway to the resort area, a distance of about 1,400 feet. The Engineer pointed out that the Commission previously approved snow removal operations on the highway leading into Hoodoo Ski Bowl Lodge, Santiam Lodge, and the Methodist Youth Camp. The expense has been nominal and considerable benefit has been derived by keeping automobiles off the highway. The cost of plowing snow as requested, he said, will be about $200 annually. He recommended approval of the request. The Commission accepted the recommendation.

Protests from Mrs. Sylvia Thompson, Otter Rock, and the Lincoln County Realty Board, concerning the maintenance of barricades on old Highway 101 at Otter Crest were considered. These people, the Engineer stated, want the old road kept open for public use. He recommended that

the barricades be kept in place as a safety measure. The Commission accepted the recommendation.

Increases in project authorizations were requested by the Engineer and approved by the Commission as follows:

1. An increase of $55,000 for Contract No. 4200, grading and paving the Willamette Junction-Beaver Marsh Section of The Dalles-California Highway, caused by an overrun in paving tonnage due to the use of a heavy type of cinders.

2. An additional increase of $51,000 for Contract No. 4172, surfacing and paving the Clatskanie-Delena Section of the Columbia River Highway, caused by additional work within the City of Clatskanie not included in the original plans, pavement sealing, and an increase in crushed rock base.

3. An increase of $26,000 for Contract No. 4032, grading, paving and construction of a structure on the Barbur Boulevard Junction Unit of the Barbur Boulevard-White School Section of the Portland-Salem Expressway, due to increasing pavement thickness, additional base rock, and construction of an acceleration lane to allow traffic to blend with merging traffic on US99W, and the sealing of the pavement.

4. An increase of $31,000 for Contract No. 4211, grading the 42nd Avenue-92nd Avenue Section of T. H. Banfield Expressway, caused by additional sprinkling, sealing of the pavement, removing unsuitable material from the roadbed, additional drainage, and other small items.

The Commission discussed with the Engineer bids received at the morning session, and at 4:00 p.m., Commissioner McIver publicly announced the Commission's decision with respect thereto as follows:

"Construction of the Millicoma River Bridge on the Coos River Highway near Allegany in Coos County: The Commission elects to accept the bid of Sig Andersson, North Bend, in the sum of $139,839.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Construction of the Beaver Creek Bridge on a county road near Paulina in Crook County: Concrete Structures, Portland, submitted the low bid for this job at $25,085. This is a county project so the bids are being referred to the Crook County Court for disposal.

"Grading and paving the East Unit, Eagle Rock-Post Section of the Paulina Secondary Highway, about 21 miles southeast of Prineville in Crook County: The Commission awards the contract to the low bidder, Central Paving Co., Independence, at their bid price of $144,386.

"Paving the Shady-Booth Ranch Unit, Shady-Canyonville Section of the Pacific Highway , about five miles south of Roseburg in Douglas County: The Commission awards the contract to the low bidder, The Central Heating Co., Ore. Ltd., Eugene, at their bid price of $383,502.

"Illumination of 16 points of access to the new Freeway on the Anlauf-Shady Unit of the Pacific Highway in Douglas County: The Commission awards the contract to the low bidder, Trowbridge Electric Co., Roseburg, at their bid price of $72,500.

"Construction of 3 structures on the Shady-Canyonville Section of the Pacific Highway in Douglas County: The Commission awards the contract to the low bidder, Valley Construction Co., Portland, at their bid price of $427,220.

"Installation of Traffic Signals at the intersection of Riverside Avenue and the Pacific Highway in Medford, in Jackson County: The Commission elects to accept the bid of Steeck Electric Co., Roseburg, in the sum of $6,600, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary deposits have been made by the City of Medford and Jackson County.

"Siskiyou Junction-Klamath County Line Rock Production Project on the Green Springs Highway, easterly of Ashland in Jackson County: The Commission awards the contract to the low bidder, M. C. Lininger & Sons, Medford, at their bid price of $33,773.

"Construction of Merlin Hill Undercrossing, approximately two miles north of Grants Pass on the Pacific Highway in Josephine County: The Commission awards the contract to the low bidder, Ausland Construction Co., Grants Pass, at their bid price of $52,580.

"Surfacing and oiling the Westside-Dry Creek Section of the Westside County Road, about fourteen miles west and south of Lakeview in Lake County: The Commission elects to accept the bid of Allum Bros., Eugene, in the sum of $92,336 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Lake County is received and the sum of $27,100 is deposited by the County.

"Installation of Traffic Signals at four intersections in Lebanon, in Linn County: The Commission awards the contract to the low bidder, Steeck Electric Co., Roseburg, at their bid price of $11,500.

"Roadside improvement on the Willamette River-Gervais Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway in Marion and Clackamas Counties: The Commission awards the contract to the low bidder, Benedict Nursery Co., Portland, at their bid price of $19,522.50.

"Roadside improvement on the Gervais-Chemawa Railroad Overcrossing Unit, Willamette River-Hayesville Section of the Portland-Salem

Expressway in Marion County: The Commission awards the contract to the low bidder, Knight Pearcy, Salem, at his bid price of $18,134.70.

"Grading and stone base; also construction of one reinforced concrete structure and several concrete retaining walls on the Union Avenue-37th Avenue Section of the T. H. Banfield Expressway in Multnomah County: The Commission elects to accept the bid of Gibbons & Reed Co., Portland, in the sum of $1,097,068 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving; also furnishing crushed material in stock pile on the Moro-Grass Valley Section of the Sherman Highway, in Sherman County: The Commission elects to accept the bid of Roy L. Houck & Sons, Salem, in the sum of $386,230.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Columbia River-Dufur Rock Production Project on The Dalles-California Highway in Wasco County: The Commission elects to accept the bid of C & W Crushing Co., Seaside, in the sum of $22,400 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading and oiling East Unit, McMinnville Airport-Dayton Junction Section of Three Mile Lane Secondary Highway, near Dayton in Yamhill County: The Commission elects to accept the bid of Roy L. Houck & Sons, Salem, in the sum of $238,301 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

An agreement with the U. S. Bureau of Public Roads was presented by the Engineer and approved by the Commission, by which the State will take over the maintenance of a 2.8-mile section of a forest road project on the Willamette Highway, just west of Oakridge. The agreement provides that the State is to assume maintenance of this section immediately without cost to the Federal Government.

The Commission gave attention to a request from Mr. Carl W. Peterson, Clerk, Lane County School District No. 88, Noti, for construction of a footpath along the Richardson-Eugene Secondary Highway between the Noti Grade School and the Post Office in Noti. This request, the Engineer stated, has been carefully investigated and it was determined that the project does not meet the required warrant for approval. He recommended that the request be denied. The Commission accepted the recommendation.

The Commission granted the Engineer's request for authority to spend about $3,000 to conduct a reconnaissance survey on the Columbia River Highway between Rufus and Arlington. The Engineer explained that U. S. Army Engineers have asked the State, in connection with planning for the John Day Dam, if it would conduct such a study to determine whether or not it would be practical to place the Columbia River Highway on top of the plateau at this location.

An agreement with Southern Pacific Company was recommended by the Engineer and approved by the Commission concerning the installation of grade-crossing signals on Central Avenue in Sutherlin, route of the Elkton-Sutherlin Secondary Highway. The Engineer commented that the agreement provides that the State and Company shall contribute 50 per cent each of the cost of installing the signals and that the Company shall assume the entire cost of maintenance of them; also, that the Company shall have the right to remove and salvage the existing crossing signal installed by the Company several years ago.

The Engineer presented requests from Crook, Morrow and Umatilla Counties for revisions to the Federal-aid County Road System. Crook County, he stated, requests the addition of the Barnes Butte Road, FAS-683, which forms a connection between FAS-401, a short distance north of Prineville, and the Ochoco Highway, a distance of 4.5 miles. Morrow County requests addition of the Willow Creek Road, FAS-682, from the Heppner State Highway in Heppner southeasterly along Willow Creek, a distance of 13 miles. Umatilla County has taken over the old route of US30 from a point just east of Pendleton easterly through Mission, and wishes to place this section on the FAS system to form a connection with the existing FAS-473. They also wish to eliminate from the FAS system a short section of FAS 473 easterly from Mission. The Engineer recommended and the Commission approved the changes as presented.

The Engineer also presented a tabulation showing the status of 1956-57 County Federal-aid Secondary Funds as of October 1, 1955, and a list of additional FAS projects requested by several counties. He called attention to the fact that this list of projects includes requests from three counties for cancellation of previously approved projects. He recommended that the additional projects requested by the counties as well as the cancellations be approved. The Commission approved the added projects and cancellations, as follows:

ADDITIONAL PROPOSED 1956 & 1957 COUNTY FAS PROJECTS (10/20/55)

County	FAS Hwy. No.	Section and Description	Programmed Amount
Baker	507	Middle Unit, Rock Creek-Haines Section, 1.5 miles. Top course, surface, and oil.	$ 17,000
	508	Muddy Creek School-Haines Junction Section. 2.6 miles. Top course, surface, and oil.	$ 35,000
		Subtotal, Baker County. . . .	$ 52,000

Additional Proposed 1956 & 1957 County FAS Projects (Cont.)

County	FAS Hwy. No.	Section and Description	Programmed Amount
Crook	683	Barnes Butte Road Section. 4.5 miles. Grade and surface.	$ 57,000
Douglas	244	Pruner Bridge over S. Umpqua River. Structure only.	$120,000
Linn	216	Oak Creek Bridge. Structure only	$ 10,000
	569	Oak Creek Bridge. Structure only.	$ 10,000
	216	Tangent Junction-Oak Creek School Section. 3.1 miles. Paving.	$ 54,000
		Subtotal, Linn County. .	$ 74,000
Malheur	515	S. Unit, Vale-Grand Avenue Section. 6 miles. Grade, surface, and oil.	$146,000
Morrow	682	W. Unit, Heppner-Forest Boundary Section. 6 miles. Surface and oil.	$ 55,000
Sherman	665	Moro Junction-Monkland Section. 5.2 miles Oil.	$ 26,000
	666	County Fairgrounds-Grass Valley Canyon Section. 1.5 miles. Oil.	$ 7,000
		Subtotal, Sherman County	$ 33,000
Umatilla	472	Cayuse-Thornhollow Section. 5 miles. Grade, surface, and oil.	$127,000
Wallowa	491	Weaver Bridge over Wallowa River. Structure only.	$ 34,000
		SUBTOTAL, ADDITIONAL PROJECTS.....	$698,000

PREVIOUSLY APPROVED PROJECTS PROPOSED TO BE CANCELED

Baker	508	Muddy Creek-School-Haines Junction Section. 2.6 miles. Grade, surface, and oil. (Project approved 9/22/55. Proposed for revision as described in above additional proposed projects.)	$ 52,000
Malheur	525	Harper Section. 2 miles. Grade, surface, and oil. (Project approved 8/9/54. Proposed to be canceled and funds included in project on FAS 515 as described in above additional proposed projects.)	$ 40,000

November 3, 1955

Previously Approved Projects Proposed to be Canceled (Cont'd.)(10/20/55)

County	FAS Hwy. No.	Section and Description	Programmed Amount
Wallowa	491	Scotch Creek-Joseph. 3 miles. Pave. (Project approved 10/28/54 for $42,000. Due to over-run in other projects costs only $34,000 is presently available for this project. Proposed to be canceled and funds transferred to bridge on FAS 491 as described in above additional proposed projects.)	$34,000
		LESS SUBTOTAL, PROJECTS PROPOSED TO BE CANCELED. .	$126,000
		TOTAL ADDITIONAL 1956 & 1957 COUNTY FAS FUNDS PROPOSED FOR PROGRAMMING...	$572,000

SUMMARY, FISCAL YEAR 1956 & 1957 FUNDS

Available Funds	$6,200,000
Previously Approved*	5,194,000*
Unprogrammed Balance*	$1,006,000*
Proposed Projects 10/20/55	572,000
Unprogrammed Balance	$ 434,000

* These are revised totals from the "Status, 1956 & 1957 County FAS Funds" tabulation dated October 1, 1955.

A request from the City of Milwaukie for State assistance in widening to 40 feet that portion of the Clackamas Secondary Highway known as Lake Road, from 21st Street in Milwaukie to the city limits was considered by the Commission. This request, the Engineer stated, was referred to the field for investigation and it was determined that the project will cost about $45,000. The City, he said, has agreed to pay 30 per cent of this total which is the estimated cost to remove the old curb, construct new curbs, and to replace driveways. He also said that the present highway at this location carries approximately 3,000 vehicles per day on a pavement 30 feet wide, which is inadequate unless parking is prohibited. As

the City is willing to contribute 30 per cent of the cost, he recommended that consideration again be given to the request when additional secondary funds become available. The recommendation was approved by the Commission.

Consideration was given to a request from State Representative T. R. McClellan, Lincoln County, that an additional lookout or scenic point be provided on the new section of the Oregon Coast Highway at Otter Crest Summit. The Engineer advised that Senator McMinimee joins in this request; also, that an investigation discloses that a very attractive area for 8 or 10 cars can be developed at a cost of $5,400, including a drinking fountain and two or three picnic tables. Upon his favorable recommendation the Commission approved the project.

Consideration was given to a request from Mr. Robert Clute, City Manager, Oregon City, for assistance in maintenance of a part of the Oregon City Street System, particularly those streets on the bluff overlooking the business district that some people use in order to avoid the traffic congestion in the main part of the city. The Engineer explained that the proposed route extends southerly along Washington Street from 7th Street to 5th Street, thence westerly along 5th Street to High Street, thence south along High Street to a connection with the Pacific Highway East near South 2nd Street. The Engineer pointed out that traffic from East 82nd Street now enters US99E at 14th Street which in his estimation is the proper connection because it avoids the steep grades and right angle turns on the proposed route--in fact, the proposed route is greatly inferior to the existing route. He recommended that the request be denied. The Commission accepted the recommendation.

The Commission considered and upon recommendation of the Engineer, approved the following requests for extensions of time within which to complete state highway contracts:

1. Arthur Simonsen & Company, Contract No. 4348, for rock production on the La Grande-North Powder and Medical Springs Highways in Union and Baker Counties, requested an extension of time from August 31, 1955 to October 31, 1955. Extension approved without penalty to September 20, 1955, actual date of completion of the contract.

2. Den Herder & Strobel, Contract No. 4357, for slide correction on the Forest Boundary Slide Correction Unit, Winchester Bay-Forest Boundary Section on the Oregon Coast Highway in Douglas County, requested an extension of time from June 30, 1955 to August 31, 1955. Extension approved without penalty to August 20, 1955, the actual completion date of the contract.

3. Allum Brothers, Contract No. 4352, for grading and surfacing the South Unit, Hayden Bridge-Donna Section of the Eugene-Marcola Road in Lane County, requested an extension of time from July 31, 1955 to September 30, 1955. Extension approved without penalty to September 19, 1955, the actual completion date of the contract.

4. Walt M. Young, Contract No. 4242, for construction of a maintenance building at John Day in Grant County, requested an additional extension of time from June 1, 1955 to June 25, 1955. Extension approved without penalty, to June 24, 1955, the actual completion date of the contract.

5. Oregon Asphaltic Paving Co., Contract No. 4417, for grading and oil mat surfacing the Beals Corner-Parkdale Road Section of the Dougherty Corner-Parkdale Road in Hood River County, requested an extension of time from August 31, 1955 to September 30, 1955. Extension approved as requested without penalty.

6. Lloyd G. Sperling, Contract No. 4294, for extension of Cape Lookout Park in Tillamook County, requested an extension of time from April 30, 1955 to September 10, 1955. Extension approved as requested without penalty.

7. Concrete Structures, Contract No. 4461, for construction of the Abiqua Creek Bridge on the Meridian Road in Marion County, requested an extension of time from September 30, 1955 to December 30, 1955. Extension approved without penalty to November 15, 1955, the anticipated completion date of the contract.

8. Inland Construction Company, Contract No. 4271, for construction of the 82nd Avenue Undercrossing on the T. H. Banfield Expressway in Multnomah County, requested an extension of time from June 30, 1955 to August 23, 1955. Extension approved as requested without penalty.

9. Frank Watt Construction Company and S. & D. Construction Company, Contract No. 4387, for construction of the Little Applegate River and Star Gulch Bridges on the Upper Applegate County Road in Jackson County, requested an extension of time from August 31, 1955 to September 30, 1955. Extension approved as requested without penalty.

10. Wall, Bartrum & Sandford, Contract No. 4164, for construction of a viaduct on the Rocky Point-Brush Creek Section of the Oregon Coast Highway in Curry County, requested an extension of time from June 1, 1955 to September 30, 1955. Extension approved without penalty to September 29, 1955, the actual completion date of the contract.

11. Valley Construction Company, Contract No. 4207, for construction of the Row River Bridges on the Pacific Highway in Lane County, requested an additional extension of time from September 1, 1955 to September 30, 1955. Extension approved without penalty to September 30, 1955.

12. J. W. Briggs, Contract No. 4224, for grading and paving and also construction of a bridge on the Sherman Junction-Willowdale Section of The Dalles-California Highway in Wasco and Jefferson Counties, requested an extension of time from August 31, 1955 to September 30, 1955. Extension approved as requested without penalty.

13. Rogers Construction, Inc., Contract No. 4471, for rock production on the Lane County Line-Willamette Junction Section of the Willamette Highway in Klamath County, requested an extension of time from September 30, 1955 to November 30, 1955. Extension approved as requested without penalty.

14. John R. Saxton, Contract No. 4435, for paving the West Unit, Springfield-Walterville Section of the McKenzie Highway in Lane County, requested an extension of time from September 30, 1955 to October 30, 1955. Extension approved as requested without penalty.

15. Warren Northwest, Inc., Contract No. 4330, for grading and paving the Crow-Gillespie Corners Section of the Territorial Highway in Lane County, requested an extension of time from September 15, 1955, to October 15, 1955. Extension approved without penalty to October 3, 1955, the actual completion date of the contract.

16. Lankford Brothers, Contract No. 4509, for grading and surfacing the John Day (Main Street-S. W. 2nd Avenue) Section of the John Day-Burns Highway in Grant County, requested an extension of time from September 30, 1955 to October 15, 1955. Extension approved without penalty to October 6, 1955, the actual completion date of the contract.

17. A. H. Saxton & Son, Contract No. 4073, for grading and paving the Canyonville-O'Shea Creek Section on the Tiller-Trail Highway in Douglas County, requested an additional extension of time from July 1, 1955 to August 31, 1955. Extension approved as requested without penalty.

18. Peter Kiewit Sons' Company, Contract No. 4240, for construction of the Shady Bridge over the South Umpqua River on the Pacific Highway in Douglas County, requested an extension of time from September 30, 1955 to October 31, 1955. Extension approved as requested without penalty.

19. Tom Lillebo, Contract No. 4297, for construction of six structures on the Coast Fork Willamette River-Divide Section of the Pacific Highway in Lane County, requested an extension of time from June 30, 1955 to November 30, 1955. Extension approved as requested without penalty.

20. C & W Crushing Company, Contract No. 4314, for rock production on the Necanicum Section of the Oregon Coast, Sunset and Necanicum Highways in Clatsop County, requested an additional extension of time from August 31, 1955 to September 20, 1955. Extension approved as requested without penalty.

21. C & W Crushing Company, Contract No. 4322, for rock production on the Clatsop County Line-Rockaway Section of the Oregon Coast and Necanicum Highways in Tillamook County, requested an additional extension of time from August 31, 1955 to September 20, 1955. Extension approved as requested without penalty.

22. La Grande Pipe Co., Contract No. 4446, for grading and stone base surfacing the Glover Overcrossing-Oro Dell Overcrossing Section of the Old Oregon Trail Highway in Union County, requested an extension of time from July 15, 1955 to October 5, 1955. Extension approved as requested without penalty.

23. Willamette Irrigation Co., Contract No. 4290, for roadside improvement on Second Street Connection at Hood River on the Columbia River Highway in Hood River County, requested an extension of time from June 1, 1955 to September 21, 1955. Extension approved as requested without penalty.

24. K. F. Jacobsen & Co., Inc., Contract No. 4174, for grading and paving East Central Avenue in Sutherlin in Douglas County, requested an extension of time from October 1, 1954 to September 15, 1955. Extension approved as requested with an engineering penalty of $350 to be assessed against the contractor.

25. K. F. Jacobsen & Co., Contract No. 4175, for grading and paving Stearns Avenue in Oakland, Douglas County, requested an extension of time from October 1, 1954 to September 15, 1955. Extension approved as requested with an engineering penalty of $220 to be assessed against the contractor.

26. Rogers Construction, Inc., Contract No. 4350, for grading and paving the West Unit, Weston-Weston Mountain Section of the Weston-Elgin Highway in Umatilla County, requested an extension of time from September 30, 1955 to October 6, 1955. Extension approved as requested without penalty.

27. Kissell & Robinson, Contract No. 4269, for fencing project on the Willamette River-Hayesville Section of the Portland-Salem Expressway in Marion and Clackamas Counties, requested an additional extension of time from October 1, 1955 to November 1, 1955. Extension approved as requested without penalty.

28. Porter W. Yett, Contract No. 4020, for grading and pavement widening on the Rice Hill Section of the Pacific Highway in Douglas County, requested an additional extension of time from August 31, 1955 to November 30, 1955. Extension approved without penalty to September 28, 1955, the actual completion date of the contract.

29. Oregon Asphaltic Paving Co., Contract No. 4424, for oiling on Linn County Roads in Linn County, requested an extension of time from September 15, 1955 to October 31, 1955. Extension approved without penalty to October 7, 1955, the actual completion date of the contract.

30. Porter W. Yett, Contract No. 4019, for paving the Anlauf-Rice Hill Unit of the Divide-Rice Hill Section on the Pacific Highway in Douglas County, requested an additional extension of time from August 31, 1955 to November 30, 1955. Extension approved without penalty to October 13, 1955, the actual completion date of the contract.

31. Rogers Construction, Inc., Contract No. 3957, for grading and paving, and also construction of a structure on the Barbur-Boulevard-Boones Ferry Road Unit of the Barbur Boulevard-White School Section of the West Portland (Wilsonville)-Hubbard Highway in Multnomah, Washington and Clackamas Counties, requested an extension of time from September 30, 1954 to September 30, 1955. Extension approved as requested without penalty.

32. Vernie Jarl, Contract No. 4412, for rock production on the Alicel-Minam Section of the Wallowa Lake Highway in Union and Wallowa Counties, requested an extension of time from August 31, 1955 to October 15, 1955. Extension approved as requested without penalty.

33. Morrison & Lamping, Contract No. 4492, for paving Depot Street in Enterprise in Wallowa County, requested an extension of time from September 30, 1955 to October 18, 1955. Extension approved as requested without penalty.

34. Hamilton & Thoms, Contract No. 4421, for construction of Drews Creek and Lost River Bridges in Klamath and Lake Counties, requested an extension of time from October 31, 1955 to November 30, 1955. Extension approved as requested without penalty.

35. Columbia Empire Constructors, Inc. and P. S. Lord Mechanical Contractors, Contract No. 4456, for construction of Wagner Creek and Bear Creek Bridges on the Valley View County Road in Jackson County, requested an extension of time from October 31, 1955 to December 31, 1955. Extension approved as requested without penalty.

36. Parker-Schram Co., Contract No. 4184, for paving and grading the St. Helens-McNulty Creek Section of Old Portland and Gable Roads in Columbia County, requested an additional extension of time from July 31, 1955 to September 21, 1955. Extension approved as requested without penalty.

37. H. G. Palmberg, Contract No. 4018 for construction of Clatskanie River Bridge and County Road Overcrossing on the Columbia River Highway in Columbia County, requested an extension of time from August 31, 1954 to July 15, 1955. Extension approved as requested without penalty.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any

of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

In discussing extensions of time, Chairman Chandler commented that a penalty for failure to complete the contract on time should be assessed against Funderburk Construction Company and Stoen Construction Company, a joint venture on Contract No. 3805 for work on the Depoe Bay-Miner Creek Unit on the Oregon Coast Highway. He pointed out that this job was 14 months late in completion. The Engineer stated that he has given considerable thought to the matter of contractors failing to complete their jobs within the specified time limit and while the study is not complete it appears now that it might be advisable to assess liquidated damages and to allow the contractor a stipulated number of working days in which to complete the contract rather than the present method of allowing a stipulated number of elapsed days and charging the contractor with extra engineering costs. He pointed out that, particularly in Western Oregon, contractors are often subjected to unusually wet periods and are delayed accordingly. Commissioner McIver commented that it had come to his attention that Rogers Construction Company has been receiving a greater number of extensions of time without penalty than has been accorded other contractors, and he inquired if that Company has been favored. The Engineer replied that Rogers Construction Company has received no different treatment than has been accorded other contractors. He again emphasized the need of using a form of liquidated damages as penalty and a stipulated number of working days within which to complete a contract. He added that the Chief Counsel has prepared a specification to cover the situation which will be discussed with the contractors and will be presented to the Commission, perhaps at its meeting in January, for approval.

The Engineer reported that Contract Nos. 3931, 3980, 4018, 4020, 4021, 4057, 4073, 4076, 4121, 4148, 4164, 4174, 4175, 4207, 4240, 4242, 4264, 4271, 4290, 4294, 4302, 4308, 4314, 4318, 4322, 4330, 4332, 4341, 4352, 4357, 4358, 4372, 4383, 4387, 4400, 4402, 4403, 4412, 4416, 4417, 4424, 4446, 4454, 4471, 4475, 4478, 4483, 4492 and 4509 have been completed according to the requirements of the contracts or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer reported that the following cities and towns have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds that have accrued to them during the first half of 1955, and that the plans for the projects proposed to be financed with such funds have been examined and found satisfactory:

Jordan Valley. . . . $ 712.28

Monument 688.14

Yamhill 1,626.78

He recommended approval of the plans by the Commission. The Commission approved the plans by adopting the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission discussed a request from the McKenzie River Chamber of Commerce for improvement of sections of the McKenzie Highway to better accommodate an anticipated increase in traffic caused by construction of the proposed Cougar Dam on the South Fork of the McKenzie River. This matter, the Engineer stated, was investigated and the Army Engineers reported that peak employment will be between 500 and 600 men. The dam is to be of earth-fill construction, which will not require transporting of a great amount of materials to the dam site, and it appears that the increased traffic volume will not exceed 20 per cent, which in numbers would mean an increase from approximately 1,050 to not over 1,400 vehicles daily. The cost of improving the nine miles specifically referred to, he added, would be about $1,250,000. As the anticipated additional traffic appears to be minor, he recommended that the request be denied. The Commission accepted the recommendation.

A letter from the Stillwell Drainage District of Tillamook County, requesting State cooperation in constructing certain proposed improvements to the District's dikes or levees to protect their lands against floods was discussed by the Commission. The Engineer explained that the roadbed of the Netarts Secondary Highway forms a portion of the "Stillwell" dike and to make the project effective will require the raising of a short section of this highway. He pointed out that the highway alignment at this point is quite unsatisfactory and, too, the State is faced with the necessity of rebuilding the Tillamook River Bridge within the next five years. He requested, in view thereof, authority to make a thorough examination of the whole situation. The Commission granted the request.

A request from Mrs. Doris Hansen, Langlois, for a speed zone on the Oregon Coast Highway south of Langlois was considered. The Engineer reported that in view of the facts disclosed by an engineering investigation a reduced speed zone should be established. He recommended the establishment of a 30-mile-per-hour speed zone from M.P. 305.77 to M.P. 306.30, except that between M.P. 305.94 and 306.25 the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission approved such speed zone by adopting the attached resolution relative thereto, marked EXHIBIT "I-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Also considered was a request from Mr. Daniel F. Krotz II, Eagle Point, for traffic control measures on the Crater Lake Highway in the community of Shady Cove. This request, the Engineer stated, had been carefully investigated and from the facts assembled it is his recommendation that a 45-mile-per-hour speed zone be established in this community from a point 0.14 mile south of Alder Street to a point 500 feet north of Indian Creek, and that a 35-mile-per-hour speed zone be established from a point 500 feet north of Indian Creek to a point 0.20 mile north of Mallory Lane, except that a 20-mile-per-hour speed zone be designated during the hours of school crossings between M.P. 21.80 and M.P. 21.92. The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "I-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer also stated that in connection with this engineering investigation it was determined that the no-passing zone requested by Mr. Krotz, due to impairment of horizontal sight distance, is not justified, and he recommended that the request in that respect be denied. The Commission accepted the recommendation.

The Commission also considered requests from Mr. Raymond Carpenter, Jefferson County Farm Bureau, Madras, and Mrs. Bertha Eidemiller, Secretary, Mud Springs Grange, Madras, for a reduced speed zone designation on the Warm Springs Highway, just north of the City of Madras. An investigation, the Engineer reported, indicates that there is a concentration of accidents at the intersection of the Warm Springs Highway and the road leading to the Madras Airport but there is not sufficient warrant for a reduced speed zone. To remedy this situation, he said, additional warning signs are being installed at this intersection. He recommended that the request for the speed zone be denied. The Commission adopted the recommendation.

Mr. Stan Malo, Dallas, by letter requested designation of a reduced speed zone on the Dallas-Rickreall Highway east of the east city limits of Dallas. The Engineer advised that from an engineering investigation it was determined that a 50-mile-per-hour speed zone should be established between the east city limits of Dallas and a point 350 feet west of Fir Villa Road. He recommended approval of such zone designation. The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "I-3", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer reported that requests had been received in recent months from Mr. Stan E. Sherwood, Sales Manager, Coquille Plywood, Inc., Coquille, and from Mr. Howard Maple, Manager, Coos County Chamber of Commerce, Coos Bay, calling attention to hazards that exist on the Oregon Coast Highway between the west city limits of Coquille and Cedar Point Road. He said that an extensive investigation of traffic conditions at the point of access to the Coquille Plywood Corporation's log dump

was made in March, 1955, and from the findings that were reported to the Commission at that time an additional traffic lane was denied. He further stated that the most recent investigation revealed no change in conditions so there still appears to be no reason to revise the original recommendation as regards the extra traffic lane. Side-road symbols, the Engineer stated, have been installed, bracketing the Cedar Point Road, and additional signing appears to be unwarranted. In view of the prevailing speeds and other existing conditions in this vicinity as disclosed by the traffic engineering investigation, he recommended that a 45-mile-per-hour speed zone be established from a point 100 feet west (north) of the Cedar Point Road to a point 0.19 mile west (south) of the west city limits of Coquille. The Commission approved such speed zone designation by adopting the attached resolution relative thereto, marked EXHIBIT "I-4", which resolution by this reference is made a part hereof, with like effect as though extended in full herein. The Engineer also recommended and the Commission approved the stripping of the curve northerly or westerly from the Cedar Point Road for "no passing".

The Commission considered a request from Hollis Huntington, Salem, for a reduced speed zone on the Salem-Dayton Secondary Highway, between the north city limits of Salem and the road leading to Brush College. The Engineer stated that an investigation by the Traffic Engineer disclosed that a reduced speed zone along this highway section is warranted. He recommended that a 45-mile-per-hour speed zone be established from a point 400 feet north of Spring Valley Road to a point 100 feet north of Orchard Heights Road. The Commission approved such speed zone by adopting the attached resolution relative thereto, marked EXHIBIT "I-5", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The matter of prohibiting the parking of vehicles on the shoulders of the T. H. Banfield Expressway in Portland and east of Portland, and on the shoulders of the Portland-Salem Expressway was discussed by the Commission. The Engineer pointed out that large sums of money had been spent in constructing these freeways to handle a large volume of high speed traffic, and that the parking of vehicles along the highway shoulders constitutes a definite hazard. From a careful study of the problem in both instances, he said, it has been concluded that the only satisfactory solution is complete prohibition of parking along highways that have been built as freeways, except in cases of emergency parking. He recommended that all parking be prohibited upon those portions of the T. H. Banfield Expressway and the Portland-Salem Expressway which lie outside the corporate limits of any city or town. Commissioner McIver inquired as to whether "U" turns should be permitted, in which cars traveling in one direction might cross the dividing strip to travel in the opposite direction. He mentioned that the State of Washington provides places in the divider-strip area for traffic officers, ambulances, and other emergency vehicles to turn around and proceed in the opposite direction. After some discussion, it was decided that such "U" turns should be prohibited. The Commission thereupon approved the Engineer's recommendation as to "no parking" on the highway

shoulders, including the prohibition of "U" turns, by adopting the attached resolutions relative thereto, marked EXHIBITS "L-1"through "L-4," which resolutions by this reference are made a part hereof, with like effect as though extended in full herein.

The Commission authorized R. H. Baldock, State Highway Engineer, and G. S. Paxson, Assistant State Highway Engineer, to attend the annual meeting of the Highway Research Board in Washington, D. C., January 16-20, 1956, at an estimated total cost of $756.

The Commission also authorized Mr. J. Al Head, Assistant Traffic Engineer, to attend this meeting, it being understood that his expenses will be paid by the Highway Research Board.

The Engineer requested and the Commission authorized Mr. Robert C. Blensly to attend the annual State Highway Conference in Los Angeles, January 25-27, 1956, at an estimated cost of $160. Mr. Blensly, the Engineer stated, is to present a paper on the experience in Oregon with the electronic traffic scale that is in use on the Wilsonville-White School Section of the Wilsonville-Hubbard Highway.

Presented for the Commission's consideration were a number of resolutions covering the disposition and control of certain sections of old state highways which have been replaced by newly constructed sections. The Engineer explained that these resolutions are the final action following agreements previously entered into with the counties, in which the counties and the State agreed on the disposition that should be made of the old sections. He recommended approval of the abandonment of the following old highway sections:

1. Jasper-Pleasant Hill Section of the Springfield-Creswell Secondary Highway in Lane County. (See EXHIBIT "E-1".)

2. Zigzag-Rhododendron Section of the Mt. Hood Highway in Clackamas County. (See EXHIBIT "E-2".)

3. Emigrant Hill Section of the Old Oregon Trail Highway in Umatilla County. (See EXHIBIT "E-3".)

4. Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County. (See EXHIBIT "E-4".)

5. Crow-Gillespie Corner Section of the Territorial Secondary Highway in Lane County. (See EXHIBIT "E-5".)

6. Weston-Weston Mt. Section of the Weston-Elgin Secondary Highway in Umatilla County. (See EXHIBIT "E-6".)

7. Sherman Junction-Willowdale Section of The Dalles-California Highway in Wasco and Jefferson Counties. (See EXHIBIT "E-7".)

The Commission accepted the recommendation by adopting the attached resolutions relative thereto marked EXHIBIT "E-1" through EXHIBIT "E-7", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Damage to a Buick sedan owned by Mr. George T. Smith, was reported by the Engineer. He explained that on June 22, 1955, on the Pacific Highway a short distance north of Drain, a mechanical failure occurred in the hose attached to an asphalt kettle that was being operated by a highway crew with the result that hot asphalt was sprayed on the sedan. There apparently was no negligence on the part of the state maintenance crew and he recommended that Mr. Smith be reimbursed in the amount of $57, which was the cost of removing the asphalt and placing a patch paint job. The Commission approved the payment.

Attention was given to a form of agreement with the O. W. R. & N Company, and the Union Pacific Railroad Company concerning a temporary private road crossing of the railroad at grade in Wallowa County. The Engineer explained that the grade crossing is needed to permit the contractor to transport materials in connection with the contract on the Werst Corner-Wallowa Section of the Wallowa County Road. The agreement expires on December 31, 1955, and he recommended that it be approved. The Commission approved the agreement.

The Commission also considered an agreement with the State Game Commission concerning construction of an approach road to the Sherars Bridge Secondary Highway at M.P. 8.34. The Engineer stated that this agreement authorizes the Game Commission to construct an approach road across a State-owned stock pile site to provide access to property under control of the Game Commission for the benefit of fishermen seeking access to Buck Hollow Creek and the Deschutes River. The agreement also provides that the Highway Department will perform certain work for the Game Commission at the expense of the Game Commission. The Commission approved the agreement on the Engineer's favorable recommendation.

Erection of a text board to be placed on the Oregon Coast Highway where the highway crosses Pistol River was recommended by the Engineer at a cost of $450. He said that the text for the board, as follows, has been approved by the Memorials Committee of the Oregon Historical Society.

"THE BATTLE OF PISTOL RIVER

SEVERE FIGHTING TOOK PLACE IN CURRY COUNTY DURING THE LAST ROGUE RIVER INDIAN WAR. IN MARCH 1856 A COMPANY OF MINUTE MEN 34 STRONG UNDER COMMAND OF GEORGE H. ABBOTT WERE BESIEGED IN AN IMPROVISED FORTIFICATION OF LOGS BY A LARGE FORCE OF PISTOL RIVER AND ROGUE RIVER INDIANS. THE INDIANS CONTRARY TO THEIR USUAL CUSTOM REPEATEDLY CHARGED WITH DESPERATE COURAGE. THE SIEGE INVOLVING HAND TO HAND FIGHTING WAS CARRIED ON FOR SEVERAL DAYS UNTIL THE INDIANS WERE FINALLY DISPERSED BY REGULAR TROOPS UNDER CAPTAINS ORD AND JONES."

The Commission approved the text board and the text.

The Commission also considered and approved erection of two text boards on the shores of Wallowa Lake, one memorializing the National Indian Cemetery, and the other pointing out the moraines which bound the lake. The Engineer commented that Chief Old Joseph, father of the famous Indian warrior Chief Joseph is buried in this cemetery, and that the texts for the boards, as follows, have been approved by the Memorials Committee of the Oregon Historical Society. He recommended erection of the markers which are estimated to cost approximately $450 each, at State expense.

"NATIONAL INDIAN CEMETERY

THE WALLOWA LAKE INDIAN CEMETERY HAS BEEN USED FOR MANY GENERATIONS AS A BURIAL PLACE FOR THE NEZ PERCE AND UMATILLA INDIAN TRIBES BUT ONLY A FEW OF THE GRAVES HAVE BEEN MARKED. BONES OF CHIEF OLD JOSEPH (TAWEET TUEKAKAS), THE FATHER OF THE FAMOUS INDIAN WARRIOR CHIEF JOSEPH, WERE REBURIED HERE AND A MONUMENT ERECTED TO HIS MEMORY IN 1926. ONE COUPLE, PIONEER FRIENDS OF THE INDIANS, ARE ALSO BURIED HERE."

"WALLOWA LAKE GEOLOGY

WALLOWA LAKE HAS BEEN FORMED BY THE DAMMING ACTION OF GLACIAL DRIFT. THE EASTERLY SHORE OF THE LAKE IS A SPLENDID EXAMPLE OF A LATERAL MORAINE AND THE NORTHERN BOUNDARY OF THE LAKE OF A TERMINAL MORAINE. BEYOND THE TERMINAL MORAINE AN OUTWASH PLAIN EXTENDS BEYOND THE TOWN OF JOSEPH. THE EAST AND WEST LATERAL MORAINES RECORD TWO MAJOR STAGES OF GLACIATION AND POSSIBLY SEVERAL MINOR ADVANCES AND RETREATS DURING EACH STAGE. THE LAKE HAS A DEPTH OF 283 FEET AND THE MAXIMUM HEIGHT OF THE MORAINES IS 1,200 FEET FROM LAKE BOTTOM TO CREST. THE GLACIATION OCCURRED DURING THE LATE PLEISTOCENE AGE APPROXIMATELY A MILLION YEARS AGO AND EXTENDED DOWN TO ABOUT THE 4,500-FOOT LEVEL."

The Commission approved the texts and erection of the textboards as recommended.

Also considered was a request from the Columbia County Historical Society for the erection of a text board at Deer Island on the Columbia River Highway north of St. Helens in Columbia County, memorializing an interesting incident that occurred during the Lewis and Clark Expedition. The text for this marker, the Engineer stated, also has been approved by the Memorials Committee of the Oregon Historical Society. He recommended that the text board be erected at a cost of approximately $450 and the following inscription.

"DEER ISLAND

DEER ISLAND IN THE COLUMBIA WAS NAMED BY THE LEWIS AND CLARK EXPEDITION WHICH CAMPED HERE NOVEMBER 5, 1805 ON ITS WAY DOWN RIVER. HOMEWARD-BOUND THE EXPLORERS CAMPED AGAIN ON MARCH 28, 1806. CAPTAIN CLARK RECORDED: "THIS MORNING WE SET OUT VERRY EARLY AND AT 9 A.M. ARIVED AT AN OLD INDIAN VILLAGE ON THE NE SIDE OF DEER ISLAND WHERE WE FOUND OUR HUNTERS HAD HALTED AND LEFT ONE MAN WITH THE CANOES AT THEIR CAMP. THEY ARRIVED LAST EVENING...AND SIX OF THEM TURNED OUT VERY EARLY TO HUNT, AT 10 A.M. THEY ALL RETURNED TO CAMP HAVEING KILLED SEVEN DEER...THE INDIANS CALL THIS LARGE ISLAND E-LAL-LAR, OR DEER ISLAND..."

The Commission approved the text board as recommended.

Erection of a text board on the Central Oregon Highway east of Vale in Malheur County to mark the place where the Old Oregon Trail crossed the Malheur River was also recommended by the Engineer. The Engineer explained that the wording for the text,as follows, has been approved by the Memorials Committee of the Oregon Historical Society. He recommended erection of the text board at State expense and the following inscription for the same.

"NEAR THIS SPOT WAS THE CROSSING OF THE MALHEUR BY THE OLD OREGON TRAIL. HERE PASSED THE ILL-FATED WHITMAN PARTY IN 1836, THE WEARY TRAVELERS OF THE GREAT MIGRATION IN 1843 AND IN THAT YEAR CAPTAIN FREMONT IN HIS EXPLORATIONS. THE NEARBY HOT SPRINGS OFFERED A RESTING PLACE WHERE BATHS COULD BE TAKEN AND CLOTHING WASHED."

The Commission approved the recommendation.

The Commission considered the desirability of discussing with the Oregon Congressional delegation the proposed Federal Road Bill which is to be presented at the next session of the Congress. The Engineer was instructed to arrange, if possible, a meeting with the group in Portland sometime during November 21, 22, or 23, 1955.

Confirmation of telephone approval was requested by the Secretary for renewal of the Fidelity Bond for Mr. Clifford H. Maison, Auditor, in the amount of $50,000, with the same companies which wrote the original bond, covering a 4-year period ending November 9, 1959, at a total premium cost of $710. The Commission confirmed the renewal of the bond.

Prohibition of parking on the Crater Lake Highway in the vicinity of Derby Road near Casey State Park was discussed. The Engineer reported that Mrs. Caroline L. Harding, Secretary of the Upper Rogue Grange,

Trail, had requested the no-parking zone for the safety of the traveling public. Derby Road, he said, enters the Crater Lake Highway near the mid-point of a curve where sight distance is restricted; also, that there is considerable fishing off the bridge on Derby Road and cars which are parked on the shoulders of the Crater Lake Highway constitute a hazard to traffic on the highway and to traffic entering the highway from Derby Road. He recommended that shoulder parking be prohibited on both sides of the Crater Lake Highway between M.P. 30.73 and M.P. 30.78. The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "L-5", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer brought up for discussion the matter of changing the name of the Beaverton-Aurora Secondary Highway. He explained that portions of the Beaverton-Aurora Secondary Highway in Clackamas and Marion Counties were abandoned to the County on January 18, 1955, and he recommended, in view of the fact that the southern terminus of this highway no longer is at Aurora, that the highway be renamed the Beaverton-Tualatin Secondary Highway No. 141, beginning in the City of Beaverton and extending southerly and easterly through Tualatin to a junction with the Portland-Salem Expressway at M.P. 15.28 in Washington County, a short distance north of the Clackamas County line. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission considered a resolution to change the effective date of a resolution that was adopted on May 25, 1955, altering the route and terminus of the Beaverton-Tualatin Secondary Highway No. 141 in the City of Beaverton. The Engineer explained that a portion of this highway in Beaverton is now being reconstructed and that in his estimation it would be inadvisable to route state highway traffic over it until the work is completed. Upon his favorable recommendation, the Commission adopted the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer recommended for approval certain changes, as follows, in US route numbers necessitated by the rerouting of US30 over portions of the T. H. Banfield Expressway, the Columbia River Highway, and the Old Oregon Trail, and other changes made necessary by the opening of the Glenwood-North Plains Section of the Wilson River Highway.

1. US30, US30 By-pass-Portland and Vicinity: It is desired to remove the routing of US30 from Sandy Boulevard east of 42nd Avenue and assign it to the Banfield Freeway. The present US30 By-pass to be extended easterly from N. E. 99th Avenue via Sandy Boulevard and the Columbia River Highway to a junction with the Banfield Freeway at the Fairview interchange.

2. US30, US30 N, ORE201, ORE52-Ontario and Vicinity: When the Olds Ferry-Ontario Section of the Old Oregon Trail is completed (1.) US30 should be shifted from its present routing via Weiser Junction to the Olds Ferry-Ontario relocated section of the Old Oregon Trail. (2.) the present US30 N should be routed over the Olds Ferry-Ontario Secondary Highway from Weiser Junction to Olds Ferry, (3.) ORE201 should be extended northerly over the Olds Ferry-Ontario Secondary Highway to a junction with US30 N at Weiser Junction. (4.) ORE90 should be dropped and ORE52 be assigned to the Payette Spur.

3. ORE 6, ORE 8-Portland and Vicinity: When the Glenwood -North Plains Section of the Wilson River Highway is completed, the following changes should be made:

(1.) The present routing of ORE 6 between Glenwood and Harbor Drive should be dropped completely and ORE 6 should be extended easterly over the new alignment from Glenwood to the Sunset Highway near North Plains and end at that point.

(2.) ORE 8 established by a previous Commission over the Tualatin Valley Highway from Forest Grove via Hillsboro and Beaverton to a connection with the Sunset Highway near Sylvan, but not presently signed, should be reactivated and extended so that it will ultimately be routed over the Gales Creek County Road from Glenwood to Forest Grove and thence over the Tualatin Valley Highway from Forest Grove via Hillsboro and Beaverton to the Sunset Highway near Sylvan.

He explained that if the Commission approves such route changes he will present them to the American Association of State Highway Officials for confirmation. The Oregon-numbered routes, he stated, will be implemented as the realigned portions of US30 and the Wilson River Highway are opened to traffic. The Commission approved the route changes as recommended.

Consideration was given to a resolution from the Oregon State Motor Association petitioning the State to designate a section of the Mt. Hood Highway between Rhododendron and the loop of the Little Zigzag River as the "E. Henry Wemme Forest Corridor" in honor of the late Mr. E. Henry Wemme who was a pioneer good roads enthusiast and a leader in the early development of the highway between Portland and Mt. Hood. The Engineer recommended approval of the request and that signs be erected similar to those on the Salmon River Highway pointing out "Van Duzer Corridor". The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "M", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission approved the Secretary's report of papers signed by him in behalf of the Commission during the period September 19 to November 1, 1955.

The Commission confirmed Monday and Tuesday, December 19 and 20, 1955, as the date for its next regular meeting, and tentatively scheduled the next following meeting for Thursday and Friday, January 26 and 27, 1956. The Secretary was instructed to make the usual arrangements to hold both meetings in the Imperial Hotel, Portland.

The Engineer recommended that the McMinnville-Airport Junction Section of the Three Mile Lane Secondary Highway be designated a throughway as it is desirable to build the section to throughway standards. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission discussed a proposed agreement with Southern Pacific Company relative to an underground electrical power line crossing of US99 to serve a proposed traffic signal installation at the intersection of Stewart and Riverside Avenues near the south city limits of Medford. The Commission approved the agreement upon the Engineer's favorable recommendation.

The Commission discussed with the Engineer problems to be presented by delegations which will appear before the Commission on the following day. These problems were considered briefly, but no action was taken pending the appearance of the delegations.

Also discussed was a proposal to spend about $5,000 for brochures advertising Oregon State Parks, to be used for distribution within the State of Oregon. It was pointed out that a great deal of effort has been made to advertise State Parks outside of the State of Oregon, and that now may be a good time to make these parks better known to the residents of this State. Commissioner McIver outlined the procedure followed in the State of California and advised that the Park Committee is in favor of such advertising and is going to recommend an appropriation to finance it. Commissioner Reynolds commented that for a number of years when he was a member of the Travel Advisory Committee, it was the policy to advertise the parks on an out-of-state basis. (No action was taken at this time, but on the following day in considering the Travel Information Department Budget, the Commission discussed and approved an item of $5,000 in the 1956 Budget for printing and dispensing park folders within the State.)

Chairman Chandler inquired of the Chief Counsel as to what progress is being made in the acquisition of right of way for the Oregon Coast Highway in Curry County. The Chief Counsel replied that the attitude of the juries apparently has not changed and very high awards are being made in condemnation suits. Chairman Chandler also inquired what progress is being made in the aerial survey of the Coos Bay-Bandon Section in Coos County. The Deputy Highway Engineer replied that all of the "flying" has been done and that maps are now being prepared.

Mr. William Tugman, Chairman of the Parks Advisory Committee and the Travel and Information Advisory Committee, was present and commented briefly on the budget to be presented by the Advisory Committee for the Travel and Information Department. He expressed the feeling that it would be a wise move to distribute literature in Oregon advertising State Parks. He pointed out briefly that printing costs have risen considerably and it will be necessary to increase the Travel Budget for 1956 in order to perform the same services as were rendered during 1955: The Commission took no action on the budget at this time, but thanked Mr. Tugman for his comments.

The meeting adjourned at 5:00 p.m. to reconvene at 9:00 a.m. on the following day.

Portland, Oregon
November 4, 1955

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
L. V. Koons, Assistant Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids, as follows, for highway construction were opened and read aloud by the Secretary who then announced that the award of contracts would be made in the same room at 3:30 p.m.

BAKER COUNTY
GRADING AND OILING WEST UNIT, BLACK BRIDGE-RICHLAND SECTION OF BAKER-HOMESTEAD HIGHWAY

Durbin Bros., Eugene	$135, 672.00
E. C. Hall Co., Portland	143, 595.50
Allum Bros., Eugene	157, 890.00
Richard Beshey, Parma, Idaho	164, 468.50
C. E. Leseberg, Nyssa	175, 612.50
Natt McDougall Co., Portland	193, 215. 00
Eagle Construction Co., Boise, Idaho	217, 965.70

COOS COUNTY
GRADING AND PAVING: ETC. COQUILLE-RINK CREEK SECTION OF COOS BAY-ROSEBURG HIGHWAY

Fred H. Slate Co., Ore. Ltd., & E. C. Hall Co., Portland	$306,278.50
C. R. O'Neil, Creswell	331,185.00
Coos Bay Dredging Co., Inc., Coos Bay	333,350.60
J. Ira McNutt Construction Co., Springfield	350,812.50
Peter Kiewit Sons' Co., Longview, Washington	355,345.00
J. W. Briggs, Bend	369,638.00

CURRY COUNTY
HUNTER CREEK-MACKS ARCH ROCK PRODUCTION PROJECT ON THE OREGON COAST HIGHWAY

Coos Bay Dredging Co., Inc., Coos Bay	$ 25,040.00
Homer G. Johnson, Portland	25,680.00
Peter Kiewit Sons' Co., Longview, Washington	26,240.00
Calkins Crushing Co., Oceanlake	30,400.00

CURRY COUNTY
GRADING AND SURFACING BROOKINGS-MORSE RANCH SECTION OF CHETCO RIVER ROAD

Keith Bros. Construction Co., Medford	$ 39,440.00
Glen Ousley, Eugene	41,747.00
Homer G. Johnson, Portland	43,756.50
Peter Kiewit Sons' Co., Longview, Washington	44,326.00
Martin Kinchelse, Myrtle Point	44,485.50
F. E. Wilburn & Eugene Gardens, Springfield	51,188.08
Floyd Grahm Construction Co. & L. C. Daniel, Lebanon	57,878.00
A. H. Saxton & Son, Corvallis	57,930.00

GRANT COUNTY
GRADING AND OILING EAST UNIT, HAMILTON-LONG CREEK SECTION KIMBERLY-LONG CREEK HIGHWAY

E. H. Itschner Co., Molalla	$ 81,387.00
Allum Bros., Eugene	83,229.50
C. E. Leseberg, Nyssa	83,763.00
K. C. Dack Construction Co., Milton	84,497.00
C. C. Meisel, McMinnville	87,142.00
Arthur Simonsen & Co., Baker	95,329.50
E. C. Hall Co., Portland	97,575.50

November 4, 1955

25550

JACKSON COUNTY
GRADING AND PAVING HELMAN STREET-THIRD STREET (ASHLAND) SECTION OF THE PACIFIC HIGHWAY

T. W. Thomas, Portland	$118,136.90
M. C. Lininger & Sons, Medford	124,171.80

JOSEPHINE COUNTY
EAST FORK ILLINOIS RIVER BRIDGE

Tom Lillebo, Reedsport	$133,760.00
Parker-Johnson Co., Portland	140,105.00
Columbia Empire Constructors & P. S. Lord Mechancial Contractors, Milwaukie	145,110.00
Ausland Construction Co., Grants Pass	146,720.00
Peter Kiewit Sons' Co., Longview, Washington	155,220.00
Hamilton & Thoms, Eugene	156,825.00
Lee Hoffman, Beaverton	162,680.00
Lord Bros. Contractors, Portland	164,246.00
W. H. Shields Construction Co., Eugene	169,960.00

KLAMATH COUNTY
SPRING CREEK HILL-KLAMATH FALLS ROCK PRODUCTION PROJECT ON THE DALLES-CALIFORNIA HIGHWAY

M. C. Lininger & Sons, Medford	$ 18,570.00
F. H. McEwen, Eugene	20,950.00
Clifton & Applegate, Yardley, Washington	21,260.00
Asphalt Paving Co., Klamath Falls	24,960.00
McNutt & Sons, Inc., Salem	27,850.00

MARION COUNTY
GRADING SUBLIMITY GUN CLUB-STOUT CREEK SECTION OF THE NORTH SANTIAM HIGHWAY

Durbin Bros., Eugene	$211,888.50
Roy L. Houck & Sons, Salem	221,357.50
Parker-Schram Co., Portland	233,246.00
C. R. O'Neil, Creswell	239,453.50
Harbert Bros., Estacada	242,030.00
J. W. Briggs, Bend	247,070.00

SERVICE CREEK BRIDGE ON THE SERVICE CREEK-MITCHELL HIGHWAY

A. H. Saxton & Sons, Corvallis	$131,515.00
Schrader Construction Co., Portland	144,650.00
George E. Berry, Beaverton	155,221.00
Marshall Construction Co., Hermiston	166,500.00
Lord Bros. Contractors, Portland	172,046.00

November 4, 1955

A delegation consisting of members of the Port of Astoria, members of the Board of County Commissioners of Pacific County, Washington, and others, appeared before the Commission regarding construction of a bridge across the Columbia River at Astoria. The following people composed the group: Representing the Port of Astoria were William R. Manion, President; F. L. Wright, Secretary; R. J. Bettendorf, Manager; George Fulton, Attorney; G. T. McClean, Engineer; and Mr. Paul Spear, Chicago, Illinois, Consultant. Representing Pacific County, Washington, were County Commissioners Robert Kirkman, Seaview, and Carl Pettit, South Bend, and Mrs. Verna Jacobson, County Auditor, South Bend. Others present were: Dan Thiel, Astoria Chamber of Commerce; Dr. Orval Eaton, State Representative, Astoria; County Judge O. E. Effenberger, Tillamook; and Charles Ross, Chamber of Commerce, Tillamook.

Mr. Manion who headed the group, introduced the members of the delegation, and briefly explained their purpose in coming to the Highway Commission. At his request Mr. Spear explained details with respect to financing the structure based on the combined findings of Tudor Engineering Company and Coverdale & Colpitts who were retained by the sponsors to study the feasibility of the project. He particularly pointed out that the estimated total cost of the project is $25,430,000 of which amount $12,715,000 must be obtained from sources other than the Port of Astoria and Pacific County, Washington.

Mr. Spear also explained that according to the Tudor Engineering Company it will require about 3-½ years to build the bridge, and that to finance construction costs and other expense a bond issue of $29,500,000 is needed. Although the survey shows a rising amount of income in future years, the bond issue cannot be amortized by toll income from the bridge within the first 50 years so a loan of $12,715,000 will be needed. He inquired if the Commission can give any advice as to where such sum of money can be obtained, and if there is any possibility of securing it from the Federal Government. He stated that from the information that has been secured, it appears that income from bridge tolls will not be able to meet interest, maintenance, and other charges and the loan will be needed to carry these charges until the latter part of the proposed 50-year amortization period, during which latter period it is contemplated that bridge income will begin to pay off the requested loan.

Mr. Wright brought up for discussion a letter recently sent to the Commission, signed by the Port of Astoria, Oregon, and Pacific County, Washington, containing a summary of the report on this proposed bridge project and a list of eleven questions, as follows, concerning it that they would like considered and answered.

1. Are there any means available to the Highway Commission by which they could guarantee the toll revenues so that revenue bonds could be issued for the total project cost? Such a guarantee based on the Coverdale and Colpitts net toll revenue estimates would require underwriting approximately $795,000 the first year of bridge operation with progressively smaller annual amounts guaranteed for approximately 26 years.

2. Referring to question No. 1, if some other agency assumed one-half the annual deficit each year for the 26 years, would the Highway Commission be in position to underwrite the other one-half?

3. If means are found to finance this bridge, would the Highway Commission be agreeable to construct, operate and maintain this project either solely or on a cooperative basis with the Washington Toll Bridge Authority or Washington Highway Commission?

4. Would the Highway Commission be in position to assume all or a portion of the maintenance and/or operating costs of the bridge if it were constructed by some other agency?

5. Would this toll bridge be eligible for any federal highway aid funds allocated to your State for primary highways?

6. If above is not permissible at the present time but legislation is passed permitting it, to what amount would the Highway Commission be in a position to allocate funds to the construction of the bridge?

7. If a Federal Interstate Highway Program is adopted by Congress, would the Highway Commission be in position to allot funds to the construction of the bridge in the amount of one-quarter or one-half the project construction cost?

8. In your opinion, are there any means at the Federal level where sufficient funds could be obtained to construct the bridge either in whole or in conjunction with revenue bond financing?

9. All of the above questions assume that the Highway Commission is already empowered to participate in the manners indicated. Is State legislative action necessary for it to participate financially in any way in the construction, operation and/or maintenance of this proposed toll bridge?

10. What suggestions do you have for solving the financial problems facing this project?

11. Will the Highway Commission take leadership in cooperation with the Washington Toll Bridge Authority and/or Washington State Highway Commission in trying to solve the financial problems of this project?

He stated that it is not their intent in any way to put the Commission on the defensive to protect funds that have been allocated to other worthy projects, and that their only purpose is to obtain accurate information as to the Commission's position financially and to request the Commission's leadership and guidance in developing a program to investigate all sources of funds so that a successful conclusion of the bridge study can be reached.

Chairman Chandler advised that the Commission will study the questions and possibly may be able to answer them before adjourning

November 4, 1955

today; anyway they will be answered within the next few days by letter.

Commissioner Reynolds inquired if the group has any possible solutions in mind. Mr. Wright replied that they do not have answers to the questions proposed to the Highway Commission but their hope was that the Commission might be able to help in advising what steps to take. He added that it is not their intention to ask for any assistance which will reduce the Oregon highway program.

The interview was concluded by Chairman Chandler who stated that the Commission will do all that it can to assist in the project so long as such assistance does not interfere with the highway program throughout the State.

(Later in the day the Commission reached agreement on the answers to be given to each of the eleven questions submitted by the delegation and instructed the Engineer to send the answers to the group by letter. See additional entry ahead.)

A delegation representing the Oakland Chamber of Commerce came before the Commission and requested construction of an access road to the newly constructed Pacific Highway near Oakland. The following people were present: Harry Smith, President, Chamber of Commerce; Fay Stearns, Road Committeeman; C. W. Manning, Chief of Police; Lyle Stuwe, City Councilman; and C. W. King, City Attorney; all of Oakland; Floyd Frear, County Road Engineer, Roseburg; Emory Hontoon, Editor, Sutherlin Sun, Sutherlin.

Mr. Smith acted as spokesman and introduced the other members of the delegation. He presented a written brief in support of their oral request and explained details of their problem. He pointed out that people in Oakland now have to go approximately 1.7 miles to the north to get onto the new highway or approximately 4.3 miles to the south, which necessitates going through the town of Sutherlin. During the winter season, he said, sections of the old highway are flooded at times, thereby causing additional difficulties for travel to get in and out of Oakland. He requested a connection with the new Pacific Highway at its junction with the Green Valley Road, sometimes called Cemetery Road. This location, he pointed out, is at the top of a hill and provides good sight distance. He alleged that businessmen in Oakland have lost business by reason of traffic being routed through Sutherlin and he submitted written statements from businessmen in Oakland in support thereof. Mr. Frear stated that the County Court favors the connection as proposed by the delegation and has agreed to cooperate in constructing it and may possibly obtain necessary right of way. He presented a letter from the County Court favoring the connection.

Mr. Smith pointed out that a considerable number of drivers now go north from Oakland to the new highway and then make a "U" turn South. He pointed out that the connection they seek on the Green Valley Road is the shortest distance from Oakland to the highway and could be provided

at moderate cost.

Commissioner McIver inquired if the existing access road to Oakland is properly signed at the north and south ends. Mr. Smith replied that signs are adequate at the north but are not so good at the southern end. He also stated that the railroad crossing in Sutherlin ties up traffic at frequent intervals and that Douglas County has improved the Green Valley Road. It is the wish of the people of Oakland, he stated, that an interchange be constructed at the top of this hill on the Green Valley Road so that traffic can go both north and south.

The Engineer estimated the cost to construct such interchange at this point to accommodate traffic to and from the south at approximately $67,000 and the cost to construct a complete interchange that will accommodate also traffic to and from the north at double that amount. He gave as his considered opinion that the complete interchange is not warranted. Mr. Smith said that they would like to have both connections, but the southbound one is the more important.

Mr. Frear again called attention to the delay caused by railroad trains at the highway crossing in Sutherlin and by the flooding of the highway. It was his opinion that it would cost more to raise the old highway to allow traffic during high water than to construct the access that they have requested.

Chairman Chandler pointed out that the new highway was constructed to freeway standards and that additional road connections will introduce additional hazards to highway traffic. However, he added, the Commission will discuss the matter with the Engineer and will then take action as is deemed appropriate.
